(C) By inserting in the first sentence of redesignated paragraph (a) (4) and in the first sentence of redesignated paragraph (a) (5) of the section after "For taxable years beginning after December 31, 1945," the following: "and before July 1, 1950 (other than the calendar year 1950),".

(D) By adding at the end of redesignated paragraph (a) (7) of the section the following: "For treatment of taxable years beginning before July 1, 1950, and ending after June 30, 1950 (other than the calendar year 1950), see § 29.108–5."

(E) By adding at the end of the section the following new paragraph (b):

(b) *Calendar year 1950 and taxable years beginning after June 30, 1950.* (1) For a taxable year which is the calendar year 1950 and for taxable years beginning after June 30, 1950, section 15 imposes a surtax upon the corporation surtax net income of every corporation, except (i) corporations expressly exempt from all taxation under chapter 1 (see section 101), (ii) corporations subject to tax under Supplement U (see section 421), (iii) foreign corporations not engaged in trade or business within the United States (see section 231 (a)), (4) insurance companies (see Supplement G), and (5) regulated investment companies (see Supplement Q). For surtax on corporations improperly accumulating surplus, see section 102. For treatment of capital gains and losses, see section 117. For treatment of mutual savings banks conducting life insurance business, see section 110.

(2) For such taxable years, the "corporation surtax net income" of a corporation is its net income for the taxable year minus (i) the credit for dividends received provided in section 26 (b) for such year, and (ii), in the case of a public utility, the credit for dividends paid on its preferred stock provided in section 26 (h) for such year, and (iii), in the case of a Western Hemisphere trade corporation (see section 109), the credit provided in section 26 (i) for such year. The credit provided in section 26 (a) for interest received on obligations of the United States or its instrumentalities is not allowable in computing corporation surtax net income for any taxable year.

(3) Section 15 imposes a surtax only upon so much of the corporation surtax net income as is in excess of $25,000. For a taxable year which is the calendar year 1950, the surtax on corporations is determined by computing a tentative surtax of 19 percent of the amount of the corporation surtax net income in excess of $25,000, and by reducing such tentative surtax by an amount equal to 1 percent of the lower of (i) the amount of the credit provided in section 26 (a), relating to interest on certain obligations of the United States and its instrumentalities, or (ii) the amount by which the corporation surtax net income exceeds $25,000. For taxable years beginning after June 30, 1950, the surtax on corporations is at the rate of 22 percent and is upon corporation surtax net income in excess of $25,000.

(4) For treatment of taxable years beginning after June 30, 1950, and before April 1, 1951, and ending after March 31, 1951 (other than the calendar year 1951), see § 29.108–6. For treatment of taxable years beginning before April 1, 1954, and ending after March 31, 1954, see § 29.108–9.

(5) The computation of the surtax on corporations may be illustrated by the following examples:

Example (1). The A Corporation, a domestic corporation (which is neither a public utility referred to in section 26 (h) nor a Western Hemisphere trade corporation referred to in section 26 (i)), has for the calendar year 1950 a net income of $86,000. The net income includes cash dividends received from a corporation (allowable as a credit under section 26 (b) (1)) in the amount of $10,000, and interest on United States obligations (allowable as a credit under section 26 (a) in determining adjusted net income for purposes of corporation normal tax) in the amount of $10,000. The A Corporation's surtax for the calendar year 1950 is $9,875, computed as follows:

Net income		$86,000
Less credit for dividends received (85 percent of $10,000)		8,500
Corporation surtax net income		77,500
Tentative surtax (19 percent of $52,500, the excess of $77,500 over $25,000)		9,975
Less the lower of:		
1 percent of $10,000 (amount of the credit provided in sec. 26 (a))	$100	
or		
1 percent of $52,500 (the excess of $77,500 (corporation surtax net income) over $25,000)	525	
		100
Surtax		9,875

Example (2). The facts are the same as in example (1), above, except that the taxable year is the calendar year 1951 instead of the calendar year 1950. The A Corporation's surtax for the calendar year 1951 is $11,550, computed as follows:

Net income	$86,000
Less credit for dividends received (85 percent of $10,000)	8,500
Corporation surtax net income	77,500
Surtax (22 percent of $52,500, the excess of $77,500 over $25,000)	11,550

PAR. 7. There is inserted immediately preceding § 29.26–1 the following:

SEC. 121. INCREASE IN RATE OF CORPORATION INCOME TAXES (PART II, TITLE I, REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

• • • • •

(g) *Technical Amendments.* (1) Section 26 (h) (2) (relating to definition of public utility) is hereby amended by striking out "As used in this subsection and section 15 (a)" and inserting in lieu thereof "As used in this subsection, subsection (b), and sections 13 and 15".

• • • • •

SEC. 122. CREDITS OF CORPORATIONS (PART II, TITLE I, REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

(a) *Dividends received credit.* Section 26 (b) (relating to credits allowed corporations with respect to dividends received) is hereby amended to read as follows:

(b) *Dividends received.* An amount equal to the sum of:

(1) *In general.* 85 per centum of the amount received as dividends (other than dividends received in taxable years described in paragraph (2) on the preferred stock of a public utility) from a domestic corporation which is subject to taxation under this chapter; and

(2) *Certain preferred stock*—(A) *Taxable years beginning after June 30, 1950.* In the case of taxable years beginning after June 30, 1950, 59 per centum of the amount received as dividends on the preferred stock of a public utility which is subject to taxation under this chapter.

(B) *Calendar year 1950.* In the case of a taxable year beginning on January 1, 1950, and ending on December 31, 1950, 57 per centum of the amount received as dividends on the preferred stock of a public utility which is subject to taxation under this chapter.

For the purpose of this subsection (but not for the purposes of computing adjusted net income), if the whole or any part of a dividend is received after August 31, 1950, in property other than money, then, with respect to such property, the shareholder shall not be considered to have received as a dividend an amount in excess of the adjusted basis of such property in the hands of the distributing corporation at the time of distribution increased in the amount of gain or decreased in the amount of loss recognized to the distributing corporation by reason of such distribution. The credit allowed under this subsection shall not be allowed in respect of dividends received from a corporation organized under the China Trade Act, 1922, 42 Stat. 849 (U. S. C., title 15, c. 4), or from a corporation which under section 251 is taxable only on its gross income from sources within the United States by reason of its receiving a large percentage of its gross income from sources within a possession of the United States. In no event shall the credit allowed by this subsection exceed 85 per centum of the adjusted net income computed without regard to the deduction allowed by section 23 (s).

(b) *Credit for dividends paid on certain preferred stock.* The first sentence of section 26 (h) (1) (relating to amount of credit for dividends paid on certain preferred stock) is hereby amended to read as follows: "In the case of a public utility, the amount of dividends paid during the taxable year on its preferred stock, except that (A) in the case of a taxable year beginning on January 1, 1950, and ending on December 31, 1950, only an amount equal to 33 per centum of the lower of (i) the amount of dividends paid during such taxable year on its preferred stock or (ii) the adjusted net income for such taxable year minus the credit for dividends received provided in subsection (b) for such year, and (B) in the case of any taxable year beginning after June 30, 1950, only an amount equal to 31 per centum of the lower of (i) the amount of dividends paid during such taxable year on its preferred stock or (ii) the adjusted net income for such taxable year minus the credit for dividends received provided in subsection (b) for such year."

(c) *Western hemisphere trade corporations.* Section 26 (relating to credits of corporations) is hereby amended by adding at the end thereof the following new subsection:

(i) *Western hemisphere trade corporations.* In the case of a Western Hemisphere trade corporation (as defined in section 109)—

(1) *Taxable years beginning after June 30, 1950.* In the case of any taxable year beginning after June 30, 1950, an amount equal to 31 per centum of its normal-tax net income computed without regard to the credit provided in this subsection.

(2) *Calendar year 1950.* In the case of a taxable year beginning on January 1, 1950, and ending on December 31, 1950, an amount equal to 33 per centum of its normal-tax net income computed without regard to the credit provided in this subsection.

SEC. 123. EFFECTIVE DATE OF PART II (TITLE I, REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

The amendments made by this part (inc. secs. 121 (g) (1) and 122) shall be applicable only with respect to taxable years ending after December 31, 1949. For treatment of taxable years (other than the calendar year 1950) beginning before July 1, 1950, and ending after June 30, 1950, see section 131.

SEC. 202. CREDITS OF CORPORATIONS (TITLE II, EXCESS PROFITS TAX ACT OF 1950, APPROVED JANUARY 3, 1951).

(a) *Credit for dividends paid on certain preferred stock.* Section 26 (h) (1) (B) of the Internal Revenue Code (relating to credit for dividends paid on certain preferred stock) is hereby amended by striking out "31 per centum" and inserting in lieu thereof "30 per centum".

(b) *Western hemisphere trade corporations.* Section 26 (i) (1) of such code (relating to credit of western hemisphere trade corporations) is hereby amended by striking out "31 per centum" and inserting in lieu thereof "30 per centum".

(c) *Effective date.* The amendments made by this section shall be applicable with respect to taxable years beginning on or after July 1, 1950.

SEC. 122. CREDITS OF CORPORATIONS (PART II, TITLE I, REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Dividends received credit.* Paragraphs (1) and (2) of section 26 (b) (relating to credit for dividends received) are hereby amended to read as follows:

(1) *In general.* 85 per centum of the amount received as dividends (other than dividends described in paragraph (2) on the preferred stock of a public utility) from a domestic corporation which is subject to taxation under this chapter.

(2) *Certain preferred stock*—(A) *Calendar year 1951.* In the case of a taxable year beginning on January 1, 1951, and ending on December 31, 1951, 61 per centum of the amount received as dividends on the preferred stock of a public utility which is subject to taxation under this chapter and with respect to which the credit provided in section 26 (h) for dividends paid is allowable.

(B) *Taxable years beginning after March 31, 1951, and before April 1, 1954.* In the case of taxable years beginning after March 31, 1951, and before April 1, 1954, 62 per centum of the amount received as dividends on the preferred stock of a public utility which is subject to taxation under this chapter and with respect to which the credit provided in section 26 (h) for dividends paid is allowable.

(C) *Taxable years beginning after March 31, 1954.* In the case of taxable years beginning after March 31, 1954, 59 per centum of the amount received as dividends on the preferred stock of a public utility which is subject to taxation under this chapter and with respect to which the credit provided in section 26 (h) for dividends paid is allowable.

(b) *Credit for dividends paid on certain preferred stock.* The first sentence of section 26 (h) (1) (relating to amount of credit for dividends paid on certain preferred stock) is hereby amended to read as follows: "In the case of a public utility, (A) for a taxable year beginning on January 1, 1951, and ending on December 31, 1951, an amount equal to 28 per centum of the lesser of (i) the amount of dividends paid during the taxable year on its preferred stock or (ii) the adjusted net income for such taxable year minus the credit for dividends received provided in subsection (b) for such year, (B) for a taxable year beginning after March 31, 1951, and before April 1, 1954, an amount equal to 27 per centum of the lesser of (i) the amount of dividends paid during the taxable year on its preferred stock or (ii) the adjusted net income for such taxable year minus the credit for dividends received provided in subsection (b) for such year, and (C) for a taxable year beginning after March 31, 1954, an amount equal to 30 per centum of the lower of (i) the amount of dividends paid during the taxable year on its preferred stock or (ii) the adjusted net income for such taxable year minus the credit for dividends received provided in subsection (b) for such year.

(c) *Western Hemisphere trade corporations.* Section 26 (i) (relating to credit of a Western Hemisphere trade corporation) is hereby amended to read as follows:

(i) *Western Hemisphere trade corporations.* In the case of a Western Hemisphere trade corporation (as defined in section 109)—

(1) *Calendar year 1951.* In the case of a taxable year beginning on January 1, 1951, and ending on December 31, 1951, an amount equal to 28 per centum of its normal-tax net income computed without regard to the credit provided in this subsection.

(2) *Taxable years beginning after March 31, 1951, and before April 1, 1954.* In the case of a taxable year beginning after March 31, 1951, and before April 1, 1954, an amount equal to 27 per centum of its normal-tax net income computed without regard to the credit provided in this subsection.

(3) *Taxable years beginning after March 31, 1954.* In the case of a taxable year beginning after March 31, 1954, an amount equal to 30 per centum of its normal-tax net income computed without regard to the credit provided in this subsection.

SEC. 125. EFFECTIVE DATE (PART II, TITLE I, REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

The amendments made by this part (inc. sec. 122) shall be applicable only with respect to taxable years beginning after March 31, 1951, and to taxable years beginning on January 1, 1951, and ending on December 31, 1951. • • • For treatment of taxable years (other than the calendar year 1951) beginning before April 1, 1951, and ending after March 31, 1951, see section 131.

SEC. 311. CREDIT FOR DIVIDENDS RECEIVED (TITLE III, REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Dividends from foreign corporation engaged in trade or business in the United States.* Section 26 (b) (relating to dividends received credit) is hereby amended by inserting after paragraph (2) the following new paragraph:

(3) *Dividends received from certain foreign corporations.* In the case of dividends received from a foreign corporation (other than a foreign personal holding company) which is subject to taxation under this chapter, if, for an uninterrupted period of not less than 36 months ending with the close of such foreign corporation's taxable year in which such dividends are paid (or, if the corporation has not been in existence for 36 months at the close of such taxable year, for the period the foreign corporation has

profits of $10,000 for each taxable year during

been in existence as of the close of such taxable year) such foreign corporation has been engaged in trade or business within the United States and has derived 50 per centum or more of its gross income from sources within the United States—

(A) an amount equal to 85 per centum of the dividends received out of its earnings or profits specified in clause (2) of the first sentence of section 115 (a), but such amount shall not exceed an amount which bears the same ratio to 85 per centum of such dividends received out of such earnings or profits as the gross income of such foreign corporation for the taxable year from sources within the United States bears to its gross income from all sources for such taxable year, and

(B) an amount equal to 85 per centum of the dividends received out of that part of its earnings or profits specified in clause (1) of the first sentence of section 115 (a) accumulated after the beginning of such uninterrupted period, but such amount shall not exceed an amount which bears the same ratio to 85 per centum of such dividends received out of such accumulated earnings or profits as the gross income of such foreign corporation from sources within the United States for the portion of such uninterrupted period ending at the beginning of such taxable year bears to its gross income from all sources for such portion of such uninterrupted period.

For determination of earnings or profits distributed in any taxable year, see section 115 (b).

• • • • •

(c) *Effective date.* The amendments made by this section shall be applicable only with respect to taxable years beginning after December 31, 1950.

SEC. 612. CREDIT IN PRIOR TAXABLE YEARS FOR DIVIDENDS RECEIVED ON PREFERRED STOCK OF A PUBLIC UTILITY (TITLE VI, REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

In the case of taxable years beginning before April 1, 1951, any reference in section 15 (a) or 26 (b) of the Internal Revenue Code to dividends received on the preferred stock of a public utility shall be construed as referring only to dividends received on the preferred stock of a public utility with respect to which the credit provided in section 26 (h) of such Code for dividends paid was allowable.

PAR. 8. Section 29.26–5, as amended by Treasury Decision 5384, approved June 30, 1944, is further amended as follows:

(A) By amending the first sentence of paragraph (a) (1) of the section to read as follows: "A credit is provided in section 26 (h) for dividends paid during the taxable year by certain public utility corporations on certain preferred stock."

(B) By inserting in the first sentence of paragraph (a) (2) of the section after "For the purposes of section 26 (h)" the following: "and this section".

(C) By striking out the heading and the first sentence of paragraph (b) of the section and inserting in lieu thereof the following:

(b) *Amount of credit.* (1) For taxable years beginning before July 1, 1950 (other than the calendar year 1950), the credit provided in section 26 (h) is an amount equal to the dividends paid during the taxable year by a public utility on its preferred stock. For a taxable year which is the calendar year 1950 and for taxable years beginning after June 30, 1950, the credit provided in section 26 (h) is an amount equal to a specified percent of the lesser of (i) the amount of the dividends paid during the taxable year by a public utility on its preferred stock or (ii) the adjusted net income of the public utility for such taxable year minus the credit for dividends received allowable to such public utility for such taxable year under section 26 (b). The specified percent applicable for the respective taxable years is as follows:

	Percent
For a taxable year which is the calendar year 1950	33
For taxable years beginning after June 30, 1950, and before Apr. 1, 1951 (other than the calendar year 1951)	30
For a taxable year which is the calendar year 1951	28
For taxable years beginning after Mar. 31, 1951, and before Apr. 1, 1954	27
For taxable years beginning after Mar. 31, 1954	30

For taxable years beginning before July 1, 1950, and ending after June 30, 1950 (other than the calendar year 1950), see § 29.108–5. For taxable years beginning after June 30, 1950, and before April 1, 1951, and ending after March 31, 1951 (other than the calendar year 1951), see § 29.108–6. For taxable years beginning before April 1, 1954, and ending after March 31, 1954, see § 29.108–9.

(2) For taxable years beginning after December 31, 1943, the amount of dividends paid in a given taxable year shall not include any amount distributed in such year with respect to dividends unpaid and accumulated in any taxable year ending prior to October 1, 1942.

(D) By striking out in the second sentence of paragraph (c) (2) of the section "the appropriate allocable portion of the total amount of dividends paid on such stock will be allowable as a credit under such section" and inserting in lieu thereof "the appropriate allocable portion of the total amount of dividends paid on such stock will be considered as having been paid on stock which was issued prior to October 1, 1942".

(E) By striking out the fourth and sixth sentences of the example following paragraph (c) (2) of the section.

PAR. 9. There is inserted immediately after § 29.26–5, as amended by Treasury Decision 5384, the following new sections:

§ 29.26–6 *Credit for dividends received*—(a) *Dividends on stock of domestic corporation.* A credit is provided in section 26 (b) for dividends received from a domestic corporation which is subject to taxation under chapter 1 of the Internal Revenue Code. Such credit of a corporation for a taxable year is, except as provided in paragraph (d) of this section, an amount equal to 85 percent of such dividends received by the corporation during the taxable year. For the purpose of determining the corporation surtax net income for taxable years beginning before July 1, 1950 (other than the calendar year 1950), dividends received on the preferred stock of a public utility with respect to which the credit for dividends paid provided in section 26 (h) is allowable to the distributing corporation shall be disregarded in determining the credit under this paragraph. The credit under this paragraph for a taxable year which is the calendar year 1950 and for taxable years beginning after June 30, 1950, shall be determined without regard to dividends received on the preferred stock of a public utility with respect to which the credit for dividends paid provided in section 26 (h) is allowable to the distributing corporation. For taxable years beginning before July 1, 1950, and ending after June 30, 1950 (other than the calendar year 1950), see § 29.108–5. For credit for such dividends received on the preferred stock of a public utility, see paragraph (b) of this section. If a credit for dividends paid is not allowable to the distributing corporation under section 26 (h) with respect to the dividends on its preferred stock, such dividends received from a domestic public utility corporation subject to taxation under chapter 1 are includible in determining the credit under this paragraph.

(b) *Dividends on certain preferred stock of public utilities.* For a taxable year which is the calendar year 1950 and for taxable years beginning after June 30, 1950, a credit is provided in section 26 (b) (2) for dividends received on certain preferred stock of certain public utility corporations subject to taxation under chapter 1 of the Internal Revenue Code. Such credit is allowable only for dividends received on the preferred stock of a public utility with respect to which the credit for dividends paid provided in section 26 (h) is allowable to the distributing corporation. The credit of a corporation under section 26 (b) (2) for a taxable year is, except as provided in paragraph (d) of this section, an amount equal to the following percent of such dividends received by the corporation during the taxable year:

	Percent
For a taxable year which is the calendar year 1950	57
For taxable years beginning after June 30, 1950, and before Apr. 1, 1951 (other than the calendar year 1951)	59
For a taxable year which is the calendar year 1951	61
For taxable years beginning after Mar. 31, 1951, and before Apr. 1, 1954	62
For taxable years beginning after Mar. 31, 1954	59

For taxable years beginning before July 1, 1950, and ending after June 30, 1950 (other than the calendar year 1950), see § 29.108–5. For taxable years beginning after June 30, 1950, and before April 1, 1951, and ending after March 31, 1951 (other than the calendar year 1951), see § 29.108–6. For taxable years beginning before April 1, 1954, and ending after March 31, 1954, see § 29.108–9.

(c) *Dividends on stock of certain foreign corporations.* (1) For taxable years beginning after December 31, 1950, a credit is provided in section 26 (b) (3) for dividends received from a foreign corporation (other than a foreign personal holding company as defined in section 331) which is subject to taxation under chapter 1 of the Internal Revenue Code if, for an uninterrupted period of not less than 36 months ending with the close of the foreign corporation's taxable year in which the dividends are paid, such foreign corporation has been engaged in trade or business within the United States and has derived 50 percent or more of its gross income from sources within the United States. If the foreign corporation has been in existence less than 36 months as of the close of the taxable year in which the dividends are paid, then the applicable uninterrupted period to be taken into consideration in lieu of the uninterrupted period of 36 or more months is the entire period such corporation has been in existence as of the close of such taxable year. An uninterrupted period which satisfies the twofold requirement with respect to business activity and gross income may start at a date later than the date on which the foreign corporation first commenced an uninterrupted period of engaging in trade or business within the United States, but the applicable uninterrupted period is in any event the longest uninterrupted period which satisfies such twofold requirement.

(2) The credit of a corporation under section 26 (b) (3) for a taxable year is, except as provided in paragraph (d) of this section, an amount equal to 85 percent of such dividends:

(i) Received out of the foreign corporation's earnings or profits for its taxable year in which the dividends are paid (computed as of the close of such taxable year without diminution by reason of any distributions made during such taxable year) without regard to the amount of the earnings and profits at the time the distribution was made, but not in excess of an amount which bears the same ratio to 85 percent of such dividends received as the gross income of the foreign corporation for such taxable year from sources within the United States bears to its gross income from all sources for such year, and

(ii) Received out of that part of the foreign corporation's earnings or profits accumulated after February 28, 1913, which has accumulated after the beginning of the applicable uninterrupted period, but not in excess of an amount which bears the same ratio to 85 percent of such dividends received as the gross income of the foreign corporation from sources within the United States for that portion of the applicable uninterrupted period which ends at the beginning of its taxable year in which the dividends are paid bears to its gross income from all sources for the same portion of such applicable uninterrupted period.

(3) The determination of earnings or profits distributed in any taxable year shall be made in accordance with the principles of section 115 (b) of the Internal Revenue Code. For the determination of the source of income, see section 119 and the regulations thereunder.

(4) The application of section 26 (b) (3) may be illustrated by the following examples:

Example (1). Corporation A (a foreign corporation filing its income tax return on a calendar year basis) whose stock is 100 percent owned by Corporation B (a domestic corporation filing its income tax return on a calendar year basis) for the first time engaged in trade or business within the United States on January 1, 1940, and qualifies under section 26 (b) (3) for the entire period beginning on that date and ending on December 31, 1951. Corporation A had accumulated earnings or profits of $50,000 immediately prior to January 1, 1940, and had earnings or profits of $10,000 for each taxable year during the uninterrupted period from January 1, 1940, through December 31, 1951. It derived for the period from January 1, 1940, through December 31, 1950, 90 percent of its gross income from sources within the United States, and in 1951 derived 95 percent of its gross income from sources within the United States. During the calendar years 1940, 1941, 1942, 1943, and 1944 Corporation A distributed in each year $15,000; during the calendar years 1945, 1946, 1947, 1948, 1949, and 1950 it distributed in each year $5,000; and during the year 1951, $50,000. For 1951 a dividends received credit of $31,025 is allowable to Corporation B with respect to the $50,000 received from Corporation A, computed as follows:

(i) $8,075 which is $8,500 (85 percent of the $10,000 of earnings or profits of the taxable year) multiplied by 95 percent (the portion of the gross income of Corporation A derived during the taxable year from sources within the United States), plus

(ii) $22,950 which is $25,500 (85 percent of $30,000 (that part of the earnings or profits accumulated after the beginning of the uninterrupted period)) multiplied by 90 percent (the portion of the gross income of Corporation A derived from sources within the United States during that portion of the uninterrupted period ending at the beginning of the taxable year).

Example (2). If in example (1) Corporation A for the taxable year 1951 had incurred a deficit of $10,000 (shown to have been incurred prior to December 31), and if it had distributed $50,000 on December 31, 1951, the dividends received credit allowable to Corporation B would be $15,300, computed by multiplying $17,000 (85 percent of $20,000 earnings or profits accumulated after the beginning of the uninterrupted period) by 90 percent (the portion of the gross income of Corporation A derived from United States sources during that portion of the uninterrupted period ending at the beginning of the taxable year).

(5) For taxable years beginning before July 1, 1950, and ending after June 30, 1950 (other than the calendar year 1950), see § 29.108–5. For taxable years beginning after June 30, 1950, and before April 1, 1951, and ending after March 31, 1951 (other than the calendar year 1951), see § 29.108–6.

(d) *Limitations on credit.* No credit is allowable under section 26 (b) in respect of dividends received from a corporation organized under the China Trade Act, 1922, 42 Stat. 849 (U. S. C., title 15, c. 4), or from a corporation which under section 251 is taxable only on its gross income from sources within the United States by reason of its receiving a large percentage of its gross income from sources within a possession of the United States. For taxable years beginning before January 1, 1946, the credit under section 26 (b) is limited to 85 percent of the corporation's adjusted net income reduced by the credit provided in section 26 (e) for income subject to the excess profits tax imposed by subchapter E of chapter 2 of the Internal Revenue Code. For taxable years beginning after December 31, 1945, and ending before January 1, 1950, the credit under section 26 (b) is limited to 85 percent of the corporation's adjusted net income. For taxable years ending after December 31, 1949, the credit under section 26 (b) (that is, the sum of the credits determined under paragraphs (a), (b), and (c) of this section) is limited to 85 percent of the corporation's adjusted net income computed without regard to the deduction for net operating loss allowed by section 23 (s). For the purpose of section 26 (b) and this section (but not for the purpose of computing adjusted net income), if the whole or any part of a dividend is received after August 31, 1950, in property other than money, the amount of such dividend in such property shall not be considered to be in excess of the adjusted basis of such property in the hands of the distributing corporation at the time of distribution increased in the amount of gain or decreased in the amount of loss recognized to the distributing corporation by reason of such distribution. In no event shall the amount of the dividend in property other than money be treated as an amount greater than the fair market value of such property received by the shareholder. For definition of the term "adjusted net income", see section 13 (a) (1) and § 29.13–1. For taxable years beginning in 1945 and ending in 1946, see § 29.108–2.

§ 29.26–7 *Credit of Western Hemisphere trade corporations.* For a taxable year which is the calendar year 1950 and for taxable years beginning after June 30, 1950, a credit is provided in section 26 (i) for Western Hemisphere trade corporations as defined in section 109. The credit under section 26 (i) of a Western Hemisphere trade corporation for a taxable year is an amount equal to the following percent of its normal-tax net income for such taxable year computed without regard to such credit:

	Percent
For a taxable year which is the calendar year 1950	33
For taxable years beginning after June 30, 1950, and before Apr. 1, 1951 (other than the calendar year 1951)	30
For a taxable year which is the calendar year 1951	28
For taxable years beginning after Mar. 31, 1951, and before Apr. 1, 1954	27
For taxable years beginning after Mar. 31, 1954	30

For taxable years beginning before July 1, 1950, and ending after June 30, 1950 (other than the calendar year 1950), see § 29.108–5. For taxable years beginning after June 30, 1950, and before April 1, 1951, and ending after March 31, 1951 (other than the calendar year 1951), see § 29.108–6. For taxable years beginning before April 1, 1954, and ending after March 31, 1954, see § 29.108–9.

PAR. 10. There is inserted immediately preceding § 29.52–1 the following:

SEC. 124. FILING OF CORPORATION RETURNS FOR TAXABLE YEARS ENDING AFTER MARCH 31, 1951, AND BEFORE OCTOBER 1, 1951 (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

In the case of a corporation subject to a tax imposed by chapter 1 of the Internal Revenue Code for a taxable year ending after March 31, 1951, but prior to October 1, 1951, such corporation shall after the date of the enactment of this act and on or before January 15, 1952, make a return for such taxable year with respect to the tax imposed by chapter 1 of the Internal Revenue Code for such taxable year. The return required by this section for such taxable year shall constitute the return for such taxable year for all purposes of the Internal Revenue Code; and no return for such taxable year, with respect to any tax imposed by chapter 1 of

such code, filed on or before the date of the enactment of this act shall be considered for any of such purposes as a return for such year. The taxes imposed by chapter 1 of such code (determined with the amendments made by this act) for such taxable year shall be paid on January 15, 1952, in lieu of the time prescribed in section 56 (a) of such code. All payments with respect to any tax for such taxable year imposed by chapter 1 of such code under the law in effect prior to the enactment of this act, to the extent that such payments have not been credited or refunded, shall be deemed payments made at the time of the filing of the return required by this section on account of the tax for such taxable year under Chapter 1 determined with the amendments made by this act.

PAR. 11. There is inserted immediately after § 29.52–3, as added by Treasury Decision 5861, approved October 18, 1951, the following new section:

§ 29.52–4 *Certain corporation returns for taxable years ending after March 31, 1951, and before October 1, 1951.* The return of a corporation subject to a tax imposed by chapter 1 of the Internal Revenue Code for a taxable year ending after March 31, 1951, and before October 1, 1951, shall be filed after October 20, 1951 (the date of enactment of the Revenue Act of 1951), and on or before January 15, 1952. Such return shall constitute the return for such taxable year, and no return for such taxable year filed on or before October 20, 1951, shall be considered as a return for such taxable year. The taxes for such taxable year shall be paid on or before January 15, 1952. All payments of tax (including interest, penalties, and additions to the tax) for such taxable year made on or before October 20, 1951, shall be deemed to be payments of tax made at the time of the filing of the return required by this section to be filed on or before January 15, 1952, except to the extent any such payments are credited or refunded prior to the time such return is filed. The provisions of § 29.56–1 (b) (3) (ii) and (iv) shall apply with respect to the payment of such tax by installment payments, and for such purpose, the date prescribed for the payment of the tax as a single payment is January 15, 1952.

PAR. 12. Section 29.53–1, as amended by Treasury Decision 5893, approved April 4, 1952, is further amended by adding at the end of the section the following undesignated paragraph:

For provisions relating to the time for filing certain corporation returns for taxable years ending after March 31, 1951, and before October 1, 1951, see § 29.52–4.

PAR. 13. Section 29.104–1 is amended to read as follows:

§ 29.104–1 *Tax on banks.* For taxable years beginning before July 1, 1950 (other than the calendar year 1950), a bank, as defined in section 104 (a), is, under section 104 (b), subject to the tax imposed by section 13 if it has a normal-tax net income of more than $25,000 (see § 29.13–1), or to the tax provided by section 14 (b) if it has a normal-tax net income of not more than $25,000 (see § 29.14–1). For a taxable year which is the calendar year 1950 and for taxable years beginning after June 30, 1950, a bank, as defined in section 104 (a), is, under section 104 (b), subject to the normal tax on corporations imposed by section 13 (see § 29.13–1). Such a bank is also subject to the surtax imposed by section 15 (see § 29.15–1). For treatment of mutual savings banks conducting life insurance business, see section 110.

PAR. 14. Section 29.109–1 is amended as follows:

(A) By striking out the first sentence and so much of the second sentence of paragraph (a) as precedes the colon and inserting in lieu thereof the following: "The term 'Western Hemisphere trade corporation' for the purposes of chapter 1 of the Internal Revenue Code means a domestic corporation which meets the following tests:".

(B) By striking out in the last sentence of paragraph (a) of the section "A domestic corporation is not excluded from the exemption" and inserting in lieu thereof "A domestic corporation is not excluded from the definition".

(C) By striking out in the first sentence of paragraph (b) of the section "A corporation which claims exemption as a Western Hemisphere trade corporation" and inserting in lieu thereof "A corporation which claims to qualify as a Western Hemisphere trade corporation".

PAR. 15. There is inserted immediately preceding § 29.119–1 the following:

SEC. 311. CREDIT FOR DIVIDENDS RECEIVED (TITLE III, REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

* * * * * * *

(b) *Technical amendment.* Section 119 (a) (2) (B) (relating to rules as to source of income in the case of dividends) is hereby amended by inserting before the semicolon at the end thereof the following: "to the extent exceeding the amount which is 100/85ths of the amount of the credit allowable under section 26 (b) in respect of such dividends".

(c) *Effective date.* The amendments made by this section shall be applicable only with respect to taxable years beginning after December 31, 1950.

PAR. 16. Section 29.119–3 is amended as follows:

(A) By changing the last sentence of paragraph (b) of the section to read as follows: "However, for the purpose of section 131, relating to credits for taxes of foreign countries and possessions of the United States, dividends from a foreign corporation shall, for taxable years beginning before January 1, 1951, be treated as income from sources without the United States; and, for taxable years beginning after December 31, 1950, as income from such sources to the extent exceeding the amount which is 100/85ths of the amount of the credit, if any, allowable under section 26 (b) in respect of such dividends."

(B) By striking out in the last undesignated paragraph of the section "(except for the purposes of section 131)" and inserting in lieu thereof the following: "(except for the purpose of section 131 to the extent indicated in paragraph (b) of this section)".

PAR. 17. There is inserted immediately preceding § 29.122–1 the following:

SEC. 121. INCREASE IN RATE OF CORPORATION INCOME TAXES (PART II, TITLE I, REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

* * * * * * *

(g) *Technical amendments.*

* * * * * * *

(2) Section 122 (d) (relating to amount of net operating loss deduction) is hereby amended by striking out "without the credit provided in section 26 (e)" and inserting in lieu thereof "without the credits provided in section 26 (b) and (e)".

* * * * * * *

SEC. 123. EFFECTIVE DATE OF PART II (TITLE I, REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

The amendments made by this part (inc. sec. 121 (g) (2)) shall be applicable only with respect to taxable years ending after December 31, 1949. * * *

PAR. 18. Section 29.122–5 is amended by striking out at the end of paragraph (a) (2) the first sentence "the credit provided in section 26 (e) for income subject to the excess profits tax shall not be allowed" and by inserting in lieu thereof the following: "the credits provided in section 26 (e) for income subject to the excess profits tax, section 26 (h) for dividends paid by a public utility on its preferred stock, and section 26 (i) in the case of a Western Hemisphere trade corporation, shall not be allowed."

PAR. 19. There is inserted immediately preceding § 29.204–1 the following:

SEC. 121. INCREASE IN RATE OF CORPORATION INCOME TAXES (PART II, TITLE I, REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

* * * * * * *

(g) *Technical amendments.*

* * * * * * *

(4) Effective with respect to taxable years beginning after June 30, 1950, and with respect to taxable years beginning on January 1, 1950, and ending on December 31, 1950, section 204 (a) (1) (relating to insurance companies other than life or mutual) is hereby amended by striking out "at the rates specified in section 13 or section 14 (b) and in section 15 (b)" and inserting in lieu thereof "computed as provided in section 13 (b) and in section 15 (b)."

* * * * * * *

PAR. 20. Section 29.204–1, as amended by Treasury Decision 5369, approved May 11, 1944, is further amended by striking out paragraph (c) and inserting in lieu thereof the following:

(c) Insurance companies are subject to both normal tax and surtax. For taxable years beginning before July 1, 1950 (other than the calendar year 1950), the normal tax shall be at the rate specified in section 13 (b) for such years if the company has a normal-tax net income of more than $25,000, or at the rate specified in section 14 (b) for such years if it has a normal-tax net income of not more than $25,000. For a taxable year which is the calendar year 1950 and for taxable years beginning after June 30, 1950, the normal tax shall be computed as provided in section 13 (b) for such years. For what constitutes normal-tax net income for the respective taxable years, see § 29.13–1. For taxable years beginning before July 1, 1950 (other than the calendar year 1950), the surtax shall be at the rate specified in section 15 (b) for such years. For a taxable year which is the calendar year 1950 and for taxable years beginning after June 30, 1950, the surtax shall be computed as provided in section 15 (b) for such years. For what constitutes corporation surtax net income for the respective taxable years, see § 29.15–1. For alternative tax where the net long-term capital gain for any taxable year exceeds the net short-term capital loss, see section 117 (c) and the regulations thereunder.

PAR. 21. There is inserted immediately preceding § 29.207–1 the following:

SEC. 121. INCREASE IN RATE OF CORPORATION INCOME TAXES (PART II, TITLE I, REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

* * * * * * *

(d) *Mutual insurance companies other than life or marine.* (1) Section 207 (a) (1) (relating to normal tax and surtax on mutual insurance companies, other than life or marine) is hereby amended by striking out subparagraphs (A) and (B) and inserting in lieu thereof the following:

(A) *Taxable years beginning after June 30, 1950.* In the case of taxable years beginning after June 30, 1950—

(i) *Normal tax.* A normal tax on the normal-tax net income, computed at the rate provided in section 13 (b) (1), or 50 per centum of the amount by which the normal-tax net income exceeds $3,000, whichever is the lesser; plus

(ii) *Surtax.* A surtax on the corporation surtax net income, computed as provided in section 15 (b) (1).

(B) *Calendar year 1950.* In the case of a taxable year beginning on January 1, 1950, and ending on December 31, 1950—

(i) *Normal tax.* A normal tax on the normal-tax net income, computed at the rate provided in section 13 (b) (2), or 46 per centum of the amount by which the normal-tax net income exceed $3,000, whichever is the lesser; plus

(ii) *Surtax.* A surtax on the corporation surtax net income, computed as provided in section 15 (b) (2).

(2) Section 207 (a) (3) (relating to normal tax and surtax on interinsurers or reciprocal underwriters) is hereby amended by striking out subparagraphs (A) and (B) and inserting in lieu thereof the following:

(A) *Taxable years beginning after June 30, 1950.* In the case of taxable years beginning after June 30, 1950—

(i) *Normal tax.* A normal tax on the normal-tax net income, computed at the rate provided in section 13 (b) (1), or 50 per centum of the amount by which the normal-tax net income exceeds $3,000, whichever is the lesser; plus

(ii) *Surtax.* A surtax on the corporation surtax net income, computed as provided in section 15 (b) (1), or 30 per centum of the amount by which the corporation surtax net income exceeds $50,000, whichever is the lesser.

(B) *Calendar year 1950.* In the case of a taxable year beginning on January 1, 1950, and ending on December 31, 1950—

(i) *Normal tax.* A normal tax on the normal-tax net income, computed at the rate provided in section 13 (b) (2), or 46 per centum of the amount by which the normal-tax net income exceeds $50,000, whichever is the lesser; plus

(ii) *Surtax.* A surtax on the corporation surtax net income, in an amount computed as provided in section 15 (b) (2), or in an amount equal to one and one-half times the surtax which would be computed under section 15 (b) (2) if the corporation surtax net income were reduced by $25,000, whichever amount is the lesser.

(3) The amendments made by this subsection shall apply only with respect to taxable years beginning after June 30, 1950, and to taxable years beginning on January 1, 1950, and ending on December 31, 1950.

* * * * * * *

SEC. 201. SURTAX ON CORPORATIONS (TITLE II, EXCESS PROFITS TAX ACT OF 1950, APPROVED JANUARY 3, 1951).

* * * * * * *

(b) *Mutual insurance companies other than life or marine.* Section 207 (a) (3) (A) (ii) of such code (relating to surtax on interinsurers or reciprocal underwriters) is hereby amended by striking out "30 per centum" and inserting in lieu thereof "33 per centum".

* * * * * * *

(e) *Effective date.* The amendments made by this section shall be applicable with respect to taxable years beginning on or after July 1, 1950.

SEC. 121. INCREASE IN RATE OF CORPORATION NORMAL TAX (PART II, TITLE I, REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

* * * * * * *

(c) *Mutual insurance companies other than life or marine.*

(1) Section 207 (a) (1) (relating to normal tax and surtax on mutual insurance companies, other than life or marine) is hereby amended by striking out subparagraphs (A) and (B) and inserting in lieu thereof the following:

(A) *Taxable years beginning after December 31, 1950, and before April 1, 1951.* In the case of taxable years beginning after December 31, 1950, and before April 1, 1951, and ending after March 31, 1951—

(i) *Normal tax.* A normal tax of 28¾ per centum of the normal-tax net income, or 57½ per centum of the amount by which the normal-tax net income exceeds $3,000, whichever is the lesser; plus

(ii) *Surtax.* A surtax of 22 per centum of the corporation surtax net income in excess of $25,000.

(B) *Taxable years beginning after March 31, 1951, and before April 1, 1954.* In the case of taxable years beginning after March 31, 1951, and before April 1, 1954—

(i) *Normal tax.* A normal tax of 30 per centum of the normal-tax net income, or 60 per centum of the amount by which the normal-tax net income exceeds $3,000, whichever is the lesser; plus

(ii) *Surtax.* A surtax of 22 per centum of the corporation surtax net income in excess of $25,000.

(C) *Taxable years beginning after March 31, 1954.* In the case of a taxable year beginning after March 31, 1954—

(i) *Normal tax.* A normal tax of 25 per centum of the normal-tax net income, or 50 per centum of the amount by which the normal-tax net income exceeds $3,000, whichever is the lesser; plus

(ii) *Surtax.* A surtax of 22 per centum of the corporation surtax net income in excess of $25,000.

(2) Section 207 (a) (3) (relating to a normal tax and surtax on interinsurers and reciprocal underwriters) is hereby amended by striking out subparagraphs (A) and (B) and inserting in lieu thereof the following:

(A) *Taxable years beginning after December 31, 1950, and before April 1, 1951.* In the case of taxable years beginning after December 31, 1950, and before April 1, 1951, and ending after March 31, 1951—

(i) *Normal tax.* A normal tax of 28¾ per centum of the normal-tax net income, or 57½ per centum of the amount by which the normal-tax net income exceeds $50,000, whichever is the lesser; plus

(ii) *Surtax.* A surtax of 22 per centum of the corporation surtax net income in excess of $25,000, or 33 per centum of the amount by which the corporation surtax net income exceeds $50,000, whichever is the lesser.

(B) *Taxable years beginning after March 31, 1951, and before April 1, 1954.* In the case of taxable years beginning after March 31, 1951, and before April 1, 1954—

(i) *Normal tax.* A normal tax of 30 per centum of the normal-tax net income, or 60 per centum of the amount by which the normal-tax net income exceeds $50,000, whichever is the lesser; plus

(ii) *Surtax.* A surtax of 22 per centum of the corporation surtax net income in excess of $25,000, or 33 per centum of the amount by which the corporation surtax net income exceeds $50,000, whichever is the lesser.

(C) *Taxable years beginning after March 31, 1954.* In the case of a taxable year beginning after March 31, 1954—

(i) *Normal tax.* A normal tax of 25 per centum of the normal-tax net income, or 50 per centum of the amount by which the normal-tax net income exceeds $50,000, whichever is the lesser; plus

(ii) *Surtax.* A surtax of 22 per centum of the corporation surtax net income in excess of $25,000, or 33 per centum of the amount by which the corporation surtax net income exceeds $50,000, whichever is the lesser.

* * * * * * *

SEC. 125. EFFECTIVE DATE (PART II, TITLE I, REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

The amendments made by this part (inc. sec. 121 (c)) shall be applicable only with respect to taxable years beginning after March 31, 1951, and to taxable years beginning on January 1, 1951, and ending on December 31, 1951, except that the amendments made to sections 207 * * * of the Internal Revenue Code shall be applicable to taxable years beginning after December 31, 1950, and ending after March 31, 1951. In the case of an insurance company subject to the tax imposed by section 207, the provisions of section 26 (b) of such code applicable to the calendar year 1951 shall be applicable to a taxable year beginning after December 31, 1950, and before April 1, 1951, and ending after March 31, 1951. * * *

PAR. 22. Section 29.207–1, as amended by Treasury Decision 5600, approved February 2, 1948, is further amended as follows:

(A) By adding after the third sentence of paragraph (a) (2) of this section the following: "With respect to the credit for dividends received provided in section 26 (b) for taxable years beginning after December 31, 1950, and before April 1, 1951, and ending after March 31, 1951, the provisions of section 26 (b) applicable to the calendar year 1951 shall, in the case of such companies, be applicable to such taxable years."

(B) By inserting in the heading of paragraph (c) of the section after *"Taxable years beginning after December 31, 1945"* the following: *", and before July 1, 1950 (other than the calendar year 1950)"*.

(C) By inserting in the first sentence of paragraph (c) (1) of the section after "For any taxable year beginning after December 31, 1945," the following: "and before July 1, 1950 (other than the calendar year 1950),".

(D) By adding at the end of the section the following new paragraphs (d) and (e):

(d) *Calendar year 1950; taxable years beginning after June 30, 1950, and before January 1, 1951; and taxable years beginning after December 31, 1950, and ending before April 1, 1951.* (1) For a taxable year which is the calendar year 1950, for any taxable year beginning after June 30, 1950, and before January 1, 1951, and for any taxable year beginning after December 31, 1950, and ending before

April 1, 1951, the tax under section 207 (a) (1) and 207 (a) (3), except as hereinafter indicated, is computed upon normal-tax net income at the rate provided in section 13 (b) applicable to such year and upon corporation surtax net income as provided in section 15 (b) applicable to such year. The tax under section 207 (a) (2), except as hereinafter indicated, is 1 percent of the gross amount of income from interest, dividends, rents, and net premiums, minus dividends to policyholders and minus wholly tax-exempt interest.

(2) Under section 207 (a) (1) companies with normal-tax net incomes of over $3,000 and not over $6,000 pay a normal tax, at a specified rate, on that portion of the normal-tax net income in excess of $3,000. The rates applicable for the respective taxable years in computing the normal tax of such companies are as follows:

	Percent
For a taxable year which is the calendar year 1950	46
For taxable years beginning after June 30, 1950, and before Jan. 1, 1951	50
For taxable years beginning after Dec. 31, 1950, and ending before Apr. 1, 1951	50

Under section 207 (a) (2) companies with gross amounts of income from interest, dividends, rents, and net premiums, minus dividends to policyholders and minus wholly tax-exempt interest, of over $75,000 and not over $150,000 pay a tax equal to 2 percent of that portion in excess of $75,000. Under section 207 (a) (3) interinsurers and reciprocal underwriters with normal-tax net incomes of over $50,000 and not over $100,000 pay a normal tax, at a specified rate, on that portion of the normal-tax net income in excess of $50,000. The rates applicable for the respective taxable years in computing the normal tax of such interinsurers and reciprocal underwriters are as follows:

	Percent
For a taxable year which is the calendar year 1950	46
For taxable years beginning after June 30, 1950, and before Jan. 1, 1951	50
For taxable years beginning after Dec. 31, 1950, and ending before Apr. 1, 1951	50

(3) For a taxable year which is the calendar year 1950, the surtax under section 207 (a) (3) of an interinsurer or reciprocal underwriter with corporation surtax net income of over $50,000 and not over $100,000 is an amount equal to one and one-half times the surtax which would be computed under section 15 (b) (2) applicable to such taxable year if the corporation surtax net income of such interinsurer or reciprocal underwriter were reduced by $25,000. If, for a taxable year which is the calendar year 1950, an interinsurer or reciprocal underwriter has any partially tax-exempt interest for which a credit is provided in section 26 (a) and has corporation surtax net income of over $100,000 and not over $102,777.72, the surtax under section 207 (a) (3) of such interinsurer or reciprocal underwriter is the lesser of (i) the amount of the surtax computed as provided in section 15 (b) (2) applicable to such taxable year, or (ii) an amount equal to one and one-half times the surtax which would be computed under section 15 (b) (2) applicable to such taxable year if the corporation surtax net income were reduced by $25,000. For a taxable year beginning after June 30, 1950, and before January 1, 1951, or a taxable year beginning after December 31, 1950, and ending before April 1, 1951, the surtax under section 207 (a) (3) of an interinsurer or reciprocal underwriter with corporation surtax net income of over $50,000 and not over $100,000 is an amount equal to 33 percent of that portion of its corporation surtax net income in excess of $50,000.

(4) Section 207 (a) (4) provides for an adjustment of the amount computed under section 207 (a) (1), section 207 (a) (2) (A), and section 207 (a) (3) where the gross amount received during the taxable year from interest, dividends, rents, and premiums (including deposits and assessments) is over $75,000 and less than $125,000. The adjustment reduces the tax otherwise computed under those sections to an amount which bears the same proportion to such tax as the excess over $75,000 bears to $50,000.

(5) The application of section 207 (a) (1), (2), (3), and (4) may be illustrated by the following examples:

Example (1). The X Company, a mutual casualty insurance company, for the calendar year 1950 has corporation surtax net income of $35,000 and, due to partially tax-exempt interest of $5,000, normal-tax net income of $30,000. The gross amount received from interest, dividends, rents, and premiums (including deposits and assessments) is $120,000, and the gross amount of income from interest, dividends, rents, and net premiums, minus dividends to policyholders and wholly tax-exempt interest, is $100,000. Under section 207 (a) (1), without application of section 207 (a) (4), the normal tax would be 23 percent of $30,000, or $6,900, since this is less than $12,420, 46 percent of $27,000 (excess of normal-tax net income of $30,000 over $3,000); and the surtax computed as provided in section 15 (b) (2) would be $1,850, tentative surtax of 19 percent of $10,000 (excess of corporation surtax net income of $35,000 over $25,000), or $1,900, reduced by $50, 1 percent of $5,000 (the lower of $5,000, amount of partially tax-exempt interest, or $10,000, excess of corporation surtax net income of $35,000 over $25,000). The combined tax of $8,750 ($6,900 plus $1,850) would then be reduced by applying section 207 (a) (4), since the gross receipts are between $75,000 and $125,000. The tax under section 207 (a) (1), as thus adjusted, would be 90 percent of $8,750, or $7,875, since $45,000 (excess of $120,000 over $75,000) is 90 percent of $50,000. Under section 207 (a) (2) (A), without reference to section 207 (a) (4), the tax is 2 percent of $25,000 (excess of $100,000 over $75,000), or $500, since this is less than $1,000, 1 percent of $100,000. Applying section 207 (a) (4) reduces this to $450, or 90 percent of $500. Since $7,875, the tax under section 207 (a) (1), as adjusted, exceeds $450, the tax under section 207 (a) (2), as adjusted, the tax under section 207 (a) (1), as adjusted, is applicable. The X Company would accordingly pay a combined normal tax and surtax of $7,875.

Example (2). The Y Exchange, an interinsurer, for the calendar year 1950 has corporation surtax net income of $100,000 and, due to partially tax-exempt interest of $20,000, normal-tax net income of $80,000. The gross amount received from interest, dividends, rents, and premiums (including deposits and assessments) is $3,000,000. Under section 207 (a) (3) the normal tax of the Y Exchange for the taxable year is 46 percent of $30,000 (excess of normal-tax net income of $80,000 over $50,000), or $13,800, since this is less than $18,400, 23 percent of $80,000. The surtax under section 207 (a) (3) of the Y Exchange for the taxable year is $13,950, one and one-half times $9,300, the surtax which would be computed under section 15 (b) (2) if the corporation surtax net income were reduced by $25,000 ($9,500 (19 percent of $50,000, excess of $75,000, corporation surtax net income of $100,000 reduced by $25,000, over $25,000) reduced by $200 (1 percent of $20,000, the lower of $20,000, amount of partially tax-exempt interest, or $50,000, excess of $75,000, corporation surtax net income of $100,000 reduced by $25,000, over $25,000)), since this is less than the surtax on corporation surtax net income of $100,000 computed as provided in section 15 (b) (2). The surtax computed as provided in section 15 (b) (2) would be $14,050, tentative surtax of $14,250 (19 percent of $75,000, excess of corporation surtax net income of $100,000 over $25,000) reduced by $200 (1 percent of $20,000, the lower of $20,000, amount of partially tax-exempt interest, or $75,000, excess of corporation surtax net income over $25,000). Since the Y Exchange is not subject to the tax imposed by section 207 (a) (2) and is not entitled to the adjustment provided in section 207 (a) (4), as its gross receipts are not less than $125,000, its total tax under section 207 (a) is $27,750 ($13,800 plus $13,950).

Example (3). The Z Exchange, an interinsurer, for the calendar year 1950 has corporation surtax net income of $102,700 and, due to partially tax-exempt interest of $52,700, normal-tax net income of $50,000. The gross amount received from interest, dividends, rents, and premiums (including deposits and assessments) is $2,500,000. The Z Exchange is not subject to normal tax under section 207 (a) (3) for the taxable year as its normal-tax net income does not exceed $50,000. The surtax under section 207 (a) (3) of the Z Exchange for the taxable year is $14,229, one and one-half times $9,486, the surtax which would be computed under section 15 (b) (2) if the corporation surtax net income were reduced by $25,000 ($10,013 (19 percent of $52,700, excess of $77,700, corporation surtax net income of $102,700 reduced by $25,000, over $25,000) reduced by $527 (1 percent of $52,700, the lower of $52,700, amount of partially tax-exempt interest, or $52,700, excess of $77,700, corporation surtax net income of $102,700 reduced by $25,000, over $25,000)), since this is less than the surtax on corporation surtax net income of $102,700 computed as provided in section 15 (b) (2). The surtax computed as provided in section 15 (b) (2) would be $14,236, tentative surtax of $14,763 (19 percent of $77,700, excess of corporation surtax net income of $102,700 over $25,000) reduced by $527 (1 percent of $52,700, the lower of $52,700, amount of partially tax-exempt interest, or $77,700, excess of corporation surtax net income over $25,000). Since the Z Exchange has no normal tax, is not subject to the tax imposed by section 207 (a) (2), and is not entitled to the adjustment provided in section 207 (a) (4), as its gross receipts are not less than $125,000, its total tax under section 207 (a) is $14,229.

Example (4). If in the above example the partially tax-exempt interest were $53,500, the surtax under section 207 (a) (3) of the Z Exchange for the calendar year 1950, computed as provided in section 15 (b) (2), would be $14,228 (tentative surtax of $14,763, 19 percent of $77,700, reduced by $535 1 percent of $53,500), since it is less than $14,229, one and one-half times $9,486, the surtax which would be computed under section 15 (b) (2) if the corporation surtax net income were reduced by $25,000.

(e) *Taxable years beginning after December 31, 1950, and ending after March 31, 1951.* (1) For any taxable year beginning after December 31, 1950, and ending after March 31, 1951, the normal tax under section 207 (a) (1) and 207 (a) (3), except as hereinafter indicated, is computed upon normal-tax net income at the following rates:

	Percent
For taxable years beginning after Dec. 31, 1950, and before Apr. 1, 1951, and ending after Mar. 31, 1951	28¾
For taxable years beginning after Mar. 31, 1951, and before Apr. 1, 1954	30
For taxable years beginning after Mar. 31, 1954	25

(2) For any taxable year beginning after December 31, 1950, and ending after March 31, 1951, the surtax under section 207 (a) (1) and 207 (a) (3), except as hereinafter indicated, is computed on that portion of the corporation surtax net income in excess of $25,000 at the rate of 22 percent. The tax under section 207 (a) (2), except as hereinafter indicated, is 1 percent of the gross amount of income from interest, dividends, rents, and net premiums, minus dividends to policyholders and minus wholly tax-exempt interest.

(3) Under section 207 (a) (1) companies with normal-tax net incomes of over $3,000 and not over $6,000 pay a normal tax, at a specified rate, on that portion of the normal-tax net income in excess of $3,000. The rates applicable for the respective taxable years in computing the normal tax of such companies are as follows:

	Percent
For taxable years beginning after Dec. 31, 1950, and before Apr. 1, 1951, and ending after Mar. 31, 1951	57½
For taxable years beginning after Mar. 31, 1951, and before Apr. 1, 1954	60
For taxable years beginning after Mar. 31, 1954	50

Under section 207 (a) (2) companies with gross amounts of income from interest, dividends, rents, and net premiums, minus dividends to policyholders and minus wholly tax-exempt interest, of over $75,000 and not over $150,000 pay a tax equal to 2 percent of that portion in excess of $75,000. Under section 207 (a) (3) interinsurers and reciprocal underwriters with normal-tax net incomes of over $50,000 and not over $100,000 pay a normal tax computed on that portion of the normal-tax net income in excess of $50,000 at the following rates:

	Percent
For taxable years beginning after Dec. 31, 1950, and before Apr. 1, 1951, and ending after Mar. 31, 1951	57½
For taxable years beginning after Mar. 31, 1951, and before Apr. 1, 1954	60
For taxable years beginning after Mar. 31, 1954	50

Under section 207 (a) (3) interinsurers and reciprocal underwriters with corporation surtax net incomes of over $50,000 and not over $100,000 pay a surtax, at the rate of 33 percent, on that portion of the corporation surtax net income in excess of $50,000.

(4) Section 207 (a) (4) provides for an adjustment of the amount computed under section 207 (a) (1), section 207 (a) (2) (A), and section 207 (a) (3) where the gross amount received during the taxable year from interest, dividends, rents, and premiums (including deposits and assessments) is over $75,000 and less than $125,000. The adjustment reduces the tax otherwise computed under those sections to an amount which bears the same proportion to such tax as the excess over $75,000 bears to $50,000.

(5) The application of section 207 (a) (1), (2), (3), and (4) may be illustrated by the following examples:

Example (1). The W Company, a mutual casualty insurance company, for the calendar year 1952 has corporation surtax net income of $5,500 and, due to partially tax-exempt interest of $800, normal-tax net income of $4,700. The gross amount of income of the W Company from interest, dividends, rents, and net premiums, minus dividends to policyholders and wholly tax-exempt interest, is $150,000. Its normal tax under section 207 (a) (1) for the calendar year 1952 is 60 percent of $1,700 ($4,700—$3,000), or $1,020, since its normal-tax net income is not over $6,000. It is not liable for surtax for the calendar year 1952 as its surtax net income does not exceed $25,000. It has no surtax and, therefore, its total tax under section 207 (a) (1) is the normal tax of $1,020. The tax under section 207 (a) (2) is 2 percent of $75,000 ($150,000—$75,000), or $1,500. Since the tax under section 207 (a) (2) exceeds the tax under section 207 (a) (1), the tax under section 207 (a) is $1,500, namely, that imposed by section 207 (a) (2).

Example (2). If in the above example the normal-tax net income were not over $3,000, the corporation surtax net income were not over $25,000, the gross amount received from interest, dividends, rents, and premiums (including deposits and assessments) were $90,000, and the gross amount of income from interest, dividends, rents, and net premiums, minus dividends to policyholders and wholly tax-exempt interest, were $70,000, the W Company would be required to file an income tax return but due to section 207 (a) no income tax would be imposed.

Example (3). The X Company, a mutual casualty insurance company, for the calendar year 1952 has corporation surtax net income of $28,000 and, due to partially tax-exempt interest of $5,000, normal-tax net income of $23,000. The gross amount of income of the X Company from interest, dividends, rents, and net premiums, minus dividends to policyholders and wholly tax-exempt interest, is $1,200,000. Under section 207 (a) (1) its normal tax for the calendar year 1952 is 30 percent of $23,000, or $6,900, and the surtax is 22 percent of $3,000 ($28,000–$25,000), or $660. The combined tax under section 207 (a) (1) is $7,560 ($6,900 plus $660). The tax under section 207 (a) (2) is 1 percent of $1,200,000, or $12,000. Since the tax under section 207 (a) (2) exceeds the tax under section 207 (a) (1), the tax under section 207 (a) is $12,000, namely, that imposed by section 207 (a) (2).

Example (4). The Y Company, a mutual fire insurance company subject to the tax imposed by section 207, for the calendar year 1952 has corporation surtax net income of $35,000 and, due to partially tax-exempt interest of $5,000, normal-tax net income of $30,000. The gross amount received from interest, dividends, rents, and premiums (including deposits and assessments) is $120,000, and the gross amount of income from interest, dividends, rents, and net premiums, minus dividends to policyholders and wholly tax-exempt interest, is $100,000. Under section 207 (a) (1), without application of section 207 (a) (4), the normal tax would be 30 percent of $30,000, or $9,000, since this is less than $16,200, 60 percent of $27,000 (excess of normal-tax net income of $30,000 over $3,000); and the surtax would be 22 percent of $10,000 (excess of corporation surtax net income of $35,000 over $25,000), or $2,200. The combined tax of $11,200 ($9,000 plus $2,200) would then be reduced by applying section 207 (a) (4), since the gross receipts are between $75,000 and $125,000. The tax under section 207 (a) (1), as thus adjusted, would be 90 percent of $11,200, or $10,080, since $45,000 (excess of $120,000 over $75,000) is 90 percent of $50,000. Under section 207 (a) (2) (A), without reference to section 207 (a) (4), the tax is 2 percent of $25,000 (excess of $100,000 over $75,000), or $500, since this is less than $1,000, 1 percent of $100,000. Applying section 207 (a) (4) reduces this to $450, or 90 percent of $500. Since $10,080, the tax under section 207 (a) (1), as adjusted, exceeds $450, the tax under section 207 (a) (2), as adjusted, the tax under section 207 (a) (1), as adjusted, is applicable. The Y Company would accordingly pay a combined normal tax and surtax of $10,080.

Example (5). The Z Exchange, an interinsurer, for the calendar year 1952 has corporation surtax net income of $60,000 and, due to partially tax-exempt interest of $12,000, normal-tax net income of $48,000. The gross amount received from interest, dividends, rents, and premiums (including deposits and assessments) is $2,700,000. The Z Exchange is not liable for normal tax under section 207 (a) (3) for the calendar year 1952 as its normal-tax net income does not exceed $50,000. Its surtax is 33 percent of $10,000 ($60,000—$50,000), or $3,300, since that amount is less than $7,700. 22 percent of $35,000 (excess of corporation surtax net income of $60,000 over $25,000). Since the Z Exchange has no normal tax, is not subject to the tax imposed by section 207 (a) (2), and is not entitled to the adjustment provided in section 207 (a) (4), its total tax under section 207 (a) is $3,300.

PAR. 23. There is inserted immediately preceding § 29.231–1 the following:

SEC. 121. INCREASE IN RATE OF CORPORATION INCOME TAXES (PART II, TITLE I, REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

* * * * * * *

(g) *Technical amendments.*

* * * * * * *

(5) Effective with respect to taxable years beginning after June 30, 1950, and with respect to taxable years beginning on January 1, 1950, and ending on December 31, 1950, section 231 (b) (relating to foreign corporations engaged in trade or business within the United States) is hereby amended by striking out "section 14 (c) (1)" and inserting in lieu thereof "section 13".

PAR. 24. Section 29.231–1, as amended by Treasury Decision 5709, approved June 27, 1949, is further amended by striking out all of paragraph (b) of such section other than the last paragraph thereof which is redesignated subparagraph (6) and inserting in lieu thereof the following:

(b) *Resident foreign corporations.* (1) A resident foreign corporation is not taxable upon the items of fixed or determinable annual or periodical income enumerated in section 231 (a) at the rate specified in that section. For taxable years beginning before July 1, 1950 (other than the calendar year 1950), a resident foreign corporation is, under section 14 (c) (1), liable to a tax of 24 percent of its normal-tax net income (regardless of the amount thereof). For a taxable year which is the calendar year

1950, and ending before Apr. 1, 1951, the tax under section 207 (a) (1) and 207 (a) (3), except as hereinafter indicated, is computed upon normal-tax net income at the rate provided in section 13 (b) applicable to such year and upon corporation surtax net income as provided in section 15 (b) applicable to such year. The tax under section 207 (a) (2), except as hereinafter indicated, is 1 percent of the gross amount of income from interest, dividends, rents, and net premiums, minus dividends to policyholders and minus wholly tax-exempt interest.

(2) Under section 207 (a) (1) companies with normal-tax net incomes of over $3,000 and not over $6,000 pay a normal tax, at a specified rate, on that portion of the normal-tax net income in excess of $3,000. The rates applicable for the respective taxable years in computing the normal tax of such companies are as follows:

	Percent
For a taxable year which is the calendar year 1950	46
For taxable years beginning after June 30, 1950, and before Jan. 1, 1951	50
For taxable years beginning after Dec. 31, 1950, and ending before Apr. 1, 1951	50

(3) For a taxable year which is the calendar year 1950, the surtax under section 207 (a) (3) of an interinsurer or reciprocal underwriter with corporation surtax net income of over $50,000 and not over $100,000 is an amount equal to one and one-half times the surtax which would be computed under section 15 (b) (2) applicable to such taxable year if the corporation surtax net income of such interinsurer or reciprocal underwriter were reduced by $25,000. If, for a taxable year which is the calendar year 1950, an interinsurer or reciprocal underwriter has any partially tax-exempt interest for which a credit is provided in section 26 (a) and has corporation surtax net income of over $100,000 and not over $102,777.72, the surtax under section 207 (a) (3) of such interinsurer or reciprocal underwriter is the lesser of (i) the amount of the surtax computed as provided in section 15 (b) (2) applicable to such taxable year, or (ii) an amount equal to one and one-half times the surtax which would be computed under section 15 (b) (2) applicable to such taxable year if the corporation surtax net income were reduced by $25,000. For a taxable year beginning after June 30, 1950, and before January 1, 1951, or a taxable year beginning after December 31, 1950, and ending before April 1, 1951, the surtax under section 207 (a) (3) of an interinsurer or reciprocal underwriter with corporation surtax net income of over $50,000 and not over $100,000 is an amount equal to 33 percent of that portion of its corporation surtax net income in excess of $50,000.

(4) Section 207 (a) (4) provides for an adjustment of the amount computed under section 207 (a) (1), section 207 (a) (2) (A), and section 207 (a) (3) where the gross amount received from interest, dividends, rents, and premiums (including deposits and assessments) is over $75,000 and less than $125,000. The adjustment reduces the tax otherwise computed under those sections to an amount which bears the same proportion to such tax as the excess over $75,000 bears to $50,000.

(5) The application of section 207 (a) (1), (2), (3), and (4) may be illustrated by the following examples:

Example (1). The X Company, a mutual casualty insurance company, for the calendar year 1950 has corporation surtax net income of $35,000 and, due to partially tax-exempt interest of $5,000, normal-tax net income of $30,000. The gross amount received from interest, dividends, rents, and premiums (including deposits and assessments) is $120,000, and the gross amount of income from interest, dividends, rents, and net premiums, minus dividends to policyholders and wholly tax-exempt interest, is $100,000. Under section 207 (a) (1), without application of section 207 (a) (4), the normal tax would be 23 percent of $30,000, or $6,900, since this is less than $12,420, 46 percent of $27,000 (excess of normal-tax net income of $30,000 over $3,000); and the surtax computed as provided in section 15 (b) (2) would be $1,850, tentative surtax of 19 percent of $10,000 (excess of corporation surtax net income of $35,000 over $25,000), or $1,900, reduced by $50, 1 percent of $5,000 (the lower of $5,000, amount of partially tax-exempt interest, or $10,000, excess of corporation surtax net income of $35,000 over $25,000). The combined tax of $8,750 ($6,900 plus $1,850) would then be reduced by applying section 207 (a) (4), since the gross receipts are between $75,000 and $125,000. The tax under section 207 (a) (1), as thus adjusted, would be 90 percent of $8,750, or $7,875, since $45,000 (excess of $120,000 over $75,000) is 90 percent of $50,000. Under section 207 (a) (2) (A), without reference to section 207 (a) (4), the tax is 2 percent of $25,000 (excess of $100,000 over $75,000), or $500, since this is less than $1,000, 1 percent of $100,000. Applying section 207 (a) (4) reduces this to $450, or 90 percent of $500. Since $7,875, the tax under section 207 (a) (1), as adjusted, exceeds $450, the tax under section 207 (a) (2), as adjusted, the tax under section 207 (a) (1), as adjusted, is applicable. The X Company would accordingly pay a combined normal tax and surtax of $7,875.

Example (2). The Y Exchange, an interinsurer, for the calendar year 1950 has corporation surtax net income of $100,000 and, due to partially tax-exempt interest of $20,000, normal-tax net income of $80,000. The gross amount received from interest, dividends, rents, and premiums (including deposits and assessments) is $3,000,000. Under section 207 (a) (3) the normal tax of the Y Exchange for the taxable year is 46 percent of $30,000 (excess of normal-tax net income of $80,000 over $50,000), or $13,800, since this is less than $18,400, 23 percent of $80,000. The surtax under section 207 (a) (3) of the Y Exchange for the taxable year is $13,950, one and one-half times $9,300, the surtax which would be computed under section 15 (b) (2) if the corporation surtax net income were reduced by $25,000 ($9,500 (19 percent of $50,000, excess of $75,000, corporation surtax net income of $100,000 reduced by $25,000, over $25,000) reduced by $200 (1 percent of $20,000, the lower of $20,000, amount of partially tax-exempt interest, or $50,000, excess of $75,000, corporation surtax net income of $100,000 reduced by $25,000, over $25,000)), since this is less than the surtax on corporation surtax net income of $100,000 computed as provided in section 15 (b) (2). The surtax computed as provided in section 15 (b) (2) would be $14,050, tentative surtax of $14,250 (19 percent of $75,000, excess of corporation surtax net income of $100,000 over $25,000) reduced by $200 (1 percent of $20,000, the lower of $20,000, amount of partially tax-exempt interest, or $75,000, excess of corporation surtax net income over $25,000). Since the Y Exchange is not subject to the tax imposed by section 207 (a) (2) and is not entitled to the adjustment provided in section 207 (a) (4), as its gross receipts are not less than $125,000, its total tax under section 207 (a) is $27,750 ($13,800 plus $13,950).

Example (3). The Z Exchange, an interinsurer, for the calendar year 1950 has corporation surtax net income of $102,700 and, due to partially tax-exempt interest of $52,700, normal-tax net income of $50,000. The gross amount received from interest, dividends, rents, and premiums (including deposits and assessments) is $2,500,000. The Z Exchange is not subject to normal tax under section 207 (a) (3) for the taxable year as its normal-tax net income does not exceed $50,000. The surtax under section 207 (a) (3) of the Z Exchange for the taxable year is $14,229, one and one-half times $9,486, the surtax which would be computed under section 15 (b) (2) if the corporation surtax net income were reduced by $25,000 ($10,013 (19 percent of $52,700, excess of $77,700, corporation surtax net income of $102,700 reduced by $25,000, over $25,000) reduced by $527 (1 percent of $52,700, the lower of $52,700, amount of partially tax-exempt interest, or $52,700, excess of $77,700, corporation surtax net income of $102,700 reduced by $25,000, over $25,000)), since this is less than the surtax on corporation surtax net income of $102,700 computed as provided in section 15 (b) (2). The surtax computed as provided in section 15 (b) (2) would be $14,236, tentative surtax of $14,763 (19 percent of $77,700, excess of corporation surtax net income of $102,700 over $25,000) reduced by $527 (1 percent of $52,700, the lower of $52,700, amount of partially tax-exempt interest, or $77,700, excess of corporation surtax net income over $25,000). Since the Z Exchange has no normal tax, is not subject to the tax imposed by section 207 (a) (2), and is not entitled to the adjustment provided in section 207 (a) (4), as its gross receipts are not less than $125,000, its total tax under section 207 (a) is $14,229.

Example (4). If in the above example the partially tax-exempt interest were $53,500, the surtax under section 207 (a) (3) of the Z Exchange for the calendar year 1950, computed as provided in section 15 (b) (2), would be $14,228 (tentative surtax of $14,763, 19 percent of $77,700, reduced by $535 1 percent of $53,500), since it is less than $14,229, one and one-half times $9,486, the surtax which would be computed under section 15 (b) (2) if the corporation surtax net income were reduced by $25,000.

(e) *Taxable years beginning after December 31, 1950, and ending after March 31, 1951.* (1) For any taxable year beginning after December 31, 1950, and ending after March 31, 1951, the normal tax under section 207 (a) (1) and 207 (a) (3), except as hereinafter indicated, is computed upon normal-tax net income at the following rates:

	Percent
For taxable years beginning after Dec. 31, 1950, and before Apr. 1, 1951, and ending after Mar. 31, 1951	28¾
For taxable years beginning after Mar. 31, 1951, and before Apr. 1, 1954	30
For taxable years beginning after Mar. 31, 1954	25

(2) For any taxable year beginning after December 31, 1950, and ending after March 31, 1951, the surtax under section 207 (a) (1) and 207 (a) (3), except as hereinafter indicated, is computed on that portion of the corporation surtax net income in excess of $25,000 at the rate of 22 percent. The tax under section 207 (a) (2), except as hereinafter indicated, is 1 percent of the gross amount of income from interest, dividends, rents, and net premiums, minus dividends to policyholders and minus wholly tax-exempt interest.

(3) Under section 207 (a) (1) companies with normal-tax net incomes of over $3,000 and not over $6,000 pay a normal tax, at a specified rate, on that portion of the normal-tax net income in excess of $3,000. The rates applicable for the respective taxable years in computing the normal tax of such companies are as follows:

	Percent
For taxable years beginning after Dec. 31, 1950, and before Apr. 1, 1951, and ending after Mar. 31, 1951	57½
For taxable years beginning after Mar. 31, 1951, and before Apr. 1, 1954	60
For taxable years beginning after Mar. 31, 1954	50

Under section 207 (a) (2) companies with gross amounts of income from interest, dividends, rents, and net premiums, minus dividends to policyholders and minus wholly tax-exempt interest, of over $75,000 and not over $150,000 pay a tax equal to 2 percent of that portion in excess of $75,000. Under section 207 (a) (3) interinsurers and reciprocal underwriters with normal-tax net incomes of over $50,000 and not over $100,000 pay a normal tax computed on that portion of the normal-tax net income in excess of $50,000 at the following rates:

	Percent
For taxable years beginning after Dec. 31, 1950, and before Apr. 1, 1951, and ending after Mar. 31, 1951	57½
For taxable years beginning after Mar. 31, 1951, and before Apr. 1, 1954	60
For taxable years beginning after Mar. 31, 1954	50

Under section 207 (a) (3) interinsurers and reciprocal underwriters with corporation surtax net incomes of over $50,000 and not over $100,000 pay a surtax, at the rate of 33 percent, on that portion of the corporation surtax net income in excess of $50,000.

(4) Section 207 (a) (4) provides for an adjustment of the amount computed under section 207 (a) (1), section 207 (a) (2) (A), and section 207 (a) (3) where the gross amount received during the taxable year from interest, dividends, rents, and premiums (including deposits and assessments) is over $75,000 and less than $125,000. The adjustment reduces the tax otherwise computed under those sections to an amount which bears the same proportion to such tax as the excess over $75,000 bears to $50,000.

(5) The application of section 207 (a) (1), (2), (3), and (4) may be illustrated by the following examples:

Example (1). The W Company, a mutual casualty insurance company, for the calendar year 1952 has corporation surtax net income of $5,500 and, due to partially tax-exempt interest of $800, normal-tax net income of $4,700. The gross amount of income of the W Company from interest, dividends, rents, and net premiums, minus dividends to policyholders and wholly tax-exempt interest, is $150,000. Its normal tax under section 207 (a) (1) for the calendar year 1952 is 60 percent of $1,700 ($4,700—$3,000), or $1,020, since its normal-tax net income is not over $6,000. It is not liable for surtax for the calendar year 1952 as its surtax net income does not exceed $25,000. It has no surtax and, therefore, its total tax under section 207 (a) (1) is the normal tax of $1,020. The tax under section 207 (a) (2) is 2 percent of $75,000 ($150,000—$75,000), or $1,500. Since the tax under section 207 (a) (2) exceeds the tax under section 207 (a) (1), the tax under section 207 (a) is $1,500, namely, that imposed by section 207 (a) (2).

Example (2). If in the above example the normal-tax net income were not over $3,000, the corporation surtax net income were not over $25,000, the gross amount received from interest, dividends, rents, and premiums (including deposits and assessments) were $90,000, and the gross amount of income from interest, dividends, rents, and net premiums, minus dividends to policyholders and wholly tax-exempt interest, were $70,000, the W Company would be required to file an income tax return but due to section 207 (a) no income tax would be imposed.

Example (3). The X Company, a mutual casualty insurance company, for the calendar year 1952 has corporation surtax net income of $28,000 and, due to partially tax-exempt interest of $5,000, normal-tax net income of $23,000. The gross amount of income of the X Company from interest, dividends, rents, and net premiums, minus dividends to policyholders and wholly tax-exempt interest, is $1,200,000. Under section 207 (a) (1) its normal tax for the calendar year 1952 is 30 percent of $23,000, or $6,900, and the surtax is 22 percent of $3,000 ($28,000–$25,000), or $660. The combined tax under section 207 (a) (1) is $7,560 ($6,900 plus $660). The tax under section 207 (a) (2) is 1 percent of $1,200,000, or $12,000. Since the tax under section 207 (a) (2) exceeds the tax under section 207 (a) (1), the tax under section 207 (a) is $12,000, namely, that imposed by section 207 (a) (2).

Example (4). The Y Company, a mutual fire insurance company subject to the tax imposed by section 207, for the calendar year 1952 has corporation surtax net income of $35,000 and, due to partially tax-exempt interest of $5,000, normal-tax net income of $30,000. The gross amount received from interest, dividends, rents, and premiums (including deposits and assessments) is $120,000, and the gross amount of income from interest, dividends, rents, and net premiums, minus dividends to policyholders and wholly tax-exempt interest, is $100,000. Under section 207 (a) (1), without application of section 207 (a) (4), the normal tax would be 30 percent of $30,000, or $9,000, since this is less than $16,200, 60 percent of $27,000 (excess of normal-tax net income of $30,000 over $3,000); and the surtax would be 22 percent of $10,000 (excess of corporation surtax net income of $35,000 over $25,000), or $2,200. The combined tax of $11,200 ($9,000 plus $2,200) would then be reduced by applying section 207 (a) (4), since the gross receipts are between $75,000 and $125,000. The tax under section 207 (a) (1), as thus adjusted, would be 90 percent of $11,200, or $10,080, since $45,000 (excess of $120,000 over $75,000) is 90 percent of $50,000. Under section 207 (a) (2) (A), without reference to section 207 (a) (4), the tax is 2 percent of $25,000 (excess of $100,000 over $75,000), or $500, since this is less than $1,000, 1 percent of $100,000. Applying section 207 (a) (4) reduces this to $450, or 90 percent of $500. Since $10,080, the tax under section 207 (a) (1), as adjusted, exceeds $450, the tax under section 207 (a) (2), as adjusted, the tax under section 207 (a) (1), as adjusted, is applicable. The Y Company would accordingly pay a combined normal tax and surtax of $10,080.

Example (5). The Z Exchange, an interinsurer, for the calendar year 1952 has corporation surtax net income of $60,000 and, due to partially tax-exempt interest of $12,000, normal-tax net income of $48,000. The gross amount received from interest, dividends, rents, and premiums (including deposits and assessments) is $2,700,000. The Z Exchange is not liable for normal tax under section 207 (a) (3) for the calendar year 1952 as its normal-tax net income does not exceed $50,000. Its surtax is 33 percent of $10,000 ($60,000—$50,000), or $3,300, since that amount is less than $7,700. 22 percent of $35,000 (excess of corporation surtax net income of $60,000 over $25,000). Since the Z Exchange has no normal tax, is not subject to the tax imposed by section 207 (a) (2), and is not entitled to the adjustment provided in section 207 (a) (4), its total tax under section 207 (a) is $3,300.

PAR. 23. There is inserted immediately preceding § 29.231–1 the following:

SEC. 121. INCREASE IN RATE OF CORPORATION INCOME TAXES (PART II, TITLE I, REVENUE ACT OF 1950, APPROVED SEPTEMBER 23, 1950).

* * * * * * *

(g) *Technical amendments.*

* * * * * * *

(5) Effective with respect to taxable years beginning after June 30, 1950, and with respect to taxable years beginning on January 1, 1950, and ending on December 31, 1950, section 231 (b) (relating to foreign corporations engaged in trade or business within the United States) is hereby amended by striking out "section 14 (c) (1)" and inserting in lieu thereof "section 13".

PAR. 24. Section 29.231–1, as amended by Treasury Decision 5709, approved June 27, 1949, is further amended by striking out all of paragraph (b) of such section other than the last paragraph thereof which is redesignated subparagraph (6) and inserting in lieu thereof the following:

(b) *Resident foreign corporations.* (1) A resident foreign corporation is not taxable upon the items of fixed or determinable annual or periodical income enumerated in section 231 (a) at the rate specified in that section. For taxable years beginning before July 1, 1950 (other than the calendar year 1950), a resident foreign corporation is, under section 14 (c) (1), liable to a tax of 24 percent of its normal-tax net income (regardless of the amount thereof). For a taxable year which is the calendar year

1950 and for taxable years beginning after June 30, 1950, a resident foreign corporation is, under section 13, liable to a tax in an amount equal to a specified percent of its normal-tax net income. The rates of tax under section 13 applicable for the respective taxable years are as follows:

	Percent
For a taxable year which is the calendar year 1950	23
For taxable years beginning after June 30, 1950, and before Apr. 1, 1951 (other than the calendar year 1951)	25
For a taxable year which is the calendar year 1951	28¾
For taxable years beginning after Mar. 31, 1951, and before Apr. 1, 1954	30
For taxable years beginning after Mar. 31, 1954	25

(2) The normal-tax net income of a resident foreign corporation is its net income from sources within the United States (gross income from sources within the United States minus the statutory deductions provided in sections 23 and 232) less, for taxable years beginning before January 1, 1946, the credits provided in section 26 (a), (b), and (e) for such years, and less, for taxable years beginning after December 31, 1945, the credits provided in section 26 (a) and (b) for such years.

(3) A resident foreign corporation is also liable to the corporation surtax imposed by section 15.

(i) For taxable years beginning before January 1, 1946, the rates of corporation surtax are as follows:

(*a*) Upon corporation surtax net incomes of $25,000 or less, 10 percent of the amount thereof.

(*b*) Upon corporation surtax net incomes over $25,000 but not over $50,000, $2,500 plus 22 percent of the amount of such income in excess of $25,000.

(*c*) Upon corporation surtax net incomes of more than $50,000, 16 percent of the entire amount thereof.

(ii) For a taxable year beginning after December 31, 1945, and before July 1, 1950 (other than the calendar year 1950), the rates of corporation surtax are as follows:

(*a*) Upon corporation surtax net incomes of $25,000 or less, 6 percent of the amount thereof.

(*b*) Upon corporation surtax net incomes over $25,000 but not over $50,000, $1,500 plus 22 percent of the amount of such income in excess of $25,000.

(*c*) Upon corporation surtax net incomes of more than $50,000, 14 percent of the entire amount thereof.

(iii) For a taxable year which is the calendar year 1950, the surtax is determined by computing a tentative surtax of 19 percent of the amount of the corporation surtax net income in excess of $25,000, and by reducing such tentative surtax by an amount equal to 1 percent of the lower of:

(*a*) The amount of the credit provided in section 26 (a), or

(*b*) The amount by which the corporation surtax net income exceeds $25,000.

(iv) For taxable years beginning after June 30, 1950, the surtax is at the rate of 22 percent and is upon corporation surtax net income in excess of $25,000.

(4) The corporation surtax net income of a resident foreign corporation is its net income from sources within the United States (gross income from sources within the United States minus the statutory deductions provided in sections 23 and 232) less, for taxable years beginning before January 1, 1946, the credits provided in section 26 (b) and (e) for such years, and less, for taxable years beginning after December 31, 1945, the credit provided in section 26 (b) for such years. For the purpose of determining the corporation surtax net income of a resident foreign corporation, the credit provided in section 26 (b) is limited, for a taxable year beginning before January 1, 1946, to 85 percent of its net income from sources within the United States reduced by the credit provided in section 26 (e) for such year, and, for a taxable year beginning after December 31, 1945, and ending before January 1, 1950, to 85 percent of its adjusted net income from sources within the United States, and, for a taxable year ending after December 31, 1949, to 85 percent of its adjusted net income from sources within the United States computed without regard to the deduction for net operating loss allowed by section 23 (s).

(5) For taxable years beginning in 1945 and ending in 1946, see § 29.108–2. For taxable years beginning before July 1, 1950, and ending after June 30, 1950 (other than the calendar year 1950), see § 29.108–5. For taxable years beginning after June 30, 1950, and before April 1, 1951, and ending after March 31, 1951 (other than the calendar year 1951), see § 29.108–6. For taxable years beginning before April 1, 1954, and ending after March 31, 1954, see § 29.108–9.

PAR. 25. Section 29.251–3 is amended by striking out the first sentence of the section and inserting in lieu thereof the following: "For taxable years beginning before July 1, 1950 (other than the calendar year 1950), a domestic corporation entitled to the benefits of section 251 is, under section 251 (c) (1), subject to the tax imposed by section 13 if it has a normal-tax net income of more than $25,000 (see § 29.13–1), or to the tax provided by section 14 (b) if it has a normal-tax net income of not more than $25,000 (see § 29.14–1). For a taxable year which is the calendar year 1950 and for taxable years beginning after June 30, 1950, a domestic corporation entitled to the benefits of section 251 is, under section 251 (c) (1), subject to the normal tax on corporations imposed by section 13 (see § 29.13–1)."

PAR. 26. Section 29.261–1 is amended by striking out the first sentence of the section and inserting in lieu thereof the following: "For taxable years beginning before July 1, 1950 (other than the calendar year 1950), a China Trade Act corporation is, under section 261 (a), subject to the tax imposed by section 13 (b) if it has a normal-tax net income of more than $25,000 (see § 29.13–1), or to the tax provided by section 14 (b) if it has a normal-tax net income of not more than $25,000 (see § 29.14–1). For a taxable year which is the calendar year 1950 and for taxable years beginning after June 30, 1950, a China Trade Act corporation is, under section 261 (a), subject to the normal tax on corporations imposed by section 13 (see § 29.13–1)."

PAR. 27. There is inserted immediately preceding § 40.430–1 the following:

SEC. 121. INCREASE IN RATE OF CORPORATION NORMAL TAX (PART II, TITLE I, REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

* * * * *

(b) *Maximum tax.* Section 430 (a) (2) (relating to the limitation on the rate of the excess profits tax) is hereby amended as follows:

(1) By inserting after "(2)" the following: "(A) in the case of taxable years ending before April 1, 1951,".

(2) By striking out the period at the end of paragraph (2) and inserting ", or" and by adding after paragraph (2) the following:

(B) in the case of taxable years beginning on January 1, 1951, and ending on December 31, 1951, an amount equal to 17¼ per centum of the excess profits net income for the taxable year, except that in the case of an affiliated group of includible corporations making or required to make a consolidated return for the taxable year under section 141, such amount shall be reduced by an amount which bears the same ratio (but not in excess of 100 per centum) to the increase of 2 per centum in the surtax imposed by reason of section 141 (c) as the amount of the consolidated excess profits net income bears to the amount of the consolidated corporation surtax net income, or

(C) in the case of taxable years beginning after March 31, 1951, an amount equal to 18 per centum of the excess profits net income for the taxable year, except that in the case of an affiliated group of includible corporations making or required to make a consolidated return for the taxable year under section 141, such amount shall be reduced by an amount which bears the same ratio (but not in excess of 100 per centum) to the increase of 2 per centum in the surtax imposed by reason of section 141 (c) as the amount of the consolidated excess profits net income bears to the amount of the consolidated corporation surtax net income, or.

* * * * *

SEC. 125. EFFECTIVE DATE (PART II, TITLE I, REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

The amendments made by this part (inc. sec. 121 (b)) shall be applicable only with respect to taxable years beginning after March 31, 1951, and to taxable years beginning on January 1, 1951, and ending on December 31, 1951. * * * For treatment of taxable years (other than the calendar year 1951) beginning before April 1, 1951, and ending after March 31, 1951, see section 131.

PAR. 28. Section 40.430–2 is amended as follows:

(A) By inserting in paragraph (a) (1) (ii) the following introductory phrase to the first sentence: "In the case of taxable years ending before April 1, 1951,".

(B) By striking out the period at the end of paragraph (a) (1) (ii) of the section and inserting in lieu thereof a comma and "or" and by inserting after such (ii) as so amended the following:

(iii) In the case of a taxable year which is the calendar year 1951, an amount equal to 17¼ percent of the excess profits net income for the taxable year, except that in the case of an affiliated group of includible corporations making or required to make a consolidated return for the taxable year under section 141, such amount shall be reduced by an amount which bears the same ratio (but not in excess of 100 percent) to the increase of 2 percent in the surtax imposed by reason of section 141 (c) as the amount of the consolidated excess profits net income bears to the amount of the consolidated corporation surtax net income, or

(iv) In the case of taxable years beginning after March 31, 1951, an amount equal to 18 percent of the excess profits net income for the taxable year, except that in the case of an affiliated group of includible corporations making or required to make a consolidated return for the taxable year under section 141, such amount shall be reduced by an amount which bears the same ratio (but not in excess of 100 percent) to the increase of 2 percent in the surtax imposed by reason of section 141 (c) as the amount of the consolidated excess profits net income bears to the amount of the consolidated corporation surtax net income.

(C) By striking out in paragraph (a) (2) of the section "section 430 (a) (2)" wherever appearing therein and inserting in lieu thereof "section 430 (a) (2) (A)".

(53 Stat. 32, 467; 26 U. S. C. 62, 3791)

[SEAL] JUSTIN F. WINKLE,
Acting Commissioner of Internal Revenue.

Approved: December 2, 1952.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

[F. R. Doc. 52–12933; Filed, Dec. 5, 1952; 8:49 a. m.]

[T. D. 5952; Regs. 130]

PART 40—EXCESS PROFITS TAXES; TAXABLE YEARS ENDING AFTER JUNE 30, 1950

EQUITY CAPITAL OF SECTION 204 INSURANCE COMPANIES

On October 1, 1952, notice of proposed rule making with respect to regulations under section 437 (c) of the Internal Revenue Code, as amended by Public Law 166, 82d Congress, approved October 10, 1951, was published in the FEDERAL REGISTER (17 F. R. 8692). No objection to the rules having been received, the amendments of Regulations 130 set forth below are hereby adopted.

PARAGRAPH 1. There is inserted immediately preceding § 40.437–1 the following:

PUBLIC LAW 166 (82d CONGRESS), APPROVED OCTOBER 10, 1951

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That section 437 (c) of the Internal Revenue Code is amended by striking out "(other than mutual and other than life or marine)" and inserting in lieu thereof "taxable under the provisions of section 204".

SEC. 2. The amendment made by section 1 shall have the same effect as if it had been a part of the said section 437 (c) on January 3, 1951.

PAR. 2. The first sentence of paragraph (b) (5) of § 40.437–5 is amended by deleting the parenthetical phrase "(other than mutual and other than life or marine)" and inserting in lieu thereof "taxable under the provisions of section 204". Such sentence as amended will read as follows: "In the case of an insurance company taxable under the provisions of section 204, the equity capital shall include 50 percent of its reserves required by law, except the reserve for unearned premiums used in computing borrowed capital under section 439 (b) (2)."

(53 Stat. 32, 467; 26 U. S. C. 62, 3791)

[SEAL] JOHN S. GRAHAM,
Acting Commissioner of Internal Revenue.

Approved: December 2, 1952.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

[T. D. 5953; Regs. 130]

PART 40—EXCESS PROFITS TAX; TAXABLE YEARS ENDING AFTER JUNE 30, 1950

MINERAL PROPERTIES; DETERMINING NONTAXABLE INCOME FROM EXEMPT EXCESS OUTPUT

On August 26, 1952, notice of rule making, clarifying certain provisions of Regulations 130, relating to nontaxable income from certain mining operations and to reflect certain provisions of the Revenue Act of 1951, approved October 20, 1951, was published in the FEDERAL REGISTER (17 F. R. 7789). After consideration of all relevant matters presented by interested persons regarding the rules proposed, the amendments to Regulations 130 (26 CFR Part 40) set forth below are hereby adopted.

PARAGRAPH 1. There is inserted immediately preceding § 40.453–1, the following:

SEC. 515. NONTAXABLE INCOME FROM CERTAIN MINING PROPERTIES (TITLE V, REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

Section 453 (relating to nontaxable income from exempt excess output) is hereby amended as follows:

(a) By amending the first sentence of subsection (a) (13) thereof to read as follows: "The term 'unit net income' means the amount ascertained by dividing the net income (computed with the allowance for depletion) from the coal, ore, sulphur, potash, metallurgical grade limestone, chemical grade limestone, or timber recovered from the mineral property, or timber block, as the case may be, during the taxable year by the number of units of such mineral or timber recovered from such property in such year."

(b) By inserting immediately after the words "coal mining property" in subsection (b) (2) thereof the following: ", or of a sulphur, potash, metallurgical grade limestone, or chemical grade limestone mineral property,".

(c) By striking out so much of subsection (b) (4) as precedes the second sentence and inserting in lieu thereof the following:

(4) *Certain properties not in operation during normal period.* For any taxable year, the nontaxable income from exempt excess output of a metal or coal mining property, of a sulphur, potash, metallurgical grade limestone, or chemical grade limestone mineral property, of a timber block, or of a natural gas property, which was not in operation during the normal period, shall be an amount equal to one-third of the net income for such taxable year (computed with the allowance for depletion) from such property or timber block, as the case may be.

SEC. 523. EFFECTIVE DATE OF TITLE V (TITLE V, REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

* * * the amendments made by this title (including section 515) shall be applicable only with respect to taxable years ending after June 30, 1950.

PAR. 2. Section 40.453–2 (g) is amended to read as follows:

(g) *Alternative computation of exempt excess output for more than one mineral property.* (1) Section 453 (a) (10) provides that where more than one mineral property (as defined in paragraph (f) of this section) is owned or operated by a producer or lessor (as defined in paragraph (a) (1) and (2) of this section), such producer or lessor may elect to treat the mineral properties as one property for the purpose of applying section 453 (b) (1). If the taxpayer elects under section 453 (a) (10), such properties shall be aggregated and treated as one property to the extent provided under the rules set forth in paragraph (m) (2) and (3) of this section. In the case of a taxpayer making the election under section 453 (a) (10), a coal or mineral property not in operation during the normal period (see section 453 (a) (4) and paragraph (d) of this section) shall be included with such properties which were in operation during the normal period to the extent such property which was not in operation during the normal period may be so included under the rules set forth in paragraph (m) (2) and (3) of this section.

(2) In the case of a taxpayer making the election under section 453 (a) (10), the net income from the coal or mineral property shall be computed in a manner similar to that described in paragraph (j) of this section with respect to a mineral property as if the properties aggregated under subparagraph (1) of this paragraph were a mineral property, except that the amount of depletion allowed in the computation of such net income shall be the sum of the amounts computed according to sections 23 (m) and 114, and the regulations thereunder.

(3) The election pursuant to section 453 (a) (10) shall be made in a statement attached to Schedule EP (Form 1120) accompanying the income tax return, filed on or before the last day required by law for the filing of such return, for the taxable year for which the election is being made. The last day required by law for filing of such return includes the last day of the period of any extension of time granted for such filing. Such election must be made for each taxable year for which the benefits of section 453 (a) (10) are claimed and such an election does not preclude the taxpayer from electing for a subsequent year to compute nontaxable income from exempt excess output by treating the mineral properties as separate properties under the rules set forth in paragraph (f) of this section. If the taxpayer has failed so to elect or desires to change its election, such election or change in election may, subject to the

approval of the Commissioner, be made by the taxpayer filing with the Commissioner of Internal Revenue, Washington 25, D. C., within the period of limitations for the filing of claims for credit or refund with respect to the year or years involved, a notice of its election or change in election accompanied by a recomputation of its income and excess profits taxes for such years. If the recomputation results in an overpayment for any of such years, the taxpayer should file a claim for refund on Form 843 in accordance with the provisions of section 322.

PAR. 3. Section 40.453–2 (m) is amended as follows:

(A) By striking the word "ore" wherever appearing in subparagraph (1) and by inserting in lieu thereof the following: "mineral".

(B) By adding the following new sentence at the end of subparagraph (2): "A coal property not in operation during the normal period (see section 453 (a) (4) and paragraph (d) of this section) shall be included with properties which were in operation during the normal period to the extent such properties which were not in operation during the normal period may be so included under the rules set forth in this section.

(C) By amending subparagraph (3) to read as follows:

(3) For the purpose of section 453 (a) (13) and section 453 (b) (2), a mineral property shall include the aggregate of all tracts or parcels of land containing mineral deposits in which economic interests were owned, and from which minerals were extracted, by the taxpayer at any time after the beginning of the normal period (excluding, however, any tract or parcel of land in which an economic interest was acquired, and from which minerals were extracted, by any other person subsequent to the last date of ownership and operation by the taxpayer) to the extent that such tracts or parcels of land were operated by the taxpayer as an operation unit, regardless of whether the economic interest in one tract or parcel of land differed from that in another. The mineral property of a lessor is the tract or parcel of land containing mineral deposits in which an economic interest is owned by the lessor. It need not necessarily be coextensive with the mineral property in the case of the producer. A mineral property not in operation during the normal period (see section 453 (a) (4) and paragraph (d) of this section) shall be included with properties which were in operation during the normal period to the extent such properties which were not in operation during the normal period may be so included under the rules set forth in this section.

(D) By amending subparagraph (4) of such paragraph to read as follows:

(4) The net income (computed with the allowance for depletion) from the coal or the mineral recovered from the mining property during a taxable year for which the benefits of section 453 (b) (2) are claimed shall be the net income from the mining property from which such coal or mineral is recovered, computed in a manner similar to that described in paragraph (j) of this section with respect to a mineral property as if such mining property were a mineral property, except that the amount of depletion allowed in the computation of such net income shall be the sum of the amounts computed according to sections 23 (m) and 114, and the regulations thereunder.

(E) By striking the word "ore" wherever appearing in subparagraph (13) of such paragraph and by inserting in lieu thereof the following: "mineral".

PAR. 4. Section 40.453–3 (b) is amended as follows:

(A) By striking the headnote of such paragraph which reads *Metal and coal mines* and inserting in lieu thereof *Mines in operation during normal period.*

(B) By inserting immediately after subparagraph (4) the following new subparagraph:

(5) The computation of nontaxable income from exempt excess output in the case of those mineral properties, in addition to metal or coal mining properties, which are referred to in section 453 (b) (2) shall be made in a manner consistent with that set forth in subparagraphs (1) through (4) of this paragraph.

PAR. 5. Section 40.453–4 is amended as follows:

(A) By striking the heading of such section which reads "*Mines, timber properties, and natural gas properties not in operation during normal period.*" and by inserting in lieu thereof the following: "*Certain properties not in operation during normal period.*"

(B) By inserting immediately after "coal mining property," wherever appearing in such section the following: "certain other mineral properties referred to in section 453 (b) (4),".

(53 Stat. 32, 467; 26 U. S. C. 62, 3791)

[SEAL] JUSTIN F. WINKLE,
Commissioner of Internal Revenue.

Approved: December 2, 1952.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

TITLE 32—NATIONAL DEFENSE

Chapter IV—Joint Regulations of the Armed Forces

Subchapter A—Armed Services Procurement Regulation

MANUAL FOR CONTROL OF GOVERNMENT PROPERTY IN POSSESSION OF NON-PROFIT RESEARCH AND DEVELOPMENT CONTRACTORS

APPENDIX C—MANUAL FOR CONTROL OF GOVERNMENT PROPERTY IN POSSESSION OF NON-PROFIT RESEARCH AND DEVELOPMENT CONTRACTORS

PART I—INTRODUCTION

100. *Scope of Manual.* This manual sets forth basic requirements to be observed by the Departments of the Army, Navy and Air Force, for establishing and maintaining control over Government property furnished to or acquired by contractors in the case of research and development contracts with educational or other non-profit organizations, provided such contracts are executed on a non-profit basis.

101. *Effective date.* This manual shall be complied with on and after 1 July 1952.

102. *Applicability of Manual.* Subject to paragraph 100 above, this manual applies to all types of contracts, leases, and bailments, pursuant to which Government property is furnished to or acquired by a contractor.

103. *Definitions.* As used in this manual, the following terms have the meanings shown:

103.1 *Educational or other non-profit organization.* The term "educational or other non-profit organization" means any corporation, foundation, trust, or institution operated for scientific or educational purposes, not organized for profit, no part of the net earnings of which inures to the profit of any private shareholder or individual.

103.2 *Contract Administrator.* The term "Contract Administrator" means the individual duly designated by appropriate authority in the military departments to administer the contract. In the case of the Army and Air Force, this is a Contracting Officer, and in the Navy, the authorized representative of the Contracting Officer having administrative cognizance over the contract.

103.3 *Government Property.* The term "Government Property" means all physical property owned by or leased to the Government, or acquired by the Government under the terms of a contract, except that property to which the Government has acquired a lien or title solely as a result of partial, advance or progress payments shall not for the purpose of this section be classified as Government Property. With this exception, it includes both Government-furnished property and Contractor-acquired property, which are defined as follows:

(a) *Government-furnished property* is property in the possession of or acquired directly by the Government and delivered or otherwise made available to the Contractor; and

(b) *Contractor-acquired property* is property procured or otherwise provided by the Contractor for the performance of a contract, pursuant to the terms of which title is vested in the Government.

The term "provide" as used in this manual in such phrases as "Government provided property" and "property provided by the Government" shall include both the furnishing by the Government and the acquisition by the Contractor as defined in this paragraph 103.3.

103.4 *Classification of Government property.* The terms "classify", and "classification" as used herein with reference to Government property refer to the grouping of property into different categories having different incidents. For purposes of this manual, Government property shall be classified in five categories, defined as follows:

(a) *Real property.* The term "real property" means lands, buildings, structures, improvements and appurtenances thereto. It does not include plant equipment as defined in subparagraph (b) below.

(b) *Plant equipment.* The term "plant equipment" means personal property consisting of machinery, vehicles, machine tools, and other equipment which, in view of its intended use, is expected to remain of substantial value over a period of more than one year in its original form, without being expended and without appreciable modification or incorporation into another piece of equipment, except that items of value of less than $100.00 each will not be considered as "plant equipment" within this definition but will be considered as minor equipment. The term does not include special tooling as defined in subparagraph (e) below.

(c) *Minor equipment.* The term "minor equipment" means any item of equipment of a capital nature which would be plant equipment except that its value is less than $100.00 each. It does not include any items acquired under material or special tooling clauses in a supply or service contract.

(d) *Material.* The term "material" means all property other than real property, plant equipment, minor equipment or special tooling. It may be incorporated into or attached to the end products to be delivered to the Government; or it may be consumed, expended or used in the performance of a contract. It includes, but is not limited to, raw and processed material, parts, components, assemblies, expendable small tools, and consumable supplies.

(e) *Special tooling.* The term "special tooling" means property of such specialized nature that its use, without substantial modification or alteration, is limited to the production of the particular articles or performance of the particular services for which acquired or furnished. It includes, but is not limited to jigs, dies, fixtures, molds, patterns, special taps, special gauges, and special test equipment.

103.5 *Property Administrator.* The term "Property Administrator" means the Government representative who is responsible to the Contract Administrator for reviewing the Contractor's property control procedures, for checking the records maintained by the Contractor for Government-furnished and Contractor-acquired property, for making usage checks of Government property, and for the maintenance of such Government property records as are required by this manual.

103.6 *Property Account.* The term "Property Account" means the official records of the Government property provided to a Contractor by a Department, which are established and maintained under the provisions of this manual. Separate property accounts will be maintained either on an individual contract basis or Contractor basis.

103.7 *Stock record.* The term "stock record" means a perpetual inventory form of record which shows the quantities received and issued, and the balance on hand with respect to each item of material and special tooling.

103.8 *Salvage.* The term "salvage" means property which is recovered for further use. In addition, this term includes property which, because of its worn, damaged, deteriorated, or incomplete condition, or specialized nature, has no reasonable prospect of sale or use as serviceable property without major repairs or alterations, but which has some value in excess of its material content.

103.9 *Scrap.* The term "scrap" means property in such condition that it has no reasonable prospect of being sold except for its material content.

PART II—GOVERNMENT ADMINISTRATIVE PROVISIONS

200. *Scope of part.* This part sets forth (i) the duties and responsibilities of Government representatives charged with the control of Government property (ii) the sources from which Government property may be received or acquired, and (iii) the instructions to Government representatives for the control of Government property, both physically and administratively.

201. *Duties and responsibilities of the Contract Administrator with respect to the control of Government property.* (a) The function of the Contract Administrator with respect to the control of Government property is to insure that the Contractor complies with the provisions of the contract and this manual pertaining to Government property and that the Government's interests therein are fully protected at all times. He shall require the Contractor to (i) exercise reasonable care and proper usage of all Government property, (ii) establish and maintain adequate records therefor, and (iii) maintain controls that will assure the recording of all debits and credits to the property record as hereinafter defined.

(b) It is incumbent upon the Contract Administrator to familiarize himself with the provisions of this manual and the contract involved.

(c) He shall require the Contractor to correct all deficiencies in complying with the provisions of the contract and this manual pertaining to Government property.

(d) He shall take proper action with respect to recommendations of the Property Administrator relating to usage or control of Government property.

(e) He shall make appropriate written findings with respect to the Contractor's liability for Government property lost, damaged, destroyed, or unreasonably consumed, as may be required by this manual.

202. *Designation of Property Administrator.* (a) A Property Administrator shall be designated for each Government contract involving Government property. In appropriate cases the Contract Administrator may be assigned the additional duty of Property Administrator.

(b) When a Contractor is engaged simultaneously in the performance of contracts for more than one procuring activity, one Property Administrator may be designated for all contracts upon mutual agreement of the procuring activities concerned.

(c) Assistant Property Administrators for specific contracts may be appointed in accordance with the procedures of each Department.

(d) Property Administrators may be civilian or military personnel.

(e) The Property Administrator will not be required by virtue of his duty as Property Administrator to post a bond.

203. *Duties and responsibilities of the Property Administrator.* (a) The Property Administrator shall familiarize himself with the provisions of this manual and the contract provisions pertaining to Government property.

(b) He shall, as the authorized representative of the Contract Administrator, insure compliance with the contract requirements relative to Government property and insure fulfillment of all obligations imposed by this manual.

(c) He shall examine any documents, including but not limited to consumption or usage reports, adjustment reports, reports of spoilage or shrinkage, sales, shipments, transfers, etc., recorded by the Contractor in the property accounts, to the extent necessary to establish the correctness and completeness of such records.

(d) It shall be his responsibility to report to the Contracting Officer any instances of what he deems to be improper usage of Government property. To the extent necessary to fulfill this function selective physical inspections of Government property shall be made.

(e) He shall periodically examine property records to determine whether such records reflect the status of Government property and indicate compliance with the provisions of the contract and applicable directives. He shall report promptly in writing to the Contract Administrator any non-compliance by the Contractor with the contract provisions and applicable directives.

(f) He will observe the following procedure in connection with loss, damage, and destruction of Government property in the possession of the Contractor:

(i) He will require the Contractor to report to him all cases of loss, damage, or destruction of Government property in its possession, as soon as such fact becomes known. He will forward such report to the Contract Administrator, together with his own report of the facts of the case and his recommendations thereon. If the Contract Administrator is the Contracting Officer, he will thereupon determine the Contractor's liability, subject to the terms of the contract; otherwise he will forward the papers to the Contracting Officer, who will make such determination. In making any such determination, consideration will be given to the reports and recommendations submitted and to any additional facts which the Contractor may submit. The Contractor and the Property Administrators shall be furnished with a written copy of such determination. A copy shall be held in the files of the Contract Administrator.

(ii) When inventory adjustments or usage checks disclose consumption of property which is considered unreasonable by the Property Administrator, or when instances of losses, damages to, or destruction of Government property, which have not been reported by the Contractor, are discovered by the Property Administrator, he shall prepare a statement of the items and amount of loss involved. This statement shall be furnished the Contractor for investigation and written justification. Further procedure shall be in accordance with that prescribed in (i) above.

(iii) When end items are lost, destroyed, or damaged beyond repair while such items are in the physical possession or control of the Contractor, the action prescribed in subparagraph (i) above will be required.

(iv) Where it has been determined that the Contractor is liable to the Government by reason of the loss, damage, or destruction of Government property, a letter of advice from the Contract Administrator shall be considered a valid credit to the official Government property records, provided:

(A) When the Contractor pays by check, the letter of advice will identify the check received by number, date, and amount.

(B) When a settlement is made by offset against amounts due to the Contractor on a public voucher, the letter of advice will cite the actual voucher (Form 1034) on which the deduction is made.

(C) When collection of the claim against the Contractor is to be made by the fiscal office designated for the contract, the letter of advice will have attached thereto a copy of the document used by the Contract Administrator to notify the fiscal office to effect collection.

(v) When property is rendered unserviceable by damage thereto, the letter of advice from the Contract Administrator will be considered a valid credit to the Government property account when supported by or appropriately cross-referenced to shipping documents or listing covering proper disposition of the unserviceable items.

(h) He shall take the action necessary to insure that his records of the transactions discussed in paragraph 204 below are complete.

(i) He shall review and approve the contractor's scrap procedures and records as provided in paragraph 212 of this manual.

(j) He shall advise the Contract Administrator on all property matters.

204. *Shipment and receipt of Government-furnished property.* In the case of Government property shipped to a Contractor's plant from a military installation or from another Contractor's plant, the Contractor becomes responsible therefor upon delivery of the property to his plant. The shipping activity shall furnish the Property Administrator, who is responsible for the receiving Contractor's property account, with copies of the documents necessary to permit the property account to reflect the transaction. On receipt of the property the Contractor will furnish the Property Administrator with documented evidence of such receipt.

205. *Sources from which Government property may be furnished or acquired.*

205.1 *Military installations or other Contractor's plants.* Government property may

be shipped to a Contractor from military installations or plants or department contractors.

205.2 *Direct purchase by the Contractor.* Direct purchases shall be subject to a determination by the Contract Administrator that the items are allocable to the contract involved and are reasonably necessary therefor. For purposes of property control within the scope of this manual, it shall be considered that property purchased by a Contractor, for which direct reimbursement is to be requested, becomes Government property upon its receipt by the Contractor. This is "Contractor-acquired" property. This provision shall not be deemed to alter or modify contractual provisions relating to passage of title.

205.3 *Withdrawal from Contractor-owned stores.* For purposes of property control, within the scope of this manual, property withdrawn from Contractor-owned stores, for direct charge to the contract, shall be considered Government property at the time of approval of the claim for reimbursement, or at the time of issuance for use of such property for the performance of the contract, whichever is earlier. This also is "Contractor-acquired" property.

205.4 *Contract provisions, termination, contract changes.* Pursuant to specific contractual provisions, or as a result of termination of a contract, or change orders issued under a contract, the Government may acquire title to property.

205.5 *Advance, progress, or partial payments.* Pursuant to the terms of a contract the Government may acquire title to property upon the making of advance, progress, or partial payments to the Contractor. Property to which the Government has acquired a lien or title solely as a result of partial, advance, or progress payments shall not be subject to the provisions of this manual.

206. [Reserved].

207. *Contractor's records.*

207.1 *General policy.* In order to satisfactorily perform work under a Government contract, a contractor must maintain adequate control records for all Government property, whether furnished to or acquired by a contractor for the account of the Government. It is the Government's policy to designate and use such records as the official contract records, and not to maintain duplicate property control records, other than those required by paragraph 213, and other than such real property and plant equipment records as may be required by the respective departments. Exceptions to this policy may be authorized by the respective departments in special circumstances, such as where the administrative expense of maintaining Government personnel at the Contractor's plant or providing frequent official visits to the plant would exceed the cost of maintaining Government records or otherwise not to be in the best interest of the Government.

207.2 *The Contractor's property control system.* The Contractor's property control system shall be reviewed and approved in writing by the Contract Administrator. If any corrective action is necessary, it will be required of the Contractor prior to approval. Consistent with the provisions of the contract, the principles and requirements stated in the subparagraphs below shall be observed by the Contract Administrator in approving the Contractor's property control system.

207.3 *Records for material in stores.* For material maintained by the Contractor in stocks or stores, the Contractor's property control system shall be such as to provide the following information:

(i) Contract number, or equivalent code designation.
(ii) Nomenclature or description of item.
(iii) Quantity received.
(iv) Quantity issued.
(v) Balance on hand.
(vi) Posting reference.
(vii) Date received or issued.
(viii) Price.
(ix) Disposition action taken.

207.4 *Records for material issued directly upon receipt, for minor equipment, and for special tooling.* For material, whether Government-furnished or Contractor-acquired, issued by the Contractor directly so as to be considered expended under the contract, for minor equipment, and for special tooling, the Government invoices, Contractor's purchase documents, or other documentary evidence of acquisition and issue, will be accepted as adequate property control records.

207.5 *Records of plant equipment.* Individual records for each item of plant equipment shall be maintained. The following information will be available from such records:

(i) Name and address of Contractor.
(ii) Name and address of manufacturer of the plant equipment item.
(iii) Model No. of the plant equipment item.
(iv) Year built or acquired.
(v) Serial number.
(vi) U. S. Government identification number.
(vii) Description and classification of the item.
(viii) Acquisition reference.
(ix) Disposition reference.
(x) Contract number under which acquired.
(xi) Cost (F. o. b. Manufacturer).

207.6 *Records of real property.* Records of real property shall be as provided in paragraph 306 (d).

207.7 *Separated components.* Property records shall be required for any usable components which are permanently removed from items of Government property, as a result of modification, or otherwise, to the same extent as would be the case if such components had been provided separately by the Government; provided that the Contractor shall not be required to augment his property control system for the purpose of recording minor equipment, special tooling or materials, except upon return to stocks or stores.

207.8 *Custodial records.* Custodial records normally should be maintained for items issued from tool cribs or the like, guard force items, protective clothing and other items issued for the use of individuals in the performance of their work under the contract. However, it is the general policy of the Government to accept for the control of Government property of the above character the same system as employed by the Contractor for his own similar property.

207.9 *Consolidated stock record.* Where a Contractor has more than one Government contract, under which Government property is provided, a consolidated record for materials may be authorized, provided the total quantity of any item is allocated to each contract by contract number and each requisition of property from the Contractor's stores is charged to the contract on which the property is to be used. The supporting document or issue slip shall show the contract number or equivalent code designation to which the issue is charged.

207.10 *Pricing.* Property records shall show a unit price for each item except for items constructed for research or development purposes by the Contractor. In the case of Contract-acquired property the price shall be determined in accordance with the system established by the Contractor in conformance with sound accounting principles and consistently applied. The unit price of Government-furnished property shall be as determined by the Government and furnished to the Contractor.

208. [Reserved.]

209. *Identification and marking.* Government property shall be recorded and identified by the Contractor promptly upon receipt as provided in the contractual provisions. The Government shall furnish the number with which the plant equipment shall be marked.

209.1 *Marking identifications.* Marking identifications shall be as follows:

(a) A suitable indication of Government ownership such as the words "U. S. Government Property," or the abbreviation "USA," "USN," or "USAF."

(b) With respect to plant equipment, a three-part identification number consisting solely of numerals except as provided in (c) below. The first part shall designate the owning military department, such as U. S. Army, U. S. Navy, or U. S. Air Force; the second part shall be the property account number; and the third part shall be a serial number. In case plant equipment furnished by the Government is already identified as property of the military departments, no change shall be made in the markings.

(c) In the case of items included within a standard departmental registration system, for example, automotive construction, or weight-handling equipment, application for a proper registration number will be made to the cognizant department, which number shall be used in lieu of any other identification number.

209.2 *Recording identification numbers.* Assigned property identification numbers will be recorded on applicable property records.

210. *Segregation or commingling of Government property and Contractor's property.* Ordinarily Government property, particularly material, should be segregated and kept physically separate from Contractor-owned property at all times. There will be occasions, however, where commingling of property would be advantageous to the Government. The Contract Administrator should consider and arrange with the Contractor plans for segregation and commingling of property. This agreement reached with respect to commingling shall be reduced to writing by the Contract Administrator. Commingling may be allowed in the following types of cases:

(a) Where such commingling is approved by the Contract Administrator.

(b) Where the Government property involved is plant equipment, special tooling or minor equipment which is clearly identified or marked as Government property and is supported by appropriate control records.

211. *Physical inventories.*

211.1 *Before termination or completion.* It shall be the responsibility of the Contract Administrator to review and approve the type and frequency of physical inventories to be taken. In this respect he may accept and approve in writing the Contractor's established procedures if he determines that they adequately protect the interests of the Government and are in conformity with applicable regulations.

211.2 *Upon termination or completion.* Upon termination or completion of a contract, a physical inventory adequate for disposal purposes shall be required of all Government property applicable to the contract in the custody, control or possession of the Contractor. Standard items that have been modified may be described as standard items, with a general description of the modification. Items that have been constructed, such as test equipment, should be described in sufficient detail to permit a potential user to determine whether they are of sufficient interest to warrant further inspection.

211.3 *Inventories and selective checks by the Contract Administrator.*

(a) The Contract Administrator may, at his discretion, join with the Contractor in the taking of any inventory, required to be made by the Contractor.

(b) The Contract Administrator should make selective checks of the inventory being

taken by the Contractor when he determines that such procedure is necessary to protect the interests of the Government. When selective checks are used they must embrace a representative number of items in the account and must adequately cover, by class and price range, all Government property involved.

211.4. *Quantitative and monetary controls.* As directed or required by proper authority, the Contract Administrator shall require the Contractor's physical inventories to be prepared on both a quantitative and monetary basis and be classified by categories such as material, special tooling, minor equipment, plant equipment, etc.

211.5 *Discrepancies.* The Contract Administrator shall proceed to adjust any discrepancies disclosed as a result of inventorying in accordance with the provisions of the contract and this manual.

212. *Control of scrap and salvage.* Procedures for the control of scrap and salvage shall not be applicable to non-profit research and development contracts unless the Contracting Officer determines that the scrap or salvage is substantial in amount and that the Government is not receiving sufficient benefits from the use or disposal thereof, in which event the procedures set forth in paragraph 403 of Appendix B, Armed Services Procurement Regulation, shall be applied.

213. *Records to be maintained by Government personnel.*

213.1 *Records of specific contracts where property is involved.* (a) Where a contract provides for the use of Government property a copy of the contract shall be made available or furnished to the Property Administrator.

(b) The Property Administrator shall maintain a record of each contract assigned to him for property administration. That record shall contain the following minimum information:

(i) Contract number and name of Contractor.
(ii) Type of contract (CPFF, fixed price, research and development, etc.)
(iii) End item to be produced or services to be performed, and the points of inspection and acceptance.
(iv) Record of amendments and changes pertaining to Government property.
(v) Listing and type of all subcontracts which involve Government property.
(vi) Provisions of contract pertaining to liability of the Contractor for loss, damage or improper use of Government property.
(vii) Record of Contract Administrators and dates of tenure.
(viii) Record of Property Administrators and dates of tenure.
(ix) Record of Plant Representatives (or Officers-in-Charge) and dates of tenure.
(x) Record of written approval of Contractor's property control procedures.
(xi) Record of deviations granted in property procedures. (The deviations granted shall be in accordance with procedural regulations issued by each department.)
(xii) Record of property audits and inspections performed by the responsible agencies in each department.
(xiii) Records of property inspections during production and usage checks performed.
(xiv) Record of any deficiencies found in property control and the corrective action taken.
(xv) Interim and final clearance data for Government property.
(xvi) A written statement from the Contractor listing the names of personnel authorized to receipt for Government property for the Contractor.
(xvii) A file of all documents evidencing receipt of Government-furnished property by the Contractor.
(xviii) A file containing copies of all instruments affecting relief from responsibility for Government property.

213.2 *Control records to be maintained.* The Property Administrator shall maintain a system of file control that will permit the ready location of any document that he is required by this manual to maintain.

213.3 *Record of end items.* The Property Administrator shall maintain a record of all end items produced under the contract, based upon authenticated receiving reports or processed vendors' shipping documents, as follows:

(a) When there is no lapse of time between Government inspection and acceptance of the end items and shipment from the Contractor, the records shall, as a minimum, consist of a summarization of quantities accepted and shipped. When end items are accepted by the Government and stored with the Contractor, the record shall show the quantities stored and location.

(b) Some contracts provide that end items are to be retained by the Contractor for further use under the contract. Upon acceptance of such items, they shall be considered to be "Government-furnished property" and shall be recorded by the Contractor as required by the terms of the contract.

214. *Numbering property accounts.* A property account, consisting of records maintained either by a Contractor or Government personnel, shall be assigned a property account number.

215. *Auditing property accounts.* Records of Government property shall be audited by the departments as frequently as conditions warrant, and upon termination or completion of the contract. These audits will include records maintained by the Contractor and such records as may be maintained by Government personnel in connection with such property. The Property Administrator and the Contractor shall make all property records, including correspondence related thereto, available for inspection by the auditors.

PART III—CONTRACTOR'S OBLIGATIONS

300. *Scope of part.* This part covers (i) the duties and responsibilities of the Contractor with respect to Government property, (ii) the liability of the Contractor for Government property lost, damaged, or for which the Contractor is otherwise unable to account, and (iii) the obligations of the Contractor with respect to the control of Government property, both physically and administratively. This Part III of this manual is designed so that it may be incorporated by reference in the contract, as desired.

301. *General.* The Contractor shall be directly responsible for and accountable for all Government property in accordance with the provisions of the contract and this Part III of this manual. The Contractor shall maintain and make available such records as are required by Part III of this manual, and must account for all Government property until relieved for responsibility therefor in accordance with the procedures as set forth hereinafter. Liability for loss, damage, or excessive use of property in a given instance will necessarily depend upon all circumstances surrounding the particular case and must be considered and determined in accordance with the provisions of the contract. The Contractor shall furnish all necessary data substantiating any request for discharge from responsibility.

302. *Definitions.* The definitions used in Part I of this manual apply to those terms defined therein when used in this Part III of this manual or in the contract.

302.1 *Contracting Officer.* As used in this Part III, the term "Contracting Officer" shall include any authorized representative of the Contracting Officer acting within the limits of his authority, including the Contract Administrator and the Property Administrator, as those terms are defined in paragraphs 103.2 and 103.5 of Part I.

303. *Contractor's responsibility.* A Contractor shall be responsible for all Government property in his custody or control in accordance with the terms of the contract. The Contractor may be relieved of responsibility for Government property by any of the following methods, subject in any case to specific contract provisions or specific instructions of the Contracting Officer within the scope of the contract:

(a) *Consumption of property in the performance of the contract.* To the extent that property has been consumed or expended for proper purposes and in reasonable amounts in the performance of the contract, the Contractor shall be relieved of responsibility for such property.

(b) *Retention by the contractor.* This may occur when the contract is completed or terminated, or otherwise in accordance with the provisions of the contract. The Contractor shall be relieved of responsibility for all property which has been retained by the Contractor, provided that the Government shall have approved the retention and shall have been reimbursed therefor in accordance with the terms of the contract or applicable regulations.

(c) *Sale of property.* The Contractor shall be relieved of responsibility for Government property sold with the approval of the Contracting Officer, in accordance with applicable regulations, provided, however, that the proceeds from such sale shall have been received by or credited to the Government.

(d) *Shipment of Government property from a contractor's plant.* The Contractor shall be relieved of responsibility when Government property is shipped from the Contractor's plant pursuant to the instructions of the Contracting Officer.

(e) *Written advice of Contracting Officer.* The Contractor shall be relieved of responsibility for Government property lost, damaged, destroyed, or consumed, in excess of that normally anticipated in the manufacturing or processing operation, as the result of appropriate action by the Contracting Officer to determine the liability of the Contractor provided such determination is furnished to the Contractor in writing and the Government shall have been adequately reimbursed when appropriate.

304. *Contractor's liability.* Subject to the terms of the contract, the Contractor may be liable when shortages of Government property are disclosed or when Government property is lost, damaged, or destroyed, or when there is evidence of unreasonable use or consumption of Government property as measured by the allowances provided for by the terms of the contract or the appropriate bill of materials.

305. *Receipting for Government property.* The Contractor shall furnish promptly to the Contracting Officer a written receipt for all Government-furnished property received. The Contractor shall also furnish the Contracting Officer a written statement listing the names of personnel authorized to receipt for Government property for the Contractor.

306. *Property control records.* The Contractor shall maintain proper control over all Government property in accordance with methods which have been established by the Contractor and approved by the Contracting Officer consistent with the following:

(a) *Material issued directly upon receipt, minor equipment and special tooling*—

(i) *Fixed price contracts.* In the case of Government-furnished material which is issued directly by the Contractor upon receipt so as to be considered expended under the contract, and in the case of minor equipment, and special tooling, the documents evidencing receipt and issue maintained by

(iii) Quantity received.
(iv) Quantity issued.

208. [Reserved.]

(b) The Contract Administrator should make selective checks of the inventory being

the Contractor will be accepted as property control records.

(ii) *Cost type contracts.* For material, whether Government-furnished or Contractor-acquired, issued by the Contractor directly so as to be considered expended under the contract, for minor equipment, and for special tooling, the Government invoices, Contractor's purchase documents or other documentary evidence of acquisition and issue, will be accepted as adequate property control records.

(b) *Material maintained in stocks.* In the case of material furnished by the Government under fixed price contracts, and in the case of material furnished by the Government or procured by the Contractor, title to which vests in the Government, under cost-type contracts, which material is maintained by the Contractor in stock or stores, the Contractor shall compile and maintain appropriate records covering the description, cost when known, acquisition and disposition, and such other information as may be required to identify the property. Records of consumption on a unit or accumulated basis shall also be maintained. The Contractor shall be prepared to locate such property within a reasonable time after request therefor.

(c) *Plant equipment.* In the case of plant equipment furnished by the Government under fixed price contracts, or in the case of plant equipment furnished by the Government or procured by the Contractor, title to which vests in the Government, under cost-type contracts, the Contractor shall compile and maintain individual property records covering the description, cost, acquisition, and disposition of each item of plant equipment and such other information as may be required to identify the property. The Contractor shall be prepared to locate any item of such property within a reasonable time after request therefor.

(d) *Real property.* In the case of real property furnished by the Government under fixed price contracts, and in the case of real property furnished by the Government or acquired by the Contractor, title to which vests in the Government, under cost-type contracts, the Contractor shall maintain a continuous itemized record of the description, location, acquisition cost, and disposition of all Government real property, including unimproved real property, all alterations and all construction work, and any site connected with such alteration or construction, acquired by purchase, lease or otherwise. This itemized record may be in the form of a cross-reference to maps, drawings, plans and specifications.

307. *Identification and marking.* The Contractor shall record and identify as such all Government property promptly upon receipt, and such property shall remain so identified so long as it remains in the custody, control or possession of the Contractor, in accordance with the following:

(a) *Material, minor equipment and special tooling.* Government-furnished material in stock or stores, minor equipment and special tooling, shall be identified as Government property by marking, labeling, tagging, or other suitable device, except where:

(i) No materials of the same type at the same location are owned by the Contractor, his employees, or other contracting agencies.

(ii) Property is of bulk type or by its general nature of packing or handling precludes adequate marking, as may be determined by the Contracting Officer.

(iii) Property is commingled as otherwise authorized herein, and marking and identification are waived by the Contracting Officer.

(b) *Plant equipment.* Unless already so marked, Government-furnished plant equipment and plant equipment acquired by the Contractor, title to which vests in the Government, shall be marked by the Contractor with an identification number to be furnished by the Government, unless the size or nature of a particular item makes marking impracticable, in which case such item shall be assigned an identification number for record purposes, which number shall be shown in the plant equipment property record.

(c) *Components.* Components which are permanently removed from items of Government property as a result of modification, or otherwise, shall be marked or identified by the Contractor according as to whether the component is classified as material, plant equipment, minor equipment or special tooling. Material, minor equipment and special tooling permanently removed from Government property need not be marked or identified except when returned to stock or stores.

307.1 *Method of identification.* Identification shall be affected by affixing a metal, fibre, plastic or other plate directly to the equipment; by using indelible ink, acid or electric etch, steel dies, or any other legible, permanent, conspicuous, and tamperproof method. Identification shall consist of the following markings:

(i) A suitable identification of Government ownership such as the words "U. S. Government Property," or the abbreviation "USA," "USN," or "USAF."

(ii) The Contractor shall affix to each item of plant equipment the identification number furnished by the Government. In case the plant equipment furnished by the Government is already identified as property of the U. S. Government, the markings shall not be removed. In addition to the markings prescribed by the Government, the Contractor may use a severable marking of its own, for its own records, provided that the Contractor shall remove such marking upon return of the equipment to the Government, or upon making any other disposition.

308. *Segregation and commingling.* The Contractor shall keep Government property segregated except where commingling is approved by the Contract Administrator as being to the mutual benefit of the Government and the Contractor, or where the Government property involved is plant equipment, special tooling or minor equipment which is clearly identified or marked as Government property and is supported by appropriate control records.

309. *Inventories.*

(a) *Interim physical inventory.* The Contractor shall take a physical inventory of Government property whenever required by the Contracting Officer, but such inventory shall not normally be required of the Contractor more often than once a year. The inventory shall show the quantity and monetary value of each item of property inventoried, and shall normally be limited to materials and minor equipment held in stocks and stores, and plant equipment. It shall be classified by categories of whatever items are inventoried, such as material, special tooling, minor equipment, plant equipment, etc.

(b) *Joint inventory and selective checks.* The Contracting Officer, if he desires, may join with the Contractor in taking the inventory required to be taken by the Contractor. The Contracting Officer shall have the right to take an inventory or make selective checks whenever he deems it necessary to protect the Government's interest. The Contractor agrees to make available to the Contracting Officer or his authorized representatives at all reasonable times at the office of the Contractor all of its property records under this contract, and to allow access to any premises where any of the Government property is located.

(c) *Terminal physical inventory.* The Contractor shall take upon completion or termination of the contract, a physical inventory adequate for disposal purposes of all Government property applicable to the contract in the custody, control, or possession of the Contractor. The inventory shall be prepared on both a quantitative and monetary basis and be classified by categories, such as material, special tooling, minor equipment, plant equipment, etc. Standard items that have been modified may be described as standard items, with a general description of the modification. Items that have been constructed, such as test equipment, should be described in sufficient detail to permit a potential user to determine whether they are of sufficient interest to warrant further inspection.

310. *Control of scrap and salvage.* Procedures for the control of scrap and salvage shall not be required unless the Contracting Officer determines that the scrap or salvage is substantial in amount and that the Government is not receiving sufficient benefits from the use or disposal thereof in which event the following procedures shall be applicable:

(a) The Contractor shall establish a procedure whereby all Government property that can be salvaged shall be returned to Government stock, which procedure shall be subject to the approval of the Contracting Officer.

(b) If the Contracting Officer determines that the Contractor's scrap procedures and records are adequate to protect the Government's interest, he shall approve same in writing and furnish the Contractor a copy thereof. If the Contracting Officer determines that corrective measures are necessary to protect the Government's interests, he shall so advise the Contractor.

Subchapter A—Armed Services Procurement Regulation

RULES FOR NOTICE AND HEARING UNDER GRATUITIES CLAUSE

APPENDIX D—RULES FOR NOTICE AND HEARING UNDER GRATUITIES CLAUSE IN ARMED SERVICES PROCUREMENT REGULATION 406.104-16

1. *Introduction.* Section 631 of the Department of Defense Appropriation Act, 1952, Public Law 179, 82d Congress, requires all contracts, other than contracts for personal services, which call for the expenditure of funds appropriated for the military departments under the Act to contain a clause permitting the termination of the contractor's right to proceed under any such contract and permitting the Government to pursue the remedies that it could pursue in the event of breach of contract if it is found after notice and hearing by the Secretary of the department with which the contract was made, or by his duly authorized representative, that gratuities (in the form of entertainment, gifts or otherwise) were offered or given by the contractor or by his agent or representative to any officer or employee of the Government with a view toward securing a Government contract or favorable treatment with respect to the awarding or amending, or the making of any determination with respect to the performing of such contract. The military departments have prescribed the use of such clause, as set forth in the Armed Services Procurement Regulation, paragraph 406.104-16, in contracts as required by the above Act and in other procurement contracts. It is the purpose of these rules to make provision for the giving of the notice of hearing for the conduct of the hearing, and for other procedural matters incident to the exercise of the rights and special remedies provided by the prescribed clause, wherever it is now

or may hereafter be used in contracts of the military departments. In the interest of uniformity in proceedings before the three military departments, these rules are hereby adopted. Nothing herein shall be construed to affect or impair (1) the pursuit of other remedies available to the Government in any instance, or (2) the right of termination of any contract for any reason available to the Government under the terms of such contract.

2. *Definitions. Department.* The term "department" means the Department of the Army, the Department of the Navy, or the Department of the Air Force.

Secretary. The term "Secretary" means the Secretary, the Under Secretary, or any Assistant Secretary of any military department.

Designee. The term "designee" means the person or board to whom authority has been delegated by the Secretary under Rule 3. The designee is the Secretary's authorized representative.

3. *Delegation of authority.* The Secretary may delegate to any person, military or civilian, or board of such persons within his Department all the authority of the Secretary conferred by statute or the prescribed contract clause to give notice of hearings, to conduct hearings and to make findings of fact with respect to (i) whether a gratuity was offered or given by a contractor or any agent or representative of such contractor to a Government officer or employee with a view toward securing a contract or securing favorable treatment with respect to the awarding or amending or the making of any determinations with respect to the performance of such contract; and (ii) where appropriate, the amount of the costs incurred by the contractor in providing such gratuity. If the Secretary delegates his authority to a board, one of the members thereof shall be a person trained in the law, and the Secretary shall designate one member to be the presiding officer of the board.

4. *Notice and contents.* Whenever information coming to the attention of the Department indicates that the procedures provided herein may be properly invoked, the Department may cause a written notice to be served upon the contractor in the manner hereinafter provided. The notice shall be signed by the Secretary or his designee and dated and shall include the following items:

(a) A statement of the time, place, and purpose of the hearing, and the authority and jurisdiction under which it will be held. The statement as to purpose need only identify the contract clause, the contract or contracts involved, and the ultimate facts to be determined. The time of the hearing shall not be less than 10 days after service of the notice.

(b) Brief allegations setting forth the circumstances surrounding the offering or giving of the gratuity, including a description of the alleged gratuity itself and its estimated cost to the contractor; an identification of the offeree or donee and of the offerer or donor and the latter's relationship to the contractor; and the approximate date and place of the alleged offer or gift. Such allegations need be only sufficient to apprise the contractor reasonably of the issues involved in the hearing.

(c) A request that the contractor answer in writing the allegations of the notice, including in his answer such facts or argument as he may wish, and that he attend the hearing to adduce such evidence with respect to the alleged offer or gift as he may desire.

A suggested form of notice is set out as an appendix to these rules.

5. *Service of notice.* Service shall be made by mailing or delivering a copy of the notice to the contractor. Delivery of a copy means handing it to the party to be served, or, if the party is a corporation, partnership, or unincorporated association, handing it to an officer, partner, managing or general agent, or any other agent authorized by appointment or by law to receive service of process, or by leaving the copy at the contractor's office with the person in charge thereof. Service by mail shall be made only by registered mail and service shall be complete upon mailing. The manner of service shall be evidenced by the signed endorsement of the person making the service upon a copy of the notice to be included in the record of the proceeding. Service of notice may be accepted or waived by the contractor by written endorsement on a copy of the notice.

6. *Continuances and delays.* The authority to grant continuances or to adjourn the hearing shall rest with the person presiding at the hearing. Continuances will only be allowed for the most compelling reasons.

7. *Parties.* The parties to the hearing will be the contractor concerned and the Government. No intervention by other persons shall be permitted.

8. *Representation and hearing assistants.* The parties may be represented at the hearing and proceedings incident thereto by legal counsel. Upon the appearance of record of legal counsel of the contractor in the proceedings, service of papers as may thereafter be required may be made upon such legal counsel. The Department will make available such technical assistants, including a reporter, secretary or notary, as may be required.

9. *Transcript.* Testimony and arguments shall be reported verbatim. The reporter or secretary shall make available to the contractor and to the Government transcripts of the proceedings, including all testimony and copies of all documentary exhibits upon the payment of the reasonable costs thereof as the Department may by order fix.

10. *Hearings.* Hearings shall be conducted by the Secretary or his designee. Hearings will be as informal as may be reasonably appropriate under all the circumstances. Evidence and testimony, although not ordinarily admissible under legal rules of evidence, may be received subject to the discretion of the person presiding at the hearing. Immaterial, irrelevant, or unduly repetitious evidence shall be excluded. The parties may stipulate as to any facts or testimony. The testimony of witnesses shall be under oath and witnesses shall be subject to cross-examination. The hearing officer shall make such rulings with respect to the conduct of hearings as circumstances may require to ensure the orderly and expeditious presentation of evidence in a manner fair to the parties and consistent with these Rules and requirements of due process of law.

11. *Depositions.* Following service of the notice of hearing, a deposition may be taken as herein provided, and placed in evidence whenever the ends of justice will be served thereby.

(a) *Notice to take.* When either party desires to take a deposition, unless the parties stipulate as to the time when, and place where, the deposition is to be taken, the name of the officer before whom it is to be taken, and the names and addresses of the witnesses, the moving party shall give to the opposite party at least ten days' notice of the time when and the place where such deposition will be taken, the name and address and official title of the officer before whom it is proposed to take the deposition, and the names of the witnesses. A deposition may be taken either upon written interrogatories or upon oral examination, as may be specified in the notice. If the deposition is to be taken upon written interrogatories, copies thereof must accompany the notice to take depositions; if the opposite party desires to submit cross-interrogatories, written cross interrogatories should be served upon the party giving the notice within 5 days from the receipt of the notice to take the deposition. Notices may be served upon the contractor as provided by Rule 4 or upon his legal counsel of record. Service upon the Government may be made upon the person signing the notice of hearing or the Government representative of record. If service is made by mail, the mail shall be registered and service will be complete upon mailing.

(b) *Taking depositions.* Depositions may be taken before and authenticated by any officer, military or civil, authorized by the laws of the United States or by the laws of the place where the deposition is taken, to administer oaths. Witnesses shall be under oath and shall be subject to cross-examination as at the hearing. Objections will be reserved for determination at the hearing; provided, however, objections as to the form of questions shall be made and noted in the deposition. Each deposition shall show the caption of the proceeding, the place and date of taking, the names of the witnesses, and the party by whom called. The officer taking a deposition shall enclose the original deposition and exhibits, in a sealed packet, with postage or other transportation prepaid, and forward the same to the Secretary or his designee.

(c) *Use of deposition.* Testimony taken by deposition will not be considered until offered in whole or in part and received in evidence. A deposition taken by one party may be offered by the opposite party.

12. *Submissions without appearance: absence of parties.* If the contractor fails or refuses to appear or to make a written submission without appearing at the hearing, the hearing shall proceed upon such evidence as the Government may offer. The unexcused absence of any party shall not be occasion for delay of the hearing. Notwithstanding the nonappearance of the contractor at the hearing, proposed findings, conclusions, and argument may be submitted in writing on the contractor's behalf as provided in Rule 13.

13. *Argument and request for findings.* Within the discretion of the person presiding at the hearing, limited oral argument may be presented by the parties upon the completion of the hearing. Within ten days after the hearing is completed, both parties may file in writing with the person or board conducting the hearing proposed findings and conclusions with reasons and argument in support thereof. Copies will be provided to the opposite party.

14. *Findings and decision.* As soon as practicable after completion of the hearing and the timely submission of proposed findings and conclusions, the person or board that conducted the hearing shall make written findings and conclusions with respect to all material issues; reasons for the findings will be included at such length as may be appropriate. The findings where adverse to the contractor will include, in addition to other appropriate items, the following: (i) a description of the gratuity that was offered or given; (ii) a statement of the costs incurred by the contractor in providing the gratuity; (iii) the name and relationship to the contractor of the person by whom the gratuity was offered or given on the contractor's behalf; (iv) the name and position of the officer or employee of the Government to whom the gratuity was offered or given; (v) a description of the contract which the Contractor sought to secure by the offering or giving of the gratuity, or a statement as to the nature of the favorable treatment so sought with respect to the awarding or amending, or the making of any determinations with respect to the performing of a contract. When the findings are made by a designee they shall be forwarded to the Secretary with recommendations as to whether the right of the contractor to proceed under any contract mentioned in the notice of hearing shall be terminated, and

with an identification number to be fur-

contract in the custody, control, or posses-

the prescribed clause, wherever it is now

incorporated association, handing it to an

days from the receipt of the notice to take

notice of hearing shall be terminated, and

as to the exemplary damages to be imposed against the contractor, which shall be in an amount which shall not be less than three nor more than ten times the costs incurred in providing the gratuity.

Approved this 5th day of July 1952 by: Earl D. Johnson, Assistant Secretary of the Army; H. R. Askins, Assistant Secretary of the Navy; Roswell L. Gilpatric, Under Secretary of the Air Force.

APPENDIX TO RULES

Form of Notice

Before the ---------- of the ----------

File No. --------

In the Matter of the XYZ Corporation, Contract --------: Proceedings Pursuant to Clause -------- of Contract No. ---------.

To: XYZ Corporation,
Rockefeller Plaza,
New York City, New York.

1. You are hereby notified that at --- M. on -------- 1952, at room ---- of the -------- Building, --------, a hearing will be held before ---------- to determine whether or not under the provisions of clause ------ of Government contract ---------- a gratuity has been offered or given on behalf of the XYZ Corporation to an officer or employee of the Government of the United States with a view toward securing (a contract) (favorable treatment with respect to the awarding or amending, or the making of any determinations with respect to the performing of a contract). If it is found that a gratuity was so offered or given, your right to proceed under the contract may be terminated, and a penalty imposed in accordance with the contract clause mentioned above. In the event of such termination the Government will be entitled to pursue the remedies available for breach of contract.

2. The hearing at the time and place aforesaid will be held under the authority of (cite applicable Public Law and clause of contract(s)). Enclosed is a copy of the Rules promulgated by the Secretary of the ------ ---- pursuant to which the hearing will be conducted. Papers pertaining to the proceedings may be captioned as above.

3. The contract(s) involved in the hearing, and which is (are) subject to termination if a gratuity is found to have been given or offered to secure favorable action as aforesaid, is (are) identified as follows:

Contract number ------ dated ---------- under the cognizance of ---------- and executed by ---------- on behalf of the Government as the Contracting Officer.

4. The gratuity offered or given and the circumstances relating thereto are alleged to be as follows: (Include in a concise statement the nature of the alleged gratuity; a fair estimate of the costs incurred by the contractor in providing the gratuity; the identity of the offeree or donee and his position with the government; the identity of the offerer or donor and his relationship to the contractor; and the approximate date, time, and place of the alleged offer or gift. Also allege as appropriate, that the gratuity was (offered) (given) with a view toward securing a Government contract or favorable treatment with respect to awarding or amending, or the making of a determination with respect to the performing of a Government contract. Identify or describe the contracts involved). On proof of the facts alleged as aforesaid, the Government, in accordance with the applicable statutory and contract provisions mentioned in paragraph 2, may terminate your right to proceed under the contract identified in paragraph 3 and to pursue the remedies available for breach of contract; also to impose exemplary damages as provided in such law and contract provision.

5. If you desire to be heard in this matter, you are requested to file with the Department on or before the time of the hearing a written answer and to appear at the hearing.

Dated: ----------

By direction of the -------- of the ----------

NOTE: Portions set apart by parentheses should be stricken or modified as appropriate to conform to the facts.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[General Ceiling Price Regulation, Amdt. 3 to Supplementary Regulation 100, Revision 1]

GCPR, SR 100—ADJUSTMENTS FOR IRON AND STEEL PRODUCTS

EXTRAS AND DEDUCTIONS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 3 to Supplementary Regulation 100, Revision 1, to the General Ceiling Price Regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

Several provisions of Supplementary Regulation 100, Revision 1 to the General Ceiling Price Regulation provide ceiling price increases expressed in percentages to be applied to a ceiling base price plus extras and deductions. The definition of "extras and deductions," as set forth in section 8 (a) caused some confusion in the industry as to the coverage of that term and has proven to be unduly narrow. In particular, it has appeared that extras for packaging have not been covered by that definition, although packaging is affected by labor and other cost increases to the same extent as other mill operations. This amendment eliminates that defect of the definition of section 8 (a) and brings it in line with industry practices.

In the formulation of this amendment there has been consultation with industry representatives including trade associations to the extent practicable and due consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Section 8 (a) of Supplementary Regulation 100, Revision 1, to the General Ceiling Price Regulation is amended to read as follows:

(a) *Extras and deductions.* As used in this supplementary regulation, the term "extras and deductions" means additions to or deductions from the base price customarily employed by producers of steel mill products. It does not include any outgoing freight costs or other delivery charges, but does include all other commonly employed steel mill extras such as finish, machining, gauge, width, length, size, and shape, shearing or cutting, packaging and protection, physicals including annealing, testing and quantity."

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective December 4, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

DECEMBER 4, 1952.

[F. R. Doc. 52-12978; Filed, Dec. 4, 1952; 5:01 p. m.]

[General Overriding Regulation 41]

GOR 41—ADJUSTMENTS UNDER THE INDUSTRY EARNINGS STANDARD FOR CONSUMER GOODS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this general overriding regulation is hereby issued.

STATEMENT OF CONSIDERATIONS

This General Overriding Regulation 41 establishes new ceiling prices for manufacturers of certain consumer goods where the level of ceiling prices previously established for the industry has been found to be below the minimum prescribed by the "industry earnings standard" (the "Johnston Formula").

The industry earnings standard provides that the level of ceiling prices for an industry shall normally be considered "fair and equitable" under the Defense Production Act of 1950, as amended, if the dollar profits of the industry amount to not less than 85 percent of the average earnings for the industry's best three years during the period 1946–1949, inclusive, adjusted for changes in net worth.

It is expected that commodities will be added to the coverage of this regulation from time to time. The commodities and the amount of the adjustment to be permitted will be listed in Appendix A. Except as provided in this regulation, all provisions of the basic regulations which would otherwise be applicable to the commodity and which are not inconsistent with this regulation remain in effect. Since the adjustment made by this regulation may take cognizance of certain increases in cost recognized in other adjustment regulations, to avoid duplication it will be specifically indicated what regulations may be used in conjunction with the adjustment taken under this regulation.

The first commodities to be included in this general overriding regulation are sheet and cast aluminum household cooking utensils. The Office of Price Stabilization has recently completed financial surveys of these industries. The surveys were undertaken as the result of information submitted by industry members and trade association representatives at various informal meetings which indicated that the level of ceiling prices heretofore in effect for these industries were below the minimum prescribed by the industry earnings standard. Financial data were obtained from representative groups of

manufacturers, whose total sales represent over 70 percent of the sheet aluminum household cooking utensil industry and 65 percent of the total sales of the cast aluminum household cooking utensil industry. Based upon this data, the Director of Price Stabilization has determined that in order for the dollar profits of each industry to meet the industry earnings standard, ceiling prices for the sheet and cast aluminum household cooking utensil industries will have to be established at 107 percent and 108.5 percent, respectively, above the industries' highest selling prices since July 1, 1952. Such ceiling prices will be generally fair and equitable.

This adjustment reflects all increases in cost of steel, other materials, wages, and freight that are currently in effect. Manufacturers of sheet and cast aluminum household cooking utensils covered by this regulation may not, therefore, adjust their ceiling prices under GOR 35 (Pass Through for Steel, Pig Iron, Copper and Aluminum Cost Increases) and SR 35 to CPR 22 or SR 122 to the GCPR (Adjustments to Reflect Increased Outbound Transportation Costs). Moreover, if they have already done so, they must deduct the amount of such adjustments before taking the adjustment allowed by this regulation.

Manufacturers continue to have the election to determine their ceiling prices under the various regulations that were issued pursuant to the so-called "Capehart Amendment." If they do so, however, they may not use this regulation. In addition, any manufacturers who have already taken advantage of the "Capehart Regulations" must deduct the amount of those adjustments which are reflected in their selling prices before taking the adjustment allowed by this regulation since the basis upon which the determination of the amount of the adjustment necessary to meet the "industry earnings standard" was selling prices at or near ceilings which did not include "Capehart adjustments."

In the formulation of this regulation there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. In the judgment of the Director, the provisions of this regulation are generally fair and equitable; are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended; and comply with the applicable standards of that act.

REGULATORY PROVISIONS

Sec.
1. What this regulation does.
2. Ceiling prices for commodities dealt in during the adjustment period.
3. Ceiling prices for commodities which cannot be determined under section 2.
4. Records and reports.
5. Relationship of this regulation to other adjustment regulations.

AUTHORITY: Sections 1 through 5 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803 as amended; 50 U. S. C. App. Sup. 2101–2110; E. O. 10161, Sept. 9, 1950, 15 F. R. 6105, 3 CFR, 1950 Supp.

SECTION 1. *What this regulation does.* This regulation, issued to give effect to the industry earnings standard, establishes new ceiling prices for sales by manufacturers of commodities listed in Appendix A. These new ceiling prices are to be used in place of those previously established under the GCPR, CPR 22 or CPR 161. All provisions of those regulations otherwise applicable to you and not inconsistent with this regulation remain in effect.

SEC. 2. *Ceiling prices for commodities dealt in during the adjustment period.* (a) Except as provided in subparagraphs (1), (2) and (3) of this paragraph you determine the ceiling price to each of your classes of purchasers for a sale of a commodity listed and defined in Appendix A by multiplying the highest price at which you delivered the commodity during the adjustment period to such class of purchaser by the appropriate percentage adjustment. The adjustment period and appropriate percentage adjustment are listed in Appendix A in the columns opposite the commodity. You may not use a price as the highest price at which you delivered a commodity to a class of purchaser unless you made at least 20 percent by dollar volume of your total deliveries of that commodity during the adjustment period to that class of purchaser at that price or a higher price. If your highest price during the adjustment period exceeded the applicable ceiling price, your ceiling price under this regulation is determined by multiplying your ceiling price in effect at the time you received your highest price by the percentage adjustment listed in Appendix A for that commodity.

(1) If the adjustment period for your commodity is shorter than five months, and you did not deliver the commodity during that period, you may, in the computations required in paragraph (a) above, use the highest price at which you offered it for delivery during that period to a purchaser of the same class. The offer must have been made in writing and communicated to a substantial number of customers.

(2) For commodities listed below (and defined in Appendix A) you may not use as your highest price, a price which includes adjustments made under either GOR 35 (Pass Through for Steel, Pig Iron, Copper and Aluminum Cost Increases) or SR 35 to CPR 22 or SR 122 to the GCPR (Adjustments to Reflect Increased Outbound Transportation Costs). If your highest price includes such adjustments you must reduce it by the dollar amount of such adjustments before using it to determine your new ceiling price under this regulation.

(i) Sheet aluminum household cooking utensils.

(ii) Cast aluminum household cooking utensils.

(3) For commodities listed below (and defined in Appendix A) you may not use as your highest price, a price which includes adjustments made under GOR 20, GOR 21 or SR 17 or 18 to CPR 22 (the "Capehart Regulations"). If your highest price includes such adjustments you must reduce it by the dollar amount of such adjustments before using it to determine your ceiling price under this regulation.

(i) Sheet aluminum household cooking utensils.

(ii) Cast aluminum household cooking utensils.

SEC. 3. *Ceiling prices for commodities which cannot be determined under section 2.* (a) If you cannot determine a ceiling price for the sale of a commodity under section 2, but you did, prior to the date this regulation became effective as to sales of that commodity by you determine ceiling price for that commodity under section 4 or 6 of the GCPR, sections 30 through 33 of CPR 22 or sections 3 through 5 of CPR 161, whichever is applicable, you may recompute that ceiling price, using as the ceiling price of any reference commodity, a ceiling price determined under this regulation. You need not report this recomputation.

(b) If you cannot determine a ceiling price for the sale of a commodity under section 2 or under paragraph (a) of this section 3, you must establish such ceiling price in accordance with CPR 161 (Consumer Durable Goods Regulation).

SEC. 4. *Records and reports*—(a) *Record-keeping requirements.* In addition to the records and reports required by other OPS regulations applicable to you, you must prepare and preserve for the life of the Defense Production Act of 1950, as amended, and for two years thereafter, all records necessary to determine whether you have correctly computed your adjusted ceiling prices under this regulation.

(b) *Reports.* The Director of Price Stabilization may from time to time require information or reports subject to the approval of the Bureau of the Budget, in accordance with the Federal Reports Act of 1942.

SEC. 5. *Relationship of this regulation to other adjustment regulations.* (a) Notwithstanding any provision of this regulation, you may elect to use GOR 20, GOR 21, SR 17 or SR 18 to CPR 22 to establish your ceiling prices. If you so elect, you may not use this regulation.

(b) You may not use the provisions of GOR 35 to adjust ceiling prices determined under this regulation for the following commodities (as defined in Appendix A):

(1) Sheet aluminum household cooking utensils.

(2) Cast aluminum household cooking utensils.

(c) You may not use the provisions of SR 35 to CPR 22 or SR 122 to the GCPR to adjust ceiling prices determined under this regulation for the following commodities to reflect cost increases which had taken place before the date this regulation became effective as to such commodities:

(1) Sheet aluminum household cooking utensils.

(2) Cast aluminum household cooking utensils.

Effective date. This regulation is effective December 10, 1952.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TIGHE E. WOODS,
Director of Price Stabilization.

DECEMBER 5, 1952.

vision.

tras such as finish, machining, gauge, tained from representative groups of ing utensils.

APPENDIX A

Listed below are the commodities covered by General Overriding Regulation 41, the applicable adjustment period, and the percentage adjustment.

Commodity	Adjustment period	Percentage adjustment
(a) Sheet aluminum household cooking utensils, except electrical appliances.	July 1, 1952, to Dec. 5, 1952, inclusive.	107
(b) Cast aluminum household cooking utensils, except electrical appliances.	do	108.5

[Ceiling Price Regulation 34, Amdt. 3 to Supplementary Regulation 22]

CPR 34—SERVICES

SR 22—SERVICE CHARGE FOR BANKS

NO MINIMUM BALANCE CHECKING ACCOUNTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this amendment to Supplementary Regulation 22 to Ceiling Price Regulation 34 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to Supplementary Regulation 22 to Ceiling Price Regulation 34 permits banks to institute "no minimum balance" checking accounts of a type which they do not presently offer.

A "no minimum balance" checking account is defined for the purposes of this regulation as a checking account where, regardless of the balance in the depositor's checking account, the only service charge to the depositor is a flat charge for each check drawn and each deposit made, or a flat charge for each check drawn with no charge for deposits. If a bank institutes a new type of account pusuant to this amendment, it must continue to supply each type of account which it offered during the base period or since that time. Thus, this amendment makes it possible for a bank to offer to its depositors a selection of the type of account most economical or convenient to them.

The technical nature of this amendment has made formal consultation with industry representatives, including trade association representatives, impracticable.

AMENDATORY PROVISIONS

Supplementary Regulation 22 to Ceiling Price Regulation 34, as amended, is further amended in the following respects:

1. Section 10 is renumbered section 11.

2. A new section 10 is added after section 9 to read as follows:

SEC. 10. *No minimum balance checking accounts.* (a) If you wish to supply any type of no minimum balance checking account which you do not presently supply, you may apply to the appropriate OPS District Office for the establishment of a ceiling price therefor. Your application must be filed by registered mail, return receipt requested, must be signed by you, and must contain a statement of your name and address; a description of the no minimum balance checking account service you wish to supply; and your proposed ceiling price for the service, which may not be higher than the ceiling price of the bank closest to you serving a comparable market and supplying the identical no minimum balance checking account service. Your application must also state the name and address of that bank. You may not sell the service for which a ceiling price is requested under this section until that price has been approved by OPS, but your proposed price shall be considered approved 20 days after receipt of your application by OPS, as shown by the return postal receipt, unless, within that time, OPS notifies you otherwise. If you institute a new type of account under this section, you must continue to supply each type of account which you supplied during the base period or since.

(b) For the purposes of this section, a no minimum balance checking account is a type of checking account where, regardless of the balance in the depositor's account, the only service charge to the depositor is a flat charge for each check drawn and each deposit made, or a flat charge for each check drawn with no charge for deposits, or a charge paid in advance for a specified number of checks. There may also be a maintenance charge on such accounts.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective December 10, 1952.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

TIGHE E. WOODS,
Director of Price Stabilization.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

PART 205—REPORTS OF MOTOR CARRIERS

QUARTERLY REPORTS OF PASSENGER REVENUES, EXPENSES AND STATISTICS

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 19th day of November A. D. 1952.

The matter of periodical reports to be required of motor carriers being under consideration pursuant to provisions of section 220 (a) of the Interstate Commerce Act, as amended (49 Stat. 563, 54 Stat. 926, 49 U. S. C. 320) and,

It appearing, that all Class I common and contract motor carriers of passengers are required by an order dated July 31, 1951, to file quarterly reports of revenues, expenses, and statistics and that on September 30, 1952, such carriers were notified that a modified report form had been approved to include a Report of Man-Hours Paid for and Compensation of Drivers (see FEDERAL REGISTER issue of October 11, 1952, 17 F. R. 9080); and,

It further appearing, that written views or arguments relating to such modifications could be filed by interested parties on or before November 10, 1952 and all representations so received having been given full consideration;

It is ordered, that the order of July 31, 1951, in the matter of quarterly reports for Class I motor carriers of passengers be, and it is hereby vacated and set aside; and it is further ordered, that:

§ 205.11 *Quarterly reports of passenger revenues, expenses, and statistics.* Each Class I common and contract motor carrier of passengers subject to the provisions of section 220 of the Interstate Commerce Act shall file duly verified quarterly reports commencing with the period January 1, 1953 to March 31, 1953, (both dates inclusive) in accordance with the Quarterly Report of Revenues, Expenses and Statistics—Class I Motor Carriers of Passengers form, including the Report of Man-Hours Paid for and Compensation of Drivers, which is hereby approved and made a part of this section.[1] Quarterly reports shall be forwarded, in triplicate, to the office of the Bureau of Motor Carriers of the Interstate Commerce Commission for the district in which the carrier is domiciled within thirty days after the close of the period to which they relate.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12)

Notice. A copy of this order shall be served on each Class I motor carrier of passengers subject to the act and on every trustee, receiver, executor, administrator, or assignee of any such motor carrier, and notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director of the Division of the Federal Register.

By the Commission, Division 1.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[F. R. Doc. 52-12908; Filed, Dec. 5, 1952; 8:47 a. m.]

PART 205—REPORTS OF MOTOR CARRIERS

QUARTERLY REPORT OF PROPERTY REVENUES, EXPENSES AND STATISTICS

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 19th day of November A. D. 1952.

The matter of periodical reports to be required of motor carriers being under consideration pursuant to provisions of section 220 (a) of the Interstate Commerce Act, as amended (49 Stat. 563, 54 Stat. 926, 49 U. S. C. 320) and,

It appearing, that all Class I common and contract motor carriers of property are required by an order dated July 31, 1951, to file quarterly reports of revenues, expenses, and statistics and that on September 30, 1952, such carriers were notified that a modified report form had been approved to include a Report of Man-Hours Paid for and Compensation of Drivers and Helpers (see FEDERAL REGISTER issue of October 11, 1952, 17 F. R. 9079); and,

It further appearing, that written views or arguments relating to such modifications could be filed by interested parties on or before November 10, 1952, and all representations so received having been given full consideration;

It is ordered, that the order of July 31, 1951, in the matter of quarterly reports for Class I motor carriers of property be, and it is hereby vacated and set aside; and, it is further ordered, that:

§ 205.12 *Quarterly report of property revenues, expenses and statistics.* Each Class I common and contract motor carrier of property subject to the provisions of section 220 of the Interstate Commerce Act, shall file duly verified quarterly reports commencing with the period January 1, 1953, to March 31, 1953, (both dates inclusive) in accordance with the Quarterly Report of Revenues, Expenses and Statistics for Class I Motor Carriers of Property form, including the Report of Man-Hours Paid for and Compensation of Drivers and Helpers, which is hereby approved and made a part of this section.[1] Quarterly reports shall be forwarded, in triplicate, to the office of the Bureau of Motor Carriers of the Interstate Commerce Commission for the district in which the carrier is domiciled within thirty days after the close of the period to which they relate.

(Sec. 12, 24 Stat. 383, as amended; 49 U. S. C. 12)

Notice. A copy of this order shall be served on each Class I motor carrier of property subject to the Act and on every trustee, receiver, executor, administrator, or assignee of any such motor carrier, and notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director of the Division of the Federal Register.

By the Commission, Division 1.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 43]

PART 608—DANGER AREAS

ALTERATION

The danger area alteration appearing hereinafter has been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and is adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

In § 608.14 a Camp Roberts, California, area (D-415), is added to read:

Name and location (chart)	Description by geographical coordinates	Designated altitudes	Time of designation	Using agency
CAMP ROBERTS (D-415) (San Francisco Chart).	Beginning at lat. 35°49'45" N., long. 120°49'00" W.; SE. to lat. 35°43'45" N., long. 120°45'30" W.; due W. to long. 120°48'45" W.; NW. to lat. 35°46'30" N., long. 120°52'00" W.; NE. to 35°49'45" N., long. 120°49'00" W., point of beginning.	Surface to 5,000 feet above terrain.	Daylight hours only.	6th Army, Camp Roberts, Calif.

[1] Not filed with Federal Register Division.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on December 9, 1952.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 52-12897; Filed, Dec. 5, 1952; 8:45 a. m.]

[Amdt. 22]

PART 609—STANDARD INSTRUMENT APPROACH PROCEDURES

ALTERATIONS

The standard instrument approach procedure alterations appearing hereinafter are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to the public interest, and therefore is not required.

Part 609 is amended as follows:

1. The low frequency range procedures prescribed in § 609.6 are amended to read in part:

LOW FREQUENCY RANGE PROCEDURES

Station; frequency; identification; class	Minimum initial approach altitude from the direction and radio fix indicated	Final approach range course	Procedure turn minimum at distances from radio range station	Minimum altitude over range—final approach (ft.)	Station to airport: Magnetic bearing (degs.)	Station to airport: Distance (mi.)	Field elevation (ft.)		Ceiling and visibility minimums: Day Ceiling (ft.)	Day Visibility (mi.)	Night Ceiling (ft.)	Night Visibility (mi.)	If visual contact not established over airport at authorized landing minimums, or if landing not accomplished; remarks

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Bureau of Animal Industry

[9 CFR Part 94]

RINDERPEST AND FOOT-AND-MOUTH DISEASE

NOTICE OF PROPOSED DETERMINATION OF NONEXISTENCE IN CANADA AND IMPOSING PROHIBITIONS AND RESTRICTIONS ON IMPORTATION OF SPECIFIED ANIMALS AND ANIMAL PRODUCTS ON ACCOUNT OF CERTAIN DISEASES

Notice is hereby given in accordance with section 4 (a) of the Administrative Procedure Act (5 U. S. C. 1003 (a)), that the Secretary of Agriculture pursuant to the authority conferred upon him by section 306 of the Tariff Act of 1930 (19 U. S. C. 1306) and section 2 of the act of February 2, 1903, as amended (21 U. S. C. 111) proposes to determine, and to give notice of such determination, that neither rinderpest nor foot-and-mouth disease now exists in Canada, and to amend the regulations in 9 CFR Part 94, as amended (B. A. I. Order 373) imposing prohibitions and restrictions on the importation of specified animals and animal products on account of rinderpest and foot-and-mouth disease and certain other diseases by striking the word "Canada" from § 94.1 of the regulations.

The proposed determination, notification, and amendment, would remove the present prohibition under section 306 of the Tariff Act upon importation into the United States of cattle, sheep, other domestic ruminants, and swine, and of fresh, chilled or frozen beef, veal, mutton, lamb, or pork from Canada and render the commodities specified in 9 CFR Part 94, as amended (B. A. I. Order 373), and originating in said country, no longer subject to the provisions of that part.

Any person who wishes to submit written data, views, or arguments concerning the proposed determination and amendment may do so by filing them with the Chief of the Bureau of Animal Industry, Agricultural Research Administration, United States Department of Agriculture, Washington 25, D. C., on or before January 16, 1953.

Done at Washington, D. C., this 4th day of December 1952.

[SEAL] K. T. HUTCHINSON,
Acting Secretary of Agriculture.

Production and Marketing Administration

[7 CFR Part 51]

U. S. STANDARDS FOR PINEAPPLES

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the issuance of revised United States Standards for Pineapples under the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1953 (Pub. Law 451, 82d Cong., approved July 5, 1952) to supersede Suggested Tentative United States Grades for Pineapples issued December 4, 1931, and United States Standards for Porto Rican Pineapples issued October 27, 1931.

All persons who desire to submit written data, views or arguments for consideration in connection with the proposed standards should file the same with M. W. Baker, Deputy Director, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, South Building, Washington 25, D. C., not later than 5:30 p. m., e. s. t. on the thirtieth (30) day after the date of publication of this notice in the FEDERAL REGISTER.

The proposed standards are as follows:

§ 51.355 *Standards for pineapples*—(a) *Grades*—(1) *U. S. Fancy.* U. S. Fancy consists of pineapples of similar varietal characteristics, which are mature, firm, dry and well formed, which have well developed eyes, and which are free from decay and sunscald, and free from injury caused by bruising, sunburn, and gummosis, and free from damage caused by disease, insects, rodents or mechanical or other means. The butts shall be well trimmed, well cured, and free from damage caused by cracks. The tops shall be of characteristic color, single, straight, well attached to the fruit and free from crown slips. The length of the tops shall be not less than 5 inches nor more than 1½ times the length of the fruit. (See Size and Marking Requirements.)

(i) In order to allow for variations incident to proper grading and handling other than for size and marking, not more than a total of 10 percent, by count, of the pineapples in any lot may fail to meet the requirements of the grade: *Provided*, That not more than one-half of this amount, or 5 percent, shall be allowed for pineapples which are seriously damaged, including therein not more than 1 percent for pineapples affected by decay.

(2) *U. S. No. 1.* U. S. No. 1 consists of pineapples of similar varietal characteristics, which are mature, firm, dry and well formed, which have well developed eyes, and which are free from decay and sunscald, and free from damage caused by bruising, sunburn, gummosis, disease, insects, rodents or mechanical or other means. The butts shall be well trimmed, fairly well cured and shall not be badly cracked. The tops shall be of characteristic color, single, reasonably straight, well attached to the fruit, and shall have not more than 5 crown slips, not more than 2 of which may be more than 2¾ inches in length. The length of the tops shall be not less than 4 inches nor more than twice the length of the fruit. (See Size and Marking Requirements.)

(i) In order to allow for variations incident to proper grading and handling, other than for size and marking, not more than a total of 10 percent, by count, of the pineapples in any lot may fail to meet the requirements of the grade: *Provided*, That not more than one-half of this amount, or 5 percent, shall be allowed for pineapples which are seriously damaged, including therein not more than 1 percent for pineapples affected by decay.

(3) *U. S. No. 2.* U. S. No. 2 consists of pineapples of similar varietal characteristics, which are mature, firm and fairly well formed, which have fairly well developed eyes, and which are free from decay, and sunscald, and free from serious damage caused by bruising, sunburn, gummosis, disease, insects, rodents or mechanical or other means. The butts shall be fairly well cured. The tops shall be of characteristic color, well attached to the fruit, not completely curved over and shall consist of not more than 2 fairly well developed stems but may have any number of crown slips. (See Size and Marking Requirements.)

(i) In order to allow for variations incident to proper grading and handling, other than for size and marking, not more than a total of 10 percent, by count, of the pineapples in any lot may fail to meet the requirements of the grade: *Provided*, That not more than one-tenth of this amount, or 1 percent, shall be allowed for pineapples affected by decay.

(b) *Unclassified.* Unclassified consists of pineapples which have not been classified in accordance with any of the foregoing grades. The term "unclassified" is not a grade within the meaning of these standards but is provided as a designation to show that no definite grade has been applied to the lot.

(c) *Application of tolerances.* (1) The contents of individual packages in the lot, based on sample inspection, are subject to the following limitations: *Provided*, That the averages for the entire lot are within the tolerances specified for the grade.

(i) For a tolerance of 10 percent or more, individual packages in any lot may contain not more than one and one-half times the tolerance specified.

(ii) For a tolerance of less than 10 percent, individual packages in any lot may contain not more than double the tolerance specified, except that at least one decayed or otherwise defective fruit may be permitted in any package.

(d) *Size and marking requirements.* (1) The pineapples in each container shall be fairly uniform in size and the count shall be plainly stamped, stenciled or otherwise marked on the container.

(2) In order to allow for variations incident to proper packing not more than 5 percent of the packages in any lot may fail to meet the requirements pertaining to size and marking.

(e) *Definitions.* (1) "Similar varietal characteristics" means that the pineapples in any lot are similar in type and character of growth.

(2) "Mature" means that the pineapple has reached the stage of develop-

ment which will insure a proper completion of the ripening process.

(3) "Firm" means that the fruit does not yield to slight pressure.

(4) "Dry" means that the surface of the fruit is free from moisture other than that resulting from condensation.

(5) "Well formed" means that the fruit shows good shoulder development and is not lopsided or distinctly pointed, and that the sides are not noticeably flattened.

(6) "Well developed eyes" means eyes which have developed normally.

(7) "Injury" means any defect which more than slightly affects the appearance or the edible or shipping quality of the fruit. Sunburn which will not more than slightly affect the appearance of the fruit when ripe, or gummosis which is very slight shall not be considered as injury.

(8) "Damage" means any defect which materially affects the appearance, or the edible or shipping quality of the fruit. Sunburn which will not materially affect the appearance of the fruit when ripe, or gummosis which is slight or does not materially discolor the eyes shall not be considered as damage.

(9) "Well trimmed" means that the bracts on the stem next to the base of the fruit have been removed and the stem has been cut off so that the fruit will stand straight when placed butt end down on a flat surface.

(10) "Well cured" means that the cut portion of the butt has completely caloused over.

(11) "Characteristic color" means that at shipping points the tops are of good green color characteristic of well-grown pineapples, and in the receiving markets, are fairly good green color and relatively free from dryness and discoloration.

(12) "Single top" means that the fruit does not have more than one prominent main stem at the crown of the fruit.

(13) "Crown slips" means the small, secondary top growths at the crown of the fruit.

(14) "Fairly well cured" means that the cut portion of the butt is free from bleeding.

(15) "Fairly well formed" means that the fruit is not excessively lopsided or excessively flattened at the shoulders or sides.

(16) "Fairly well developed eyes" means eyes which show fairly normal development and are not badly misshapen.

(17) "Serious damage" means any defect which seriously affects the appearance, or the edible or shipping quality of the fruit.

(18) "Fairly uniform in size" means that for counts 18 or less in standard southeastern pineapple crates, the pineapples do not vary more than ⅝ inch in diameter, and for counts over 18 in number the pineapples do not vary more than ½ inch in diameter. Diameter shall be the greatest dimension measured at right angles to a line from top to butt.

Done at Washington, D. C., this 2d day of December 1952.

U. S. STANDARDS FOR GRADES OF CANNED GREEN BEANS AND CANNED WAX BEANS

NOTICE OF PROPOSED RULE MAKING

Notice is hereby given that the United States Department of Agriculture is considering the amendment, as herein proposed, of United States Standards for Grades of Canned Green Beans and Canned Wax Beans (16 F. R. 6790), pursuant to the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.), and the Department of Agriculture Appropriation Act, 1953 (Pub. Law 451; 82d Cong., approved July 5, 1952).

All persons who desire to submit written data, views, or arguments for consideration in connection with the proposed amendment should file the same, in duplicate, with the Chief, Processed Products Standardization and Inspection Division, Fruit and Vegetable Branch, Production and Marketing Administration, United States Department of Agriculture, Washington 25, D. C., not later than 30 days after publication hereof in the FEDERAL REGISTER.

The proposed amendment is as follows:

In § 52.165 (e), Table No. I, is amended to read as follows:

TABLE NO. I—RECOMMENDED MINIMUM DRAINED WEIGHTS, IN OUNCES, OF GREEN BEANS AND WAX BEANS

Container size or designation	Styles of canned beans			
	Whole	Whole vertical pack or whole asparagus style	Short cuts and cuts less than 1½ inches	French style and cuts 1½ inches and longer
8 Z tall	4¾	5¼	5	4¾
8 ounce jar	4½		4¾	4½
No. 1 (picnic)	5¾	6¼	6	5¾
No. 1 tall	9	10	9¼	9
No. 300	8¼	9¼	8½	8¼
No. 300 jar	8½		8¾	8½
No. 303	9¼	10	9½	9¼
No. 303 jar	9¾		10	9¾
No. 2	11¼	12¾	11½	11¼
No. 2½	16¼	18	16¾	16¼
No. 2½ jar	16¾		16¾	16¼
No. 10	61	66	63	61

Done at Washington, D. C., this 2d day of December 1952.

[SEAL] GEORGE A. DICE,
Acting Assistant Administrator, Production and Marketing Administration.

CIVIL AERONAUTICS BOARD

[14 CFR Parts 40, 61]

SCHEDULED INTERSTATE AIR CARRIER CERTIFICATION AND OPERATION RULES

SUPPLEMENTAL NOTICE OF PROPOSED RULE MAKING AND ORAL ARGUMENT

By notice dated July 25, 1952, and published in the FEDERAL REGISTER on July 30, 1952 (17 F. R. 6971), the Board gave notice that it has under consideration the adoption of a revision of Part 40 of the Civil Air Regulations. Reference is made to said notice for a full explanation of the purpose and background of the proposed rules. Copies of the notice may be obtained from the Director, Bureau of Safety Regulation, Civil Aeronautics Board, Washington 25, D. C.

In the notice dated July 25, 1952, the Board requested that it be advised with respect to any matter contained in the notice concerning which interested persons desired to present oral argument to the Board. The Board having received requests which appeared to warrant it, notice is hereby given that the Board will hear oral argument with respect to the matters described herein on January 8, 1953, at 10 a. m., e. s. t., in Room 5042, Department of Commerce Building, Washington, D. C. In order that all interested persons may have the opportunity to ascertain the arguments to be presented to the Board and thereby present views which differ from those proposed to be presented by the persons requesting opportunity for oral argument, persons desiring to be heard are requested to inform John M. Chamberlain, Director, Bureau of Safety Regulation, Civil Aeronautics Board, Washington 25, D. C., not later than December 24, 1952, with regard to each of the matters described herein concerning which they desire to present oral argument and to submit a brief statement containing the nature of the argument to be presented. It is contemplated that replies to this notice will be utilized for the purpose of allocation of time to each speaker for presentation of oral argument. Each person desiring to present oral argument will be notified as soon as practicable of the time allocation. As a general guide, however, it is expected that in view of the number of issues to be heard and the number of persons expected to participate in oral argument that approximately 20 minutes will be allocated for the presentation of the views in favor of a particular proposal and a similar time for the opposition views. Where more than one person desires to present argument in favor of or in opposition to a particular proposal, it is proposed that the total time for such presentation will be divided between such persons. Copies of replies received in response to this notice will be available after December 29, 1952, for examination by interested persons at the Docket Section of the Board, Room 5412, Commerce Building, Washington, D. C.

In the event interested persons desire to review the comments submitted to the Board in response to the notice of proposed rule making dated July 25, 1952, all such persons are advised that these comments are currently on file at the Docket Section of the Board and are available for examination.

As a result of comment received in response to the notice dated July 25, 1952, the Board desires to hear oral argument with respect to the following matters:

NONTRANSPORT CATEGORY PERFORMANCE LIMITATIONS

Proposed performance limitations for application to nontransport category aircraft were circulated as Draft Release No. 52-11, dated April 2, 1952. As a result of comment received this proposal was reconsidered, and it appeared to be advisable that the runway length margins for landing be increased. Accordingly, these margins were increased from 30 percent to 40 percent. With this change the nontransport category performance limitations were incorporated into §§ 40.62 through 40.65 of the proposed revision to Part 40.

As a result of the Board's publication of the notice of proposed revision of Part 40 on July 25, 1952, the Air Line Pilots Association (ALPA) submitted two recommendations for substantive changes in these limitations. The first of these was the application of temperature accountability to the take-off requirement, and the second was an increase in the runway gradient correction requirement to take account of all gradient. The Air Transport Association (ATA), on the other hand, recommended that the amount of gradient excepted in the take-off requirement be increased from ½ percent to one percent and that the runway length margins for landing be reduced to 30 percent as originally proposed in Draft Release No. 52-11.

In view of the foregoing the Board desires to hear oral argument as to:

1. Whether temperature accountability should be incorporated into the take-off requirements applicable to nontransport category aircraft and, if so, to what extent and in what form should account of temperature be taken.

2. What account should be taken of runway gradient in applying the take-off requirements applicable to nontransport category aircraft.

3. What runway length margins should apply to the landing distance requirements applicable to nontransport category aircraft.

RADIO EQUIPMENT FOR OPERATIONS UNDER VFR OVER ROUTES NOT NAVIGATED BY PILOTAGE OR FOR OPERATIONS UNDER IFR

With the advent of VHF airways in domestic United States the situation has arisen whereby in particular operations the scheduled air carriers may use a combination of VHF and LF/MF navigation facilities. Under such circumstances § 40.92 (c) of proposed Part 40 would require that aircraft be equipped with one VHF and one LF/MF receiver; providing that the aircraft is so fueled that in case of failure of any one such receiver the aircraft could proceed to a suitable alternate airport possessing ground radio navigation facilities the signals of which may be received by the remaining equipment. This requirement intended to insure that there in fact exists an equivalent of the dual airborne equipment required under the existing rules.

The ALPA proposes that this section be reworded as follows: "When the safety of a flight would not be adversely affected by the failure of a single receiver system, an aircraft engaged in such a flight may be equipped with two low frequency and one VHF or two VHF and one low frequency radio range receiving systems, provided that the ground facilities are so located in relation to the route and the aircraft so fueled that in case of failure of the single receiver system the flight may proceed to a suitable alternate which has ground radio navigation facilities the signals of which may be received by the dual receiver in the aircraft."

In view of the foregoing the Board desires to hear oral argument as to whether compliance with the requirement stated in § 40.92 (c) constitutes effective duplication of navigation receiving equipment and, if not, what alternative requirements should be included to achieve such an end.

CHECK AIRMEN

Section 40.120 (b) of proposed Part 40 requires that an air carrier provide a sufficient number of check airmen holding airman certificates and ratings appropriate to the type of check to be conducted. A check airman is defined as "an airman designated by air carrier and approved by the Administrator to examine other airmen to determine their proficiency with respect to procedures and technique and their competence to perform their respective airman duties" (§ 40.2 (a) (15)). The above provisions include a three-fold safeguard to insure the competence of check airmen: first, the holding of appropriate certificates and ratings; second, specific selection and designation for such duty by the air carrier; and third, approval by the Administrator.

The Flight Engineers' International Association (FEIA) proposes an additional condition in § 40.120 (b) by requiring that check airmen be "actively engaged in the same occupation as the airmen being checked." This proposal raises certain issues as to whether such a condition would prohibit the use of professional check airmen and whether such a prohibition would constitute an undesirable impediment to the exercise of managerial discretion. It is further questioned whether any occupational experience as flight engineer is necessary for proper evaluation of the competence of flight engineers.

In view of the foregoing the Board desires to hear oral argument as to whether it is necessary that a check airman be actively engaged in the same occupation as the airman to be checked, in order to insure his competence to serve as a check airman.

RECURRENT AIRMAN TRAINING

Section 40.126 of proposed Part 40 requires the air carrier to provide such training as is necessary to insure the continued competence of each crew member and dispatcher and to insure that each possesses adequate knowledge and familiarity with all new equipment and procedures to be used by him. This section also requires that the air carrier shall, at intervals established as a part of a training program, check the competence of each crew member and dispatcher as a means of insuring that each such individual is in fact competent to perform his duties.

The FEIA has recommended that this requirement specify that the "interval" for checking crew members and dispatchers be not less than six months. The reason stated for this proposal is that unless a minimum period is specified the voluntary training programs would not be carried out.

In view of the foregoing the Board desires to hear oral argument as to whether it is necessary or desirable that a maximum period of time be specified between air carrier checks of the competence of crew members and dispatchers.

PILOT CHECKS

The ATA proposes the amendment of § 40.132 (b) (Proficiency check) by deleting that portion of the requirement which would assure a rotation of the aircraft types used in proficiency checks for the purpose of checking the pilot's competence with respect to the type of aircraft in which he is required to serve as pilot in command. The ATA states that, because the line check has been newly introduced into the Civil Air Regulations in proposed Part 40 and since § 40.132 (c) assures that either a line check or a proficiency check must be given each 12 months in each such aircraft type, the pilot's competence with respect to particular aircraft types will be subject to adequate flight check.

In view of the foregoing the Board desires to hear oral argument as to whether it is necessary to require that semiannual proficiency checks be given in such a manner that a rotation of aircraft types to be used by the pilot is assured.

PILOT ROUTE AND AIRPORT QUALIFICATION REQUIREMENTS

The ATA proposes the amendment of § 40.135 (c) by allowing a simulated approach in a synthetic trainer to be used as an alternative means of satisfying the requirement that each pilot shall fly through the approach procedures for which the lowest minimums are authorized for each regular, provisional, and refueling airport.

Proposed § 40.135 (d) requires that a pilot in command who is to fly below the level of terrain within a horizontal distance of twenty-five miles on either side of the center line of the route to be flown shall, prior to serving in such operations, make one round trip as pilot or additional member of the flight crew under day VFR conditions. The ATA, however, proposes that the "one round trip" be amended to read "two one-way trips".

The above requirement also specifies that, when night operation is authorized below the level of terrain within twenty-five miles of the center line of the route to be flown, one way of such round trip

shall be made under night VFR conditions before a pilot shall serve as pilot in command in such operations. The ATA, however, proposes that the requirement to conduct a qualifying flight at night should be deleted as being unnecessary.

Proposed § 40.136 (Maintenance of pilot route qualifications) requires that for the purpose of maintaining pilot route and airport qualifications each pilot being utilized as pilot in command shall within the preceding twelve months have made at least one trip as pilot or other flight crew member between terminals into which he is scheduled to fly and one actual entry or one simulated entry utilizing a synthetic trainer into each regular, provisional, and refueling airport into which he is scheduled to fly. The ATA proposes deleting that portion of this section which requires an actual or simulated entry into an airport because of the alleged burden imposed upon the air carrier to show compliance. Furthermore, the ATA maintains that insufficient contribution to safety would be made by such a requirement.

In view of the foregoing the Board desires to hear oral argument as to:

1. Whether a simulated approach in a synthetic trainer may be substituted for an actual approach in an aircraft for the purpose of qualifying a pilot initially to operate into a particular regular, provisional, or refueling airport.

2. Whether it is necessary that a pilot be required to make a qualifying flight under day VFR operations in both directions on a route on which he is to serve as pilot in command and on which he is to fly below the level of terrain within a horizontal distance of twenty-five miles on either side of the center line of the route to be flown.

3. Whether it is necessary that a pilot be required to make a qualifying flight at night prior to serving during the hours of darkness as pilot in command on a route on which he will be required to fly below the level of terrain within twenty-five miles on either side of the center line of such route.

4. Whether it is necessary that a pilot be required, in order to maintain route qualification, to make either one actual entry or one simulated entry, utilizing a synthetic trainer into each regular, provisional, or refueling airport into which he is scheduled to fly.

FLIGHT ENGINEER QUALIFICATION FOR DUTY

With respect to flight engineer qualification for duty the Board proposed to continue in effect a requirement identical to that contained in current Part 61. This proposed rule, which is contained in § 40.138 of proposed Part 40, requires a flight engineer to have had, within the preceding twelve months, either a flight check or fifty hours of experience as a flight engineer on the type aircraft on which he is to serve.

The FEIA proposes that the period of time specified in this requirement be reduced from twelve months to six months. Prior to the receipt of this proposal, information had not been brought to the attention of the Board to the effect that the twelve-month period was inadequate.

In view of the foregoing the Board desires to hear oral argument as to whether it is necessary to require that the recent experience or flight check requirements of § 40.138 be made applicable semi-annually.

RESPONSIBILITY OF DISPATCHER

The Board proposed in § 40.151 (b) that the responsibility of the dispatcher be specified as follows:

The aircraft dispatcher shall be responsible:

(1) For monitoring the progress of each flight and the issuance of instructions and information necessary for the continued safety of the flight.

(2) For the cancellation, delay, or redispatch of a flight, if, in his opinion or in the opinion of the pilot in command, the flight cannot operate or continue to operate safely.

The ATA has expressed the apprehension that, unless dispatchers are required by regulation to exercise their authority only in accordance with policies of the air carrier, they may assume the regulations give them authority beyond the control of air carrier management.

In view of the foregoing the Board desires to hold oral argument as to whether it is desirable that the Civil Air Regulations specify that the responsibilities of aircraft dispatchers for the cancellation, delay, or redispatch of a flight shall be exercised only in accordance with the policies of the air carrier.

CONTINUATION OF FLIGHT WITH REQUIRED EQUIPMENT INOPERATIVE

In the event any item of equipment required for a particular operation becomes unserviceable en route, § 40.182 (b) would require the pilot in command to comply with the procedures specified in the manual for such occurrence.

The ATA proposes the deletion of the word "en route" in order to enable flights to be rescheduled after a turn around without repairs or replacement having been accomplished. This proposal is made because of the ATA view that it is "neither economical or feasible to provide parts, specialist type mechanic personnel, and service facilities to permit such repairs" at all such turn around points. As illustrative of the operation which is contemplated, the ATA states that the rule should permit flights to terminate at an east coast airport and originate a "westbound flight which would terminate at San Francisco or some other station having the required parts and qualified people, at which time repairs would be effected."

In view of the foregoing the Board desires to hear oral argument as to whether authority to continue the operation of an aircraft with the required equipment inoperative should extend beyond the scheduled terminus of a particular flight.

FLIGHT ALTITUDE RULES

The Board proposed to prohibit generally the operation of aircraft in passenger operations at altitudes less than 1,000 ft. above the surface or above any mountain, hill, or other obstruction to flight. It was also contemplated, however, that this requirement (§ 40.193) would authorize the Administrator to establish other altitudes for any route or portion thereof where he finds, after considering the character of the terrain being traversed, the quantity and quality of meteorological services, the navigational facilities available, and other flight conditions, that the safe conduct of flight permits or requires such other altitudes.

The ATA recommends that this requirement be amended to permit day VFR operations at 500 ft. above the surface rather than 1,000 ft. The ATA bases this recommendation on the fact that the operating experience of the air carriers does not indicate the need for a 1,000-ft. altitude and that VFR operations at altitudes between 500 ft. and 1,000 ft. above the surface are necessary for certain air carrier operations.

In proposed § 40.193 the Board had included certain restrictions with respect to over-the-top operations at altitudes lower than those prescribed for IFR operations. These provisions were identical to the provisions of Part 61 in existence at the time proposed Part 40 was published. Since that time, however, Part 61 was amended to include certain alternative limitations to be applied to such operations (CAR Amendment 61-8, effective September 10, 1952).

The ATA recommendation is that neither the provisions included in proposed Part 40 nor the provisions of CAR Amendment 61-8 be included in Part 40 but that, in lieu of such provisions, over-the-top operations be treated as VFR operations so far as the flight altitude rules are concerned.

In view of the foregoing the Board desires to hear oral argument as to whether:

1. It is desirable that the rules permit flight altitudes with 500-ft. clearance above obstacles without requiring special authorization by the Administrator in each case in which flight is contemplated below 1,000 feet.

2. Special flight altitude limitations should apply to the operations of scheduled air carrier aircraft when operated over-the-top at flight altitudes lower than those prescribed for IFR operations and, if so, whether the provisions of CAR Amendment 61-8, effective September 10, 1952, constitute reasonable limitations.

INCLUSION OF TOTAL TIME SINCE OVERHAUL IN THE MAINTENANCE LOG

Proposed Part 40 contains a requirement for a maintenance log to be carried in aircraft in a place readily accessible to the flight crew (§ 40.207). No provision is made in this section, however, for keeping a record in the maintenance log of the total time since last overhaul for engines and airplanes. The ALPA proposes that such a requirement be included in order that pilots may be advised as to the length of service of aircraft and engines since the last overhaul.

In view of the foregoing the Board desires to hear oral argument as to whether it is desirable that the Civil Air Regulations require indication in the maintenance log of time since last overhaul for aircraft and engines.

Although the comment received in response to the July 25, 1952, notice requested opportunity for oral argument on matters other than those proposed herein, such matters are either to be handled as separate rule-making proceedings or are not considered to involve issues concerning which the Board desires to hear oral argument.

The oral argument presented pursuant to this notice may be an explanation of, in addition to, or in lieu of written comment submitted in response to the previous notice dated July 25, 1952.

(Sec. 205, 52 Stat. 984; 49 U. S. C. 425. Interpret or apply secs. 601–610, 52 Stat. 1007–1012; 49 U. S. C. 551–560; 62 Stat. 1216)

Dated: December 2, 1952, at Washington, D. C.

By the Civil Aeronautics Board.

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 10353]

TELEVISION BROADCAST STATIONS

TRANSMITTERS AND ASSOCIATED EQUIPMENT; OPERATION

In the matter of amendment of § 3.687 (i) (1) rules governing Television Broadcast Stations; Docket No. 10353.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. Section 3.687 (i) (1) of the Commission's rules governing Television Broadcast Stations presently provides as follows: "Spurious emissions, including radio frequency harmonics, shall be maintained at as low a level as the state of the art permits."

3. A study of the needs and requirements of the television broadcast service and other radio services and experience with various cases of interference, including interference to safety services, due to spurious emissions from television transmitters, indicates that it is necessary at this time to specify a minimum value of suppression of such emissions. Correspondence and exchange of information with various manufacturers of television transmitters indicates that a suppression of 60 db at the transmitter output terminals can presently be obtained by the inclusion of harmonic filters.

4. Further study will be given this problem. Such further study may indicate that more stringent requirements of spurious emission attenuation than 60 db are required. However, to avoid the difficulty of having large numbers of transmitters constructed and installed without the inclusion of harmonic filters or other means of spurious emission reduction, it is proposed as an emergency measure, to employ the figure of 60 db for all power levels, pending a determination as to what additional amount of attenuation can be achieved in practice.

5. Inasmuch as it is desirable to specify an attenuation figure for all spurious emissions, it is proposed to employ the figure of 60 db for all frequencies at least 3 mc removed from the edge of the television channel. Since considerable study and research would be required to make a specification for spurious emission attenuation nearer to the edge of the channel, no figure is now being proposed for that frequency region.

6. In view of the foregoing, it is proposed to amend § 3.687 (i) (1) of the rules governing Television Broadcast Stations by deleting the present provision and substituting the following:

§ 3.687 *Transmitters and associated equipment* • • •

(i) *Operation.* (1) Spurious emissions, including radio frequency harmonics, shall be maintained at as low a level as the state of the art permits. As measured at the output terminals of the transmitter (including harmonic filter, if required) all emissions removed in frequency in excess of 3 mc above or below the respective channel edge shall be attenuated no less than 60 db below the visual transmitter power. In the event of interference caused to any service greater attenuation will be required.

7. Authority for the issuance of the proposed amendment is vested in the Commission under sections 303 (e), (f), (r) and 4 (i) of the Communications Act of 1934, as amended.

8. Any interested person who is of the opinion that the proposed amendment should not be adopted, or should not be adopted in the form set forth herein, may file with the Commission on or before January 12, 1953, written data, views, or arguments concerning said proposal. Persons favoring the amendment as proposed may file data, views, or arguments supporting said amendment by the same date. Replies to such data, views, or arguments may be filed on or before January 26, 1953. The Commission will consider all such comments before taking final action in the matter, and if comments are submitted which warrant the holding of oral argument, notice of the time and place of such argument will be given.

9. Interested persons who desire to submit written data, views or arguments as provided above shall, in accordance with § 1.764 of the Commission's rules and regulations, furnish the Commission with an original and 14 copies thereof.

Adopted: November 26, 1952.

Released: November 28, 1952.

FEDERAL COMMUNICATIONS COMMISSION,

[SEAL] T. J. SLOWIE, *Secretary.*

[F. R. Doc. 52-12924; Filed, Dec. 5, 1952; 8:48 a. m.]

NOTICES

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 10284, 10285, 10352]

LUFKIN AMUSEMENT CO. ET AL.

MEMORANDUM OPINION AND ORDERS DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re applications of Lufkin Amusement Company, Beaumont, Texas, Docket No. 10284, File No. BPCT-545; Port Arthur College, Port Arthur, Texas, Docket No. 10285, File No. BPCT-839; Joe B. Carrigan, Trustee, and James K. Smith, a partnership, d/b as Smith Radio Company, Port Arthur, Texas, Docket No. 10352, File No. BPCT-1013.

1. The Commission has before it for consideration the following pleadings: (a) "Motion for Show Cause Order" filed August 14, 1952, by Smith Radio Company; (b) "Reply to Motion for Show Cause Order" filed August 21, 1952, by Port Arthur College; (c) "First Amended Original Rule for Show Cause Order" filed August 27, 1952, by Smith Radio Company; (d) a supplement to motion for show cause order filed August 29, 1952, by Smith Radio Company; (e) "Reply to Supplements to Motion for Show Cause Order" filed September 18, 1952, by Port Arthur College; (f) "Petition to Dismiss Application" of Lufkin Amusement Company filed September 23, 1952, by Smith Radio Company; (g) and "Reply to Petition to Dismiss Application" filed October 22, 1952, by Lufkin Amusement Company.

2. In its Sixth Report and Order (FCC 52-294) released April 14, 1952, the Commission assigned to Beaumont-Port Arthur, Texas, Channels 4, 6, 31 and 37, with Channel 37 reserved for use by a non-commercial educational station. On July 11, 1952, the Commission designated for hearing the mutually exclusive applications of Lufkin Amusement Company and Port Arthur College for Channel 4. On July 16, 1952, Smith Radio Company filed its application (BPCT-1013) for Channel 4. On August 6, 1952, the Commission advised Smith Radio Company that its application is mutually exclusive with the applications of Lufkin Amusement Company and Port Arthur College and, therefore, that the necessity of a consolidated hearing is indicated. The application of Smith Radio Company has not, as yet, been designated for such consolidated hearing.

3. In its motion for show cause order filed August 14, 1952, petitioner requests that "Port Arthur College be cited to ap-

pear and answer herein before a consolidated hearing is had and to show cause why it * * * should not be removed from Channel 4, a commercial radio channel as designated by the Federal Communications Commission." In support of its request, petitioner asserts that Port Arthur College has erroneously filed for Channel 4 and should be removed to the channel which has been reserved for non-commercial educational use in Beaumont-Port Arthur, Texas, since "it is the intention and announced purpose of designating commercial channels and educational channels that applicants falling within the commercial category should be excluded from educational channels and educational institutions be excluded from commercial channels"; that Port Arthur College, by virtue of the terms of its corporate charter, is without legal power to construct and operate a commercial television broadcast station; and that the Commission is without power to grant a construction permit or a license to Port Arthur College for the purpose of constructing and operating a commercial television broadcast station.

4. Port Arthur College requests in its reply to the foregoing motion for show cause order that the motion be denied. Port Arthur College urges (1) that neither the statutory provisions nor the Commission's rules authorize a competing applicant to request by petition a proceeding requiring an applicant for a broadcast construction permit to show cause why it should not be removed as an applicant for the broadcast facilities it has requested; (2) that the articles of incorporation of Port Arthur College provide for the construction and operation of AM, FM, and television broadcasting stations; and (3) that nothing in the Communications Act of 1934, as amended, or in the Commission's rules, precludes an educational institution from constructing and operating a commercial television broadcast station.

5. The contention advanced by petitioner that educational institutions are precluded from applying for and constructing and operating a commercial television broadcast station is without merit. In our Sixth Report and Order released April 14, 1952, we denied the proposals of the University of Missouri and the Bob Jones University for partial commercial operation by educational institutions on non-commercial educational channels. In paragraph 57 thereof, we said "* * *. It is recognized that the type of operation (partial commercial operation) proposed by these Universities may be accomplished by the licensing of educational institutions in the commercial television broadcast service." Moreover, in a memorandum opinion and order (FCC 52-1381) issued in the television rule making proceedings in Docket 8736 et al., released October 31, 1952, we stated "* * *. While it has been convenient to refer to unreserved channels as 'commercial', they are not in fact 'commercial' channels. The unreserved channels may be used commercially, or noncommercially, as the licensee sees fit. Indeed, we have recently granted an authorization for Michigan State University to employ an unreserved channel which it indicated will be operated on a noncommercial basis. The reservation of channels was established in order to afford educational institutions the time necessary to prepare for the operation of a television station. Since such channels were set aside, the condition was imposed that they may be employed only on a noncommercial basis * * *."

6. In its supplement to motion for show cause order petitioner asserts, in substance, that in view of the findings and conclusions of the Commission that the Port Arthur College application is entitled to be heard in a consolidated proceeding and in view of the matters raised by petitioner relative to the lack of legal power of Port Arthur College to engage in commercial television broadcasting, "a hearing is deemed required by law to determine this most important consideration before and preliminary and ancillary to the general hearing on the merits of the case" and that such a hearing should be held at a near date. Petitioner urges that section 309 (b) of the Communications Act of 1934, as amended by Communications Act Amendments, 1952, requires such a hearing. Port Arthur College replied to petitioner's supplements to motion for show cause order asserting that section 309 (b) of the Communications Act of 1934, as amended, does not provide for "ancillary hearings" on show cause or other motions prior to the full hearing on the merits of conflicting broadcast applications required by section 309 and the decision in Ashbacker Radio Corporation v. Federal Communications Commission, 326 U. S. 327. Further, Port Arthur College urges that petitioner's contentions that Port Arthur College is without legal power to engage in commercial television broadcasting are unfounded.

7. We are of the opinion that section 309 (b) of the Communications Act of 1934, as amended, does not require an ancillary proceeding preliminary to a hearing on the merits of an application. In effect, section 309 (b) provides that when a finding is made that an application cannot be granted without a hearing, the Commission shall notify the applicant and other known parties in interest of the grounds and reasons for the inability to make such finding as well as all objections to the application. The applicant is given an opportunity to reply and after the Commission considers any such reply, it shall formally designate the application for hearing, if it is unable to find that such application can be granted without a hearing. In such designation for hearing, the Commission shall state the grounds and reasons therefor and specify with particularity the matters and things in issue. Section 309 (b) further provides that such a hearing shall be a full hearing in which both the burden of proceeding with the introduction of evidence upon any issue specified by the Commission, as well as the burden of proof upon all such issues, shall be upon the applicant.

8. As a party in interest, petitioner is entitled to bring to the Commission's attention matters, such as the legal qualifications of a competitor, which it believes should be placed in issue in the hearing which is otherwise required by the mutually exclusive competitive situation of the two applicants. And the opposing party is entitled to an opportunity to reply and inform the Commission why it believes this matter is not one which should be included in the hearing. The assertions made by petitioner with respect to the legal qualifications of Port Arthur College are matters which may, in the discretion of the Commission, be placed in issue when the applications are designated for hearing. It is to be noted, that in designating the mutually exclusive applications of Lufkin Amusement Company and Port Arthur College for hearing on July 11, 1952, we expressly included an issue as to the legal, technical, financial and other qualifications of Lufkin and Port Arthur College to construct and operate the proposed stations. The assertions advanced by petitioner with respect to the legal power of Port Arthur College to engage in commercial television broadcasting are matters which can be appropriately developed under the issue, as presently framed.

9. In its "Petition to Dismiss Application" of Lufkin Amusement Company, Smith Radio Company asserts that the application does not set forth complete answers in certain respects and, therefore, that under the provisions of § 1.371, footnote 10, subsection (j) the application is incomplete and must be dismissed. Lufkin Amusement Company, in its reply to Smith Radio Company's petition to dismiss its application, requests that said petition be denied and states that on October 22, 1952, the date of filing its reply, it filed with the Commission an amendment to its application which contained the information claimed by Smith Radio Company to have been omitted. On November 7, 1952, the Motions Commissioner granted Lufkin's petition to amend its application. Therefore, the questions raised by Smith Radio Company in its petition to dismiss application of Lufkin Amusement Company have become moot and do not require further consideration.

10. In view of the foregoing, *It is ordered*, That the requests contained in the above respective pleadings filed by Smith Radio Company are dismissed.

11. *It is further ordered*, That pursuant to section 309 (b) of the Communications Act of 1934, as amended, the application of Joe B. Carrigan, Trustee, and James K. Smith, a partnership, d/b as Smith Radio Company be designated for hearing in the same consolidated proceeding with the above-entitled applications to commence at 10:00 a. m. on December 15, 1952, at Washington, D. C. upon the following issues:

1. To determine the legal, technical, financial and other qualifications of the applicants to construct and operate the proposed stations.

2. To determine the type and character of the program services proposed to be rendered and whether they would meet the needs of the communities and areas within the Grade A and Grade B field intensity contours.

3. To determine whether the construction and operation of the proposed stations would be in compliance with the Commission's rules and regulations governing television broadcast stations.

4. To determine whether the installation and operation of any of the stations proposed in the above-entitled applications would constitute a hazard to air navigation.

5. To determine in the light of section 307 (b) of the Communications Act of 1934, as amended, which of these applicants would provide the more fair, efficient, and equitable distribution of television service.

6. To determine on a comparative basis which, if any, of the above-entitled applications should be granted.

Adopted: November 26, 1952.

Released: December 1, 1952.

FEDERAL COMMUNICATIONS COMMISSION,

[Docket No. 10349]

HAROLD L. SUDBURY (KLCN)

ORDER DESIGNATING APPLICATION FOR CONSOLIDATED HEARING ON STATED ISSUES

In re application of Harold L. Sudbury (KLCN) Blytheville, Arkansas, Docket No. 10349, File No. BMP-5961; for modification of construction permit.

At a session of the Federal Communications Commission held at its offices in Washington, D. C., on the 20th day of November 1952;

The Commission having under consideration petitions for reconsideration filed by Mississippi Broadcasting Company, Inc., licensee of Station WCOC, Meridian, Mississippi, on October 29, 1952, and supplemented November 14, 1952, and Ft. Massac Broadcasting Company, licensee of Station WMOK, Metropolis, Illinois, on November 7, 1952, each requesting the Commission to reconsider its action of October 8, 1952, in granting the above-entitled application of Harold L. Sudbury for modification of construction permit to change the operating power of Station KLCN from 1 kw to 5 kw, and an opposition to the original WCOC petition filed by Station KLCN on November 13, 1952;

It appearing, that the engineering affidavits, together with supporting field intensity measurements attached to the WCOC and WMOK petitions, indicate that the proposed operation of KLCN will cause objectionable interference to WCOC and WMOK and that the Commission's further study of the matter, including an analysis of the field intensity measurements submitted by the petitioners, also indicates that the proposed KLCN operation will cause objectionable interference to WCOC and WMOK;

It is ordered, That pursuant to section 309 (c) of the Communications Act of 1934, as amended, the Commission's action of October 8, 1952, granting the application of Harold L. Sudbury to change the operating power of Station KLCN from 1 kw to 5 kw, is rescinded, and that said application is designated for hearing at a time and place to be designated in a subsequent order upon the following issues:

1. To determine the areas and populations which may be expected to gain or lose primary service from the operation of the proposed station, and the availability of other primary service to such areas and populations.

2. To determine the type and character of program service proposed to be rendered and whether it would meet the requirements of the populations and areas proposed to be served.

3. To determine whether the operation of the proposed station would involve objectionable interference with Stations WCOC, Meridian, Mississippi, and WMOK, Metropolis, Illinois, and any other existing broadcast stations, and, if so, the nature and extent thereof, the areas and populations affected thereby, and the availability of other primary service to such areas and populations:

It is further ordered, That Walter H. Firmin, Noah J. Korte, William R. Tiner, Don M. Park, Eddie Clark, J. B. Humma, S. F. Chase, Robert V. Gillespie, Bernard Lurie, and Elva M. Firmin, a Limited Partnership, d/b as Fort Massac Broadcasting Company, licensee of Radio Station WMOK, Metropolis, Illinois, is made a party to the preceeding:

It is further ordered, That Mississippi Broadcasting Company, Inc., licensee of Station WCOC, Meridian, Mississippi, is made a party to the proceeding:

It is further ordered, That the above-described petitions of Mississippi Broadcasting Company, Inc., and Fort Massac Broadcasting Company are granted.

Released: November 28, 1952.

[Docket No. 10351]

INDIANA BELL TELEPHONE CO.

ORDER DESIGNATING APPLICATION FOR HEARING ON STATED ISSUES

In the matter of the application of Indiana Bell Telephone Company, Docket No. 10351, File No. P-C-3020; for a certificate under section 221 (a) of the Communications Act of 1934, as amended, to acquire the capital stock of Brownsburg Telephone Corporation, Central Indiana Telephone Company, Converse Consolidated Telephone Company, Daleville and Middletown Telephone Company, Sims Telephone Company, Inc., The Citizens' Telephone Company of Zionsville, Indiana, Union Telephone Company, and Noblesville Telephone Company, Inc., common carriers furnishing telephone service in the State of Indiana, will be of advantage to persons to whom service is to be rendered and in the public interest;

It is ordered, That pursuant to the provisions of section 221 (a) of the Communications Act of 1934, as amended, the above application is assigned for public hearing for the purpose of determining whether the proposed acquisition will be of advantage to persons to whom service is to be rendered and in the public interest;

It is further ordered, That the hearing upon the said application be held at the offices of the Commission in Washington, D. C., beginning at 10:00 a. m. on the 16th day of December 1952, and that a copy of this order shall be served upon the Governor of Indiana; the Public Service Commission of Indiana; Indiana Bell Telephone Company; The Indiana National Bank of Indianapolis, Administrator of the John T. Detchon Estate; Fletcher Trust Company; Brownsburg Telephone Corporation; Central Indiana Telephone Company; Converse Consolidated Telephone Company; Daleville and Middletown Telephone Company; Sims Telephone Company, Inc.; The Citizens' Telephone Company of Zionsville, Indiana; Union Telephone Company; Noblesville Telephone Company, Inc.; and the Postmasters of Brownsburg, Sheridan, Terhune, Converse, Daleville, Middletown, Sims, Zionsville, Amboy, Andrews, Bakers Corner, Carmel, Center, Greentown, Ekin, Greenfield, Kirklin, Lagro, Upland, Matthews, Mooresville, Morgantown, Nashville, Summitville and Noblesville, Indiana:

It is further ordered, That within five days after the receipt from the Commission of a copy of this order, the applicant herein shall cause a copy hereof to be published in a newspaper or newspapers having general circulation in the cities referred to above, and in Hendricks, Hamilton, Clinton, Miami, Boone, Delaware, Henry, Huntington, Howard, Tipton, Hancock, Wabash, Grant, Morgan, Brown and Madison Counties, Indiana.

Released: November 28, 1952.

AIR TRANSPORT ASSOCIATES, INC., ET AL.; PACIFIC NORTHWEST-ALASKA TARIFF INVESTIGATION

NOTICE OF REOPENED HEARING

In the matter of certain fares, rates, charges, routings, rules, and regulations between the vicinities of Portland, Oreg., and Seattle, Wash., on the one hand, and Anchorage and Fairbanks, Alaska, on the other, of Air Transport Associates, Inc., Alaska Airlines, Inc., Northwest Airlines, Inc., Pacific Northern Airlines, Inc., Pan American World Airways, Inc., United Air Lines, Inc., Western Air Lines, Inc., General Airways, Inc., Agent R. C. Lounsbury's (C. A. B. No. 124), All American Airways, Inc., American Air Export and Import Company, Aviation Corporation of Seattle, Argonaut Airways Corporation, Air Cargo Express, Inc., Blatz Airlines, Inc., California Air Charter, Inc., Coastal Cargo Co., Inc., Meteor Air Transport, Inc., Monarch Air Service, Peninsular Air Transport, S. S. W., Inc., Unit Export Company, Inc., World Airways, Inc., Modern Air Transport, Inc., Aero Finance Corporation, Air Services, Inc., Arctic-Pacific, Inc., Arnold Air Service, Inc., Federated Airlines, Inc., Freight Air, Inc., Great Lakes Airlines, Inc., Lavery Airways, Inc., Miami Airline, Inc., New England Air Express, Inc., Overseas National Airways, Pearson Alaska, Inc., Royal Air Service, Sourdough Air Transport, Southern Air Transport, Inc., Standard Air Cargo, Trans-Alaskan Airlines, Inc., Trans-Ocean Air Lines, known as the Pacific Northwest-Alaska Tariff Investigation.

Notice is hereby given that pursuant to the Civil Aeronautics Act of 1938, as amended, particularly sections 205, 403, 404, 411, and 1002 thereof, the hearing in the above-entitled proceeding will be reopened and resumed on December 16, 1952, at 10:00 a. m., e. s. t., in Room 2045, Temporary Building No. 4, 17th Street, between Constitution and Independence Avenues NW., Washington 25, D. C. before Examiner Paul N. Pfeiffer.

The reopened hearing is limited to consideration of the following question:

What effect, if any, has the ocean-van, ocean-tow barge service between Seattle, Wash., Anchorage and Fairbanks, Alaska, upon the issuance of the reasonable level of United States-Alaska air cargo rates and air passenger fares and the common freight rating of Portland, Oreg. and Seattle, Wash.?

Notice is further given that any persons other than parties of record desiring to be heard during the reopened hearing shall file with the Board on or before December 16, 1952 a statement setting forth the issues of fact or law raised by this reopened hearing which he desires to controvert.

Dated at Washington, D. C., December 3, 1952.

[Docket No. G-2088]

LONE STAR GAS CO.

NOTICE OF APPLICATION

DECEMBER 2, 1952.

Take notice that on November 14, 1952, Lone Star Gas Company (Applicant), a Texas corporation having its principal place of business at Dallas, Texas, filed an application for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act authorizing it to purchase, acquire, and operate a gas transmission pipeline owned by Clifford D. Mooers, sole owner of the Grandfield Gas Company.

Said pipeline consists of approximately 6.2 miles of pipe varying in diameter from four to six inches, and extends from a point of connection in Wichita County, Texas, with Applicant's existing system to a point at or near the City of Grandfield, Tillman County, Oklahoma. Applicant has purchased the gas distribution plant in the City of Grandfield hitherto owned and operated by said Clifford D. Mooers, and would provide service to said city through the transmission line hereinbefore described. Cost of purchase of said line and appurtenant facilities is $20,600. Gas supply for service to Grandfield would continue to be derived from Applicant's existing system.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the Commission's rules of practice and procedure, on or before the 22d day of December 1952. The application is on file with the Commission and open to public inspection.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 52-12914; Filed, Dec. 5, 1952; 8:47 a. m.]

[Docket No. G-2096]

ALABAMA-TENNESSEE NATURAL GAS CO.

ORDER PERMITTING CHANGE IN PRESENTLY EFFECTIVE RATE SCHEDULE DURING SUSPENSION PERIOD AND SUSPENDING PROPOSED NEW TARIFF SHEETS

NOVEMBER 28, 1952.

The Commission, by order issued September 16, 1952, suspended and deferred the use of Alabama-Tennessee Natural Gas Company's (Alabama-Tennessee) proposed Third Revised Sheet No. 4 and First Revised Sheets Nos. 5, 6, and 7 to its FPC Gas Tariff, Original Volume No. 1, until February 18, 1953, and until such further time thereafter as said proposed sheets might be made effective in the manner prescribed by the Natural Gas Act, and ordered that a public hearing concerning the lawfulness of Alabama-Tennessee's proposed tariff sheets be held upon a date to be fixed by further order of the Commission.

On October 31, 1952, Alabama-Tennessee filed Original Sheets Nos. 7-A and 7-B to its FPC Gas Tariff, Original Volume No. 1, which was continued in effect by the suspension referred to, proposing to change its single general service Rate Schedule G-1 by instituting a penalty of $10.00 per Mcf of gas taken without prior approval in excess of 1 percent over the contracted maximum daily delivery obligation.

The proposed penalty provision is alleged to be modeled after the provision of Alabama-Tennessee's supplier, Tennessee Gas Transmission Company, and Alabama-Tennessee states that the proposed provision is necessary because the sum of its maximum delivery obligations under all of its gas sales contracts approximates the amount available to it under its supply contract. Therefore, it is further alleged, that the penalty provision is a necessary policing measure.

The penalty provision would apply only to wholesale customers receiving about 18,165 Mcf, or 57.5 percent of the total available supply of 31,565 Mcf, whereas the remainder of 17,250 Mcf is sold to customers who, it appears, would not be subject to the penalty. The penalty provision may, therefore, result in discrimination against the wholesale customers. Furthermore, discrimination between customers to whom the penalty provision would apply may result from the fact that no basis is stated upon which Alabama-Tennessee's approval for over-runs is to be given nor how a buyer may qualify for such approval.

Six customer-companies have protested the proposed penalty provision, asserting that the proposed penalty provision is excessive, that their present maximum entitlements are insufficient to meet their estimated requirements, and that for small customers with little load diversity the proposed penalty could be financially disastrous.

The proposed-penalty provision has not been shown to be justified and may be unjust, unreasonable, unduly discriminatory or preferential or otherwise unlawful.

The Commission finds:

(1) Special permission should be granted for the filing of said proposed Original Sheets Nos. 7-A and 7-B to Alabama-Tennessee's FPC Gas Tariff, Original Volume No. 1, in accordance with § 154.66 (c) of the Commission's rules.

(2) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing, pursuant to the authority contained in section 4 of such act, concerning the lawfulness of Alabama-Tennessee's FPC Gas Tariff, Original Volume No. 1, as proposed to be amended by said Original Sheets Nos. 7-A and 7-B, and that said sheets be suspended as hereinafter provided and the use thereof be deferred pending hearing and decision thereon.

The Commission orders:

(A) Alabama-Tennessee be and it is hereby permitted to file Original Sheets Nos. 7-A and 7-B to Alabama-Tennessee's FPC Gas Tariff, Original Volume No. 1.

(B) Pursuant to the authority contained in section 4 of the Natural Gas Act, a public hearing be held at a time and place to be fixed by further order of the Commission concerning the lawfulness of Alabama-Tennessee's FPC Gas Tariff, Original Volume No. 1, as proposed to be amended by the aforesaid Original Sheets Nos. 7-A and 7-B.

(C) Pending such hearing and decision thereon, Alabama-Tennessee's FPC Gas Tariff, Original Volume No. 1, as proposed to be amended by said Original Sheets Nos. 7-A and 7-B, be and the same are hereby suspended and the use thereof deferred until May 1, 1953, and until such further time thereafter as said proposed sheets may be made effective in the manner prescribed by the Natural Gas Act.

(D) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

(E) The effective date of this order shall be November 28, 1952.

Date of issuance: December 2, 1952.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 7-1472]

WASHINGTON WATER POWER CO.

NOTICE OF APPLICATION FOR UNLISTED TRADING PRIVILEGES, AND OF OPPORTUNITY FOR HEARING

In the matter of Application by the Los Angeles Stock Exchange for Unlisted Trading Privileges in Washington Water Power Company, Common Stock, No Par Value; File No. 7-1472.

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 2d day of December A. D. 1952.

The Los Angeles Stock Exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 thereunder, has made application for unlisted trading privileges in the Common Stock, No Par Value, of Washington Water Power Company, a security registered and listed on the New York Stock Exchange, on the San Francisco Stock Exchange, and on the Spokane Stock Exchange.

Rule X-12F-1 provides that the applicant shall furnish a copy of the application to the issuer and to every exchange on which the security is listed or already admitted to unlisted trading privileges. The application is available for public inspection at the Commission's principal office in Washington, D. C.

Notice is hereby given that, upon request of any interested person received prior to December 30, 1952, the Commission will set this matter down for hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the ol-

ficial file of the Commission pertaining to this matter.

By the Commission.

In the matter of application by the Boston Stock Exchange, for Unlisted Trading Privileges in Washington Water Power Company, Common Stock, No Par Value; File No. 7-1474.

At a regular session of the Securities and Exchange Commission, held at its office in the city of Washington, D. C., on the 2d day of December A. D. 1952.

The Boston Stock Exchange, pursuant to section 12 (f) (2) of the Securities Exchange Act of 1934 and Rule X-12F-1 thereunder, has made application for unlisted trading privileges in the Common Stock, No Par Value, of Washington Water Power Company, a security registered and listed on the New York Stock Exchange, on the San Francisco Stock Exchange, and on the Spokane Stock Exchange.

Rule X-12F-1 provides that the applicant shall furnish a copy of the application to the issuer and to every exchange on which the security is listed or already admitted to unlisted trading privileges. The application is available for public inspection at the Commission's principal office in Washington, D. C.

Notice is hereby given that, upon request of any interested person received prior to December 19, 1952, the Commission will set this matter down for hearing. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

By the Commission.

[SEAL] NELLYE A. THORSEN, *Assistant Secretary.*

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27595]

CRUSHED STONE FROM BLOOMINGTON, IND., TO EFFINGHAM, ILL.

APPLICATION FOR RELIEF

DECEMBER 3, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. G. Raasch, Agent, for the Illinois Central Railroad Company.

Commodities involved: Crushed stone, carloads.

From: Bloomington, Ind.

To: Effingham, Ill.

Grounds for relief: Wayside pit competition.

Schedules filed containing proposed rates: IC RR. tariff I. C. C. No. A-11667, Supp. 5.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission, Division 2.

CEMENT FROM NAVARRO, NORTHAMPTON, AND YORK, PA., TO DODGE CITY, KANS.

APPLICATION FOR RELIEF

DECEMBER 3, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: C. W. Boin, Agent, for carriers parties to schedule listed below.

Commodities involved: Cement and related articles, carloads.

From: Navarro, Northampton, and York, Pa.

To: Dodge City, Kans.

Grounds for relief: Rail competition, circuity, grouping, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: C. W. Boin, Agent, I. C. C. No. A-850, Supp. 120.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

DEPARTMENT OF JUSTICE

Office of Alien Property

[Vesting Order 19078]

ARTHUR DIETZEL ET AL.

In re: Securities owned by Arthur Dietzel and others.

Under the authority of the Trading With the Enemy Act, as amended, (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Congress, 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR 1946 Supp.) and Executive Order 9989 (3 CFR 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Arthur Dietzel, whose last known address is Leipzig 27, Lausitzerstr. 51, Germany, on or since December 11, 1941, and prior to January 1, 1947, was a resident of Germany and is, and prior to January 1, 1947, was a national of a designated enemy country (Germany);

2. That Stillhaltekommissar, the last known address of which is Abwicklungsstelle in den Westgebieten, Bad Nauheim, Germany, is a corporation, partnership, association, or other business organization which on or since December 11, 1941, and prior to January 1, 1947, was organized under the laws of and had its principal place of business in Germany and is, and prior to January 1, 1947, was a national of a designated enemy country (Germany);

3. That the personal representatives, heirs, next of kin, legatees and distributees of Albert Timpe, deceased, and of Elisa Maria Sommer, also known as Elisa Maria von Caimero Sommer, deceased, who there is reasonable cause to believe on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany, are, and prior to January 1, 1947, were nationals of a designated enemy country (Germany);

4. That the person who owns the property referred to in subparagraph 6 hereof, who if an individual there is reasonable cause to believe on or since December 11, 1941, and prior to January 1, 1947, was a resident of Germany and which, if a partnership, corporation, association or business organization there is reasonable cause to believe on or since December 11, 1941, and prior to January 1, 1947, was organized under the laws of or had its principal place of business in Germany, is and prior to January 1, 1947, was a national of a designated enemy country (Germany);

5. That the property described as follows:

a. Ten (10) shares of $100 par value 6 percent cumulative preferred stock of Brazil Railway Company, a corporation organized under the laws of the State of Maine, evidenced by certificates numbered 6413 and 7172 for 5 shares each, registered in the name of and owned by Arthur Dietzel, said certificates presently in the custody of the Attorney General of the United States, together with all declared and unpaid dividends thereon,

b. Two (2) Brazil Railway Company 6 percent 1913-23 Bearer Notes numbered A209,073/4, said notes owned by Arthur Dietzel and, presently in the custody of the Attorney General of the United States, together with all rights thereunder and thereto,

c. Two (2) Brazil Railway Company Secured Debentures numbered 6448/9 issued in bearer form, said debentures owned by Stillhaltekommissar and presently in the custody of the Attorney General of the United States, together with any and all rights thereunder and thereto,

d. Six (6) Brazil Railway Company Secured Debentures numbered 5687/92 issued in bearer form, said debentures owned by Stillhaltekommissar and presently in the custody of the Attorney General of the United States, together with any and all rights thereunder and thereto,

e. One (1) Certificate for Pool Rights, numbered 46, issued by Great Verde Extension Syndicate, Jerome, Arizona, for 1,000 shares of 25 cents par value of the Great Verde Extension Copper Company, said certificate owned by the personal representatives, heirs, next of kin, legatees and distributees of Albert Timpe, deceased, and presently in the custody of the Attorney General of the United States, together with any and all rights thereunder and thereto,

f. Two thousand three hundred eighty-nine (2,389) shares of Class A stock of The Realization Company, Reno, Nevada, a corporation organized under the laws of the State of Nevada, evidenced by certificate numbered 1416, registered in the name of Albert Timble, owned by the personal representatives, heirs, next of kin, legatees and distributees of Albert Timpe, deceased, and presently in the custody of the Attorney General of the United States, together with all declared and unpaid dividends thereon,

g. One thousand (1,000) shares of capital stock of Esperanza Exploration Company, a corporation organized under the laws of the State of Arizona, evidenced by certificate numbered 11, registered in the name of Albert Tempe, said certificate owned by the personal representatives, heirs, next of kin, legatees and distributees of Albert Timpe, deceased, and presently in the custody of the Attorney General of the United States, together with all declared and unpaid dividends thereon, and

h. Thirteen (13) warrants of the Argentine Railway Company, Portland, Maine, numbered B78049/61 each for 1 share of $100.00 par value common stock of the aforesaid Company, said warrants issued in bearer form, owned by the personal representatives, heirs, next of kin, legatees and distributees of Elisa Maria Sommer, also known as Elisa Maria von Caimero Sommer, deceased, and presently in the custody of the Attorney General of the United States, together with any and all rights thereunder and thereto,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by the aforesaid nationals of a designated enemy country (Germany);

6. That the property described as follows: Eleven (11) The Cuba Railroad Company First Mortgage 5 Percent Fifty Year Gold Bonds, numbered 1019, 1958, 2304, 2526, 2528, 2584, 4982, 6804, 8699, 11,045, and 13,633, each of $1,000 face value and presently in the custody of the Attorney General of the United States, together with any and all rights thereunder and thereto,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, the person referred to in subparagraph 4 hereof, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

7. That the national interest of the United States requires that the persons named in subparagraphs 1 and 2, and referred to in subparagraphs 3 and 4, be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 3, 1952.

For the Attorney General.

TITLE 7—AGRICULTURE

Chapter I—Production and Marketing Administration (Standards, Inspections, Marketing Practices), Department of Agriculture

PART 51—FRESH FRUITS, VEGETABLES AND OTHER PRODUCTS (INSPECTION, CERTIFICATION, AND STANDARDS)

U. S. STANDARDS FOR CAULIFLOWER

On November 11, 1952, a notice of proposed rule making was published in the FEDERAL REGISTER (F. R. Doc. 52-1204; 17 F. R. 10266) regarding proposed United States Standards for Cauliflower.

A period of fifteen days was allowed for submitting written data, views and arguments for consideration in connection with the proposed standards. After consideration of all relevant matters presented, including the proposals set forth in the aforesaid notice of rule making, the following United States Standards for Cauliflower are hereby promulgated under the authority contained in the Agricultural Marketing Act of 1946 (60 Stat. 1087; 7 U. S. C. 1621 et seq.) and the Department of Agriculture Appropriation Act, 1953 (Pub. Law 451, 82d Cong., approved July 5, 1952).

§ 51.171 *Standards for cauliflower*—(a) *Grades*—(1) *U. S. No. 1.* U. S. No. 1 consists of compact heads of cauliflower which are not discolored, or over-mature, and which are free from soft or wet decay and are free from damage caused by wilting, fuzziness, riciness, enlarged bracts, bruises, hollow stems, dirt or other foreign matter, disease, insects, or mechanical or other means. Unless otherwise specified, the heads shall be not less than 4 inches in diameter. Jacket leaves shall be fresh, green, and free from damage caused by disease and free from serious damage by any other cause. Unless otherwise specified, jacket leaves shall be well trimmed.

(i) In order to allow for variations, other than for size, incident to proper grading and handling, not more than a total of 10 percent, by count, of the cauliflower in any lot may fail to meet the requirements of this grade but not more than one-tenth of this amount, or 1 percent, may be affected by soft rot or wet decay affecting the curd. In addition, not more than 5 percent, by count, of the heads in any lot may be smaller than the specified minimum size.

(b) *Unclassified.* Unclassified consists of cauliflower which has not been classified in accordance with the foregoing grade. The term "unclassified" is not a grade within the meaning of these standards but is provided as a designation to show that no definite grade has been applied to the lot.

(c) *Application of tolerances.* (1) The contents of individual packages in the lot, based on sample inspection, are subject to the following limitations: *Provided,* That the averages for the entire lot are within the tolerances specified for the grade.

(i) For a tolerance of 10 percent or more, individual packages in any lot may contain not more than one and one-half times the tolerance specified, except that when the package contains 15 specimens or less, individual packages may contain not more than double the tolerance specified.

(ii) For a tolerance of less than 10 percent, individual packages in any lot may contain not more than double the tolerance specified, except that at least one defective and two off-sized specimens may be permitted in any package.

(d) *Definitions.* (1) "Compact" means that the flower clusters are closely united and the head feels solid.

(2) "Discolored" means that the head is of some abnormal color.

(3) "Over-mature" means a stage of growth which is beyond that of a compact, properly developed head. An over-mature head usually is loose or open and ordinarily is turning yellow.

(4) "Damage" means any defect which materially affects the appearance, or the edible or shipping quality of the curd, or any disease which materially affects the appearance, or the shipping quality of the jacket leaves. Any one of the following defects, or any combination of defects, the seriousness of which exceeds the maximum allowed for any one defect, shall be considered as damage:

(i) Fuzziness which gives the head a distinctly fuzzy appearance on more than one-half of the head;

(ii) Riciness, when the appearance of the head is materially injured by a very

FEDERAL REGISTER

Published daily, except Sundays, Mondays, and days following official Federal holidays, by the Federal Register Division, National Archives and Records Service, General Services Administration, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U. S. C., ch. 8B), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President. Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington 25, D. C.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $1.50 per month or $15.00 per year, payable in advance. The charge for individual copies (minimum 15¢) varies in proportion to the size of the issue. Remit check or money order, made payable to the Superintendent of Documents, directly to the Government Printing Office, Washington 25, D. C.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER.

abnormal rough or granular surface on the curd;

(iii) Enlarged bracts, when the appearance of the head is materially injured by leaves (bracts) growing up through and extending above the curd; and,

(iv) Mold which causes the flesh of the curd to disintegrate or which exceeds ⅜ inch in diameter in the aggregate, or any single spot of mold which exceeds ⅛ inch in diameter.

(5) "Diameter" means the average diameter of the head exclusive of the jacket leaves.

(6) "Serious damage" means any injury to the jacket leaves which seriously affects their appearance.

(7) "Well trimmed" means that the jacket leaves shall be limited to the number and length necessary to protect the head. No jacket leaves are required on heads which are individually wrapped, or packed with cushions, partitions or other means which protect the head from bruising.

(e) *Effective time.* The United States Standards for Cauliflower contained in this section and which supersede the United States Standards for Cauliflower (13 F. R. 2249) effective May 27, 1948, shall become effective five (5) days after the date of publication in the FEDERAL REGISTER.

It is hereby found that it is impractical, unnecessary, and contrary to the public interest to postpone the effective date of these standards until 30 days after publication hereof in the FEDERAL REGISTER because the packing season for cauliflower has already commenced and it is in the public interest that the standards be in effect as soon as possible; and a reasonable time is permitted, under the circumstances, for preparation for such effective date.

(Sec. 705, 60 Stat. 1090, Pub. Law 451, 82d Cong.; 7 U. S. C. 1624)

Done at Washington, D. C., this 4th day of December 1952.

[SEAL] GEORGE A. DICE,
Acting Assistant Administrator, Production and Marketing Administration.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Tangerine Reg. 129]

PART 933—ORANGES, GRAPEFRUIT, AND TANGERINES GROWN IN FLORIDA

LIMITATION OF SHIPMENTS

§ 933.602 *Tangerine Regulation 129*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 33, as amended (7 CFR Part 933), regulating the handling of oranges, grapefruit, and tangerines grown in the State of Florida, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the committees established under the aforesaid amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of shipments of tangerines, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than December 8, 1952. Shipments of tangerines, grown in the State of Florida, are presently subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, and will so continue until December 8, 1952; the recommendation and supporting information for continued regulation subsequent to December 7 was promptly submitted to the Department after an open meeting of the Growers Administrative Committee on December 4; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time of this section, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such tangerines; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of tangerines; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed on or before the effective date of this section.

(b) *Order.* (1) Tangerine Regulation 128 (7 CFR 933.601; 17 F. R. 10803) is hereby terminated as of the effective time of this section.

(2) During the period beginning at 12:01 a. m., e. s. t., December 8, 1952, and ending at 12:01 a. m., e. s. t., December 22, 1952, no handler shall ship:

(i) Any tangerines, grown in the State of Florida, that do not grade at least U. S. No. 2;

(ii) Any tangerines, grown in the State of Florida, which grade U. S. No. 2, that are of a size smaller than the size that will pack 176 tangerines, packed in accordance with the requirements of a standard pack, in a half-standard box (inside dimensions 9½ x 9½ x 19⅛ inches; capacity 1,726 cubic inches); or

(iii) Any tangerines, grown in the State of Florida, which grade U. S. Fancy, U. S. No. 1, U. S. No. 1 Bronze, or U. S. No. 1 Russet, that are of a size smaller than $2^{29}/_{32}$ inches in diameter, measured midway at a right angle to a straight line running from the stem to the blossom end of the fruit, except that a tolerance of 10 percent, by count, of tangerines, smaller than such minimum size shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerances, specified in the revised United States Standards for Florida tangerines (§ 51.417 of this title; 17 F. R. 8377).

(3) As used in this section, "handler," "ship," and "Growers Administrative Committee" shall have the same meaning as when used in said amended marketing agreement and order; and "U. S. Fancy," "U. S. No. 1," "U. S. No. 1 Bronze," "U. S. No. 1 Russet," "U. S. No. 2" and "standard pack" shall have the same meaning as when used in the revised United States Standards for Florida Tangerines (§ 51.417 of this title; 17 F. R. 8377).

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 5th day of December 1952.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 52-12998; Filed, Dec. 8, 1952; 8:50 a. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 1]

PART 600—DESIGNATION OF CIVIL AIRWAYS

ALTERATIONS

The civil airway alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest, and therefore is not required. Part 600 is amended as follows:

1. Section 600.108 *Amber civil airway No. 8 (Los Angeles, Calif., to The Dalles, Oreg.)* is amended between the Santa Barbara, Calif., radio range and the Travis AFB, Calif., radio range to read: "Santa Barbara, Calif., radio range station; the intersection of the northwest course of the Santa Barbara, Calif., radio range and the southeast course of the Salinas, Calif., radio range; Salinas, Calif., radio range station; the intersection of the northwest course of the Salinas, Calif., radio range and the southwest course of the Travis AFB, Calif., radio range excluding the airspace below 3,000 feet which overlaps the Fort Ord Danger Area; Travis AFB, Calif., radio range station;"

2. Section 600.223 *Red civil airway No. 23 (United States-Canadian Border to New York, N. Y.)* is amended between the intersection of the southeast course of the Toronto, Ont., Canada radio range and the United States-Canadian Border and the Elmira, N. Y., radio range station to read: "That airspace over United States territory from the Toronto, Ont., Canada, radio range station via the Dansville, N. Y., non-directional radio beacon; Elmira, N. Y., radio range station;"

3. Section 600.234 is amended by changing the headnote to read: *"Red civil airway No. 34 (Portsmouth, Ohio, to Elizabeth City, N. C.)"* and by amending the first portion to read: "From the intersection of the northwest course of the Huntington, W. Va., radio range and the south course of the Columbus, Ohio, radio range via the intersection of the northwest course of the Huntington, W. Va., radio range and the west course of the Charleston, W. Va., radio range; Charleston, W. Va., radio range station; Pulaski, Va., radio range station to the Greensboro, N. C., radio range station."

4. Section 600.245 is amended by changing the headnote to read: *"Red civil airway No. 45 (Blackstone, Va., to Willow Grove, Pa.)"* and by adding a last portion to read: "From the Lancaster, Pa., non-directional radio beacon to the Willow Grove, Pa., (Navy) radio range station."

5. Section 600.258 is amended to read:

§ 600.258 *Red civil airway No. 58 (Salinas, Calif., to Los Banos, Calif.).*

From the Salinas, Calif., radio range station to the intersection of the northeast course of the Salinas, Calif., radio range and the northwest course of the Fresno, Calif., radio range.

6. Section 600.604 *Blue civil airway No. 4 (Nantucket, Mass., to United States-Canadian Border)* is amended after "Concord, N. H., radio range station;" to read: "Burlington, Vt., radio range station to the Montreal, Que., Canada, radio range station, excluding the airspace which lies outside the continental United States."

7. Section 600.607 is amended to read:

§ 600.607 *Blue civil airway No. 7 (Hollister, Calif., to Williams, Calif.).* From the intersection of the northeast course of the Salinas, Calif., radio range and the southeast course of the Oakland, Calif., radio range to the intersection of the southeast course of the Oakland, Calif., radio range and the northwest course of the Fresno, Calif., radio range. From the intersection of the northwest course of the Fresno, Calif., radio range and the south course of the Travis AFB, Calif., radio range via the Travis AFB, Calif., radio range station to the Williams, Calif., radio range station.

8. Section 600.608 is amended to read:

§ 600.608 *Blue civil airway No. 8 (Fargo, N. Dak., to United States-Canadian Border).* That airspace over United States territory from the Fargo, N. Dak., radio range station via the Grand Forks, N. Dak., radio range station; Pembina, N. Dak., radio range station to the Winnipeg, Ont., Canada, radio range station.

9. Section 600.609 is amended by changing the headnote to read: *"Blue civil airway No. 9 (Springfield, Mo., to United States-Canadian Border)"* by amending the first portion to read: "From the Springfield, Mo., radio range station via the Columbia, Mo., radio range station; Kirksville, Mo., radio range station;" and by changing the last portion to read: "From the Minneapolis, Minn., radio range station via the Duluth, Minn., radio range station to the Lakehead, Ont., Canada, radio range station, excluding the airspace which lies outside the continental United States."

10. Section 600.632 *Blue civil airway No. 32 (Pendleton, Oreg., to Talkeetna, Alaska)* is amended between the Seattle, Wash., radio range station and the Comox, British Columbia, radio range to read: "From the Seattle, Wash., radio range station via the intersection of the northwest course of the Seattle, Wash., radio range and the south course of the Patricia Bay, British Columbia, radio range; the Patricia Bay, British Columbia, radio range station to the intersection of the north course of the Patricia Bay, British Columbia, radio range and the southeast course of the Comox, British Columbia, radio range, excluding the airspace which overlaps danger areas and excluding the portion which lies outside the continental United States."

11. Section 600.652 is amended to read:

§ 600.652 *Blue civil airway No. 52 (Paso Robles, Calif., to Fresno, Calif.).* From the intersection of the southeast course of the Salinas, Calif., radio range and the southwest course of the Fresno, Calif., radio range to the Fresno, Calif., radio range station.

12. Section 600.654 is amended to read:

§ 600.654 *Blue civil airway No. 54 (Salinas, Calif., to Hamilton AFB, Calif.).* From the Salinas, Calif., radio range station via the Evergreen, Calif., nondirectional radio beacon to the San Francisco, Calif., radio range station. From the intersection of the northwest course of the Oakland, Calif., radio range and the southwest course of the Travis AFB, Calif., radio range to a point at latitude 38°02'45", longitude 122°31'40".

13. Section 600.660 is amended to read:

§ 600.660 *Blue civil airway No. 60 (Sunnyvale, Calif., to Stockton, Calif.).* From the intersection of the northwest course of the Salinas, Calif., radio range and the west course of the Moffett NAS, Calif., radio range via the Moffett NAS, Calif., radio range station to the intersection of the northeast course of the Moffett NAS, Calif., radio range and the west course of the Stockton, Calif., radio range.

14. Section 600.6006 *VOR civil airway No. 6 (Oakland, Calif., to New York, N. Y.)* is amended after "Chicago Heights, Ill., omnirange station;" to read: "Goshen, Ind., omnirange station, including a south alternate; Waterville, Ohio, omnirange station, including a north alternate; Cleveland, Ohio, omnirange station; Youngstown, Ohio, omnirange station, including a north alternate; Philipsburg, Pa., omnirange station, including a north alternate via the intersection of the Youngstown omnirange 87° True and the Philipsburg omnirange 303° True radials; Selinsgrove, Pa., omnirange station; Allentown, Pa., omnirange station to the Caldwell, N. J., omnirange station."

15. Section 600.6008 *VOR civil airway No. 8 (Long Beach, Calif., to Washington, D. C.)* is amended before Imperial, Nebr., omnirange station to read: "From the Long Beach, Calif., omnirange station via the Ontario, Calif., omnirange station; Daggett, Calif., omnirange station; Las Vegas, Nev., omnirange station to the Mormon Mesa, Nev., omnirange station. From the Kremmling, Colo., omnirange station via the Denver, Colo., omnirange station, including a north alternate; Akron, Colo., omnirange station, including a north alternate;"

16. Section 600.6021 *VOR civil airway No. 21 (Long Beach, Calif., to United States-Canadian Border)* is amended between the Las Vegas, Nev., omnirange station and the Milford, Utah, omnirange station to read: "Las Vegas, Nev., omnirange station; Mormon Mesa, Nev., omnirange station, including an east alternate via the intersection of the Las Vegas omnirange 086° True and the Mormon Mesa omnirange 196° True radials; Milford, Utah, omnirange station;"

17. Section 600.6030 *VOR civil airway No. 30 (Milwaukee, Wis., to New York, N. Y.)* is amended before Wellington, Ohio, VHF VAR station to read: "From the Milwaukee, Wis., omnirange station via the Litchfield, Mich., omnirange station; Waterville, Ohio, omnirange station; the intersection of the Waterville omnirange 111° True radial and the west course of the Wellington, Ohio, VHF VAR station;"

18. Section 600.6045 is amended to read:

§ 600.6045 *VOR civil airway No. 45 (Columbus, Ohio, to Lansing, Mich.).* From the Columbus, Ohio, omnirange station via the Waterville, Ohio, omnirange station to the Lansing, Mich., omnirange station.

19. Section 600.6047 is amended to read:

§ 600.6047 *VOR civil airway No. 47 (Louisville, Ky., to Detroit, Mich.).* From the Louisville, Ky., omnirange station via the intersection of the Louisville omnirange 356° True and the Cincinnati omnirange 241° True radials; Cincinnati, Ohio, omnirange station; Dayton, Ohio, omnirange station, including a west alternate; Findlay, Ohio, omnirange station, including a west alternate; Waterville, Ohio, omnirange station to the Detroit, Mich., omnirange station, including a west alternate.

20. Section 600.6092 is amended to read:

§ 600.6092 *VOR civil airway No. 92 (Toledo, Ohio, to Mansfield, Ohio).* From the Waterville, Ohio, omnirange station to the Mansfield, Ohio, omnirange station.

21. Section 600.6096 is amended to read:

§ 600.6096 *VOR civil airway No. 96 (Fort Wayne, Ind., to Toledo, Ohio).* From the Fort Wayne, Ind., omnirange station to the Waterville, Ohio, omnirange station.

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 302, 52 Stat. 985, as amended; 49 U. S. C. 452)

This amendment shall become effective 0001 e. s. t. December 9, 1952.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 52-12947; Filed, Dec. 8, 1952; 8:45 a. m.]

[Amdt. 1]

PART 601—DESIGNATION OF CONTROL AREAS, CONTROL ZONES, AND REPORTING POINTS

ALTERATIONS

The control area, control zone and reporting point alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act would be impracticable and contrary to public interest and therefore is not required. Part 601 is amended as follows:

1. Section 601.234 is amended by changing headnote to read: *"Red civil airway No. 34 control areas (Portsmouth, Ohio, to Elizabeth City, N. C.)."*

2. Section 601.245 is amended by changing headnote to read: *"Red civil airway No. 45 control areas (Blackstone, Va., to Willow Grove, Pa.)."*

3. Section 601.258 is amended to read:

§ 601.258 *Red civil airway No. 58 control areas (Salinas, Calif., to Los Banos, Calif.).* All of Red civil airway No. 58.

4. Section 601.607 is amended to read:

§ 601.607 *Blue civil airway No. 7 control areas (Hollister, Calif., to Williams, Calif.).* All of Blue civil airway No. 7.

5. Section 601.609 is amended by changing the headnote to read: *"Blue civil airway No. 9 control areas (Springfield, Mo., to United States-Canadian Border)."*

6. Section 601.1032 is amended to read:

§ 601.1032 *Control area extension (Scottsbluff, Nebr.).* Within 5 miles either side of the northwest and southeast courses of the Scottsbluff, Nebr., radio range extending from the radio range station to a point 25 miles northwest and to a point 20 miles southeast.

7. Section 601.1058 is amended to read:

§ 601.1058 *Control area extension (Martinsburg, W. Va.).* Within 5 miles either side of the southwest and northeast courses of the Martinsburg radio range extending from the radio range station to a point 20 miles southwest and to a point 33 miles northeast, and that airspace within a 15-mile radius of the Martinsburg, W. Va., omnirange station.

8 Section 601.1069 is amended to read:

§ 601.1069 *Control area extension (Santa Barbara, Calif.).* Within 5 miles either side of the west and southeast courses of the Santa Barbara radio range extending from the radio range station to a point 25 miles west and 20 miles southeast.

9. Section 601.1073 is amended to read:

§ 601.1073 *Control area extension (Fresno, Calif.).* Within 5 miles either side of the northeast course of the Fresno, Calif., radio range extending from the radio range station to a point 20 miles northeast, within 5 miles either side of the Fresno ILS localizer front course extending to a point 15 miles southeast of the Fresno Air Terminal, and that airspace within a 35-mile radius of the Fresno Air Terminal extending clockwise from a line bearing 153° True from the Fresno Air Terminal to a line 5 miles northeast of and parallel to the back course of the Fresno ILS localizer.

10. Section 601.1247 *Control area extension (Toledo, Ohio)* is revoked.

11. Section 601.1247 is added to read:

§ 601.1247 *Control area extension (Las Vegas, Nev.).* All that airspace bounded on the northwest by Amber civil airway No. 2, on the east by a line 5 miles east of and parallel to a track of 176° True from the Las Vegas, Nev., radio range station and on the south by a line 5 miles south of and parallel to a track of 86° True from the Good Springs, Nev., nondirectional radio beacon.

12. Section 601.1983, *Three mile zones,* is amended by adding the following airport:

Santa Rosa, Calif.: Santa Rosa ALF.

13. Section 601.1984, *Five mile zones,* is amended by adding the following airports:

Watertown, N. Y.: Watertown Municipal Airport.
Massena, N. Y.: Massena Municipal Airport.

14. Section 601.2126 is amended to read:

§ 601.2126 *Toledo, Ohio, control zone.* Within a 5-mile radius of the Toledo Municipal Airport, within 2 miles either side of a line bearing 134° True from the Toledo Municipal Airport through the Genoa non-directional radio beacon extending from the Toledo Municipal Airport to a point 10 miles southeast of the Genoa non-directional radio beacon, within 2 miles either side of the north and south courses of the Toledo radio range extending from the radio range station northward to the Toledo Municipal Airport and to a point 10 miles south.

15. Section 601.2232 is amended to read:

§ 601.2232 *Norfolk, Va., control zone.* Within a 5-mile radius of the Naval Air Station and within 2½ miles either side of the west course of the Norfolk, Va., Navy radio range extending to a point 2½ miles west of the Eclipse Fan Marker excluding the portion overlapping the Norfolk Municipal Airport control zone.

16. Section 601.4101 *Amber civil airway No. 1 (United States-Mexican Border to Nome, Alaska.)* is amended after "the intersection of the northwest course of the San Diego, Calif., radio range and the southeast course of the Long Beach, Calif., radio range;" by adding the following reporting point: "Long Beach, Calif., radio range station;"

17. Section 601.4108 is amended to read:

§ 601.4108 *Amber civil airway No. 8 (Los Angeles, Calif., to The Dalles, Oreg.).* The intersection of the west course of the Los Angeles, Calif., VHF radio range and the southeast course of the Camarillo, Calif., radio range; Camarillo, Calif., radio range station; Santa Barbara, Calif., radio range station; the intersection of the northwest course of the Santa Barbara, Calif., radio range and the southeast course of the Salinas, Calif., radio range; Salinas, Calif., radio range station; the intersection of the northwest course of the Salinas, Calif., radio range and the southwest course of the San Francisco, Calif., radio range; the intersection of the northwest course of the San Francisco, Calif., radio range and the southwest course of the Travis AFB, Calif., radio range; the intersection of the southwest course of the Travis AFB, Calif., radio range and the northwest course of the Oakland, Calif., radio range; Travis AFB, Calif., radio range station; Whitmore, Calif., radio range station; Klamath Falls, Oreg., radio range station; Redmond, Oreg., radio range station; The Dalles, Oreg., radio range station.

18. Section 601.4234 is amended by changing headnote to read: *"Red civil airway No. 34 (Portsmouth, Ohio, to Elizabeth City, N. C.)."*

19. Section 601.4245 is amended by changing headnote to read: *"Red civil airway No. 45 (Blackstone, Va., to Willow Grove, Pa.)."*

20. Section 601.4258 is amended to read:

§ 601.4258 *Red civil airway No. 58 (Salinas, Calif., to Los Banos, Calif.).* No reporting point designation.

21. Section 601.4607 is amended to read:

§ 601.4607 *Blue civil airway No. 7 (Hollister, Calif., to Williams, Calif.).* The intersection of the northeast course of the Salinas, Calif., radio range and the southeast course of the Oakland, Calif., radio range.

22. Section 601.4609 is amended by changing headnote to read: *"Blue civil airway No. 9 (Springfield, Mo., to United States-Canadian Border)."*

23. Section 601.6021 is amended to read:

§ 601.6021 *VOR civil airway No. 21 control areas (Long Beach, Calif., to United States-Canadian Border.).* All of VOR civil airway No. 21, including an east alternate.

24. Section 601.7001 *VOR reporting points,* is amended by deleting the following:

Harrington intersection: The intersection of the Truth or Consequences, N. Mex., omnirange 162° True and the El Paso, Tex., omnirange 271° True radials.

Manchester intersection: The intersection of the Lansing, Mich., omnirange 141° True and the Detroit, Mich., omnirange 257° True radials.

Tecumseh intersection: The intersection of the Detroit, Mich., 228° True and the Toledo, Ohio, omnirange 321° True radials.

and by adding the following:

Evergreen, Ala., omnirange station.

Adrian intersection: The intersection of the Detroit, Mich., omnirange 228° True and the Waterville, Ohio, omnirange 328° True radials.

Long Beach, Calif., omnirange station.

Napoleon intersection: The intersection of the Detroit, Mich., omnirange 257° True and the Waterville, Ohio, omnirange 328° True radials.

(Sec. 205 (52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective 0001 e. s. t. December 9, 1952.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 52-12948; Filed, Dec. 8, 1952; 8:45 a. m.]

TITLE 25—INDIANS

Chapter I—Bureau of Indian Affairs, Department of the Interior

PART 132—ELECTRIC POWER SYSTEM, COLORADO RIVER IRRIGATION PROJECT, ARIZONA

EDITORIAL NOTE: Part 133 of this chapter, *infra*, provides in § 133.1 thereof that the regulations in this part shall no longer be applicable to the San Carlos Project, Arizona. Consequently, the part heading is changed to read as set forth above, and references to the San Carlos Project are deleted, wherever they occur within this part.

PART 133—ELECTRIC POWER SYSTEM, SAN CARLOS IRRIGATION PROJECT, ARIZONA

INTERIM REGULATIONS AND RATES

Sec.

133.1 Effective date; changes.
133.2 Authority of Project Engineer.
133.3 Disputes.

AUTHORITY: §§ 133.1 to 133.52 issued under R. S. 161, sec. 5, 43 Stat. 476, 45 Stat. 210, 211; 5 U. S. C. 22.

§ 133.1 *Effective date; changes.* The regulations in this part are approved for the conduct of the electric power system of the San Carlos Project, Arizona, hereinafter referred to as the Project. The regulations in Part 132 shall no longer be applicable to the said Project. The regulations in this part shall become effective with the first billings made after the first day of the second calendar month which begins after the date of publication in the FEDERAL REGISTER. The regulations in this part are subject to change by the proper authority and such changes shall apply to all contracts then and thereafter in effect.

§ 133.2 *Authority of Project Engineer.* The Project Engineer is responsible for the operation of the electric power system and the enforcement of the regulations in this part. He is authorized to carry out and enforce the regulations either directly or through the power manager or other Project employees designated by him.

§ 133.3 *Disputes.* Any aggrieved party may file with the Project Engineer a written complaint regarding the application of the regulations. Within fifteen days after its receipt, the Project Engineer shall render a written decision thereon and serve a copy thereof on the aggrieved party. Within fifteen days from receipt of such decision, the aggrieved party may take an appeal to the Commissioner of Indian Affairs who shall render his decision within sixty days and his decision shall be final. Pending the determination of an appeal, electric service shall be continued, except in cases in which the question of the existence of dangerous conditions on the premises of the consumer is involved, provided the consumer pays the amount of each bill for electric service prior to the time when it becomes delinquent. If the question of the amount of a bill is involved in an appeal, the consumer shall be deemed to have paid the bill under protest and the payment shall be held in a special deposit account until the final decision has been made.

§ 133.4 *Applications; contracts.* In order to contract for the delivery of power, a written application for service under this part accompanied by the required cash deposit and guarantee of the required minimum revenues to the Project, shall be filed with the Project Engineer. Upon acceptance by him, the application will become a contract. In general, such application will be accepted where service lines exist. When special terms and conditions are involved in contracting for service, the Project Engineer shall require the execution of a form of contract in which such terms and conditions are fully set forth. Each contract involving the construction of a new extension shall be for a period of at least one year, but if the consumer vacates the premises, he shall be liable for the unpaid guaranteed revenue only to the extent that it is not liquidated by the succeeding occupant of the premises. The Project Engineer is authorized to reject applications which he deems to be adverse to the best interests of the Project.

§ 133.5 *Deposits.* A cash deposit in an amount equal to twice the estimated monthly bill, but in no case less than $10.00 will be required from each applicant except that when the premises to be serviced are owned by the applicant, no deposit need be required until a delinquency in the payment of a bill has occurred. Any cash deposit, less the amount of any unpaid bills, shall be refunded after the termination of service. Before extensions are constructed each applicant must deposit an amount sufficient to cover his portion of the required minimum charges for a period of not less than one year, and must otherwise establish his credit and satisfy the Project Engineer of his intention to take service and his ability to meet the guarantee.

§ 133.6 *Extensions.* The length of an extension constructed for each dollar of monthly revenue guaranteed to the Project shall not exceed the following:

	Feet
In urban areas:	
Single phase extensions	100
Three phase extensions	80
In rural areas:	
Single phase extensions	330
Three phase extensions	210

The length of an extension shall include the horizontal length of both the primary and secondary circuits exclusive of the service drops. Insofar as practicable, all extensions shall be constructed along established highways. The prospective consumer, or consumers, shall furnish or procure satisfactory rights-of-way necessary for the lines and other facilities of the Project incidental to the furnishing of service. The Project Engineer may decline to construct any extension which, in his opinion, will be excessive in cost, or detrimental to the best interest of the Project, or for which funds are not available. All extensions when constructed shall be and remain the property of the United States.

§ 133.7 *Installation or extension financed by consumer.* If funds, material or labor are not otherwise available for an installation or extension, of if an extension to a prospective consumer will require new construction beyond the distances specified in § 133.6 of this part, the consumer or prospective consumer may, after executing an appropriate contract satisfactory to the Project Engineer, construct the needed installation or extension, or deposit funds estimated to be sufficient to pay for the construction. Such installations or extensions shall be built in accordance with suitable plans and specifications approved by the Project Engineer. The contract may provide that part or all of the cost of the installation or extension, but not more than the amount specified on the said contract, shall be refunded to the consumer by allowing him a monthly credit not to exceed 20 per cent of the bill for each month during the life of the contract or until the specified amount be refunded in full, but no claim for credit shall extend beyond the life of the contract. Unless the approval of the Commissioner of Indian Affairs or his duly authorized representative has been obtained, no refund shall be made for that portion of an extension not located along a public highway. All installations and extensions constructed under the provisions of this section shall be and remain the property of the United States.

§ 133.8 *Temporary service.* Temporary service refers to service to circuses, bazaars, fairs, construction works, and other activities or businesses of such a nature that service to the premises occupied by them will probably be discontinued within five months. An applicant for temporary service shall be required to deposit with the Project Engineer of sum of money equal to the estimated cost of installing and removing the necessary facilities and also an additional sum equal to the estimated bill for electric service: *Provided, however,* That such additional sum need not be greater than three times the estimated monthly bill. After termination of service, there shall be refunded any amount remaining on deposit in excess of the actual cost of installing and removing facilities, plus the unpaid amount of bills for electric power and energy, as determined by the Project Engineer.

§ 133.9 *Type of service.* Service for lights and the usual domestic and other appliances, including motors of less than five horsepower shall be single phase, nominally 115 or 230 volts and two or three wire, except when special written approval for another type of service has been obtained from the Project Engineer. Three-phase service at suitable voltage may be furnished for motor installations of five-horsepower and over, provided a three-phase circuit of the required voltage and capacity is available where the service is desired. All service will be sixty cycle.

§ 133.10 *Service connections.* On each new service the consumer shall provide and maintain a service entrance at a location convenient to the lines of the Project, and all connections from the service entrance to the meter base and from the meter base to the main line circuit breaker or distribution center. The meter socket and meter will be furnished by the United States. The meter socket shall be installed, however, by the consumer and in a suitable location, preferably on the outside of the building, or on the service pole, where the meter will be accessible to the meter reader at all times. The meter socket shall not be more than seven feet nor less than five feet above the ground or floor. The entire service installation must be satisfactory to the Project Engineer and must conform to the provisions, then in force, of the National Electrical Code of the National Board of Fire Underwriters for Electric Wiring and Apparatus. When alterations of a consumer's premises make it necessary to move an existing meter loop, the consumer may be required to install a meter socket in the new loop, located in conformity with the stipulations of this section. When an inspection is required by municipal ordinance, the Project Engineer shall require a certificate of inspection and approval by the municipal inspector before connecting a new service.

§ 133.11 *Connection methods.* Service to a consumer's premises will ordinarily be supplied by means of overhead conductors. A consumer may at his own expense provide for an underground service. Such an underground service must be installed in accordance with the provisions of the National Electrical Code and shall be terminated on the pole at a location and in the manner directed by the Project Engineer. No connection from the circuits of the Electrical Power System to a consumer's service entrance shall be made except by the Project or its agents.

§ 133.12 *Multiple meter installations.* In the case of new installations in multiple-occupancy buildings such as apartment houses in connection with which more than one meter in a building is required, the meters shall be assembled at one central location. Each meter shall be clearly marked so as to make it possible to identify the consumer.

§ 133.13 *Consumer responsibility.* The consumer shall furnish, install and maintain at his own risk and expense in good and safe condition all protective devices, electric wires, lines, machinery, apparatus, and appliances which may be required or used for receiving and consuming electric energy obtained from the Project. The consumer shall be responsible for conforming to the regulations of the National Board of Fire Underwriters and to any other regulations applicable to his installation.

§ 133.14 *Change of equipment.* In the event that a consumer proposes to make any material change in the amount, size or character of the electrical equipment installed on his premises, he shall immediately give written notice of his intention to the Project Engineer.

§ 133.15 *Apparatus detrimental to service.* The Project Engineer may refuse to supply loads of a character detrimental to the system, or to service to other consumers, and he may require the installation of suitable corrective devices.

§ 133.16 *Motor starting equipment.* Motors having a rated capacity of three horsepower or more shall be provided with such starting and overload equipment as may be required by the Project Engineer.

§ 133.17 *Service discontinued.* The Project Engineer may discontinue electric service to any consumer who shall continue to use appliances or apparatus detrimental to the Electric Power System after he has been notified to correct the condition and has failed to do so within a reasonable time.

§ 133.18 *Bills for service.* Meters will normally be read and bills for electric service will be rendered at regular intervals. Payments by consumers should be made in person or remitted by check or money order, payable to the order of the Treasurer of the United States, and mailed to the designated office of the Project.

§ 133.19 *Special bills.* Special bills, removal bills, bills for temporary service, bills rendered when premises are vacated or bills rendered to persons discontinuing service are due on presentation.

§ 133.20 *Bills due prior to service.* Bills for connection or reconnection of service, and required cash deposits shall be paid before service is connected, or reconnected.

§ 133.21 *Delinquent bills.* Bills for electric service will be delinquent if not paid on or before the twentieth day following the date of issue. When such delinquency occurs, the Project Engineer shall discontinue service and service shall not be restored until the consumer has paid all bills then due plus a reconnection charge of $2.00 and has made the deposit required under § 133.5. Discontinuance of service for delinquency shall not relieve the consumer of liability for minimum monthly payments guaranteed by him under his contract.

§ 133.22 *Discontinuance by consumer.* Notice of his desire to have service disconnected shall be given by the consumer at least two days in advance. In the absence of such notice the contractor will be held liable for payment for all electrical energy furnished to such vacated premises until service is discontinued. Final bills may be paid by application of the consumer's guarantee deposit to the extent that they are covered thereby. Any surplus remaining in the deposit will be returned to the consumer after the contract is terminated. Where the deposit is insufficient, the consumer will be billed for the difference which shall be immediately due and payable.

§ 133.23 *Fraud; tampering.* Service shall be discontinued to any consumer, or to any premises at any time when, in the opinion of the Project Engineer, such action is necessary to protect against abuse, fraud, or theft. Tampering or in any way interfering with meters, transformers, poles, conductors, or any part of the property of the Project is prohibited and is subject to prosecution pursuant to law.

§ 133.24 *Compensation of employees.* All employees are strictly forbidden to demand or accept any personal compensation for services rendered to a consumer, or any gratuity by reason of the rendition of services.

§ 133.25 *Hardship cases.* The Project Engineer may relax temporarily strict enforcement of a regulation when in his judgment such enforcement would work undue hardship upon a consumer, but all such cases shall be reported promptly to the Commissioner of Indian Affairs with an explanation by the Project Engineer of the reason for taking such action. The Commissioner of Indian Affairs may cancel the action taken by the Project Engineer.

§ 133.26 *Interruptions to service.* The United States will furnish energy continuously so far as reasonable diligence will permit. But the United States, its officers, agents or employees, assume no liability for damages due to interruptions of service to the consumer.

§ 133.27 *Contingent upon appropriations.* All contracts are subject to appropriations made by Congress from year to year of monies sufficient to perform the work or render the service provided therein. No liability shall accrue against the United States by reason of the lack of appropriations.

§ 133.51 *Rate Schedule No. 1; combination rate*—(a) *Application of schedule.* This schedule is applicable to either single phase or three phase service for all purposes. It is especially suit-

able for residences, farms, stores, commercial uses and installations with similar load characteristics having normal load factors and maximum demands of less than 50 kilowatts. Unless specifically permitted by the contract, use must be limited to the consumer's own premises and power supplied must not be resold. If more than one meter is required by the customer's installation, or for the customer's convenience, bills will be independently calculated for each meter.

(b) *Monthly rate.*

(1) 4 cents per kilowatt-hour for the first 50 kilowatt-hours.

(2) 3 cents per kilowatt-hour for the next 50 kilowatt-hours.

(3) 2 cents per kilowatt-hour for the next 200 kilowatt-hours.

(4) 1.5 cents per kilowatt-hour for all additional kilowatt-hours.

(c) *Minimum bill.* The minimum bill shall be $2.00 per month except when a higher minimum bill is stipulated in the contract.

§ 133.52 *Rate Schedule No. 2; general rate*—(a) *Application of schedule.* This schedule is applicable to three phase electric service for all purposes. Unless specifically permitted by the contract, use must be limited to the customer's premises and the power supplied must not be resold. If more than one meter is required by the customer's installations, or for the customer's convenience, bills will be independently calculated for each meter.

(b) *Monthly rate.*

(1) 3.0 cents per kilowatt-hour for first 25 kilowatt-hours per kilowatt of billing demand.

(2) 2.0 cents per kilowatt-hour for next 100 kilowatt-hours per kilowatt of billing demand.

(3) 1.5 cents per kilowatt-hour for all additional kilowatt-hours.

(c) *Discounts.* The following discounts will be applied in accordance with the contract demand as defined below. Discounts do not apply to the minimum charge.

	Percent
Less than 25 kw. of contract demand	0
25 kw. and more but less than 32 kw. of contract demand	10
32 kw. and more but less than 40 kw. of contract demand	12
40 kw. and more but less than 48 kw. of contract demand	14
48 kw. and more but less than 58 kw. of contract demand	16
58 kw. and more but less than 70 kw. of contract demand	18
70 kw. and more but less than 85 kw. of contract demand	20
85 kw. and more but less than 100 kw. of contract demand	22
100 kw. and more but less than 125 kw. of contract demand	24
125 kw. and more but less than 150 kw. of contract demand	26
150 kw. and more but less than 175 kw. of contract demand	28
175 kw. and more but less than 210 kw. of contract demand	30
210 kw. and more but less than 245 kw. of contract demand	32
245 kw. and more but less than 295 kw. of contract demand	34
295 kw. and more but less than 360 kw. of contract demand	36
360 kw. and more but less than 600 kw. of contract demand	38
600 kw. and more of contract demand	40

(d) *Minimum bill.* The minimum bill shall be $1.00 per month per kilowatt of billing demand and no discount shall apply to this minimum.

(e) *Contract demand.* Each contract shall state the number of kilowatts which the customer expects to require and desires to have reserved for his service. This quantity is called the contract demand. The stated quantity need not be the same for all months of the year but the contract demand shall not be less than 20 kilowatts in any month for which a demand is stipulated.

(f) *Actual demand.* The actual demand for any month shall be the average amount of power used during the period of 15 consecutive minutes when such average is the greatest for the month as determined by suitable meters or, if meters are unavailable, the actual demand shall be the connected load or such portion of the connected load as the Project Engineer may determine to be appropriate based on available information as to the customer's use of connected lights, appliances and equipment or from check metering.

(g) *Billing demand.* The billing demand for a month shall be the contract demand, or the actual demand for that month, whichever is the greater.

OSCAR L. CHAPMAN,
Secretary of the Interior.

DECEMBER 2, 1952.

[F. R. Doc. 52-12949; Filed, Dec. 8, 1952; 8:50 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter VII—Department of the Air Force

Subchapter A—Aid of Civil Authorities and Public Relations

PART 805—SAFEGUARDING MILITARY INFORMATION

INVESTIGATION AND CLEARANCE OF PRIVATE CONTRACTOR FACILITIES; FACILITY CLEARANCES

Paragraph (b) (2) of section 805.32 is changed as follows:

§ 805.32 *Facility clearances.* • • •

(b) Facility security clearances, when required by paragraph (a) of this section, will be granted by major air commands concerned to prospective bidders or contractors: *Provided,* That:

• • • • •

(2) Except as indicated in subparagraph (5) of this paragraph, a check of the central records of the Federal Bureau of Investigation and the records of such other agencies as may be pertinent reveals no adverse information concerning:

(i) The facility.

(ii) Officers of the facility.

(iii) Directors of the facility. All directors who are aliens. With respect to United States citizens, all directors who will require access to classified security information in the conduct of the corporate business, provided those directors who will not require access to classified security information are designated by official action of the Board of Directors and made a matter of record in the corporate minutes and a copy of such minutes is filed with the military department granting the facility clearance.

(iv) Owners and key employees who will have access to classified security information.

• • • • •

[AFR 205-17A] (R. S. 161, sec. 202, 61 Stat. 500, as amended; 5 U. S. C. 22, 171a)

Subchapter F—Reserve Forces

PART 861—OFFICERS' RESERVE MOBILIZATION AND TRAINING

1. Paragraph (a) of § 861.1003 is changed as follows:

§ 861.1003 *Mobilization assignment*—(a) *To whom given.* A mobilization assignment may be given to a member of the Air Force Reserve who is in an inactive duty status and who volunteers and is assigned by competent authority to a mobilization position in which it is anticipated he will serve if ordered into the active military service in the event of mobilization. This person must signify, in writing, willingness to accept an assignment in the Organized Air Reserve.

• • • • •

2. Paragraph (a) of § 861.1004 is changed as follows:

§ 861.1004 *Mobilization designation*—(a) *To whom given.* A member of the Air Force Reserve who is qualified may be earmarked for a mobilization position by means of a mobilization designation. A mobilization designation may be given to a qualified member of the Air Force Reserve who is in an inactive duty status and who volunteers and is assigned by competent authority to a mobilization position in which it is anticipated such a person will serve if ordered into the active military service in the event of mobilization. A mobilization designation may be given to a qualified person who is either unwilling to accept a mobilization assignment in the Organized Air Force Reserve or for whom no vacancy exists as an assignee. Such a person must signify, in writing, willingness to accept an assignment in the Volunteer Air Reserve.

• • • • •

3. Section 861.1009 is revised as follows:

§ 861.1009 *Training.* (a) Whenever practicable, a person having a mobilization assignment or designation will accomplish inactive duty training with the unit or activity in which such mobilization assignment or designation is held.

(b) A Reservist having a mobilization assignment to a unit or activity with which it is not practicable for such Reservist to participate in inactive duty training may be attached to another activity or unit for training. (See § 861.1005.)

(c) Mobilization assignees may not be given inactive duty training attachments with any category of the Volunteer Air Reserve.

(d) A mobilization designee may receive inactive duty training with a Volunteer Air Reserve Training Unit, with the consent of the Volunteer Air Reserve Training Unit commander and the commander of the activity with which such a person holds a designation.

(e) Active duty training of Reservists having mobilization assignments normally will be accomplished with the unit or activity in which such assignment or designation is held.

(f) A person with a mobilization assignment will be required to participate in a minimum of six training periods each quarter. Tours of active duty during a quarter may be credited towards the training period requirement for that quarter on the basis of one day of active duty equal to one training period. A mobilization assignee who fails to meet the minimum number of training periods a quarter will be relieved of assignment. In exceptional cases only, and upon written request of the person concerned, major air commands may waive this requirement once in any fiscal year. This waiver authority may be further delegated to major subordinate commands.

[AFR 45-3A] (R. S. 161, sec. 202, 61 Stat. 500, as amended; 5 U. S. C. 22, 171a. Interpret or apply sec. 4, 62 Stat. 89, as amended; 10 U. S. C. 422)

INACTIVE DUTY TRAINING PAY AND ALLOWANCES

4. Paragraphs (a) and (b) of § 861.1102 are changed as follows:

§ 861.1102 *Definitions*—(a) *Training period.* A duly authorized and scheduled period of instruction performed by a person with a mobilization assignment. Such training period will be of at least two hours' duration and normally will be of four hours' duration. The term "training period" will include authorized attendance at a scheduled class of instruction of not less than two hours' duration under the contract school training program for members of Organized Air Reserve units and mobilization assignees.

(b) *Unit training assembly.* A duly authorized and scheduled period of instruction conducted by a United States Air Force Reserve Table of Organization and Equipment unit, Table of Distribution unit, or Corollary unit. Such unit training assembly will be of at least two hours' duration and normally will be of four hours' duration.

• • • • •

5. Paragraph (d) is added to § 861.1103:

§ 861.1103 *Eligibility.* • • •

(d) Officers and airmen assigned to Air Force Reserves units or holding mobilization assignments who are authorized to enroll in a course of instruction under the contract school training program are authorized inactive duty pay for attendance at each scheduled class of instruction. The combined total of such classes attended and other training periods or unit training assemblies attended, however, will not exceed the total number authorized for the training category to which assigned.

6. Paragraph (b) of § 861.1104 is changed as follows:

§ 861.1104 *Mobilization assignees.*

• • •

(b) Not more than 24 paid training periods in each fiscal year will be authorized personnel with mobilization assignments.

• • • • •

7. Section 861.1106 is revised as follows:

§ 861.1106 *Number of training periods and assemblies.* (a) A maximum of six training periods or unit training assemblies only will be authorized for pay purposes in any one calendar month for personnel assigned to training categories in which 48 paid drills each fiscal year are authorized.

(b) A maximum of four training periods or unit training assemblies only will be authorized for pay purposes in any one calendar month for personnel assigned to training categories in which 24 paid drills each fiscal year are authorized.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[General Ceiling Price Regulation, Amdt. 2 to Supplementary Regulation 59]

GCPR, SR 59—CEILING PRICES FOR MURIATE OF POTASH

REVISED CEILING PRICES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2 (16 F. R. 738), this Amendment 2 to Supplementary Regulation 59 to the General Ceiling Price Regulation is issued.

STATEMENT OF CONSIDERATIONS

This amendment to Supplementary Regulation 59 permits two producers with a 42-cent ceiling price for muriate of potash per unit of K_2O f. o. b. Carlsbad, New Mexico and Wendover, Utah, to raise their ceiling price by 1 cent per unit. This action will permit producers of 22 percent of domestic production of muriate of potash to sell at the same price at which the rest of the industry is now selling the product.

It has been customary in the industry ever since 1934 to sell muriate of potash at uniform prices. Roughly 90 percent of the production of the industry is centered in the Carlsbad, New Mexico, area and all producers in that area customarily charged identical f. o. b. Carlsbad prices. The balance of the production was obtained partly in Utah and partly in California. The Utah production was sold f. o. b. Wendover, Utah, at the Carlsbad price level while the California production was sold at a higher price, freight equalized with Carlsbad. When SR 59 was issued in September 1951, it established a ceiling price for muriate of potash at a 42-cent base, thereby permitting producers of 3 percent of the domestic production to raise their ceilings to the GCPR "freeze" level of the rest of the industry. These small producers had been unable to raise their prices prior to the end of the GCPR base period because of contract commitments, and SR 59 restored the traditional price uniformity in the industry.

Subsequent to this action restoring the traditional price uniformity in the industry, producers of 78 percent of the production of muriate of potash were able to qualify, under existing regulations, for varying amounts of upward adjustments of their ceiling prices. As a result, the selling price for this large segment of production rose to a 43-cent level, although some of the producers in that segment obtained ceiling prices higher than 43 cents. Meanwhile, new producers of muriate of potash coming into production had received ceiling prices in line with the higher ceilings established subsequent to the issuance of SR 59.

Two established producers, however, because of conditions peculiar to their operations, have been unable to increase their ceiling prices under existing regulations above the 42-cent level, and by this action, their ceiling prices are being increased less than 2½ percent in order to secure conformity with the industry's customary pricing practices. The 43-cent price level permitted by this Amendment compares with a pre-Korean level of 40 cents, and a GCPR level of 42 cents. Since the one producer at Trona, California, has already established a ceiling price in excess of that permitted by SR 59, it is no longer necessary for SR 59 to be applicable to that point. Accordingly, reference to Trona, California is deleted.

Muriate of potash is an important fertilizer product. About 90 percent of the potash produced in the United States is consumed in the manufacture of fertilizers for agricultural use. Potash is in short supply and the entire production of the industry is being moved as quickly as it is made available. The United States Department of Agriculture anticipates shortages of this product even with new additional production which has been introduced recently. This Amendment will tend to encourage the increased production of the product.

In the formulation of this Amendment, there has been consultation with industry representatives, including trade association representatives, to the extent practicable, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

Section 2 (b) of Supplementary Regulation 59 to the General Ceiling Price Regulation is amended by changing the ceiling prices for the shipping points of Carlsbad, New Mexico and Wendover, Utah from $0.42 to $0.43 per unit of K_2O (f. o. b. plant) and by deleting the line establishing a ceiling price f. o. b. Trona, California.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective December 8, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

DECEMBER 8, 1952.

[F. R. Doc. 52-13057; Filed, Dec. 8, 1952; 11:09 a. m.]

[General Overriding Regulation 14, Amdt. 29]

GOR 14—Excepted and Suspended Services

CUPPAGE RIGHTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment to General Overriding Regulation 14 is hereby issued.

STATEMENT OF CONSIDERATIONS

This Amendment 29 exempts from ceiling price regulations the rates, fees and charges made by timber owners for the right to face, tap or cup standing trees for sap and gum, known in the trade as "cuppage rights".

Numerous commodities involved in the production of naval stores have already been removed from price control. These include the sale of crude pine gum, stumpage, and stumps. The situation thus presented is one in which the sale of the right to face, tap or cup standing trees remains under price control, although sales of stumps, the raw product, and the tree itself are no longer subject to ceiling price regulation. Those items representing the end products of naval stores operations, such as turpentine, rosin, tar, and pine oil which remain under price control are, at present market prices, well below ceiling so that exemption of auxiliary services in connection therewith will have little, if any, effect upon living costs, business costs, or the national defense effort.

Approximately 5 percent of the trees faced each year for naval stores products are owned by the United States. Many of the Southern States also lease public lands for cuppage operations. This exemption will permit various government agencies to accept bids for naval stores offerings on the basis of current costs and market prices. In the formulation of this amendment, there has been extensive consultation with representatives of the Forest Service of the United States Department of Agriculture, the Department of the Interior, and other agencies, and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

General Overriding Regulation 14, as amended, is further amended in the following respects:

The following new subparagraph is added at the end of paragraph (a) of section 3:

(116) Cuppage rights.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 29 to General Overriding Regulation 14 shall become effective December 8, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

DECEMBER 8, 1952.

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket No. 10326]

PART 1—PRACTICE AND PROCEDURE

NETWORKS AND LICENSEES OF BROADCAST STATIONS; ANNUAL FINANCIAL REPORT FORM

In the matter of amendment of F. C. C. Form 324, Annual Financial Report of Networks and Licensees of Broadcast Stations.

On October 1, 1952, the Commission adopted a notice of proposed rule making in the above-entitled matter. The notice was published in the FEDERAL REGISTER (17 F. R. 9078) in accordance with section 4 (a) of the Administrative Procedure Act. The period in which interested persons were afforded an opportunity to submit written comments has expired and no such comments were received.

The revision of F. C. C. Form 324 attached as an appendix to the aforementioned notice of proposed rule making is modified in the following respects:

(a) Pages 1 and 2 containing identification data, most of which are available in other reports and application forms, are deleted. However, the following items previously shown on these pages are transferred to other sections of the report:

(1) The period covered by the report and the information requested at line 9 of page 1 (name of person in charge of correspondence) are transferred to the cover page.

(2) The information requested at line 13 of page 2 (the name of every organization, if any, from which the respondent receives programs) is transferred to the page on which the income statement appears.

(3) The information requested at line 14 of page 2 (the extent to which FM programs duplicate AM programs) is transferred to the cover page.

(b) The requirement, at the foot of the page on which the income statement appears, for showing the portion of total revenues (if less than $25,000) received from each of the nation-wide networks, is deleted. This deletion is consistent with the deletion, made under the proposed rule making, of Schedule 9, "Analysis of Time Devoted to Networks," contained in the 1951 report form.

(c) After giving further consideration to the Commission's present need for the information and the extent to which it is available from other sources, Schedule 7, "Program Log Analysis," is deleted from this form.

(d) A certification is substituted for the verification under oath.

(e) Minor editorial changes and rearrangements are made, including those necessitated by the aforementioned modifications.

(f) With respect to stations operated under Special Temporary Authority, General Instruction 1 is modified to require that permittees of all broadcast stations file Form 324, whereas the proposed rule making referred only to permittees of FM stations. This modification is deemed essential in order to obtain annual financial data on as much of the TV industry as possible, and in lieu of individual requests it is deemed more desirable to obtain the data through the filing of Form 324.

Modifications (a) through (e) above are minor in nature and generally involve a relaxation of the requirements imposed on licensees and permittees; therefore, notice of proposed rule making with respect to them is unnecessary. With respect to modification (f) above, a further notice of proposed rule making would be impracticable in that it would involve delay in the printing of the forms and the receipt of essential information. Moreover, further rule making with respect to this modification is unnecessary in view of the fact that the considerations involved in requiring this form to be filed by permittees of standard and television broadcast stations are identi-

cal with those involved with respect to the licensees of all broadcast stations and the permittees of FM broadcast stations.

It is ordered, therefore, That pursuant to authority under section 4 (i) and 303(r) of the Communications Act of 1934, as amended, F. C. C. Form 324, Annual Financial Report of Networks and Licensees of Broadcast Stations, as set out in the appendix attached to the aforementioned notice of proposed rule making, and modified as set out herein, be, and is hereby adopted.

It is further ordered, That each network and licensee of broadcast stations and each permittee whose station was operated during the year covered by this report shall prepare and file its annual financial report to the Commission for the year 1952 and for each year thereafter until further order of the Commission, in the form and manner therein prescribed.

(Sec. 4, 48 Stat. 1066 as amended, 47 U. S. C. 154. Interprets or applies sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Adopted: November 28, 1952.

Released: November 28, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 52-12963; Filed, Dec. 8, 1952; 8:47 a. m.]

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Bureau of Entomology and Plant Quarantine

[7 CFR Part 319]

FOREIGN QUARANTINE NOTICES

NURSERY STOCK, PLANTS, AND SEEDS

Notice is hereby given under section 4 of the Administrative Procedure Act (5 U. S. C. 1003) that the Secretary of Agriculture, pursuant to section 5 of the Plant Quarantine Act of 1912, as amended (7 U. S. C. 159), is considering the amendment of §§ 319.37-13 and 319.37-15 of the regulations supplemental to the quarantine relating to the importation of nursery stock, plants, and seeds (7 CFR Supp. 319.37-13 and 319.37-15) as follows:

1. The first sentence in § 319.37-13 (a) would be amended to read: "All restricted plant material from countries with official systems of inspection, except that imported pursuant to § 319.37-2, shall be accompanied by an original certificate attached to the invoice, and each container shall bear a copy-certificate, issued by an authorized official of the country of export, stating (1) the country where the restricted plant material covered by the certificate was grown, (2) that the restricted plant material has been thoroughly inspected by him, or under his direction, both during the growing season and at the time of packing, and was found, and believed to be, free from plant pests, and (3) that all materials used for packing the restricted plant material have been approved under § 319.37-16."

2. After the first sentence in § 319.37-13 (a) a new sentence would be added to read: "Said certificate shall also state, except in the case of restricted plant material imported in accordance with § 319.37-5 or certified in accordance with § 319.37-15, that the restricted plant material covered by the certificate is free from sand, soil, and earth other than packing materials approved under § 319.37-16."

3. Section 319.37-15 would be amended to read:

§ 319.37-15 *Freedom from sand, soil, and earth.* Except for importations under § 319.37-5, all restricted plant material to be imported shall be free from sand, soil, and earth, and any shipment arriving in the United States which is not free from sand, soil, and earth, may be refused entry, except that this requirement shall not bar the use of packing materials approved under § 319.37-16 nor the importation of restricted plant material that is accompanied by a certificate by an authorized official of the country of export, in addition to the certificate required in § 319.37-13, stating that the restricted plant material was (a) freed from sand, soil, and earth, (b) subsequently potted and established in ground peat, exfoliated vermiculite, Osmunda fiber, or other packing material approved under § 319.37-16 that had been stored under shelter and had not been previously used for growing or packing plants, and (c) grown thereafter on raised benches in a manner to prevent recontamination with sand, soil, or earth.

Under the present provisions of the regulations under the nursery stock, plant, and seed quarantine, restricted plant material now is generally allowed importation only when freed from sand, soil, and earth. It may be packed in an approved packing material to preserve vitality. The proposed amendments, if adopted, would allow the importation under specified conditions of restricted plant material that is growing in an approved material. The hazards involved in permitting the importation of such restricted plant material have been fully considered by Departmental entomologists and plant pathologists, particularly with respect to the possible introduction of plant diseases. With the safeguards provided by the proposed amendments, it is considered that adequate protection would be afforded against the introduction of dangerous insects and plant diseases.

All persons who desire to submit written data, views, or arguments in connection with this matter should file the same with the Chief of the Bureau of Entomology and Plant Quarantine, Agricultural Research Administration, United States Department of Agriculture, Washington 25, D. C., within 30 days after the date of the publication of this notice in the FEDERAL REGISTER.

(Sec. 5, 37 Stat. 316, as amended; 7 U. S. C. 159)

Done at Washington, D. C., this 4th day of December 1952.

[SEAL] K. T. HUTCHINSON,
Acting Secretary of Agriculture.

[F. R. Doc. 52-12955; Filed, Dec. 8, 1952; 8:46 a. m.]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 3]

[Docket No. 10354]

TELEVISION BROADCAST STATIONS; TABLE OF ASSIGNMENTS

NOTICE OF PROPOSED RULE MAKING

In the matter of amendment of § 3.606 Table of Assignments, rules governing television broadcast stations.

1. Notice is hereby given of proposed rule making in the above-entitled matter.

2. The Commission has ascertained that the assignments of UHF Channel 42 in Abbeville, Louisiana, and that of UHF Channel 38 in Lafayette, Louisiana, do not meet the required minimum assignment separations as provided by § 3.610 (c) of the Commission's rules governing television broadcast stations. In order to correct this sub-standard assignment spacing, the Commission proposes to make the following change in the Table of Assignments:

City	Channel No.	
	Delete	Add
Abbeville, La	42-	27+

3. Authority for the adoption of the proposed amendment is contained in sections 4 (i), 301, 303 (c), (d), (f), and (r) and 307 (b) of the Communications Act of 1934, as amended.

4. Any interested party who is of the opinion that the proposed amendment should not be adopted or should not be adopted in the form set forth herein may file with the Commission on or before December 23, 1952, a written statement or brief setting forth his comments. Comments in support of the proposed amendment may also be filed on or before the same date. Comments or briefs in reply to the original comments may be filed within 10 days from the last day for filing said original comments or briefs. The Commission will consider all such comments that are submitted before taking action in this matter, and if any comments appear to warrant the holding of a hearing or oral argument, notice of the time and place of such hearing or oral argument will be given.

5. In accordance with the provisions of § 1.764 of the Commission's rules and regulations, an original and 14 copies of all statements, briefs, or comments shall be furnished the Commission.

Adopted: December 3, 1952.

Released: December 4, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

[F. R. Doc. 52-12964; Filed, Dec. 8, 1952; 8:47 a. m.]

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

[Cheyenne 073280]

WYOMING

ORDER PROVIDING FOR OPENING OF PUBLIC LANDS

In exchange made under the provisions of section 8 of the act of June 28, 1934 (48 Stat. 1269), as amended June 26, 1936 (49 Stat. 1976), 43 U. S. C. sec. 315 g), the following described lands have been reconveyed to the United States:

Sixth Principal Meridian

T. 48 N., R. 102 W., 6th Principal Meridian,
Sec. 3, S½SW¼;
Sec. 10, N½NW¼, SE¼NW¼.

The area described aggregates 200 acres.

The lands are level to rough in topography. The vegetative cover consists of gramma, wheatgrass, blackroot and sagebrush. There is no timber upon the lands. The lands are primarily suitable for grazing purposes.

No applications for these lands may be allowed under the homestead, small tract, desert-land, or any other nonmineral public-land laws, unless the lands have already been classified as valuable or suitable for such type of application, or shall be so classified upon consideration of an application.

This order shall not otherwise become effective to change the status of such lands until 10:00 a. m. on the 35th day after the date of this order. At that time the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, and selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this order shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279-284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this order shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this order, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this order, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Cheyenne Land and Survey Office in Cheyenne, Wyoming, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to: Cheyenne Land and Survey Office, 405 Federal Building, Box 578, Cheyenne, Wyoming.

ALBIN D. MOLOHON,
Regional Administrator.

DEPARTMENT OF COMMERCE

Federal Maritime Board

ROBERTO MOTTA Y COMPANIA LIMITADA ET AL.

NOTICE OF AGREEMENTS FILED FOR APPROVAL

Notice is hereby given that the following described agreements have been filed with the Board for approval pursuant to section 15 of the Shipping Act, 1916, as amended.

(1) Agreement No. 7879 between Roberto Motta y Compania Limitada and the Panama Canal Company covers the transportation of cargo on through bills of lading from Pacific Coast ports of Central America to New York, with transhipment at Cristobal, Canal Zone.

(2) Agreement No. 7881 between United States Lines Company and Bull Insular Line, Inc., covers the transportation of cargo under through bills of lading from ports in the United Kingdom, of Great Britain, Northern Ireland, the Irish Free State, and in the Vigo, Hamburg range of Continental Europe, to ports in the Virgin Islands (U. S. A.), with transhipment at New York.

Interested parties may inspect these agreements and obtain copies thereof at the Regulation Office, Federal Maritime Board, Washington, D. C., and may submit, within 20 days after publication of this notice in the FEDERAL REGISTER, written statements with reference to either of the agreements and their position as to approval, disapproval, or modification, together with request for hearing should such hearing be desired.

Dated: December 4, 1952.

By order of the Federal Maritime Board.

[SEAL] A. J. WILLIAMS,
Secretary.

FEDERAL COMMUNICATIONS COMMISSION

[Docket Nos. 9136, 10243, 10316]

PIONEER BROADCASTERS, INC., ET AL.

ORDER CONTINUING HEARING

In re applications of Pioneer Broadcasters, Inc., Portland, Oregon, Docket No. 9136, File No. BPCT-431; KXL Broadcasters, Portland, Oregon, Docket No. 10243, File No. BPCT-954; Mount Hood Radio & Television Broadcasting Corporation, Portland, Oregon, Docket No. 10316, File No. BPCT-1029; for construction permits for new television stations (Channel 6).

The Commission having under consideration a petition filed November 25, 1952, by Mount Hood Radio and Television Broadcasting Corporation, requesting a continuance of the hearing in the above-entitled proceeding presently scheduled for December 1, 1952, to December 8, 1952, or to a reasonable date following the Commission's action upon Mount Hood's pending Petition for Review of the Hearing Examiner's action

[F. R. Doc. 52-12955; Filed, Dec. 8, 1952; 8:46 a. m.]

§ 1.764 of the Commission's rules and

on petition for leave to amend its application; and

It appearing, that such Petition for Review was filed with the Commission on November 24, 1952, and, under the Commission's rules and regulations, other parties have the right to file replies thereto; that, therefore, the Commission's ruling cannot reasonably be expected prior to the presently scheduled date for the resumption of the hearing; and

It further appearing, that other counsel in the proceeding, including counsel for the Broadcast Bureau, have informally consented to a waiver of § 1.745 of the Commission's rules and regulations to permit the immediate consideration and grant of the instant petition for continuance;

It is ordered, this 26th day of November 1952, that the petition for continuance be and it is hereby granted; and the hearing on the above-entitled applications now scheduled for December 1, 1952, be and it is hereby continued to December 10, 1952, at 10 o'clock a. m., in Washington, D. C.

WESTERN UNION TELEGRAPH CO.

ORDER CONTINUING HEARING

In the matter of the Western Union Telegraph Company, Docket No. 10151; Divestment of its international telegraph operations in accordance with Section 222 (c) (2) of the Communications Act of 1934, as amended.

It appearing that the above-entitled proceeding is presently scheduled to reconvene to Wednesday, December 10, 1952; and

It further appearing that the Examiner presently conducting this proceeding is now engaged in hearing the applications for permit to construct a commercial television station to operate on Channel 8 in the Tampa-St. Petersburg area, Docket Nos. 10250, 10251, and 10252; that these hearings have been in process since October 15; that they will not be concluded before the middle of December; and that the orderly dispatch of Commission business requires that these hearings be completed at the earliest possible date; and

It further appearing that the parties to this proceeding have been advised of the above facts and are agreeable to a postponement of the further hearing date until January 28, 1953;

It is ordered, This the 25th day of November 1952, that the further hearing in the above-entitled proceeding is continued from December 10, 1952, to Wednesday, January 28, 1953, beginning at 10:00 a. m., in the offices of the Commission at Washington, D. C.

[Docket Nos. 10272, 10273]

BRUSH-MOORE NEWSPAPERS, INC., AND STARK BROADCASTING CORP.

ORDER CONTINUING HEARING

In re applications of the Brush-Moore Newspapers, Inc., Canton, Ohio, Docket No. 10272, File No. BPCT-264; Stark Broadcasting Corporation, Canton, Ohio, Docket No. 10273, File No. BPCT-949; for construction permits for new television stations.

The Commission having under consideration a joint petition filed November 20, 1952, by the Brush-Moore Newspapers, Inc., and the Stark Broadcasting Company, both of Canton, Ohio, requesting a continuance of the hearing on the above-entitled applications now scheduled for December 8, 1952, in Washington, D. C., either until January 12, 1953, or until 15 days after the Commission rules upon the joint petition of these parties requesting assignment of an additional UHF channel to Canton, Ohio; and

It appearing, that if the joint petition of these applicants for an additional UHF channel in Canton, Ohio, were granted by the Commission a hearing may be obviated; and

It appearing further, that the time within which objections might have been filed to this joint petition has expired and none has been filed and that a grant of said petition would conduce to the dispatch of the Commission's business and the ends of justice;

It is ordered, This 28th day of November, 1952, that the petition is granted; and the hearing on the above-entitled application now scheduled for December 8, 1952, in Washington, D. C., is hereby continued to January 12, 1953.

[Docket Nos. 10278, 10279]

KENDRICK BROADCASTING CO., INC., AND ROSSMOYNE CORP.

ORDER CONTINUING HEARING

In re applications of Kendrick Broadcasting Company, Inc., Harrisburg, Pennsylvania, Docket No. 10278, File No. BPCT-937; Rossmoyne Corporation, Harrisburg, Pennsylvania, Docket No. 10279, File No. BPCT-966; for construction permits for television stations.

The Commission having before it a motion filed on November 25, 1952, on behalf of Kendrick Broadcasting Company, Inc. for a continuance of the hearing now scheduled to commence on December 1, 1952, to January 5, 1953; and

It appearing, that counsel for Kendrick Broadcasting Company, Inc. is now and will be engaged in a proceeding before the Commission (Dockets 10250 et al.) and will be unavailable to commence this hearing on December 1, 1952; and

It further appearing, that no other attorney in the firm in which counsel is affiliated is familiar enough with the case to represent adequately the interest of Kendrick Broadcasting Company, Inc.; and

It further appearing, that counsel for Rossmoyne Corporation, counsel for licensee of Station WHP, Harrisburg, Pennsylvania, and counsel for the Chief of the Commission's Broadcast Bureau have consented to a waiver of § 1.745 of the Commission's rules relating to practice and procedure;

It is ordered, This 28th day of November 1952, that the motion for continuance of hearing is granted and that the hearing herein is continued until the 5th day of January 1953, at 10:00 a. m.

Secretary.

[F. D. Doc. 52-12969; Filed, Dec. 8, 1952; 8:47 a. m.]

[Docket Nos. 10289, 10290]

HEAD OF THE LAKES BROADCASTING CO. AND RED RIVER BROADCASTING CO., INC.

ORDER CONTINUING HEARING

In the matter of Head of the Lakes Broadcasting Co., Superior, Wisconsin, Docket No. 10289, File No. BPCT-621; Red River Broadcasting Co., Inc., Duluth, Minnesota, Docket No. 10290, File No. BPCT-903.

The Commission having under consideration the scheduled date for the resumption of hearing in companion Docket Nos. 10291 and 10292, namely, December 9, 1952, and the scheduled date for the initial taking of testimony in the above-captioned matter, namely, December 17, 1952;

It appearing, that an informal meeting of counsel was held in the Examiner's office, pursuant to his call, during which agreement was reached upon the hereinafter ordered continuance; that the December 17, 1952, date had been designated with the expectation that hearing would resume in Docket Nos. 10291 and 10292 on December 3, 1952; that the resumption of hearing in those dockets, however, was deferred until December 9, 1952; that the participants in that proceeding should be afforded an opportunity to complete the presentation of testimony in their case without unnecessary interruption; that the hearing in the above-captioned matter should therefore be continued; and that the length of such continuance is conditioned upon the intervention of the holiday season, the presidential inauguration and the attendant scarcity of hotel accommodations for witnesses, and counsel's participation in other matters;

It is ordered, This 1st day of December 1952, that the hearing in Docket Nos. 10289 and 10290, now scheduled for December 17, 1952, is continued to February 17, 1953, beginning at 10:00 a. m., in Washington, D. C.

[Docket No. 10346]

JAMES GERITY, JR.

ORDER CONTINUING HEARING

In re application of James Gerity, Jr., Pontiac, Michigan, Docket No. 10346, File No. BP-8651; for construction permit.

The Commission having under consideration the petition filed on November 20, 1952, by Adelaide Lillian Carrell, licensee of Radio Station WCLC, Flint, Michigan, for continuance of the hearing herein for a period of thirty days; and the opposition filed thereto on November 24, 1952, by the Chief of the Commission's Broadcast Bureau wherein it was requested that the hearing be continued indefinitely; and

It appearing, that Adelaide Lillian Carrell, who was made a party respondent by the Commission's order released November 14, 1952, has not had sufficient time to prepare for the hearing now scheduled for November 28, 1952; and

It further appearing, that the application of James Gerity, Jr., above mentioned, was filed approximately twenty days before the date originally scheduled for the hearing on the Pontiac, Michigan, applications with which this application was consolidated by the Commission's order released November 14, 1952; and

It further appearing, that all competing applicants in this hearing have dismissed their applications or amended their applications to other frequencies and have had their applications removed from the Hearing Docket, leaving the application of James Gerity, Jr. alone in the hearing with respondent Adelaide Lillian Carrell; and

It further appearing, that it may be unfair to proceed with this case since many other applications for AM facilities have been waiting hearing many months; and

It further appearing, that counsel for James Gerity, Jr., has consented to a waiver of § 1.745 of the Commission's rules and regulations and consented that the petition and opposition thereto may be considered immediately;

It is ordered, This 26th day of November 1952, that the hearing herein is continued without date, subject to further order scheduling a definite date for hearing, either upon the Commission's or the Examiner's own motion or upon appropriate motion being duly filed by any party to this proceeding or by the Chief of the Commission's Broadcast Bureau.

PENNSYLVANIA WATER & POWER CO.

NOTICE OF APPLICATION

DECEMBER 2, 1952.

Take notice that on November 26, 1952, an application was filed with the Federal Power Commission, pursuant to section 203 of the Federal Power Act, by Pennsylvania Water & Power Company, a corporation organized under the laws of the Commonwealth of Pennsylvania and doing business in the States of Pennsylvania and Maryland, with its business office at Baltimore, Maryland, seeking an order authorizing the sale of high-tension terminal and interconnection facilities of the Violet Hill substation, situated in Spring Garden Township, York County, Pennsylvania, together with the land appurtenant thereto, to the Metropolitan Edison Company. The consideration for the sale of this property, the application states, is $110,357.47 to be paid in cash; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard or to make any protest with reference to said application should, on or before the 22d day of December 1952, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

[Docket No. E-6466]

COMMUNITY PUBLIC SERVICE CO.

NOTICE OF APPLICATION

DECEMBER 2, 1952.

Take notice that on December 1, 1952, an application was filed with the Federal Power Commission, pursuant to section 204 of the Federal Power Act, by Community Public Service Company, a corporation organized under the laws of the State of Delaware and doing business in the States of New Mexico and Texas, with its principal business office at Fort Worth, Texas, seeking an order authorizing the issuance of a maximum amount of 137,181 shares of capital stock as a stock dividend at the rate of one share for each five shares held on the record date. Stockholders entitled to a fractional share interest will receive, in lieu of fractional shares or scrip, cash based on the closing price of the capital stock on the New York Curb Exchange on the next business day following the record date for such stock dividend. The proposed capital stock is to be issued pro rata to existing stockholders as of the record date; all as more fully appears in the application on file with the Commission.

Any person desiring to be heard, or to make any protest with reference to said application should, on or before the 22d day of December 1952, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with the Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

[Docket No. E-6469]

METROPOLITAN EDISON CO.

NOTICE OF APPLICATION

DECEMBER 3, 1952.

Take notice that on December 2, 1952, an application was filed with the Federal Power Commission, pursuant to section 203 of the Federal Power Act, by Metropolitan Edison Company, a corporation organized under the laws of the State of Pennsylvania and doing business in said State, with its principal business office at Reading, Pennsylvania, seeking an order disclaiming jurisdiction over the transaction hereinafter described, or, in the alternative, an order authorizing the purchase by it of the high-tension terminal and interconnection facilities of the Violet Hill substation owned by Pennsylvania Water & Power Company and situated in Spring Garden Township, York County, Pennsylvania, together with the land appurtenant thereto. This application is a companion to the application by Pennsylvania Water & Power Company, Docket No. E-6465. The consideration for the facilities to be purchased are stated in the application to be $110,357.47, subject to certain adjustments; all as more fully appears in

the application on file with the Commission.

Any person desiring to be heard, or to make any protest with reference to said application should, on or before the 22d day of December 1952, file with the Federal Power Commission, Washington 25, D. C., a petition or protest in accordance with Commission's rules of practice and procedure. The application is on file with the Commission for public inspection.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 52-12957; Filed, Dec. 8, 1952; 8:46 a. m.]

[Docket Nos. G-1781, G-2055]

UNITED FUEL GAS CO.

ORDER POSTPONING HEARING, CONSOLIDATING PROCEEDINGS FOR HEARING, AND FIXING DATE OF HEARING AND SPECIFYING PROCEDURE FOR CONSOLIDATED PROCEEDINGS

DECEMBER 2, 1952.

The Commission, by order in Docket No. G-2055, issued September 12, 1952, suspended the operation of United Fuel Gas Company's (United) proposed FPC Gas Tariff, Third Revised Volume No. 1, and directed that a hearing be held at a date and place to be fixed thereafter concerning the lawfulness of the rates, charges, classifications or services, subject to the jurisdiction of the Commission, as set forth in said tariff.

United's presently effective tariff, Second Revised Volume No. 1, suspended by the Commission in Docket No. G-1781, was made effective under bond as of February 6, 1952, and hearing thereon commenced October 6, 1952. Thereafter, on November 7, 1952, the Presiding Examiner recessed the hearing until December 8, 1952.

The issues presented in Docket No. G-2055 appear to be identical with those in Docket No. G-1781. However, in Docket No. G-2055 there is included in United's cost of service, the cost of purchasing gas from Tennessee Gas Transmission Company (Tennessee) under Tennessee's FPC Gas Tariff, Third Revised Volume No. 1 and First Revised Volume No. 2, which was suspended by order of the Commission in Docket No. G-2052. In the course of hearing, counsel for United indicated that United would move to put the suspended rates in Docket No. G-2055 into effect as of February 15, 1953, if Tennessee so moved.

It thus appears that United's proposed rate increase in Docket No. G-2052 may become effective, subject to refund, prior to the Commission's determination in Docket No. G-1781 of the justness and reasonableness of the proposed increase there involved. In view of the identity of issues presented in United's Second Revised Volume No. 1 and Third Revised Volume No. 1, with the aforementioned exception, and having due regard for the requirement of section 4 (e) that matters involving proposed rate increases be given preference and disposed of as speedily as possible, it appears to the Commission that Docket No. G-2055 should be set for hearing and consolidated for hearing with Docket No. G-1781 and the hearings in the latter docket be postponed to a date when the consolidated proceedings may go forward.

The Commission finds:

(1) Good cause exists for consolidating the proceedings in Docket Nos. G-1781 and G-2055 for the purpose of hearing, and for postponement of the hearings in Docket No. G-1781 as hereinafter ordered.

(2) It is necessary and appropriate to carry out the provisions of the Natural Gas Act, and it is in the public interest, that the procedure hereinafter prescribed shall be followed at the consolidated proceedings in order to conduct them in an orderly and expeditious manner.

The Commission orders:

(A) The proceeding in Docket No. G-2055 be and it hereby is consolidated for hearing with the proceeding in Docket No. G-1781, now set to reconvene at the time and place named in the said paragraph (B), and the evidence heretofore adduced in the hearing in Docket No. G-1781 be and the same hereby is made a part of this consolidated hearing.

(B) The hearings in Docket No. G-1781 be and the same are hereby postponed to December 17, 1952, on which date a public hearing be held at 10:00 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., in the consolidated proceedings, concerning the lawfulness of the rates, charges, classifications or services, subject to the jurisdiction of the Commission, as set forth in United's proposed FPC Gas Tariffs, Second Revised Volume No. 1 and Third Revised Volume No. 1.

(C) At the consolidated proceedings the burden of proof to justify the proposed increases and changes in tariff provisions, as provided by section 4 (e) of the Natural Gas Act, shall be upon United.

(D) At the consolidated proceedings United shall go forward first and shall present its justification, in accordance with the provisions of section 4 (e), in support of the rate proposed in Docket No. G-2055. After United has completed this presentation, other parties to the proceeding, including Commission Staff Counsel, shall proceed with such cross-examination as they are able to conduct at that time and, upon completion of such cross-examination, upon request of any of the parties thereto, the hearing may be recessed by the Presiding Examiner subject to further order of the Commission.

(E) Interested State commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the Commission's rules of practice and procedure.

Date of issuance: December 3, 1952.

By the Commission.

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-2970]

SOUTHERN CO. AND GULF POWER CO.

NOTICE OF FILING REGARDING SALE OF SHARES OF COMMON STOCK BY SUBSIDIARY TO PARENT

DECEMBER 3, 1952.

Notice is hereby given that a joint application-declaration has been filed with this Commission by the Southern Company ("Southern"), a registered holding company, and Gulf Power Company ("Gulf Power"), a public utility subsidiary of Southern. Applicants-declarants have designated sections 6, 7, 9 (a), 10, and 12 (f) of the act and Rule U-43 promulgated thereunder as applicable to the proposed transactions which are summarized as follows:

Gulf Power proposes to issue 134,817 shares of its authorized and unissued common stock, without par value, and to sell such shares to Southern, which owns all of the common stock of Gulf Power, for a cash consideration of $3,000,000 (of which $2,000,000 is to be received for 89,878 shares in January 1953, and $1,000,000 is to be received for 44,939 shares in May 1953). The price per share represents the approximate book value of the outstanding shares of common stock of Gulf Power as at August 31, 1952. It is stated that the proceeds from the sale of such shares will be used by Gulf Power to finance improvements, extensions and additions to its utility plant.

The joint application-declaration states that the proposed issuance and sale of the shares of common stock by Gulf Power are subject to the jurisdiction of the Florida Railroad and Public Utilities Commission and that the expenses to be incurred in connection with the proposed transactions are estimated at $5,750, including counsel fees of $500.

It is requested that the Commission's order herein become effective upon issuance.

Notice is further given that any interested person may, not later than December 29, 1952, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said joint application-declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after December 29, 1952, said joint application-declaration, as filed or as amended, may be granted or permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 52-12953; Filed, Dec. 8, 1952; 8:45 a. m.]

[File No. 812-809]

NORTH AMERICAN SECURITIES CO. ET AL.

NOTICE OF APPLICATION

DECEMBER 4, 1952.

In the matter of North American Securities Company, North American Investment Corporation, Commonwealth Investment Company, Commonwealth Stock Fund, Inc.; File No. 812-809.

Notice is hereby given that North American Securities Company (Applicant), 2500 Russ Building, San Francisco 4, California, has filed an application under Rule N-17D-1 of the general rules and regulations under the Investment Company Act of 1940 for an order approving the continuance of the practice of paying each year at Christmas time one-half of one month's salary to each and all of its employees or, in the event that the Commission shall determine to confine its approval to the current year 1952 an order approving such payment for the said current year 1952. Employees with less than a full year's service receive such part of one-half of one month's salary as is proportionate to the number of months of employment in the year in question.

Applicant is a wholly owned subsidiary and the investment adviser of North American Investment Corporation, a registered, closed-end management investment company, and it is the underwriter and investment adviser of Commonwealth Investment Company and Commonwealth Stock Fund, Inc., both registered, open-end management investment companies. Applicant has approximately 52 employees, all of whom will be eligible to receive the payment mentioned above. Seven of the employees are affiliated persons, as officers or directors, of North American Investment Corporation or Commonwealth Investment Company or Commonwealth Stock Fund, Inc., or of all three companies. Applicant's personnel formerly were employed by its parent, North American Investment Corporation, which now has no paid employees. For the past seven years Applicant's personnel have received a Christmas bonus on the basis stated above.

The total amount of the payments proposed to be made in December 1952, to the employees of Applicant will be approximately $9,500, or approximately 38 percent of Applicant's estimated net income before income taxes and the payment of the bonus. The proposed payments, however, will be far less than 5 percent of the combined estimated net income, plus net gain realized on investments, of Applicant and its parent, North American Investment Corporation.

The proposed payments by Applicant do not fall within the exceptions provided in Rule N-17D-1, therefore, Applicant may not make the proposed payments unless the Commission grants the application by order.

All persons are referred to said application which is on file in the Washington, D. C., office of the Commission for a more detailed statement of the matters of fact and law therein asserted.

Notice is further given that an order granting the application may be issued by the Commission at any time on or after December 19, 1952, unless prior thereto a hearing upon the application is ordered by the Commission as provided by Rule N-5 of the rules and regulations promulgated under the act. Any interested person may, not later than December 18, 1952, at 5:30 p. m., e. s. t., submit to the Commission in writing his views or any additional facts bearing upon this application or the desirability of a hearing thereon, or request in writing that the Commission order a hearing to be held thereon. Any such communication or request should be addressed: Secretary of the Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C., and should state briefly the nature of the interest of the person submitting such information or requesting a hearing, the reasons for such request, and the issues of fact or law raised by the application which he desires to controvert.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

ECONOMIC STABILIZATION AGENCY

Office of Price Stabilization

[Ceiling Price Regulation 34, as Amended, Supplementary Regulation 3, as Amended, Section 5, Special Order 12]

PACKARD MOTOR CAR CO.

APPROVAL OF REVISIONS ATTACHED TO LETTER TO DEALERS, DATED NOVEMBER 19, 1952

Statement of considerations. This Special Order, pursuant to section 5 of Supplementary Regulation 3 of Ceiling Price Regulation 34, approves certain modifications and supplements to time allowances which appear in the Packard 1951 Flat Rate Manual which covers 1952 models.

The Director of Price Stabilization has determined from the data submitted by the publisher of the Packard 1951 Flat Rate Manual which covers 1952 models that the approval of these modifications and supplements would not be inconsistent with the purposes of the Defense Production Act of 1950, as amended.

Special provisions. 1. On and after the effective date of this order, the modifications and supplements to the Packard 1951 Flat Rate Manual which covers 1952 models as covered in Packard Application No. 52T-37 are authorized for use in establishing the time allowances for the operations described therein.

2. The following notice must be printed or stamped in a prominent position in the publication "Approved by OPS December 4, 1952, by Special Order No. 12 issued under section 5 of SR 3 to CPR 34."

3. All provisions of Ceiling Price Regulation 34, as amended, and Supplementary Regulation 3, as amended, except as changed by this Special Order shall remain in full force and effect.

4. This Special Order or any provision thereof may be revoked, suspended or amended at any time by the Director of Price Stabilization.

Effective date. This order shall become effective December 4, 1952.

JOSEPH H. FREEHILL, *Acting Director of Price Stabilization.*

DECEMBER 3, 1952.

[F. R. Doc. 52-12922; Filed, Dec. 8, 1952; 12:03 p. m.]

FEDERAL REGISTER

VOLUME 17 NUMBER 240

Washington, Wednesday, December 10, 1952

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10418

EXECUTIVE ORDER 10321 [1] AMENDED

By virtue of the authority vested in me by sections 55 (a), 508, 603, 729 (a), and 1204 of the Internal Revenue Code (53 Stat. 29, 111, 171, 54 Stat. 989, 1003, 55 Stat. 722; 26 U. S. C. 55 (a), 508, 603, 729 (a), and 1204), Executive Order 10321, dated January 24, 1952, is hereby amended by striking out "1950" and inserting in lieu thereof "1951".

This Executive order shall be effective upon its filing for publication in the FEDERAL REGISTER.

HARRY S. TRUMAN

THE WHITE HOUSE,
December 6, 1952.

NOTICE

The National Archives Building will be officially closed on Monday, December 15, 1952, between 8:45 a. m. and 2:00 p. m. Notice is hereby given that no documents will be filed with the Federal Register Division, or made available for public inspection, during those hours.

TITLE 7—AGRICULTURE

Chapter VIII—Production and Marketing Administration (Sugar Branch), Department of Agriculture

Subchapter B—Sugar Requirements and Quotas

[Sugar Reg. 811]

PART 811—SUGAR REQUIREMENTS, CONTINENTAL UNITED STATES

REQUIREMENTS FOR 1953

Basis and purpose. The determination set forth below is made pursuant to section 201 of the Sugar Act of 1948. The act requires that the Secretary of Agriculture make such determination for the calendar year 1953 during December of 1952. The determination has been based, insofar as required by section 201 of the act, on official statistics of the Department of Agriculture and statistics published by other agencies of the Federal Government. The purpose of such determination is to provide the amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1953. The determination provides a basis for the establishment of sugar quotas for such year pursuant to section 202 of the act.

Prior to the issuance of this determination, notice was given (17 F. R. 9564) that the Secretary of Agriculture was preparing, among other things, to determine the sugar requirements for the calendar year 1953 and that any interested person might present any data, views, or arguments with respect thereto at a public hearing to be held in Washington, D. C., on November 13, 1952. In addition, the notice stated that

any interested person might present any data, views, or arguments with respect thereto in writing not later than November 26, 1952. In making this determination due consideration has been given to the data, views and arguments expressed at the hearing held on November 13, 1952, and the data, views and arguments submitted in writing on or before November 26, 1952, in accordance with the Administrative Procedure Act (60 Stat. 237).

Since the Sugar Act of 1948 requires that the Secretary of Agriculture determine sugar requirements for the calendar year 1952 during the month of December 1952, it is not possible to comply with the 30-day effective date requirement of the Administrative Procedure Act. Accordingly, this determination shall be effective when published in the FEDERAL REGISTER.

§ 811.4 *Sugar requirements 1953.* (a) The amount of sugar needed to meet the requirements of consumers in the continental United States for the calendar year 1953 is hereby determined to be 7,800,000 short tons, raw value.

Statement of bases and considerations. Section 201 of the Sugar Act of 1948 reads as follows:

> The Secretary shall determine for each calendar year, beginning with the calendar year 1948, the amount of sugar needed to meet the requirements of consumers in the continental United States; such determinations shall be made during the month of December in each year for the succeeding calendar year (in the case of the calendar year 1948, during the first ten days thereof) and at such other times during such calendar year as the Secretary may deem necessary to meet such requirements. In making such determinations the Secretary shall use as a basis the quantity of direct consumption sugar distributed for consumption, as indicated by official statistics of the Department of Agriculture, during the twelve-month period ending October 31 next preceding the calendar year for which the determination is being made, and shall make allowances for a deficiency or surplus in inventories of sugar, and for changes in consumption because of changes in population and demand conditions, as computed from statistics published by agencies of the Federal Government; and, in order that such determinations shall be made so as to protect the welfare of consumers and of those engaged in the domestic sugar industry by providing such supply of sugar as will be consumed at prices which will not be excessive to consumers and which will fairly and equitably maintain and protect the welfare of the domestic sugar industry, the Secretary, in making any such determination, in addition to the consumption, inventory, population, and demand factors above specified and the level and trend of consumer purchasing power, shall take into consideration the relationship between the prices at wholesale for refined sugar that would result from such determination and the general cost of living in the United States as compared with the relationship between prices at wholesale for refined sugar and the general cost of living in the United States obtaining during 1947 prior to the termination of price control of sugar as indicated by the Consumers' Price Index as published by the Bureau of Labor Statistics of the Department of Labor.

(b) Pursuant to the provisions of this section the determination of sugar requirements has been based upon the following:

(1) *Distribution of sugar for consumption during the twelve-month period ended October 31, 1952.* For the twelve months ended October 31, 1952, the quantity of sugar distributed for consumption in the continental United States was approximately 8,069,000 short tons, raw value.

(2) *Inventories of sugar.* (i) Sugar inventories of wholesalers, retailers and industrial consumers on September 30, 1952, were 41,000 short tons lower than a year earlier. Thus, adjusting the distribution shown above for the change in these inventories, the use of sugar in the twelve months ended October 31, 1952, approximated 8,100,000 tons. Unless distribution of sugar in December is abnormally high, a further reduction in inventories will take place by the end of 1952, probably to a level no higher than that which prevailed on January 1, 1952. Refiners' and importers' stocks of sugar on October 31, 1952, were about 124,000 tons lower than a year earlier. Stocks of Gulf refiners on December 31, 1952, may be higher than a year ago due to the size of the mainland cane crop but stocks of other refiners and importers may be lower.

(ii) Larger stocks of sugar in the hands of refiners, importers, other distributors and users would be desirable from many points of view. However, experience demonstrates that larger supplies, because they induce anticipation of lower prices, fail to encourage, and may actually discourage, such accumulation of stocks. Therefore, quota increases to provide for stocks in excess of the quantities necessary to maintain stable rates of refining and distribution are not appropriate until prevailing prices and the rates of movement of sugar indicate that larger stocks will be acquired and held at prices consistent with the objectives of the Sugar Act. Accordingly, neither a deficiency nor a surplus in inventories at the end of the quota year is anticipated and the small allowance that is made is to account for the difference between distribution and estimated use of sugar in the twelve months ended October 31, 1952.

[Sugar Reg. 813]

sugar not in excess of the following, country other

202, 204, 207, 208, 209, 210 and 212, 61 Stat.

(3) *Population and demand conditions.* The population of the continental United States on July 1, 1953, is now estimated by the Bureau of the Census to be about 1.4 percent greater than on July 1, 1952. About 100,000 short tons of sugar, raw value, should be required by this increase and an allowance is made accordingly. The purchasing power of consumers is not expected to differ from that of the base period sufficiently to significantly affect the demand for sugar.

(4) *Relationship between wholesale sugar prices and cost of living.* (i) During the First ten months of 1952 the wholesale price of refined sugar averaged about 1.31 cents per pound less than the price necessary to maintain the relationship between the price of sugar and the Consumers' Price Index that existed during the last ten months of price control in 1947. In October 1952, the latest month for which the index is available, a price of 9.97 cents per pound would have been required to maintain such relationship. The current wholesale price of 8.8 cents per pound in the East and on the West Coast, therefore, is 1.17 cents per pound below the level required to be considered in making this determination. Since lower prices prevail in the Midwest and South Central States, an even greater divergence exists in those areas. Average quoted prices of refined sugar during the first 10 months of 1952 were about 4 percent higher than in the corresponding period of 1947, whereas prices paid by farmers, including interest, taxes and wage rates, increased about 21 percent in the same period. The acreage planted to sugar beets was reduced in 1951 and 1952. Data for the first 10 months of 1951 and 1952 show increases in sugar prices and in prices paid by farmers that were about equal.

(ii) Sugar prices followed a slowly rising trend through most of 1952 in contrast with the rapid rise and fall in 1951. However, the average prices for the two years, together with current "futures" quotations for 1953, show that strong measures are necessary to achieve the price objectives of the act. Accordingly, a reduction of 400,000 short tons, raw value, is made in the determination as a price stimulus.

(iii) The allowances stated in this section when applied to distribution in the base period result in 7,800,000 short tons, raw value, as the level of requirements determined in this section.

It is hereby found and concluded that the determination made above will meet the requirements of the Sugar Act of 1948, as amended.

(Secs. 201, 403, 61 Stat. 923, 932; 7 U. S. C., Sup. 1111, 1153)

Done at Washington, D. C., this 5th day of December 1952. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 52-13039; Filed, Dec. 9, 1952; 8:56 a. m.]

[Sugar Reg. 813]

PART 813—SUGAR QUOTAS AND PRORATIONS OF QUOTA DEFICITS

QUOTAS AND DEFICITS, 1953

By virtue of the authority vested in the Secretary of Agriculture by the Sugar Act of 1948, as amended (61 Stat. 922, as amended by 65 Stat. 318) and the Administrative Procedure Act (60 Stat. 237), the regulations of this part are hereby made, prescribed and published to be in force and effect for the calendar year 1953 or until amended or superseded by regulations hereafter made during the calendar year 1953.

Basis and purpose. The sugar quotas set forth below have been established pursuant to section 202 of the Sugar Act of 1948 (hereinafter called the "act") in terms of short tons of sugar, raw value, equal to the quantity determined by the Secretary of Agriculture to be needed to meet the requirements of consumers in the continental United States for the calendar year 1953. The purpose of Sugar Regulation 813 is to establish quotas representing the quantities of sugar which the producing areas may supply to the continental United States market during the calendar year 1953. Prior to the issuance of this regulation, notice was given (17 F. R. 9564) that the Secretary of Agriculture was preparing, among other things, to establish sugar quotas for the calendar year 1953 and to determine whether any domestic area, the Republic of the Philippines, or Cuba would be unable to market the full quota for such area in 1953 and to re-allot any quota deficit so determined. In accordance with the Administrative Procedure Act due consideration has been given to the data, views and arguments submitted in writing by interested persons and to the data, views and arguments expressed at the public hearing held on November 13, 1952, in Washington, D. C., for the purpose of affording interested persons an opportunity to express their views with respect to the establishment of sugar quotas for the calendar year 1953.

Since the sugar quotas for some areas are relatively small, thereby making it possible for such areas to exceed their quotas within a few days after the beginning of the quota year, it is not possible to comply with the 30-day effective date requirement of the Administrative Procedure Act. Accordingly, §§ 813.41 through 813.48 will become effective January 1, 1953.

Sec.
813.41 Basic quotas for domestic areas.
813.42 Basic quotas for other areas.
813.43 [Reserved.]
813.44 Proration of quota for foreign countries other than Cuba and the Republic of the Philippines.
813.45 Direct-consumption portion of quotas or prorations.
813.46 Liquid sugar quotas.
813.47 Restrictions on marketing and shipment.
813.48 Inapplicability of quota regulations.

AUTHORITY: §§ 813.41 to 813.48 issued under sec. 403, 61 Stat. 932, as amended; 7 U. S. C. Sup. 1153. Interpret or apply secs. 202, 204, 207, 208, 209, 210 and 212, 61 Stat. 924, 925, 927, 928, as amended, 929; 7 U. S. C. Sup. 1112, 1114, 1117, 1118, 1119, 1120, 1122.

§ 813.41 *Basic quotas for domestic areas.* There are hereby established pursuant to subsection (a) of section 202 of the act, for domestic sugar producing areas for the calendar year 1953, the following quotas:

Area:	Quotas in terms of short tons, raw value
Domestic beet sugar	1,800,000
Mainland cane sugar	500,000
Hawaii	1,052,000
Puerto Rico	1,080,000
Virgin Islands	12,000

§ 813.42 *Basic quotas for other areas.* There are hereby established, pursuant to subsections (b) and (c) of section 202 of the act, for foreign countries for the calendar year 1953 the following quotas:

Area:	Quotas in terms of short tons, raw value
Republic of the Philippines	974,000
Cuba	2,286,720
Other foreign countries	95,280

§ 813.43 [Reserved.]

§ 813.44 *Proration of quota for foreign countries other than Cuba and the Republic of the Philippines*—(a) *Basic prorations.* The quota for foreign countries other than Cuba and the Republic of the Philippines is hereby prorated, pursuant to subsection (c) of section 202 of the act, among such countries as follows:

Country:	Proration in short tons, raw value
Dominican Republic	23,661
El Salvador	3,545
Haiti	2,290
Mexico	9,810
Nicaragua	6,706
Peru	44,504
Subtotal	90,516
Not prorated	4,764
Total	95,280

The portion of the quota established in § 813.42 for foreign countries other than Cuba and the Republic of the Philippines which is not prorated may be filled by countries not receiving specific prorations or quotas, but no such country shall enter a quantity in excess of one per centum of such quota (952.8 short tons, raw value).

§ 813.45 *Direct-consumption portion of quotas or prorations*—(a) *Domestic areas.* Pursuant to subsections (a), (b) and (c) of section 207 of the act, the quotas established in § 813.41 for the following listed areas may be filled by direct-consumption sugar not in excess of the following amount for each such area:

Area:	Direct-consumption sugar, short tons, raw value
Hawaii	29,616
Puerto Rico	126,033
Virgin Islands	0

(b) *Other areas.* (1) Pursuant to subsections (d), (e) and (h) of section 207 of the act, the quotas established in § 813.42 for the following listed areas may be filled by direct-consumption sugar not in excess of the following amount for each such area:

Area:	Direct-consumption sugar, short tons, raw value
Republic of the Philippines	59,920
Cuba	375,000
Other foreign countries	32,395

(2) Notwithstanding the foregoing limitation, the following listed countries may enter within the limits of the prorations established in § 813.44 a minimum quantity of sugar for direct consumption equal to the quantities listed below for each such country:

Country:	Direct-consumption sugar, pounds, raw value
Canada	7,552
China and Hongkong	42,987
Colombia	857
Costa Rica	2,163
Dominican Republic	2,405,958
El Salvador	4,041,686
Haiti	376,163
Mexico	1,276,612
Nicaragua	9,059,531
Peru	4,377,617
United Kingdom	144,490

§ 813.46 *Liquid sugar quotas.* There are hereby established, pursuant to section 208 of the act, for foreign countries for the calendar year 1953 quotas for liquid sugar as follows:

Country:	Liquid sugar, wine gallons, 72 percent total sugar content
Cuba	7,970,558
Dominican Republic	830,894
British West Indies	300,000
Other foreign countries	0

§ 813.47 *Restrictions on marketing and shipment.* Pursuant to section 209 of the act, all persons are hereby prohibited, during the calendar year 1953 from:

(a) Bringing or importing into the continental United States from the Territory of Hawaii, Puerto Rico, the Virgin Islands; or foreign countries, (1) any sugar or liquid sugar after the applicable quota, or the proration of any such quota, has been filled, or (2) any direct-consumption sugar after the direct-consumption portion of any such quota or proration thereof has been filled.

(b) Shipping, transporting, or marketing in interstate commerce, or in competition with sugar or liquid sugar shipped, transported, or marketed in interstate or foreign commerce, any sugar or liquid sugar produced from sugar beets or sugarcane grown in either the domestic beet sugar area or the mainland cane sugar area after the quota for such area has been filled.

§ 813.48 *Inapplicability of quota regulations.* Pursuant to section 212 of the act, §§ 813.41 to 813.47 shall not apply to (a) the first ten short tons, raw value, of sugar or liquid sugar imported from any foreign country, other than Cuba and the Republic of the Philippines, in the calendar year 1953; (b) the first ten short tons, raw value, of sugar or liquid sugar imported from any foreign country, other than Cuba and the Republic of the Philippines, in the calendar year 1953, for religious, sacramental, educational, or experimental purposes; (c) liquid sugar imported from any foreign country, other than Cuba and the Republic of the Philippines, in individual sealed containers not in excess of one and one-tenth gallons each; or (d) any sugar or liquid sugar imported, brought into, or produced or manufactured in the United States for the distillation of alcohol, or for livestock feed or for the production of livestock feed.

STATEMENT OF BASES AND CONSIDERATIONS

The basic quotas established for domestic areas are in amounts specified in the act. Section 202 of the act provides that the quota for the Republic of the Philippines shall be 952,000 short tons "as specified in section 211 of the Philippine Trade Act of 1946." Quotas under the Sugar Act are established in terms of "short tons, raw value." On the basis of the average polarization of Philippine sugar brought into the continental United States during the four years 1948–51 and the first ten months of 1952, the statutory quota of 952,000 short tons is equivalent to 974,000 short tons, raw value. The portion of this quota which may be imported as direct-consumption sugar, established as 56,000 short tons in subsection (d) of section 207 of the act, may be filled entirely with refined sugar and is, therefore, determined to be equivalent to 59,920 short tons, raw value.

The basic quotas for other foreign countries have been established by applying the statutory percentages to the difference between the consumption estimate and the sum of the quotas established for domestic areas and the Republic of the Philippines. In accordance with subsection (c) of section 202 of the act, ninety-five percent of the quota for foreign countries other than Cuba and the Republic of the Philippines has been prorated to those countries which entered more than two percent of the average importations within the quotas for the years 1948, 1949 and 1950 on the basis of the average quantity imported from each such country within the quotas for those years. The remaining five percent of the quotas has not been prorated to specific countries and may be filled by countries not receiving specific prorations. The amounts of the quotas and prorations which may be filled by direct-consumption sugar are as specified in the act. The liquid sugar quotas equal those specified in the act.

Current crop estimates from both official and trade sources make it appear that the sugar industry of the Republic of the Philippines will most likely be able to fill the quota for 1953 so a deficit proration for that area is not warranted at this time. Levels of production attained during the past two years in the domestic beet area raises the possibility of a deficit in 1953 for this area. However, no information will be available even for planting intentions for 1953 for some time, and the 1953-crop production is of primary significance to the question of how large a deficit, if any, may occur.

Done at Washington, D. C., this 5th day of December 1952. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

Subchapter H—Determination of Wage Rates

[Sugar Determination 864.5]

PART 864—SUGARCANE (PRODUCTION AND CULTIVATION), LOUISIANA

CALENDER YEAR 1953

Pursuant to the provisions of section 301 (c) (1) of the Sugar Act of 1948, as amended, (herein referred to as "act"), after investigation and consideration of the evidence obtained at the public hearing held in Thibodaux, Louisiana, on July 31, 1952, the following determination is hereby issued:

§ 864.5 *Fair and reasonable wage rates for persons employed in the production and cultivation of sugarcane in Louisiana during the calendar year 1953*—(a) *Requirements.* The requirements of section 301 (c) (1) of the act shall be deemed to have been met with respect to the production and cultivation of sugarcane in Louisiana during the calendar year 1953, if the producer complies with the following:

(1) *Wage rates.* All persons employed on the farm in the production and cultivation of sugarcane shall have been paid in full for all such work and shall have been paid wages in cash therefor at rates as agreed upon between the producer and the laborer but, after the date of issuance of this section, not less than the following:

(i) *Basic wage rates and adjustments for sugar price changes.* When the average price of raw sugar is within the base price range of $5.60 to $6.00, inclusive, per one hundred pounds for the four-week period immediately preceding the four-week period during which the work is performed, and for each full 10 cents that such price shall average more than $6.00 or less than $5.60, the basic day wage rates in the following table shall be applicable:

TABLE OF RAW SUGAR PRICE RANGES AND APPLICABLE BASIC WAGE RATES [1]

Operations	Price ranges: 4-week average price of 100 pounds of raw sugar						
At least	$5.201	$5.301	$5.401	$5.501	$5.601	$5.701	$5.801
But not more than	$5.300	$5.400	$5.500	$5.600	$5.700	$5.800	$5.900
				Basic price range, $5.60–$6.00			
Adult tractor drivers, per 9-hour day	$3.900	$3.950	$4.000	$4.050	$4.125	$4.200	$4.275
All other adult workers, per 9-hour day	3.100	3.150	3.200	3.250	3.325	3.400	3.475
Workers between 14 and 16 years of age per 8-hour day	2.400	2.450	2.500	2.550	2.625	2.700	2.775

[1] For each successive full 10-cent price change above $6.00 or below $5.60, the basic wage rates shall be increased or decreased, correspondingly, by the same amounts as shown above for each full 10-cent price change.

(ii) *Hourly rates.* Where workers are employed on an hourly basis, the basic wage rate per hour shall be determined by dividing the applicable basic day wage rate in subdivision (i) of this subparagraph by 9 in the case of adult workers, and by 8 in the case of workers between 14 and 16 years of age.

(iii) *Piecework rates.* The piecework rate for any class of work shall be that agreed upon between the producer and worker: *Provided,* That the hourly rate of earnings for each worker for the time involved on each separate unit of work for which a piecework rate is agreed upon shall be not less than the applicable hourly rate specified in subdivision (ii) of this subparagraph.

(iv) *Determination of average sugar prices.* The four-week average price of raw sugar shall be determined by taking the simple average of the daily "spot" quotations of 96° raw sugar of the Louisiana Sugar Exchange, Inc., converted to a one hundred pound basis, except that if the Director of the Sugar Branch determines that for any four-week period such average price does not reflect the true market value of raw sugar, because of inadequate volume, failure to report sales in accordance with the rules of such Exchange or other factors, the Director may designate the average price to be effective under this section. For the purpose of this section, the average price of raw sugar prevailing during the period from November 14 through December 11, 1952, shall determine the wage rates from January 1 through January 8, 1953, and thereafter the wage rates in successive four-week work periods shall be determined by the average price of raw sugar prevailing in the immediately preceding four-week period.

(2) *Perquisites.* In addition to the foregoing, the producer shall furnish to the laborer, without charge, the perquisites customarily furnished by him, such as a habitable house, medical attention, and similar items.

(b) *Subterfuge.* The producer shall not reduce the wage rates to laborers below those determined in this section through any subterfuge or device whatsoever.

(c) *Claim for unpaid wages.* Any person who believes he has not been paid in accordance with this section may file a wage claim with the local county Production and Marketing Administration Committee against the producer on whose farm the work was performed. Such claim must be filed within two years from the date the work with respect to which the claim is made was performed. Detailed instructions and wage claim forms are available at the office of the local county PMA Committee. Upon receipt of a wage claim the county PMA Committee shall thereupon notify the producer against whom the claim is made concerning the representation made by the laborer, and, after making such investigation as it deems necessary, notify the producer and laborer in writing of its recommendation for settlement of the claim. If either party is not satisfied with the recommended settlement, an appeal may be made to the State Production and Marketing Administration Committee, 1517 Sixth Street, Alexandria, Louisiana, which shall likewise consider the facts and notify the producer and laborer in writing of its recommendation for settlement of the claim. If the recommendation of the State PMA Committee is not acceptable, either party may file an appeal with the Director of the Sugar Branch, Production and Marketing Administration, U. S. Department of Agriculture, Washington 25, D. C. All such appeals shall be filed within 15 days after receipt of the recommended settlement from the respective committee, otherwise such recommended settlement will be applied in making payments under the act. If a claim is appealed to the Director of the Sugar Branch, his decision shall be binding on all parties insofar as payments under the act are concerned.

STATEMENT OF BASES AND CONSIDERATIONS

(a) *General.* The foregoing determination provides fair and reasonable wage rates which a producer must pay, as a minimum, for work performed by persons employed in the production and cultivation of sugarcane in Louisiana during the calendar year 1953 as one of the conditions for payment under the act.

(b) *Requirements of the act and standards employed.* In determining fair and reasonable wage rates, the act requires that a public hearing be held, that investigations be made, and that consideration be given to (1) the standards formerly established by the Secretary of Agriculture under the Agricultural Adjustment Act, as amended, and (2) the differences in conditions among various sugar producing areas.

A public hearing was held in Thibodaux, Louisiana, on July 31, 1952, at which interested persons presented tesimony with respect to fair and reasonable wage rates for production and cultivation work during the calendar year 1953. In addition, investigations have been made of the conditions affecting wage rates in Louisiana. In this determination consideration has been given to testimony presented at the hearing and to the information resulting from investigations. The primary factors which have been considered are (1) cost of living; (2) prices of sugar and byproducts; (3) income from sugarcane; (4) cost of production; and (5) relationship of labor cost to total cost. Other economic influences also have been considered.

(c) *1953 wage determination.* This determination differs from the 1952 production and cultivation determination in the following respects: (1) Minimum wage rates for male workers are increased approximately five percent; (2) the wage differential of 50 cents per day heretofore provided between adult male and adult female workers is eliminated; (3) the average price and wage periods of the wage-price escalator is extended from two weeks to four weeks; and (4) wage classifications involving no differences in wage rates are consolidated.

At the public hearing, representatives of sugarcane producers recommended no change in the wage rates from those provided in the 1952 production and cultivation determination. Producer representatives also recommended that the wage-price escalator be applicable to a four-week rather than a two-week period. Representatives of workers cited the low standard of living of persons employed in Louisiana sugarcane fields and recommended minimum wages of 75 cents per hour for unskilled and $1.00 per hour for skilled workers.

An examination of data available to the Department concerning costs, returns and profits of sugarcane producers in Louisiana indicates that producers' income, despite the adverse effects in recent years of climatic conditions, low yields and other physical factors, will permit a small increase in the wage determination rate levels. However, the economic position of the average grower does not permit an increase of the proportions recommended by representatives of the workers. The wage increase provided in this determination, together with those made in recent years, have somewhat more than offset increases in living costs which have occurred in either the last year or the last three years. The slight improvement in the standard of living in this area where field wages are low is consistent with producers' limited ability to pay higher wages.

The discontinuance of the differential in wage rates for adult male and female workers is in accordance with general policy to eliminate distinction in wage payments for work of similar classification. This action completes the elimination of the female wage differential from all Sugar Act wage determinations.

As in previous wage determinations, in addition to cash wages, the worker must be furnished, without charge, customary perquisites such as habitable housing, medical attention and similar items. After consideration of all pertinent factors, the wages in this determination are deemed to be fair and reasonable.

Accordingly, I hereby find and conclude that the foregoing wage determination will effectuate the wage provisions of the Sugar Act of 1948, as amended.

(Sec. 403, 61 Stat. 932; 7 U. S. C. Sup. 1153. Interprets or applies sec. 301, 61 Stat. 929; 7 U. S. C. Sup. 1131)

Issued this 4th day of December 1952.

[SEAL] K. T. HUTCHINSON,
Acting Secretary of Agriculture.

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

PART 993—DRIED PRUNES PRODUCED IN CALIFORNIA

APPROVAL OF BUDGET OF EXPENSES OF PRUNE ADMINISTRATIVE COMMITTEE FOR 1952–53 CROP YEAR AND FIXING RATE OF ASSESSMENT FOR SUCH YEAR

Notice was published in the November 20, 1952, issue of the FEDERAL REGISTER (17 F. R. 10602) that the Secretary of Agriculture was considering a proposed rule to approve a budget of expenses for the Prune Administrative Committee for the 1952–53 crop year, and fix a rate of assessment for such year, as hereinafter set forth. Such budget and rate of assessment were proposed after consideration of the recommendation submitted by the said committee and other information available to the Secretary, in accordance with the applicable provisions of Marketing Agreement No. 110, as amended, and Order No. 93, as amended (7 CFR, 1951 Supp. Part 993) regulating the handling of dried prunes produced in California, effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.). In said notice, opportunity was afforded all interested persons to file written data, views, or arguments with respect thereto. No such written data, views, or arguments were filed within the period provided therefor.

After consideration of all matters pertaining thereto, including the recommendations of the Prune Administrative Committee, it is hereby found and determined, and it is, therefore, ordered, that the budget of expenses for the Prune Administrative Committee, and the rate of assessment, for the crop year beginning August 1, 1952, shall be as follows:

§ 993.303 *Budget of expenses of the Prune Administrative Committee and rate of assessment for the 1952–53 crop year*—(a) *Budget of expenses.* Expenses in the amount of $87,100 are reasonable and are likely to be incurred by the Prune Administrative Committee for its maintenance and functioning for the crop year beginning August 1, 1952.

(b) *Rate of assessment.* (1) Each handler shall pay to the Prune Administrative Committee, in accordance with the amended marketing agreement and the amended order, an assessment rate of 65 cents for each ton of salable tonnage prunes handled by him as the first handler thereof and on all prunes sold to him from surplus tonnage for resale to other than Federal governmental agencies, during the crop year beginning August 1, 1952, which assessment rate is hereby fixed as each handler's pro rata share of the aforesaid expenses.

(2) Notwithstanding the approval of the aforesaid expenses, none of such funds may be used to pay any wage or salary that is inconsistent with the Defense Production Act of 1950, as amended, Executive Order No. 10161, or any supplementary order, directive, or regulation pursuant thereto.

It is hereby found and determined that good cause exists for not postponing the effective time of the order with respect to the aforesaid budget of expenses and rate of assessment for 30 days, or any lesser period, after publication of it in the FEDERAL REGISTER (see section 4 (c) of the Administrative Procedure Act; 5 U. S. C. 1001 et seq.) in that: (1) The rate of assessment hereby fixed is applicable to all dried prunes handled during the currrent crop year; (2) handlers have for several months been receiving deliveries of dried prunes from producers which receipts are, by the terms of the amended marketing agreement and amended order, subject to be assessments set forth hereinabove; (3) it is essential that the Prune Administrative Committee be enabled to obtain assessment funds promptly to defray expenses of administering the program; and (4) compliance with this section will not require any special preparation on the part of handlers.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Issued at Washington, D. C., this 5th day of December 1952, to become effective upon publication in the FEDERAL REGISTER.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 52-12997; Filed, Dec. 9, 1952; 8:49 a. m.]

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 5967]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

TILLER-FAITH PIANO CO., INC., ET AL.

Subpart—*Advertising falsely or misleadingly:* § 3.90 *History of product or offering;* § 3.155 *Prices—Exaggerated as regular and customary; Forced or sacrifice sales; Usual as reduced, special, etc.;* § 3.205 *Scientific or other relevant facts;* § 3.240 *Special or limited offers;* § 3.260 *Terms and conditions.* Subpart—*Misbranding or mislabeling:* § 3.1280 *Price.* Subpart—*Misrepresenting oneself and goods—Goods:* § 3.1650 *History of product;* § 3.1740 *Scientific or other relevant facts; Prices:* § 3.1805 *Exaggerated as regular and customary;* § 3.1810 *Fictitious marking;* § 3.1825 *Usual as reduced or to be increased.* Subpart—*Offering unfair, improper and deceptive inducements to purchase or deal:* § 3.1950 *Forced sale and price concessions;* § 3.2063 *Scientific or other relevant facts;* § 3.2070 *Special offers, savings and discounts;* § 3.2080 *Terms and conditions.* In connections with the solicitation or the offering for sale, sale and distribution of pianos in commerce, representing, (1) that respondents are forced to sell their pianos; (2) that pianos offered for sale have been repossessed from the purchasers thereof or obtained in any manner other than through normal channels of purchase when such pianos have not in fact been so repossessed or obtained; (3) that any amount has been paid by others on the purchase price of said pianos; (4) that prices at which respondents' pianos are offered for sale are special or reduced prices when such prices are in fact the regular and customary prices at which such pianos are sold by respondents; or, (5) that the customary or regular prices at which respondents' pianos are sold by the respondents are in excess of the prices at which such pianos are advertised or offered for sale; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Tiller-Faith Piano Company, Inc., et al., Evansville, Ind., Docket 5967, October 3, 1952]

In the Matter of Tiller-Faith Piano Co., Inc., a Corporation; B. T. Faith Piano Co., Inc., a Corporation; and Benjamin T. Faith, Armand A. Tiller, Mary Woodburn Faith, and Mona Frances Tiller, Individually and as Officers of Said Corporations

This proceeding was instituted by complaint which charged respondents with the use of unfair and deceptive acts and practices in commerce and unfair methods of competition therein, in violation of the provisions of the Federal Trade Commission Act.

It was disposed of, as announced by the Commission's "Notice," dated October 9, 1952, through the consent settlement procedure provided in Rule V of the Commission's rules of practice as follows:

The consent settlement tendered by the parties in this proceeding, a copy of which is served herewith,[1] was accepted by the Commission on October 3, 1952, and ordered entered of record as the Commission's findings as to the facts, conclusion, and order in disposition of this proceeding.

The time for filing report of compliance pursuant to the aforesaid order runs from the date of service hereof.

Said order to cease and desist, thus entered of record, following the findings as to the facts and conclusions, reads as follows:

It is ordered, That respondent Tiller-Faith Piano Company, Inc., a corporation, Armand A. Tiller, and Mona Frances Tiller, individually and as officers of said corporate respondent, and respondents' representatives, agents, and employees, directly or through any corporate or other device, in connection with the solicitation or the offering for sale, sale, and distribution of pianos in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from representing:

1. That they are forced to sell their pianos;

2. That pianos offered for sale have been repossessed from the purchasers thereof or obtained in any manner other than through normal channels of purchase when such pianos have not in fact been so repossessed or obtained;

3. That any amount has been paid by others on the purchase price of said pianos;

4. That prices at which their pianos are offered for sale are special or reduced prices when such prices are in fact the regular and customary prices at which such pianos are sold by respondents;

5. That the customary or regular prices at which their pianos are sold by the respondents are in excess of the prices at which such pianos are advertised or offered for sale.

It is further ordered, That the complaint, insofar as it affects B. T. Faith Piano Company, Inc., a corporation, Benjamin T. Faith, and Mary Woodburn Faith, be, and it hereby is, dismissed.

[1] Filed as part of the original document.

It is further ordered, That the respondent, Tiller-Faith Piano Company, Inc., a corporation, and Armand A. Tiller, and Mona Frances Tiller, individually and as officers of said corporation shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which they have complied with this order.

By direction of the Commission.

Issued: October 9, 1952.

[SEAL] D. C. DANIEL,
Secretary.

TITLE 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T. D. 53150]

PART 8—LIABILITY FOR DUTIES, ENTRY OF IMPORTED MERCHANDISE

RELEASE OF PACKAGES; NOTICE TO IMPORTER OF PROBABLE UNPAID DUTIES OR TAXES

It has come to the attention of the Bureau that there is a lack of uniformity in interpreting the provisions of § 8.29 (c), Customs Regulations of 1943, relating to a notice to be furnished the importer of record that the examiner believes that unpaid duties or taxes will be found due with respect to imported merchandise covered by an invoice before the examiner. This notice is to be given to the importer of record regardless of the place of examination and whether or not the examiner reaches his conclusion prior to or after the release of the examination packages.

Section 8.29 (c), Customs Regulations of 1943 (19 CFR 8.29 (c)), as amended, is, therefore, further amended to read as follows:

(c) If the examiner believes that increased or additional duties or taxes imposed upon or by reason of importation will be found due in respect of any merchandise in the shipment, he shall indicate the reason by means of an explanatory notation, such as "Rate Advance," "Value Advance," "Excess," etc. If the estimated aggregate of the increase is over $50, the notation shall so state. This notation shall be on or accompany the delivery permit if it involves packages designated for examination at the appraiser's stores and the examiner is in possession of information indicating a probable increase in duties or taxes prior to issuance of the permit. Otherwise, the notation shall be furnished, on such form as may be appropriate at the port, to the importer of record promptly upon receipt of such information, whether the merchandise has been examined at the appraiser's stores or elsewhere.

(Sec. 505, 46 Stat. 732, sec. 624, 46 Stat. 759, 19 U. S. C. 1505, 1624)

[SEAL] C. A. EMERICK,
Acting Commissioner of Customs.

Approved: November 28, 1952.

JOHN S. GRAHAM,
Acting Secretary of the Treasury.

[F. R. Doc. 52-12987; Filed, Dec. 9, 1952; 8:47 a. m.]

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter E—Administrative Provisions Common to Various Taxes

[T. D. 5955]

PART 458—INSPECTION OF RETURNS

INSPECTION OF INCOME, EXCESS-PROFITS, DECLARED VALUE EXCESS-PROFITS, CAPITAL STOCK, ESTATE, AND GIFT TAX RETURNS BY SENATE COMMITTEE ON RULES AND ADMINISTRATION

PARAGRAPH 1. Pursuant to the provisions of sections 55 (a), 508, 603, 729 (a), and 1204 of the Internal Revenue Code (53 Stat. 29, 111, 171, 54 Stat. 989, 1008, 55 Stat. 722; 26 U. S. C. 55 (a), 508, 603, 729 (a), and 1204) and of the Executive order of this date issued thereunder,[1] Treasury Decision 5878, approved on January 24, 1952 (26 CFR 458.310) is hereby amended by striking out "1950" and inserting in lieu thereof "1951".

PAR. 2. Because of the necessity of the immediate application of the aforementioned amendment, it is found that it is impracticable and contrary to the public interest to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of said act.

PAR. 3. This Treasury decision shall be effective upon its filing for publication in the FEDERAL REGISTER.

JOHN W. SNYDER,
Secretary of the Treasury.

Approved: December 6, 1952.

HARRY S. TRUMAN,
The White House.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 7, Amdt. 6 to Supplementary Regulation 4]

CPR 7—RETAIL CEILING PRICES FOR CERTAIN CONSUMER GOODS

SR 4—UNIFORM CEILING PRICES FOR BRANDED ARTICLES

EXTENSION OF TERMINAL DATES OF SPECIAL ORDERS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2, this Amendment to Supplementary Regulation 4 to Ceiling Price Regulation 7 is hereby issued.

STATEMENT OF CONSIDERATIONS

Amendment 4 to Supplementary Regulation 4 to Ceiling Price Regulation 7 extended to January 2, 1953 the automatic revocation dates of certain special orders issued under section 43 of CPR 7 which remained unrevoked as of September 1, 1952. That extension was granted because of studies which were being made in various commodity areas in connection with possible suspension or decontrol. The extension relieved the holders of unexpired section 43 orders from the burden of applying for SR 4 authorizations in view of the fact that at some later date the commodities covered by many of the orders might be suspended or decontrolled.

A number of the studies have been completed and many commodities have, in consequence, been decontrolled or have been suspended from price control. Other studies are still to be completed. Due to the indefiniteness of the time when a decision will be made regarding the suspension or decontrol of the commodities involved in these studies, the Director of Price Stabilization deems it advisable at this time to indefinitely extend the automatic revocation dates of all unexpired section 43 orders. The reasons for granting the extension set forth in the Statement of Considerations accompanying Amendment 4 to SR 4 are equally applicable in connection with the action now being taken.

The effect of this amendment is to indefinitely extend the automatic revocation date of all section 43 orders bearing order numbers 206 and higher. At such time as the Director of Price Stabilization considers it appropriate to re-establish specific automatic revocation dates for these orders, dates will be fixed to give the holders of unexpired orders ample opportunity to make applications under SR 4.

In view of the remedial nature of this amendment, special circumstances have rendered consultation with industry representatives, including trade association representatives, impracticable.

AMENDATORY PROVISION

Section 10 (a) (1) of Supplementary Regulation 4 to Ceiling Price Regulation 7 is amended to read as follows:

SEC. 10. *Orders under section 43 of Ceiling Price Regulation 7*—(a) *Expiration of orders.* (1) Except as provided in subparagraph (2), each special order issued to a manufacturer or wholesaler and in effect under section 43 of Ceiling Price Regulation 7 (including orders amended as provided in paragraph (c) of this section) shall continue in effect but shall expire and be deemed revoked on the date uniform ceiling prices for any of his articles covered by that order are authorized under this supplementary regulation or on the following applicable date, whichever is earlier:

For orders numbered—
1 through 206:
Expiration date is Sept. 1, 1952.
206 and following:
Specific expiration date, or dates, to be subsequently fixed by the Director of Price Stabilization.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment shall become effective as of December 1, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

DECEMBER 9, 1952.

[F. R. Doc. 52-13085; Filed, Dec. 9, 1952; 12:13 p. m.]

[Ceiling Price Regulation 46, Collation 1]

CPR 46—COPPER SCRAP AND COPPER SCRAP ALLOY

COLL. 1—INCLUDING AMENDMENTS 1–2

Ceiling Price Regulation 46 is republished to incorporate the text of Amendments 1 and 2. Ceiling Price Regulation 46 was issued June 21, 1951 (16 F. R. 5932). Statements of Consideration for Ceiling Price Regulation 46 and for Amendments 1 and 2, as previously published, are applicable to this republication. The effective dates of this regulation and of the amendments are shown in a note preceding the first section of this regulation.

REGULATORY PROVISIONS

Sec.
1. Products covered by this regulation.
2. Transactions covered by this regulation.
3. Persons covered.
4. Geographical applicability.
5. Exemptions.
6. Prohibitions.
7. Permission to carry out certain prior contracts.
8. General pricing provisions.
9. Ceiling base prices.
10. Quantity premiums.
10a. Premiums for dealer-to-dealer transactions.
11. Preparation premiums for sales of prepared scrap not used in the production of refined copper or brass or bronze ingots.
12. Other premiums.
13. Ceiling delivered prices.
14. Definitions.
15. Excise, sales, and similar taxes.
16. Record-keeping requirements.
17. Penalties.
18. Petitions for amendment.

AUTHORITY: Sections 1 to 18 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

DERIVATION: Sections 1–18 contained in Ceiling Price Regulation 46, June 21, 1951 (16 F. R. 5932), except as otherwise noted in brackets following text affected.

EFFECTIVE DATES: CPR 46, June 26, 1951, 16 F. R. 5932. Amendment 1, August 6, 1951. However, until August 13, 1951, any person may deliver copper alloy scrap at a price in excess of the applicable ceiling price established by this amendment in order to carry out any contract entered into before July 31, 1951, if the material so delivered was purchased at a price in excess of the ceiling price established by this amendment and if before July 31, 1951, it was received by, or was in transit to, the person making delivery, 16 F. R. 7591, 7825. Amendment 2, March 12, 1952, 17 F. R. 2051.

SECTION 1. *Products covered by this regulation.* This regulation establishes ceiling prices for all grades of copper scrap and copper alloy scrap. Copper scrap or copper alloy scrap does not include:

(a) Cupro-nickel scrap, other than copper-nickel solids and borings;

(b) Brass mill scrap. Such scrap includes all kinds and grades of nonferrous scrap materials which are the waste or by-product of any kind of fabrication of new sheet, tube, wire, rod or other brass mill products; uncontaminated, fired or demilitarized brass cartridge and artillery cases; and any new sheet, tube, wire, rod or other brass mill products sold for remelting purposes, whether such products are in the form originally sold by the brass mill or have been further fabricated, processed, altered or assembled. Brass mill scrap does not include, however, any material which meets the foregoing requirements but which is unsuitable for brass mill use.

(c) Copper-bearing material, such as ashes, skimmings, buffings, grindings, spatters, washings, mud and all similar residues containing copper, and irony brass or similar material which does not meet the specifications herein for any grade of copper scrap or copper alloy scrap.

SEC. 2. *Transactions covered by this regulation.* (a) This regulation applies to sales and deliveries of copper scrap and copper alloy scrap by any person, including importers and exporters, except as set forth in paragraph (b) of this section.

[Paragraph (a) amended by Amdt. 2]

(b) This regulation does not apply to sales and deliveries of copper scrap and copper alloy scrap in connection with the conversion of railroad scrap, or to sales and deliveries of used railroad bearings made in connection with the purchase of new railroad bearings.

[Paragraph (b) amended by Amdt. 2]

(c) For the purposes of this section the term "Conversion of railroad scrap" means a transaction, consummated pursuant to a written agreement, in which all of the following conditions are satisfied:

(1) A person owning, operating, or maintaining railroad rolling stock sells or delivers to a foundry copper scrap or copper alloy scrap generated from such person's use or processing of castings or other products of the type produced by the foundry;

(2) The foundry converts copper scrap or copper alloy scrap into castings or other products of the type from which the scrap was generated; and

(3) The foundry returns to the person from whom it obtained such scrap an equivalent amount of castings or other products of the type from which the scrap was generated.

SEC. 3. *Persons covered.* This regulation applies to any person who engages as a seller in any of the transactions covered by this regulation. It also applies to any person who in the regular course of trade or business buys or receives copper scrap or copper alloy scrap from such seller.

SEC. 4. *Geographical applicability.* This regulation applies in the forty-eight States of the United States, its Territories and Possessions, and the District of Columbia.

SEC. 5. *Exemptions.* Notwithstanding the provisions of any price regulation or order heretofore or hereafter issued by the Office of Price Stabilization, except an amendment to this regulation, all transactions described in section 2 (b) of this regulation are exempt from price control.

SEC. 6. *Prohibitions* — (a) *Against transactions above ceiling prices.* Regardless of any contract or other obligation (except as provided in section 7 of this regulation), on and after the effective day of this regulation no person covered by this regulation shall sell or deliver, or buy or receive in the regular course of trade or business, any copper scrap or copper alloy scrap at a price in excess of the applicable ceiling price set forth in this regulation. No person shall offer, solicit, attempt, or agree to do any of the foregoing.

Lower prices than those set forth in this regulation may be charged, demanded, paid or offered.

(b) *Against tie-in transactions.* No person covered by this regulation shall sell copper scrap or copper alloy scrap on condition (1) that the buyer purchase from any person any commodity or service, or (2) that the buyer sell to any person any commodity or service. No person covered by this regulation who buys copper scrap or copper alloy scrap in the regular course of trade or business shall participate in any such tie-in transaction.

(c) *Against evasion.* No person covered by this regulation shall evade or circumvent the provisions of this regulation by direct or indirect methods in connection with the sale, purchase, delivery or transfer of copper scrap or copper alloy scrap, alone or in conjunction with any other product, or by way of any commission, service, transportation, or other charge, or discount, premium, or other trade understanding or otherwise.

SEC. 7. *Permission to carry out certain prior contracts.* Regardless of any provisions of this regulation, until July 10, 1951, any person covered by this regulation may deliver copper scrap or copper alloy scrap at a price in excess of the applicable ceiling price established herein in order to carry out any contract entered into before June 21, 1951, if the material so delivered was purchased at a price in excess of the ceiling price established herein and if before June 21, 1951, it was received by, or was in transit to, the person making delivery.

SEC. 8. *General pricing provisions*—(a) *Pricing basis.* Section 9 of this regulation sets forth ceiling base prices for various grades of copper scrap and copper alloy scrap. Sections 10, 11 and 12 of this regulation set forth certain premiums which may be charged, when applicable, in addition to the ceiling base prices.

The ceiling base prices in section 9 of this regulation apply f. o. b. point of shipment, but the delivered price (price f. o. b. point of shipment plus transportation costs paid by the buyer) may not exceed the ceiling delivered price set forth in section 13 of this regulation.

When copper scrap or copper alloy scrap is sold on a "where is" basis, the applicable ceiling base price in section 9 must be reduced by an amount no less than the cost to the buyer of loading such material on the conveyance in which it is transported to the buyer's receiving point.

(b) *Mixed shipments.* When grades of copper scrap and copper alloy scrap having different ceiling prices under the provisions of this regulation are shipped in one vehicle, the ceiling price for the entire shipment shall be the ceiling price applicable to the lowest priced grade contained therein unless each grade is invoiced separately and is so loaded in the vehicle that it can be readily distinguished and separately weighed.

SEC. 9. *Ceiling base prices.* The ceiling base price, f. o. b. point of shipment, for each grade of copper scrap or copper alloy scrap listed in Table A is the applicable price set forth in that table.

Payment shall be made on the basis of the weight and classification of material determined at the buyer's receiving point.

Unless otherwise specified in Table A, borings and turnings shall be classified on the basis of button analysis in accordance with accepted laboratory standards and payments shall be computed on the basis of the wet or natural analysis. Solids shall be classified on the basis of analysis in accordance with accepted laboratory standards.

The following deductions, when applicable, must be made in the applicable price set forth in Table A:

(a) For each grade preceded by an asterisk, a deduction of not less than .25 cents per pound for each .10 percent or fraction thereof of the following impurities, singly or combined, in excess of the allowable percentage stated in the specifications: Antimony, alloyed iron, aluminum, silicon and manganese.

[Paragraph (a) amended by Amdt. 2]

(b) For copper alloy borings and turnings containing more than 3 percent free iron which can be removed by magnetizing, a deduction of not less than .15 cents per pound for each 1 percent or fraction thereof of iron in excess of 3 percent;

(c) Borings and turnings containing more than 10 percent free iron or containing any free iron which cannot be removed by magnetizing shall be classified as refinery brass if they meet the specifications set forth in Table A for that grade.

TABLE A

GROUP I. COPPER SCRAP AND REFINERY BRASS

Grade	Specifications	Price (cents per pound of scrap unless otherwise indicated)
No. 1 heavy copper and No. 1 copper wire.	Consists of unalloyed clean, unsweated copper wire, copper cable, and pieces, having a copper content of not less than 98.5 percent. Must be free of wire and cable smaller than 16 B & S wire gauge; ashy wire and cable; burnt wire and cable which is brittle; and brazed, soldered, tinned, plated and painted material.	19.25 For No. 1 heavy copper, a deduction of not less than 0.25 cent per pound must be made for the weight of all pieces which exceed 12 inches in width or diameter or 48 inches in length.
No. 2 copper wire and mixed heavy copper.	Consists of copper wire, cable and pieces having a copper content of not less than 95 percent. Must be free of silicon bronze, aluminum bronze, and copper-nickel alloys.	17.75 For mixed heavy copper, a deduction of not less than 0.25 cent per pound must be made for the weight of all pieces which exceed 12 inches in width or diameter or 48 inches in length. For copper content less than 96 percent a deduction of not less than 0.242 cent per pound must be made. For copper content in excess of 96 percent an addition of 0.242 cent per pound may be made for each 1 percent or fraction thereof of copper in excess of 96 percent.
Copper tuyeres	Consists of copper tuyeres, including Bosh plates.	17.50 A deduction of not less than 0.242 cent per pound must be made for each 1 percent or fraction thereof of adhering iron and non-metallics in excess of 5 percent.
Light copper	Consists of miscellaneous copper having a copper content of not less than 90 percent. Must be free of radiators, gaskets, bronze and brass screens, and electrotype shells.	16.50 For copper content less than 92 percent, a deduction of not less than 0.242 cent per pound must be made for each 1 percent or fraction thereof of copper below 92 percent. For copper content in excess of 92 percent, an addition of 0.242 cent per pound may be made for each 1 percent or fraction thereof of copper in excess of 92 percent.
No. 1 copper borings	Consists only of unalloyed copper borings and turnings, having a copper content of not less than 98.5 percent. Must be free of all other material and contamination other than free iron, oil, moisture and non-metallics.	19.25
No. 2 copper borings	Consists of copper borings and turnings having a copper content of not less than 95 percent. Must be free of silicon bronze borings, aluminum bronze borings and copper-nickel alloy borings.	17.75 For copper content less than 96 percent, a deduction of not less than 0.242 cent per pound must be made. For copper content in excess of 96 percent, an addition of 0.242 cent for each 1 percent or fraction thereof of copper in excess of 96 percent may be made. In the case of shipments of less than 5,000 pounds, a flat price of 16 cents per pound of material may be charged.
Lead-covered copper wire and cable.	Consists of tinned and untinned copper wire and cable covered with a sheathing of lead. May contain rubber, plastic, fabric and paper insulation, but must be free of steel-armored and other metallically armored material.	The ceiling price is the sum of: the ceiling price set forth in this table for the copper scrap content; plus the ceiling price for the lead scrap content; minus 0.75 cent per pound of material. In the case of shipments of less than 5,000 pounds, a flat price of 11.25 cents per pound of material may be charged.
Insulated copper wire and cable.	Consists of tinned and untinned copper wire, cable and pieces covered with rubber, plastic, paint, enamel, fabric, and other insulation. Must be free of steel-armored and other metallically armored material, asbestos covering, and porcelain.	The ceiling price is the ceiling price set forth in this table for the copper scrap content minus 0.75 cent per pound of material. In the case of shipments of less than 5,000 pounds, a flat price of 8.25 cents per pound of material may be charged.
Refinery brass	Consists of any copper scrap which has a dry copper content of 50 percent or more but which fails to meet the specifications for any other grade of copper scrap set forth in this table.	17.25 cents per pound of dry copper content for material having a dry copper content in excess of 60 percent. 17 cents per pound of the dry copper content for material having a dry copper content of 50 to 60 percent, inclusive. For shipments of less than 10,000 pounds a deduction of $15 per shipment must be made. In case of shipments of less than 2,000 pounds, a flat price of 8.25 cents per pound of material may be charged.
Conductivity bronze	Consists of wire and cable having a copper content of not less than 98 percent, balance tin, cadmium and silicon. Must be free of burnt wire, and brazed, soldered, plated and printed material. Includes trolley wire.	19.25

TABLE A—Continued

GROUP II. COPPER ALLOY SCRAP

All moisture, oil, grease, free iron, dirt, putty and other non-metallics must first be deducted before determining the weight of any of the following grades of scrap for pricing purposes

Grade	Specifications	Price (cents per pound of scrap unless otherwise indicated)
Bellmetal	Must have a copper content of not less than 80 percent, a tin content of not less than 16 percent, and a lead content of not more than 1 percent.	31.75
High grade bronze gears	Must have a copper content of not less than 87 percent, a tin content of not less than 9 percent, and a lead content of not more than 1 percent.	26.75
*Tinny phosphor bronze solids and borings.	Must have a copper content of not less than 88 percent, a tin content of not less than 3 percent, a lead content of not more than 1 percent. Combined silicon, manganese, and aluminum must not exceed 0.10 percent.	26.25 cents per pound of copper content plus 94 cents per pound of tin content. In the case of shipments of less than 5,000 pounds, a flat price of 21.25 cents per pound of scrap may be charged if the buyer determines by inspection that the material meets the specification.
*High grade low lead bronze solids and borings.	Must have a copper content of not less than 75 percent, a tin content of not less than 5 percent and a lead content of not more than 3 percent. May not contain more than 0.50 percent aluminum, 0.50 percent alloyed iron, 0.35 percent manganese, and silicon combined.	For material with a lead content of 1 percent or less: 26.25 cents per pound of copper content. 90 cents per pound of tin content. For material with a lead content of 1.01 percent to 2 percent: 19.75 cents per pound of copper content. 84 cents per pound of tin content. For material with a lead content of 2.01 percent to 3 percent: 13.25 cents per pound of copper content. 76 cents per pound of tin content. In case of shipments of less than 5,000 pounds, a flat price of 26.25 cents per pound of scrap may be charged if the buyer determines by inspection that the material meets the specification.
*High lead bronze solids and borings.	Must have a copper content of not less than 70 percent and a tin content of not less than 5 percent and a zinc content of not more than 4 percent. May not contain more than 0.50 percent antimony, 0.50 percent alloyed iron, or 0.35 percent aluminum, silicon, and manganese combined.	19.25 cents per pound of copper content plus 73 cents per pound of tin content. In the case of shipments of less than 5,000 pounds, a flat price of 15 cents per pound of scrap may be charged if the buyer determines by inspection that the material meets the specification.
Soft red brass solids (No. 1).	Consists of clean red brass castings having a copper content of not less than 82 percent and a tin content of not less than 4 percent.	18.50
*Soft red brass borings (No. 1 composition borings).	Must have a copper content of not less than 77 percent, a tin content of not less than 3 percent, and a zinc content of not more than 0.35 percent alloyed iron, or 0.35 percent aluminum, manganese, and silicon combined.	19.25 cents per pound of copper content plus 83 cents per pound of tin content. In the case of shipments of less than 5,000 pounds, a flat price of 15.25 cents per pound of material may be charged.
*Mixed brass borings and solids.	Must have a copper content of not less than 71 percent, a tin content of not less than 2 percent. May not contain more than 0.35 percent antimony, 0.35 percent alloyed iron, or 0.35 percent aluminum, manganese, and silicon combined.	19.25 cents per pound of copper content plus 60 cents per pound of tin content. In the case of shipments of less than 2,000 pounds, a flat price of 12.75 cents per pound may be charged.
Copper-nickel solids and borings.	Consists of solids, borings, and turnings having a copper content of not less than 10 percent, balance nickel.	17.75
Bronze paper mill wire cloth.	Consists of bronze Fourdrinier wire cloth and screen, having a copper content of not less than 88 percent, a tin content of not less than 3 percent, and a lead content of not more than 1 percent.	20.75
Ford aluminum bronze gears.	Consists of clean aluminum bronze Ford gears.	18.25
Aluminum bronze solids and turnings.	Consists of aluminum bronze solids, other than Ford gears.	17.25 cents per pound of dry copper content for material having a dry copper content in excess of 60 percent. 17 cents per pound of the dry copper content for material having a dry copper content of 50 to 60 percent, inclusive. For shipments of less than 10,000 pounds a deduction of $15 per shipment must be made. In the case of shipments of less than 2,000 pounds, a flat price of 11.25 cents per pound of material may be charged.
	Must have a copper content of not less than 88 percent.	17.25
Contaminated gilling metal solids and turnings.	Consists of clean copper and brass screens, other than bronze paper mill wire cloth, having a copper content of not less than 75 percent.	16.00
Unlined standard red car boxes.	Consists of clean standard red car boxes free of yellow boxes and journal-bushed boxes.	16.25
Lined standard red car boxes.	Consists of clean standard lined red car boxes free of yellow boxes and journal-bushed boxes.	17.25
Cocks, faucets, and flange fittings.	Consists of clean mixed red and yellow cocks and faucets, red pipe fittings, and red journal bushings. Must be free of yellow cocks and faucets, yellow brass valves, and yellow brass flanges. The cocks and faucets must contain a minimum of 85 percent copper and the journal bushings must be free of fine die cast cocks and faucets.	16.00
Mixed brass screens.	Consists of all clean copper and brass screens, other than bronze paper mill wire cloth, having a copper content of not less than 75 percent.	16.00
Zinc bronze solids and borings.	Must have a copper content of not less than 78 percent. Must not contain more than 2 percent impurities (including lead and tin). Balance zinc.	16.25
Red brass breakage (from composition).	Consists of heavy red brass castings, including but not limited to faucets, fixed aluminum bronze parts, and journal bushings. May not contain more than 10 percent adhering iron.	15.25
Automobile radiators—unsweated.	Consists of mixed copper and brass unsweated automobile and truck radiators.	14.75
Automobile radiators—sweated.	Consists of nickel silver having a minimum copper content of 55 percent and minimum nickel content of 8 percent. Must be free of stainless steel and all foreign material.	14.25
Nickel silver solids and turnings.	Must have a copper content of not less than 40 percent. May not contain more than 1 percent other impurities and 1 percent other impurities combined. Balance lead.	11.00
*Copper lead solids and borings.	Consists of clean yellow brass solids free of silicon bronze, aluminum bronze, manganese bronze, and iron.	13.50
Heavy yellow brass solids.	Consists of clean yellow brass solids free of silicon bronze, aluminum bronze, manganese bronze, and iron.	12.50
Yellow brass borings	Consists of yellow brass borings. May not contain more than 0.25 percent antimony, 0.50 percent alloyed iron, and 0.35 percent aluminum, manganese, and silicon combined.	

TABLE A—Continued

GROUP II. COPPER ALLOY SCRAP—continued

Grade	Specifications	Price (cents per pound of scrap unless otherwise indicated)
Manganese bronze propellers.	Consists of clean manganese bronze propellers having a minimum copper content of 55 percent and a maximum lead content of 0.40 percent.	16.75 A deduction of not less than 1 cent per pound must be made for the weight of material exceeding 3½ feet in any dimension.
Manganese bronze solids.	Consists of clean manganese bronze solids, having a minimum copper content of 55 percent and a maximum lead content of 0.40 percent. Must be free of aluminum bronze, silicon bronze and adhering iron.	15.50 A deduction of not less than 1 cent per pound must be made for the weight of material exceeding 3½ feet in any dimension.
Manganese bronze borings.	Shall consist of borings, turnings, and chips having a copper content of not less than 55 percent and a lead content of not more than 0.40 percent. Must be free of aluminum bronze and silicon bronze.	14.75
Fired rifle shells	Consists of contaminated fired rifle shells free of gun powder, bullets, and iron.	18.25
Brass pipe	Consists of brass pipe and tubing free of Muntz metal, Admiralty tubing, soldered, tinned, plated, corroded, and aluminum-painted material, and material with cast brass connections.	16.50
Admiralty condenser tubes.	Consists of clean Admiralty condenser tubing, plated or unplated, free of nickel, silver, cupro-nickel, and corroded material.	15.50
Muntz metal condenser tubes.	Consists of clean Muntz metal condenser tubes, plated or unplated. Must be free of nickel silver, cupro-nickel, and corroded material.	15.25
Old rolled brass	Consists of old sheet brass free of soldered, tinned, plated, corroded and aluminum-painted material, and free of Muntz metal.	15.50
Plated rolled brass sheet, pipe and reflectors.	Consists of clean plated brass sheet, pipe, tubing, and reflectors. Must be free of Muntz metal, Admiralty tubing, soldered, tinned, corrodied, and aluminum-painted material, and material with cast brass connections.	15.25

[Table A amended by Amdts. 1 and 2]

(d) *Unlisted grades.* (1) The ceiling price for a kind or grade of copper or copper alloy scrap not listed in Table A is the price established by the OPS upon application by the seller. Any such application must be filed with the Industrial Materials and Manufactured Goods Division, Office of Price Stabilization, Washington 25, D. C., and must contain the following information: The name and address of the seller; a description of the kind and analysis of the scrap for which a ceiling price is to be established; a proposed ceiling price; and a statement of the reasons why the applicant believes such price to be in line with the ceiling prices for copper and copper alloy scrap otherwise established in this regulation.

(2) Any ceiling price established by OPS pursuant to this paragraph (d) will be in line with the ceiling price for copper and copper alloy scrap otherwise established in this section.

(3) After receipt of an application pursuant to this paragraph (d), OPS may approve or disapprove the proposed ceiling price or request additional information. Pending any such action, the proposed ceiling price may be charged provided that the seller agrees with the buyer to refund the amount, if any, by which the price charged exceeds the ceiling price established by OPS.

(4) If a seller of copper or copper alloy scrap is required to file an application by this paragraph (d) and fails to do so, OPS may issue an order establishing a ceiling price for him. The ceiling price set forth in such order will be in line with the ceiling price for copper and copper alloy scrap otherwise established in this regulation and will apply to all deliveries for which a ceiling price was not otherwise established in this regulation, including deliveries completed prior to the date of the order. The issuance of such an order will not relieve the seller of his obligation to comply with the requirements of this paragraph (d) or of the various penalties for his failure to do so.

[Paragraph (d) added by Amdt. 2]

SEC. 10. *Quantity premiums.* In addition to the applicable ceiling base price determined in accordance with sections 8 and 9 of this regulation, a quantity premium may be charged in accordance with the provisions of this section.

No quantity premium may be charged for any scrap for which a preparation premium is charged in accordance with section 11 of this regulation.

(a) *Delivery period.* The applicable quantity premium set forth in Table B below may be charged if the seller delivers, within a period of three calendar days (excluding Saturdays, Sundays, and holidays), the specified quantity of material (1) to a public carrier for transportation to the buyer, (2) to the buyer at his receiving point by a carrier owned or controlled by the seller, or (3) upon a conveyance owned or controlled by the buyer. The amount of material delivered during any one day may be counted only once in determining whether a quantity premium may be charged and paid.

TABLE B

Quantity	Premium (cents per pound)
40,000 pounds or more of either group I or Group II material, singly or combined	1¼
60,000 pounds or more of either Group I or Group II material	1¾

(b) *Determination of weight.* Whether a delivery or series of deliveries qualifies for a quantity premium shall be determined on the basis of the weight of the scrap determined at the buyer's receiving point and the following shall be deducted from the total weight of the material delivered:

[Above paragraph amended by Amdt. 1]

(1) The weight of all containers, dunnage, and other tare;

(2) The weight of insulation on insulated copper wire and cable;

(3) The weight of all material which is not copper scrap or copper alloy scrap;

(4) The weight of all copper scrap and copper alloy scrap for which a preparation premium is charged in accordance with section 11 of this regulation.

SEC. 10a. *Premiums for dealer-to-dealer transactions.* In addition to the ceiling prices set forth in Table A, a maximum premium of 1.75 cents per pound may be charged or paid when a dealer sells any quantity of a kind or grade of copper or copper alloy scrap to another dealer. No quantity or preparation premium may be charged or paid for any such scrap for which a premium is charged in accordance with this section.

[Section 10a added by Amdt. 2]

SEC. 11. *Preparation premiums for sale of prepared scrap not used in the production of refined copper or brass or bronze ingots*—(a) *Ordinary preparation.* In addition to the applicable ceiling base price determined in accordance with sections 8 and 9 of this regulation, a preparation premium may be charged for copper and copper alloy scrap in accordance with the provisions of this paragraph, when the scrap is not to be used in the production of refined copper or brass or bronze ingots.

The premiums set forth in Tables C and D may be charged only for:

(1) Solids in crucible shapes or briquettes; and

(2) Borings which have been demagnetized and do not contain more than 0.25 percent free iron.

TABLE C

The premiums set forth herein apply to deliveries in any quantity:

Grade of scrap:	Premium (cents per pound)
No. 1 heavy copper and No. 1 copper wire	3.75
No. 2 copper wire and mixed heavy copper	3.50
No. 1 copper borings	2.50
High grade low lead bronze solids	3.25
High grade low lead bronze borings	2.50
High lead bronze solids	3.25
High lead bronze borings	2.50
Soft red brass solids	3.25
Soft red brass borings	2.50
Unlined standard red car boxes	2.50
Cocks, faucets and fittings	3.00

Grade of scrap—Continued	Premium (cents per pound)
Heavy yellow brass solids	3.25
Yellow brass borings	2.50
Manganese bronze propellers	3.25
Manganese bronze solids	4.00
Aluminum bronze solids	4.00
Conductivity bronze	3.75

TABLE D

The premiums set forth herein apply only to deliveries of 40,000 pounds or more of one or more of the specific grades.

Grade of scrap:	Premium (cents per pound)
Brass pipe	2.75
Admiralty condenser tubes	2.75
Muntz metal condenser tubes	2.75
Old rolled brass	2.75
Plated rolled brass sheet, pipe, and reflectors	2.75

(b) *Special preparation.* Any consumer of copper scrap or copper alloy scrap who desires to purchase such scrap prepared to his specifications in a form not covered in paragraph (a) of this section and who has authorization from the National Production Authority shall apply to the Office of Price Stabilization, Washington 25, D. C., for the establishment of a preparation premium. No application may be made if the copper or copper alloy scrap is to be used in the production of refined copper or brass or bronze ingots.

Any such application shall set forth the following information: The name and address of the applicant; the nature of the applicant's business; the purpose for which the specially prepared material will be used; the name and address of the person or persons from whom the applicant will buy such material; the date and number of the authorization from the National Production Authority permitting the applicant to purchase copper scrap or copper alloy scrap; a statement of the specifications for the specially prepared material; a description of the manner in which such material will be prepared; if the applicant previously purchased similar material, the price last paid prior to the issuance of this regulation; and a proposed preparation premium.

The premium established by the Office of Price Stabilization shall be in line with the preparation premiums otherwise established in this regulation.

(c) *Export packing and preparation premium.* Any person other than an exporter who packs in bales, drums, or other containers, or prepares in briquettes, copper scrap or copper alloy scrap for export may charge a premium of 2.75 cents per pound in addition to the applicable ceiling base price determined in accordance with sections 8 and 9 of this regulation.

No quantity or preparation premium (except as provided in this paragraph) may be charged for copper scrap or copper alloy scrap sold to an exporter.

[Section 11 amended by Amdt. 2]

SEC. 12. *Other premiums*—(a) *Exporter premiums.* In addition to the applicable ceiling base price determined in accordance with sections 8 and 9 of this regulation, an exporter of copper scrap or copper alloy scrap may charge the following premiums:

(1) The amount of any export packing or preparation premium, as provided for in paragraph (c) of section 11 of this regulation, paid to another person;

(2) An amount not to exceed 5 percent of the applicable ceiling base price.

No quantity or preparation premiums (except as provided in this paragraph) may be charged by an exporter.

(b) *Premiums for gold and silver content.* Any person who sells copper scrap or copper alloy scrap containing gold or silver to a refiner who customarily recovers such precious metals may charge a premium not exceeding the ceiling price for the gold and silver content of the scrap in addition to the applicable ceiling price otherwise established in this regulation.

SEC. 13. *Ceiling delivered prices.* The ceiling delivered price for copper scrap or copper alloy scrap is the applicable ceiling base price, f. o. b. point of shipment, determined in accordance with sections 8 and 9 of this regulation, plus the applicable premiums determined in accordance with sections 10, 11 and 12 of this regulation, plus whichever of the following transportation charges is applicable:

(a) When delivery is made to the buyer's receiving point by a public (common or contract) carrier, an amount not in excess of the actual charge (including transportation taxes) made by such carrier;

(b) When delivery is made to the buyer's receiving point by a vehicle owned or controlled by the seller, an amount not in excess of the lowest published and applicable motor common carrier charge (not including transportation taxes) for transporting the quantity of copper scrap or copper alloy scrap being priced from the point, or points, of shipment to the buyer's receiving point. In the case of a series of deliveries which qualifies for a quantity premium, the published and applicable motor common carrier charge shall be determined on the basis of the total quantity involved even though separate deliveries are made in lesser quantities, and such charge shall be prorated over the quantities contained in each delivery.

SEC. 14. *Definitions.* When used in this regulation, the term:

(a) "Briquette" means any power compressed, self-adhering bundle whose measurements do not exceed 16 x 10 x 12 inches.

(b) "Consumer" includes any person whose business consists, in whole or in part, of smelting, refining, melting, or otherwise processing copper scrap or copper alloy scrap into a form other than scrap or having such scrap so processed for his account by another person under a toll or conversion agreement. Any parent or subsidiary of a consumer and any person owned, operated, affiliated with, under common control with, or otherwise controlled by an officer, director, partner, or proprietor of a consumer, shall also be considered to be a consumer for the purposes of this regulation even though such person may act as dealer.

(c) "Copper alloy scrap" refers to the grades of scrap listed in Group II in Table A.

(d) "Copper bearing material" includes ashes, skimmings, buffings, grindings, spatters, washings, mud and all other similar residues which contain copper. It also includes irony brass and any similar material which does not meet the specifications for any grade of copper scrap or copper alloy scrap.

(e) "Copper scrap" refers to the grades of scrap listed in Group I in Table A.

(f) "Crucible shape" means clean scrap of uniform grade in lengths not exceeding 16 inches, containing no free iron or other harmful material, and suitable for direct use by the consumer without further preparation.

(g) "Dealer" means any person whose business includes the acquisition of any material for the purpose of sale as waste, scrap or salvage materials.

(h) "Dealer affiliated with a consumer" means a dealer who is the parent or subsidiary of a consumer, who is owned or operated by, or under common control with, a consumer, or who is owned, operated, or controlled by an officer, director, or partner of a consumer. It also includes any dealer who owns or operates a consumer or who has an officer, director, or partner who owns, operates, or controls a consumer.

(i) "Dry Copper Content" means the copper content as determined by electrolytic assay less 1.3 units (26 pounds of copper per net ton of material).

(j) "Exporter" means a person who last sells copper scrap or copper alloy scrap which is transported from a point in the United States, its Territories and Possessions to a point outside thereof.

(k) "Importer" means a person who first sells copper scrap or copper alloy scrap which is transported, either before or after such sale, from a point outside the United States, its Territories and Possessions to a point inside thereof.

(l) "Industrial producer" means any person engaged in manufacturing, fabricating, repairing, mining, or refining or in furnishing communication or transportation services, who produces copper scrap or copper alloy scrap as a by-product of such operations or from obsolescence.

(m) "Person" includes an individual, corporation, partnership, association, or any other organized group of persons, or legal successor or representative of any of the foregoing; the United States or any agency thereof, or any other government or any of its political subdivisions or any agency of any of the foregoing.

(n) "Point of shipment" means the point from which copper scrap or copper alloy scrap is loaded on a conveyance for shipment to buyer's receiving point. In the case of copper scrap or copper alloy scrap sold by an importer and delivered into the continental United States, its Territories or Possessions by water, the point of shipment means the place within the continental United States, its Territories or Possessions where the material is loaded on a conveyance for transportation directly to the buyer's receiving point. In the case of copper scrap or copper alloy scrap sold by an

importer and transported to the buyer overland from Mexico or Canada the point of shipment means the freight station in the United States at or nearest the point at which the material first enters the United States.

(o) "Scrap" includes all materials which are the waste or by-product of any kind of metal working or by-processing and articles which have been discarded on account of obsolescence, failure, or other reasons. It does not include copper bearing materials, nor does it include articles which are still useful in their existing state when sold and purchased for re-use in such state.

SEC. 15. *Excise, sales and similar taxes.* Any person may collect, in addition to the ceiling prices established by this regulation, any excise, sales or similar tax imposed upon him by reason of his sales of scrap covered by this regulation if he is not prohibited by law from making such collection and if he states separately from his selling price the tax collected.

SEC. 16. *Record-keeping requirements.* Every person purchasing or selling the scrap materials covered by this regulation shall keep for inspection by the Director of Price Stabilization, for a period of two years, complete and accurate records of each purchase and sale showing: The date thereof, the name and address of the seller and buyer; the quantity and analysis of each grade of copper scrap or copper alloy scrap sold or purchased; the price charged or paid, f. o. b. point of shipment, for each such grade of scrap; the premiums, if any, charged or paid; the point, or points, of shipment and the buyer's receiving point; and the disposition of transportation charges.

SEC. 17. *Penalties.* Persons violating any of the provisions of this regulation shall be subject to the criminal penalties, civil enforcement actions and suits for damages provided for in the Defense Production Act of 1950.

SEC. 18. *Petitions for amendment.* Any person seeking an amendment of any provision of this regulation may file a petition for amendment in accordance with the provisions of Price Procedural Regulation No. 1.

NOTE: All record-keeping and reporting provisions of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Report Act of 1942.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.
By JOSEPH L. DWYER,
Recording Secretary.

[Ceiling Price Regulation 61, Collation 1]

CPR 61—EXPORTS

COLLATION 1—INCLUDING AMENDMENTS 1–4

Ceiling Price Regulation 61 is republished to incorporate the texts of Amendments 1 through 4, inclusive. Ceiling Price Regulation 61 was issued July 30, 1951 (16 F. R. 7597). Statements of Consideration for Ceiling Price Regulation 61, and for Amendments 1–4, inclusive, as previously published, are applicable to this republication. The effective dates of this regulation, and of the amendments, are shown in a note preceding the first section of the regulation.

REGULATORY PROVISIONS

ARTICLE I—SCOPE OF REGULATION

Sec.
1. What this regulation does.

AUTHORITY: Sections 1 to 16 issued under 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110. E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

DERIVATION: Sections 1 to 16 contained in Ceiling Price Regulation 61, July 30, 1951 (16 F. R. 7597), except as otherwise noted in brackets following text affected.

EFFECTIVE DATES: CPR 61, August 6, 1951, "or any earlier date at which you file information in accordance with section 5 (d)" (16 F. R. 7597).

Amendment 1, August 28, 1951, 16 F. R. 8798.

Amendment 2, January 16, 1952, 17 F. R. 390, 721.

Amendment 3, November 22, 1952, 17 F. R. 10509.

Amendment 4, November 22, 1952, 17 F. R. 10545.

ARTICLE I—SCOPE OF REGULATION

SECTION 1. *What this regulation does.* This regulation provides a formula for computing ceiling prices for commodities which are exported or sold for export from the continental United States.

[Section 1 amended by Amdt. 2]

SEC. 2. *Applicability and prohibitions*—(a) *Applicability.* This regulation is applicable to the exportation of commodities from the continental United States. Exports from a territory or possession of the United States are not covered by this regulation, as amended. Such exports from a territory or possession are subject to the General Ceiling Price Regulation unless they are now, or until they are hereafter, covered by a numbered ceiling price regulation.

This regulation applies to all export sales and sales for export except those sales specifically exempt from price control under any regulation issued by the Director of Price Stabilization. However, the provisions of the following enumerated regulations and of all subsequent regulations will continue in effect insofar as they expressly may apply to export sales or sales for export:

Section 14 of the General Ceiling Price Regulation; Supplementary Regulation 8 to the General Ceiling Price Regulation, dealing with coal exporters; Supplementary Regulation 9 to the General Ceiling Price Regulation, dealing with export commitments entered into before February 2, 1951; Supplementary Regulation 34 to the General Ceiling Price Regulation, dealing with beef sausage; Ceiling Price Regulation 5 on iron and steel scrap; Ceiling Price Regulation 8 on upland cotton; Ceiling Price Regulation 19 on tungsten concentrates; Ceiling Price Regulation 24 on wholesale beef; Ceiling Price Regulation 28 on new cotton, linen and underwear cuttings; Ceiling Price Regulation 29 on scrap materials containing nickel; Ceiling Price Regulation 33 on tungsten products; Ceiling Price Regulation 36 on used steel drums; Ceiling Price Regulation 43 on zinc scrap; Ceiling Price Regulation 46 on copper and copper alloy scrap; Ceiling Price Regulation 47 on brass mill scrap; Ceiling Price Regulation 49 on wood pulp; Ceiling Price Regulation 53 on lead scrap; Ceiling Price Regulation 54 on aluminum scrap; Ceiling Price Regulation 59 on scrap rubber; and Ceiling Price Regulation 74 on pork sold at wholesale.

(b) *Prohibitions.* On and after the effective date of this regulation, (1) you shall not export or sell for export any commodities covered by this regulation at prices higher than the ceiling prices fixed by this regulation; (2) you shall not buy or receive for export in the course of trade or business any commodity covered by this regulation at prices higher than the ceiling prices fixed by this regulation; and (3) you shall not agree, offer, solicit or attempt to do anything prohibited in this regulation. Nothing in this regulation shall prohibit your use of any customary and reasonable invoicing practice: *Provided,* That (i) you do not retain for your own account, directly or indirectly, any amount in excess of the ceiling price allowed under this regulation and (ii) you first obtain written approval from the OPS National Office for the invoicing to your foreign buyer's customer or anyone else of a price which exceeds your ceiling price under this regulation.

(c) *Sales between companies under common control.* Except in respect to companies integrated or related solely for the purposes of the Webb-Pomerene Act (Act of April 10, 1918, c. 50, 40 Stat. 516; 15 U. S. C. sec. 61–65) this regulation permits integrated or related companies, which are domiciled in the continental United States, when the companies are either directly or indirectly under common control, or when their relationship is that of parent and subsidiary to: (1) Notify the OPS National Office in writing that they choose to consider all of such integrated or related companies as a unit so that inter-company transactions will not be subject to the provisions of this regulation; or (2) continue such inter-company transactions on the same basis as though each company in the group were independent and in all respects subject to the provisions of this regulation. If integrated or related companies choose option (1) under this section then this regulation applies to the sale or shipment by such integrated or related companies to the first subsidiary, related or independent company or buyer, domiciled outside the continental United States.

[Paragraph (c) added by Amdt. 2, as corrected]

[Section 2 amended by Amdt. 2]

ARTICLE II—PRICING METHOD

SEC. 3. *Formula for export sales*—(a) *Merchant exporters.* If you are a merchant exporter, your ceiling price on the export sale of any commodity covered by this regulation to any class of buyer shall be either (1) the domestic ceiling price of your supplier applicable to you at point of delivery, plus a percentage markup used in the base period, January 1, 1949–June 30, 1950, calculated in accordance with section 5 of this regulation, or (2), your domestic ceiling price to a buyer of the same class. You may add to either of these prices, the costs of exportation incurred by you in connection with such sale.

If you made no base period sales of the commodity or product line you are pricing to buyers of the class for which you are pricing, your base period percentage markup, when allowed under this section, shall be calculated in accordance with, and otherwise be subject to, section 6 of this regulation.

[Paragraph (a) amended by Amdt. 2]

(b) *Producer exporters.* (1) If you are a producer exporter, your ceiling price for the export sale of any commodity covered by this regulation to any class of foreign buyer, shall be either your domestic ceiling price, at point of delivery, applicable to a sale of the commodity for domestic consumption to a buyer of the same class as the buyer for which you are pricing, or your domestic ceiling price, at point of delivery, to your largest buying class of domestic purchaser. To the domestic ceiling price chosen by you, add a percentage markup used in the base period January 1, 1949, to June 30, 1950, inclusive, calculated in accordance with section 5 of this regulation, plus costs of exportation actually incurred by you in connection with such sale. If you made no base period sales of the commodity or product line you are pricing to foreign buyers of the class for which you are pricing, your markup shall be calculated in accordance with section 5 of this regulation but shall be based on other base period sales as provided for in section 6 of this regulation.

[Subparagraph (1) amended by Amdt. 1]

(2) If you are a producer exporter who sells the commodity you are pricing exclusively in the export trade, and you have no domestic ceiling price for it, you shall determine your export ceiling price in one of the following ways:

(i) You may use your export ceiling price under the General Ceiling Price Regulation as part of your export ceiling price under Ceiling Price Regulation 61; or

(ii) You may use a substitute price in lieu of a domestic ceiling price for the purpose of calculating your export ceiling price under CPR 61. This substitute domestic price shall be determined in accordance with the General Ceiling Price Regulation, or any other price regulation applicable to producers of the commodity you are selling, even though you are not pricing, and do not intend pricing any commodity for domestic sales under that regulation. To this substitute domestic price you may add a markup established in accordance with section 6, as well as the costs of exportation incurred by you in connection with such a sale.

Before you sell at the export ceiling price determined above under this section, you must apply in writing to the Office of Price Stabilization, Export-Import Branch, Washington 25, D. C., setting forth fully the price (including GCPR or substitute domestic) and the method and regulation used to establish it. Unless your proposed export ceiling price is rejected by the Office of Price Stabilization within ten days of the postmarked date of your letter, you may proceed with sales until advised to the contrary. If you have, on January 16, 1952, an export ceiling price approved under this regulation for a commodity sold by you exclusively in the export trade, you may continue to use that ceiling price until you establish another price under this section.

[Subparagraph (2) amended by Amdt. 2]

SEC. 4. *Formula for sales for export*—(a) *Merchant exporters.* If you are a merchant exporter (seller) your ceiling price on the sale for export of any commodity covered by this regulation and sold by you also in the domestic market shall be your domestic ceiling price at point of delivery to a buyer of the same class as the merchant exporter (buyer) for which you are pricing. If the commodity is sold by you exclusively in the export trade, your ceiling price may include either (1) your cost of acquisition plus a markup computed under section 5, or (2) your domestic ceiling price at point of delivery if you were to make a domestic sale to a buyer of the same class as the merchant exporter for which you are pricing. You may add to any of the above prices, the costs of exportation incurred by you in connection with such sale. This paragraph is strictly limited by the provisions of section 7 (*Restrictions on multiple handling*) which you should read together with this paragraph.

(b) *Producer exporters.* (1) If you are a producer exporter, your ceiling price for the sale for export of any commodity covered by this regulation may include your domestic ceiling price at point of delivery to a buyer of the same class as the merchant exporter for which you are pricing, plus a percentage markup used in the base period and calculated under section 5. You may add to this price the costs of exportation incurred by you in connection with such sale.

(2) If you are a producer exporter who sells the commodity you are pricing exclusively in the export trade, and you have no domestic ceiling price for it, you shall determine your ceiling price on a sale for export in one of the following ways:

(i) You may use your ceiling price on sales for export under the General Ceiling Price Regulation as part of your ceiling price on sales for export under Ceiling Price Regulation 61; or

(ii) You may use a substitute price in lieu of a domestic ceiling price for the purpose of calculating your ceiling price on sales for export of the commodity. This substitute domestic ceiling price shall be determined under the General Ceiling Price Regulation or any other price regulation applicable to producers of the commodity you are selling, even though you are not pricing, and do not intend pricing any commodity for domestic sales under that regulation. To this substitute price you may add a markup established in accordance with section 6, as well as the costs of exportation incurred by you in connection with such sale.

Before you sell at the export price determined above under this section, you must apply in writing to the Office of Price Stabilization, Export - Import Branch, Washington 25, D. C., setting forth fully the price (including GCPR or substitute domestic) and the method and regulation used to establish it. Unless your proposed price on a sale for export is rejected by the Office of Price Stabilization within ten days of the postmarked date of your letter, you may proceed with sales until advised to the contrary. If you have, on January 16, 1952, a ceiling price on your sales for export approved under this regulation for a commodity sold by you exclusively in the export trade, you may continue to use that price until you establish another ceiling price under this section.

[Section 4 amended by Amdt. 2]

SEC. 5. *Calculation of base period percentage export markup.* (a) If you are a merchant exporter or a producer exporter and are entitled to a base period percentage markup under the provisions of section 3 or 4 of this regulation for the sale of a commodity covered by this regulation, such markup shall be calculated as set forth below. The markup derived for any product line shall be applied to each commodity falling within such product line (as defined in section 15 (b) (14)).

(1) You shall choose from the base period any representative calendar quarter you wish for each of the groups of commodities set forth in Schedule B of the Department of Commerce,—A Statistical Classification of Domestic and Foreign Commodities exported from the United States,—dated January 1, 1949, as supplemented. These groups are: Group 00—Animals and Animal Products, edible; Group 0—Animals and Animal Products, inedible; Group 1—Vegetable Food Products and Beverages; Group 2—Vegetable Products, inedible except Fibers and Wood; Group 3—Textile Fibers and Manufactures; Group 4—Wood and Paper; Group 5—Non-metallic Minerals; Group 6—Metals and Manufactures, except Machinery and Vehicles; Group 7 — Machinery and Vehicles; Group 8—Chemicals and Related Prod-

ucts; and Group 9 — Miscellaneous. However, you may use the same representative quarter for all, or any number of these groups. If you had no sales of the commodity or product line being priced during the representative quarter chosen by you for the group to which the commodity belongs, you shall take your sales for that commodity or product line in a quarter of the base period nearest in time to that representative quarter.

If you have, on January 16, 1952, a markup calculated in accordance with section 5 of this regulation, you may continue to use that markup. You may, however, re-calculate your markup, using the different quarters as authorized under this section.

If you recalculate or determine for the first time your markup under this section, your report to the Office of Price Stabilization under this regulation must identify the grouping as enumerated and described in this section.

[Subparagraph (1) amended by Amdt. 2]

(2) You determine from your records for a representative calendar quarter of the base period all of your sales of the type upon which your base period markup is to be calculated, i. e., either sales of the commodity or product line you are pricing to the class of buyer for which you are pricing, or sales of a kind you are permitted to use under the provisions of section 6 of this regulation.

(3) You then determine the total dollar sales value of all such sales for each commodity or product line.

(4) You then select, from such sales, any sale or sales which accounted for at least 25 percent of your total dollar sales value of all such sales, and calculate the weighted average percentage markup reflected in such sales over your base period cost of acquisition if you are a merchant exporter, or over your base period domestic selling price if you are a producer exporter, as illustrated in the example below. The result is your percentage markup for sales of the commodity or product line you are pricing to the class of buyer involved. (If you selected a single sale, which accounts for 25 percent or more of your total dollar sales value of such sales, you may use the percentage markup yielded by that single sale.)

(i) *Example:* Suppose the base period sales upon which you are calculating your markup under the provisions of this section were as follows:

Sale	Cost of acquisition or domestic selling price	Costs of exportation [1]	Markup	Export sales price	Percentage markup over cost of acquisition or domestic selling price	Percentage of total sales
No. 1	$200	$26.00	$24.00	$250	12	5
No. 2	325	39.25	35.75	400	11	8
No. 3	950	55.00	95.00	1,100	10	22
No. 4	1,090	61.90	98.10	1,250	9	25
No. 5	1,750	92.50	157.50	2,000	9	40
Total				5,000		

[1] Not to be included in determining the markup.

(ii) You may select sales # 1 and # 3 in order to determine the markup. You may not select either sale # 1 or sale # 3 alone, since neither sale alone accounts for twenty-five percent of the total dollar sales value of base period sales. Taking a weighted average of the percentage markups yielded by the two sales (sale # 1 yielding 12% or $24.00 and sale # 3 yielding 10% or $95.00), you obtain a base period percentage markup of 10.34% ($24.00+$95.00÷$1,150.00).

(b) In every case where you, whether merchant exporter or producer exporter, calculate for the first time the percentage markup you are going to use or do use in the export sale or sale for export of a commodity or product line covered by this regulation, you shall furnish the Office of Price Stabilization District Office in your area by registered letter with the following information in duplicate:

(1) The commodity or product line, including a list of the commodities in the product line;

(2) Whether you are a merchant exporter, or a producer exporter, or both, in respect to each commodity or product line listed;

(3) The class of buyer;

(4) Whether an export sale or sale for export;

(5) Your representative calendar quarter; and

(6) The percentage markup you are permitted to use under this regulation.

(7) If you are not permitted to take a markup, or it is not your present sales policy to take a permissible markup on your export sales or sales for export, you are nevertheless required to report this fact.

This information shall be reported within fifteen days after your first sale of the commodity or product line under this regulation, and may be provided on OPS Public Form No. 72 available at any office of the Office of Price Stabilization. Once you have furnished such information for the sale of a particular commodity or product line to a particular class of buyer, you need not again advise the Office of Price Stabilization with respect to your pricing of that type of sale.

[Paragraphs (b) and (c) deleted by Amdt. 2; Paragraph (d) redesignated (b) by Amdt. 2, amended by Amdt. 3]

SEC. 6. *Formula where no sales of the type being priced were made during the base period.* (a) If you, either merchant exporter or producer exporter, did not sell during the base period the commodity or product line you are pricing to the class of buyer for which you are pricing, and if you are entitled under the provisions of section 3 or 4 of this regulation to a markup on such sale, such markup shall be calculated in accordance with section 5 of this regulation but shall be based on base period sales of the type set forth below in the following order of preference:

(1) Base period sales of the commodity or product line you are pricing to buyers of the class most closely related to the class for which you are pricing.

(2) Base period sales of a "comparison commodity" or comparison product line to buyers of the class for which you are pricing.

(3) Base period sales of a comparison commodity or comparison product line to buyers of the class most closely related to the class for which you are pricing.

If you calculate your base period percentage markup by reference to one of the types of base period sales set forth above, you shall, before making sales of the commodity or product line you are pricing, advise the Office of Price Stabilization, Export-Import Branch, Washington 25, D. C., by registered letter, and in duplicate, of the markup you propose to use, showing in detail how it was computed and naming the comparison commodity or comparison product line and/or class of buyer with respect to which your markup was calculated. The information may be provided on a form available at Office of Price Stabilization offices. Unless this proposed markup is rejected by the Office of Price Stabilization within ten days of the postmarked date of your letter, you may proceed with sales until advised to the contrary.

(b) If you are unable to compute a markup for the commodity or product line you are pricing, under paragraph (a) of this section, or under any provisions of this regulation, you may apply in writing to the Office of Price Stabilization, Export-Import Branch, Washington 25, D. C., for the establishment of a markup which is in line with the markup currently prevailing in the trade. Your application shall contain (1) an explanation of why you are unable to compute a markup under this regulation; (2) a complete description of the commodity or product line; (3) the type of sale being priced (i. e., export sale or sale for export) including the class of buyer involved; (4) the nature of your business; (5) the markup, if any, currently prevailing in the trade for the commodity or product line and how you determined this markup to be the one prevailing; and (6) your proposed markup for the commodity or product line, together with an explanation of the method by which it was computed. The information may be provided on a form available at Office of Price Stabilization offices. Unless this proposed markup is rejected by the Office of Price Stabilization within ten days of the postmarked date of your letter, you may proceed with sales until advised to the contrary.

ARTICLE III—GENERAL PROVISIONS

SEC. 7. *Restrictions on multiple handling.* If you are a merchant exporter making a sale for export of a commodity purchased by you from another merchant exporter, you may not sell at a markup over your domestic ceiling price or your cost of acquisition, whichever is higher, except upon approval of your application for such a markup by the Office of Price Stabilization, Export-Import Branch, Washington 25, D. C. This application shall set out your proposed new ceiling price (including a separate statement of your cost of acquisition, your domestic ceiling price and your proposed markup) and a full justification for your proposed new ceiling price. The Office of Price Stabilization will not allow such markups in the absence of a very clear showing of necessity which is also supported by the customary and reasonable past practice of the applicant.

[Section 7 amended by Amdt. 2]

SEC. 8. *Transfer of business or stock in trade.* If the business, assets, or stock in trade of any business are sold or otherwise transferred after June 30, 1950, and the transferee carries on the business in whole or in part, or continues to deal in the same type of commodities, the markups of the transferee shall be the same as those to which the transferor would have been entitled if no such transfer had taken place, and his obligation to keep records sufficient to verify such prices shall be the same. The transferor shall either preserve and make available, or turn over to the transferee all records of transactions prior to the transfer which are necessary to enable the transferee to comply with the record provisions of this regulation.

SEC. 9. *Refunds of duties and taxes.* If you are a producer exporter or a merchant exporter, and are computing a ceiling price under section 3 or 4 of this regulation for export sales or sales for export of any commodity covered by this regulation, to the extent provided herein you shall in the case of the producer exporter, subtract from your applicable domestic ceiling price f. o. b. your plant, and in the case of the merchant exporter subtract from the domestic ceiling price of your supplier or from your domestic ceiling price:

(a) The amount of any estimated drawback or refund of import duties or excise taxes less the cost incurred in obtaining such amount;

(b) The amount of any excise tax not paid upon a commodity to be exported or sold for export but included in your applicable domestic ceiling price, if you are a producer exporter, or in your domestic ceiling price, or in the domestic ceiling price of your supplier if you are a merchant exporter;

(c) *Provided, however,* That if it was your established and uniform practice during the base period to receive any of the above refunds or taxes for your own account without reducing your export prices accordingly, you may continue to receive them in accordance with such established and uniform practice.

[Section 9 amended by Amdt. 2]

SEC. 10. *Records.* (a) You shall preserve and keep available for examination by the Office of Price Stabilization for so long as the Defense Production Act is in effect and for two years thereafter those records showing how you determined the export markup you charged during the base period, and those records in your possession showing customary price differentials, and the conditions of sale, which you had in effect during the base period.

(b) You shall prepare and keep available for examination by the Office of Price Stabilization for a period of two years records showing for each sale or contract the commodity, the date, the names of the parties thereto, and the prices charged, together with any other records you customarily keep. If you are a merchant exporter, you must also maintain records showing the cost of the commodity or product line to you and the costs of exportation.

SEC. 11. *Exemptions and suspensions.* (a) This regulation does not apply:

(1) To sales of commodities for which export ceiling prices will hereafter be specifically established under other regulations or supplements; or

(2) To sales of commodities which are suspended or exempted from price control by regulation of the Office of Price Stabilization irrespective of whether such regulation is by its terms applicable or inapplicable to export transactions. Such suspension or exemption shall be applicable to the same extent to similar sales covered by CPR 61 as though the suspension or exemption in such other regulation were specifically applicable to export sales and sales for export. For example, if price controls are suspended under another regulation for domestic sales of a commodity by manufacturers, then export sales and sales for export of such commodity by manufacturers or producer-exporters are suspended from price control under CPR 61; if such suspension is applicable to domestic sales by wholesalers, then export sales and sales for export by wholesalers or merchant exporters are suspended from price control under CPR 61. In exclusion of a seller or commodity from the coverage of a regulation because that seller or commodity is covered by another regulation does not constitute a suspension or exemption from price control within the meaning of this section.

[Paragraph (a) amended by Amdt. 4]

(b) Nothing in this regulation shall operate to prevent the performance of a written contract for the export sale of a commodity entered into prior to July 30, 1951, and executed in compliance with the provisions of any validly existing regulation or order of the Office of Price Stabilization, provided that delivery is made on or before December 31, 1951.

(c) This regulation does not apply to export sales of any commodity by the United States Government or any agency thereof.

(d) This regulation does not apply to export sales of commodities which have been transported into the United States for transshipment abroad and which do not enter into the domestic commerce of the United States and which are either:

(1) Entered at Customs in transit on a "Transportation and Exportation (TE) entry" or on an "Exportation (Exp.) entry", or

(2) Stored in transit in a Customs bonded warehouse or stored in a foreign trade zone.

(e) This regulation does not apply to export sales of a commodity which has been processed or manufactured in bond under Customs supervision exclusively from imported materials, which is not withdrawn from bond for domestic consumption in the United States, and which is subsequently exported.

(f) This regulation does not apply to export sales of a commodity manufactured or produced from imported textiles or imported metals: *Provided,* (1) That the constituent imported components thereof make up not less than 90 percent by weight or unit of the exported commodity, and (2) that the Customs Drawback Regulations (Part 22, Customs Regulations of 1943) are complied with in all respects.

(g) The provisions of this section referring to export sales also apply to sales for export.

[Paragraph (g) added by Amdt. 2]

SEC. 12. *Evasion.* Any practice which results in obtaining indirectly a higher price than is permitted by this regulation is a violation of this regulation. Such practices include, but are not limited to, devices making use of commission, services, cross sales, transportation arrangements, premiums, discounts, special privileges, tie-in agreements or combination sales, and trade understandings.

SEC. 13. *Enforcement.* If you violate any provision of this Ceiling Price Regulation you are subject to the criminal penalties, civil enforcement actions, and suits for treble damages provided for by the Defense Production Act of 1950.

SEC. 14. *Petitions for amendment.* If you wish to have this regulation amended, you may file a petition for amendment in accordance with the provisions of Price Procedural Regulation 1, Revised (16 F. R. 4974).

SEC. 15. *Definitions.* The terms used in this Ceiling Price Regulation shall be construed in the following manner:

(a) *Sellers and buyers*—(1) *"Producer exporter."* This term means a person who manufacturers, or produces the commodity he exports or sells for export. A person shall, moreover, be considered a producer exporter if the commodity he sells is manufactured either: (i) By another for his account and to his specification, or (ii) by a parent company, by a controlled producer subsidiary, or by any producer company, controlled directly or indirectly by a common parent.

(2) *"Merchant exporter."* This term means a person who is not a producer exporter but who in the normal course of business exports commodities purchased by him for his own account.

(3) *"Exporter."* This term means any person selling a commodity, either directly or through an agent, for delivery or shipment to any place outside the continental United States.

(4) *"Class of buyer."* This term means that group of persons to which you sell commodities covered by this regulation and which you distinguish from other groups of buyers with respect to quantity purchased or trade function. In the case of an export sale, the only permissible groupings according to trade function shall be: the United States Gov-

ernment or its agencies; foreign governments or their agents, including foreign government purchasing missions; industrial end users; distributors; wholesalers; retailers; individual consumers; and American firms purchasing for use in foreign field operations. In the case of a sale for export, the only permissible grouping according to function in the trade shall be merchant exporters.

[Paragraph (a) amended by Amdt. 2]

(b) *Pricing*—(1) *"Domestic ceiling price of your supplier at point of delivery."* This phrase means the highest price at the point of delivery which a merchant exporter may, under applicable ceiling price regulations governing domestic sales, pay his supplier for a commodity which the merchant exporter subsequently exports or sells for export.

(2) *"Base period percentage markup."* This term means a percentage markup calculated in accordance with section 5 of this regulation based on sales during the base period, and representing, in the case of a producer exporter, the differential between base period domestic and export selling prices exclusive of costs of exportation for a commodity or product line, and in the case of a merchant exporter, the base period margin between his costs of acquiring a commodity or product line for exportation purposes and his export selling price therefor exclusive of costs of exportation.

(3) *"Commodity."* This term means materials, articles, products, supplies, and their components.

(4) *"Product line."* This term means all goods of the same general character and use which are normally classed together in your business for purposes of accounting or sales. You may, for example, have your product line, under this regulation, include a line of goods such as one of the following: Cups selling at $0.10–$0.50, all cups, all cups and saucers, all chinaware. You shall list, in your report to the Office of Price Stabilization, all the commodities included in the product line.

[Subparagraph (4) amended by Amdt. 2]

(5) *"Comparison commodity."* This term means a commodity exported or sold for export by you during the base period, which has general characteristics and use similar to those of the commodity you are pricing. Of the commodities having these same general characteristics and use, choose the commodity having a current unit direct cost closest to that of the commodity you are pricing.

(6) *"Base period domestic selling price."* This term means your (producer exporter's) domestic selling price during the base period (to the same class of buyer of the commodity). This domestic selling price must be the one you were using at the time of each export sale or sale for export on the basis of which you calculate your markup under section 5 of this regulation.

[Subparagraph (6) amended by Amdt. 2]

(7) *"Base period cost of acquisition."* This term means the actual cost to you, a merchant exporter, during the base period, of the commodity for which you are calculating your markup under section 5 of this regulation.

(8) *"Costs of exportation."* This term includes costs other than sales commissions actually incurred in or in connection with the export sale or sale for export of a commodity, over and above those incurred and included in the applicable domestic ceiling price if the commodity were sold for domestic consumption, including but not limited to the following: (i) Export packaging, (ii) local drayage, including waiting time at the dock, loading and unloading, tollage, switching, dumping, and trimming, lighterage and wharfage, (iii) inland freight in the continental United States and in the country of delivery (at the export rate where applicable), (iv) ocean freight, (v) insurance, (vi) consular fees, blanks and certification, (vii) demurrage, (viii) costs incurred for storage at the port of exit while awaiting shipment, provided the goods remain packed in the same form as they are to be exported, and have been stored in a warehouse or other storage facilities not owned or controlled by the exporter, (ix) fees paid to a freight forwarder not owned or controlled by the exporter, (x) bank collection charges, (xi) servicing, installing, inspection fees or special engineering costs either before or after exportation, and (xii) foreign taxes.

(9) *"Buyers of the class most closely related to the class for which you are pricing."* This phrase means the class of buyer to which you sold, during the base period, the commodity or product line you are pricing or a comparison commodity, and which is most similar to the class of buyer for which you are pricing, considering trade function, the terms of purchase and the quantity of the order.

(10) *"Your domestic ceiling price at point of delivery."* This phrase means the highest price at which you, a producer exporter, may, under applicable ceiling price regulations governing domestic sales of the commodity you are pricing for export, sell such commodity for domestic consumption at the point of delivery.

(c) *General*—(1) *"Base period."* This term means the period from January 1, 1949, to June 30, 1950, inclusive.

(2) *"Ceiling price."* This term means the highest price at which an export sale or sale for export of a commodity covered by this regulation may be made.

(3) *"General Ceiling Price Regulation."* This term means the General Ceiling Price Regulation issued on January 26, 1951, by the Office of Price Stabilization, as amended and supplemented.

(4) *"You or person."* This term includes any individual, corporation, partnership, cooperative association, or any other organized group of persons, or legal successors or representatives of the foregoing, and the United States or any government or their political subdivisions or agencies. The term corporation includes the parent company, any controlled subsidiary or any company controlled, directly or indirectly, by a common parent. Control (in respect to affiliated companies or business operations) means the ownership, directly or indirectly, of 50 percent or more of the voting rights or beneficial interest in two or more of such companies or business operations.

[Subparagraph (4) amended by Amdt. 2]

(5) *"Records."* This term includes but is not limited to books of account, sales lists, sales slips, orders, vouchers, contracts, receipts, invoices, bills of lading, and other papers and documents.

(6) *"Exportation."* This term means the delivery or shipment of a commodity, either directly or through an agent, from the United States or a territory or possession of the United States to any place outside the continental United States or a territory or possession of the United States.

(7) *"Export sale."* This term means a sale of a commodity for direct shipment to a buyer outside the continental United States without resale in the continental United States. Sales to a foreign government purchasing mission, or to an American firm purchasing for use in its foreign field operations shall be considered to be export sales.

[Subparagraph (7) amended by Amdt. 2]

(8) *"Sale for export."* This term means a sale of a commodity to a buyer located in the continental United States if the commodity is destined for export sale by the buyer.

[Subparagraph (8) amended by Amdt. 2]

SEC. 16. *Reports.* Copies of forms that may be used in filing under this regulation may be obtained from any Regional or District Office of the Office of Price Stabilization.

NOTE: The record-keeping and reporting requirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.
BY: JOSEPH L. DWYER,
Recording Secretary.

[F. R. Doc. 52-13087; Filed, Dec. 9, 1952; 12:14 p. m.]

[General Overriding Regulation 9, Amdt. 29]

GOR 9—EXEMPTIONS OF CERTAIN INDUSTRIAL MATERIALS AND MANUFACTURED GOODS

EXEMPTIONS OF SALES OF BOWLING ALLEYS, AND BOWLING ALLEY EQUIPMENT AND ACCESSORIES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 29 to General Overriding Regulation 9, is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to General Overriding Regulation 9 (GOR 9), exempts from price control the sales by manufacturers and resellers of bowling alleys, and bowling alley equipment and accessories, as well as their services of installing these commodities. A companion action under General Overriding Regulation 14 also generally exempts the services of installing, maintaining, or repairing these commodities.

The Defense Production Act of 1950, as amended, specifically exempts from control the fees charged by bowling alley operators for bowling. It must accordingly be concluded that the cost of bowling is not significant in the cost of living, or the cost of the defense program. Further, there is no likelihood that this action in the decontrol of the sales of bowling alleys and related services will affect the sales or prices of other commodities or services through diversion of materials, labor, or production facilities.

In addition, a preliminary survey indicates that regulatory action might be required under the industry earnings standard. In the circumstances, the continued control over this area involves administrative difficulties disproportionate to its economic significance.

Since their own charges are exempt from price control, the bowling alley operators, who purchase these commodities and services, will not be subjected to a "squeeze" between their costs and the prices they are permitted to charge.

This exemption was proposed after the Director of Price Stabilization consulted with representatives of various firms in the industry and gave consideration to their recommendations.

AMENDATORY PROVISIONS

General Overriding Regulation 9 is amended in the following respects:

SEC. 2 (a) is amended by adding a new subparagraph to read as follows:

(30) *Bowling alleys, equipment and accessories.* Sales and installation services by manufacturers and resellers of bowling alleys, bowling alley equipment and bowling alley accessories. "Bowling alley equipment and accessories," includes but is not limited to pinsetters, ball lifts, ball return racks, gutters, bowler settees, bowling balls, etc.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2145)

Effective date. This General Overriding Regulation is effective December 9, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

DECEMBER 9, 1952.

[F. R. Doc. 52-13088; Filed, Dec. 9, 1952; 12:14 p. m.]

[General Overriding Regulation 14, Amdt. 28]

GOR 14—EXCEPTED SERVICES

INSTALLATION, REPAIR AND MAINTENANCE OF BOWLING ALLEYS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 28 to General Overriding Regulation 9, is hereby issued.

STATEMENT OF CONSIDERATIONS

This action complements the amendment to General Overriding Regulation 9 (Exemptions of certain industrial materials and manufactured goods), which exempts the sales and installation of bowling alleys by manufacturers and resellers of such commodities.

The reasons set forth in the statement of considerations accompanying the amendment to GOR 9 are applicable to this amendment to GOR 14, and is accordingly incorporated herein by reference as if it were a part hereof.

AMENDATORY PROVISIONS

General Overriding Regulation 14 is amended in the following respects:

Paragraph (a) of sec. 3 is amended by adding a new subparagraph to read as follows:

(115) Installation, maintenance, and repair of bowling alleys and bowling alley equipment and accessories. "Bowling alley equipment and accessories" includes, but is not limited to pin setters, ball lifts, ball return racks, gutters, bowler settees, bowling balls, etc.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2145)

Effective date. This General Overriding Regulation is effective December 9, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

DECEMBER 9, 1952.

[Priorities and Allocations Order 1, Amdt.]

PA 1—PROCEDURE GOVERNING APPLICATIONS FOR CONSTRUCTION AUTHORIZATION AND ALLOTMENTS UNDER CONTROLLED MATERIALS PLAN FOR HOUSING CONSTRUCTION

MISCELLANEOUS AMENDMENTS

Priorities and Allocations Order 1 issued April 22, 1952 (17 F. R. 3550) is hereby amended as follows:

1. The heading of section 4 is amended by deleting the word "review" and as amended reads as follows: "SEC. 4. *Actions on applications; reconsideration.*".

2. Section 4 (d) is herewith deleted.

3. Section 5 (a) is amended to read as follows:

SEC. 5. *Appeals; grounds.* (a) Any applicant adversely affected by the action taken on his application or request under NPA Order M-100 or Revised CMP Regulation No. 6 may file an appeal with the CMP Appeals Board of the Housing and Home Finance Agency after such action has been taken, initially or upon reconsideration. No new or additional facts may be submitted upon such appeal unless requested by the Board.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective as of the 10th day of December 1952.

[SEAL] RAYMOND M. FOLEY,
Housing and Home Finance Administrator.

Chapter XXI—Office of Rent Stabilization, Economic Stabilization Agency

[Rent Regulation 1, Amdt. 98 to Schedule A]

[Rent Regulation 2, Amdt. 96 to Schedule A]

RR 1—HOUSING

RR 2—ROOMS IN ROOMING HOUSES AND OTHER ESTABLISHMENTS

SCHEDULE A—DEFENSE-RENTAL AREAS

PENNSYLVANIA

Effective December 9, 1952, Item 267 in Schedule A of Rent Regulation 1 and Rent Regulation 2 is amended as set forth below.

(Sec. 204, 61 Stat. 197, as amended; 50 U. S. C. App. Sup. 1894)

Issued this 5th day of December 1952.

JAMES MC I. HENDERSON,
Director of Rent Stabilization.

In Item 267 (Pittsburgh Defense-Rental Area) that part of the description of the county or counties in the defense-rental area under regulation which pertains to Allegheny County and begins with the words "and all unincorporated localities in Allegheny County, except —" is amended to read as follows: "and all unincorporated localities in Allegheny County, except those in the townships of Crescent, Franklin, Moon, Mount Lebanon, Ohio, Penn, and Shaler, and the Boroughs of Bethel, Churchill, Elizabeth, Ingram, Rosslyn Farms, and Wilkinsburg;"

These amendments decontrol the following based on a resolution submitted under section 204 (j) (3) of the act:

The township of Moon in Allegheny County, Pennsylvania, a portion of the Pittsburgh Defense-Rental Area.

Director of Rent Stabilization.

(333) [Revoked and decontrolled.]

These amendments decontrol the Wichita Falls, Texas, Defense-Rental Area by reason of the joint determination and certification by the Secretary of Defense and the Director of Defense Mobilization, under section 204 (1) of the Housing and Rent Act of 1947, as amended, that the said Defense-Rental Area is no longer included within a critical defense housing area.

TITLE 33—NAVIGATION AND NAVIGABLE WATERS

Chapter II—Corps of Engineers, Department of the Army

PART 206—FISHING AND HUNTING REGULATIONS

CHESAPEAKE BAY, MD. AND VA., AND ITS NAVIGABLE TRIBUTARIES; FISHING STRUCTURES

Pursuant to the provisions of section 10 of the River and Harbor Act of March 3, 1899 (30 Stat. 1151; 33 U. S. C. 403), § 206.50 governing the construction and maintenance of fishing structures in Chesapeake Bay, Maryland and Virginia, and its navigable tributaries is amended by revising the fishing structure limits in Back River to conform to the newly dredged channel, as follows:

§ 206.50 *Chesapeake Bay, Md. and Va., and its navigable tributaries; fishing structures.* * * *

(g) *Norfolk District.* * * *

(3) *West side of Chesapeake Bay north from Old Point Comfort to York River, including Back River.*

PART 207—NAVIGATION REGULATIONS

YORK RIVER AND HAMPTON ROADS, CHESAPEAKE BAY, VA.; U. S. NAVY ANTITORPEDO NET AREAS

Pursuant to the provisions of section 7 of the River and Harbor Act of August 8, 1917 (40 Stat. 266; 33 U. S. C. 1), § 207.129 establishing restricted and prohibited areas governing the use and navigation of the waters adjacent to antitorpedo nets across the entrance to York River and in York River across the Thorofare and § 207.141 establishing restricted and prohibited areas governing the use and navigation of the waters of Chesapeake Bay adjacent to antitorpedo nets across the entrance to Hampton Roads are hereby prescribed, as follows:

§ 207.129 *York River, Va.; U. S. Navy antitorpedo net areas*—(a) *York River entrance*—(1) *The prohibited area.* The area is bounded as follows: Beginning at latitude 37°15′52.6″, longitude 76°23′33″; thence to latitude 37°13′42.2″, longitude 76°23′20.8″; thence easterly along the shore to Tue Point at latitude 37°13′45.1″, longitude 76°23′06″; thence to latitude 37°15′46.2″, longitude 76°23′18″; thence westerly along the shore of Jenkins Neck to the point of beginning.

(2) *The restricted area.* The area is bounded as follows: Beginning at latitude 37°14′57.2″, longitude 76°23′13″; thence to latitude 37°14′58.6″, longitude 76°22′53.2″; thence to latitude 37°14′16.2″, longitude 76°22′48″; thence to latitude 37°14′15.5″; longitude 76°23′08.6″; thence to the point of beginning.

(3) *The regulations.* (i) No vessel shall enter the prohibited area at any time without the permission of the Commandant, Fifth Naval District, or his authorized representative, except that when the gate in the net is open, vessels may pass through the prohibited area adjacent thereto, and in so doing shall be governed by the regulations in subdivision (ii) of this subparagraph.

(ii) Vessels may pass through but shall not remain in the restricted area. Anchoring, trawling, fishing, crabbing, and dragging are prohibited within the area, and no object attached to a vessel or otherwise shall be placed on or near the bottom.

(b) *York River, Thorofare entrance*—(1) *The restricted area.* The area is bounded as follows: Beginning at latitude 37°13′25″, longitude 76°25′14″; thence to latitude 37°13′25″, longitude 76°24′58″; thence southerly to and along the shore of Goodwin Island to latitude 37°13′15.2″, longitude 76°24′53″; thence westerly to latitude 37°13′15.2″, longitude 76°25′21″; thence along the shore of Goodwin Neck to the point of beginning.

(2) *The regulations.* (i) Vessels may pass through the restricted area in order to effect passage of the net, but shall not stop in the area.

(ii) Anchoring, trawling, fishing, crabbing, and dragging are prohibited within the area, and no object attached to a vessel or otherwise shall be placed on or near the bottom.

(c) *Enforcement.* This section shall be enforced by the Commandant, Fifth Naval District, Norfolk, Virginia, and such agencies as he may designate.

NOTE: Aids to navigation and other related data are shown on U. S. Coast Survey Charts 492, 494, 1222 and listed in detail in "Notice to Mariners" (N. M. 35, Aug. 30, 1952 (4317)). Mariners are referred to local "Notice to Mariners", C. G., Norfolk for any later changes.

§ 207.141 *Chesapeake Bay, Hampton Roads; U. S. Navy antitorpedo net areas*—(a) *The prohibited areas.* (1) Area "A" is bounded as follows: Beginning at latitude 37°01'10.5", longitude 76°17'40"; thence to latitude 37°01'-20.5", longitude 76°17'35.3"; thence to latitude 37°00'58", longitude 76°16'-07.3"; thence to latitude 37°00'27.5", longitude 76°15'58"; thence to latitude 37°00'24.5", longitude 76°16'12.5"; thence to latitude 37°00'49", longitude 76°16'19.5"; thence to the point of beginning.

(2) *Area "B".* Area "B" is bounded as follows: Beginning at latitude 37°00'13", longitude 76°16'09.6"; thence to latitude 37°00'16", longitude 76°15'54.7"; thence to latitude 37°00'00", longitude 76°15'49.8"; thence to latitude 36°58'14.2", longitude 76°16'23.2"; thence to latitude 36°58'17.3", longitude 76°16'37.5"; thence to latitude 37°00'00", longitude 76°16'05.2"; thence to the point of beginning.

(b) *The restricted area.* The restricted area is bounded as follows: Beginning at latitude 37°00'42.2", longitude 76°16'02.5"; thence to latitude 37°00'45.8", longitude 76°15'45.5"; thence to latitude 37°00'03.3", longitude 76°15'33"; thence to latitude 37°00'00", longitude 76°15'49.8"; thence to latitude 37°00'16", longitude 76°15'54.7"; thence to latitude 37°00'13", longitude 76°16'09.6"; thence to latitude 37°00'24.5, longitude 76°16'12.5"; thence to latitude 37°00'27.5", longitude 76°15'58"; thence to the point of beginning.

(c) *The regulations.* (1) No vessel shall enter either of the two prohibited areas at any time without the permission of the Commandant, Fifth Naval District, or his authorized representative.

(2) Vessels may pass through, but shall not remain in, the restricted area. Anchoring, trawling, fishing, crabbing, and dragging are prohibited within the restricted area, and no object attached to a vessel or otherwise shall be placed on or near the bottom.

(3) This section shall be enforced by the Commandant, Fifth Naval District, Norfolk, Virginia, and such agencies as he may designate.

NOTE: Aids to navigation and other related data are shown on U. S. Coast Survey Charts 400, 1222 and listed in detail in "Notice to Mariners" (N. M. 35, Aug. 30, 1952 (4315)). Mariners are referred to local "Notice to Mariners", C. G., Norfolk, for any later changes.

TITLE 42—PUBLIC HEALTH

Chapter I—Public Health Service, Federal Security Agency

Subchapter D—Grants

PART 53—GRANTS FOR SURVEY, PLANNING AND CONSTRUCTION OF HOSPITALS

SUBPART H—METHODS OF ADMINISTRATION OF THE STATE PLAN

CORRECTION

Subparagraph (1) of § 53.77 (c) as amended on October 31, 1952, 17 F. R. 9824 is corrected by inserting the word "laboratory" immediately following the word "laundry" so that said subparagraph reads as follows:

(1) That actual construction work will be performed by the lump sum (fixed price) contract method, that adequate methods of obtaining competitive bidding will be or have been employed prior to awarding the construction contract, either by public advertising or circularizing three or more bidders, and that the award of the contract will be or has been made to the responsible bidder submitting the lowest acceptable bid: *Provided, however,* That the purchase and installation of equipment which is unique to a hospital, as well as kitchen, laundry, laboratory, and pharmacy equipment, need not be considered construction work for the purpose of this section, except that if open competitive bidding is employed to obtain any or all of these items, the award shall be made to the responsible bidder submitting the lowest acceptable bid.

PROPOSED RULE MAKING

DEPARTMENT OF LABOR

Wage and Hour Division

[29 CFR Part 706]

PUERTO RICO: ALCOHOLIC BEVERAGE AND INDUSTRIAL ALCOHOL INDUSTRY

BEER DIVISION; MINIMUM WAGE RATE

On May 8, 1952, pursuant to section 5 of the Fair Labor Standards Act of 1938, as amended, hereinafter called the act, the Administrator of the Wage and Hour Division, United States Department of Labor, by Administrative Order No. 421, as amended by Administrative Order No. 422, dated June 3, 1952, appointed Special Industry Committee No. 12 for Puerto Rico (hereinafter called the "Committee") and directed the Committee to investigate conditions in a number of industries in Puerto Rico specified and defined in the order, including the beer division of the alcoholic beverage and industrial alcohol industry in Puerto Rico (hereinafter called the beer division), and to recommend minimum wage rates for employees engaged in commerce or in the production of goods for commerce in such industries.

For purposes of investigating conditions in and recommending minimum wage rates for the beer division of the alcoholic beverage and industrial alcohol industry, the Committee included three disinterested persons representing the public, a like number representing employers, and a like number representing employees in the industry, and was composed of residents of Puerto Rico and of the United States outside of Puerto Rico.

After investigating economic and competitive conditions in the beer division, the Committee filed with the Administrator a report containing its recommendation for a minimum wage rate of 53 cents an hour to be paid to employees in the beer division who are engaged in commerce or in the production of goods for commerce.

Pursuant to notice published in the FEDERAL REGISTER on August 30, 1952 (17 F. R. 7946-7949) and circulated to all interested persons, a public hearing upon the Committee's recommendation was held before Hearing Examiner E. West Parkinson, as presiding officer, in Washington, D. C., on October 7, 1952, at which all interested parties were given an opportunity to be heard. After the hearing was closed the record of the hearing was certified to the Administrator by the presiding officer.

Upon reviewing all the evidence adduced in this proceeding, and after giving consideration to the provisions of the act, particularly sections 5 and 8 thereof, I have concluded that the recommendation of the committee for a minimum wage rate of 53 cents per hour in the beer division of the alcoholic beverage and industrial alcohol industry, as defined, was made in accordance with law, is supported by the evidence adduced at the hearing, and, taking into consideration the same factors as are required to be considered by the Committee, will carry out the purposes of sections 5 and 8 of the act.

I have set forth my decision in a document entitled, "Findings and Opinion of the Administrator in the Matter of the Recommendation of Special Industry Committee No. 12 for Puerto Rico for a Minimum Wage Rate in the Beer Division of the Alcoholic Beverage and Industrial Alcohol Industry," a copy of which may be had upon request addressed to the Wage and Hour Division, United States Department of Labor, Washington 25, D. C.

Accordingly, notice is hereby given pursuant to the Administrative Procedure Act (60 Stat. 237; 5 U. S. C. 1001) and the rules of practice governing this proceeding, that I propose to amend the wage order for the alcoholic beverage and industrial alcohol industry in Puerto Rico, which is contained in 29 CFR, 1951 Supp, Part 706, as follows:

1. Change the headnote of § 706.1 from "Wage rate" to "Wage rates".

2. Add the following new paragraph (b) to § 706.1, immediately after paragraph (a) thereof:

(b) Wages at a rate of not less than 53 cents per hour shall be paid under section 6 of the Fair Labor Standards Act of 1938, as amended, by every employer to each of his employees in the beer division of the alcoholic beverage and industrial alcohol industry in Puerto Rico who is engaged in commerce or in the production of goods for commerce.

3. Delete in its entirety the text "Note" following § 706.1 (a), and reference to such note at the end of § 706.3 (a) (2).

Within 15 days from publication of this notice in the FEDERAL REGISTER, interested parties may submit written exceptions to the proposed actions above described. Exceptions should be addressed to the Administrator of the Wage and Hour Division, United States Department of Labor, Washington 25, D. C. They should be submitted in quadruplicate, and should include supporting reasons for any exceptions.

Signed at Washington, D. C., this 2d day of December 1952.

WM. R. MCCOMB,
Administrator,
Wage and Hour Division.

DIRECTOR OF INSTALLATIONS

DELEGATION OF AUTHORITY WITH RESPECT TO CERTIFICATION OF CONSTRUCTION, REPLACEMENT OR REACTIVATION OF BAKERY, LAUNDRY OR DRY-CLEANING FACILITIES

By virtue of the authority vested in me pursuant to section 202 (f) of the National Security Act of 1947, as amended, 5 USC 171a, the following designation and delegation of authority is effective this date.

1. The Director of Installations shall exercise the functions, duties and authority conferred on me by section 604 of the Military Public Works Appropriation Act, 1952 (65 Stat. 766), and by section 804 of the Military Public Works Appropriation Act, 1953 (66 Stat. 647) to certify in writing, in appropriate cases, that the products or services to be furnished by any bakery, laundry or dry-cleaning facilities proposed for construction, replacement or reactivation are not obtainable from commercial sources at reasonable rates.

2. The Director of Installations shall not redelegate the authority contained herein.

ROBERT A. LOVETT,
Secretary of Defense.

DEPARTMENT OF THE INTERIOR

Office of the Secretary

ADAMS NATIONAL HISTORIC SITE, QUINCY, MASS., FORMERLY KNOWN AS ADAMS MANSION NATIONAL HISTORIC SITE

ORDER ADDING CERTAIN LANDS

Whereas, a certain parcel of land with the buildings thereon, situated in Quincy, in the County of Norfolk, and Commonwealth of Massachusetts, associated with members of the Adams family of Massachusetts, distinguished in public service and in literature, was designated as Adams Mansion National Historic Site by Secretarial Order of December 9, 1946 (11 F. R. 14634), pursuant to the provisions of section 2 of the act of August 21, 1935 (49 Stat. 666; 16 U. S. C., 1946 ed., sec. 462); and

Whereas, a certain parcel of land adjoining the aforesaid parcel of land has been donated to the United States as an addition to, and for use in administering, developing, protecting and interpreting, the said national historic site;

Now, therefore, I, Vernon D. Northrop, Acting Secretary of the Interior, by virtue of and pursuant to the authority contained in section 2 of the act of August 21, 1935, supra, do hereby designate as a part of said national historic site, the following described parcel of land:

All that certain lot or parcel of land lying in Quincy, in the County of Norfolk, and Commonwealth of Massachusetts, bounded and described as follows:

Beginning at a point on the southwesterly side of Newport Avenue at the junction of land owned by the said Commission and land owned by the said United States as the Adams Mansion National Historic Site;

Thence running southwesterly by a line curving to the right with a radius of three hundred ninety-six and 71/100 (396.71) feet, one hundred eighty and 02/100 (180.02) feet to a stone bound;

Thence running more westerly by a line curving to the right with a radius of five hundred sixty-seven and 32/100 (567.32) feet, one hundred forty-eight and 35/100 (148.35) feet;

Thence running north 80°16'23" west twenty-eight and 73/100 (28.73) feet;

Thence running still westerly by a line curving to the left with a radius of four hundred eighty-three and 01/100 (483.01) feet, thirty-five and 59/100 (35.59) feet to an iron pipe;

Thence turning to the right and running northwesterly by an extension of the property line between land of the said Adams Mansion National Historic Site and land now or formerly of Fred B. Rice, ninety (90) feet more or less to the top of the southerly bank of Furnace Brook;

Thence turning sharply to the right and running easterly by the top of the southerly bank of Furnace Brook three hundred sixty-five (365) feet more or less to the southwesterly side line of Newport Avenue;

Thence turning to the right and running southwesterly by the southwesterly side line of Newport Avenue sixty (60) feet more or less to the point of beginning; containing thirty-one thousand four hundred (31,400) square feet more or less and being shown on a plan entitled "Commonwealth of Massachusetts, Metropolitan District Commission, Parks Division, Furnace Brook Parkway, Plan of Land in Quincy, Mass., * * * September 22, 1950, Benjamin W. Fink, Director of Park Engineering," being plan accession No. 29364 V. T., a copy of which is recorded in the Norfolk County Registry of Deeds.

The administration, protection, and development of the land hereinabove described as part of the said national historic site shall be exercised in accordance with the provisions of the act of August 21, 1935, supra.

Hereafter, the Adams Mansion National Historic Site, as hereby enlarged, shall be known as Adams National Historic Site.

In witness whereof, I have hereunto set my hand and caused the official seal of the Department of the Interior to be affixed, in the City of Washington, this 26th day of November 1952.

[SEAL] VERNON D. NORTHROP,
Acting Secretary of the Interior.

ECONOMIC STABILIZATION AGENCY

Office of Price Stabilization

[Region I, Redelegation of Authority 53]

DIRECTORS OF DISTRICT OFFICES, REGION I, BOSTON, MASS.

REDELEGATION OF AUTHORITY TO ACT ON APPLICATIONS FOR CEILING PRICES OF NEW COMMODITIES BY MANUFACTURERS HAVING ANNUAL SALES OF LESS THAN $250,000 UNDER CPR 161

By viture of the authority vested in the Director of the Regional Office of the Office of Price Stabilization, No. I, and pursuant to Delegation of Authority No. 75 (17 F. R. 8131) this redelegation of authority is hereby issued.

1. *Authority to act under sections 3, 4, 5, 6, 9 and 15 of CPR 161.* Authority is hereby redelegated to the Directors of the District Offices of the Office of Price Stabilization, Region I, to process in the respects indicated herein ceiling price applications for new commodities filed under CPR 161, by manufacturers whose gross sales for their last complete fiscal year of commodities manufactured by them were less than $250,000:

(a) To approve, or disapprove proposed ceiling prices for new commodities under sections 3, 4, and 5 of CPR 161;

(b) To issue letter orders as provided in section 6 of CPR 161, establishing ceiling prices of new commodities for which a ceiling cannot be calculated under sections 3, 4, and 5 of CPR 161;

(c) To issue letter orders disapproving or revising downward, ceiling prices reported or proposed as provided in section 9 of CPR 161;

(d) To request additional information, as provided in section 15 of CPR 161, where applicants submit proposed ceiling prices for new commodities under sections 3, 4, 5, and 6 of CPR 161.

This redelegation of authority shall take effect as of November 25, 1952.

JOHN FOX,
Acting Regional Director, Region I.

[Region II, Redelegation of Authority 50]

DIRECTORS OF DISTRICT OFFICES, REGION II, NEW YORK, N. Y.

REDELEGATION OF AUTHORITY TO ACT UNDER S. R. 22 TO CPR 34, AS AMENDED

By virtue of the authority vested in me as Director of the Regional Office of Price Stabilization No. II, pursuant to Delegation of Authority No. 83 (17 F. R. 10525), this Redelegation of Authority No. 50 is hereby issued.

1. *Authority to act under Supplementary Regulation 22 to Ceiling Price Regulation 34, as amended.* Authority is hereby redelegated to the Directors of the District Offices of Price Stabilization of Region II to accept applications, establish, approve or disapprove ceiling prices or changes in banking practices or to require further information under the provisions of Supplementary Regulation 22 to Ceiling Price Regulation 34, as amended.

This Redelegation of Authority No. 50 shall take effect on December 6, 1952.

JAMES G. LYONS,
Regional Director, Region II.

DECEMBER 5, 1952.

[F. R. Doc. 52-13022; Filed, Dec. 5, 1952; 4:46 p. m.]

[Region III, Redelegation of Authority 48]

DIRECTORS OF DISTRICT OFFICES, REGION III, PHILADELPHIA, PENNSYLVANIA

REDELEGATION OF AUTHORITY TO ACT UNDER SECTION 47 (b) OF CPR 98, AS AMENDED

By virtue of the authority vested in me as Director of the Regional Office of Price Stabilization, No. III, pursuant to Delegation of Authority No. 53, Amendment 2 (17 F. R. 9093), this redelegation of authority is hereby issued.

1. Authority is hereby redelegated to each of the District Directors of the Office of Price Stabilization in Region III to accept statements or published lists of factors affecting prices and of extras filed under section 47 (b) of Ceiling Price Regulation 98, as amended, to request further information in connection with such filings, and to take all steps necessary to assure that such filings are corrected in accordance with section 47 (b) of Ceiling Price Regulation 98.

This redelegation of authority shall take effect as of November 21, 1952.

JOSEPH J. MCBRYAN,
Director of Regional Office No. III.

DECEMBER 5, 1952.

[F. R. Doc. 52-13023; Filed, Dec. 5, 1952; 4:46 p. m.]

[Region VII, Redelegation of Authority 37, Amdt. 1]

DIRECTORS OF DISTRICT OFFICES, REGION VII, CHICAGO, ILLINOIS

REDELEGATION OF AUTHORITY TO ACT UNDER CPR 24, AS AMENDED, SECTION 11 (b) (2)

By virtue of the authority vested in me as Director of the Regional Office of Price Stabilization, No. VII, pursuant to Delegation of Authority No. 68, Amendment 1 (17 F. R. 8597), this Amendment 1 to Redelegation of Authority No. 37 is hereby issued.

Redelegation of Authority No. 37 is amended by inserting a new paragraph 2 to read as follows:

2. *Authority to act under section 11 (b) (2) of CPR 24, as amended.* Authority is hereby redelegated to the Directors of the District Offices of Price Stabilization located at Indianapolis, Indiana, and Milwaukee, Wisconsin, to act under section 11 (b) (2) of CPR 24, as amended.

This Redelegation of Authority No. 37, Amendment 1, shall take effect on December 6, 1952.

B. EMMET HARTNETT,
Director of Regional Office No. VII.

DECEMBER 5, 1952.

[F. R. Doc. 52-13024; Filed, Dec. 5, 1952; 4:47 p. m.]

[Region VII, Redelegation of Authority 46]

DIRECTORS OF DISTRICT OFFICES, REGION VII, CHICAGO, ILLINOIS

REDELEGATION OF AUTHORITY TO ACT UNDER CPR 70

By virtue of the authority vested in me as Director of the Regional Office of Price Stabilization, No. VII, pursuant to Delegation of Authority No. 29, Revision 1 (17 F. R. 8462), this Redelegation of Authority No. 46 is hereby issued.

1. *Authority to act under sections 2, 5, 9, and 12 of Ceiling Price Regulation 70.* Authority is hereby redelegated to the Directors of the District Offices of Price Stabilization located at Indianapolis, Indiana, and Milwaukee, Wisconsin:

(a) To act upon and to handle to final conclusion all requests filed pursuant to the provisions of section 2 of Ceiling Price Regulation 70;

(b) To act upon and to handle to final conclusion all reports filed pursuant to the provisions of section 5 of Ceiling Price Regulation 70;

(c) To act upon and to handle to final conclusion all requests filed pursuant to the provisions of section 9 of Ceiling Price Regulation 70;

(d) To act upon and to handle to final conclusion all applications for rate adjustment filed pursuant to the provisions of section 12 of Ceiling Price Regulation 70.

This Redelegation of Authority No. 46 shall take effect on December 6, 1952.

B. EMMET HARTNETT,
Director of Regional Office No. VII.

DECEMBER 5, 1952.

[Region VIII, Redelegation of Authority 47]

DIRECTORS OF DISTRICT OFFICES, REGION VIII, MINNEAPOLIS, MINNESOTA

REDELEGATION OF AUTHORITY TO ACT UNDER SECTIONS 2 AND 3 OF GOR 25

By virtue of the authority vested in me as Director of the Regional Office of Price Stabilization, Region VIII, pursuant to Delegation of Authority No. 78, dated November 5, 1952 (17 F. R. 10088), this redelegation of authority is hereby issued.

1. *Authority to act under sections 2 and 3 of GOR 25.* Authority is hereby redelegated to the District Directors, Office of Price Stabilization, Region VIII:

(a) To disapprove or reduce under section 2 any ceiling price proposed, reported, or established under any ceiling price regulation, in connection with which the District Director is authorized to act on an individual price determination or authorization, so as to bring it in line with the level of ceiling prices otherwise established by that ceiling price regulation;

(b) To issue an order, under section 3 of GOR 25, fixing an in-line ceiling price for any person subject to a ceiling price regulation, in connection with which the District Director is authorized to act on an individual price determination or authorization, who fails to prepare or keep any record or file any report required in connection with the establishment of his ceiling price, or who fails to establish a ceiling price or to apply to the Office of Price Stabilization for the establishment of a ceiling price if such action is required by the applicable regulation.

This redelegation of authority shall take effect as of November 10, 1952.

JOSEPH ROBBIE, JR.,
Regional Director, Region VIII.

DECEMBER 5, 1952.

FEDERAL POWER COMMISSION

[Project No. 1432]

KADIAK FISHERIES CO.

NOTICE OF AMENDMENT TO LICENSE

DECEMBER 4, 1952.

Public notice is hereby given that Kadiak Fisheries Company, of Seattle, Washington, has filed application under the Federal Power Act (16 U. S. C. 791a–825r) for amendment of the license for water-power Project No. 1432 located on an unnamed creek, tributary to Dry Spruce Bay, in the Kodiak Recording District, Kodiak Island, Alaska, to change the major project to a minor project of not more than 100 horsepower installed capacity and to include in the project two reservoirs created by the construction of a low timber dam at the outlet of Lower Pond and at the outlet of Upper Pond, and raising the surface of each pond level six feet; the extension of the present pipeline 1,090 feet to the Lower Pond; two unconstructed diversion ditches each 3 feet wide by 2 feet deep, one 850 feet in length, the other 950 feet in length; and the rebuilt powerhouse with installation of a 24-inch Pelton type water wheel rated at 100 horsepower and a 75 Kw generator; and to exclude therefrom the diversion dam at the original upper end of the pipeline.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure of the Commission (18 CFR 1.8 or 1.10) on or before the 13th day of January 1953. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

OFFICE OF DEFENSE MOBILIZATION

[RC 85]

WICHITA FALLS, TEXAS, AREA

DECERTIFICATION OF A CRITICAL DEFENSE HOUSING AREA

DECEMBER 8, 1952.

Upon specific data which has been prescribed by and presented to the Secretary of Defense and the Director of Defense Mobilization and on the basis of other information available in the discharge of their official duties, the undersigned find that one or more of the conditions required by section 204 (1) of the Housing and Rent Act of 1947, as amended, no longer exist in the area designated as: Wichita Falls, Texas, Area.

Therefore, pursuant to section 204 (1) of the Housing and Rent Act of 1947, as amended, and Executive Order 10276 of July 31, 1951, the undersigned jointly determine and certify that the aforementioned area is no longer a critical defense housing area.

ROBERT A. LOVETT,
Secretary of Defense.

HENRY H. FOWLER,
Director of Defense Mobilization.

SECURITIES AND EXCHANGE COMMISSION

[File No. 1-513]

SPRING VALLEY CO., LTD.

NOTICE OF APPLICATION TO STRIKE FROM LISTING AND REGISTRATION, AND OF OPPORTUNITY FOR HEARING

DECEMBER 4, 1952.

The San Francisco Stock Exchange, pursuant to section 12 (d) of the Securities Exchange Act of 1934 and Rule X-12D2-1 (b) promulgated thereunder, has made application to strike from registration and listing the Capital Stock, No Par Value, of Spring Valley Company, Ltd.

The application alleges that the reasons for striking this security from registration and listing on this exchange are as follows:

(1) At the annual meeting of the shareholders of the issuer on April 9, 1952, the shareholders voted to complete the dissolution of the company as soon as practicable.

(2) At a meeting of the Board of Directors of the issuer on October 1, 1952, a final liquidating dividend of 42 cents per share was declared payable November 3, 1952, to stockholders of record on October 20, 1952.

Upon receipt of a request, prior to December 31, 1952, from any interested person for a hearing in regard to terms to be imposed upon the delisting of this security, the Commission will determine whether to set the matter down for hearing. Such request should state briefly the nature of the interest of the person requesting the hearing and the position he proposes to take at the hearing with respect to imposition of terms or conditions. In addition, any interested person may submit his views or any additional facts bearing on this application by means of a letter addressed to the Secretary of the Securities and Exchange Commission, Washington, D. C. If no one requests a hearing on this matter, this application will be determined by order of the Commission on the basis of the facts stated in the application, and other information contained in the official file of the Commission pertaining to this matter.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[File No. 70-2969]

UNITED GAS CORP. AND UNION PRODUCING CO.

NOTICE REGARDING LOAN TO SUBSIDIARY

DECEMBER 4, 1952.

Notice is hereby given that United Gas Corporation ("United"), a gas utility subsidiary of Electric Bond and Share Company, a registered holding company, and United's wholly owned subsidiary, Union Producing Company ("Union"), have filed an application-declaration pursuant to the Public Utility Holding Company Act of 1935, and have designated sections 6 (a), 7, 9 (a), 10 and 12 thereof as applicable to the proposed transactions, which are summarized as follows:

United proposes to lend to Union and the latter proposes to borrow from United not to exceed an aggregate amount of $4,000,000 during the period following the date of the entry of the Commission's order herein to the end of 1953, in such installments and at such times as funds may be required and requested by Union. The proceeds of the loan will be used by Union to increase its working capital and to finance in part its leasing, development and drilling program.

The proposed loan will be evidenced by unsecured promissory notes issued by Union to United or order, from time to time, payable on or before six years from the date of issuance and bearing interest at the rate of 5 percent per annum.

The application-declaration states that the promissory notes of Union acquired by United will be pledged under United's Mortgage and Deed of Trust securing its outstanding first mortgage and collateral trust bonds.

The applicants-declarants request that the Commission issue its order herein as promptly as may be practicable and that such order become effective forthwith upon the issuance thereof.

Notice is further given that any interested person may, not later than December 18, 1952, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by the said application-declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after December 18, 1952, said application-declaration, as filed or as amended, may be granted and permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof. All interested persons are referred to said application-declaration which is on file in the office of this Commission for a statement of the transactions therein proposed.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

EBASCO SERVICES, INC.

NOTICE OF FILING CONCERNING ACQUISITION OF SUBSIDIARY OF SERVICE COMPANY TO PERFORM CERTAIN CONTRACTS IN WESTERN HEMISPHERE

DECEMBER 4, 1952.

Notice is hereby given that Ebasco Services, Incorporated ("Ebasco"), a wholly owned service company subsidiary of Electric Bond and Share Company, a registered holding company, has filed an application pursuant to the Public Utility Holding Company Act of 1935, and has designated sections 9 and 10 thereof as applicable to the proposed transactions which are summarized as follows:

Ebasco has entered into a contract with Cerro de Pasco Copper Corporation of New York ("Cerro"), whereby Ebasco has undertaken to perform certain engineering and construction supervision services in connection with the erection by Cerro of a new hydro-electric development in the Republic of Peru, together with related transmission and other facilities, which construction, it is estimated, will cost over $21,000,000.

The application states that much of the engineering work on this project has already been completed by Ebasco and that construction work is now in progress. The application further states that inasmuch as most of the supervision work to be performed by Ebasco will be done in Peru, that it will be desirable that such work be carried out by a wholly owned subsidiary of Ebasco which may qualify as a Western Hemisphere Trade Corporation within the meaning of section 109 of the United States Internal Revenue Code. Ebasco therefore proposes to utilize the wholly owned Delaware corporation for this purpose.

This corporation, Meridian Engineering Company ("Meridian"), was organized in 1944 by Reid & Priest, counsel for Ebasco, primarily for the purpose of preserving in Delaware the name "Meridian Engineering Company". That company has remained inactive. Ebasco now proposes to pay Reid & Priest, out-of-pocket costs incurred in connection with the formation of Meridian; to have the incorporators of Meridian elect as its directors certain persons who are presently officers of Ebasco; to change the name of Meridian to Ebasco Engineering Corporation ("Ebasco Engineering"); and to change the authorized capital stock from 100 shares of $10 par value common stock to 1,000 shares of $50 par value common stock, all of which shares are to be subscribed for by Ebasco for a total cash consideration of $50,000, which funds will provide Ebasco Engineering with working capital required for its operations. The contract with Cerro will be in part assigned to Ebasco Engineering.

The application states further that Ebasco Engineering may from time to time do other engineering work in the Western Hemisphere outside of the United States or, under appropriate circumstances not presently contemplated, either within the United States or elsewhere in the world. It is stated that Ebasco Engineering will not perform any services for any associate company except upon the same basis that would be applicable to such services if they were being performed directly by Ebasco, and Ebasco stipulates that the same conditions will apply to Ebasco Engineering as would apply to Ebasco under any present or future order of this Commission.

Notice is further given that any interested person may, not later than December 18, 1952, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by the said application which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after December 18, 1952, said application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof. All interested persons are referred to said application which is on file in the office of this Commission for a statement of the transactions therein proposed.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

SMALL DEFENSE PLANTS ADMINISTRATION

[S. D. P. A. Pool Request 6]

REQUEST TO NATIONAL PRODUCTION POOL TO OPERATE AS A SMALL BUSINESS PRODUCTION POOL AND REQUEST TO CERTAIN COMPANIES TO PARTICIPATE IN OPERATIONS OF SUCH POOL

Pursuant to section 708 of the Defense Production Act of 1950, as amended, the request to National Production Pool, to operate as a small business production pool and the request to the companies hereinafter listed to participate in the operations of such pool, set forth below, were approved by the Attorney General after consultations with respect thereto between the Attorney General, the Chairman of the Federal Trade Commission, and the Administrator of the Small Defense Plants Administration. The voluntary program in accordance with which the pool shall operate has been approved by the Administrator of the Small Defense Plants Administration and found to be in the public interest as contributing to the national defense.

REQUEST TO NATIONAL PRODUCTION POOL

You are requested to operate as a small business production pool in accordance with the voluntary program as set forth in the papers submitted to the Small Defense Plants Administration, Pooling Section, Washington, D. C.

In my opinion, the operations of your corporation as a small business production pool will assist in the accomplishment of our national defense program.

The Attorney General has approved this request after consultations with respect thereto between his representatives, representatives of the Chairman of the Federal Trade Commission, and my representatives, pursuant to section 708 of the Defense Production Act of 1950, as amended.

I approve the voluntary program and find it to be in the public interest as contributing to the national defense. You may commence your operations thereunder as a small business production pool upon notifying me in writing of your acceptance of this request. Immunity from prosecution under the Federal antitrust laws and the Federal Trade Commission Act will be given upon such acceptance, provided that your operations are within the limits set forth in the approved voluntary program.

Your cooperation in this matter will be appreciated.

Sincerely yours,

JOHN E. HORNE
Administrator.

REQUEST TO COMPANIES

You are requested to participate in the operations of the National Production Pool, which will operate as a small business production pool, in accordance with the voluntary program as set forth in the papers submitted by it to the Small Defense Plants Administration, Pooling Section, Washington 25, D. C.

In my opinion, your participation in the operations of this small business production pool will greatly assist in the accomplishment of our national defense program.

The Attorney General has approved this request after consultations with respect to this matter between his representatives, representatives of the Chairman of the Federal Trade Commission, and my representatives, pursuant to section 708 of the Defense Production Act of 1950, as amended.

I approve the voluntary program and find it to be in the public interest as contributing to the national defense.

You will become a participant therein upon notifying me in writing of your acceptance of this request. Immunity from prosecution under the Federal antitrust laws and the Federal Trade Commission will be given upon such acceptance, providing that the operations of this production pool and your participation therein are within the limits set forth in the approved voluntary program.

Your cooperation in this matter will be appreciated.

Sincerely yours,

JOHN E. HORNE,
Administrator.

The National Production Pool, accepted the request set forth above to operate as a small business production pool.

[S. D. P. A. Pool Request 7]

REQUEST TO TRI-STATE DEFENSE INDUSTRIES, INC., TO OPERATE AS A SMALL BUSINESS PRODUCTION POOL AND REQUEST TO CERTAIN COMPANIES TO PARTICIPATE IN OPERATIONS OF SUCH POOL

Pursuant to section 708 of the Defense Production Act of 1950, as amended, the request to Tri-State Defense Industries, Inc., to operate as a small business production pool and the request to the companies hereinafter listed to participate in the operations of such pool, set forth below, were approved by the Attorney General after consultations with respect thereto between the Attorney General, the Chairman of the Federal Trade Commission, and the Administrator of the Small Defense Plants Administration. The voluntary program in accordance with which the pool shall operate has been approved by the Administrator of the Small Defense Plants Administration and found to be in the public interest as contributing to the national defense.

REQUEST TO TRI-STATE DEFENSE INDUSTRIES, INC.

You are requested to operate as a small business production pool in accordance with the voluntary program as set forth in the papers submitted to the Small Defense Plants Administration, Pooling Section, Washington 25, D. C.

In my opinion, your participation in the operations of this small business production pool will greatly assist in the accomplishment of our national defense program.

The Attorney General has approved this request after consultations with respect to this matter between his representatives, representatives of the Chairman of the Federal Trade Commission, and my representatives, pursuant to Section 708 of the Defense Production Act of 1950, as amended.

I approve the voluntary program and find it to be in the public interest as contributing to the national defense.

You will became a participant therein upon notifying me in writing of your acceptance of this request. Immunity from prosecution under the Federal antitrust laws and the Federal Trade Commission will be given upon such acceptance, providing that the operations of this production pool and your participation therein are within the limits set forth in the approved voluntary program.

Your cooperation in this matter will be appreciated.

Sincerely yours,

JOHN E. HORNE,
Administrator.

The Tri-State Defense Industries, Inc., accepted the request set forth above to operate as a small business production pool.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27601]

LIME FROM MOSHER, AND STE. GENEVIEVE, MO., AND POINTS IN THE SOUTHWEST TO FLORIDA

APPLICATION FOR RELIEF

DECEMBER 5, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedules listed below.

Commodities involved: Lime, carloads.

From: Mosher and Ste. Genevieve, Mo., and points in southwestern territory.

To: Florida.

Grounds for relief: Competition with rail carriers, circuitous routes, and to maintain grouping.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 1345; F. C. Kratzmeir, Agent, I. C. C. No. 3986, Supp. 11.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[F. R. Doc. 52-13002; Filed, Dec. 9, 1952; 8:50 a. m.]

[4th Sec. Application 27602]

COAL FROM POINTS IN ARKANSAS, OKLAHOMA, KANSAS, AND MISSOURI TO WINONA, MINN.

APPLICATION FOR RELIEF

DECEMBER 5, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedule listed below.

Commodities involved: Coal, coal briquettes and coalettes, carloads.

From: Points in Arkansas, Oklahoma, Kansas, and Missouri.

To: Winona, Minn.

Grounds for relief: Competition with rail carriers, circuitous routes, and to maintain grouping.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3920, Supp. 47.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 27603]

PHOSPHATE ROCK FROM FLORIDA TO IOWA, MISSOURI, AND NEBRASKA

APPLICATION FOR RELIEF

DECEMBER 5, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedules listed below.

Commodities involved: Phosphate rock, carloads.

From: Florida.

To: Points in Iowa, Missouri, and Nebraska named in exhibit A of the application.

Grounds for relief: Rail competition, circuity, grouping, and to apply rates constructed on the basis of a distance formula.

Scehedules filed containing proposed rates: ACL RR. tariff I. C. C. No. B-3232, Supp. 67; SAL RR. tariff I. C. C. No. A-8153, Supp. 65.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[4th Sec. Application 27604]

HORSES AND MULES FROM SOUTHERN TERRITORY TO CAMDEN, S. C.

APPLICATION FOR RELIEF

DECEMBER 5, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Horses and mules, valuable for slaughtering purposes only, carloads.

From: Points in southern territory.

To: Camden, S. C.

Grounds for relief: Competition with rail carriers, circuitous routes, and to apply over short tariff routes rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: C. A. Spaninger, Agent, I. C. C. No. 698, Supp. 107.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

DEPARTMENT OF JUSTICE

Office of Alien Property

[Vesting Order 19081]

OSCAR SEIFERT

In re: Estate of Oscar Seifert, deceased, File No. F-28-14203; E. T. sec. 14977.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Congress, 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR, 1943 Cum. Supp.; 3 CFR 1945 Supp.); Executive Order 9788 (3 CFR, 1946 Supp.) and Executive Order 9989 (3 CFR, 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Elsa Broemel, Martha Meissner Ritchel, Marie Roeser and Robert Hesse, whose last known address is Germany, on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany and are, and prior to January 1, 1947, were nationals of a designated enemy country (Germany);

2. That the issue and heirs-at-law, names unknown, of Elsa Broemel, and the heirs-at-law, names unknown, of Martha Meissner Ritchel and Marie Roeser, who there is reasonable cause to believe, on or since December 11, 1941, and prior to January 1, 1947, were residents of Germany, are, and prior to January 1, 1947, were nationals of a designated enemy country (Germany);

3. That all right, title, interest and claim of any kind or character whatsoever of the persons identified in subparagraphs 1 and 2 hereof, and each of them, in and to the Estate of Oscar Seifert, deceased, is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, or which is evidence of ownership or control by the aforesaid nationals of a designated enemy country (Germany);

4. That such property is in the process of administration by Martha Doran Surman, as Substituted Trustee, acting under the judicial supervision of the Orphans' Court, Essex County Court, Probate Division, Newark, New Jersey;

and it is hereby determined:

5. That the national interest of the United States requires that the persons identified in subparagraphs 1 and 2 hereof be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 5, 1952.

For the Attorney General.

[SEAL] ROWLAND F. KIRKS,
Assistant Attorney General, Director, Office of Alien Property.

[Vesting Order 19082]

INCASSO BANK, N. V., AND CERTAIN UNKNOWN GERMAN NATIONALS

In re: Stock registered in the name of Incasso Bank, N. V., Amsterdam, Holland, and owned by persons whose names are unknown.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Congress, 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR, 1943 Cum. Supp.; 3 CFR, 1945 Supp.); Executive Order 9788 (3 CFR, 1946 Supp.) and Executive Order 9989 (3 CFR, 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That the property described as follows: Twenty (20) shares of The Kroger Company no par value common stock evidenced by certificate number NCO-45440, registered in the name of Incasso Bank, N. V., Amsterdam, Holland, together with all declared and unpaid dividends thereon;

is and prior to January 1, 1947, was property within the United States;

2. That the property described in subparagraph 1 hereof is and prior to January 1, 1947, was owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or is evidence of ownership or control by persons, names unknown, who, if individuals, there is reasonable cause to believe are and on or since December 11, 1941, and prior to January 1, 1947, were residents of a designated enemy country and which, if partnerships, associations, corporations, or other organizations, there is reasonable cause to believe are and on or since December 11, 1941, and prior to January 1, 1947, were organized under the laws of and had their principal places of business in a designated enemy country;

3. That the persons referred to in subparagraph 2 hereof are and prior to January 1, 1947, were nationals of a designated enemy country;

and it is hereby determined:

4. That the national interest of the United States requires that such persons be treated as persons who are and prior to January 1, 1947, were nationals of a designated enemy country.

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "nationals" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended, and the term "designated enemy country" has reference to Germany.

Executed at Washington, D. C., on December 5, 1952.

For the Attorney General.

[SEAL] ROWLAND F. KIRKS,
Assistant Attorney General, Director, Office of Alien Property.

[Vesting Order 19083]

UNION DEUTSCHE VERLAGSGESELLSCHAFT

In re: Debt owing to Union Deutsche Verlagsgesellschaft. F-28-31945.

Under the authority of the Trading With the Enemy Act, as amended (50 U. S. C. App. and Sup. 1-40); Public Law 181, 82d Congress, 65 Stat. 451; Executive Order 9193, as amended by Executive Order 9567 (3 CFR, 1943 Cum. Supp.; 3 CFR, 1945 Supp.); Executive Order 9788 (3 CFR, 1946 Supp.) and Executive Order 9989 (3 CFR, 1948 Supp.), and pursuant to law, after investigation, it is hereby found:

1. That Union Deutsche Verlagsgesellschaft, the last known address of which is Germany, is a corporation, partnership, association, or other business organization which on or since December 11, 1941, and prior to January 1, 1947, was organized under the laws of and had its principal place of business in Germany and is, and prior to January 1, 1947, was, a national of a designated enemy country (Germany);

2. That the property described as follows: That certain debt or other obligation evidenced by a check issued by Dodd Mead & Co., Inc., New York drawn on the Fifth Avenue Bank of New York, numbered 74856, dated March 29, 1940, and payable to Union Deutsches Verlagsgesellschaft, said check presently in the custody of the Attorney General of the United States, together with any and all rights to demand, enforce and collect the aforesaid debt or other obligation, and any and all rights in, to and under said check,

is property which is and prior to January 1, 1947, was within the United States owned or controlled by, payable or deliverable to, held on behalf of or on account of, or owing to, or which is evidence of ownership or control by, Union Deutsche Verlagsgesellschaft, the aforesaid national of a designated enemy country (Germany);

and it is hereby determined:

3. That the national interest of the United States requires that the person named in subparagraph 1 hereof, be treated as a person who is and prior to January 1, 1947, was, a national of a designated enemy country (Germany).

All determinations and all action required by law, including appropriate consultation and certification, having been made and taken, and, it being deemed necessary in the national interest,

There is hereby vested in the Attorney General of the United States the property described above, to be held, used, administered, liquidated, sold or otherwise dealt with in the interest of and for the benefit of the United States.

The terms "national" and "designated enemy country" as used herein shall have the meanings prescribed in section 10 of Executive Order 9193, as amended.

Executed at Washington, D. C., on December 5, 1952.

FEDERAL REGISTER

VOLUME 17 NUMBER 241

Washington, Thursday, December 11, 1952

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10417A

EXCUSING FEDERAL EMPLOYEES FROM DUTY ON FRIDAY, DECEMBER 26, 1952

By virtue of the authority vested in me as President of the United States, it is hereby ordered that the several executive departments, independent establishments, and other governmental agencies in the metropolitan area of the District of Columbia, including the General Accounting Office, the Government Printing Office, and the Navy Yard and Naval Stations, shall be closed all day on Friday, December 26, 1952, the day following Christmas Day; and all employees in the Federal service in the metropolitan area of the District of Columbia, and in the field service of the executive departments, independent establishments, and other agencies of the Government, except those who may for special public reasons be excluded from the provisions of this order by the heads of their respective departments, establishments, or agencies, or those whose absence from duty would be inconsistent with the provisions of existing law, shall be excused from duty on that day.

HARRY S. TRUMAN

THE WHITE HOUSE,
December 6, 1952.

[F. R. Doc. 52-13097; Filed, Dec. 9, 1952; 12:55 p. m.]

TITLE 6—AGRICULTURAL CREDIT

Chapter III—Farmers Home Administration, Department of Agriculture

Subchapter E—Account Servicing

[Administration Letter 292 (462)]

PART 371—SECURITY SERVICING AND LIQUIDATION: OPERATING LOANS

SUBPART A—GENERAL SECURITY SERVICING

LIEN WAIVERS IN CONNECTION WITH COMMODITY CREDIT CORPORATION LOANS ON COTTON

Section 371.8, Title 6, Code of Federal Regulations (13 F. R. 9451), is amended:

NOTICE

The National Archives Building will be officially closed on Monday, December 15, 1952, between 8:45 a. m. and 2:00 p. m. Notice is hereby given that no documents will be filed with the Federal Register Division, or made available for public inspection, during those hours.

1. To revise subparagraph (a) (4) to include authority for executing lien waivers in connection with Commodity Credit Corporation loans on cotton when the requirements of the present subparagraph (a) (4) of said section cannot be met.

2. To add a new subparagraph (b) (2) to set forth additional procedures and routines for handling certain lien waivers in connection with Commodity Credit Corporation loan on cotton.

Subparagraph (a) (4) of § 371.8 is revised, and paragraph (b) (2) is added to read as follows:

§ 371.8 *Waivers of liens (other than liens on real estate) for borrowers receiving loans under Commodity Credit Corporation Program.* • • •

(a) *Authority.* • • •

(4) When the amount of the commodity loan is less than the market value of the crop pledged, the borrower has paid or will pay from the Commodity Credit Corporation loan the amount due on debts owed the Farmers Home Administration for the crop year (including any delinquencies); except that in connection with Commodity Credit Corporation loans on cotton, when the loan value of the cotton is not sufficient to pay the amount due on debts owed the Farmers Home Administration for the crop year and is less than the market value of the cotton, the lien waivers may nevertheless be executed, provided the conditions and requirements of subparagraph (b) (2) of this section also are met.

(b) *Routines for handling lien waivers.* • • •

(2) When the loan value of the cotton is not sufficient to pay the amount due on debts owed the Farmers Home Administration for the crop year and is less than the market value of the cotton, the following additional conditions and requirements must be met:

(i) The borrower must show his address on CCC Cotton Form A as the mailing address of the Farmers Home Administration County Office responsible for servicing his account.

(ii) The borrower must agree on Form FHA–936, "Borrower's Agreement," for the Farmers Home Administration County Supervisor to receive and open all correspondence mailed to him by the Commodity Credit Corporation or its custodian at the mailing address of the Farmers Home Administration County Office, and that such mailing address will not be changed except with the consent of and under conditions established by the Farmers Home Administration; that before the Commodity Credit Corporation loan is received, he will instruct the lending agent and custodian of the Commodity Credit Corporation that if he should ever redeem the cotton, the warehouse receipts are to be delivered to the Farmers Home Administration County Office Supervisor; that before the Commodity Credit Corporation loan is received, he will notify the Production and Marketing Administration County Office that if any CCC Cotton Form AA is ever executed by him as producer in connection with a proposed transfer of his equity in the cotton, such form is to be delivered to the Farmers Home Administration County Supervisor; that he will not redeem the cotton or sell, transfer, or assign his equity therein except with the consent of and under conditions established by the Farmers Home Administration; and, that if he does not redeem the cotton or transfer his equity therein and the cotton is subsequently sold, purchased, or pooled by the Commodity Credit Corporation, he will apply on his Farmers Home Administration account secured by the cotton his share of the sales proceeds or so much thereof as is necessary to pay such account.

(iii) The borrower must execute Form FHA–935, "Request for Delivery of Warehouse Receipts or CCC Cotton Form AA to FHA." The original will be stapled to CCC Cotton Form A and an executed copy will be stapled to the Production and Marketing Administration County Office copy thereof. One copy will be retained in the Farmers Home Administration County Office and another copy will be furnished to the borrower.

(iv) The Farmers Home Administration County Supervisor will receive and open mail sent to the borrower at the County Office address and will inform the borrower of the contents of any mail requiring his attention.

(v) If the borrower expresses a desire to redeem the cotton, the County Supervisor will agree for this to be done provided there is an agreement between the borrower, the County Supervisor, and the custodian that the warehouse receipts will be delivered to the Farmers Home Administration upon repayment of the Commodity Credit Corporation loan. It is the responsibility of the County Supervisor to make arrangements to obtain possession of the warehouse receipts, after receiving notice from the custodian that such receipts are available. After the warehouse receipts are received, the County Supervisor will agree for the cotton to be sold upon the condition that the sales check will be made payable jointly to the borrower and the Farmers Home Administration. All agreements in connection with this paragraph may be oral.

(vi) If the borrower expresses a desire to transfer his equity in the cotton, the Production and Marketing Administration County Office will deliver to the County Supervisor CCC Cotton Form AA which will be executed by the borrower at that time. The County Supervisor will make arrangements for accepting delivery of the CCC Cotton Form AA and will release the executed CCC Cotton Form AA to the transferree (purchaser) in exchange for a check made payable jointly to the borrower and the Farmers Home Administration covering the borrower's equity in the cotton, provided the purchase price is equal to the current fair market value of the borrower's interest in the cotton or the amount owed the Farmers Home Administration which was secured by the cotton. In such case, the check will be for the amount of the proceeds of the sale of the cotton less the amount necessary for the purchaser to redeem the cotton from the Commodity Credit Corporation loan.

(vii) All checks received by the Farmers Home Administration pursuant to the procedure set forth in subdivision (vi) of this subparagraph will be handled in the same manner as other remittances in accordance with the applicable provisions of Part 362 of this chapter and subject to the release authorities contained in this subpart.

(viii) If the borrower repays in full his indebtedness to the Farmers Home Administration and still has an equity in the cotton pledged to the Commodity Credit Corporation, the County Supervisor will deliver to the borrower all items mailed to him at the address of the County Office and will notify the Production and Marketing Administration County Office for the county in which the cotton was produced to change the borrower's address.

(R. S. 161, sec. 6 (3), 50 Stat. 870, sec. 41 (1), 60 Stat. 1066; 5 U. S. C. 22, 16 U. S. C. 590w (3), 7 U. S. C. 1015 (l))

DECEMBER 3, 1952.

[SEAL] DILLARD B. LASSE

PART 725—BURLEY AND FLUE-CURED TOBACCO

EDITORIAL NOTE: In F. R. Doc. 52–12016, appearing at page 10134 of the issue for Saturday, November 8, 1952, §§ 725.403 and 725.404 are redesignated §§ 725.405 and 725.406. Sections 725.403 and 725.404 appearing at 17 F. R. 7613, 7614 remain in effect.

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Bureau of Animal Industry, Department of Agriculture

[B. A. I. Order 373, Amdt. 7]

PART 94—RINDERPEST, FOOT-AND-MOUTH DISEASE, FOWL PEST (FOWL PLAGUE), AND NEWCASTLE DISEASE (AVIAN PNEUMOENCEPHALITIS); PROHIBITED AND RESTRICTED IMPORTATIONS [REVISED]

DESIGNATION OF COUNTRIES WHERE RINDERPEST OR FOOT-AND-MOUTH DISEASE EXISTS: IMPORTATIONS PROHIBITED; ISLAND OF MARTINIQUE

Pursuant to the authority vested in the Secretary of Agriculture by section 306 of the Tariff Act of 1930 (sec. 306, 46 Stat. 689, 19 U. S. C. 1306) and by section 2 of the act of February 2, 1903, as amended (sec. 2, 32 Stat. 792, as amended, 21 U. S. C. 111), § 94.1 of the regulations relating to prohibitions and restrictions upon importations of certain animals and products because of rinderpest, foot-and-mouth disease, fowl pest (fowl plague), and Newcastle disease (avian pneumoencephalitis) (9 CFR, 1951 Supp. 94.1), is hereby amended by inserting the words "Island of Mar-

See Price Stabilization, Office of.

Price Stabilization, Office of).

Part 94 11189

tinique;" before the words "all of the countries of South America" in the first sentence thereof.

The above action is taken because the Secretary of Agriculture has determined that foot-and-mouth disease now exists on the Island of Martinique and so notified the Secretary of the Treasury. The primary effect of the amendment is to prohibit the importation of cattle, sheep, other domestic ruminants and swine, and fresh, chilled, or frozen beef, veal, mutton, lamb, or pork, from the Island of Martinique, and to prohibit or restrict the importation of meat and meat products of wild ruminants and swine, and certain other meats and products.

The protection of the livestock interests of the United States demands that this amendment be made effective at the earliest possible moment. Accordingly, pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and public procedure concerning this amendment are impracticable and contrary to the public interest, and good cause is found, under the said section 4, for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER. Such notice and hearing are not required by any other statute.

This amendment shall become effective immediately.

(Sec. 2, 32 Stat. 792, as amended, sec. 306, 46 Stat. 689; 19 U. S. C. 1306, 21 U. S. C. 111)

Done at Washington, D. C., this 8th day of December 1952.

[SEAL] CHARLES F. BRANNAN,
Secretary of Agriculture.

[F. R. Doc. 52-13058; Filed, Dec. 10, 1952; 8:60 a. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 22]

PART 610—MINIMUM EN ROUTE INSTRUMENT ALTITUDES

ALTERATIONS

The minimum en route IFR altitudes appearing hereinafter have been coordinated with interested members of the industry in the regions concerned insofar as practicable. The altitudes are adopted without delay in order to provide for safety in air commerce. Therefore, compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act, would be impracticable. Part 610 is amended as follows:

1. Section 610.14 *Green civil airway No. 4* is amended to read in part:

From—	To—	Minimum altitude
Kansas City, Mo. (LFR).	Liberty, Mo. (LF/RBN).	2,200

2. Section 610.297 *Red civil airway No. 97* is amended by adding:

From—	To—	Minimum altitude
Sault Ste Marie, Mich. (LFR).[1]	Lakehead, Ont., Can. (LFR).[1]	2,800

[1] For that airspace over United States territory.

3. Section 610.6005 *VOR civil airway No. 5* is amended to read in part:

From—	To—	Minimum altitude
Nashville, Tenn. (VOR):	Bowling Green, Ky. (VOR):	
Direct	Direct	2,100
E. alter	E. alter	2,300

4. Section 610.6008 *VOR civil airway No. 8* is amended by adding:

From—	To—	Minimum altitude
Kremmling, Colo. (VOR), Dir. or N. alter.	Denver, Colo. (VOR),[1] Dir. or N. alter.	16,000

[1] 14,000'—Minimum crossing altitude at Denver (VOR), west-bound.

5. Section 610.6009 *VOR civil airway No. 9* is amended to read in part:

From—	To—	Minimum altitude
McComb, Miss. (VOR), Dir. or W. alter.	Jackson, Miss. (VOR), Dir. or W. alter.	1,800

6. Section 610.6015 *VOR civil airway No. 15* is amended by adding:

From—	To—	Minimum altitude
Galveston, Tex. (VOR)	Houston, Tex. (VOR)	1,300
Houston, Tex. (VOR)	College Station, Tex. (VOR).	1,600

7. Section 610.6021 *VOR civil airway No. 21* is amended by adding:

From—	To—	Minimum altitude
Las Vegas, Nev. (VOR), Via E alter.	Mormon Mesa, Nev. (VOR), Via E alter.	7,000

8. Section 610.6027 *VOR civil airway No. 27* is amended to read in part:

From—	To—	Minimum altitude
Paso Robles, Calif. (VOR), Via E alter.	Int. 335° true rad. Paso Robles, Calif. (VOR), and 134° true rad. Salinas, Calif. (VOR).	5,000

9. Section 610.6068 *VOR civil airway No. 68* is amended by adding:

From—	To—	Minimum altitude
Brownsville, Tex. (VOR).	Int. 338° true rad. Brownsville, Tex. (VOR), and 238° true rad. Corpus Christi, Tex. (VOR).	6,000
Int. 338° true rad. Brownsville, Tex. (VOR), and 238° true rad. Corpus Christi, Tex. (VOR).	Corpus Christi, Tex. (VOR):	
	East-bound	2,000
	West-bound	6,000

10. Section 610.6070 *VOR civil airway No. 70* is added to read:

From—	To—	Minimum altitude
Palacios, Tex. (VOR)..	Int. direct crs. Palacios-Galveston, Tex. (VOR), and 178° true rad. Houston, Tex. (VOR).	2,000
Int. direct crs. Palacios-Galveston, Tex. (VOR), and 178° true rad. Houston, Tex. (VOR).	Galveston, Tex. (VOR).	1,500
Galveston, Tex. (VOR).	Int. direct crs. Galveston, Tex. (VOR), and Lake Charles, La. (VOR), and 163° true rad. Houston, Tex. (VOR).	1,500
Int. direct crs. Galveston, Tex. (VOR), and Lake Charles, La. (VOR), and 163° true rad. Houston, Tex. (VOR).	Int. direct crs. Galveston, Tex. (VOR), and Lake Charles, La. (VOR), and 173° true rad. Beaumont, Tex. (VOR).	4,500
Int. direct crs. Galveston, Tex. (VOR), and Lake Charles, La. (VOR), and 173° true rad. Beaumont, Tex. (VOR).	Lake Charles, La. (VOR).	2,000

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interpret or apply sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

These rules shall become effective December 16, 1952.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 52-13067; Filed, Dec. 10, 1952; 8:52 a. m.]

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter A—Income and Excess Profits Taxes

[T. D. 5950; Regs. 111, 130]

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

PART 40—EXCESS PROFITS TAX; TAXABLE YEARS ENDING AFTER JUNE 30, 1950

CHANGES IN CORPORATION INCOME TAX AND EXCESS PROFITS TAX RATES

Correction

In F. R. Doc. 52-12933, appearing at page 11091 of the issue for Saturday, December 6, 1952, the bracket heading should read as set forth above.

[T. D. 5954, Regs. 111, 130]

PART 29—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1941

PART 40—EXCESS PROFITS TAX; TAXABLE YEARS ENDING AFTER JUNE 30, 1950

TAXATION OF MUTUAL SAVINGS BANKS, BUILDING AND LOAN ASSOCIATIONS, AND COOPERATIVE BANKS FOR TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1951

On July 1, 1952, notice of proposed rule making was published in the FEDERAL REGISTER (17 F. R. 5909) conforming Regulations 111 (26 CFR Part 29) to sections 313 and 346 of the Revenue Act of 1951, approved October 20, 1951, and conforming Regulations 130 (26 CFR Part 40) to section 313 of the Revenue Act of 1951. After consideration of all such relevant matter as was presented by interested persons relating to the rules proposed, the amendments to Regulations 111 and 130, set forth below, are hereby adopted.

PARAGRAPH 1. There is inserted immediately preceding § 29.101 (2)-1 the following:

SEC. 313. MUTUAL SAVINGS BANKS, BUILDING AND LOAN ASSOCIATIONS, COOPERATIVE BANKS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Mutual savings banks.* Section 101 (2) (relating to exemption from tax of mutual savings banks) is hereby repealed.

* * * * * *

(j) *Effective date.* The amendments made by this section shall be applicable only with respect to taxable years beginning after December 31, 1951.

PAR. 2. Section 29.101 (2)-1 is amended as follows:

(A) By changing the headnote thereof to read as follows:

§ 29.101 (2)-1 *Mutual savings banks; taxable years beginning prior to January 1, 1952.* * * *

(B) By inserting immediately preceding the first sentence thereof the following new sentence: "The provisions of this section shall be applicable only to taxable years beginning prior to January 1, 1952. For taxable years beginning after December 31, 1951, see § 29.101 (2)-2."

PAR. 3. There is inserted immediately preceding § 29.101 (3)-1 the following new section:

§ 29.101 (2)-2 *Mutual savings banks; taxable years beginning after December 31, 1951.* (a) For taxable years beginning after December 31, 1951, a mutual savings bank not having capital stock represented by shares is subject to both normal tax and surtax as in the case of other corporations. Such a bank is, however, not subject to excess profits tax. For special rules governing the taxation of a mutual savings bank conducting a life insurance business, see section 110 and the regulations prescribed thereunder.

(b) While the general principles for determining the net income of a corporation are applicable to a mutual savings bank not having capital stock represented by shares, there are certain exceptions and special rules governing the computation in the case of such a bank. See § 29.23 (k)-5 for special rules concerning additions to reserves for bad debts. See also § 29.23 (r)-1, relating to dividends paid by banking corporations, for special rules concerning deductions for amounts paid to, or credited to the accounts of, depositors as dividends. Furthermore, in determining the normal tax net income of such a mutual savings bank, the credit for dividends received provided in section 26 (b) shall not be applicable to dividends which were deductible in computing the net income of the distributing corporation under section 23 (r).

(c) The taxable year (fiscal year or calendar year, as the case may be) of a mutual savings bank not having capital stock represented by shares shall be determined without regard to the fact that the taxpayer may have been exempt from tax during any prior period. See sections 41 and 48 and the regulations thereunder. Similarly, in computing net income, the determination of the taxable year for which an item of income or expense is taken into account shall be made under the provisions of sections 41, 42, and 43, and the regulations thereunder, whether or not the item arose during a taxable year beginning before, on, or after December 31, 1951. For the purpose of determining the method of accounting of the mutual savings bank under section 41, a method of accounting recognized under section 41 and under the regulations prescribed thereunder, and utilized in the return of such a bank filed for the first taxable year beginning after December 31, 1951, shall be deemed to constitute the method of accounting regularly employed by the mutual savings bank. The method selected shall be subject to the approval of the Commissioner upon the examination of the return. Any change in the method so selected and so approved may be made only if permission is obtained from the Commissioner under § 29.41-2 to change to another recognized method. For the purpose of computing, under section 122, the net operating loss deduction provided in section 23 (s), the terms "preceding taxable year" and "preceding taxable years", as used in section 122, shall not include any taxable year for which the mutual savings bank was exempt from tax. Thus, if the mutual savings bank was exempt from tax for the immediately preceding taxable year, the net operating loss is not a carry-back to any preceding taxable year, and the net operating loss carry-over to succeeding taxable years is not reduced by the net income for any preceding taxable year. No net operating loss carry-back or carry-over shall be allowed from a taxable year beginning prior to January 1, 1952.

PAR. 4. There is inserted immediately preceding § 29.101 (4)-1 the following:

SEC. 313. MUTUAL SAVINGS BANKS, BUILDING AND LOAN ASSOCIATIONS, COOPERATIVE BANKS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

* * * * * *

(b) *Building and loan associations and cooperative banks.* Section 101 (4) (relating to exemption from tax of building and loan associations and cooperative banks) is hereby amended to read as follows:

(4) Credit unions without capital stock organized and operated for mutual purposes and without profit; and corporations or associations without capital stock organized prior to September 1, 1951, and operated for mutual purposes and without profit for the purpose of providing reserve funds for, and insurance of, shares or deposits in—

(A) Domestic building and loan associations,

(B) Cooperative banks without capital stock organized and operated for mutual purposes and without profit, or

(C) Mutual savings banks not having capital stock represented by shares;.

* * * * * *

(j) *Effective date.* The amendments made by this section shall be applicable only with respect to taxable years beginning after December 31, 1951.

PAR. 5. Section 29.101 (4)-1 is amended as follows:

(A) By changing the headnote thereof to read as follows:

§ 29.101 (4)-1 *Building and loan associations and cooperative banks; taxable years beginning prior to January 1, 1952.* * * *

(B) By inserting immediately preceding the first sentence of paragraph (a) thereof the following: "The provisions of this section shall be applicable only to taxable years beginning prior to January 1, 1952. For taxable years beginning after December 31, 1951, see § 29.101 (4)-2."

PAR. 6. There are inserted immediately preceding § 29.101 (5)-1 the following new sections:

§ 29.101 (4)-2 *Building and loan associations and cooperative banks; taxable years beginning after December 31, 1951.* (a) For taxable years beginning after December 31, 1951, a building and loan association and a cooperative bank not having capital stock represented by shares are subject to both normal tax and surtax as in the case of other corporations. Such institutions are, however, not subject to excess profits tax.

(b) While the general principles for determining the net income of a corporation are applicable to a building and loan association and a cooperative bank not having capital stock represented by shares, there are certain exceptions and special rules governing the computation in the case of such institutions. See § 29.23 (k)-5 for special rules concerning additions to reserves for bad debts. See also § 29.23 (r)-1, relating to dividends paid by banking corporations, for special rules concerning deductions for amounts paid to, or credited to the accounts of, holders of withdrawable accounts as dividends. Furthermore, in determining the normal tax net income of a building and loan association and a cooperative bank, the credit for dividends received provided in section 26 (b) shall not be applicable to dividends which were deductible in computing the net income of the distributing corporations under section 23 (r).

(c) The taxable year (fiscal year or calendar year, as the case may be) of a building and loan association and a cooperative bank not having capital stock represented by shares shall be determined without regard to the fact that the taxpayer may have been exempt from tax during any prior period. See sections 41 and 48 and the regulations

thereunder. Similarly, in computing net income, the determination of the taxable year for which an item of income or expense is taken into account shall be made under the provisions of sections 41, 42, and 43, and the regulations thereunder, whether or not the item arose during a taxable year beginning before, on, or after December 31, 1951. For the purpose of determining the method of accounting of the building and loan association or cooperative bank under section 41, a method of accounting recognized under section 41 and under the regulations prescribed thereunder and utilized in the return of such institution filed for the first taxable year beginning after December 31, 1951, shall be deemed to constitute the method of accounting regularly employed by the institution. The method selected shall be subject to the approval of the Commissioner upon the examination of the return. Any change of the method so selected and so approved may be made only if permission is obtained from the Commissioner to change to another recognized basis in accordance with § 29.41–2. For the purpose of computing, under section 122, the net operating loss deduction provided in section 23 (s), the terms "preceding taxable year" and "preceding taxable years", as used in section 122, shall not include any taxable year for which the building and loan association and cooperative bank were exempt from tax. Thus, if the building and loan association and cooperative bank were exempt from tax for the immediately preceding taxable year, the net operating loss is not a carry-back to any preceding taxable year, and the net operating loss carry-over to succeeding taxable years is not reduced by the net income for any preceding taxable year. No net operating loss carry-back or carry-over shall be allowed from a taxable year beginning prior to January 1, 1952.

§ 29.101 (4)–3 *Credit unions and mutual insurance funds.* Credit unions (other than Federal credit unions which are exempt under section 101 (15)) without capital stock organized and operated for mutual purposes and without profit are exempt from tax under section 101 (4). Corporations or associations without capital stock organized prior to September 1, 1951, and operated for mutual purposes and without profit for the purpose of providing reserve funds for and insurance of shares or deposits in:

(a) Domestic building and loan associations as defined in section 3797 (a) (19),

(b) Cooperative banks without capital stock organized and operated for mutual purposes and without profit, or

(c) Mutual savings banks not having capital stock represented by shares,

are exempt from tax under section 101 (4).

PAR. 7. There is inserted immediately preceding § 29.23 (k)–1 the following:

SEC. 313. MUTUAL SAVINGS BANKS, BUILDING AND LOAN ASSOCIATIONS, COOPERATIVE BANKS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

• • • • •

(e) *Bad debt reserves.* Section 23 (k) (1) (relating to deduction from gross income of bad debts) is hereby amended by adding at the end thereof the following: "In the case of a mutual savings bank not having capital stock represented by shares, a domestic building and loan association, and a cooperative bank without capital stock organized and operated for mutual purposes and without profit, the reasonable addition to a reserve for bad debts shall be determined with due regard to the amount of the taxpayer's surplus or bad debt reserves existing at the close of December 31, 1951. In the case of a taxpayer described in the preceding sentence, the reasonable addition to a reserve for bad debts for any taxable year shall in no case be less than the amount determined by the taxpayer as the reasonable addition for such year; except that the amount determined by the taxpayer under this sentence shall not be greater than the lesser of (A) the amount of its net income for the taxable year, computed without regard to this subsection, or (B) the amount by which 12 per centum of the total deposits or withdrawable accounts of its depositors at the close of such year exceeds the sum of its surplus, undivided profits, and reserves at the beginning of the taxable year."

• • • • •

(j) *Effective date.* The amendments made by this section shall be applicable only with respect to taxable years beginning after December 31, 1951.

PAR. 8. Section 29.23 (k)–5 is amended as follows:

(A) By changing the headnote thereof to read as follows:

§ 29.23 (k)–5 *Reserve for bad debts—(a) Taxpayers other than mutual savings banks, building and loan associations and cooperative banks.* • • •

(B) By redesignating paragraphs (a) and (b) as subparagraphs (1) and (2) of paragraph (a).

(C) By inserting at the end thereof the following new paragraph:

(b) *Mutual savings banks, building and loan associations, and cooperative banks—(1) In general.* For taxable years beginning after December 31, 1951, a mutual savings bank not having capital stock represented by shares, a domestic building and loan association, and a cooperative bank without capital stock organized and operated for mutual purposes and without profit may, as an alternative to a deduction from gross income for specific debts which become worthless in whole or in part deduct amounts credited to a reserve for bad debts in the manner and under the circumstances prescribed in this section. In the case of such an institution the selection of either of the alternative methods for treating bad debts may be made by the taxpayer in the return for its first taxable year beginning after December 31, 1951. The method selected shall be subject to the approval of the Commissioner upon examination of the return. Any change in the method so selected and approved may be made only if permission is granted as provided in § 29.23 (k)–1 (a).

(2) *Definitions.* When used in this paragraph:

(i) The term "institution" means either a mutual savings bank not having capital stock represented by shares, a domestic building and loan association as defined in section 3797 (a) (19), or a cooperative bank without capital stock organized and operated for mutual purposes and without profit.

(ii) "Surplus, undivided profits, and reserves" means the amount by which the total assets of an institution exceed the amount of the total liabilities of such an institution. For this purpose the term "total assets" means the sum of money, plus the aggregate of the adjusted basis of the property other than money held by an institution. Such adjusted basis for any asset is its adjusted basis for determining gain upon sale or exchange for Federal income tax purposes. (See, in general, section 113 and the regulations prescribed thereunder. For special rules with respect to adjustments to basis for prior taxable years during which the institution was exempt from tax, see § 29.113 (b) (1)–4.) The determination of the total assets of any taxpayer shall conform to the method of accounting employed by such taxpayer in determining net income and to the rules applicable in determining its earnings and profits. The term "total liabilities" means all liabilities of the taxpayer, which are fixed and determined, absolute and not contingent, and includes those items which constitute liabilities in the sense of debts or obligations. The total deposits or withdrawable accounts, as defined in subdivision (iv) of this subparagraph, shall be considered a liability. In the case of a building and loan association having permanent nonwithdrawable capital stock represented by shares, the paid-in amount of such stock shall also be considered a liability. Reserves for contingencies and other reserves, however, which are mere appropriations of surplus are not liabilities.

(iii) The term "surplus or bad debt reserves existing at the close of December 31, 1951" means the amount of surplus, undivided profits, and reserves accumulated by the institution prior to January 1, 1952, and in existence at the close of December 31, 1951.

(iv) The term "total deposits or withdrawable accounts" means the aggregate of (*a*) amounts placed with an institution for deposit or investment and (*b*) earnings outstanding on the books of account of the institution at the close of the taxable year which have been credited as dividends upon such accounts prior to the close of the taxable year, except that in the case of a building and loan association, such term does not include permanent nonwithdrawable capital stock represented by shares, or earnings credited thereon.

(3) *Institutions with surplus, reserves, and undivided profits in an amount less than 12 percent of total deposits or withdrawable accounts.* Where 12 percent of the total deposits or withdrawable accounts of an institution at the close of the taxable year exceeds the sum of its surplus, undivided profits, and reserves at the beginning of the taxable year, there is allowable as a deduction from gross income as an addition to a reserve for bad debts any amount determined by the taxpayer not exceeding the lesser of:

(i) The amount of the net income of such institution for the taxable year computed without regard to section 23 (k) (1) or,

(ii) The amount by which 12 percent of the total deposits or withdrawable accounts at the close of the taxable year exceeds the sum of the institution's surplus, undivided profits, and reserves at the beginning of the taxable year.

Bad debt losses sustained during the taxable year shall be charged against the bad debt reserve. Recoveries of debts charged against the bad debt reserve during a prior taxable year in which the institution was subject to tax under this chapter shall be credited to the bad debt reserve. The establishment of such reserve and all adjustments made thereto must be reflected on the regular books of account of the institution at the close of the taxable year, or as soon as practicable thereafter. For the purpose of this paragraph minimum amounts credited in compliance with Federal or State statutes, regulations, or supervisory orders, to reserve or similar accounts, or additional amounts credited to such reserve or similar accounts and permissive under such statutes, regulations, or orders, against which charges may be made for the purpose of absorbing losses sustained by an institution will be deemed to have been credited to the bad debt reserve authorized under this paragraph.

Example (1). On January 1, 1952, and on December 31, 1952, Institution A, which keeps its books on the basis of the calendar year, has total deposits or withdrawable accounts of $10,000,000, all of which amount is insured by an agency of the Federal government. The surplus, reserves, and undivided profits of Institution A at the opening of business on January 1, 1952, total $800,000. A regulation of a Federal agency requires that at the close of the taxable year an amount equal to 0.3 percent of the value of the insured accounts at the beginning of the year be credited by Institution A to a Federal insurance reserve for the sole purpose of absorbing losses. A statute of the State having jurisdiction over Institution A requires that not less than 5 percent of the net profits of Institution A, computed before provisions for dividends, be credited at the close of the year to a "reserve fund" for the purpose of absorbing losses. The credit to such reserve fund of additional amounts in excess of 5 percent of net profits is permissive under such statute, provided that the total amounts credited do not exceed 25 percent of net profits. It is assumed for the purpose of determining the amount to be credited to the State reserve fund that "not less than 5 percent of the net profits" of Institution A, computed under State law before provisions for dividends for the taxable year 1952 amounts to $17,500.

Prior to the taxable year Institution A did not maintain a reserve for bad debts. During 1952 Institution A sustained bad debt losses of $5,000. The net income of Institution A for the taxable year 1952, computed under chapter 1 after taking into account all applicable deductions (including the deduction for dividends provided in section 23 (r) (1)) except the deduction provided in section 23 (k) (1) is $200,000.

The books of account of Institution A show credits for the taxable year 1952 to the following reserves:

Federal insurance reserve	$30,000
State reserve fund	25,000
Bad debt reserve	45,000
Miscellaneous reserves	15,000

There is allowable as a deduction under section 23 (k) (1) $100,000 ($45,000 credited to the bad debt reserve, $30,000 credited to the Federal insurance reserve, and $25,000 representing a permissive amount less than 25 percent of net profits under the State statute, credited to the State reserve fund).

Assuming that Federal income taxes for 1952 amount to $46,500 on the net income of $100,000, the amount credited to the surplus account for 1952 will be $38,500, that is, $53,500 ($100,000 minus $46,500) less the $15,000 credited to miscellaneous reserves for which no bad debt deduction is allowable. Consequently, the surplus, undivided profits, and reserves of Institution A, amounting to $800,000 at the close of December 31, 1951, as increased by amounts credited to these accounts for 1952 will total $948,500 at the close of December 31, 1952, computed as follows:

Surplus, reserves, and undivided profits at close of Dec. 31, 1951	$800,000
Amount credited to miscellaneous reserve accounts for 1952	15,000
Amount credited to State reserve fund for 1952	25,000
Amount credited to Federal insurance reserve for 1952	30,000
Amount credited to surplus for 1952	38,500
Bad debt reserve at close of Dec. 31, 1951	0
Amount credited to reserve for bad debts for 1952	45,000
Less: Bad debt losses sustained during 1952	5,000
Bad debt reserve at close of Dec. 31, 1952	40,000
Surplus, undivided profits and reserves existing at close of Dec. 31, 1952	948,500

Example (2). The net income of Institution B for the taxable year 1952, computed under chapter 1 after all deductions including the deduction for dividends, but before the deduction provided in section 23 (k) (1), is determined to be $250,000. Such $250,000 is credited by Institution B to the bad debt reserve as provided in section 23 (k) (1) and § 29.23 (k)–5 (b) (3). The amount by which 12 percent of the total deposits or withdrawable accounts of Institution B at the close of the taxable year exceeds the sum of such Institution's surplus, undivided profits and reserves at the beginning of the taxable year is $500,000.

During 1954, upon examination of the return of income filed by Institution B for 1952, it is determined that the net income of such institution, properly computed, without regard to section 23 (k) (1) is $275,000. Assuming that Institution B credits the additional $25,000 to its bad debt reserve, there is allowable as a deduction from gross income for such Institution for the taxable year 1952, $275,000.

(4) *Institutions with surplus, reserves, and undivided profits equal to or in excess of 12 percent of deposits or withdrawable accounts.* Where 12 percent of the total deposits or withdrawable accounts of an institution at the close of the taxable year is equal to or less than the sum of such institution's surplus, undivided profits and reserves at the beginning of the taxable year, there may be allowable as a deduction from gross income a reasonable addition to the reserve for bad debts determined under the general provisions of paragraph (a) of this section. In making such determination there will be taken into account (i) surplus, or bad debt reserves existing at the close of December 31, 1951, and (ii) changes in the surplus, undivided profits, and reserves of the institution from December 31, 1951, until the beginning of the taxable year. Deductions for additions to the reserve for bad debts, in addition to the deductions allowed, if any, under subparagraph (3) of this paragraph will be authorized in those cases where the institution proves to the satisfaction of the Commissioner that the bad debt experience of the institution warrants the maintenance of a bad debt reserve in excess of that provided in subparagraph (3) of this paragraph.

PAR. 9. There is inserted immediately after § 29.113 (b) (1)–3 the following new section:

§ 29.113 (b) (1)–4 *Adjusted basis: Mutual savings banks, building and loan associations, and cooperative banks.* (a) The adjustments to the cost or other basis of property provided in section 113 (b) and § 29.113 (b) (1)–1 to § 29.113 (b) (1)–3, inclusive, are applicable in the case of a mutual savings bank not having capital stock represented by shares, a domestic building and loan association, and a cooperative bank without capital stock organized and operated for mutual purposes and without profit, although such institutions were exempt from tax for taxable years beginning prior to January 1, 1952. Proper adjustment must be made under section 113 (b) for the entire period since the acquisition of property. Thus, adjustment to basis must be made for depreciation allowable for all prior taxable years although such institution may have been exempt from tax during such period. Similarly, in the case of tax exempt and partially taxable bonds purchased at a premium and subject to amortization under section 125, proper adjustment to basis must be made to reflect amortization with respect to such premium from the date of acquisition of the bond.

Example. On January 1, 1952, Z, a mutual savings bank, which keeps its books on a calendar year basis, owns a tax-exempt $1,000 noncallable bond maturing on January 1, 1962. Such bond was acquired by Z on January 1, 1932, for $1,300. It was sold by Z on December 31, 1952, for $1,250. The yearly rate of amortization of the premium, determined by dividing the total premium of $300 by the life of the bond (30 years) is $10. Z realizes a gain of $60 from such sale computed as follows:

(1) Cost of bond	$1,300
(2) Amount of bond premium attributable to years 1942 through 1951, during which Z was exempt from tax ($10 times 10 years)	100
(3) Amount of bond premium amortized from Jan. 1, 1952, through Dec. 31, 1952 ($10 times 1 year)	10
(4) Total amount of adjustments to basis (aggregate of (2) and (3))	110
(5) Adjusted basis of bond at close of 1952 ((1) reduced by (4))	1,190
(6) Gain realized upon sale. Excess of sale price over adjusted basis ($1,250 minus $1,190)	60

The basis of a fully taxable bond purchased at a premium shall be adjusted from the date of the election to amortize

as defined in section 3797 (a) (19), or a such institution for the taxable

such premium in accordance with the provisions of section 125, except that no adjustment shall be allowable for such portion of the premium, attributable to the period prior to the election.

(b) In the case of a mortgage purchased, acquired, or originated at a premium, where the principal of such mortgage is payable in installments, adjustments to the basis of the premium must be made for all taxable years (whether or not the institution was exempt from tax during such years) in which installment payments are received. Such adjustments may be made on an individual mortgage basis or on a composite basis by reference to the average period of payments of the mortgage loans of such institution. For the purpose of this adjustment, the term "premium" includes the excess of the acquisition value of the mortgage over its maturity value. The acquisition value of the mortgage is the cost including buying commissions, attorneys' fees or brokerage fees, but such value does not include amounts paid for accrued interest.

PAR. 10. There is inserted immediately after § 29.23 (q)–1 as amended by Treasury Decision 5924, approved August 4, 1952, the following:

SEC. 313. MUTUAL SAVINGS BANKS, BUILDING AND LOAN ASSOCIATIONS, COOPERATIVE BANKS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

* * * * *

(f) *Dividends paid to depositors.* Section 23 (r) (relating to the deduction from gross income of certain dividends paid by banking corporations) is hereby amended to read as follows:

(r) *Dividends paid by banking corporations.* (1) In the case of mutual savings banks, cooperative banks, and domestic building and loan associations, amounts paid to, or credited to the accounts of, depositors or holders of accounts as dividends on their deposits or withdrawable accounts, if such amounts paid or credited are withdrawable on demand subject only to customary notice of intention to withdraw.

(2) For deduction of dividends paid by certain other banking corporations, see section 121.

* * * * *

(j) *Effective date.* The amendments made by this section shall be applicable only with respect to taxable years beginning after December 31, 1951.

§ 29.23 (r)–1 *Dividends paid by mutual savings banks, building and loan associations, and cooperative banks*—(a) *In general.* (1) A mutual savings bank not having capital stock represented by shares, a domestic building and loan association, and a cooperative bank without capital stock organized and operated for mutual purposes and without profit may deduct from gross income amounts which during the taxable year are paid to or credited to the accounts of depositors or holders of accounts, as dividends on their deposits or withdrawable accounts, if such amounts paid or credited are withdrawable on demand subject only to customary notice of intention to withdraw.

(2) The deduction provided in section 23 (r) (1) is applicable to the taxable year in which amounts credited as dividends become withdrawable by the depositor or holder of account subject only to customary notice of intention to withdraw. Thus, amounts credited as dividends as of the last day of the taxable year which are not withdrawable by depositors or holders of accounts until the business day next succeeding are deductible under this section in the year subsequent to the taxable year in which they were credited. A deduction under this section will not be denied by reason of the fact that amounts credited as dividends, otherwise deductible under this section, are subject to the terms of a pledge agreement between the institution and the depositor or holder of account. In the case of a building and loan association having nonwithdrawable capital stock represented by shares, no deduction is allowable under this section for amounts paid or credited as dividends on such shares.

(b) *Serial associations, bonus plans, etc.* In the case of a building and loan association which operates in whole or in part as a serial association, which maintains a bonus plan, or which issues shares subject to fines, penalties, forfeitures, or other withdrawal fees, there is deductible under section 23 (r) (1) the total amount credited as dividends upon such shares, credited to a bonus account for such shares, or allocated to a series of shares for the taxable year, notwithstanding that as a customary condition of withdrawal—

(1) Amounts invested in, and earnings credited to, series shares must be withdrawn in multiples of even shares, or

(2) Such association has the right, pursuant to by-law, contract, or otherwise, to retain or recover a portion of the total amount invested in, or credited as earnings upon, such shares, such bonus account or series of shares, as a fine, penalty, forfeiture or other withdrawal fee.

In any taxable year in which the right referred to in subparagraph (2) of this paragraph is exercised, there is includible in the gross income of such association for such taxable year, amounts retained or recovered by the association pursuant to the exercises of such right.

§ 29.23 (r)–2 *Dividends paid by certain banking corporations other than mutual savings banks, building and loan associations, and cooperative banks.* For deduction of dividends paid by certain banking corporations other than mutual savings banks, building and loan associations, and cooperative banks, see section 121.

PAR. 11. There is inserted immediately after § 29.23 (bb)–1, as added by Treasury Decision 5873, approved December 7, 1951, the following:

SEC. 313. MUTUAL SAVINGS BANKS, BUILDING AND LOAN ASSOCIATIONS, COOPERATIVE BANKS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

* * * * *

(g) *Deduction for repayment of certain loans.* Section 23 (relating to deductions from gross income) is hereby amended by adding at the end thereof the following:

(dd) *Repayment by mutual savings banks, etc., of certain loans.* In the case of a mutual savings bank not having capital stock represented by shares, a domestic building and loan association, or a cooperative bank without capital stock organized and operated for mutual purposes and without profit, amounts paid by the taxpayer during the taxable year in repayment of loans made prior to September 1, 1951, by (1) the United States or any agency or instrumentality thereof which is wholly owned by the United States, or (2) any mutual fund established under the authority of the laws of any State.

* * * * *

(j) *Effective date.* The amendments made by this section shall be applicable only with respect to taxable years beginning after December 31, 1951.

§ 29.23 (dd)–1 *Repayment of certain loans by mutual savings banks, building and loan associations, and cooperative banks.* For taxable years beginning after December 31, 1951, there shall be deductible under section 23 (dd) from the gross income of a mutual savings bank not having capital stock represented by shares, a domestic building and loan association, or a cooperative bank without capital stock organized and operated for mutual purposes and without profit, amounts paid by such institutions during the taxable year in repayment of loans made prior to September 1, 1951, by the United States or any agency or instrumentality thereof which is wholly owned by the United States, and amounts paid to a mutual fund established under the authority of the laws of any State. For example, amounts paid by such institution in repayment of loans made by the Reconstruction Finance Corporation prior to September 1, 1951, are deductible under this section. Section 23 (dd) is not applicable, however, in the case of amounts paid to an agency or instrumentality not wholly owned by the United States.

PAR. 12. There is inserted immediately preceding § 29.104–1 the following:

SEC. 313. MUTUAL SAVINGS BANKS, BUILDING AND LOAN ASSOCIATIONS, COOPERATIVE BANKS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

* * * * *

(h) *Definition of bank.* Section 104 (a) (relating to definition of bank) is hereby amended by inserting at the end thereof the following: "Such term also means a domestic building and loan association."

* * * * *

(j) *Effective date.* The amendments made by this section shall be applicable only with respect to taxable years beginning after December 31, 1951.

PAR. 13. There is inserted immediately preceding § 29.3797–1 the following:

SEC. 313. MUTUAL SAVINGS BANKS, BUILDING AND LOAN ASSOCIATIONS, COOPERATIVE BANKS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

* * * * *

(l) *Definition of domestic building and loan association.* Section 3797 (a) (relating to definitions for the purpose of the Internal Revenue Code) is hereby amended by adding at the end thereof the following new paragraph:

(19) *Domestic building and loan association.* The term "domestic building and loan association" means a domestic building and loan association, a domestic savings and loan association, and a Federal savings and loan associations, substantially all the business of

which is confined to making loans to members.

(j) *Effective date.* The amendments made by this section shall be applicable only with respect to taxable years beginning after December 31, 1951.

PAR. 14. There is inserted immediately preceding § 29.111–1 the following:

SEC. 346. LIFE INSURANCE DEPARTMENTS OF MUTUAL SAVINGS BANKS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

(a) *Computation of tax.* Supplement A of chapter 1 is hereby amended by adding at the end thereof the following new section:

SEC. 110. MUTUAL SAVINGS BANKS CONDUCTING LIFE INSURANCE BUSINESS.

(a) *Alternative tax.* In the case of a mutual savings bank not having capital stock represented by shares, authorized under State law to engage in the business of issuing life insurance contracts, and which conducts a life insurance business in a separate department the accounts of which are maintained separately from the other accounts of the mutual savings bank, there shall be levied, collected, and paid, in lieu of the taxes imposed by sections 13 and 15, or section 117 (c) (1), a tax consisting of the sum of the partial taxes determined under paragraphs (1) and (2):

(1) A partial tax computed upon the net income determined without regard to any items of gross income or deductions properly allocable to the business of the life insurance department, at the rates and in the manner as if this section has not been enacted; and

(2) A partial tax computed upon the net income (as defined in section 201 (c) (7)) of the life insurance department determined without regard to any items of gross income or deductions not properly allocable to such department, at the rates and in the manner provided in Supplement G with respect to life insurance companies.

(b) *Limitations of section.* The provisions of subsection (a) shall be applicable only if the life insurance department would, if it were treated as a separate corporation, qualify as a life insurance company under section 201 (b).

* * * * *

(c) *Effective date.* The amendments made by this section shall be applicable only with respect to taxable years beginning after December 31, 1951.

§ 29.110–1 *Mutual savings bank conducting life insurance business*—(a) *Scope of application.* Section 110 is applicable in the case of a mutual savings bank not having capital stock represented by shares which conducts a life insurance business, if:

(1) The conduct of such business is authorized under State law.

(2) The life insurance business is carried on in a separate department of the bank,

(3) The books of account of the life insurance business are maintained separately from other departments of the bank, and

(4) The life insurance department of the bank, were it separately incorporated, would qualify as a life insurance company under section 201 (b).

(b) *Computation of tax.* In the case of a mutual savings bank conducting a life insurance business to which section 110 is applicable, the tax upon such bank consists of the sum of the following:

(1) A partial tax computed under sections 13 and 15 upon the net income of the bank determined without regard to any items of income or deduction properly allocable to the life insurance department.

(2) A partial tax upon the net income of the life insurance department determined without regard to any items of income or deduction not properly allocable to such department at the rates and in the manner provided in Supplement G with respect to life insurance companies.

PAR. 15. There is inserted immediately preceding § 29.13–1, the following:

SEC. 346. LIFE INSURANCE DEPARTMENTS OF MUTUAL SAVINGS BANKS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

* * * * *

(b) *Technical amendments.* Section 13 (relating to normal tax on corporations) is hereby amended by adding at the end thereof the following new subsection:

(f) *Mutual savings banks conducting life insurance business.* For special tax, in lieu of the taxes imposed by this section see section 15, in the case of a mutual savings bank conducting a life insurance business, see section 110.

(c) *Effective date.* The amendments made by this section shall be applicable only with respect to taxable years beginning after December 31, 1951.

PAR. 16. Section 29.22 (b) (4)–2 (a) is hereby amended as follows:

(A) By inserting immediately following the second sentence thereof which sentence begins with "Section 7 of the Federal Reserve Act" the following: "Section 13 of the Federal Home Loan Bank Act (47 Stat. 725, 12 U. S. C. 1946 ed., 1433) provides that the Federal Home Loan Bank including its franchise, its capital, reserves, and surplus, its advances, and its income shall be exempt from all taxation except taxes upon real estate."

(B) By inserting in the fourth sentence thereof, after "Federal land banks, national farm-loan associations" the following: "Federal home loan banks,".

PAR. 17. There is inserted immediately preceding § 40.454–1 the following:

SEC. 313. MUTUAL SAVINGS BANKS, BUILDING AND LOAN ASSOCIATIONS, COOPERATIVE BANKS (REVENUE ACT OF 1951, APPROVED OCTOBER 20, 1951).

* * * * *

(c) *Exemptions from excess profits tax.* Section 454 (corporations exempt from the excess profits tax) is hereby amended by adding at the end thereof the following:

(h) Any mutual savings bank not having capital stock represented by shares, any domestic building and loan association (as defined in section 3797 (a) (19)), and any cooperative bank without capital stock organized and operated for mutual purposes and without profit.

* * * * *

(j) *Effective date.* The amendments made by this section shall be applicable only with respect to taxable years beginning after December 31, 1951.

PAR. 18. Section 40.454–1 is amended by striking from the first sentence of paragraph (e) thereof the words "or (g)" and by inserting in lieu thereof the words "(g), or (h)."

(53 Stat. 32, 467; 26 U. S. C. 62, 3791)

[SEAL] JOHN S. GRAHAM,
Acting Commissioner of Internal Revenue.

Approved: December 8, 1952.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

TITLE 32—NATIONAL DEFENSE

Chapter XVIII—United States Court of Military Appeals

PART 1800—RULES OF PRACTICE AND PROCEDURE

ORAL ARGUMENT

Section 1800.44 of the revised Rules of Practice and Procedure of the United States Court of Military Appeals prescribed pursuant to authority contained in Article 67 of the Uniform Code of Military Justice, act of May 5, 1950 (64 Stat. 129), and appearing at 17 F. R. 2046, is amended as follows:

§ 1800.44 *Oral argument.* Oral argument will be heard after briefs have been filed in accordance with §§ 1800.39, 1800.40, or 1800.41.

(a) *Presentation.* The appellant shall be entitled to open and close the argument; in the event both parties desire a review of a decision of a board of review, the accused shall be entitled to open and close.

(b) *Number of counsel.* Not more than two counsel for each side shall be heard in oral argument unless the Court otherwise orders.

(c) *Time.* Not more than thirty minutes on each side shall be allowed for oral argument unless the time is extended by leave of Court.

(d) *Failure of counsel to appear.* If counsel fail to appear at the time set for oral argument the Court may consider the case as having been submitted without argument or, in its discretion, continue the case until a later date.

(e) *Failure of counsel for one party to appear.* If counsel for one party falls to appear the Court may hear oral argument from the counsel appearing or, in its discretion, continue the case until a later date.

(f) *Waiver of oral argument.* A case may be submitted on briefs without oral argument with permission of the Court.

(Art. 67, 64 Stat. 129; 50 U. S. C. 654)

This amendment shall be effective December 1, 1952.

ROBERT E. QUINN,
Chief Judge.
GEORGE W. LATIMER,
Judge.
PAUL W. BROSMAN,
Judge.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[General Overriding Regulation 2, Revision 1, Amdt. 4]

GOR 2—SALES TO UNITED STATES, ITS AGENTS AND SUPPLIERS

COMMODITIES DESTINED FOR EXPORTATION BY THE UNITED STATES GOVERNMENT AND SALES TO THE BUREAU OF MINES, UNITED STATES DEPARTMENT OF THE INTERIOR OF HELIUM-BEARING NATURAL GAS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 4, to General Overriding Regulation 2, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

This Amendment 4 to General Overriding Regulation 2, Revision 1, (GOR 2, Rev. 1) authorizes persons selling commodities destined for exportation by the United States Government to be reimbursed for special packaging, marking, and handling charges incurred by them as a result of export requirements. This Amendment also exempts from ceiling price regulation sales to the Bureau of Mines, United States Department of the Interior, of helium-bearing natural gas and the right to extract helium from such gas.

Until now, persons selling commodities destined for exportation by the United States or one of its agencies have not generally been allowed to add to their ceiling price special packaging, marking, and handling expenses incurred by them in order to meet export requirements, although regulations covering certain commodities do permit it. Since these expenses often are substantial, and in some cases constitute more than half of the total cost, this amendment permits any seller to add to his ceiling price certain exportation expenses incurred by him in connection with such sales.

The Bureau of Mines is the sole producer of helium in the United States, pursuant to the Act of September 1, 1937 (50 Stat. 885; 50 U. S. C. 161–166). At its plants, helium is extracted from helium-bearing natural gas obtained by the Bureau of Mines under long term contracts with natural gas producing companies.

Demands for helium are increasing and it is necessary for the Bureau of Mines to obtain additional supplies of helium-bearing natural gas, in some cases at higher prices. Some of it must come from new sources whose normal operations are not subject to ceiling price regulation.

Contracts for the extraction of helium from natural gas are not contracts for the purchase and sale of natural gas. The conditions are quite different from those in ordinary gas sales transactions. Consequently, the prevailing market price for natural gas is not always a fair criterion for the determination of the price to be paid for these rights. Of the cost of helium to the ultimate consumer, less than five percent is for the helium-bearing gas. No foreseeable change in the prices paid by the Bureau of Mines under these contracts could have any significant effect on the price of helium. On the other hand, the continuance of ceiling price regulation over these contracts would tend to impede the Bureau of Mines in its efforts to obtain additional supplies of helium-bearing gas and would involve an administrative burden disproportionate to its contribution to the Stabilization program.

In the formulation of this amendment there has been consultation with the Bureau of Mines and other Government agencies and consideration has been given to their recommendations.

AMENDATORY PROVISIONS

1. Article I of General Overriding Regulation 2, Revision 1, entitled "Exemptions" is amended by adding at the end thereof the following new section:

SEC. 10. *Helium and helium-bearing gas sold to the Bureau of Mines.* No price regulation shall apply to the sale of helium-bearing natural gas to the Bureau of Mines, United States Department of the Interior or the right to extract helium from such gas.

2. Article IV of General Overriding Regulation 2, Revision 1, entitled "Alternative Ceiling Prices," as amended, is amended by adding at the end thereof the following new section:

SEC. 44. *Commodities destined for exportation by the United States Government.* Notwithstanding the provisions of any other price regulation, you may add to your domestic ceiling price the costs of exportation incurred by you on sales of any commodity destined for exportation by the United States or any agency thereof. (The terms "exportation" and "costs of exportation" are defined in section 74.)

3. Section 74 of General Overriding Regulation 2, Revision 1, entitled "Definitions" is amended in the following respects: a. The letters of the alphabet (i. e., (a), (b), (c), etc.), which precede the various definitions are hereby deleted. b. The following definitions are inserted in alphabetical order:

"Costs of exportation" means the following costs (other than sales commissions) actually incurred in or in connection with the sale of a commodity destined for exportation, over and above those incurred and included in the applicable domestic ceiling price if the commodity were sold for domestic consumption:

(a) Export packaging and marking, (b) local drayage, including waiting time at the dock, loading and unloading, tollage, switching, dumping and trimming, lighterage and wharfage, (c) inland freight, (d) and other similar charges which you are required to pay by the Government procurement agency.

"Exportation" means the delivery or shipment of a commodity from the United States or a Territory or Possession of the United States.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 4 shall become effective December 10, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization

TITLE 36—PARKS, FORESTS, AND MEMORIALS

Chapter I—National Park Service, Department of the Interior

PART 1—GENERAL RULES AND REGULATIONS

MISCELLANEOUS AMENDMENTS

1. Paragraph (a) of § 1.11, entitled *Firearms, etc.*, is amended to read as follows:

(a) Explosives, traps, seines, nets (except landing nets following the capture of fish by the authorized rod and hook-and-line), and loaded or assembled firearms, including air pistols and rifles and blow guns using CO_2 gas cartridges, bows and arrows or cross bows, and other implements designed to discharge missiles capable of destroying animal life, are prohibited within the parks and monuments, except upon the written permission of the superintendent, or his authorized representative, unless they are adequately sealed, cased, broken down, or otherwise packed in such a way as to prevent their use while in the areas: *Provided, however,* That visitors entering the parks and monuments, or traveling through them to places beyond, shall, at entrance, report all such objects in their possession and, if required to do so in the interest of special park protective measures, surrender them to the first park or monument officer whom they encounter. Such objects as may be surrendered will be returned to the owners upon their departure from the area. The park or monument officers are not authorized to accept the responsibility or custody of any other property for the convenience of visitors.

2. Paragraph (e) of § 1.14, entitled *Mountain summit climbing*, is amended to read as follows:

(e) No individual will be permitted to start or continue alone for the summit of Mount McKinley, Mount Rainier, or any major peak in Grand Teton National Park, or Devils Tower, or beyond the toe of the talus slope in Mount Rushmore National Memorial.

3. Paragraph (f) of § 1.48, entitled *Lights*, is amended to read as follows:

(f) The use of red lighting devices of any character on the front of any vehicles, except highway patrol cars, ambulances, fire trucks, and snow plows, is prohibited.

4. Subparagraph (7), entitled *Fort Jefferson National Monument, Florida*, of paragraph (a), § 1.61 *Aircraft*, is redesignated as subparagraph (6).

(39 Stat. 535; 16 U. S. C. 3)

Issued this 5th day of December 1952.

VERNON D. NORTHROP,
Under Secretary of the Interior.

PROPOSED RULE MAKING

DEPARTMENT OF LABOR

Office of the Secretary

[41 CFR Part 202]

MINIMUM WAGE DETERMINATIONS

DETERMINATION OF PREVAILING MINIMUM WAGE FOR TEXTILE INDUSTRY

This matter is before the Department pursuant to the act of June 30, 1936 (49 Stat. 2036; 41 U. S. C. 35), as amended by the Defense Production Act Amendments of 1952 (sec. 310, P. L. 429, 82d Cong.), entitled "An Act to provide conditions for the purchase of supplies and the making of contracts by the United States, and for other purposes," and known as the Walsh-Healey Public Contracts Act.

The Secretary of Labor, in a minimum wage determination issued pursuant to the provisions of the Walsh-Healey Public Contracts Act and made effective November 16, 1948 (13 F. R. 6083), determined the minimum wage for persons employed in the textile industry in the performance of contracts with agencies of the United States Government subject to the act to be not less than 87 cents per hour. This determination also authorized employment of learners in specified occupations at rates not less than 80 cents an hour for a learning period not longer than 240 hours. This determination is currently in effect as editorially revised and published in the FEDERAL REGISTER on July 20, 1950 (15 F. R. 4634).

The Textile Workers Union of America, CIO, submitted a petition dated January 23, 1952, for determination of a minimum wage of $1.135 an hour in the textile industry with a wage escalator provision of one cent quarterly adjustment for each 1.32 rise in the Consumer's Price Index (Old Series) beginning with February 15, 1951, and urged retention of the currently effective definition of the industry.

The United Textile Workers Union, AFL, submitted a petition, dated March 4, 1952, for determination of a minimum wage of $1.13 an hour with an escalator clause and the other so-called fringe benefits of vacations with pay and holiday and shift premiums as provided in its collective bargaining agreements.

Representations in these petitions with respect to current wage rates provided in collective bargaining agreements and other wage data reported from time to time by textile manufacturing establishments and associations indicated that the 87-cent rate now in effect may not reflect the prevailing minimum wages in the textile industry. This proceeding was, therefore, initiated for the purpose of consideration of an amendment to the current determination which will reflect the minimum wages now prevailing.

An informal panel conference was held on March 4, 1952, at which representatives of the Department of Labor met with representatives of management and labor in the textile industry and discussed various matters concerning the textile industry, including questions of definition of the industry and the obtaining of adequate wage information.

General. Notice of a hearing in this matter to be held on September 4, 1952, was published in the FEDERAL REGISTER on July 26, 1952 (17 F. R. 6871). Copies of the notice and a press release announcing the hearing were mailed to trade associations, unions, and to individual companies in the industry. In addition, the press release was distributed to newspapers and trade publications.

This notice and release advised interested persons of the time and place at which they could appear and offer testimony: (1) As to what are the prevailing minimum wages in the textile industry; (2) as to whether there should be included in any amended determination for this industry provision for employment of learners, beginners, and/or apprentices at subminimum rates, and if so, in what occupations, at what subminimum rates, and with what limitations, if any, as to length of period and number or proportion of such subminimum rate employees; and (3) as to the propriety of the present definition of the industry as set out in the notice of hearing. The notice stated that "The following information is particularly invited with respect to the subject matter of the testimony or statements of each witness; (1) the number of workers covered in the presentation; (2) the number and location of establishments; (3) minimum wages paid at the end of a probationary or learner period, the number of workers receiving such wages, and the occupations in which these employees are found; (4) the entrance rate for learners, beginners or probationary workers, the length of such learning or probationary period, and the number of workers paid such entrance rates; and (5) the product or products made by the establishments included." The notice further stated that "To the extent possible, data should be submitted in such a manner as to permit evaluation thereof on a plant by plant basis."

A notice of change of the hearing date and place to 10 a. m. September 3, 1952, in Conference Room A of the Departmental Auditorium in Washington, D. C., was published in the FEDERAL REGISTER on August 8, 1952 (17 F. R. 7255) and was given the same informal distribution to the press and interested employer and employee organizations as the original notice.

The hearing was held on September 3, 4 and 5, 1952, pursuant to the notice and the rules of practice for Minimum Wage Determinations under the Walsh-Healey Public Contracts Act (17 F. R. 7944). Representatives of employees and employers appeared at the hearing to present evidence and testimony, and the record was kept open for a specified pe-

riod beyond the close of the hearing for receipt of additional data and briefs.

Management appearances at the hearing included representatives of the National Cotton Manufacturers Association, the American Cotton Manufacturers Institute, the Association of Cotton Textile Merchants of New York and of several textile establishments. Labor appearances included representatives of the Textile Workers Union of America (CIO) and the United Textile Workers Union (AFL).

In addition letters, statements and briefs were filed by interested parties both at the hearing and following the close of the hearing. All such material has been made part of the record herein. The hearing record was closed as of October 29, 1952.

Definition. The currently effective definition proposed for adoption in the notice of hearing reads as follows:

(a) *Definition.* For the purpose of this determination the term "textile industry" means:

(1) The manufacturing or processing of yarn or thread and all processes preparatory thereto, and the manufacturing, bleaching, dyeing, printing and other finishing of woven fabrics (other than carpets and rugs containing any wool) from cotton, flax, jute, other vegetable fiber, silk, grass, or any synthetic fiber, or from mixtures of these fibers; or from such mixtures of these fibers with wool or animal fiber (other than silk) as are specified in subparagraphs (7) and (8) of this paragraph; except the chemical manufacturing of synthetic fiber and such related processing of yarn as is conducted in establishments manufacturing synthetic fiber;

(2) The manufacturing of batting, wadding, or filling and the processing of waste from the fibers enumerated in subparagraph (1) of this paragraph;

(3) The manufacturing, bleaching, dyeing, or other finishing of pile fabrics or cords (except carpets and rugs containing any wool) from any fiber or yarn;

(4) The processing of any textile fabric, included in this definition of this industry, into any of the following products: Bags, bandages and surgical gauze, bath mats and related articles, bedspreads, blankets, diapers, dishcloths, scrubbing cloths and wash-cloths, sheets and pillow cases, tablecloths, lunchcloths, napkins, towels, window curtains, shoelaces and similar laces;

(5) The manufacturing or finishing of braid, net or lace from any fiber or yarn;

(6) The manufacturing of cordage, rope or twine from any fiber or yarn including the manufacturing of paper yarn and twine;

(7) The manufacturing or processing of yarn (except carpet yarn containing any carpet wool) or thread by systems other than the woolen system from mixtures of wool or animal fiber (other than silk) with any of the fibers designated in subparagraph (1) of this paragraph, containing not more than 45 percent by weight of wool or animal fiber (other than silk);

(8) The manufacturing, bleaching, dyeing, printing or other finishing of woven fabrics (other than carpets and rugs) from mixtures of wool or animal fiber (other than silk) containing not more than 25 percent by weight of wool or animal fiber (other than silk), with any of the fibers designated in subparagraph (1) of this paragraph, with a margin of tolerance of 2 percent to meet the exigencies of manufacture;

(9) The manufacturing, dyeing, finishing or processing of rugs, or carpets from grass, paper, or from any yarn or fiber except yarn containing any wool but not including the manufacturing by hand of such products.

The definition as proposed in the notice of hearing is that contained in the determination now in effect for the industry.

At the hearing there were introduced into the record letters from five concerns recommending that the proposed definition be modified to exclude "varnished fabrics" on the grounds that these products are not generally made in plants making the other products included in the definition and further that the industrial processes required and the wages paid differ from those in the Textile Industry generally. In this connection, Mr. Verl E. Roberts, Assistant Administrator of the Wage and Hour and Public Contracts Divisions, stated for the record that the Divisions have ruled that the present definition does not cover varnished cloth, artificial leather, oil cloth, window shade cloth, linoleum, felt-base floor covering, dental floss, buckram, waxed cloth, and plastic-treated cloth.

The representative of the Textile Workers Union of America argued that coating and impregnating are normal parts of the dyeing and finishing industry. However, it appears from a later statement of this representative and from the Census of Manufactures, 1947, that while dyeing and finishing plants do, to some extent, perform such coating and impregnating operations, the greater proportion of these operations are performed in plants which specialize in this field.

On the basis of the record, therefore, I find that the definition of this industry should continue to exclude such coated or impregnated textile products as varnished cloth, artificial leather, oil cloth, window shade cloth, linoleum, felt base floor covering, dental floss, buckram, waxed cloth and plastic-coated cloth.

The National Association of Wool Manufacturers, in a letter accepted for the record, argued that the definition of the industry should be modified to exclude any product presently included which contains any proportion of wool or man-made fibers (other than rayon or acetate). Moreover, the Association recommended, as it had previously at the public hearing In the Matter of the Redetermination of the Prevailing Minimum Wages in the Woolen and Worsted Industry, held on May 15, 1952, that these products, that is, products containing any proportion of wool of man-made fibers (other than rayon or acetate), should be included in the definition of the woolen and worstead industry. The adoption of this proposal would have the effect of removing from the definition of the textile industry a great variety of items made from mixtures containing minor proportions of wool or any proportion of man-made fibers (other than rayon or acetate) which are normally manufactured by firms engaged primarily in the production of cotton or synthetic rather than woolen or worsted textiles.

The present lines of demarcation between the textile industry, and the woolen and worsted industry and the knitting, knitwear and woven underwear industry, which would also be affected if the proposal were adopted, are based on traditional industry concepts which have been recognized by the Bureau of the Budget, the Bureau of the Census and in the administration of the Fair Labor Standards Act and the Public Contracts Act. While there is an indication of certain trends which may in time justify a reevaluation of these dividing lines, it does not appear that such shifts as have occurred would warrant a change at this time. Consequently, I find that the request of the National Association of Wool Manufacturers should be denied at this time and that the present definition should not be changed in this regard.

With the exception of the two points mentioned above the only other proposals with respect to the definition were made by the petitioners and three independent unions in the textile field all of whom recommended that the present definition of the textile industry be retained. The other parties present made no proposals either for or against the retention of the present definition. As indicated below, adequate wage data are available in this proceeding only for the cotton, silk, and synthetic textile branch of the textile industry and I am proposing at this time a redetermination of the prevailing minimum wage only for this branch, which is defined at the conclusion of this proposed determination.

Nature of available wage data. As a part of its regular program of conducting wage surveys of important industries, the Bureau of Labor statistics made a study of earnings and related wage practices in the cotton and synthetic textile industries. These surveys which relate to a payroll period in March 1952 covered a large number of firms and employees in the textile industry and constitute the primary data upon which a determination of prevailing minimum wages in this industry can be based.

The first of these surveys relates to establishments in the following categories: Broad woven fabric mills primarily engaged in weaving cotton fabrics over 12 inches in width; cotton yarn mills primarily engaged in spinning, twisting, winding or spooling cotton yarn; and cotton thread mills. The second survey includes establishments in the following categories: Broad woven fabric mills primarily engaged in weaving fabrics of spun or filament silk, rayon, nylon or other synthetic fabrics over 12 inches in width; yarn mills primarily engaged in manufacturing spun yarns from silk, rayon, nylon or other synthetic staple fiber products; yarn throwing mills engaged in rewinding, twisting, plying and packaging of filament silk, rayon, nylon or other synthetic fibers; and thread

mills manufacturing thread from silk, rayon, nylon or other synthetic fibers. In addition to workers engaged in producing these items, the surveys cover other workers in these establishments engaged in producing fabricated textile products and in dyeing and finishing operations.

The Bureau of Labor Statistics published the results of these surveys in separate releases for cotton and for silk and synthetic textiles. Subsequently, the Bureau prepared additional tabulations at the request of the Wage and Hour and Public Contracts Divisions. The original releases plus these additional tabulations are contained in Government Exhibits 18 through 24. After the hearing a need arose for additional tabulations and the Bureau of Labor Statistics prepared a series of supplementary tabulations which were also based on information contained in the two surveys. These latter Bureau of Labor Statistics tabulations are hereby made a part of the record and are available to any interested party for examination and comment. For purposes of reference these tables are identified as Supplementary Government Exhibits A–1 through A–8.

The American Cotton Manufacturers Institute employed a statistical agency to conduct a mail questionnaire survey of firms manufacturing textiles and related products. However, the Institute was unwilling to present for the record more than a fragment of the tabulations which had been prepared from the survey and which the Department had been given to understand would be available. The data offered for the record include a tabulation by county of average minimum wages, weighted by number of establishments, for each county in its survey from which two or more establishments submitted replies to the questionnaire, except where such minima were identical. Subsequent to the hearing, the Institute presented a similar tabulation showing county averages weighted by number of employees. These data include watchmen and others of the custodial group not covered by the act. In addition, they include the earnings of workers engaged in the manufacture of products not included in the definition of the textile industry. Even if these limitations were not present, however, it is evident from the data that the ACMI approach would inevitably lead to illogical and inequitable variations in the determined minimum wage from one community or county to another. For example, the Institute's survey reported an average minimum wage weighted by employees for Tallapoosa County, Alabama, of 101.3 cents an hour. The comparable rates for four nearby counties, three of which are contiguous and one of which is one county removed, were as follows: Chambers, 92.1 cents; Lee, 89.7 cents; Elmore, 99.7 cents; and Talladega, 102.7 cents. It is clear also that whatever separation might be made within the counties, on a community basis, or however the communities or counties were aligned, equally disparate results would ensue.

The Textile Workers Union of America and the United Textile Workers of America submitted copies of a number of collective bargaining agreements and lists showing the names and locations of plants in the industry, the type of products manufactured, employment and minimum wages paid. These lists include both union and nonunion establishments and cover a large proportion of the industry.

In addition, information on average hourly earnings from the Bureau of Labor Statistics, employment and production figures from the Census of Manufactures and copies of collective bargaining agreements on file with the Bureau of Labor Statistics were available to the Department.

Locality. In each of the three previous wage determinations for this industry under the Public Contracts Act a single wage was recognized as the prevailing minimum wage in the industry throughout the United States. At the hearing before the Examiner in the present proceeding arguments were presented with regard to whether recognition of a single nation-wide rate for this industry would be consistent with the statutory language and intent of the Public Contracts Act. It was argued by counsel representing the ACMI and a number of other textile manufacturers that the "locality" language of section 1 (b) of the act[1] requires that minimum rates be established by small geographic areas such as communities in which textiles are produced. The ACMI suggested that in some situations a county or even groups of counties could be considered as a locality. It further suggested that the "locality" comprised of groups of counties need not be confined within State lines but might run through more than one State depending on the various factors and circumstances which might be present. In presenting these arguments no attempt was made to list or otherwise define the factors or circumstances which should be taken into account in determining the limits of such localities and, in fact, it was conceded by counsel that neither they nor the firms they were representing were prepared to offer any concrete criteria which might be applied in delincating such localities.

The National Association of Cotton Manufacturers and both of the unions participating in the hearing presented arguments and data in support of a single minimum wage for the industry. A post-hearing brief filed by the NACM presented a number of arguments to show that the statutory language and the purpose and intent of the Public Contracts Act require a construction which would permit recognition of an industry-wide minimum, and that all of the factors present in the textile industry require that a single industry minimum be recognized in this case.

I have carefully weighed all of the arguments presented and I have considered in detail all of the voluminous data contained in the record in attempting to arrive at a proper determination of these questions. Before undertaking a discussion and analysis of the wage data the legal aspects of the arguments presented on the locality question should be dealt with.

It is abundantly evident from the legislative history of the act that its purpose was to prevent the flow of Government business into the hands of firms that pay substandard wages and maintain low employment standards. Its purpose was, in short, to bring about a situation where employers paying fair and reasonable wages would not lose out on Government business to low-paying firms. Under the system of competitive bidding adhered to by the Government, the various contracting agencies must accept the lowest responsible bid. Obviously, in an industry which utilizes standard equipment and has approximately the same raw material costs, any substantial differences in wages would be reflected in bids submitted on Government work. In recognition of this fact and in order to encourage the maintaining of fair wage standards Congress enacted the Public Contracts Act.

With this Congressional purpose in mind, the specific language of the act must be construed. Any construction of the locality language which would result in freezing the lows and the highs in wages would certainly not carry out the purpose of the act. In other words, if the dominant plant or plants in community A were paying substantially lower wages than plants in community B, the recognition of community A and community B, as separate localities would mean that plants in A could continue to underbid plants in B and the situation would be frozen at that level.

The legislative history of the act indicates clearly that Congress gave serious and lengthy consideration to the possible approaches to the problem of arriving at appropriate minimum wages. In recognition of the difficulties inherent in this field, Congress decided to vest in the Secretary of Labor the administrative function of carrying out the minimum wage provisions of the law and established certain criteria to guide the Secretary of Labor in such functions. The factors which have a bearing on minimum wages present such a pattern of diversity from industry to industry as to render any single formula for determining prevailing wages impractical. Consequently, Congress wisely allowed a degree of administrative discretion to be followed by the Secretary of Labor in applying the criteria laid down in the act. The statute, accordingly, directs the Secretary of Labor to determine prevailing minimum wages in accordance with three distinct standards, namely, the prevailing minimum wages for persons employed (1) on similar work or (2) in the particular or similar industries or (3) in groups of industries currently

[1] Section 1 (b) reads as follows: "That all persons employed by the contractor in the manufacture or furnishing of the materials, supplies, articles, or equipment used in the performance of the contract will be paid, without subsequent deduction or rebate on any account, not less than the minimum wages as determined by the Secretary of Labor to be the prevailing minimum wages for persons employed on similar work or in the particular or similar industries or groups of industries currently operating in the locality in which the materials, supplies, articles, or equipment are to be manufactured or furnished under said contract;".

operating in the locality in which the contract is to be performed. In the context of the act it seems proper to conclude that the phrase "currently operating in the locality" was intended to qualify only groups of industries and does not limit "similar work" or "particular or similar industries."

It is clear, then, considering the broad administrative powers provided throughout the act, that it was the Congressional intent to give the Secretary of Labor substantial latitude in regard to determining prevailing minimum wages and to apply any one or combination of the criteria enunciated in the act in order to properly carry out the purposes of the act.

The evidence in the record discloses certain predominant characteristics of the textile industry as follows: The industry is principally located in three sections of the country—New England, the Middle Atlantic States and the South. Competition in the industry is nation-wide in scope and marketing of the products of the industry is similarly on a national scale. Only in rare instances is there found a situation where a mill markets its product within a limited geographic area. Most textile producers maintain sales representatives or agents in the textile center known as Worth Street in New York City and the vast bulk of textiles are sold through such center. Producers of textiles in such widely separated areas as Maine and Alabama compete for the same business in the Worth Street market. It is not uncommon for mills in different sections of the country to perform different production operations on a given lot of textile fabric. For example, textile gray goods woven in South Carolina may be shipped to New Jersey or Rhode Island for finishing operations consisting of bleaching, dyeing, printing, etc. The goods are then sold on the New York market and may be shipped to customers in Maine, California, Florida, or any other place in the United States, or elsewhere in the world.

The record shows also that Government purchases of textiles are not confined within any geographic limits. In the normal case the Government invites bids from firms located in every textile producing area and bids are received from mills in widely separated regions. Pursuant to a single invitation to bid, contracts for a particular item may be awarded to mills in a number of different States. In some instances various steps in the processing of textiles required under a Government contract will take place in different States and different regions. A single firm bidding on Government contracts will frequently be found to have a number of different mills located in different States or areas. In no instance is it possible for a Government contracting agency to have any knowledge of the locus of production prior to receipt of bids and awards of contracts. In other words, there is no way of ascertaining in advance where a proposed Government textile award may be carried out.

From all of the facts referred to above, it is evident that the predominant factors in the textile industry do not point toward any regional or geographic differences in terms of industry characteristics, and that, in an economic sense, the locality of the industry is very broad. Based upon these considerations, I have concluded that the factors present here do not warrant application of the last of the three criteria contained in section 1 (b) of the act, namely, the minimum wages for persons employed in "groups of industries currently operating in the locality in which the materials, supplies, articles, or equipment are to be manufactured or furnished under said contract."

It is my considered judgment, moreover, that even if the "locality" language of the act is construed as limiting the entire wage determination function, it is not necessary to impose a narrow geographic connotation on such language in such a manner as to frustrate the entire purpose for which the statute was enacted. While it is true that the term locality is commonly used to denote a geographic locus or unit the term possesses sufficient flexibility in meaning to convey a broad or narrow sense depending upon the context in which it is used. The word must, therefore, be construed within the context of the act and consistent with the intent and purpose of the act. As I have previously stated, I believe it would be illogical to select this word out of the act and give it a meaning which would cancel out the entire purpose for which the act was conceived. Furthermore, since the time the Public Contracts Act was enacted minimum wage determinations under this act for numerous industries have recognized a single nation-wide minimum wage. In only a few industries smaller localities were recognized. It is reasonable to assume that if this construction of the act did not comport with the Congressional intent, Congress would have acted to alter the construction. The fact that Congress, over a period of 16 years, did not alter the statutory language, even after repeated requests, warrants a conclusion that the construction placed on such language by the Department of Labor conforms with the Congressional purpose. Consequently, even on this basis, and considering the record of this proceeding, I find that the locality in which the products of the textile industry are to be manufactured or furnished under Government contracts is coextensive with the entire area in which the industry operates, and that the rate determined herein for the textile industry is the rate prevailing in such locality.

Within the framework of these considerations, I have analyzed the available wage data to arrive at a proper determination of prevailing minimum wages in this industry.

Analysis of wage data. In the surveys of the cotton and synthetic (and silk) textile industries, the Bureau of Labor Statistics tabulated returns from 467 establishments, employing 289,923 employees. The surveys were limited to plants with 21 or more employees. For plants in this size group, the Bureau's returns covered 40.8 percent of the establishments employing 55.7 percent of the workers. The Census of Manufactures for 1947, the latest available period, indicates that plants with 21 or more employees in these two branches of the textile industry had 99.5 percent of all workers in these branches. The returns were weighted in accordance with generally accepted statistical procedures to represent all the plants and employment in plants with 21 or more workers in the branches surveyed.

As noted above, the Bureau of Labor Statistics surveys were limited to plants primarily engaged in spinning or throwing yarn or thread and related operations or in weaving broad woven fabrics. However, since a number of these plants also produced fabricated products such as sheets, pillow cases, towels, and wash cloths and performed dyeing and finishing operations, wages of workers manufacturing these fabricated items and performing dyeing and finishing operations in such establishments are included in the survey and reflected in the tabulations. A letter received from Maxwell R. Conklin, Chief, Industry Division, Bureau of the Census, dated November 6, 1952, states that in the year 1947, 64 percent of all sheets and pillow cases and 95 percent of all towels and wash cloths were produced in integrated establishments, i. e., establishments engaged in spinning and weaving but also producing fabricated items. The information from Mr. Conklin also indicates that only 22 percent of all bedspreads and bedsets and only 2 percent of such textile house furnishings as laundry bags, blankets, pillows and slip covers (other than sheets, pillow cases, towels, wash cloths, bedspreads and bedsets) were produced in integrated establishments. For purposes of reference the letter received from Mr. Conklin is hereby made part of the record and is identified as Supplementary Government Exhibit B.

A number of wage reductions occurred in New England plants between the date of the survey and the date of the hearing, but these changes did not affect the surveys' data for intervals below $1.06½. With this exception, no question as to the adequacy and accuracy of the surveys was raised by either of the petitioners or the National Association of Cotton Manufacturers. However, representatives of the American Cotton Manufacturers Institute raised a number of questions relating to the sampling procedures used by the Bureau in making the survey and questioned the method followed by the Bureau in obtaining the information on plant minimum entrance rates and plant minimum job rates. With respect to the sampling methods used, it is clear from the testimony of Harry M. Douty, Chief, Division of Wages and Industrial Relations, Bureau of Labor Statistics, that the Bureau, in making these surveys, followed professionally-accepted statistical practices. It is also clear from the testimony that the objections raised with respect to the sampling procedures show an unfamiliarity on the part of the Institute representatives with these standard statistical procedures. There is no question from the evidence in the record that the Bureau of Labor Statistics gave proper weight to both large and small plants,

took into account the different types of products included in its surveys and adequately covered all parts of the country. It is also clear from the record that the sample obtained by the Bureau was more than sufficient to assure adequate coverage and results.

I conclude, therefore, that the surveys are properly representative of all establishments included within the scope of the definitions of the cotton and synthetic (and silk) textile industries used by the Bureau.

I also conclude that the Bureau of Labor Statistics wage data adequately reflect wages of workers producing sheets, pillow cases, towels and wash cloths but contain insufficient information on workers producing bedspreads, bedsets and other textile house furnishings. Moreover, these data do not provide a basis upon which a finding can be made as to the prevailing minimum wages for certain other products and operations now included in the definition of the textile industry, namely, batting, wadding and filling; the processing of waste; narrow fabrics (fabrics 12 inches or less in width); bags; bandages and surgical gauze; bath mats and related articles; diapers; braid and lace; cordage, rope and twine; and carpets and rugs.

The American Cotton Manufacturers Institute also offered testimony of one witness and telegrams and letters from four companies, designed to show that the Bureau of Labor Statistics had excluded certain low-paid workers from the survey. The witness was Robert K. Argo, Personnel Manager of the Alabama Mills, Inc., who testified with respect to his conversation with the field representative of the Bureau who obtained information from the Clanton, Alabama, plant of the company.

Mr. Argo stated that the Bureau's field representative did not obtain any information with respect to employees whose wages were below $1.015 per hour in the Clanton plant, although according to his recollection at the time of the survey the plant had about 15 employees paid 97 cents, the only rate below $1.015 paid in the plant. Mr. Argo also testified that the field agent told him specifically that in accordance with instructions, no data for custodial employees were being recorded.

There has been received in the record a deposition made by Harry M. Douty clarifying portions of the testimony at the hearing regarding Mr. Argo's statement. This deposition shows clearly that, under the instructions given to the Bureau's representatives, wages of custodial employees were to be excluded only in connection with information obtained on minimum plant entrance rates and minimum job rates. With respect to all other information, however, the instructions were specific that the Bureau's representatives were to survey the earnings of all workers in the plant, including custodial employees. Consequently, the earnings of employees earning less than the plant minimum job rate are included in all tables except Tables 4, 5, and 6 of Government Exhibits 18, 19, and 20, both with respect to the Clanton plant of Alabama Mills, Inc., and with respect to all other mills included in the survey. The deposition states the Bureau's original schedule for the Clanton plant showed 14 workers earning 97 cents; eight of these were reported as janitors and properly excluded from Tables 4, 5, and 6, under the Bureau's instructions. All 14 of these workers were included in the other tables. The six workers, other than janitors, reported by the Bureau to be paid 97 cents were not employed in any of the selected occupations for which specific information was obtained. I cannot conclude from the record that these six workers should have been included in Tables 4, 5, and 6. It is obvious, however, that Mr. Argo's contention that no workers in the Clanton plant paid less than $1.015 per hour were included in the Bureau's survey is without merit.

As noted above, four companies submitted statements in the form of telegrams dealing with this general subject. The Summerville Manufacturing Company, Summerville, Georgia, stated that the minimum wage in that plant was 96.5 cents an hour, a rate paid on the following jobs: Scrubbers, yardmen, and cotton truckers. The deposition by Mr. Douty shows that the Bureau reported this plant as paying a minimum job rate of 96.5 cents. This rate was also reported as the minimum entrance rate. The Bureau's record also shows that 16 employees were classified as janitors, three of whom were paid 96.5 cents. The other 13 janitors were paid in excess of this figure. The other three companies, the Pacolet Manufacturing Company, Pacolet, South Carolina, Julia Cade Mills, Inc., Albertville, Alabama, and Whittier Mills Company, Chattahoochee, Georgia, also in telegrams read at the hearing and in later letters supplied information as to minimum wages paid and the occupations to which these rates apply. Mr. Douty's deposition shows that four plants of Pacolet Manufacturing Company were included in the original sample for the survey. The plants were visited by the Bureau representatives, but in each case the company declined to furnish information. The Bureau in consequence substituted other mills of the same general characteristics in accordance with well-established statistical sampling procedures. With respect to Julia Cade Mills, and Whittier Mills, neither was included in the sample for the survey and no Bureau of Labor Statistics information is available.

It should be noted from the letters received from these companies that with the exception of plants No. 3 and 5 of the Pacolet Company, the lowest rate in the plant is paid to sweepers or scrubbers, which occupations were classified by the Bureau of Labor Statistics for the purpose of this survey in the janitorial category.

On the basis of the evidence, I find that the data in the Bureau's tables showing minimum job rates were accurately collected and compiled and may properly be used in evaluating the prevailing minimum wage practices in the cotton, silk, and synthetic branch of the industry.

As indicated heretofore, one of the bases which may be used by the Secretary of Labor in determining prevailing minimum wages is that of "similar work".

With respect to this criterion, evidence in the record points particularly to three occupations which are substantially the same in job content, are common to most firms in the cotton, silk, and synthetic textile branch of the textile industry, and are generally the lowest paid occupations. These occupations are: Janitors (excluding machinery cleaners); battery hands; and hand truckers (including bobbin boys). These occupations were included within the list of "selected occupations" for which the Bureau of Labor Statistics reported separate data. This list, together with the job descriptions applicable thereto, were developed as a result of the Bureau's extensive experience in making surveys of the industry and in consultation with representatives of labor and management. The definitions were designed to permit comparisons between occupations having similar work content in various plants or groups of plants in the industry, regardless of variations from plant to plant in actual nomenclature. There was no criticism in the record that these occupations individually did not have in fact similar content. In consequence, from the record as a whole, it is clear that prevailing minimum wages for "similar work" can be determined by examining data for these individual occupations.

The three occupations are defined by the Bureau as follows:

Janitor (day porter, sweeper, charwoman, janitress): Cleans and keeps in an orderly condition factory working areas and washrooms, or premises of an office, apartment house, or commercial or other establishment. Duties involve a combination of the following: Sweeping, mopping and/or scrubbing, and polishing floors; removing chips, trash and other refuse; dusting equipment, furniture, or fixtures; polishing metal fixtures or trimmings; providing supplies and minor maintenance services, cleaning lavatories, showers, and rest rooms. Workers who specialize in window washing are excluded.

Battery hand: Transfers or loads quills or bobbins of filling to the battery or loading hopper of automatic looms. May convey filling to looms by means of a hand truck.

Trucker, hand (including bobbin boy): Pushes or pulls hand trucks, cars or wheelbarrows used for transporting goods and materials of all kinds about a warehouse, manufacturing plant, or other establishment, and usually loads or unloads hand trucks or wheelbarrows. May stack materials in storage bins, etc., and may keep records of materials moved.

Exhibits at the hearing introduced by the Government include wage data on these three occupations in Exhibits 18, 19, 20, 23, and 24. The area tabulations contained in the last two mentioned exhibits include data for approximately 85 percent of the workers included in the survey. Supplementary Government Ex-

hibits A–1 through A–8 throw additional light on the prevailing minimum wages in the three occupations.

With respect to janitors, Table 3A of Government Exhibit 20 shows 9,299 janitors, slightly less than 2 percent of all of the workers covered by the survey, with an average wage of $1.00 an hour. As Supplementary Government Exhibits 5 and 7 indicate, slightly more than one-fourth of the establishments represented in the survey had no workers whose duties consisted primarily of janitorial services. The absence of reported janitors is particularly conspicuous in northern establishments where more than half of the reporting establishments represented included no workers whose functions were primarily of this type. In such plants the janitorial services made up part of the work of other employees; for example, sweeping around machines in order to permit a continuation of production (work subject to the Walsh-Healey Public Contracts Act) was performed as an incidental part of duties of other production workers.

Supplementary Government Exhibits A–1, A–5, and A–7 provide information as to the lowest rate paid janitors in establishments reporting such workers; and the lowest job rate in establishments which did not report such workers. Altogether 1,120 establishments either reported janitors or reported no janitors but gave information as to the lowest established job rate. Of these establishments, 562 or 50.2 percent either reported $1.00 or more as the minimum rate for janitors or having no janitors, reported $1.00 or more as the lowest job rate. These 562 establishments employ 52.5 percent of the production workers in the industry. In addition, Supplementary Government Exhibit A–1 indicates that over two-fifths of the janitors earn from $1.00 to $1.05, vastly more than are found in any other five-cent interval.

Government Exhibits 23 and 24 indicate the importance of the five-cent interval beginning with $1.00 for janitors in each of the various producing areas reporting separately. Thus, for example, in Alabama and in South Carolina most of the janitors are reported within this range and in North Carolina and Georgia a far larger proportion of the janitors are employed in this interval than in any other. Supplementary Government Exhibit A–7 shows that for establishments having no janitors the rate of $1.00 an hour is by far the most important lowest job rate in the range between 90 cents and $1.05; in this range, almost twice as many establishments reported a minimum job rate of $1.00 as reported any other figure and a similar conclusion is reached on the basis of the number of workers.

From the above it is concluded that $1.00 an hour represents the prevailing minimum wage for janitorial services in the cotton, silk, and synthetic textile branch of the textile industry.

As previously noted, somewhat less than 2 percent of the workers included in the survey are classified as janitors. It is also clear from the record that many of the workers reported as janitors are performing work of types not directly enough connected with production activities to be covered by the Walsh-Healey Public Contracts Act. It is impossible from the record to determine what proportion of janitors are performing such work and the questionnaire returns of the Bureau of Labor Statistics would not yield such information.

There are, however, two other low-paying occupations about which there can be no doubt that the work is of the type covered by the act. These occupations are hand truckers (including bobbin boys) and battery hands. Except for janitors, these two occupations have the lowest reported average hourly earnings. These occupations combined include 33,500 workers, or 6.9 percent of all production workers covered by the surveys.

Supplementary Government Exhibit A–1 as well as Government Exhibits 23 and 24 underscore the importance of the five-cent interval beginning with $1.00 an hour for each of these two occupations. Thus, for the United States, 29.2 percent of the battery hands received wages between $1.00 and $1.05, as contrasted with 3.9 percent in the 95–99.9-cent interval, and as further contrasted with 10.6 percent in all intervals below $1.00. Similarly a total of 27.2 percent of the hand truckers (including bobbin boys) earned between $1.00 and $1.05 as contrasted with 11.4 percent in the preceding five-cent interval. A total of 26.9 percent of the hand truckers (including bobbin boys) received earnings of less than $1.00.

Supplementary Government Exhibits A–4 and A–6 show that most of the establishments reporting either hand truckers or battery hands or both pay a minimum wage to these workers of at least $1.00 an hour and these establishments employ most of the production workers in the industry. It may also be noted that in the South more establishments pay a minimum of $1.00 an hour to either battery hands or hand truckers than pay minimum wages to these workers at any other rate in the range between 90 cents and $1.05. Supplementary Government Exhibit A–6 indicates that in this range the rates of $1.02 and $1.03 are also important in the South.

Supplementary Government Exhibit A–8 shows data for 211 establishments, primarily located in the North, which reported no workers who primarily performed work included within the description of the occupation of hand truckers (including bobbin boys) or the occupation of battery hands. It will be noted that a majority of these establishments employing a majority of the production workers in such establishments reported the lowest job rate as $1.00 or more. Here again, the rate of $1.00 stands out, with more establishments, employing more workers, reporting a minimum job rate of $1.00 than reported a minimum job rate at any other interval in the range from 90 cents to $1.05. This is true both for the South and for the North.

It is clear therefore that the prevailing minimum wage is $1.00 an hour for the work of hand truckers (including bobbin boys) and for the work of battery hands in the cotton, silk, and synthetic textile branch of the textile industry.

As mentioned above, evidence in the record establishes conclusively that janitors, battery hands, and hand truckers are the lowest paid workers in the cotton, silk, and synthetic textile branch of the textile industry. It is clear, therefore, that a determination of prevailing minimum wages for other occupations would result in rates at least as high, and in most instances higher, than the rate for these three occupations. However, even if detailed occupational wage data were available for every possible duty in a textile mill, it would obviously be undesirable to make a separate determination for each such occupation. The necessity for detailed job descriptions and the overlapping of duties between one job and another would lead to complications and misunderstandings in applying the determinations on the part of the industry and to difficult administrative problems in the proper enforcement of such determinations on the part of the Wage and Hour and Public Contracts Divisions of the Department of Labor. In view of these practical considerations, I therefore conclude that it is entirely proper to apply the minimum rate of $1.00 an hour to all occupations in the cotton, silk, and synthetic textile branch of the textile industry which are covered under the regulations issued pursuant to the Walsh-Healey Public Contracts Act. Work performed in one textile mill is by its very nature similar to work performed in other textile mills. Accordingly, on the basis of the prevailing minimum wages for "similar work" in the industry, I have concluded that $1.00 an hour is the prevailing minimum wage for all occupations in the cotton, silk, and synthetic textile branch of the textile industry as defined herein.

A second basis for a determination under section 1 (b) of the Walsh-Healey Public Contracts Act is wages paid in the particular or similar industries. On this approach, there is special significance to the evidence outlined above that $1.00 is the prevailing minimum rate for janitors, for hand truckers, and for battery hands. Government Exhibits 18, 19, 20, 23 and 24 indicate that these are the lowest paid for the country as a whole of the occupations selected for their particular significance in the industry; and, with rare exceptions, this is true in almost every area. There was no disagreement at the hearing that janitors, including sweepers and scrubbers, generally receive as low a rate as any workers in the cotton, silk, and synthetic textile branch of the industry although there was a difference of opinion as to the extent to which such workers are covered by the act. There was also no disagreement with the Bureau of Labor Statistics' explanation that the "selected" or "key" occupations include a complete range of occupations from the lowest-paid to the highest-paid workers. Workers in these occupations comprise 70.5 percent of all workers covered by the surveys. As noted above, apart from janitors, hand truckers (including bobbin boys) and battery hands generally receive the lowest wage among the "selected" or "key" occupations.

The most important additional lines of evidence as to prevailing minimum

wages in the textile industry consist of Tables 1 and 5 of Government Exhibits 18, 19 and 20. Table 1 of Government Exhibit 20 clearly shows the importance of the 5-cent interval beginning with $1.00 for the earnings of all workers. Thus for the United States, this is the most important single 5-cent interval, with 11.9 percent of the workers receiving wages within this range, almost twice as many as in the preceding interval and almost as many as the total in all ranges below $1.00. In the Southeast the concentration in this interval is even sharper, with one worker in seven (14.4 percent) receiving wages between $1.00 and $1.05.

Many of the lowest paid workers included in Tables 1 and 7 of Government Exhibits 18, 19, and 20 are watchmen, general janitors (as distinguished from those cleaning around the machines), and other types of custodial workers who perform work not covered by the provisions of the act. Because of the limitations of these tables, Table 5 is of added significance. This table reports the rates which the plant officials reported as established minimum job rates for non-custodial workers. Table 5A of Government Exhibit 20 shows that most of the textile mills in the survey with an established minimum job rate reported the rate to be $1.00 an hour or more. These plants employ 51.4 percent of the workers in the industry, as compared with 44.3 percent of the workers in plants reporting established job minimum rates of less than $1.00 and 4.3 percent of the workers in plants reporting no established minimum. In terms of number of establishments, only $1.02 is more important (6.6 percent as compared with 6.4 percent); in terms of number of production workers employed in these establishments, only $1.03½ is more important. Each of these rates however is above the minimum job rate reported by most establishments employing most of the workers. Although janitors and other custodial workers are excluded by the Bureau in obtaining information on established minimum job rates from plant officials, it may be noted that Supplementary Government Exhibit A–2 indicates that in about half of the establishments with minimum job rates the minimum janitor rate was identical with the established minimum job rate and that janitor minimum rates were more frequently above than below the established minimum job rate.

Another line of evidence is contained in the listings of plant minimums provided by the two textile unions. These listings were made a matter of public record at the hearing. It appears clear from the record that a very large proportion of the plants included in these listings also reported information to the American Cotton Manufacturers Institute. However, the minimum rates for only four of the plants listed were challenged. Excluding such plants from the tabulation, it appears that the major proportion of the industry has minimum rates of $1.00 an hour or more in effect.

From all the evidence in the record, therefore, I conclude that $1.00 an hour is the prevailing minimum wage for the cotton, silk, and synthetic textile branch of the textile industry.

As noted above, the March 1952 surveys made by the Bureau of Labor Statistics cover plants primarily engaged in spinning and weaving. There is, however, adequate information from other sources indicating that wages in dyeing and finishing establishments are at least as high as those in spinning and weaving plants.

At the hearing a representative of the United Textile Workers of America testified that minimum wages paid in dyeing and finishing plants are higher than those in spinning and weaving plants. This statement was not contradicted.

The listings of plants in the industry supplied by the petitioners contained 510 dyeing and finishing plants employing in excess of 39,000 workers. In his statement at the hearing, the representative of the Textile Workers Union of America stated that only isolated workers in dyeing and finishing establishments were paid less than $1.05.

In addition, representatives of the Textile Workers Union of America and of the National Association of Cotton Manufacturers stated that average hourly earnings in dyeing and finishing plants traditionally exceed those in spinning and weaving plants. An inspection of such figures published by the Bureau of Labor Statistics bears out these statements. A report published by the Bureau shows that in July 1946 the difference was approximately 10 cents an hour. In July of 1952 the average hourly earnings in dyeing and finishing plants were 16 cents more than those in spinning and weaving plants.

An analysis of collective bargaining agreements on file with the Department of Labor as of 1952 gives information on 410 dyeing and finishing (except wool) establishments with almost 32,000 workers. Ninety-seven percent of these plants with 88 percent of the employees had a minimum job rate of $1.00 an hour or more. These figures cover a very large proportion of the industry as indicated by the fact that for 1947 the Census of Manufactures reported 641 dyeing and finishing (except wool) plants employing 69,000 workers.

In addition, it should be recalled that a number of workers in dyeing and finishing departments are included in the two surveys made by the Bureau of Labor Statistics and, where such workers were included, figures relating to average hourly earnings and minimum job rates covered such workers as well as the workers in the other departments.

On the basis of all of the above I, therefore, determine that the prevailing minimum wage for all employees engaged in dyeing and finishing covered by the definition of this Industry is $1.00 an hour.

Learners and apprentices. The notice of hearing invited comment and testimony as to the need for inclusion in any amended determination for a provision covering the employment of learners, beginners, and/or apprentices at subminimum rates. The United Textile Workers of America recommended that learners be permitted at subminimum rates for a period of from 4 to 6 weeks and that the present 3 percent limitation be continued. The record shows that this union recommended that the rates for learners be either 10 cents or $1.00.

The Textile Workers Union of America recommended that there be provision for learners at a rate of not less than $1.03 an hour and further recommended the continuation of the 3 percent tolerance and the learning period presently provided. This latter recommendation was also supported by the Fall River Loomfixers' Union, the Fall River Slasher Tenders' and Helpers Association and the Fall River Drawing-In, Knot-Tiers' and Warp-Twisters' Association. The Soft Fiber Manufacturers' Institute recommended a provision for learners which contained an "adequate" tolerance limitation and an "adequate" learning period. The American Cotton Manufacturers Institute recommended the continuation of the present 3 percent tolerance and the learning period presently provided and that the learner rate should have approximately the same relationship to the prevailing minimum wages as contained in the present determination. No other party made any recommendation with respect to the need for learners.

On the basis of the record, I find that a provision for the employment of learners at subminimum rates should be provided and that the present 3 percent tolerance and learning period for the activities for which the employment of learners at subminimum rates is presently permitted should be continued. I also find that this subminimum rate should reflect the same percentage differential as has previously existed between the industry minimum wage and the learner subminimum wage, namely 8 percent. Accordingly, I find that the wage rate of 92 cents an hour is an appropriate subminimum wage for learners in the cotton, silk, and synthetic textile branch of the textile industry.

No testimony was introduced at the hearing regarding the need for a subminimum rate covering the employment of apprentices. The present determination does not make any provision for the employment of apprentices at subminimum rates. I find that there is no need for a special provision covering the employment of apprentices.

Handicapped workers. The regulations permit employment of handicapped workers at subminimum rates on contract work under the act and this authority was not at issue in the proceedings. It appears advisable to include in the determination, however, specific authorization for such employment.

Fringe benefits. The Textile Workers Union of America recommended that a cost-of-living provision be included in the determination reflecting that provided for in its collective bargaining agreements. The United Textile Workers of America recommended the cost-of-living provision and, in addition, all fringe benefits covered in its contracts. The independent Fall River unions supported the recommendation of the Textile Workers Union of America. None of

the other parties took a position with respect to these fringe benefits.

No determination issued under the act provides for cost-of-living increases, shift differentials, paid holidays, insurance or pension plans or any other similar benefits. Provisions of the type listed above would be administratively cumbersome, and for some of them proper enforcement would be impossible. Moreover, there is considerable legal question as to whether such provisions are truly a part of prevailing minimum wages. For these reasons, I conclude that the determination should not contain provisions relating to these fringe benefits.

Assertion of bias. Following the hearing in this matter a document entitled "Affidavit of Personal Bias or Disqualification of Officers Participating in Decisions" was addressed to me by W. Glen Harlan, attorney for a group of cotton manufacturing companies who were parties to the proceeding. This document asserted that I had prejudged the issue as to a nation-wide minimum wage in this industry, and further that I and other officials of the Department of Labor have in various ways indicated a prejudice as to the wage to be recognized in the industry. The document accordingly requested that I and such other officials of the Department be disqualified to act further in this matter or participate in any decisions to be rendered herein.

The question of bias was initially raised at the hearing by Mr. Harlan and he at that time requested that certain files of the Department of Labor be produced for the purpose of ascertaining whether they contained any evidence to support a charge of bias. A similar request was submitted to me on two separate occasions following the hearing. In each instance I denied the request on the ground that the material requested had no relevance to the proceeding. My ruling in this regard was based upon two primary considerations, first, that the decision which I am required to make in this proceeding must be based solely upon the record, and, consequently, the record should contain only data which relates to the subject matter of the proceeding, namely, prevailing minimum wages in the textile industry; secondly, it is my view that the mere assertion of a captious or frivolous challenge for bias does not warrant a wholesale disclosure of material in the Department files.

It is my duty under the law to make an objective decision based upon all of the evidence and data in the record. I have endeavored to arrive at such a decision with due regard to the purposes of the act and my obligations as an administrative officer of the United States. It is my belief and conviction that all other individuals in the Department of Labor who participated in any way in this proceeding have been similarly guided. I therefore find that the assertion of bias submitted herein is completely without merit.

Proposed decision. Notice is hereby given that, in accordance with all of the considerations expressed herein, I propose to issue a decision in this matter as set forth below. Interested parties may submit, within 15 days from publication of this proposed decision in the FEDERAL REGISTER any exceptions to the proposed decision or any data intended either in rebuttal or in support of any of the tabulations or data received as part of the record following the close of the hearing.

The minimum wage determination for the textile industry contained in § 202.43 of this part (41 CFR Part 202) is amended as follows:

1. Section 202.43 (b) is amended to read as follows:

§ 202.43 *Textile industry.* • • •

(b) *Minimum wage.* (1) The minimum wage for persons employed in the manufacturing or furnishing of the products of the cotton, silk, and synthetic textile branch of the textile industry under contracts subject to the Walsh-Healey Public Contracts Act shall be $1.00 an hour arrived at either on a time or piece-rate basis. The cotton, silk, and synthetic textile branch includes the manufacturing, processing, bleaching, dyeing, printing or other finishing of any of the following items which are within the scope of the textile industry, as defined herein, and are made primarily of cotton, silk, or synthetic fiber or mixtures of these fibers: Yarn; thread; broad-woven fabrics more than 12 inches in width); sheets and pillow cases; towels; and wash cloths and scrubbing cloths.

(2) The minimum wage for persons employed in the manufacturing or furnishing of the products of the textile industry, other than the products of the cotton, silk, and synthetic textile branch of the industry, under contracts subject to the Walsh-Healey Public Contracts Act shall be 87 cents an hour, arrived at either on a time or piece-rate basis.

2. Section 202.43 (c) is amended to read as follows:

(c) *Subminimum wages authorized.* (1) Learners may be employed subject to the following terms and conditions:

(i) Learners may be employed in the occupations of machine operating, machine tending, machine fixing, and jobs immediately incidental thereto;

(ii) In the performance of contracts for the products of the cotton, silk, and synthetic textile branch of the industry learners may be paid a subminimum rate of 93 cents an hour unless experienced workers in the same plant and occupations are paid on a piece-rate basis, in which case learners must be paid the same piece rates paid to experienced workers and earnings, based upon those piece rates, if such earnings are in excess of 93 cents an hour. In the performance of contracts for products of the textile industry, other than the products of the cotton, silk, and synthetic textile branch of the industry, learners may be paid a subminimum rate of 80 cents an hour unless experienced workers in the same plant and occupations are paid on a piece-rate basis, in which case learners must be paid the same piece rates paid to experienced workers and earnings, based upon those piece rates, if such earnings are in excess of 80 cents an hour;

(iii) The length of the learning period shall be 240 hours unless the learner has had previous experience in the industry in which case the number of hours of such experience must be deducted from the 240 hour learning period.

(iv) The number of learners may not exceed 3 percent of the total number of machine operators, machine tenders, machine fixers and persons engaged in jobs immediately incidental thereto except where, upon application to the Administrator of the Wage and Hour and Public Contracts Divisions or his authorized representative, a special certificate has been issued authorizing employment of learners in excess of 3 percent to meet a plant's abnormal situation created by establishment of new plants, expansion of production or plant facilities, and the like. Such special certificates will not be issued where it appears that experienced workers are available to the employer within the area from which he customarily draws his supply of labor, or that the issue of a special certificate will create unfair competitive labor cost advantages, or will impair or depress working standards established for experienced workers for work of a like or comparable character in the industry.

(2) Handicapped workers may be employed at wages below the applicable minimum wages specified in this section upon the same terms and conditions as are prescribed for the employment of handicapped workers by the regulations of the Administrator of the Wage and Hour Division of the Department of Labor (29 CFR Parts 524 and 525, respectively), under section 14 of the Fair Labor Standards Act as amended.

The Administrator of the Public Contracts Division is authorized to issue certificates under the Public Contracts Act for the employment of handicapped workers not subject to different acts, at appropriate rates of compensation and in accordance with the standards and procedures prescribed by the applicable regulations issued under the Fair Labor Standards Act.

Signed at Washington, D. C., this 5th day of December 1952.

MAURICE J. TOBIN
Secretary of Labor.

ATOMIC ENERGY COMMISSION

[10 CFR Part 80]

GENERAL RULES OF PROCEDURE ON APPLICATIONS FOR DETERMINATION OF REASONABLE ROYALTY FEE, JUST COMPENSATION, OR GRANT OF AWARD FOR PATENTS, INVENTIONS OR DISCOVERIES

NOTICE OF PROPOSED RULE MAKING

Pursuant to the Atomic Energy Act of 1946, as amended (P. L. 585, 79th Cong.; 66 Stat. 755 ff) and to section 4 (a) of the Administrative Procedures Act of 1946 (P. L. 404, 79th Cong.) and in accordance with § 80.5 of Title 10, Chapter I, Part 50, Code of Federal Regulations, entitled "General Rules of Procedure on Applications for Determination of Reasonable Royalty Fee, Just Compensation or Grant of Award for Patents, Inventions or Discoveries", promulgated on June 18, 1948, and published in the FEDERAL REGISTER for May 8, 1948 (13 F. R. 2487), proposed changes in the general rules are set forth hereunder.

A. There is to be added to the general provisions of the rules a new section designated as § 80.6 to read as follows:

§ 80.6 *Records of Board.* The records of the Board in cases filed before it, including the application, the response, the transcript and any other portion of the record, shall be open to public inspection unless (a) the Board otherwise directs upon a determination that opening of the records to public inspection would be contrary to the public interest or, (b) opening of the records is not in accord with security regulations and requirements of the Commission.

B. There is to be added to the general provisions of the rules a new section designated as § 80.7 to read as follows:

§ 80.7 *Motions.* Motions may be made before the Board upon reasonable notice to the other parties.

C. Paragraph (b) of § 80.44 is to be revised to read as follows:

§ 80.44 *Oral arguments; proposed findings; written arguments.* • • •

(b) The Board may, at its discretion, announce at the hearing a reasonable period within which either party may submit to the Board proposed findings and a proposed recommendation. Such proposals shall be in writing, in quintuplicate, and copies shall be served on the opposing party.

D. Paragraph (a) of § 80.60 is to be revised to read as follows:

§ 80.60 *Final action.* (a) Upon the expiration of the period prescribed in § 80.51, the Board shall proceed to a final consideration of the application on the basis of the entire record, including any exceptions, and the briefs in support filed by either party. The Board shall resolve questions of fact by what it deems to be the greater weight of the evidence and shall make its decision on the entire record. Its findings as to the facts shall be supported by reliable, probative and substantial evidence. The Board shall enter an appropriate order, together with a statement of its reasons or basis, determining as the case may be a reasonable royalty fee, the amount of just compensation, or the amount of an award, or such other disposition as its determination requires.

Interested persons are hereby given an opportunity to submit their views or other relevant information with respect to the proposed changes in the rules in writing to the Atomic Energy Commission, Washington 25, D. C., Attention: Chief, Patent Branch, Office of the General Counsel, within thirty (30) days from the date of publication of this notice of intention in the daily issue of the FEDERAL REGISTER.

Dated at Washington, D. C., this 3d day of December 1952.

WALTER J. WILLIAMS,
Deputy General Manager.

NOTICES

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

ARIZONA

STOCK DRIVEWAY WITHDRAWAL NO. 56, ARIZONA NO. 2, REDUCED

DECEMBER 2, 1952.

By virtue of the authority contained in section 10 of the act of December 29, 1916, 39 Stat. 865, as amended by the act of January 29, 1929, 45 Stat. 1144 (43 U. S. C. 300), and pursuant to the authority delegated by the Director, Bureau of Land Management, in section 2.22 (a) (1) of Order No. 427, dated August 16, 1950 (15 F. R. 5639), it is ordered as follows:

The order of the Secretary of the Interior dated August 19, 1941, modifying and defining Stock Driveway No. 56, Arizona No. 2, is hereby modified by excluding therefrom the following described lands:

GILA AND SALT RIVER MERIDIAN

T. 7 N., R. 2 E.,
Sec. 34, E½E½, W½SE¼, SE¼SW¼, SW¼NE¼.

The areas described aggregate 320.00 acres.

Most of the lands described above were classified as set out in Arizona Small Tract Classification Order No. 22, dated August 31, 1950 (15 F. R. 6050), subject to valid existing rights and the provisions of existing withdrawals, as suitable for lease and sale under the Small Tract Act of June 1, 1938 (52 Stat. 609), as amended July 14, 1945 (59 Stat. 467, 43 U. S. C. section 682a). These lands are not subject to disposition under any other non-mineral public land law. The remainder of the land is under consideration for similar classification, and is not suitable for homestead or desert land use.

Inquiries concerning the disposition of these lands under the Small Tract Act of June 1, 1938, as amended, shall be addressed to the Manager, U. S. Land and Survey Office, 100 U. S. Courthouse, Phoenix, Arizona.

E. R. SMITH,
Regional Administrator.

[Group 262 E]

ARIZONA

NOTICE OF FILING OF PLATS OF SURVEY

DECEMBER 4, 1952.

Notice is given that the plat of survey accepted February 28, 1950, of T. 4 S., R. 5 W., G. & S. R. B. & M., Arizona, including lands hereinafter described, will be officially filed in the Land and Survey Office at Phoenix, Arizona, effective at 10:30 a. m. on the 35th day after the date of this notice.

GILA AND SALT RIVER MERIDIAN, ARIZONA

T. 4 S., R. 5 W.,
Lots 1, 2, 3, 4, E½W½, E½ (All), Sec. 31;
All Sec. 32.

The area described aggregates 1,252.16 acres.

All Sec. 31, T. 4 S., R. 5 W., was withdrawn by the Assistant to the Secretary of the Interior on October 18, 1918, for reclamation purposes in connection with the Sentinel Project.

All Sec. 31, and the SW¼NW¼, SW¼, and SW¼SE¼, Sec. 32, T. 4 S., R. 5 W., are included in Power Site Classification No. 402, approved June 6, 1949.

No application for the remainder of these lands, N½N½, SE¼NW¼, S½NE¼, N½SE¼, and the SE¼SE¼, Sec. 32, T. 4 S., R. 5 W., may be allowed under the homestead, small tract, desert land, or any other non-mineral public land laws, unless the land has already been classified as valuable or suitable for such type of application or shall be so classified upon consideration of an application.

Available data indicates that the land is rocky and gravelly, except for the land in the southwest part of Section 31 which is nearly level bottom land of the Gila River, and is a sandy loam.

At the hour and date specified above the said lands shall, subject to valid existing rights and the provisions of existing withdrawals, become subject to application, petition, location, or selection as follows:

(a) *Ninety-one day period for preference-right filings.* For a period of 91 days, commencing at the hour and on the day specified above, the public lands affected by this notice shall be subject only to (1) application under the homestead or the desert-land laws or the Small Tract Act of June 1, 1938, 52 Stat. 609 (43 U. S. C. 682a), as amended, by qualified veterans of World War II and other qualified persons entitled to preference under the act of September 27, 1944, 58 Stat. 747 (43 U. S. C. 279–284), as amended, subject to the requirements of applicable law, and (2) application under any applicable public-land law, based on prior existing valid settlement rights and preference rights conferred by existing laws or equitable claims subject to allowance and confirmation. Applications under subdivision (1) of this paragraph shall be subject to applications and claims of the classes described in subdivision (2) of this paragraph. All

applications filed under this paragraph either at or before 10:00 a. m. on the 35th day after the date of this notice shall be treated as though filed simultaneously at that time. All applications filed under this paragraph after 10:00 a. m. on the said 35th day shall be considered in the order of filing.

(b) *Date for non-preference-right filings.* Commencing at 10:00 a. m. on the 126th day after the date of this notice, any lands remaining unappropriated shall become subject to such application, petition, location, selection, or other appropriation by the public generally as may be authorized by the public-land laws. All such applications filed either at or before 10:00 a. m. on the 126th day after the date of this notice, shall be treated as though filed simultaneously at the hour specified on such 126th day. All applications filed thereafter shall be considered in the order of filing.

A veteran shall accompany his application with a complete photostatic, or other copy (both sides), of his certificate of honorable discharge, or of an official document of his branch of the service which shows clearly his honorable discharge as defined in § 181.36 of Title 43 of the Code of Federal Regulations, or constitutes evidence of other facts upon which the claim for preference is based and which shows clearly the period of service. Other persons claiming credit for service of veterans must furnish like proof in support of their claims. Persons asserting preference rights, through settlement or otherwise, and those having equitable claims, shall accompany their applications by duly corroborated statements in support thereof, setting forth in detail all facts relevant to their claims.

Applications for these lands, which shall be filed in the Land and Survey Office, Phoenix, Arizona, shall be acted upon in accordance with the regulations contained in § 295.8 of Title 43 of the Code of Federal Regulations and Part 296 of that title, to the extent that such regulations are applicable. Applications under the homestead laws shall be governed by the regulations contained in Parts 166 to 170, inclusive, of Title 43 of the Code of Federal Regulations, and applications under the desert-land laws and the said Small Tract Act of June 1, 1938, shall be governed by the regulations contained in Parts 232 and 257, respectively, of that title.

Inquiries concerning these lands shall be addressed to the Manager, Land and Survey Office, Bureau of Land Management, Phoenix, Arizona.

ELLEN W. KIRSCH,
Acting Manager.

[F. R. Doc. 52-13043; Filed, Dec. 10, 1952; 8:45 a. m.]

ALASKA

ORDER OF TRANSFER OF JURISDICTION OF INTEREST

DECEMBER 3, 1952.

Whereas, the Office of Territories, Department of the Interior, made application, Anchorage 019599, for transfer of jurisdiction of interest to the Office of Territories, under section 7 of the Public Works Act of August 24, 1949 (63 Stat. 629; 48 U. S. C. 486e), in the lands hereinafter described, for a public works project (Kodiak Water and Sewer System), which was approved under section 4 of the act, and

Whereas, notice of the proposed transfer of jurisdiction was published in the FEDERAL REGISTER, October 28, 1952 (17 F. R. 9706), and no protest to the transfer was filed within the time allowed.

Now, therefore, by virtue of the authority contained in section 7 of the Public Works Act of August 24, 1949, *supra*, and pursuant to section 2.56 of Delegation Order No. 427, of August 16, 1950 (15 F. R. 5641), it is ordered as follows:

Jurisdiction of interest in and to the following described lands is hereby transferred to the Office of Territories, Department of the Interior:

Beginning at Corner Number 2 (the Northwest Corner) of United States Land Survey No. 2538-A Government Reserve; the point of beginning, go South 34° 34' East, 1,990.56 feet to a point; thence South 5° 27' West, 1,089.23 feet to a point; thence South 36° 16' West, 210.63 feet to a point; thence South 58° 09' West 357.25 feet to a point; thence South 53° 37' West, 1,152.91 feet to a point; South 41° 06' West, 379.13 feet to a point; thence South 64° 33' West, 945.28 feet to a point; thence South 59° 27' West, 425.64 feet to a point; thence South 74° 26' West, 1,410.0 feet to a point; thence South 61° 33' West, 1,443.61 feet to a point; thence North 5° 05' 30" West, 670 feet plus or minus, to a point, which point is common with the Northeast Corner of the United States Naval Reservation, United States Survey Number 2539; thence North 34° 34' West, 4,250 feet, plus or minus, to a point; thence North 55° 21' East, 10,869.88 feet to a point; thence South 34°39' East, 2,627 feet, plus or minus, to a point; thence South 55° 21' West, 4,300 feet, plus or minus, to the point of beginning; thereby comprising a tract of land containing 1,003 acres, more or less.

Any subsequent conveyance which may be made of the lands to a public body under authority of the act of August 24, 1949, *supra*, the instrument of conveyance shall contain a provision reserving a right-of-way for ditches and canals constructed under authority of the United States, and reserving also to the United States (1) all fissionable source materials in the land, together with the right of the United States to enter upon the land and prospect for, mine and remove such materials in accordance with the act of August 1, 1946 (60 Stat. 755; 43 U. S. C. 1801), (2) all oil and gas and other mineral deposits in the lands together with the rights of the United States, its agents, representatives, lessees or permittees, to prospect for, mine and remove the same under such regulations as the Secretary may prescribe, (3) a right-of-way for the construction of railroads, telegraph and telephone lines in accordance with the act of March 12, 1914 (38 Stat. 305; 48 U. S. C. 305), (4) a right-of-way for roads, highways, tramways, trails, bridges, and appurtenant structures constructed by or under authority of the United States or of any State created out of the Territory of Alaska, in accordance with the act of July 24, 1947 (61 Stat. 418; 48 U. S. C. 321d), and (5) such other reservations, covenants, terms, and conditions as may be deemed proper by the Office of Territories, as well as those which may be required for the protection of the Department of the Interior or any agency thereof.

LOWELL M. PUCKETT,
Regional Administrator.

DEPARTMENT OF LABOR

Wage and Hour Division

LEARNER EMPLOYMENT CERTIFICATES

ISSUANCE TO VARIOUS INDUSTRIES

Notice is hereby given that pursuant to section 14 of the Fair Labor Standards Act of 1938, as amended (52 Stat. 1068, as amended; 29 U. S. C. and Sup. 214) and Part 522 of the regulations issued thereunder (29 CFR Part 522), special certificates authorizing the employment of learners at hourly wage rates lower than the minimum wage rates applicable under section 6 of the act have been issued to the firms listed below. The employment of learners under these certificates is limited to the terms and conditions therein contained and is subject to the provisions of Part 522. The effective and expiration dates, occupations, wage rates, number or proportion of learners, and learning period for certificates issued under the general learner regulations (§§ 522.1 to 522.14) are as indicated below; conditions provided in certificates issued under special industry regulations are as established in these regulations.

Single Pants, Shirts and Allied Garments, Women's Apparel, Sportswear and Other Odd Outerwear, Rainwear, Robes and Leather and Sheep-Lined Garments Divisions of the Apparel Industry Learner Regulations (29 CFR 522.160 to 522.166, as amended December 31, 1951; 16 F. R. 12043, and June 2, 1952; 17 F. R. 3818).

Armored Garments, Inc., Spruce Pine, N. C., effective 12-10-52 to 12-9-53; 10 learners (dungarees).

Belton Shirt Co., Inc., Belton, S. C., effective 12-1-52 to 11-30-53; 10 percent of the productive factory force (dress and sport shirts).

Berwick Shirt Co., Tenth and Pine Streets, Berwick, Pa., effective 11-28-52 to 11-27-53; 10 percent of the productive factory force (men's sport shirts).

Burlington Manufacturing Co., 111 West Third Street, Chanute Kans., effective 12-5-52 to 12-5-53; 10 percent of the productive factory force (overalls and dungarees).

Carbon Sportswear, Inc., Coal and Bertsch Streets, Lansford, Pa., effective 11-26-52 to 5-25-53; 25 learners for expansion purposes (ladies' and misses' sportswear and dresses).

Day's Tailor D Clothing, Inc., 2902 A Street, Tacoma, Wash., effective 11-26-52 to 11-25-53; 10 percent of the productive factory force (trousers, jackets and cruisers).

Digby Manufacturing Co., Inc., South Park Avenue, Lakewood, N. J., effective 11-28-52 to 11-27-53; four learners. This certificate does not authorize the employment of learners at subminimum wage rates engaged in the production of ladies' and misses' skirts (blouses, dresses and sportswear).

Fairview Fashions, 25 Portland Street, St. Johnsbury, Vt., effective 11-29-52 to 11-28-53; five learners (dresses).

Forest City Manufacturing Co., Collinsville, Ill., effective 12-5-52 to 12-4-53; 10 percent of the productive factory force (dresses).

Honea Path Shirt Co., Simpsonville, S. C., effective 11-26-52 to 11-25-53; 10 learners (men's sport shirts).

Honea Path Shirt Co., Simpsonville, S. C., effective 11-26-52 to 5-25-53; 15 learners for expansion purposes (men's sport shirts).

Charles Kaufman Co., 109 South Pecos Street, San Antonio 7, Tex., effective 11-28-52 to 11-27-53; five learners (children's dresses).

The H. D. Lee Co., Inc., 405 East Madison, South Bend, Ind., effective 11-28-52 to 11-27-53; 10 percent of the productive factory force (men's work clothing).

R. Lowenbaum Manufacturing Co., 100 South Minnesota Street, Cape Girardeau, Mo., effective 12-5-52 to 12-4-53; 10 percent of the productive factory force (junior dresses).

Mifflin Shirt Co., Mifflin, Pa., effective 11-28-52 to 11-27-53; 10 learners (men's pajamas).

National Pants Co., Macon, Miss., effective 12-1-52 to 5-31-53; 75 learners for expansion purposes (men's and boys' pants).

Wm. H. Noggle & Sons, Inc., Penryn, Pa., effective 12-1-52 to 11-30-53; two learners (pajama pants).

Oberman Manufacturing Co., Wrightsville, Ga., effective 11-26-52 to 11-25-53; 10 percent of the productive factory force (men's sportswear slacks and shell trousers).

Perri-Mode, 11 Avon St., Portland, Maine, effective 12-1-52 to 11-30-53; five learners (dresses).

Regina Manufacturing Co, 44 Carey Avenue, Wilkes-Barre, Pa., effective 12-1-52 to 11-30-53; 10 percent of the productive factory force (dresses).

Reliance Manufacturing Co., "Sunflower" Factory, Cherryvale, Kans., effective 12-1-52 to 11-30-53; 10 percent of the productive factory force (men's work pants and boys' slack pants).

Reliance Manufacturing Co., "Capitol" Factory, Mitchell, Ind., effective 12-13-52 to 12-12-53; 10 percent of the productive factory force (dungarees, play garments, casual jeans).

Shirlee Manufacturing Co., Bart, Pa., effective 11-26-52 to 11-25-53; five learners (lingerie).

Sun Garment Co., Twelfth and Penn Streets, St. Joseph, Mo., effective 11-28-52 to 5-27-53; 30 learners for expansion purposes (uniform shirts).

Twin City Manufacturing Co., Twin City, Ga., effective 12-6-52 to 12-5-53; 10 percent of the productive factory force (men's dress and sport shirts).

Tyson Shirt Co., 620 Corson Street, Norristown, Pa., effective 11-29-52 to 11-28-53; 10 percent of the productive factory force (men's dress and sport shirts).

Weldon Manufacturing Co., Lopez, Pa., effective 11-30-52 to 11-29-53; 10 percent of the productive factory force (pajamas).

Knitted Wear Industry Learner Regulations (29 CFR 522.68 to 522.79, as amended January 21, 1952; 16 F. R. 12866).

Cluett, Peabody & Co., Inc., Eveleth, Minn., effective 11-28-52 to 11-27-53; 5 percent of the productive factory force (men's and boys' shorts).

Nescopeck Knitting Mills, Inc., 213 West Third Street, Nescopeck, Pa., effective 11-24-52 to 11-23-53; 5 learners (cotton tee shirts, wool and cotton coat sweaters).

Norwich Knitting Co., Clayton, N. C., effective 12-3-53 to 3-23-53; 25 additional learners for expansion purposes (supplemental expansion certificate) (knitted underwear and outerwear).

Union Underwear Co., Inc., Frankfort, Ky., effective 12-11-52 to 12-10-53; 5 percent of the productive factory force (men's and boys' underwear).

Regulations Applicable to the Employment of Learners (29 CFR 522.1 to 522.14).

Davis Hand Woven Textile Mill, Keyser, W. Va., effective 12-2-52 to 6-1-53; two learners; hand weaver, power loom weaver, sewing machine operator; each 240 hours at 65 cents per hour (baby shawls and crib blankets, ladies' headscarves and shawls).

P & K, Inc., 122 North Dixie Highway, Momence, Ill., effective 11-28-52 to 5-27-53; 10 learners; fly tying, brazing, machine bending; each 320 hours; 65 cents per hour for the first 160 hours and 70 cents per hour for the remaining 160 hours (replacement certificate) (fishhooks, lures, stringers, and flies).

Each certificate has been issued upon the employer's representation that employment of learners at subminimum rates is necessary in order to prevent curtailment of opportunities for employment, and that experienced workers for the learner occupations are not available. The certificates may be cancelled in the manner provided in the regulations and as indicated in the certificates. Any person aggrieved by the issuance of any of these certificates may seek a review or reconsideration thereof within fifteen days after publication of this notice in the FEDERAL REGISTER pursuant to the provisions of Part 522.

Signed at Washington, D. C., this 1st day of December 1952.

MILTON BROOKE,
Authorized Representative of the Administrator.

FEDERAL POWER COMMISSION

[Docket No. E-6441]

CONSOLIDATED GAS ELECTRIC LIGHT AND POWER CO. OF BALTIMORE AND PENNSYLVANIA WATER & POWER CO.

ORDER SETTING HEARING

DECEMBER 4, 1952.

By complaint filed July 2, 1952, Consolidated Gas Electric Light and Power Company of Baltimore (Consolidated) complains that Pennsylvania Water & Power Company (Penn Water) has overcharged it for electric service by reflecting in its charges certain expenditures made by Penn Water relating principally to litigation, annual charges of Penn Water's FPC license, and return on certain facilities unauthorized by Consolidated, and has not impounded the amounts required by the order of this Commission of January 31, 1949, and the order of the United States Court of Appeals of the District of Columbia of April 29, 1949, staying this Commission's rate reduction orders of January 4, 1949, and October 25, 1949, effective February 1, 1949. The disputed amounts have been billed by Penn Water to Consolidated, but payment on such amounts has been withheld by Consolidated.

The complaint requests this Commission to find such overcharges both under Penn Water's rate schedule on file before February 1, 1949, Rate Schedule FPC No. 1, and under the rate schedule prescribed by Commission order of October 25, 1949, FPC Prescribed Rate Schedule A, stayed by the orders of the Commission and the Court of Appeals until June 25, 1952. The complaint asks the Commission to examine every item of disputed expenditure by Penn Water and to issue a declaratory determination applicable to the construction of Penn Water's rate schedules for the future so as to settle whether Consolidated is obligated to pay the items for the past, present or future. The complaint further asks that the Commission inquire into Penn Water's impoundings of the difference between the rates under the Commission's prescribed rate schedule and the rate schedule previously on file for the period February 1, 1949, to April 29, 1949, during which the prescribed rate was stayed by Commission order and direct the proper amount which should be impounded and its distribution.

Penn Water filed a statement on August 1, 1952, in which it denied the jurisdiction of the Commission to grant the relief requested by Consolidated and denied the correctness of Consolidated's statements relating to the alleged overcharges.

The Commission orders:

(A) A public hearing be held in the Commission's Hearing Room, 1800 Pennsylvania Avenue NW., Washington, D. C., commencing at 10 a. m., e. s. t., on January 5, 1953, with respect to the issues in this proceeding.

(B) Interested State commissions may participate in the hearing ordered in paragraph (A), as provided by §§ 1.8 and 1.37 (f) of the Commission's general rules and regulations, including rules of practice and procedure, dated January 1, 1948 (18 C. F. R. 1.8 and 1.37 (f)).

Date of issuance: December 5, 1952.

By the Commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 52-13047; Filed, Dec. 10, 1952; 8:47 a. m.]

[Docket No. G-2045]

PERMIAN OIL AND GAS CO.

ORDER FIXING DATE OF HEARING

DECEMBER 4, 1952.

On September 8, 1952, the Permian Oil and Gas Company (Applicant), an Ohio corporation having its principal place of business in Marietta, Ohio, filed an application, as supplemented and amended on October 16, 1952, and December 3, 1952, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of approximately 4,520 feet of 3-inch pipe line, a metering and regulating station and appurtenant facilities in Olive Township, Noble County, Ohio, the continued operation of approximately 14 miles, 1,430 feet of existing 2-, 3- and 4-inch pipe line in Noble and Washington Counties, Ohio, and the purchase and transportation of natural gas as hereinafter described, all as more fully described in said application on file with the Commission and open to public inspection.

Paragraph (B) (3) of the order accompanying Opinion No. 231, issued July 3, 1952, in Docket No. G-1693 et al. authorized and directed Texas Eastern Transmission Corporation (Texas Eastern) to reserve not to exceed 300 Mcf of gas a day for Applicant. Applicant proposes to use the gas purchased from Texas Eastern to serve its existing customers in the villages of Caldwell, Dexter City, Macksburg, Elba, Dudley, Olive and South Olive, all in Ohio, and the outlying and intermediate districts thereof. Applicant states that this volume of gas is necessary to supplement its existing supply in local wells which have become depleted.

Applicant has requested, in its second amended application, that its application be heard under the shortened procedure provided by § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, and no request to be heard, protest, or petition in opposition to the application has been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on September 23, 1952 (17 F. R. 8491).

Applicant states, in its second amended application, that an emergency exists in that the supplementing supply of gas herein applied for is urgently needed to supply the current requirements of its customers.

The Commission finds:

(1) For good cause, the date fixed for hearing should be less than the 15 days required by § 1.20 (a) of the Commission's rules of practice and procedure.

(2) This proceeding is a proper one for disposition under the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on December 11, 1952, at 9:45 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State Commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: December 5, 1952.

By the Commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 52-13048; Filed, Dec. 10, 1952; 8:47 a. m.]

[Docket No. G-2068]

TEXAS GAS TRANSMISSION CORP.

ORDER FIXING DATE OF HEARING

DECEMBER 4, 1952.

On September 12, 1952, Texas Gas Transmission Corporation (Applicant), a Delaware corporation having its principal place of business at Owensboro, Kentucky, filed an application, as supplemented by additional information on October 29, 1952, for a certificate of public convenience and necessity pursuant to section 7 of the Natural Gas Act, authorizing the construction and operation of a metering station on its pipeline now serving Boonville, Indiana, for the purpose of selling natural gas to Boonville Natural Gas Corporation for resale in the unincorporated town of Chandler, Warrick County, Indiana, and environs, in volumes not to exceed 200 Mcf a day, all as more fully described in said application on file with the Commission and open to public inspection.

Applicant has requested that its application be heard under the shortened procedure provided by § 1.32 (b) (18 CFR 1.32 (b)) of the Commission's rules of practice and procedure, and no request to be heard, protest, or petition has been filed subsequent to the giving of due notice of the filing of the application, including publication in the FEDERAL REGISTER on October 10, 1952 (17 F. R. 9053).

The Commission finds: This proceeding is a proper one for disposition under the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

The Commission orders:

(A) Pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act, and the Commission's rules of practice and procedure, a hearing be held on December 23, 1952, at 9:30 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., concerning the matters involved and the issues presented by such application: *Provided, however,* That the Commission may, after a noncontested hearing, forthwith dispose of the proceeding pursuant to the provisions of § 1.32 (b) of the Commission's rules of practice and procedure.

(B) Interested State Commissions may participate as provided by §§ 1.8 and 1.37 (f) (18 CFR 1.8 and 1.37 (f)) of the said rules of practice and procedure.

Date of issuance: December 5, 1952.

By the Commission.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 52-13046; Filed, Dec. 10, 1952; 8:46 a. m.]

[Docket No. G-2093]

CONNECTICUT GAS CO.

NOTICE OF APPLICATION

DECEMBER 5, 1952.

Take notice that on November 24, 1952, the Connecticut Gas Company (Applicant), a Connecticut corporation with its principal place of business at Berlin, Connecticut, filed an application for a certificate of public convenience and necessity pursuant to section 7 (c) of the Natural Gas Act authorizing the operation of such of the facilities hereinafter described as may be subject to the requirements of the act and the jurisdiction of the Commission.

The facilities described in the application which are to be used in supplying the service Applicant proposes to furnish are:

(1) A coke oven plant of the Connecticut Coke Company, located in New Haven, Connecticut, for the production of mixed coke-oven and producer gas;

(2) A mixing plant owned by Applicant, located adjacent to the plant described in (1) above, for the mixture of manufactured gas and natural gas;

(3) A transmission pipeline from the mixing plant described in (2) above to the Madison Avenue Holder Station of the Hartford Gas Company. From this pipeline Applicant proposes to sell and deliver natural gas to the Connecticut Light and Power Company at Meriden, Middletown, and Bristol, Connecticut; and to furnish gas to domestic customers of New Haven Gas Light Company, Wallingford Gas Light Company, New Britain Gas Light Company, and Connecticut Light and Power Company, which are

connected directly to the transmission pipeline;

(4) The Madison Avenue Holder Station of Hartford Gas Company and its transfer main from the Holder Station to the Front Street mixing plant of Hartford Gas Company in Hartford;

(5) The Front Street mixing plant of Hartford Gas Company;

(6) Transmission facilities of Hartford Gas Company from its Front Street plant to Applicant's pipelines at Front Street and at the Manchester town line.

Applicant states that it need not construct, extend or acquire any of its presently existing facilities to receive, mix, transport, and sell natural gas and manufactured gas. Applicant states that it is now operating a gas transmission pipeline system running from New Haven to Hartford, Connecticut, and to certain points in the so-called Central and Northern Divisions of the Connecticut Light and Power Company, and that this application is for a certificate of public convenience and necessity to permit this continued operation of this pipeline system with the introduction of natural gas.

Protests or petitions to intervene may be filed with the Federal Power Commission, Washington 25, D. C., in accordance with the rules of practice and procedure (18 CFR 1.8 or 1.10) on or before the 24th day of December 1952. The application is on file with the Commission for public inspection.

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 52-13051; Filed, Dec. 10, 1952; 8:48 a. m.]

[Docket Nos. G-2097, G-2024]

UNITED GAS PIPE LINE CO. AND MISSISSIPPI RIVER FUEL CORP.

ORDER INSTITUTING INVESTIGATION, CONSOLIDATING PROCEEDINGS, FIXING DATE OF HEARING, AND REQUIRING UNITED GAS PIPE LINE COMPANY TO SUBMIT SPECIFIED DATA AND INFORMATION

DECEMBER 4, 1952.

In the matter of United Gas Pipe Line Company, Docket No. G-2097; Mississippi River Fuel Corporation, Complainant, v. United Gas Pipe Line Company, Defendant, Docket No. G-2024.

On August 4, 1952, Mississippi River Fuel Corporation (Mississippi) filed a complaint against United Gas Pipe Line Company (United) in the above-entitled proceeding, Docket No. G-2024, designated "Petition for Relief," in which Mississippi prayed that United be required by the Commission to make an accounting and render reports, as more particularly hereinafter referred to, relating to certain contracts entered into between United, as seller, and Mississippi, as buyer, and filed with the Federal Power Commission as rate schedules. The salient facts leading up to the filing of such complaint are as follows:

On September 7, 1945, United, as seller, and Mississippi, as buyer, entered into a contract for the sale and purchase of natural gas, whereby United agreed to supply Mississippi with certain volumes of natural gas on a basis substantially resulting in a maximum of 73,000 Mcf of natural gas per day, at a price consisting of a commodity charge of 5 cents, subject to adjustment for Btu content, and a demand charge of 38 cents per Mcf of billing demand per month. This contract was filed with the Commission and designated as Supplement No. 11 to United's Rate Schedules FPC Nos. 9, 10, and 11.

On March 28, 1949, pursuant to the terms of said contract of September 7, 1945, Mississippi notified United of its desire to increase its maximum daily purchases under said contract from 73,000 Mcf to 195,000 Mcf, commencing November 1, 1949, an increase of 122,000 Mcf per day. Thereafter, on November 16, 1949, the same parties entered into an amendatory agreement—filed with the Commission on November 23, 1949, and designated as Supplement No. 15 to United's Rate Schedules FPC Nos. 9, 10, and 11—providing for the aforesaid maximum daily delivery of 195,000 Mcf, and also for a higher "rolled in" rate for the total deliveries to be made, consisting of a commodity charge of 6½ cents per Mcf, subject to adjustment for Btu content, and a demand charge of 45 cents per Mcf of billing demand per month. This filing effected an increase in rates estimated by United at the time of filing to be about $950,000 annually. The 6½ cents commodity charge represented the approximate weighted average of 5 cents per Mcf related to the 73,000 Mcf a day and 7½ cents per Mcf for the added 122,000 Mcf a day.

On the same date, November 16, 1949, the parties entered into a letter agreement which was filed with the Commission and designated as Supplement No. 1 to Supplement No. 15 to United's Rate Schedules FPC Nos. 9, 10, and 11, providing for an annual adjustment of the commodity charge of 6½ cents specified in Supplement No. 15 to United's Rate Schedules FPC Nos. 9, 10, 11, in the following manner:

It is anticipated that the additional gas requested by Mississippi River Fuel Corporation • • • must be supplied by United Gas Pipe Line Company from purchases of surplus gas in the Carthage Field. United is entering into purchase contracts for the purchase of this surplus gas. These purchase contracts are for twenty (20) years, and the price to be paid thereunder is on a sliding scale of 7½ cents per Mcf for the first 5-year period, increasing one cent each 5 years • • •.

Due to variations in the market demands of both United and others now withdrawing gas from Carthage Field, the amount of surplus gas purchases may, in any years, be less than the amount estimated by United to supply the increased requirements of Mississippi River Fuel Corporation. It is the intention of United, as of March 1st of each year, to make an appropriate adjustment in the commodity charge as set out in its amendatory agreement with Mississippi River Fuel Corporation dated November 16, 1949, in the event that the surplus gas purchases, chargeable to Mississippi River Fuel's increased demand as set out in said agreement, shall be less than 122/195 of Mississippi River Fuel's total requirements from United. The amount of the adjustment, and the method of calculation, shall be approved by the Federal Power Commission.

By order dated December 20, 1949, the Commission allowed said Supplement No. 15 and said Supplement No. 1 thereto to take effect as of December 8, 1949, which order recites, inter alia, that:

Supplement No. 1 to said Supplement No. 15 provides that United will make an adjustment in the commodity charge as of March 1 of each year, as therein provided.

The same order required, inter alia, that:

United shall file as of March 1 in each year the amount of the proposed adjustment in the commodity charge, referred to in said Supplement No. 1 to Supplement No. 15, the method of calculation of such adjustment, and such other details as may be requested by the Commission, and such filing shall be made each year whether or not any adjustment is contemplated by United.

On May 23, 1950, United filed Supplement No. 1 to Supplement No. 1 to Supplement No. 15 to Rate Schedules FPC Nos. 9, 10 and 11, representing an adjustment of $201,892.53 to be paid by United to Mississippi for the period from December 13, 1949, to and including February 28, 1950. It appears from such filing that, for the period covered, United purchased no gas at a price of 7½ cents per Mcf for delivery to Mississippi in the manner contemplated by Supplement No. 1 to Supplement No. 15, and such filing reflected a reduction in the unit commodity price from 6½ cents to 5 cents per Mcf. Such filing shows that during said period of time, United delivered to Mississippi a total of 12,837,462 Mcf of gas and that United billed Mississippi the sum of $1,084,175.13 for such gas; that the aforesaid sum of $201,892.53 remitted is composed of two parts, as follows: (a) The difference between the amount billed at the commodity charge of 6½ cents per Mcf and the adjusted commodity price of 5 cents per Mcf, or $192,561.93; and (b) the difference in the charges due to a Btu adjustment of $9,330.60. By Commission order issued June 27, 1950, said Supplement No. 1 to Supplement No. 1 to Supplement No. 15 was allowed to take effect and it appears that United remitted $201,892.53 to Mississippi.

By letter dated April 24, 1951, United transmitted for filing with the Commission a statement showing, as the proposed adjustment in its charges to Mississippi for the period from March 1, 1950, to February 28, 1951, an amount of $688,789 to be remitted to Mississippi; and by letter dated June 18, 1951, transmitted for filing a revised statement showing the same proposed adjustment. It appears from such statements that United sought to consider certain exchange gas which it received from a transmission pipeline of Texas Eastern Transmission Corporation at a point near Castor, Louisiana, as being the same, under the provisions of Supplement No. 1 to Supplement No. 15 to Rate Schedules FPC Nos. 9, 10, and 11, as surplus gas purchased at 7½ cents per Mcf in the Carthage Field, and that had it not been for such assumption, the amount of the adjustment would have been much larger, or approximately $1,030,000. United has not remitted any amount to Mississippi by way of adjustment for such 12-month period.

By letter dated June 30, 1952, from the Secretary of the Commission, United was called upon to file a statement for the year ending February 29, 1952, as required by the Commission's order dated December 20, 1949, showing the adjustment in charges respecting charges for natural gas sold and delivered during such period pursuant to the provisions of Supplement No. 1 to Supplement No. 15 to United's Rate Schedules FPC Nos. 9, 10, and 11. United has failed and refused to comply with such request and the requirements of its filed and effective rate schedules.

The complaint of Mississippi filed on August 4, 1952, prays that the Commission forthwith order United to make such accounting or render such report or reports as will indicate as of March 1, 1951, and March 1, 1952, what adjustments are necessary in the commodity charge, as to each of the preceding 12-month periods, because of the provisions of effective rate schedules and supplements thereto on file with the Federal Power Commission, and that United be ordered to comply in all particulars with said rate schedules and supplements thereto.

It appears that United, for the 12 months ended February 28, 1951, and again for the 12 months ended February 29, 1952, has failed and refused to make the adjustment in the commodity charge called for by said Supplement No. 1 to Supplement No. 15 to United's FPC Rate Schedules Nos. 9, 10, and 11, and has failed and refused to submit the basic information from which the amount of such adjustment can be determined, as required by said Commission order dated December 20, 1949.

On October 4, 1951, United filed a petition for a declaratory order determining "that Petitioner did not have to make any adjustment or refund to Mississippi under the adjustment rate and that Petitioner be declared to be entitled to a refund from Mississippi in the amount of $201,892.60." The Commission by order issued October 31, 1951 (Docket No. G-1804), dismissed United's petition. From such order of dismissal, United has appealed to the United States Court of Appeals for the Fifth Circuit, thus raising the issue whether the Commission erred in the exercise of its discretion in dismissing United's petition for a declaratory order in the form and manner requested.

The Commission finds:

(1) It is necessary and proper in the public interest, and to aid in the enforcement of the provisions of the Natural Gas Act that an investigation be instituted by the Commission, upon its own motion as hereinafter ordered, to determine the correct amount of the adjustment in the charges of United to Mississippi for natural gas sold and delivered during the 12-month periods ended February 28, 1951, and February 29, 1952, under the provisions of United's Rate Schedules FPC Nos. 9, 10, and 11 and supplements theerto; and such amount as may be due and payable from United to Mississippi for each of said 12-month periods.

(2) The matters involved in the proceeding in Docket No. G-2097 involve substantially the same issues and facts as presented in Docket No. G-2024, and good cause, therefore, exists for consolidating such matters for purpose of hearing.

The Commission orders:

(A) An investigation be and it hereby is instituted for the purpose of enabling the Commission to determine the correct amount of the adjustment in the charges of United to Mississippi for natural gas sold and delivered during the 12-month periods ended February 28, 1951, and February 29, 1952, under the provisions of United's Rate Schedules FPC Nos. 9, 10, and 11 and supplements thereto; and to determine such amount as may be due and payable from United to Mississippi for each of said 12-month periods.

(B) That United submit to the Commission in writing and under oath 10 days prior to such public hearing, the following information:

(i) The volume of natural gas which it supplied to Mississippi during the 12-month periods ended February 28, 1951 and February 29, 1952, pursuant to the foregoing rate schedules and supplements thereto, or any of them, which natural gas represented purchases by United of surplus gas in the Carthage Field, and the names of the sellers of such surplus gas to United, as well as the price paid therefor by United; and

(ii) Full information and data for the respective 12-month periods ended February 28, 1951 and February 29, 1952, showing the total volumes of natural gas sold and delivered to Mississippi under United's Rate Schedules FPC Nos. 9, 10, and 11, as supplemented, as well as the adjustments specified under the provisions of Supplement No. 1 to Supplement No. 15 to such rate schedules and the Commission's order of December 20, 1949, appropriately adjusted to reflect any difference in charges due to Btu content of such gas.

(C) The proceedings in this docket be and the same hereby are consolidated with the proceedings in Docket No. G-2024 for purposes of hearing.

(D) The consolidated proceedings be and the same hereby are set for public hearing to be held commencing on January 26, 1953, at 10:00 a. m., in the Hearing Room of the Federal Power Commission, 1800 Pennsylvania Avenue NW., Washington, D. C., respecting the matters and issues presented by the complaint of Mississippi and the matters and issues presented by paragraphs (A) and (B) hereof.

Date of issuance: December 5, 1952.

By the Commission.[1]

[SEAL] J. H. GUTRIDE,
Acting Secretary.

[F. R. Doc. 52-13044; Filed, Dec. 10, 1952; 8:46 a. m.]

[1] Commissioner Draper dissenting.

[Project No. 1971]

IDAHO POWER CO.

ORDER ON MOTIONS

DECEMBER 3, 1952.

On November 10, 1952, the Idaho Power Company, applicant for license under the Federal Power Act for the proposed Oxbow Project (No. 1971) on Snake River, Idaho and Oregon, filed a supplement to its application for license for the project. The supplement consisted of (1) an amended Exhibit N, revised estimate of the cost of the proposed Oxbow Project, and (2) an amended Exhibit Q, revised statement of plans for comprehensive development. The original Exhibit Q presented a plan to develop the power resources of the stretch of the Snake River between Weiser, Idaho, and a piont about 100 miles downstream with five low head dams (Bayhorse, Sturgill, Brownlee, Oxbow, and Hells Canyon). The amended Exhibit Q includes this plan for five low head dams and in addition presents an alternative plan calling for low head dams at the Oxbow and Hells Canyon sites and a high head dam at the Brownlee site in lieu of the three low head dams at the Brownlee, Sturgill, and Bayhorse sites. Amended Exhibit Q states that the installed capacities and the estimated costs given for each development under the two alternative plans are based on preliminary studies; that further investigation and appraisal of the Brownlee site and the comparative merits of the two plans are being conducted by the applicant; and that the results of the further investigations and studies will be supplied to the Commission.

The supplement does not change or amend the proposal to construct the Oxbow Project, the only project for which a license is requested.

On November 12, 1952, the applicant filed a motion requesting the Commission to postpone the further hearing in this proceeding, now set for January 12, 1953, in Washington, D. C., for approximately 30 days. The motion stated that the additional time was needed in view of the further investigations and appraisals now being conducted with respect to the proposal for a high head dam at the Brownlee site and other work in connection with the alternative plan, for comprehensive development, and in view of the several holiday periods between November 12, 1952, and January 12, 1953. In addition, the Commission takes notice of the fact that it will be extremely difficult, if not impossible, for its staff members and any others from places outside of Washington, D. C., who plan to attend or participate in the hearing to obtain hotel accommodations in or around Washington, D. C., in January 1953, due to the Presidential Inauguration which is to occur January 20, 1953.

The motion, together with a copy of the supplement to the application, was served by the applicant on all parties of record in this proceeding.

On November 21, 1952, the Secretary of the Interior, an intervener in this pro-

ceeding, filed motions in opposition to applicant's motion for continuance and to strike the supplement to the application filed November 10, 1952. In the alternative, the Secretary requested that if the motion to strike the supplement be denied, such denial be without prejudice to his right to answer thereto within 30 days from the date of the Commission's action on the motions and that no action be taken on the motion for continuance and that the Secretary be accorded a period of 10 days from the date of the Commission's action to answer the motion for continuance on the merits. Counsel for the Secretary, by a letter filed November 28, 1952, requested that, if the Commission finds it is not possible to resume the hearings as now scheduled, the deferment should be until about April 15, 1953.

No other party filed an answer to the applicant's motion for continuance within the 10-day period provided for such answers by the Commission's rules and regulations. However, Commission Staff Counsel filed an answer stating that additional time was needed to investigate and study the alternative plan for comprehensive development presented in the amended Exhibit Q and requested postponement of the further hearing.

The supplement to the application is being referred to the Secretary of the Interior for an appropriate report and comment as was the original application for license. This will afford him an opportunity to make any representations and to request any affirmative relief in this matter he deems necessary or appropriate.

The Commission finds:

(1) An applicant for license has the right to supplement its application for license to present revised or amended data and plans for consideration by the Commission and, therefore, the motion of the Secretary of the Interior to strike the supplement should be denied as hereinafter provided.

(2) The Secretary of the Interior was served with a copy of the applicant's motion for continuance of the further hearing and has made representations with respect thereto within the 10-day period provided by the Commission's rules and regulations.

(3) Under the existing circumstances it is appropriate and in the public interest to postpone the further hearing in this matter as hereinafter provided.

The Commission orders:

(A) The motion of the Secretary of the Interior to strike the supplement to the application for license for Project No. 1971, filed November 10, 1952, is hereby denied without prejudice to the right of the Secretary to make further representations or request such affirmative relief as he deems necessary or appropriate.

(B) The further hearing in the above-entitled matter now set to commence on January 12, 1953, is hereby postponed to commence on April 13, 1953, at 10:00 a. m., e. s. t., in the Hearing Room of the Federal Power Commission, Twelfth Floor, 1800 Pennsylvania Avenue NW., Washington, D. C.

Date of issuance: December 5, 1952.

By the Commission.

[SEAL] J. H. GUTRIDE, *Acting Secretary.*

[F. R. Doc. 52-13045; Filed, Dec. 10, 1952; 8:46 a. m.]

SECURITIES AND EXCHANGE COMMISSION

[File No. 70-2962]

AMERICAN GAS AND ELECTRIC CO.

NOTICE OF FILING REGARDING RECLASSIFICATION OF COMMON STOCK AND ISSUANCE OF SHARES; AND STOCK DIVIDEND

DECEMBER 5, 1952.

Notice is hereby given that American Gas and Electric Company ("American Gas"), a registered holding company, has filed a declaration pursuant to the Public Utility Holding Company Act of 1935, and has designated sections 6 and 7 thereof and Rule U-62 of the rules and regulations promulgated thereunder as applicable to the following proposed transactions:

American Gas presently has outstanding 10,041,081 shares of $10 par value common stock. The declaration proposes (1) the reclassification of said shares into 20,082,162 shares of $5 par value common stock, and the issuance of two shares of the $5 par value common stock for each one share of the $10 par value common stock presently held; and (2) the issuance of a stock dividend which is summarized as follows:

On October 29, 1952, the board of directors of American Gas declared a stock dividend at the rate of one share of $10 par value common stock for each forty shares of such stock outstanding in the hands of the public, payable March 10, 1953, to holders of record on February 2, 1953. In the event that the stock reclassification heretofore described shall have become effective on or prior to March 10, 1953, the stock dividend will be at the rate of two shares of $5 par value common stock for each share of the $10 par value common stock which would have been distributable had such reclassification not become effective.

The proposed stock dividend will result in the issuance of 146,913 shares of $10 par value common stock. American Gas proposes to reflect this transaction by debiting earned surplus in the amount of $8,080,215 (an assigned value of $55 per share) and crediting the common stock account with $1,469,130 and premium on capital stock in the amount of $6,611,085. As of September 30, 1952, the earned surplus of American Gas was $71,551,606.

In connection with the stock dividend, American Gas proposes that no fractional shares of common stock will be issued. The details of handling fractional interests will be set forth by amendment herein.

Notice is further given that any interested person may, not later than December 18, 1952, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law, if any, raised by the said declaration which he desires to controvert, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time after December 18, 1952, said declaration, as filed or as amended, may be permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and Rule U-100 thereof. All interested persons are referred to said declaration which is on file in the office of this Commission for a statement of the transactions therein proposed.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

[F. R. Doc. 52-13054; Filed, Dec. 10, 1952; 8:49 a. m.]

[File Nos. 70-2963, 70-2966, 70-2965, 70-2964]

MONTAUP ELECTRIC CO. ET AL.

NOTICE OF ISSUE, SALE AND ACQUISITION OF DEBENTURE BONDS; ISSUE AND SALE OF UNSECURED NOTES TO BANKS; AND ORDER OF CONSOLIDATION

DECEMBER 5, 1952.

In the matter of Montaup Electric Company, Blackstone Valley Gas and Electric Company, Brockton Edison Company, Fall River Electric Light Company, File No. 70-2968; Blackstone Valley Gas and Electric Company, File No. 70-2966; Brockton Edison Company, File No. 70-2965; Fall River Electric Light Company, File No. 70-2964.

Notice is hereby given that applications-declarations have been filed with this Commission, pursuant to the Public Utility Holding Company Act of 1935, by Montaup Electric Company ("Montaup"), Blackstone Valley Gas and Electric Company ("Blackstone"), Brockton Edison Company ("Brockton"), and Fall River Electric Light Company ("Fall River"), all public-utility subsidiary companies of Eastern Utilities Associates, a registered holding company. Applicants-declarants have designated sections 6, 7, 9, 10, and 12 of the act and rules U-42, U-43, U-45, and U-50 promulgated thereunder as applicable to the proposed transactions, which are summarized as follows:

Montaup presently has outstanding with a bank $11,000,000 principal amount of 3 percent promissory notes, due December 30, 1952. Such notes were issued principally to provide Montaup with funds necessary for an additional 60,000 kw generator in its steam plant, which was placed in service on October 1, 1951.

Montaup proposes to issue and sell $11,000,000 principal amount of 30-year 3⅜ percent Debenture Bonds to Blackstone ($4,573,000), Brockton ($2,689,000), and Fall River ($3,738,000) and to use the proceeds therefrom to pay off its presently outstanding promissory notes. Said Debenture Bonds are to be redeemable, in whole at any time or pro rata in part from time to time, at the principal amount and accrued interest to the date of redemption.

Blackstone, Brockton and Fall River expect to have outstanding during December 1952, under a prior loan agreement, unsecured short-term 3 percent promissory notes in the aggregate face amount of $600,000, $1,100,000 and $900,000, respectively. Blackstone, Brockton and Fall River propose to issue to the First National Bank of Boston and certain participating banks on or before December 29, 1953, unsecured promissory notes in the aggregate principal amounts of $6,000,000, $4,450,000 and $5,200,000, respectively. Said notes will be issued by said companies in order to pay off such note indebtedness as may be outstanding during December 1952 under said prior loan agreement, to purchase their proportionate shares of the Debenture Bonds proposed to be issued by Montaup and to provide sufficient funds for their 1953 construction programs. With respect to each company said notes will mature not later than one year less one day after the date of issue of the first of the notes and in no event later than December 29, 1953, and will be prepayable at any time without premium. Each note will bear interest at the prime rate of interest for short-term unsecured loans existing at the time of issuance thereof except that the interest rate on each note outstanding on June 30, 1953, will be adjusted to the prime interest rate existing on that date and each such note will bear such adjusted prime interest rate from that date to maturity or prior payment thereof. It is stated that the prime interest rate for such notes at the present time is 3 percent per annum. It is further stated that in the event that the interest rate of any proposed note would be in excess of 3¼ percent per annum, prior to the issuance thereof, the applicable borrowing company or companies will file an amendment to this proceeding setting forth the then existing proposed interest rate. It is requested that any such amendment become effective five days after the filing thereof unless the Commission notifies the company or companies filing such amendment to the contrary.

The filings indicate that the promissory notes proposed to be issued by Blackstone, Brockton, and Fall River will be refinanced through the issuance of bonds by said companies. The filings state that the Department of Public Utilities of Massachusetts has jurisdiction over the issuance of said Debenture Bonds by Montaup and the acquisition of their proportionate share thereof by Brockton and Fall River and that no other State commission or Federal commission, other than this Commission, has jurisdiction over the proposed transactions. The filings further state that the fees and expenses to be incurred in connection with the sale and acquisition of the Debenture Bonds will not exceed $14,700, including $2,500 of legal fees and $12,100 for Federal documentary tax, and that the fees and expenses to be incurred in connection with the notes to be issued and sold by Blackstone, Brockton, and Fall River will not exceed $1,000, including $900 of legal fees, for each company. It is requested that the Commission's order herein become effective upon issuance.

Notice is further given that any interested person may, not later than December 22, 1952, at 5:30 p. m., request the Commission in writing that a hearing be held on such matters stating the nature of his interest, the reasons for such request, and the issues, if any, of fact or law raised by said application-declaration proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time thereafter such applications-declarations, as filed or as amended, may be granted or permitted to become effective as provided in Rule U-23 of the rules and regulations promulgated pursuant to said act, or the Commission may exempt such transactions as provided in Rule U-20 (a) and U-100 thereof.

It appearing to the Commission that the above entitled matters involve common questions of law and fact and that such matters should be consolidated for consideration and disposition:

It is ordered, That the above entitled matters be, and the same hereby are, consolidated for consideration and disposition.

By the Commission.

[File No. 70-2971]

HEVI DUTY ELECTRIC CO.

NOTICE OF FILING REGARDING EXTENSION OF BANK LOAN NOTE

DECEMBER 5, 1952.

Notice is hereby given that an application has been filed by Hevi Duty Electric Company, a non-utility company which is a subsidiary of the North American Company, a registered holding company. The applicant has designated section 6 (b) of the act as being applicable to the proposed transaction which is summarized as follows:

By order, dated June 16, 1952 (Holding Company Act Release No. 11358), this Commission entered its order permitting Hevi Duty to borrow from the Chemical Bank & Trust Company of New York the sum of $300,000 at an interest rate of 3 percent per annum, such borrowing to be evidenced by an unsecured promissory note to extend for a period of six months with the privilege on the part of the company to renew such loan for an additional six-month period. The present application states that said bank loan becomes due January 2, 1953, and because the company's need for working funds has further increased since the original loan was made, it is now proposed that such bank loan be renewed in the same principal amount at the same interest rate for a further period of six months. No fees, commissions or other remuneration are to be paid to any third person in connection with the proposed transaction.

The company states that no regulatory commission other than this Commission has jurisdiction over the proposed transaction.

The applicant has requested that the Commission's order herein become effective upon issuance.

Notice is further given that any interested person may, not later than December 19, 1952, at 5:30 p. m., request the Commission in writing that a hearing be held on such matter, stating the reasons for such request, the nature of his interest and the issues of fact or law raised by said application which he desires to controvert or may request that he be notified if the Commisison should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. At any time thereafter, said application, as filed or as amended, may be granted as provided in Rule U-23 of the rules and regulations promulgated under the act, or the Commission may exempt such transaction as provided in Rule U-20 (a) and Rule U-100 thereof.

By the Commission.

[SEAL] ORVAL L. DUBOIS, *Secretary.*

DEPARTMENT OF COMMERCE

National Production Authority

[NPA Delegation 6, Supp. 1]

CIVIL AERONAUTICS ADMINISTRATION

DELEGATION OF AUTHORITY FOR PRIORITY ASSISTANCE FOR MATERIALS TO RESTORE PROPERTY DAMAGED BY TYPHOON ON WAKE ISLAND

This Supplement 1 to NPA Delegation 6 (as amended August 21, 1951), is issued pursuant to the Defense Production Act of 1950, as amended. The Civil Aeronautics Administration has been delegated certain authority to apply and assign ratings pursuant to NPA Delegation 6. In addition to such authority, National Production Authority delegated to the Administrator of the Civil Aeronautics Administration by written authorization (therein and hereinafter referred to as "NPA Wake Island Authorization") the following authority of which this supplement is confirmatory:

1. To apply the allotment symbol X4 to contracts and delivery orders of Civil Aeronautics Administration for controlled materials (as the term "controlled materials" is used in CMP Reg-

ulation No. 1), and the rating DO–X4 to contracts and delivery orders of Civil Aeronautics Administration for products and materials other than controlled materials; and to grant to others the right to apply the allotment symbol X4 to their contracts and delivery orders for controlled materials and the rating DO–X4 to their contracts and delivery orders for products and materials other than controlled materials, provided that such controlled materials, products, and other materials are required to reconstruct, repair, or replace any building, structure, facility, or equipment damaged or destroyed as a result of the recent typhoon disaster on Wake Island, so that such building, structure, or facility will be substantially the same as it was prior to that disaster.

2. To redelegate in writing to any agent of Civil Aeronautics Administration designated by the Administrator thereof, the authority granted in this supplement.

3. The allotment symbol and DO rating authorized in the NPA Wake Island Authorization may be used only for delivery orders placed prior to July 1, 1953. Every delivery order bearing the allotment symbol X4 or the rating DO–X4 pursuant thereto must contain a certification in the following form:

"Certified under NPA Wake Island Authorization."

Such certification shall be signed as provided in NPA Reg. 2 and shall constitute a representation to the supplier and to the National Production Authority that the person placing the order is authorized to use the allotment symbol X4 or the rating DO–X4, as the case may be, under the provisions of such authorization, for the purpose of obtaining the materials or products covered by the delivery order.

4. Every grant of the right to use an allotment symbol or rating on a delivery order which might be given by the Administrator of Civil Aeronautics Administration to any person pursuant to the NPA Wake Island Authorization shall be made in writing, addressed to such person, and duly signed in the name and behalf of Civil Aeronautics Administration; and shall incorporate therein by reference the provisions of the NPA Wake Island Authorization.

5. The exercise of this authority shall be subject to and in accordance with all regulations and orders of the National Production Authority, the NPA Wake Island Authorization, and all such requirements, policy statements, and directives as may be issued from time to time by the National Production Authority.

This supplement issued on December 10, 1952. The NPA Wake Island Authorization was issued November 19, 1952.

NATIONAL PRODUCTION AUTHORITY,
R. A. McDONALD,
Administrator.

[Suspension Order 50; Docket No. 55]

HUB AUTO SUPPLY, INC., ET AL.

SUSPENSION ORDER

A hearing having been held in the above-entitled proceeding on the 29th day of October 1952, before Ernest J. Brown, a hearing commissioner of the National Production Authority, on a statement of charges made in accordance with the National Production Authority General Administrative Order 16–06 (16 F. R. 8628) dated July 21, 1951, and Rules of Practice 1, Revised (17 F. R. 8156), and upon a stipulation of facts executed by the regional attorney on behalf of the National Production Authority, by the respondents, and by counsel for the respondent Hub Auto Supply, Inc.; and

The respondents Hub Auto Supply, Inc., and William B. Sandler, President of Hub Auto Supply, Inc., and individually, having been duly apprised of the specific violations charged and the administrative action which may be taken, and having been fully informed of the rules and procedures which govern these proceedings; and the said respondents being represented by David M. Brackman, Esq., an attorney at law, and the National Production Authority having been represented by James E. Agnew, Esq., Regional Attorney; and a stipulation of facts having been introduced in lieu of other evidence; and counsel having been heard, and after due deliberation;

It is hereby determined:

Findings of fact. 1. During the period commencing March 24, 1952, and ending on or about April 4, 1952, Hub Auto Supply, Inc., placed controlled material orders bearing allotment symbol DO–R6–2Q52 for delivery of 45 tons of carbon steel controlled materials when and although said Hub Auto Supply, Inc., was not authorized to use such allotment symbol or to place such controlled material orders.

2. During the period commencing on or about April 5, 1952, and ending on or about June 10, 1952, Hub Auto Supply, Inc., used 45 tons of carbon steel controlled materials obtained by use of an allotment, for a purpose other than to fill a related or other authorized production schedule.

3. During the period commencing March 24, 1952, and ending on or about August 12, 1952, Hub Auto Supply, Inc., failed to maintain at its regular place of business documents on which it relied as entitling it to make allotments and accept delivery of carbon steel controlled materials, and failed to make such documents available for inspection by representatives of the National Production Authority.

4. During the period commencing March 24, 1952, and ending on or about August 12, 1952, William B. Sandler was president of Hub Auto Supply, Inc., and dominated and managed its affairs, and directed, supervised, and participated in the acts, or failures to act, attributed to Hub Auto Supply, Inc., in paragraphs numbered 1 through 3, immediately above.

Conclusions. 1. In placing controlled material orders bearing allotment symbol DO–R6–2Q52 for delivery of 45 tons of carbon steel controlled materials when and although not authorized to use such allotment symbol or to place such controlled material orders, Hub Auto Supply, Inc., during the period commencing March 24, 1952, and ending on or about April 4, 1952, committed acts prohibited by, and in violation of, section 19 (f) of CMP Regulation No. 1, dated May 3, 1951 (16 F. R. 4127), as amended November 23, 1951 (16 F. R. 11860).

2. In using 45 tons of carbon steel controlled materials obtained by use of an allotment, for a purpose other than to fill a related or other authorized production schedule, Hub Auto Supply, Inc., during the period commencing on or about April 5, 1952, and ending on or about June 10, 1952, committed acts prohibited by, and in violation of, section 17 (h) of CMP Regulation No. 1, dated May 3, 1951 (16 F. R. 4127), as amended November 23, 1951 (16 F. R. 11860).

3. In failing to maintain at its regular place of business documents on which it relied as entitling it to make allotments and accept delivery of carbon steel controlled materials, and in failing to make such documents available for inspection by representatives of the National Production Authority, Hub Auto Supply, Inc., during the period commencing March 24, 1952, and ending on or about August 12, 1952, violated section 23 (b) of CMP Regulation No. 1, dated May 3, 1951 (16 F. R. 4127), as amended November 23, 1951 (16 F. R. 11860).

4. In directing, supervising, and participating in the acts and failures to act found to have constituted violations of CMP Regulation No. 1, as amended, by Hub Auto Supply, Inc., while president of said Hub Auto Supply, Inc., William B. Sandler, during the period commencing March 24, 1952, and ending on or about August 12, 1952, committed acts prohibited by, and in violation of, sections 17 (b), 19 (f), and 23 (b) of CMP Regulation No. 1, dated May 3, 1951 (16 F. R. 4127), as amended November 23, 1951 (16 F. R. 11860).

In order to correct the unauthorized ordering and use of carbon steel found herein, and in order to prevent future violations of National Production Authority regulations and orders by the respondents,

It is accordingly ordered:

1. That all priority assistance be withdrawn and withheld from Hub Auto Supply, Inc., and from William B. Sandler, as president of Hub Auto Supply, Inc., and individually, their successors and assigns, for a period of 4 months beginning with the date of the issue of this order.

2. That all allocations and allotments of controlled materials and materials under the control of the National Production Authority be withdrawn and withheld from Hub Auto Supply, Inc., and William B. Sandler as president of Hub Auto Supply, Inc., and individually, their successors and assigns, so long as the Defense Production Act of 1950, as amended, or as hereafter amended or extended, remains in effect.

3. That all privileges of self-certification, self-authorization, and automatic allotment granted or authorized by the National Production Authority with respect to controlled materials and materials under the control of the National Production Authority be withdrawn and withheld from Hub Auto Supply, Inc., and William B. Sandler as president of Hub Auto Supply, Inc., and individually, their successors and assigns, so long as the Defense Production Act of 1950, as amended, or as hereafter amended or extended, remains in effect.

4. That Hub Auto Supply, Inc., and William B. Sandler as president of Hub Auto Supply, Inc., and individually, their successors and assigns, be prohibited from acquiring, using, or disposing of controlled materials and materials under the control of the National Production Authority for a period of 4 months beginning with the date of the issue of this order.

Issued at Boston, Mass., this 26th day of November 1952.

NATIONAL PRODUCTION AUTHORITY,
By ERNEST J. BROWN,
Hearing Commissioner.

DEPARTMENT OF JUSTICE

Office of Alien Property

[Dissolution Order 98]

JUNGMANN & CO., INC.

Whereas, by Vesting Order No. 166, executed September 24, 1942 (7 F. R. 8568, October 23, 1942) there was vested 240 shares (80 percent) of the issued and outstanding capital stock of Jungmann & Co., Inc., a Delaware corporation; and,

Whereas, the remaining 60 shares (20 percent) of the issued and outstanding capital stock are owned by the estate of an American citizen to wit: Paul Gutschow; and,

Whereas, Jungmann and Co., Inc., has been substantially liquidated;

Now, under the authority of the Trading with the Enemy Act, as amended, Executive Order 9095, as amended, and Executive Order 9788, and pursuant to law, the undersigned, after investigation:

1. Finding that the claims of all known creditors have been paid, except such claims, if any, as the Attorney General of the United States may have for money advanced or services rendered to or on behalf of the corporation; and

2. Having determined that it is in the national interest of the United States that said corporation be dissolved, and that its assets be distributed, and a Certificate of Dissolution having been issued by the Secretary of State of the State of Delaware;

Hereby orders, that the officers and directors of Jungmann & Co., Inc. (to wit: Robert Kramer, Vice-President and Director, and Lewis M. Reed, Secretary and Director, and their successors, or any of them) continue the proceedings for the dissolution of Jungmann and Company, Inc.; and further orders that the said officers and directors wind up the affairs of the corporation and distribute the assets thereof coming into their possession as follows:

(a) They shall first pay the current expenses and reasonable and necessary charges of winding up the affairs of the said corporation and the dissolution thereof; and

(b) They shall then pay all known Federal, State, and local taxes and fees, if any, owed by or accruing against the said corporation; and

(c) They shall then pay such claim, if any, as the Attorney General may have for monies advanced or services rendered to or on behalf of the corporation; and

(d) They shall then pay a final liquidating distribution to the Attorney General and Paul Gutschow of all remaining cash and other assets in the proportion of 80 percent to the Attorney General and 20 percent to Paul Gutschow providing that the amount due the corporation from Helmuth Voss, the German national from whom the 80 percent stock interest was vested, will be applied in part payment of the sum due the Attorney General in such distribution; and providing that the amount heretofore distributed to Paul Gutschow of $18,405.50 will be first applied against the amount shown to be due as Mr. Gutschow's proportionate share; that all remaining cash funds after the applications and payments as herein outlined, will be paid 80 percent to the Attorney General and 20 percent to Paul Gutschow; that separate assignments will be made in favor of the Attorney General and in favor of Paul Gutschow of United States Patent No. 2,090,537 in the proportion of 80 percent to the Attorney General, 20 percent to Paul Gutschow, and that an assignment will be made of any and all other assets as hereinabove described, together with any and all after discovered assets not presently reflected on the books of the company, in favor of the Attorney General of the United States for the benefit of himself and Paul Gutschow as their respective stock interests appear, and with the understanding that any and all sums derived hereafter from the liquidation of the assets will be distributed pro rata to the Attorney General of the United States and Paul Gutschow as their stock interests appear, after first allowing, in respect to the patent assignment, for the application on the debts due the corporation from Albert A. Lund of any sums due him by reason of his interest in said patent or royalties derived therefrom until said debts are extinguished, and

further orders, that nothing herein set forth shall be construed as prejudicing the rights, under the Trading With the Enemy Act, as amended, of any person who may have a claim against said corporation to file such claim with the Attorney General of the United States against any funds or property received by the Attorney General of the United States, hereunder: *Provided, however,* That nothing herein contained shall be construed as creating additional rights in such person: *Provided, further,* That any such claim against said corporation shall be filed with or presented to the Attorney General of the United States within the time and in the form and manner prescribed for such claims by the Trading With the Enemy Act, as amended, and applicable regulations and orders issued pursuant thereto; and further orders, that all actions taken and acts done by the said officers and directors of Jungmann & Co., Inc., pursuant to this order and the directions contained herein shall be deemed to have been taken and done in reliance on and pursuant to paragraph numbered (2) and subdivision (b) of section 5 of the Trading With the Enemy Act, as amended, and the acquittance and exculpation provided therein.

Executed at Washington, D. C., December 5, 1952.

TITLE 3—THE PRESIDENT

EXECUTIVE ORDER 10419

RESTORING THE POSSESSION, USE, AND CONTROL OF CERTAIN LAND TO THE TERRITORY OF HAWAII AND TRANSFERRING TITLE TO SUCH LAND TO THE TERRITORY

WHEREAS a certain tract of land at Kaakaukukui, Honolulu, Oahu, Territory of Hawaii, which forms a part of the public lands ceded and transferred to the United States by the Republic of Hawaii under the joint resolution of annexation of July 7, 1898, 30 Stat. 750, was reserved for naval purposes by a proclamation of the President dated November 10, 1899, and subsequently by letter of January 8, 1904, was transferred by the Navy Department to the Treasury Department for the purpose of establishing an immigration station, which immigration station is now under the control and jurisdiction of the Attorney General (Immigration and Naturalization Service); and

WHEREAS the said tract, more particularly described in Part I of this order, is needed by the Territory of Hawaii for a harbor-improvement project; and

WHEREAS it is deemed desirable and in the public interest that the possession, use, and control of the said tract be restored to the Territory of Hawaii and that title thereto be transferred to the said Territory:

NOW, THEREFORE, by virtue of the authority vested in me by section 91 of the act of April 30, 1900, 31 Stat. 159, as amended by section 7 of the act of May 27, 1910, 36 Stat. 447, it is ordered as follows:

PART I

Upon the fulfilment of the conditions precedent specified in Part II of this order and the certification thereof by the Commissioner of Immigration and Naturalization as provided in such part, and without further act, the possession, use, and control of the following-described tract of land at Honolulu, Oahu, Territory of Hawaii, shall be restored to the Territory of Hawaii, and title to such tract shall be transferred to the said Territory:

Beginning at the east corner of this parcel of land, the west side of Lot 1, File Plan No. 10, and the east side of the U. S. Immigration Station Lot, the coordinates of said point of beginning referred to Government Survey Triangulation Station "Punchbowl" being 4,142.82 feet South and 5,110.06 feet West and running by azimuths measured clockwise from True South:

1. 84° 25' 3.67 feet across the U. S. Immigration Station Lot;

2. Thence across same on a curve to the left with a radius of 262.22 feet, the chord azimuth and distance being 61° 36' 45" 203.26 feet;

3. 38° 48' 30" 201.62 feet across same;

4. 129° 00' 109.16 feet along the remainder of Tract No. 1 of Presidential Executive Order 5487 and along the east side of Governor's Executive Order 864 to the southeast side of Channel Street;

5. 219° 00' 436.67 feet along the southeast side of Channel Street;

6. 322° 20' 194.51 feet along Channel Street and along the west side of Lot 1, File Plan No. 10, to the point of beginning.

Area: 1.18 acres.

PART II

1. The Territory of Hawaii, by Executive order of its governor acting pursuant to section 73 (q) of said act of April 30, 1900, as amended by the act of August 21, 1941, 55 Stat. 658, shall set aside for the use of the United States of America, as an addition to the existing immigration station under the jurisdiction and control of the Attorney General (Immigration and Naturalization Service), the following-described tract of land at Honolulu, Oahu, Territory of Hawaii:

Beginning at the west corner of this parcel of land, the northeast side of the U. S. Immigration Station Lot, the coordinates of said point of beginning referred to Government Survey Triangulation Station "Punch-

bowl" being 4,142.82 feet South and 5,110.06 feet West and running by azimuths measured clockwise from True South:

1. 264° 25' 242.00 feet across Lot 1, File Plan No. 10;
2. 309° 25' 56.57 feet across same to the west side of Ala Moana;
3. 354° 25' 224.94 feet along the west side of Ala Moana;
4. 87° 20' 119.90 feet along the east side of the U. S. Immigration Station Lot;
5. 142° 20' 305.49 feet along same to the point of beginning.

Area: 1.18 acres.

2. The Territory of Hawaii shall remove to the land described in paragraph 1 of this part (hereinafter called the new site) or to such other adjacent land presently under the control and jurisdiction of the Immigration and Naturalization Service as the Commissioner of Immigration and Naturalization (hereinafter called the Commissioner) shall determine, or, if such removal is not practicable, shall reconstruct thereon, the following-described structures now situate on the land described in Part I hereof (hereinafter called the old site): (a) the gardener's cottage used as a residence by the building custodian of the Immigration and Naturalization Service, and (b) the frame and galvanized-iron storage shed and workshop. All work contemplated hereunder on the gardener's cottage shall, in the event that continued residency of the building by the custodian during the period of removal or reconstruction shall be impracticable, be completed within ten days of the commencement thereof or within such additional time as the Commissioner may allow. Material salvaged during the course of such work may be used in reconstruction hereunder. All equipment, such as light fixtures, locks, plumbing, and conduiting that is immovable or is damaged beyond repair shall be replaced with standard equipment, but the Territory shall not be required to furnish any operating equipment, appliances, or furniture.

3. The Territory of Hawaii shall clean up and grade the new site and fill it with good soil.

4. The Territory of Hawaii shall remove the existing stuccoed tile block and ornamental iron fence situate on the old site and shall reconstruct it, together with all required additions thereto, along the new boundary line of the Immigration and Naturalization Service delineated by Courses 1, 2, and 3 of the old site. The Territory of Hawaii shall also construct a stuccoed tile or concrete block fence of suitable height along the boundary line delineated by Courses 1 and 2 of the new site. It shall also construct at a point to be determined by the Commissioner a suitable entrance way through the existing concrete block fence running along the line delineated by Course 5 of the new site.

5. Detailed plans and specifications for all construction and work hereunder shall be prepared by the Territory and shall receive the approval of the Commissioner before the start of work thereon. All plans and specifications shall, as nearly as practicable, be in accordance with the original plans and specifications of the improvements being replaced. All expenses incurred under the foregoing paragraphs, including the cost of preparation of plans and specifications, shall be borne by the Territory of Hawaii.

6. The Territory of Hawaii shall commence the work required hereunder within twelve months and shall complete it within thirty months from the date of this order.

7. The Territory of Hawaii shall have a right-of-entry on the old site for the purpose of completing the work contemplated hereunder; and the Commissioner, prior to the fulfilment of all conditions specified in this part, may grant the Territory of Hawaii a right-of-entry for work on its harbor-improvement project.

8. At the request of the Territory of Hawaii the Commissioner, prior to final acceptance by the Territory of any item of work which has been performed under a contract between the Territory and any contractor, shall inform the Territory as to whether he concurs in such final acceptance. Such concurrence by the Commissioner shall signify that the Territory has satisfactorily completed such item of work.

9. When the Territory of Hawaii has satisfactorily completed all work contemplated hereunder in a first-class and workmanlike manner and has fulfilled all conditions precedent set forth in this part, the Commissioner shall so certify to the Territory.

10. In order that the fulfilment of the conditions specified in this part and the obtaining of certification thereof may not be impeded, the Commissioner shall designate a local representative who shall be empowered to act for the Commissioner with respect to all matters arising under paragraphs 2 to 9, inclusive, of this part.

PART III

The Executive order of the Governor of the Territory of Hawaii issued pursuant to paragraph 1 of Part II hereof shall not be amended, modified, or revoked without the approval of the President of the United States of America.

HARRY S. TRUMAN

THE WHITE HOUSE,
December 11, 1952.

LETTER OF DECEMBER 10, 1952

[DATE OF REPORT OF BOARD OF INQUIRY TO REPORT ON A LABOR DISPUTE AFFECTING THE CONSTRUCTION AND OPERATION OF ATOMIC ENERGY FACILITIES]

THE WHITE HOUSE,
December 10, 1952.

DEAR MR. HARRIS:

By the terms of Executive Order 10417 I provided for the Board of which you are Chairman to report to me in accordance with the provisions of Section 206 of the Labor Management Relations Act, 1947, on or before December 10, 1952.

RULES AND REGULATIONS

TITLE 5—ADMINISTRATIVE PERSONNEL

Chapter I—Civil Service Commission

PART 27—EXCLUSION FROM PROVISIONS OF THE FEDERAL EMPLOYEES PAY ACT OF 1945, AS AMENDED, AND THE CLASSIFICATION ACT OF 1949, AS AMENDED, AND ESTABLISHMENTS OF MAXIMUM STIPENDS FOR POSITIONS IN GOVERNMENT HOSPITALS FILLED BY STUDENT OR RESIDENT TRAINEES

CHAPLAIN INTERN

Federal Register Document 52-9063 (17 F. R. 7441) is corrected to read as set out below. These amendments are concerned with the exclusion from the provisions of the Federal Employees Pay Act and the Classification Act and the establishment of maximum stipends for the position of Chaplain Intern at St. Elizabeths Hospital and at Freedmen's Hospital. The previous provisions with respect to the position of Chaplain Intern at Freedmen's Hospital are unchanged. The position of Chaplain Intern at St. Elizabeths Hospital has been divided into two positions, one called Chaplain Intern and the other Chaplain Student Intern. In addition, the position of Chaplain Resident has been excluded from the provisions of the Federal Employees Pay Act and the Classification Act. The maximum stipend for the position of Chaplain Intern at St. Elizabeths Hospital has been amended, and stipends have been prescribed for the positions of Chaplain Student Intern and Chaplain Resident. As amended, §§ 27.1 and 27.2 will read in pertinent part as set out below. These amendments were effective August 1, 1952.

§ 27.1 *Exclusion from provisions of Federal Employees Pay Act and Classification Act.* • • •

Chaplain intern at Freedmen's Hospital, approved training during second year postgraduate training, and fourth year approved postgraduate training.

Chaplain student intern at St. Elizabeths Hospital, approved training during second year of approved postgraduate theological training.

Chaplain intern at St. Elizabeths Hospital, first year of clinical training following completion of three or more years of approved postgraduate theological training.

Chaplain resident at St. Elizabeths Hospital, second year of clinical training following completion of four or more years of approved postgraduate theological training.

§ 27.2 *Maximum stipends prescribed.* • • •

Chaplain intern—Freedmen's Hospital:	
Approved training during second year postgraduate training, per month	$134
Fourth year approved postgraduate training	2,000
Chaplain student intern—St. Elizabeths Hospital:	
Approved training during second year of approved postgraduate theological training, per month	183
Chaplain intern—St. Elizabeths Hospital:	
First year of clinical training following completion of three or more years of approved postgraduate theological training	2,600
Chaplain resident—St. Elizabeths Hospital:	
Second year of clinical training following completion of four or more years of approved postgraduate theological training	2,800

TITLE 6—AGRICULTURAL CREDIT

Chapter IV—Production and Marketing Administration and Commodity Credit Corporation, Department of Agriculture

Subchapter C—Loans, Purchases, and Other Operations

[1952 C. C. C. Grain Price Support Bulletin 1, Amdt. 2 to Supp. 1, Rice]

PART 601—GRAINS AND RELATED COMMODITIES

SUBPART—1952-CROP RICE LOAN AND PURCHASE AGREEMENT PROGRAM

MISCELLANEOUS AMENDMENTS

Regulations issued by the Commodity Credit Corporation and the Production and Marketing Administration published in 17 F. R. 5272 and 7323, and containing the requirements for the 1952-Crop Rice Price Support Program are hereby amended as follows:

Section 601.1852 *Availability of price support*, paragraph (b) *Area*, is amended by adding South Carolina to the States in which loans and purchase agreements will be available so that the amended paragraph reads as follows:

(b) *Area.* Farm-storage and warehouse-storage loans and purchase agreements will be available on eligible rice produced in the States of Arizona, Arkansas, California, Louisiana, Mississippi, Missouri, Texas and South Carolina.

Section 601.1853 *Eligible rice*, paragraph (a) is amended by adding South Carolina to the States in which rice must be produced in 1952 if it is to meet the eligibility requirements so that the amended paragraph reads as follows:

(a) The rice must have been produced in 1952 in the States of Arizona, Arkansas, California, Louisiana, Mississippi, Missouri, Texas or South Carolina.

Section 601.1858 *Support rates*, is amended by adding the following paragraph (c) to provide a location differential for rice produced in South Carolina:

(c) *Location differential for South Carolina.* For rice produced in the State of South Carolina, a discount of 77 cents per 100 pounds of rough rice shall be applied to the basic support rate determined under paragraph (a) of this section. This discount shall be in addition to any adjustment for grade made in accordance with paragraph (b) of this section.

(Sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. Sup., 714b. Interpret or apply sec. 5, 62 Stat. 1072, secs. 101, 401, 63 Stat. 1051, 1054; 15 U. S. C. Sup., 714c, 7 U. S. C. Sup., 1441, 1421)

Issued this 9th day of December 1952.

[SEAL] W. E. UNDERHILL,
Acting Vice President,
Commodity Credit Corporation.

Approved:

HAROLD K. HILL,
Acting President,
Commodity Credit Corporation.

[721 (Tung Nuts 1952)-1]

PART 643—OILSEEDS

SUBPART—1952 CROP TUNG NUT PRICE SUPPORT PROGRAM

This bulletin states the requirements with respect to the 1952 Crop Tung Nut Price Support Program formulated by Commodity Credit Corporation (hereinafter referred to as "CCC") and the Production and Marketing Administration (hereinafter referred to as "PMA").

Sec.
643.765 Administration.
643.766 Availability.
643.767 Eligible producer.
643.768 Eligible tung nuts and tung oil.
643.769 Disbursement of loans.
643.770 Approved lending agencies.
643.771 Approved storage facilities.
643.772 Maturity date of loans and period of notification to sell under purchase agreement.
643.773 Applicable forms.
643.774 Personal liability of the producer.
643.775 Determination of quantity.
643.776 Determination of quality under purchase agreement.
643.777 Liens.
643.778 Service charges.
643.779 Insurance.
643.780 Set-offs.
643.781 Interest rate.
643.782 Transfer of producer's right or equity.
643.783 Release of tung oil under loan.
643.784 Liquidation of the loan and delivery under purchase agreement.
643.785 Purchase of notes.
643.786 Storage and handling charges.
643.787 Support prices.
643.788 PMA Commodity Offices.

AUTHORITY: §§ 643.765 to 643.788 issued under sec. 4, 62 Stat. 1070, as amended; 15 U. S. C. Sup., 714b. Interpret or apply secs. 4, 5, 62 Stat. 1070, 1072, as amended, secs. 201, 401, 63 Stat. 1051, 1054; 15 U. S. C. Sup., 714b, 714c, 7 U. S. C. Sup., 1446, 1421.

§ 643.765 *Administration.* The program will be administered by PMA, under the general direction and supervision of the President, CCC. In the field, the program will be carried out through State and County PMA Committees (hereinafter called State and County Committees) and PMA Commodity Offices. It will be the responsibility of the State Committee in each state to carry out the provisions of the 1952 tung nut price support program in such a manner that price support will be available to all eligible producers of tung nuts and tung oil. Forms will be distributed through the offices of State and County Committees. All documents in connection with warehouse storage loans on tung oil and purchase agreements on tung nuts and tung oil will be completed and approved by the County Committee which will retain copies of all such documents. County Committees will examine and, where qualified, approve purchase agreements and loan documents found acceptable and will determine the eligibility of producers and the eligibility of tung nuts and tung oil tendered under the program. The County Committee may designate in writing one or more employees of the County Office to perform such functions on behalf of the committee. The names of the employees to be delegated the authority to approve documents on behalf of the County Committee shall be submitted to the State Committee for approval. State and County Committees and PMA Commodity Offices do not have authority to modify or waive any of the provisions of this subpart or any amendments or supplements to this subpart.

§ 643.766 *Availability*—(a) *Methods of price support.* Price support will be available to eligible producers of tung nuts by means of purchase agreements for eligible tung nuts and tung oil and nonrecourse loans on eligible tung oil stored in approved storage facilities.

(b) *Area.* The program will be available in the States of Alabama, Georgia, Florida, Louisiana, Mississippi, and Texas.

(c) *When to apply.* Purchase agreements covering tung nuts will be available from the beginning of the marketing year, November 1, 1952, through January 31, 1953. Loans and purchase agreements covering tung oil will be available from November 1, 1952, through June 30, 1953.

(d) *Where to apply.* Application for price support should be made through the office of the County Committee which keeps the farm program records for the farm.

§ 643.767 *Eligible producer.* (a) An eligible producer shall be an individual, partnership, corporation, or other legal entity producing tung nuts of the 1952 crop as landowner, landlord, tenant, or share-cropper. The beneficial interest in the tung nuts and the resultaint tung oil must be in the producer tendering tung nuts or tung oil for purchase under a purchase agreement or tung oil as security for loan and must have always been in such producer or in such producer and a former producer whom such producer succeeded either as landowner, landlord, tenant, or share-cropper before the tung nuts were harvested. Any eligible producer or group of eligible producers may designate in writing on the form or forms prescribed by CCC, an agent to act on the producer's behalf or on the joint behalf of a group of producers in obtaining price support under this program.

(b) Any cooperative association (hereinafter called cooperative) which normally handles the tung nuts of its producer-members shall be considered an eligible producer with respect to tung oil processed by it from 1952 crop tung nuts delivered to it by eligible producer-members: *Provided*, That:

(1) The beneficial interest in such tung nuts processed and in the resultant tung oil is and always has been in such producer-members or in such producer-members and former producers whom such producer-members succeeded either as landowner, landlord, tenant, or share-cropper, before such tung nuts were harvested;

(2) The major part of the tung oil marketed by the cooperative is produced from tung nuts delivered by members who are eligible producers;

(3) The members share proportionately in the proceeds from marketings according to the quantity and quality of tung nuts each delivers to the cooperative;

(4) The cooperative has the legal right to pledge the tung oil as security for a loan as well as the authority to sell such tung oil under purchase agreement;

(5) The cooperative shall maintain a record of the total quantity of tung oil processed by it from tung nuts obtained from all sources and a separate record of the quantity of eligible tung oil processed from 1952 crop tung nuts delivered to the cooperative by eligible producer-members; and the cooperative shall make its books available to CCC for inspection at all reasonable times through June 1955.

§ 643.768 *Eligible tung nuts and tung oil*—(a) *Tung nuts.* Tung nuts must be from the 1952 crop, and must be matured, air dried with hard hulls, dark in color, and suitable for milling.

(b) *Tung oil.* Tung oil must have been extracted from the 1952 tung nut crop and must meet Federal Specifications No. TT-O-395 dated February 3, 1948. The eligibility of tung oil delivered under this program must be evidenced by a certification signed by the producer or in the case of a cooperative by an authorized officer thereof in the form prescribed in § 643.773 (d) or (e) whichever form is appropriate.

§ 643.769 *Disbursement of loans.* Disbursement of loans on tung oil will be made to producers by approved lending agencies operating under agreement with CCC, or by PMA County Offices by means of sight drafts drawn on CCC. Disbursements shall not be made later than 15 days after the final date of the availability of loans, unless a longer period is approved by the President, CCC. The producer shall not present the loan documents for disbursement unless the tung oil represented by the loan documents is in existence and in good condition. If the tung oil was not in existence and in good condition at the time of disbursement, the loan proceeds shall be promptly refunded by the producer. In the event the amount disbursed exceeds the amount authorized, the producer shall be personally liable for repayment of the amount of such excess.

§ 643.770 *Approved lending agencies.* An approved lending agency shall be any bank, cooperative, corporation, partnership, individual, or other legal entity with which CCC has entered into a Lending Agency Agreement on CCC Form 292, or other form prescribed by C.

§ 643.771 *Approved storage facilities.* Approved facilities shall consist of storage facilities made available by tung oil mills and others having adequate facilities for handling and storing tung oil for which a tung oil storage agreement on CC Form 77 for the 1952 crop has been entered into with CCC through the PMA Commodity Offices. The names of owners or operators of approved facilities may be obtained from PMA Commodity Offices and State and county offices.

§ 643.772 *Maturity date of loans and period of notification to sell under purchase agreement.* (a) Loans on tung oil mature on demand but not later than October 31, 1953.

(b) Producers who elect to sell tung nuts under a purchase agreement must notify the County Committee of their intentions within the 30 day period ending March 31, 1953 or ending on such earlier date as may be prescribed by the President, CCC. Producers who elect to sell tung oil under a purchase agreement must notify the County Committee of their intentions within the 30 day period ending October 31, 1953, or ending on such earlier date as may be prescribed by the President, CCC.

§ 643.773 *Applicable forms.* The approved forms consist of the purchase agreement forms, loan forms, and such other forms and documents as may be required, which together with the provisions of this subpart, and any supplements and amendments to this subpart, govern the rights and responsibilities of the producer. Note and loan agreements must have State documentary and revenue stamps affixed thereto when required by law. Purchase agreement or loan documents executed by an administrator, executor, or trustee, will be acceptable only where legally valid.

(a) *Purchase agreement documents.* The purchase agreement forms shall consist of the Purchase Agreement (Commodity Purchase Form 1), Delivery Instructions (Commodity Purchase Form 3), Purchase Agreement Settlement (Commodity Purchase Form 4), Lien Waiver for Purchases (Commodity Purchase Form 5) and other applicable

forms prescribed in paragraph (c) of this section.

(b) *Loan documents.* Loan forms shall consist of the Producer's Note and Loan Agreement (Commodity Loan Form B) and other applicable forms prescribed in paragraph (c) of this section.

(c) *Other forms.* Warehouse receipts, chemical analysis certificates issued by approved chemists, producer's certification of eligibility of tung oil, producers group designation of agent, and such other forms as may be prescribed by the President, CCC.

(d) *Producer's certification of eligibility of tung oil.* Before a loan is made on tung oil to a producer, other than a cooperative, or before delivery of tung oil from such producer under a purchase agreement can be accepted by the county committee, the producer must sign an appropriately worded statement in substantially the following form:

I (we) hereby certify as follows:
(1) That the _____ pounds of tung oil located in _____ at _____
(Name of storage facility)
_____ which I (we) am
(Address)
(are) pledging to CCC as collateral for loan (am (are) tendering for delivery to CCC under purchase agreement) was delivered to me (us) as oil processed for my (our) account by _____ out of 1952 crop tung nuts produced by me (us) which I (we) delivered to such plant for toll processing;
(Name of plant)

(2) That such quantity of tung oil is not in excess of the quantity of oil processed from tung nuts produced on my (our) farm or that which the processor determined was extracted from such tung nuts on the basis of their oil content; and

(3) That the beneficial interest in such tung nuts and in the resultant tung oil described above is and always has been in me (us) or in me (us) and a former producer whom I (we) succeeded before such tung nuts were harvested.

_____
(Signature of producer)

_____
(Date)

(e) *Cooperative's certification of eligibility of tung oil.* Before a loan is made to a cooperative or delivery of tung oil from such cooperative under a purchase agreement can be accepted by the County Committee, the manager or the official empowered to sign contracts for or on behalf of a cooperative must sign an appropriately worded statement in substantially the following form:

I hereby certify as follows:
(1) That the _____ pounds of tung oil located in _____ at _____
(Warehouse) (Address)
which is being pledged to CCC as collateral for loan (is being tendered for delivery to CCC under purchase agreement) was processed at the cooperative's mill from 1952 crop tung nuts delivered to the cooperative by eligible producer members;

(2) That the beneficial interest in such tung nuts and in the resultant tung oil described above is and always has been in such producer-members or in such producer-members and former producers whom such producer-members succeeded, either as landowner, landlord, tenant, or share-cropper, before such tung nuts were harvested.

_____
(Name of cooperative)
By _____
Title _____

_____
(Date)

(f) *Designation of agent by a producer or group of producers.* A single eligible producer may designate an agent to act on behalf of the producer in obtaining price support or two or more eligible producers may designate an agent to act in their joint behalf in obtaining price support. In such event the producer or group of producers shall execute CCC Tung Nut Form 1 for purchase agreements or CCC Tung Nut Form 1-A for loans. A copy of each designation of agent signed by the producer or producers and indicating the maximum quantity of eligible tung nuts which the producer or, each producer in the case of a group, will produce on the producer's own farm, and on which price support is desired, must be delivered to the County Committee before any purchase agreement or loan documents on behalf of a single producer or group of producers are approved by the County Committee.

(g) *Warehouse receipts.* Warehouse receipts representing tung oil in approved warehouse-storage to be placed under loan or to be delivered under a purchase agreement, must meet the following requirements:

(1) Must be issued in the name of the producer, describe the quantity and quality of tung oil delivered to the warehouseman, be signed by the warehouseman and be properly endorsed in blank by the producer so as to vest title in the holder.

(2) Must guarantee that when delivered out by the warehouseman, the oil will meet Federal Specifications No. TT-O-395 dated February 3, 1948.

(3) Must contain a statement showing the insurance coverage carried by the warehouseman on the oil. If such insurance was not effective as of the date of deposit of the tung oil in the warehouse, the warehouseman must certify as to the effective date of the insurance and that the oil is in the warehouse and undamaged.

(4) Must show the date of issue.

(5) Must carry an endorsement in substantially the following form: "Warehouse charges through October 31, 1953, on the tung oil represented by this warehouse receipt have been paid or otherwise provided for and the warehouseman has no lien upon such tung oil for such charges."

(6) Must contain such other terms and conditions as CCC may require in its tung oil storage agreement with approved warehouseman.

§ 643.774 *Personal liability of the producer.* Any fraudulent representation made by any producer or agent of the producer in executing any of the purchase agreement or loan documents or in obtaining the purchase agreement or loan proceeds, or the conversion or unlawful disposition of any portion of the commodity by the producer, will render the producer subject to criminal prosecution under Federal Law and liable for any damages suffered by CCC as a result of purchase of the commodity, and for the amount of the loan (including interest), and for any resulting expense incurred by any holder of the note.

§ 643.775 *Determination of quantity.* (a) *Tung nuts.* The quantity of tung nuts delivered under purchase agreement shall be determined on the basis of net weight at point of delivery to CCC with foreign material and bagging excluded.

(b) *Tung oil.* Where the tung oil pledged to secure a loan or tendered under a purchase agreement is represented by warehouse receipts issued by approved warehouses, the determination of quantity shall be based on the net weight specified on such warehouse receipts. Where tung oil tendered under a purchase agreement is not stored in an approved warehouse, the quantity of such tung oil shall be determined on the basis of approved scale weight at destination of the tank cars.

§ 643.776 *Determination of quality under purchase agreement.* (a) The determination of the oil content of the tung nuts and the quality of tung oil not stored in approved warehouses delivered under purchase agreement shall be made on the basis of a sample submitted by a Federal or Federal-State Inspector or by an authorized employee of the State or County Committee in accordance with instructions issued by the Federal or Federal-State Inspection Service and shall be made by a chemist approved by the Department of Agriculture. The oil content of the tung nuts shall be determined as of the time of delivery to CCC. The time of determining the quality of the tung oil and evidence of such quality shall be as provided in § 643.784 (b) (5). The cost of sampling and analysis shall be borne by the producer.

(b) In the case of tung oil stored in approved warehouses where appropriate warehouse receipts are delivered to CCC in connection with a purchase agreement or a loan on such tung oil, the quality of such tung oil shall be the quality shown on the warehouse receipts.

§ 643.777 *Liens.* If there are any liens or encumbrances on the tung nuts or tung oil, waivers acceptable to the County Committee must be obtained.

§ 643.778 *Service charges.* Producers shall pay to the County Committee service charges on the quantity placed under loan or specified in the purchase agreement, computed at the following rates:

	Rates	Minimum charges
Tung oil	6 cents per hundredweight	$1.50
Tung nuts	18 cents per ton	1.50

No service charges will be refunded.

§ 643.779. *Insurance.* Tung oil tendered for loan or under purchase agreement which is stored in an approved warehouse on a commingled basis must be insured by the warehouseman for not less than the full market value against loss or damage by fire, lightning, inherent explosion, windstorm, hurricane, tornado, and such other hazards as are normally insured against by the warehouseman or required by statute.

§ 643.780. *Set-offs.* If the producer is indebted to CCC on any accrued obligation, or if any installments past due or maturing within twelve months are unpaid on any loan made available by CCC on farm storage facilities, whether held by CCC or a lending agency, he must designate CCC or such lending agency as the payee of the proceeds of the purchase or loan to the extent of such indebtedness or installments, but not to exceed that portion of the proceeds remaining after deduction of loan service charges and amounts due prior lienholders. However, prepayment of only one principal installment on a farm storage facility loan shall be deducted from the price support proceeds of any one crop year. If the producer is indebted to any other agency of the United States, and such indebtedness is listed on the county debt register, he must designate such agency as the payee of the proceeds as provided above. Indebtedness owing to CCC or to a lending agency as provided in this section shall be given first consideration after claims of prior lienholders. Compliance with the provisions of this section shall not constitute a waiver of any right of the producer to contest the justness of the indebtedness involved either by administrative appeal or legal action.

§ 643.781 *Interest rate.* Loans shall bear interest at the rate of 3½ percent per annum from the date of disbursement.

§ 643.782 *Transfer of producer's interest.*—(a) *Loans.* The right of a producer to transfer either his right to redeem the tung oil under loan or his remaining interest may be restricted by CCC.

(b) *Purchase agreements.* The producer may not assign his interest in the purchase agreement.

§ 643.783 *Release of tung oil under loan.* A producer may at any time obtain release of the tung oil under loan by paying to the holder of the note and loan agreement, the principal amount thereof, plus charges and accrued interest. All charges in connection with the collection of the note shall be paid by the producer. Partial release prior to maturity may be arranged with the County Committee by paying to the holder of the note the amount of the loan, plus charges and accrued interest, represented by the quantity of the commodity to be released. However, the quantity to be released must be equal to the quantity covered by one or more warehouse receipts.

§ 643.784 *Liquidation of the loans and delivery under purchase agreement.*—(a) *Liquidation of the loan.* If the producer does not repay his loan by maturity, CCC shall have the right to sell or pool the tung oil to satisfy the loan in accordance with the provisions of the note and loan agreement and this section. If tung oil is pooled, the producer has no right of redemption after the date the pool is established, but shall share ratably in any overplus remaining upon liquidation of the pool. CCC shall have the right to treat pooled tung oil as a reserve supply to be marketed under such sales policies as CCC determines will promote orderly marketing, protect the interests of producers and consumers, and not unduly impair the market for the current crop of the commodity even though part or all of such pooled tung oil is disposed of under such policies at prices less than the current domestic price for such commodity. Any payment due the producer as a result of the sale of the commodity, or out of the proceeds of insurance on the comodity, or any ratable share resulting from the liquidation of a pool, will be made by the appropriate PMA Commodity Office and shall be payable only to the producer without right of assignment by him.

(b) *Delivery and payment under purchase agreement.* (1) A producer who signs a purchase agreement (Commodity Purchase Form 1) will not be obligated to sell any quantity of tung nuts or tung oil to CCC but shall have the option of delivering to CCC at the support price any quantity of tung nuts or oil within the maximum of tung nuts or tung oil specified in the purchase agreement executed by him.

(2) A producer who has signed a purchase agreement in terms of tung nuts may, at his option, deliver in lieu of tung nuts and equivalent quantity of eligible tung oil: *Provided*, That such tung oil shall be delivered in accordance with subparagraph (4) or (5) of this paragraph, whichever is applicable. The oil equivalent shall be computed on the basis of 301 pounds of tung oil per ton of tung nuts.

(3) Eligible tung nuts will be purchased on the basis of the weight and oil content as shown by a chemical analysis. CCC will not accept delivery until a determination of eligibility has been made and a sample for chemical analysis has been drawn. The producer shall deliver tung nuts to CCC in accordance with instructions issued by the County Committee on or after March 31, 1953. If the producer is required by such instructions to make delivery to a point more distant from the farm than his usual milling point, CCC will pay the difference, if any, between the cost of transportation from the farm to the designated delivery point and the cost of transportation from the farm to the usual milling point but not in excess of an amount which the County Committee determines is a reasonable difference in cost for such services. The producer must complete delivery of tung nuts within a 15-day period immediately following the date the County Committee issues delivery instructions unless the County Committee determines that more time is needed for delivery.

(4) In the case of tung oil stored in approved storage facilities, the producer must, not later than the day following the final date of the 30-day notification period, prescribed in § 643.772 (b), or during such period of time thereafter as may be specified by CCC, submit to the County Committee warehouse receipts issued in the form prescribed in § 643.773 (g). The total quantity of oil represented by such warehouse receipts shall not exceed the quantity shown on Commodity Purchase Form 1. CCC will not accept delivery of less than the total quantity of tung oil covered by a warehouse receipt. The producer's certification of the eligibility of tung oil, as provided in § 643.773 (d) or (e), whichever is applicable, must accompany the warehouse receipt.

(5) In the case of tung oil stored in storage facilities which have not been approved, delivery will be accepted only f. o. b. tank cars. The County Committee will on or after the final date of the 30-day notification period, prescribed in § 643.772 (b), issue delivery instructions to the producer. Before issuance of such delivery instructions, the producer must submit a chemical analysis certificate covering each tank car offered showing that the oil meets Federal Specifications; or if it is found by the County Committee that a submission of these analyses certificates on tank car lots would cause undue delay in shipment, the producer may (i) submit evidence that a sample of each carlot of oil has been properly drawn and submitted to an approved chemist for analysis: *Provided*, That the producer waives his right of appeal of the findings of the approved chemist and that he agrees that demurrage incurred as a result of delay in receiving the chemical analysis prior to final acceptance, shall be for the producer's account: *And provided further*, That if the tung oil does not meet Federal Specifications the car shall be rejected with all freight, demurrage, and handling charges reverting to the account of the producer; or (ii) the producer may submit chemical analysis certificates showing that the tung oil offered meets Federal Specifications and is stored in sealed identity preserved tanks: *Provided*, That the producer agrees to have such tung oil check loaded into tank cars for delivery to CCC and to bear all handling and other costs prior to acceptance by CCC f. o. b. tank cars. The producer must submit a certification of the eligibility of tung oil, as provided in § 643.773 (d) or (e), whichever is applicable, and complete delivery within a 15-day period immediately following the date the County Committee issues delivery instructions unless the County Committee determines that more time is needed for delivery.

(6) The tung nuts or tung oil will be purchased by CCC at the applicable support rate and payment will be made by sight draft drawn on CCC by the PMA County Office.

§ 643.785 *Purchase of notes.* County Committees will purchase from approved lending agencies, notes evidencing approved loans which are secured by warehouse receipts issued by approved

warehouses. The purchase price to be paid by CCC will be the principal sums remaining due on such notes, plus an amount to cover interest computed according to the lending agency agreement. Lending agencies are required to submit Commodity Credit Corporation Form 500, or such other form as CCC may prescribe, to the County Committee for all payments received on producer's notes held by them and are required to remit to the County Committee a part of the interest collected, computed according to the lending agency agreement. Lending agencies shall submit notes and reports to the PMA County Committee which approved the loan documents.

§ 643.786 *Storage and handling charges*—(a) *Tung nuts.* CCC will not pay or assume any of the costs of transportation (except as provided in § 643.784 (b) (3)) storage, cleaning, insurance premiums, bags and bagging, sampling, testing and analysis reports, and tagging, accruing prior to delivery of the tung nuts to CCC under a purchase agreement, nor will CCC assume the cost of handling or processing expenses which are necessary to prepare the tung nuts to meet eligibility requirements.

(b) *Tung oil.* CCC will not pay or assume the cost of transportation, sampling, insurance, testing and analysis accruing on the tung oil prior to delivery under a purchase agreement or prior to the maturity date of the loan on tung oil placed under loan, nor any handling or processing charges which are necessary to prepare the tung oil to meet elegibility requirements. Storage charges on tung oil stored in approved warehouses shall be paid by the producer through October 31, 1953. Storage charges accruing on such tung oil after such date will be for the account of CCC. All storage charges on tung oil stored in unapproved warehouses shall be for the account of the producer.

(c) *Unexpired storage time and services.* CCC and any subsequent holder of warehouse receipts covering tung oil shall be entitled to any unexpired portion of the storage time and outloading services to which the producer became entitled under any contract between the producer and the warehouseman.

§ 643.787 *Support prices*—(a) *Tung nuts.* The support price for tung nuts containing 17.5 percent oil shall be $67.20 per ton in all areas. This price shall be adjusted upward or downward by 38 cents per ton for each variation of 1/10 of 1 percent oil from the base of 17.5 percent oil content on the basis of chemical analysis certificate issued by an approved chemist.

(b) *Tung oil.* The support price for eligible tung oil will be 26.5 cents per pound in all areas.

§ 643.788 *PMA Commodity Offices.* The PMA Commodity Offices serving the tung area and the States served by them are shown below:

Address and State
Wirth Building, 120 Marais Street, New Orleans 12, La.; Alabama, Florida, Louisiana, Georgia, and Mississippi.
1114 Commerce Street, Dallas 2, Tex.; Texas.

Issued this 9th day of December 1952.

[SEAL] W. E. UNDERHILL,
Acting Vice-President,
Commodity Credit Corporation.

Approved:

HAROLD K. HILL,
Acting President,
Commodity Credit Corporation.

TITLE 7—AGRICULTURE

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Grapefruit Reg. 87]

PART 955—GRAPEFRUIT GROWN IN ARIZONA; IN IMPERIAL COUNTY, CALIFORNIA, AND IN THAT PART OF RIVERSIDE COUNTY, CALIFORNIA, SITUATED SOUTH AND EAST OF THE SAN GORGONIO PASS

LIMITATION OF SHIPMENTS

§ 955.348 *Grapefruit Regulation 87*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 55, as amended (7 CFR Part 955), regulating the handling of grapefruit grown in the State of Arizona; in Imperial County, California, and in that part of Riverside County, California, situated south and east of the San Gorgonio Pass, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended, and upon the basis of the recommendations of the Administrative Committee (established under the aforesaid amended marketing agreement and order), and upon other available information, it is hereby found that the limitation of shipments of grapefruit, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient; a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective not later than December 14, 1952. Shipments of grapefruit, grown as aforesaid, have been subject to regulation by grades and sizes, pursuant to the amended marketing agreement and order, since October 19, 1952, and will so continue until December 14, 1952; the recommendation and supporting information for continued regulation subsequent to December 13, 1952, was promptly submitted to the Department after an open meeting of the Administrative Committee on December 4; such meeting was held to consider recommendations for regulation, after giving due notice of such meeting, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including the effective time thereof, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such grapefruit; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter set forth so as to provide for the continued regulation of the handling of grapefruit; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) During the period beginning at 12:01 a. m., P. s. t., December 14, 1952, and ending at 12:01 a. m., P. s. t., January 18, 1953, no handler shall ship:

(i) Any grapefruit of any variety grown in the State of Arizona; in Imperial County, California; or in that part of Riverside County, California, situated south and east of the San Gorgonio Pass unless such grapefruit are at least fairly well colored, and otherwise grade at least U. S. No. 2; or

(ii) From the State of California or the State of Arizona (*a*) to any point outside thereof in the United States, any grapefruit, grown as aforesaid, which are of a size smaller than 3 1/16 inches in diameter, or (*b*) to any point in Canada, any grapefruit, grown as aforesaid, which are of a size smaller than 3 1/16 inches in diameter ("diameter" in each case to be measured midway at a right angle to a straight line running from the stem to the blossom end of the fruit), except that a tolerance of 5 percent, by count, of grapefruit smaller than the foregoing minimum sizes shall be permitted, which tolerance shall be applied in accordance with the provisions for the application of tolerance, specified in the revised United States Standards for Grapefruit (California and Arizona), § 51.241 of this title: *Provided,* That, in determining the percentage of grapefruit in any lot which are smaller than 3 1/16 inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a size 4 2/16 inches in diameter and smaller; and in determining the percentage of grapefruit in any lot which are smaller than 3 5/16 inches in diameter, such percentage shall be based only on the grapefruit in such lot which are of a side 3 5/16 inches in diameter and smaller.

(2) As used in this section, "handler," "variety," "grapefruit," and "ship" shall have the same meaning as when used in said amended marketing agreement and order; and the terms "U. S. No. 2" and "fairly well colored" shall each have the same meaning as when used in the revised United States Standards for Grapefruit (California and Arizona), § 51.241 of this title.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup. 608c)

Done at Washington, D. C., this 9th day of December 1952.

[SEAL] S. R. SMITH,
Director, Fruit and Vegetable Branch, Production and Marketing Administration.

[F. R. Doc. 52-13108; Filed, Dec. 11, 1952; 8:51 a. m.]

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Bureau of Animal Industry, Department of Agriculture

Subchapter C—Interstate Transportation of Animals and Poultry

PART 79—SCRAPIE IN SHEEP

EDITORIAL NOTE: Because of a duplication of part numbers, Part 78—Scrapie in Sheep, appearing at 17 F. R. 10760, is hereby redesignated as Part 79—Scrapie in Sheep.

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 141—TESTS AND METHODS OF ASSAY FOR ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Federal Security Administrator by the provisions of section 507 of the Federal Food, Drug, and Cosmetic Act (52 Stat. 1040, 1055, as amended by 59 Stat. 463, 61 Stat. 11, 63 Stat. 409; 21 U. S. C. 357), the regulations for tests and methods of assay for antibiotic and antibiotic-containing drugs (21 CFR, 1951 Supp. 141) and certification of batches of antibiotic and antibiotic-containing drugs (21 CFR, 1951 Supp. 146; 17 F. R. 2600, 9663) are amended as indicated below:

1. In § 141.114 *Streptomycin-bacitracin-polymyxin gauze pads* paragraph (b) *Sterility* is amended by inserting "streptomycin," between the words "of" and "bacitracin" in the second sentence.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interprets or applies sec. 507, 59 Stat. 463, as amended; 21 U. S. C. 357)

2. In § 146.402 *Bacitracin ointment* paragraph (a) *Standards of identity* * * * is amended by deleting the period at the end of the second sentence and adding the words "or rotenone."

3. In § 146.412 *Bacitracin-polymyxin tablets* paragraph (a) (2) is amended by adding the following sentence: "The polymyxin B used conforms to the requirements prescribed for polymyxin by § 146.107 (a)."

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371)

This order which provides for inserting "streptomycin," between the words "of" and "bacitracin" in the second sentence of § 141.114 (b), Streptomycin-bacitracin-polymyxin gauze pads; for deleting the period at the end of the second sentence of § 146.402 (a), Bacitracin ointment, and adding "or rotenone"; and for standards for polymyxin B used in the manufacture of bacitracin-polymyxin tablets (§ 146.412 (a) (2)), shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it was drawn in collaboration with interested members of the affected industry, and since it would be against public interest to delay providing for the changes set forth above.

Dated: December 8, 1952.

[SEAL] JOHN L. THURSTON,
Acting Administrator.

[F. R. Doc. 52-13083; Filed, Dec. 11, 1952; 8:46 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter XIV—The Renegotiation Board

Subchapter A—Military Renegotiation Regulations Under the 1948 Act

PART 1424—DETERMINATION AND ELIMINATION OF EXCESSIVE PROFITS

REPAYMENT OF EXCESSIVE PROFITS DETERMINED BY ORDER

This part is amended by deleting § 1424.424 *Repayment of excessive profits determined by order* in its entirety and inserting in lieu thereof the following:

§ 1424.424 *Repayment of excessive profits determined by order.* (a) The 1948 Act directs the Secretary of Defense to eliminate excessive profits determined by order by any of the methods set forth in subsection (c) (2) of the Renegotiation Act of February 25, 1944, as amended (see § 1424.421). This authority has been delegated by the Secretary of Defense to the Board and has been redelegated by the Board to the Secretary of Defense and by the Secretary of Defense to the Secretaries of the Departments of the Army, Navy and Air Force.

(b) When the Board makes and enters an order determining excessive profits, or when an order of a Regional Board determining excessive profits is deemed to be the order of the Board pursuant to the provisions of § 1422.272–2 of this subchapter, the Board will direct the Secretary of one of the Departments of the Army, Navy and Air Force to eliminate such excessive profits by any of the methods set forth in subsection (c) (2) of the Renegotiation Act of February 25, 1944, as amended.

(c) Pursuant to such a direction, the Secretary ordinarily shall demand that the full amount of the excessive profits determined by such order be paid by the contractor not later than the thirtieth calendar day after the date of the order; but when, in the discretion of the Secretary, such procedure shall be considered inadequate to protect the interests of the Government in a particular case, the Secretary shall endeavor to effect the collection of such excessive profits by any of the methods set forth in section (c) (2) of the Renegotiation Act of February 25, 1944, as amended, as he shall deem necessary or appropriate. The Secretary shall also endeavor to secure the performance by the contractor of any other provisions which may be included in the order.

(d) Interest at the rate of 6 per centum per annum shall accrue and be payable on excessive profits determined by order from the thirtieth calendar day after the date of the order of the Board or, in Class B cases (see § 1422.232–2 of this subchapter), if the Board does not initiate a review of a determination made by a Regional Board, from the thirtieth calendar day after the date that the order embodying such determination is deemed to be the order of the Board pursuant to the provisions of § 1422.272–2 of this subchapter.

(Sec. 3, 62 Stat. 259, as amended, sec. 109, 65 Stat. 22; 50 U. S. C. App. Sup. 1193, 1219)

Dated: December 8, 1952.

JOHN T. KOEHLER,
Chairman,
The Renegotiation Board.

[F. R. Doc. 52-13100; Filed, Dec. 11, 1952; 8:49 a. m.]

Subchapter B—Renegotiation Board Regulations Under the 1951 Act

PART 1461—RECOVERY OF EXCESSIVE PROFITS AFTER DETERMINATION

ADMINISTRATION OF DETERMINATION BY AGREEMENT OR ORDER

This part is amended by deleting § 1461.5 *Administration of determinations by agreement or order* in its entirety and inserting in lieu thereof the following:

§ 1461.5 *Administration of determinations by agreement or order.* (a) The Secretary of each of the Departments is authorized to eliminate, by any of the methods set forth in section 105 (b) of the act, all excessive profits which he is directed by the Board to eliminate.

(b) When an agreement is made, or when the Board makes and enters an order determining excessive profits, or when an order of a Regional Board determining excessive profits is deemed to be the order of the Board pursuant to the provisions of § 1475.3 (b) (3) or (4) of this subchapter, respectively, the Board will direct the Secretary of one of the Departments to eliminate such excessive profits by any of the methods set forth in section 105 (b) of the act.

(c) Pursuant to each direction referred to in paragraph (b) of this section, in the case of an agreement, the Secretary shall first endeavor to effect the collection of the amount of excessive

profits determined by such agreement in accordance with the terms and conditions of the agreement and to secure the performance by the contractor of any other provisions which may be included therein. If the contractor does not pay the full amount of such excessive profits in accordance with the terms and conditions of the agreement, the Secretary may use such of the other methods for the elimination of excessive profits set forth in section 105 (b) of the act as he in his discretion shall deem necessary or appropriate to effect the collection of the amount unpaid.

(d) Pursuant to each direction referred to in paragraph (b) of this section, in the case of an order, the Secretary ordinarily shall demand that the full amount of the excessive profits determined by such order be paid by the contractor not later than the thirtieth calendar day after the date of the order; but when, in the discretion of the Secretary, such procedure shall be considered inadequate to protect the interests of the Government in a particular case, the Secretary shall endeavor to effect the collection of such excessive profits by any of the methods set forth in section 105 (b) of the act as he shall deem necessary or appropriate. The Secretary shall also endeavor to secure the performance by the contractor of any other provisions which may be included in the order.

(Sec. 109, 65 Stat. 22; 50 U. S. C. App. Sup. 1219)

Dated: December 8, 1952.

JOHN T. KOEHLER,
Chairman,
The Renegotiation Board.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 3, Amdt. 3]

CPR 3—COAL, EXCEPT PENNSYLVANIA ANTHRACITE, DELIVERED FROM MINE OR PREPARATION PLANT

TECHNICAL AMENDMENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161 and Economic Stabilization Agency General Order No. 2, this Amendment 3 to Ceiling Price Regulation 3, is hereby issued.

STATEMENT OF CONSIDERATIONS

Amendment 2 to Ceiling Price Regulation 3 was issued on November 14, 1952. That amendment provided for certain adjustments in ceiling prices resulting from wage and salary advances, and made other changes in Ceiling Price Regulation 3. It has been found that certain corrections and clarifications should be made in Amendment 2.

Section 4 (d) (2) authorizes increases in ceiling prices and ceiling weighted average realization by reason of certain cost increases "which satisfy the policy and requirements of the Wage Stabilization Board of the Economic Stabilization Agency". At the time this amendment was issued it was contemplated that any wage and salary advances would be authorized by the Wage Stabilization Board. On October 18, 1952, the Wage Stabilization Board approved an increase of only $1.50 per day instead of the $1.90 negotiated by the Bituminous Coal Operators Association and the United Mine Workers of America. This decision was appealed. On December 3, 1952, the President directed the Economic Stabilization Agency to approve the $1.90 increase. A technical question arises as to whether the $1.90 increase satisfies "the policy and requirements of the Wage Stabilization Board of the Economic Stabilization Agency". In order to clarify this point beyond any doubt it is deemed advisable to amend this provision to permit adjustments resulting from increased costs which satisfy the policy and requirements of the Wage Stabilization Board or any agency or official authorized to review the Board's decision.

Section 9 (a) (2) provides that producers must file OPS Public Form No. 155 "within 20 days after the increased costs become effective, or within 20 days after the issuance of this amendment, whichever is later". There was some delay in issuing this form. It has been found also that certain producers have encountered difficulties in completing and returning the forms within the required time. Moreover, when the amendment was issued it was thought that the final decision with respect to the wage increase for bituminous coal miners would be made immediately. The final decision by the President, however, was not made until December 3, 1952. In view of these considerations it is deemed advisable to extend the time for filing this form. A small number of producers have already filed OPS Public Form No. 155 based on a wage increase of $1.50 per day. Those producers may now refile on the same form for the full wage increase of $1.90.

In the judgment of the Director of Price Stabilization the provisions of this amendment are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

So far as practicable the Director of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objectives of the Defense Production Act of 1950, as amended, and to relevant factors of general applicability.

In view of the nature of these amendments consultation with industry representatives, including trade association representatives, has been impracticable.

AMENDATORY PROVISIONS

Ceiling Price Regulation 3, as amended, is further amended as follows:

1. Section 4 (d) (2) is amended by inserting after "Economic Stabilization Agency" the words—"or any agency or official authorized to review the action of such Board", so that the first sentence in the subparagraph will read as follows:

(2) Each producer who incurs increases in costs at his mine or group of mines during the period October 1, 1952, to April 30, 1953, inclusive, by reason of a wage and salary advance and other items related to the payroll and welfare payments (as calculated by such producer on OPS Public Form No. 155), which satisfy the policy and requirements of the Wage Stabilization Board of the Economic Stabilization Agency, or any agency or official authorized to review the action of such Board, may determine his ceiling prices and ceiling weighted average realization for such mine or group of mines as follows:

* * * * *

2. Section 9 (a) (2) is amended to read as follows:

(2) OPS Public Form No. 155 showing the increased costs and the increase in the ceiling weighted average realization authorized by section 4 (d) (2), shall be filed by producers other than "small mine" producers, within 30 days after the increased costs become effective, or on or before December 31, 1952, whichever is later. This form shall be sent by registered mail, return receipt requested, to the Solid Fuels Branch, Rubber, Chemicals, Drugs and Fuels Division, Office of Price Stabilization, Washington 25, D. C. Although a "small mine" producer need not file OPS Public Form No. 155, he must calculate his adjustment under section 4 (d) (2) on this form and keep it on file in accordance with the provisions of section 9 (f) of this regulation. Copies of OPS Public Form No. 155 may be obtained by writing to the Solid Fuels Branch, Rubber, Chemicals, Drugs and Fuels Division, Office of Price Stabilization, Washington 25, D. C.

(Sec. 704, 64 Stat. 816, as amended, 50 U. S. C. App. Sup. 2154)

NOTE: The record-keeping and reporting requirements of this amendment have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

Effective date. This amendment 3 to CPR 3 shall become effective as of October 1, 1952, except that as to sales to retail coal dealers the effective date of ceiling prices shall be November 14, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

DECEMBER 11, 1952.

[F. R. Doc. 52-13183; Filed, Dec. 11, 1952; 11:51 a. m.]

[Ceiling Price Regulation 11, Amdt. 8]

CPR 11—RESTAURANTS

CLARIFICATION OF CURRENT FOOD COST PER DOLLAR OF SALES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 8 to Ceiling Price Regulation 11 is hereby issued.

STATEMENT OF CONSIDERATIONS

Amendment 7 to Ceiling Price Regulation 11, which became effective on July 14, 1952, was issued in order to permit operators who, on the effective date of the amendment, were subject to the provisions of CPR 11 a five percent leeway between their current and their base period food cost per dollar of sales.

There was no intention to make the provisions of Amendment 7 retroactive so as to affect compliance periods occurring prior to the compliance period during which the amendment became effective either for the purpose of redetermining ceiling prices for sales previously made or to wipe out violations which occurred under the regulation as it read prior to the effective date of the amendment. It now appears, however, that the language used in the amendment was not sufficiently clear to fully express the intention of that amendment as set out in the Statement of Considerations.

The present amendment is therefore being issued to make it clear that the five percent tolerance allowed in computing the current food cost per dollar of sales under CPR 11 applies only to compliance periods beginning with the four month period from April 1 through July 31, 1952, and does not apply to prior compliance periods.

Because this amendment is being issued only to clarify existing provisions, the Director of Price Stabilization has found it unnecessary to consult with industry representatives, including trade association representatives. In the judgment of the Director of Price Stabilization, the provisions of this amendment are generally fair and equitable, are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended, and comply with all the applicable standards of that act.

AMENDATORY PROVISIONS

Section 3 (a) of Ceiling Price Regulation 11 is amended to read as follows:

(a) *Determination of ceiling prices.* Your ceiling prices for meals, food items and beverages are those prices which reflect a current food cost per dollar of sales no lower than your base period food cost per dollar of sales. However, beginning April 1, 1952, your ceiling prices for meals, food items and beverages are those prices which reflect a current food cost per dollar of sales no lower than your base period food cost per dollar of sales reduced by five percent (5 percent). (Food cost per dollar of sales is defined in section 14.) You must fix your prices so as to maintain during each four month period (or during each sixteen week period if it was your established practice during your base period to keep your records on the basis of a thirteen period year rather than a twelve month year) beginning April 1, 1951, a food cost per dollar of sales no lower than your base period food cost per dollar of sales and, beginning April 1, 1952, a food cost per dollar of sales no lower than your base period food cost per dollar of sales reduced by five percent (5 percent).

EXAMPLE: If your base period food cost per dollar of sales was 40 percent, you must now make sure that your food cost per dollar of sales for each four month period beginning April 1, 1952, is no lower than 38 percent ($0.40 \times 0.05 = 0.02$; $40 - 2 = 38$ percent).

In computing your current food cost per dollar of sales you must use the same methods as those used in your base period. In computing your current food cost per dollar of sales you must treat taxes in the same way as in the base period. You may not add any item of expense in your food cost that you did not include in your base period. However, if it was your custom in the base period to include in your food cost some nominal non-food items such as ice, straws and napkins, you may continue to do so. If you kept separate records showing the cost and gross sales of alcoholic beverages in your base period your ceiling prices for alcoholic beverages must be fixed in accordance with paragraph (b) of this section.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 8 to Ceiling Price Regulation 11 is effective December 11, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

DECEMBER 11, 1952.

[Ceiling Price Regulation 34, Amdt. 8]

CPR 34—SERVICES

FURTHER MODIFICATION OF POSTING REQUIREMENTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment to Ceiling Price Regulation 34 is hereby issued.

STATEMENT OF CONSIDERATIONS

This Amendment 8 to Ceiling Price Regulation 34 amends section 18 (f) (2), as amended, to remove from the posting requirements of the regulation banks, funeral establishments, establishments to the extent they supply or service prosthetic devices, and establishments in which the posting of a price would be violative of a statute or ordinance.

The complexity of the price structure of services provided by banks differs from the ordinary pricing of a retail or consumer type of service. In view of this and of the special nature of the relationship between the buyers and sellers of these services, it is deemed unnecessary to require banks to post their ceiling prices.

Prosthetic devices are usually tailored to a prescription, having to do with matters peculiar and personal to each purchaser with a resulting pricing formula that is difficult to reduce to a form that when posted has much informational value to the buyer.

The posting of ceiling prices for funeral services are inappropriate by the very nature of the service.

In order to avoid a conflict with local conditions, posting will not be required wherever a state statute or municipal ordinance prohibits the posting of a price for any reason.

These exemptions from the requirement of posting will not impair the price stabilization program, nor will such exemptions have any material effect upon the cost of living or upon the general level of prices. The technical nature and routine character of the provisions of this amendment made it unnecessary to consult formally with industry representatives, including trade association representatives, although wherever feasible various representatives from service fields were informally consulted and consideration was given to their recommendations. In the judgment of the Director of Price Stabilization the provisions of this regulation are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

Section 18 (f) (2) of Ceiling Price Regulation 34, as amended, is further amended by adding a new sentence at the end thereof as follows:

"Provided however, that the provisions of this paragraph shall not apply to the following:

(i) Banks.

(ii) Funeral establishments.

(iii) Establishments to the extent that they supply or service prosthetic devices.

(iv) Establishments in which the posting of a price would violate a state statute or municipal ordinance."

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment to Ceiling Price Regulation 34 shall be effective December 16, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

DECEMBER 11, 1952.

[Ceiling Price Regulation 34, Corr. to Supplementary Regulation 26]

CPR 34—SERVICES

SR 26—CEILING PRICES OF CERTAIN SELLERS OF AUTOMOTIVE AND FARM EQUIPMENT REPAIR SERVICES

CORRECTION

Due to a typographical error, section 7 (a) (3) of Supplementary Regulation 26 to Ceiling Price Regulation 34 needs to be, and is hereby, corrected to delete the word "change" in the seventh line of the last sentence thereof and to substitute therefor the word "charge", and as corrected reads as follows:

(3) "Customers labor sales" means your sales to customers of labor on automotive or farm equipment, excluding charges for parts, and including among other customers labor sales the following:

(i) Body repair, if the work was performed by your own employees;

(ii) Paint work, if the work was performed by your own employees;

(iii) Lubrication services (not including oil changes);

(iv) Washing and polishing;

(v) Tire service (not including tire sales);

(vi) Undercoating, if the work was performed by your own employees. "Customers labor sales" does not include any amount for factory warranty work; for work on your own new or used automotive and farm equipment, buildings, or other property; or any amount that does not represent a charge to a customer for work done for him by you or your employees on automotive or farm equipment.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

[Ceiling Price Regulation 50, Amdt. 4]

CPR 50—CEILING PRICES FOR PETROLEUM PRODUCTS SOLD IN THE VIRGIN ISLANDS

CEILING PRICES FOR KEROSENE SOLD IN THE ISLANDS OF ST. THOMAS AND ST. JOHN

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this amendment 4 to Ceiling Price Regulation 50 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to Ceiling Price Regulation 50 provides downward revisions in the retail ceiling prices established for kerosene sold in the Municipality of St. Thomas and St. John, in order to reflect a decrease at the wholesale level.

Historically, petroleum products were imported into the Virgin Islands in returnable steel drums shipped from suppliers in Puerto Rico. This method of importation is expensive because of the additional labor required in handling and storing the commodity. In addition, extra freight costs are incurred in reshipping the empty drums to Puerto Rico for refilling.

Recent legislation passed by the Municipality of St. Thomas and St. John prohibits the transportation of gasoline within city limits except by tank wagon trucks. The petroleum companies therefore have shifted to bulk importations into St. Thomas of all petroleum products in tankers direct from refineries in Aruba. Since Ceiling Price Regulation 9 provides for maintenance of customary markups, this action resulted in immediate reductions in the price at wholesale charged by suppliers to the Municipality of St. Thomas and St. John due to economies resulting from importations direct from the source of supply. In the case of kerosene, the decrease at wholesale in St. Thomas and St. John amounts to nine-tenths of one cent per gallon. This Amendment therefore revises downward ceiling prices of kerosene by one cent per gallon below the previously established ceiling prices for retail sales in the Municipality of St. Thomas and St. John. Ceiling prices for the Municipality of St. Croix are not affected because bulk storage facilities for petroleum products are not yet available in that area. The revised ceilings permit retailers the same margin they received in the period May 24 to June 24, 1950.

In view of the nature of this action, consultation with the industry, including trade association representatives, was deemed impracticable. In the judgment of the Director of Price Stabilization, the provisions of this amendment are generally fair and equitable and are necessary to effectuate the purposes of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

1. Section 11 of Ceiling Price Regulation 50 is amended to read as follows:

SEC. 11. *Ceiling prices for kerosene.* Ceiling prices of kerosene sold at retail in the Virgin Islands of the United States shall be as follows:

Commodity	Quantity	St. Croix	St. Thomas	St. John
Kerosene..	Gallon	$0.30	$0.30	$0.34
	Quart	.08	.08	.09
	4/5 quart	.07	.07	.08
	Two 4/5 quarts	.14	.14	.15

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 4 to Ceiling Price Regulation 50 is effective December 16, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

DECEMBER 11, 1952.

[F. R. Doc. 52-13187; Filed, Dec. 11, 1952; 11:51 a. m.]

[Ceiling Price Regulation 152, Amdt. 1]

CPR 152—WESTERN PINE AND ASSOCIATED SPECIES OF LUMBER

ROUNDING OUT DELIVERY CHARGES

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 1 to Ceiling Price Regulation 152 is hereby issued.

STATEMENT OF CONSIDERATIONS

This amendment to CPR 152 requires the rounding of transportation additions to the nearest quarter dollar per 1,000 feet board measure or other measure in computing delivered ceiling prices.

This method of computation is standard in the industry, and the failure of the regulation to permit its continuance was inadvertent. The amendment corrects this situation.

Since the change hereby effected only requires the addition or deduction of odd cents to arrive at the nearest quarter dollar, this amendment makes no change in the level of ceiling prices already established by the regulation.

In the formulation of this amendment, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

In the judgment of the Director of Price Stabilization, the provisions of this amendment are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act.

AMENDATORY PROVISIONS

1. Section 11 (a) is amended by the addition of a new sentence at the end thereof, so that section 11 (a) reads as follows:

(a) This regulation permits you to sell your lumber on a delivered basis, as well as on an f. o. b. basis. For sales on a delivered basis, you may add to the f. o. b. ceiling (or lower) price an appropriate transportation addition as explained in sections 12, 13, and 14. The transportation addition must be rounded to the nearest quarter dollar per 1,000 feet board measure or other measure, whichever may be applicable.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 1 to Ceiling Price Regulation 152 shall become effective December 16, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

DECEMBER 11, 1952.

[Ceiling Price Regulation 176, Corr.]

CPR 176—NEW ENGLAND HEMLOCK AND OTHER SPECIES OF NEW ENGLAND SOFTWOODS

CORRECTION

Through inadvertence, the grade term "merchantable" was omitted from the heading of Table 1 in Section 7.1 of Ceiling Price Regulation 176.

Accordingly the heading of that table is corrected to read as follows:

TABLE 1

[Basic ceiling prices for merchantable New England hemlock lumber f. o. b. cars or trucks at customary loading out points, square edge, green, D4S or D2S & M, and shiplap, R/L, 6- to 14-foot lengths, inclusive.]

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

DECEMBER 11, 1952.

[F. R. Doc. 52-13188; Filed, Dec. 11, 1952; 11:51 a. m.]

[General Overriding Regulation 7, Revision 1, Amdt. 14]

GOR 7—EXEMPTIONS AND SUSPENSIONS OF CERTAIN FOOD AND RESTAURANT COMMODITIES

REVISION OF SUSPENSION OF BOTTLED SOFT DRINKS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment 14 to General Overriding Regulation 7, Revision 1, is hereby issued.

STATEMENT OF CONSIDERATIONS

Section 13 of General Overriding Regulation 7, Revision 1, suspends the application of all ceiling price regulations except Ceiling Price Regulations 11 and 134 to sellers of soft drinks. Ceiling Price Regulations 11 and 134 are the mainland restaurant regulations and the intention of the Office of Price Stabilization is to retain controls on the sale of soft drinks by restaurants and eating and drinking establishments. In the territories and possessions of the United States, however, ceiling prices for restaurants are established by Ceiling Price Regulation 120. This regulation was inadvertently omitted from the exceptions made in section 13 of GOR 7, Revision 1, and the effect of this amendment is to include CPR 120 on the same basis and for the same reasons which prompted the exception of Ceiling Price Regulations 11 and 134 from the suspension order.

Because of the nature and urgency of this amendment, consultation with the industry, including trade association representatives, has been impracticable. In the judgment of the Director, this action is generally fair and equitable and is necessary to effectuate the purposes of the Defense Production Act of 1950, as amended.

AMENDATORY PROVISIONS

1. Section 13 (a) of General Overriding Regulation 7, Revision 1, is amended to read as follows:

(a) On and after November 20, 1952, the application of all ceiling price regulations, except Ceiling Price Regulations 11, 120, and 134, heretofore or hereafter issued by the Office of Price Stabilization, to sellers of soft drinks is suspended. If, however, you are a seller of soft drinks and were required by any regulation heretofore issued to which this section 13 is applicable, to keep, prepare, or preserve any records concerning soft drinks, you shall continue to preserve and make available for examination by the OPS, in the manner and for the period set forth in that regulation, all such records which you were required to have on November 19, 1952. In addition, the Director of Price Stabilization or his authorized representative may, subject to the approval of the Bureau of the Budget in accordance with the Federal Reports Act of 1942, request or require you to submit data pertaining to prices charged for soft drinks and to changes made in the prices of soft drinks after November 20, 1952. This suspension will continue unless and until the Director of Price Stabilization terminates or modifies it.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This Amendment 14 to General Overriding Regulation 7, Revision 1, is effective December 11, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

DECEMBER 11, 1952.

[F. R. Doc. 52-13189; Filed, Dec. 11, 1952; 11:51 a. m.]

[General Overriding Regulation 29, Amdt. 1]

GOR 29—ADJUSTMENT OF CEILING PRICES OF CERTAIN ESSENTIAL COMMODITIES AND SERVICES

LIMITATION OF ADJUSTMENTS UNDER SECTION 3 (B) (2) TO DEFENSE CONTRACTS AND SUBCONTRACTS

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Amendment to General Overriding Regulation 29 is hereby issued.

STATEMENT OF CONSIDERATIONS

Section 3 (b) (2) of GOR 29 permits special adjustments of ceiling prices, where deemed necessary in order to promote the national defense, to include an amount in excess of total unit operating cost, even though the applicant's current return on net worth exceeds 85 percent of his average return in his normal base period. Section 4 provides that in requesting such an increase the applicant must submit a certification of certain relevant matters from the government agency responsible for the procuring, allocation, production, or distribution of the commodity or service.

This amendment limits special adjustments under section 3 (b) (2) to commodities or services sold for the purpose of fulfilling a defense contract or subcontract. Essential producers of other essential commodities or services may still apply for adjustments under other provisions of the regulation, but may not apply under section 3 (b) (2).

Corresponding to the limitation of the scope of section 3 (b) (2), section 4 (b) is amended to eliminate the reference therein to certification by the National Production Authority and certain other government agencies. As amended, section 4 (b) requires that the certification which must be submitted with an application under section 3 (b) (2) may be obtained only from the defense agency responsible for the procurement of the commodity or service for which an adjustment is requested.

This action limiting the scope of section 3 (b) (2) has been requested by the National Production Authority and is taken only after consultation with the other government agencies involved. Because of the wide coverage of this regulation, special circumstances have rendered formal consultation with industry representatives, including trade association representatives, impracticable.

AMENDATORY PROVISIONS

1. Section 3 (b) (2) is amended to read as follows:

(2) Where the commodity or service for which an adjustment is requested is being sold or will be sold for the purpose of fulfilling a defense contract or subcontract, the Director of Price Stabilization may, if he deems it necessary in order to promote the national defense, establish an adjusted ceiling price which includes an amount over your "total unit operating cost", despite the fact that your "current rate of return on net worth" equals or exceeds 85 percent of your "average rate of return on net worth in your normal base period". Such an adjustment may be limited to a particular contract or to sales to a particular person.

2. Section 4 (b) is amended to read as follows:

(b) If the commodity or service for which an adjustment is requested is being sold or will be sold for the purpose of fulfilling a defense contract or subcontract and you feel that your adjusted ceiling price should include an amount over your "total unit operating costs," regardless of your over-all profit position, you must state why you believe that such an adjustment is necessary to promote the national defense and you must include with your application a certification from the procuring defense agency, stating the following:

(1) The manner in which the production, manufacture or distribution of the commodity or the supply of the service by you is essential to the defense program;

(2) The manner in which the ceiling price impedes, or threatens to impede, the production, manufacture or distribution of the commodity or the supply of the service;

(3) The reasons, if any, as to why it is essential to immediately enter into or perform a contract for the sale of the commodity or service; and

(4) Whether the commodity or service is available at a lower price from another source in the quantities and at the time required.

(Sec. 704 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This amendment is effective December 16, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

DECEMBER 11, 1952.

Chapter VI—National Production Authority, Department of Commerce

[NPA Order M-77 as Amended Dec. 10, 1952]

M-77—COMMUNICATIONS

This order as amended is found necessary and appropriate to promote the national defense and is issued pursuant to the authority of the Defense Production Act of 1950, as amended. In the formulation of this amended order, consultation with industry representatives has been rendered impracticable because of the need for immediate action.

EXPLANATORY

This amended order revises NPA Order M-77 as amended October 17, 1952, by permitting certain self-authorization privileges which, under the October 17, 1952, amendment, would have become effective May 1, 1953, to become effective instead on January 1, 1953, except for aluminum, as to which the increase becomes effective May 1, 1953. Section 3 is amended accordingly.

AUTHORITY: Sections 1 to 11 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this order does.* This order provides rules for the procurement and use of materials for MRO and operating construction by the operators of the communications systems covered by it.

SEC. 2. *Definitions.* As used in this order:

(a) "Person" means any individual, partnership, corporation, association, or other organized group, and includes any business enterprise, Government agency, or institution.

(b) "Operator" means any person to the extent engaged in rendering communications service on a revenue basis within the United States, its territories and possessions.

(c) "Communications service" means the transmission of messages by wire or radio, excluding radio broadcasting, television broadcasting, and amateur radio.

(d) "Material" means any raw, in-process, or manufactured commodity, equipment, component, accessory, part, assembly, or product of any kind.

(e) "Maintenance" means the minimum upkeep necessary to continue any plant, facility, or equipment in sound working condition.

(f) "Repair" means the restoration of any plant, facility, or equipment to sound working condition when it has been rendered unsafe or unfit for service by wear and tear, damage, failure of parts, or the like. Neither "maintenance" nor "repair" includes the replacement of any plant, facility, or equipment, or the improvement of any plant, facility, or equipment by replacing material which is still in sound working condition with materials of a new or different kind, quality, or design.

(g) "Operating supplies" means any material which is essential to and consumed in the operation of communications service by an operator and used for purposes other than maintenance, repair, operating construction, or other capital additions.

(h) "MRO" means maintenance, repair, and operating supplies.

(i) "Operating construction" means the erection of any building, structure, or project used or useful in rendering communications service, or addition or extension thereto, or alteration thereof, through the incorporation-in-place on the site of materials which are to be an integral and permanent part of the building, structure, or project, whether such building, structure, or project is owned by an operator or is leased or to be leased to him and where the leased building is or is to be exclusively used or useful in rendering communications service.

(j) "Inventory" shall include all items of new and/or salvaged material and supplies on hand, whether held for current or future use or for sale as junk, until physically incorporated into plant by way of maintenance, repair, construction, or otherwise, and without regard to whether or not such items of material are carried in operator's accounting records under "Materials and Supplies Account," exclusive nevertheless of:

(1) Any material of a superseded type reserved by an operator in segregated stocks for reuse, as a practical measure of conservation to meet probable future operating contingencies;

(2) Any material ordered for use in construction, made to particular specifications, and reasonably usable only in the specific project for which it is made;

(3) Segregated stocks maintained by an operator as reasonably necessary for repair of major breakdowns due to explosion, fire, sabotage, act of the public enemy, flood, storm, or similar catastrophe.

(k) "Material of a superseded type" means equipment no longer manufactured or carried by a manufacturer as a regular item for sale to operators except for repair and maintenance of, or for additions to, existing installations. It does not mean equipment drawn from superseded stock to replenish current working inventories.

(l) "Controlled material" means steel, copper, and aluminum, in the forms and shapes indicated in Schedule I of CMP Regulation No. 1, as from time to time amended.

(m) "Single project" means all items entering into construction as part of a single plan, whether or not installed or completed at the same time. No project shall be divided for the purpose of bringing it or any part of it within this definition.

(n) "Authorized controlled material order" means an order so defined in CMP Regulation No. 1, as from time to time amended.

(o) "NPA" means the National Production Authority.

(p) The definitions of this order shall be applicable notwithstanding any conflict with any prescribed system of accounting.

SEC. 3. *Self-authorization*—(a) *Small operators (less than 5,000 stations).* Any operator, as herein defined, of a telephone system comprising less than 5,000 telephone instruments in service is hereby assigned the right to place authorized controlled material orders for all controlled materials required by him for delivery on or before December 31, 1952, (1) for MRO and (2) for operating construction projects in which the cost to him of materials for any single project does not exceed $25,000: *Provided*, That the operating construction does not require in excess of the following quantities of controlled materials in any one project in any calendar quarter:

5 tons of carbon steel (not to include more than 2 tons of structural shapes, but no wide-flange beam sections or columns).

1,000 pounds of copper and copper-base alloys.

2,000 pounds of aluminum.

No alloy steel or stainless steel.

(b) *Self-authorization—MRO.* Every operator of a telephone system comprising less than 15,000 telephone instruments in service is hereby assigned the right to place authorized controlled material orders for all controlled materials required by him for delivery on or after January 1, 1953, for MRO.

(c) *Self-authorization — operating construction.* Every operator, regardless of size, is hereby assigned the right to place authorized controlled material orders for delivery on or after January 1, 1953, for all controlled materials required by him for operating construction projects in which he does not require in excess of the following quantities of controlled materials per project per calendar quarter:

25 tons of carbon steel and alloy steel, including all types of structural shapes (not to include more than 2½ tons of alloy steel and no stainless steel).

5,000 pounds of copper and copper-base alloys.

Aluminum: Operators of telephone systems comprising less than 5,000 telephone instruments in service may place orders for delivery from January 1, 1953, through April 30, 1953, for projects requiring not more than 2,000 pounds per quarter; operators of telephone systems comprising 5,000, but less than 15,000, telephone instruments in service may place orders for delivery in April 1953 for projects requiring not more than 2,000 pounds per quarter; every operator, regardless of size, may place orders for delivery on or after May 1, 1953, for projects requiring not more than 4,000 pounds per quarter.

(d) *Form of orders.* Each operator who places authorized controlled material orders in accordance with this section shall do so without making application to NPA and without receiving an allotment for that portion of his controlled material orders placed in accordance with this paragraph. In placing authorized controlled material orders in accordance with this paragraph, he shall use the allotment number "U-1" and shall show the quarter during which delivery is required: As for example, "U-1 2Q53".

(e) *Assignment of rating.* Each operator to whom the provisions of this section apply may also order materials other than controlled materials which he may require for the MRO and operating construction covered by this section, and is hereby assigned the right to apply to such orders a DO rating in connection with the allotment number; that is, "DO-U-1". The date or dates on which delivery is required must also be specified on each delivery order.

(f) *Limitations on use of ratings.* After December 31, 1952, a DO rating authorized pursuant to this section shall not be used for any entire single operating construction project in dollar amounts in excess of $100,000 for building equipment and building materials (other than controlled materials), and $200,000 for equipment and machinery. On or before December 31, 1952, the limitations of paragraph (a) of this section

apply. A DO rating authorized pursuant to this section shall not be used in connection with operating construction to obtain office machinery, office equipment, furniture, or appliances: *Provided, however*, That this prohibition shall not apply to machinery and equipment specially designed for communications-system use such as automatic message accounting machines.

SEC. 4. *Applications for allotments.* (a) Any operator, except to the extent that he is governed by the provisions of section 3 of this order, may hereafter file with NPA on Form NPAF-117 an application for an authorized program and for a quarterly allotment of such controlled materials as he may require for MRO and operating construction. The initial application for each quarter shall be filed with NPA not later than 120 days prior to the beginning of the quarter for which application is made, unless NPA shall designate a later date.

(b) In approving an application wholly or in part, NPA will specify the controlled materials allotted to the applicant for delivery in the calendar quarter during which the allotment is valid, and will authorize a program for MRO and operating construction. This authorized program shall be deemed to be an authorized construction schedule for the purposes of Revised CMP Regulation No. 6, and the use of the schedule and the related allotment, the use of ratings in connection with operating construction, and the placing and form of delivery orders, shall be governed by all provisions of that regulation not inconsistent with this order.

(c) Every operator who applies for an allotment pursuant to this order shall, to the extent that his application is granted, use the allotment number "U-2" to obtain controlled materials and shall show, on each authorized controlled material order, the quarter for which his allotment is valid, such as "U-2 2Q53." He may also order materials other than controlled materials which are necessary to fulfill his authorized program, and is hereby assigned the right to apply to such orders a DO rating in connection with the allotment number; that is, "DO-U-2." The date or dates on which delivery is required must also be specified on each delivery order. A DO rating authorized pursuant to this section shall not be used in connection with operating construction to obtain office machinery or office equipment: *Provided, however*, That this prohibition shall not apply to machinery or equipment specially designed for communications-system use such as automatic message accounting machines.

(d) An operator who manufactures a Class A, Class B, or any other product not for sale but solely for his own use as MRO, or as a minor capital addition, may obtain the products and materials required for such production by using, within the limitations of this order, the allotment symbol or rating provided for in this order.

(e) No operator shall use any allotment number or rating for the purposes of this order except as provided in this order.

SEC. 5. *Emergency excess of allotment.* (a) In the event of any major service breakdown caused by extraordinary cause such as explosion, fire, sabotage, act of the public enemy, flood, storm, or similar catastrophe, an operator may use the "U-2" allotment number to obtain materials in excess of his allotment to the extent necessary to reestablish service by the use of no greater amount of materials than those rendered unfit for service. In so doing he shall place the word "(emergency)" after the allotment number on his order, and within 10 calendar days after the placing of such order, he shall report the placing of such order to NPA on Form NPAF-117 which shall be accompanied by a statement of the reasons therefor, justifying the use of the emergency rating.

SEC. 6. *Form of certification.* A delivery order placed in accordance with this order must contain, in addition to a DO rating as authorized or an allotment number as authorized, a certification in the following form:

Certified under Revised CMP Regulation No. 6 and NPA Order M-77

which shall be signed as provided in NPA Reg. 2. This certification shall constitute a representation to the supplier and to NPA that the purchaser is authorized to place a delivery order under the provisions of Revised CMP Regulation No. 6 and under this order to obtain the products or materials covered by the delivery order.

SEC. 7. *Effect on other orders.* This order supersedes as to operators, the provisions of other NPA orders governing the civilian use of controlled materials. The provisions of this order supersede as to operators those of CMP Regulation No. 5, except that nothing in this order shall be deemed to permit the use of a rating or allotment number to obtain any of the items listed in Schedule I or II of CMP Regulation No. 5 as from time to time amended. The provisions of this order supersede as to operators those of Revised CMP Regulation No. 6 except as otherwise provided in this order. They do not supersede any NPA order or regulation insofar as it provides that ratings shall not be effective to obtain particular products or materials. The inventory limitations of any NPA orders and regulations as from time to time amended shall apply to operators, but in applying such limitations the definition of "inventory" contained in this order shall be used.

SEC. 8. *Request for adjustment or exception.* Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment or exception claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in triplicate, and shall set forth all pertinent facts, the nature of the relief sought, and the justification therefor.

SEC. 9. *Records and reports.* (a) Each person participating in any transaction covered by this order shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production, and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this order. This order does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time of such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(b) All records required by this order shall be made available for inspection and audit by duly authorized representatives of the National Production Authority, at the usual place of business where maintained.

(c) Persons subject to this order shall make such records and submit such reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139-139F).

SEC. 10. *Communications.* All communications concerning this order shall be addressed to the National Production Authority, Washington 25, D. C., Ref: NPA Order M-77.

SEC. 11. *Violations.* Any person who wilfully violates any provision of this order, or any other order or regulation of NPA, or who wilfully furnishes false information or conceals any material fact in the course of operation under this order, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order as amended shall take effect December 10, 1952.

NATIONAL PRODUCTION AUTHORITY,
By GEORGE W. AUXIER,
Executive Secretary.

[F. R. Doc. 52-13152; Filed, Dec. 10, 1952; 3:20 p. m.]

[NPA Order M-2 as Amended Dec. 11, 1952]

M-2—RUBBER

This order as amended is found necessary and appropriate to promote the national defense. It is issued pursuant to both the Defense Production Act of 1950, as amended, and the Rubber Act of 1948, as amended. In the formulation of this amended order, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

EXPLANATORY

This amended order revises NPA Order M-2, as last amended October 28, 1952, by relaxing the reporting requirements contained in section 7.

REGULATORY PROVISIONS

Sec.
1. Explanation.
2. Applicability of other regulations and orders.
3. Definitions.
4. Limitation on inventory of dry natural rubber.
5. Marking of butyl tubes.
6. Limitation on use of pale crepe.
7. Reports of rubber consumption and stocks.
8. Reports by tire, tube, and camelback manufacturers.
9. Records and reports.
10. Request for adjustment or exception.
11. Communications.
12. Violations.

AUTHORITY: Sections 1 to 12 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *Explanation.* This amended order continues in effect only certain of the restrictions heretofore applicable to the use of natural crepe rubber, and requires the marking of tire tubes made of butyl. The order contains no other controls on acquisition, inventories, and consumption of either natural or synthetic rubber. In the interest of national security, however, it has been jointly determined by the appropriate Government agencies that production by the Government-owned synthetic rubber plants should be maintained at levels substantially in excess of the minimum quantities required by the Rubber Act of 1948, as amended; viz, 200,000 long tons per annum for GR–S and 15,000 long tons per annum for butyl. In order to support the higher production levels desirable for national security, GR–S consumption cannot be permitted to fall below the rate of 450,000 long tons per annum, and butyl consumption cannot be permitted to fall below the rate of 60,000 long tons per annum. Since voluntary industry usage appears unlikely to drop below such levels, mandatory consumption of synthetic rubber has not been imposed, but if consumption falls below these levels the order will be amended by establishing industry-wide manufacturing specifications requiring the use of stated percentages of synthetic rubber in all rubber products. This action is in accord with the legislative policy of section 2 of the Rubber Act of 1948, as amended, which states that "In order to strengthen national security through a sound industry it is essential that * * * regulations requiring mandatory use of synthetic rubber * * * be ended and terminated whenever consistent with national security * * * ."

SEC. 2. *Applicability of other regulations and orders.* Nothing contained in this order as amended shall be construed to relieve any person from complying with such limitations as may be contained in any other applicable NPA regulation or order, or any order or regulation of any other competent authority. Moreover, nothing contained in this order as amended shall be construed as relieving any person of any obligation or liability incurred under this order as originally issued or as amended from time to time.

SEC. 3. *Definitions.* As used in this order:

(a) "Natural rubber" means all forms and types of tree, vine, or shrub rubber, both dry and latex, including all grades of wild rubber, but excluding balata, gutta percha, and reclaimed natural rubber.

(b) "Dry natural rubber" means all natural rubber in solid form.

(c) "Natural rubber latex" means the dry latex solids contained in natural rubber liquid latex.

(d) "Synthetic rubber" means all new RHC products of chemical synthesis in solid or latex form, prepared from a diolefin or derivative thereform as an essential component, similar in general properties and applications to natural rubber and specifically capable to vulcanization, but excluding reclaimed synthetic rubber.

(e) "GR–S" means a general-purpose synthetic rubber of the butadiene or butadiene-styrene type produced in the United States, generally suitable for use in the manufacture of transportation items such as tires or camelback, as well as any other type of synthetic rubber equally or better suited for use in the manufacture of transportation items such as tires or camelback, as determined from time to time by NPA, but excluding reclaimed general-purpose synthetic rubber.

(f) "Cold rubber" means GR–S polymers produced at low temperatures as classified by the Reconstruction Finance Corporation.

(g) "Butyl" or "GR–I" means special-purpose synthetic rubber produced in the United States, suitable for use in the manufacture of transportation items such as pneumatic inner tubes, but excluding reclaimed special-purpose synthetic rubber.

(h) "Reclaimed rubber" means any rubber derived from the processing or treatment of vulcanized rubber or cured scrap rubber.

(i) "New RHC" means total new rubber hydrocarbon. This is the total content of dry natural rubber, natural rubber latex, synthetic rubber (including the oil in oil-extended GR–S), uncured scrap rubber, and uncured in-process materials.

(j) "Pale crepe" means dry natural rubber produced from the fresh coagula of natural liquid latex meeting the specifications of the Rubber Manufacturers Association for pale latex crepes, thick or thin, number IX and 1.

(k) "Consume" means (in the case of dry natural rubber, natural rubber latex, or synthetic rubber) to compound, expend, formulate, or in any manner make any substantial change in the form, shape, or chemical composition thereof.

(l) "Person" means any individual, corporation, partnership, association, or any other organized group of persons, and includes any agency of the United States or any other government.

(m) "NPA" means the National Production Authority.

SEC. 4. *Limitation on inventory of dry natural rubber.* Inventories of dry natural rubber are subject to the provisions of NPA Reg. 1.

SEC. 5. *Marking of butyl tubes.* Every tire tube containing butyl (GR–I) synthetic rubber shall be marked by the manufacturer with one or more circumferential light blue stripes, applied on the base section of the tube, any one of which stripes shall be $\frac{3}{16}$ inch minimum width. No other tire tube shall be so marked.

SEC. 6. *Limitation on use of pale crepe.* No person shall use or consume any pale crepe in the manufacture of pneumatic tires, shoes, shoe soles, heels, welting, or wrappers.

SEC. 7. *Reports of rubber consumption and stocks.*—(a) *Monthly reports.* (1) Each person who consumes during any month, or owns at the end of any month, any type of rubber listed in this paragraph in an amount equal to or in excess of the amounts specified, shall file for such month a report on Form NPAF–3 in accordance with the instructions accompanying the form, by mailing one copy to the National Production Authority, Washington 25, D. C., on or before the tenth day of the following month. This report sets forth consumption, stocks, receipts, production, and shipments.

Type	*Amount (pounds)*
Dry natural rubber	15,000
Natural rubber latex	5,000
GR–S types, excluding latex [1]	15,000
GR–S type latex [1]	5,000
Neoprene, excluding latex	5,000
Neoprene latex	1,000
Butadiene-acrylonitrile types (N-type) excluding latex	5,000
Butadiene-acrylonitrile type (N-type) latex	1,000
Butyl types [1]	5,000
Reclaimed rubber	15,000

[1] Includes all types, whether obtained from Government or other sources, including imports.

(2) Those persons who are required to report on Form NPAF–3 and who consume rubber for the production of both transportation and nontransportation products shall also file a monthly report on Form NPAF–3A, showing separately consumption by type of rubber for each of the two product groups.

(b) *Annual Reports.* Each person who, during any calendar year, consumes or owns any rubber of the types listed in paragraph (a) of this section which he has not reported on Form NPAF–3 during that year, shall file with NPA an annual report on Form NPAF–4 covering such unreported consumption and year-end inventories in accordance with the instructions accompanying the annual report form. One copy of Form NPAF–4 shall be mailed to the National Production Authority, Washington 25, D. C., Ref: NPA Order M–2, not later than the twentieth of January of each year.

SEC. 8. *Reports by tire, tube, and camelback manufacturers.*—(a) *Monthly reports.* Each manufacturer of tires, tubes, and camelback shall file with NPA a report of his production, shipments, and inventory for each calendar month on Form NPAF–5 in accordance with the instructions accompanying the form.

(b) *Weekly reports of cured tires.* Each manufacturer of tires shall file with NPA a report of his production of cured tires for each week on Form NPAF–6 in accordance with the instructions accompanying the form.

SEC. 9. *Records and reports.* (a) Each person participating in any transaction covered by this order shall make and preserve, for at least 3 years thereafter, accurate and complete records of receipts, deliveries, inventories, production, and use, in sufficient detail to permit the determination, after audit, whether each transaction complies with the provisions of this order. This order does not specify any particular accounting method and does not require alteration of the system of records customarily used, provided such records supply an adequate basis for audit. Records may be retained in the form of microfilm or other photographic copies instead of the originals by those persons who, at the time such microfilm or other photographic records are made, maintain such copies of records in the regular and usual course of business.

(b) All records required by this order shall be made available for inspection and audit by duly authorized representatives of the National Production Authority, at the usual place of business where maintained.

(c) Persons subject to this order shall make such records and submit such reports to the National Production Authority as it shall require, subject to the terms of the Federal Reports Act of 1942 (5 U. S. C. 139–139F).

SEC. 10. *Request for adjustment or exception.* Any person affected by any provision of this order may file a request for adjustment or exception upon the ground that such provision works an undue or exceptional hardship upon him not suffered generally by others in the same trade or industry, or that its enforcement against him would not be in the interest of the national defense or in the public interest. In examining requests for adjustment or exception claiming that the public interest is prejudiced by the application of any provision of this order, consideration will be given to the requirements of the public health and safety, civilian defense, and dislocation of labor and resulting unemployment that would impair the defense program. Each request shall be in writing, by letter in triplicate, and shall set forth all pertinent facts, the nature of the relief sought, and the justification therefor.

SEC. 11. *Communications.* All communications concerning this order shall be addressed to the National Production Authority, Washington 25, D. C., Ref: NPA Order M–2.

SEC. 12. *Violations.* Any person who wilfully violates any provision of this order, or any other order or regulation of NPA, or who wilfully furnishes false information or conceals any material fact in the course of operation under this order, is guilty of a crime and upon conviction may be punished by fine or imprisonment or both. In addition, administrative action may be taken against any such person to suspend his privilege of making or receiving further deliveries of materials or using facilities under priority or allocation control and to deprive him of further priorities assistance.

NOTE: All reporting and record-keeping requirements of this order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

This order as amended shall take effect December 11, 1952.

NATIONAL PRODUCTION AUTHORITY,
By GEORGE W. AUXIER,
Executive Secretary.

[F. R. Doc. 52–13182; Filed, Dec. 11, 1952; 11:40 a. m.]

[Revised CMP Regulation No. 6, Direction 8 as Amended Dec. 10, 1952]

CMP REG. 6—CONSTRUCTION

DIR. 8—REVISIONS OF RESTRICTIONS ON ACQUISITION AND USE OF MATERIALS AND PRODUCTS

This direction as amended under Revised CMP Regulation No. 6 is found necessary and appropriate to promote the national defense and is issued pursuant to the Defense Production Act of 1950, as amended. In the formulation of this amended direction, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations.

EXPLANATORY

This direction as amended affects Direction 8, issued October 3, 1952, to Revised CMP Regulation No. 6 by amending sections 1, 2, 3, 4, 5, 6, 7, and 8, and Appendix A of the direction, changing the effective date for increased self-authorization of steel and copper controlled material, and of DO-rated orders, from May 1, 1953, to January 1, 1953. Provision is made by the addition of a new section 8 for the allotment numbers to be used on purchase orders calling for delivery after December 31, 1952. Provision is further made by the addition of a new section 9 for the use after April 30, 1953, of aluminum in the construction of recreational, entertainment, and amusement construction projects.

REGULATORY PROVISIONS

Sec.
1. What this direction does.
2. "Small construction projects."
3. Recreational, entertainment, and amusement construction projects.
4. Construction of multiunit residential structures.
5. Dollar limitation on DO-rated orders.
6. Self-authorization quantities of controlled materials.
7. Placing of purchase orders.
8. Allotment numbers.
9. Use of aluminum in recreational, entertainment, and amusement construction projects.
10. Effect of this direction.

Appendix A—Categories of construction and quantities of controlled materials for which purchase orders may be self-authorized.

AUTHORITY: Sections 1 to 10 issued under sec. 704, 64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154. Interpret or apply sec. 101, 64 Stat. 799, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2071; sec. 101, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.; sec. 2, E. O. 10200, Jan. 3, 1951, 16 F. R. 61; 3 CFR, 1951 Supp.; secs. 402, 405, E. O. 10281, Aug. 28, 1951, 16 F. R. 8789; 3 CFR, 1951 Supp.

SECTION 1. *What this direction does.* It has been determined that substantial revision and liberalization of the rules relating to construction of recreational, entertainment, and amusement construction projects, to construction of multiunit residential structures, and to self-authorization of purchase orders for materials and products to be used in construction may be permitted. This direction is issued, therefore, to enable persons to go forward with the planning necessarily preliminary to the commencement of construction (as defined in Revised CMP Regulation No. 6) and to place orders for delivery after December 31, 1952, of steel and copper controlled material, and for delivery after April 30, 1953, of aluminum controlled material, so that actual construction work can proceed in the first and second quarters of 1953, and the quarters subsequent thereto, with the minimum possible delay. The revisions consist of the following:

(a) Provision for the right to self-authorize purchase orders up to the quantities specified in this direction, in connection with recreational, entertainment, and amusement construction projects (see sections 3, 5, and 6, and Appendix A of this direction).

(b) Provision that foreign and used steel may be used in recreational, entertainment, and amusement construction projects in the same manner as in all other construction (see section 3 of this direction).

(c) Provision for the right to self-authorize purchase orders up to the quantities specified in this direction, in connection with construction of multiunit residential structures (see sections 4, 5, and 6, and Appendix A of this direction).

(d) Elimination of the distinction made in section 2 and Table II of Re-

vised CMP Regulation No. 6 between "industrial construction" and the category "all other construction"; and reclassification of construction projects into the following categories: (1) Construction by, or for the account of, the Department of Defense or the Atomic Energy Commission; (2) residential construction; (3) highway construction; (4) recreational, entertainment, and amusement construction; and (5) "all other construction." This new category "all other construction," referred to in the preceding sentence, includes both industrial and commercial construction, and the construction of schools and hospitals, public utility systems, water and sewage projects, transportation facilities, and public buildings and facilities (other than highway construction) (see sections 5 and 6, and Appendix A of this direction).

(e) Restatement of the quantities of materials and products for which purchase orders may be self-authorized, and elimination of the restriction on self-authorization of purchase orders for carbon steel wide-flange beam sections or columns (see sections 5 and 6, and Appendix A of this direction).

SEC. 2. *"Small construction projects."* A project shall be considered a "small construction project" for the purposes of this direction if, after December 31, 1952, the owner will be able to complete the project: (a) Without requiring delivery of more controlled materials than the appropriate quantities specified in Appendix A of this direction for the particular category of construction; and (b) without requiring authorization to use a DO rating to procure delivery of building equipment and building materials (other than controlled materials), production equipment and production machinery, in dollar amounts exceeding those specified in section 4 of this direction; and (c) without requiring authorization to use a DO rating to procure any item described in section 23 (b) of Revised CMP Regulation No. 6.

SEC. 3. *Recreational, entertainment, and amusement construction projects.* (a) Effective January 1, 1953, the rules with respect to the commencement or continuance of recreational, entertainment, and amusement construction projects shall be the rules with respect to the right to commence or continue construction set forth in paragraphs (a), (d), and (e) of section 4 of Revised CMP Regulation No. 6. Further, effective January 1, 1953, the self-authorization procedures described in Article IV of Revised CMP Regulation No. 6 shall be applicable to, and the term "small construction project" shall include, construction of recreational, entertainment, and amusement construction projects.

(b) Effective January 1, 1953, the provisions of Article VI of Revised CMP Regulation No. 6 (Use of foreign and used steel) shall be applicable to recreational, entertainment, and amusement construction projects.

SEC. 4. *Construction of multiunit residential structures.* Effective January 1, 1953, the rules with respect to the commencement or continuance of multiunit residential structures shall be the rules with respect to the right to commence or continue construction set forth in paragraphs (a), (d), and (e) of section 4 of Revised CMP Regulation No. 6. Further, effective January 1, 1953, the self-authorization procedures described in Article IV of Revised CMP Regulation No. 6 shall be applicable to, and the term "small construction project" shall include, construction of multiunit residential structures.

SEC. 5. *Dollar limitation on DO-rated orders.* (a) Effective January 1, 1953, the following limitation shall be applicable to the placing of DO-rated purchase orders with respect to any "small construction project" where construction is or was commenced after March 5, 1952: A DO rating authorized pursuant to Article IV of Revised CMP Regulation No. 6 may not be used for any entire single construction project in dollar amounts in excess of the following:

Category of construction	Building equipment and building materials (other than controlled materials)	Production equipment and production machinery
Recreational, entertainment, and amusement construction projects	$15,000	$5,000
Residential construction projects other than multiunit residential structures	No dollar limit	None
All other "small construction projects"	100,000	200,000

(b) The provisions of paragraphs (a) and (b) of section 23 of Revised CMP Regulation No. 6 shall continue to be applicable to all construction projects covered by Article IV of Revised CMP Regulation No. 6 (see section 28 of Revised CMP Regulation No. 6 for exemptions).

SEC. 6. *Self-authorization quantities of controlled materials.* Effective January 1, 1953, the quantities of controlled materials for which the owner of a "small construction project" may self-authorize purchase orders, in connection with construction projects covered by Revised CMP Regulation No. 6, shall be the quantities specified in Appendix A of this direction.

SEC. 7. *Placing of purchase orders.* An owner of a "small construction project" may place his purchase orders at any time, in accordance with the provisions of Article IV of Revised CMP Regulation No. 6, up to the amount specified in section 5 and Appendix A of this direction: *Provided, however,* That such orders shall not call for delivery prior to the appropriate date specified in this direction, of materials or products in excess of the quantities specified in section 23 and Table II of Revised CMP Regulation No. 6. (The appropriate dates specified in this direction are as follows: for steel and copper controlled materials, and for products of the type referred to in section 5 of this direction, January 1, 1953; for aluminum controlled material, May 1, 1953.)

SEC. 8. *Allotment numbers.* An owner who may self-authorize purchase orders pursuant to the provisions of this direction is authorized to use the following allotment numbers on his purchase orders calling for delivery after December 31, 1952:

T-9 for water wells, water and sewage systems and plants under the jurisdiction of the NPA Water Resources Division (see Table IV of Revised CMP Regulation No. 6).
U-7 for all types of residential structures.
U-8 for all other categories of construction.

SEC. 9. *Use of aluminum in recreational, entertainment, and amusement construction projects.* Notwithstanding any provisions contained in section 24 of Revised CMP Regulation No. 6, after April 30, 1953, aluminum may be used in the construction of recreational, entertainment, and amusement construction projects.

SEC. 10. *Effect of this direction.* To the extent that the provisions of this direction are inconsistent therewith, this direction supersedes the provisions of Revised CMP Regulation No. 6.

This direction as amended shall take effect December 10, 1952.

NATIONAL PRODUCTION AUTHORITY,
By GEORGE W. AUXIER,
Executive Secretary.

APPENDIX A TO DIRECTION 8 UNDER REVISED CMP REGULATION NO. 6

CATEGORIES OF CONSTRUCTION AND QUANTITIES OF CONTROLLED MATERIALS FOR WHICH PURCHASE ORDERS MAY BE SELF-AUTHORIZED [1]

A. RESIDENTIAL CONSTRUCTION [2]

1. *One- through four-family residential structures:*
   (i) *Residential structure using steel pipe water distribution system, per dwelling unit*—new construction:

	Pounds
Carbon steel (excluding structural shapes)	2,300
Carbon steel (structural shapes)	1,500
Stainless steel and alloy steel	None
Aluminum	275
Copper and copper-base alloys	200

   (ii) *Residential structure using copper pipe water distribution system, per dwelling unit*—new construction:

	Pounds
Carbon steel (excluding structural shapes)	1,950
Carbon steel (structural shapes)	1,500
Stainless steel and alloy steel	None
Aluminum	275
Copper and copper-base alloys	400

NOTES: If a forced hot water heating system is installed, the owner may use and self-authorize purchase orders for an additional 200 pounds of copper and copper-base alloys; and if a radiant heating system is installed, he may use and self-authorize purchase orders for an additional 500 pounds of copper and copper-base alloys.

For alterations, additions, or extensions, not more than 50 percent of the quantities specified above.

2. *Multiunit residential structures:*
   (i) *Walk-up structures, per dwelling unit:*
   2 tons of carbon steel (not to include more than 500 pounds of all types of structural shapes).
   200 pounds of copper and copper-base alloys.
   No aluminum.[3]
   No stainless steel or alloy steel.
   (ii) *Elevator structures, per dwelling unit:*
   3 tons of carbon steel (not to include more than 600 pounds of all types of structural shapes).
   225 pounds of copper and copper-base alloys.
   No aluminum.[3]
   No stainless steel or alloy steel.

B. CONSTRUCTION OTHER THAN RESIDENTIAL CONSTRUCTION

1. *Construction by, or for the account of, the Department of Defense or the Atomic Energy Commission.*
   No self-authorization is permitted.
2. *Construction and maintenance of all rural and urban highways, etc., under the jurisdiction of the Bureau of Public Roads (see Table IV of Revised CMP Regulation No. 6):*
   NOTE: These quantities are per project, and not per quarter.
   25 tons of carbon steel (not to include more than 12 tons of all types of structural shapes).
   500 pounds of copper and copper-base alloys.
   500 pounds of aluminum.
   No stainless steel or alloy steel.
3. *Recreational, entertainment, and amusement construction (see Table I of Revised CMP Regulation No. 6):*
   NOTE: These quantities are per project, per quarter.
   5 tons of carbon steel (not to include more than 2 tons of all types of structural shapes).
   500 pounds of copper and copper-base alloys.
   No aluminum.[4]
   No stainless steel or alloy steel.
4. *All other construction (see section 28 of Revised CMP Regulation No. 6 for exemptions):*
   NOTE: These quantities are per project, per quarter.
   25 tons of carbon steel and alloy steel, including all types of structural shapes (not to include more than 2½ tons of alloy steel and no stainless steel).[5]
   5,000 pounds of copper and copper-base alloys.
   2,000 pounds of aluminum.[6]

[1] Note that an owner of a "small construction project" may self-authorize his purchase orders, in accordance with section 22 of Revised CMP Regulation No. 6, up to the amounts specified in this appendix at any time: *Provided, however,* That such orders shall not call for delivery prior to the appropriate dates specified in section 7 of this direction.

[2] Part A of this appendix does not apply to residential construction by, or for the account of, the Department of Defense, or to construction of federally owned housing on federally owned property under the control of the Atomic Energy Commission. No self-authorization is permitted for such construction.

[3] Effective May 1, 1953, 275 pounds of aluminum per dwelling unit.

[4] Effective May 1, 1953, 300 pounds of aluminum per project, per quarter.

[5] In the construction of chemical plants, the owner may self-authorize 1 ton of stainless steel, per project, per quarter, in addition to the quantities specified.

[6] For "industrial projects" 4,000 pounds of aluminum, per project, per quarter; and effective May 1, 1953, 4,000 pounds of aluminum, per project, per quarter, for the category "all other construction" (section 1).

[F. R. Doc. 52-13153; Filed, Dec. 10, 1952; 3:20 p. m.]

TITLE 47—TELECOMMUNICATION

Chapter I—Federal Communications Commission

[Docket Nos. 10176, 10325]

PART 8—STATIONS ON SHIPBOARD IN THE MARITIME SERVICE

LIFEBOAT RADIO EQUIPMENT

In the matter of a requirement that lifeboat radio equipment compulsorily provided under the International Convention on Safety of Life at Sea, London, 1948, include provision for reception in the high frequency band, Docket No. 10176; and in the matter of amendment of Part 8 of the Commission's rules regarding technical requirements and related provisions for compulsorily provided lifeboat radio equipment, Docket No. 10325.

1. Docket Nos. 10176 and 10325 both relate to lifeboat radio equipment compulsorily provided as a result of the In-

(2) An artificial antenna for test indication that this requirement is met, a radio station. These entries shall be

1953, the rules with respect to the commencement or continuance of multiunit

who may self-authorize purchase orders pursuant to the provisions of this direc-

authorization is permitted for such construction.

[F. R. Doc. 52-13153; Filed, Dec. 10, 1952; 3:20 p. m.]

In the matter of a requirement that lifeboat radio equipment compulsorily

relate to lifeboat radio equipment compulsorily provided as a result of the In-

ternational Convention for the Safety of Life at Sea, London, 1948. Docket No. 10325 set forth proposed detailed requirements for such equipment and certain related requirements. Docket No. 10176 related to the Commission's proposal that those requirements include provision for reception in the high frequency radiotelegraph band where there was a transmitter requirement for transmission on 8364 kc.

2. The proceedings in Docket No. 10176 were instituted by a notice of proposed rule making issued by the Commission on April 18, 1952. The period for comments on this proposal has expired. No comments with respect to this matter have been received. Accordingly, the rule amendments herein ordered finalized in Docket No. 10325 include a requirement and specifications for radiotelegraph reception throughout the band 8266–8745 kc by compulsorily provided lifeboat radio equipment under certain conditions.

3. The proceedings in Docket No. 10325 were instituted by a notice of proposed rule making adopted by the Commission on October 1, 1952. The period for filing original and reply comments were subsequently extended to October 31, 1952 and November 4, 1952.

4. The American Radio Association, C. I. O., supported the proposal and "urge(d) its immediate adoption." The National Federation of American Shipping, Inc., filed comments regarding the following proposed rules:

(a) Section 8.520 (g) (1): The National Federation of American Shipping felt that this rule implied a requirement that routine tests of lifeboat portable radio equipment be conducted in a lifeboat. This was not the intent of the proposal and the rule has been revised to make clear that there is no such requirement. Further, with regard to § 8.520 (g) (1) the National Federation of American Shipping requested that in such instances where tests of lifeboat equipment were required by a Commission representative to be made with the lifeboat afloat that a rule be adopted requiring "such representative [to] make every effort to conduct [such inspections and tests] at such times as the lifeboat is lowered for other purposes, such as annual inspections required by the Coast Guard." The Commission's Field Offices have heretofore followed such a policy insofar as practicable and will continue to do so. It does not appear to be necessary or appropriate to embody such a matter into rule requirements.

(b) Section 8.557 (a) (7): The National Federation of American Shipping felt that this rule might be interpreted as requiring that the "entire alphabet of the International Morse Code" be shown on the removable plate required to be attached to lifeboat portable radio apparatus. This rule has been revised to indicate that only the Code characters of the lifeboat call sign (in addition to the lifeboat call sign in letters and numerals) need be shown on the plate.

(c) Section 8.557 (b) (4) (v): This rule requires that, with respect to the transmitter in lifeboat portable radio equipment, provision be made "for testing the required automatic keying arrangement without the generation of radio frequency energy." The National Federation of American Shipping requested that the requirement "either be deleted or worded in such a way as not to require an additional control." The Federation reasoned that compliance with this requirement would require an additional switch which would have to be either automatically or manually returned to correct operating position after being used during testing of the automatic keyer; that if automatic, the addition of such a switch to lifeboat portable radio equipment would necessitate that it be manually held in position during test periods and would complicate the routine testing process so that routine tests could not be performed by a single person; that if non-automatic, there would be a danger of leaving the switch in the "test" position. The purpose of this rule was to eliminate the possibility of radiation of false distress or auto-alarm signals during testing of the automatic keying arrangement. Although the use of an artificial antenna during such testing has been suggested, no data have been supplied to show that an artificial antenna could be shielded sufficiently to insure accomplishment of the desired purpose. Further, the proposed rule would not necessarily require an additional switch. It appears to be entirely feasible to incorporate a "test" position, clearly marked as such, in the master switch. Accordingly, it is not considered necessary to modify the proposed rules in this respect.

5. No other comments in Docket 10325 were filed. However, in addition to changes in the proposed rules resulting from comments, other changes are made in the rules herein ordered finalized as follows:

(a) Results of tests of existing non-portable lifeboat radio equipment received since the promulgation of the proposed rules show that such equipment is not capable of meeting the field strength or meter-ampere requirement of proposed § 8.520 (e). It does not appear to be practicable or reasonable to require modification or replacement of such equipment for the purpose of meeting this particular requirement within less than a two year period. Therefore, the finalized rules postpone the application of this requirement to such equipment until November 19, 1954. These tests further indicated, however, that the required power output specified in § 8.558 (a) (1) for the transmitter in new non-portable lifeboat radio equipment could be reduced. It appeared therefrom that a transmitter capable of a power output of 30 watts on the frequency 500 kc into the specified artificial antenna when installed in an installation complying with all other applicable requirements should be capable of meeting the necessary range requirements of the Safety Convention. Accordingly, the rules herein ordered finalized specify a power output of 30 watts on 500 kc in lieu of 35 watts which was originally proposed. A corresponding reduction from 50 to 40 watts in the transmitter power output on 8364 kc is also made.

(b) Section 8.553 (f) (2) regarding the ground system of non-portable radio equipment is revised to provide greater latitude in the arrangement of the ground system and the metal to be used therein. The use of strips as well as plates, or a combination thereof, of any corrosion-resistant metal, rather than copper alone, would be permitted.

(c) Other miscellaneous changes in the proposed rules are of a relatively minor nature and include revision of the list of spare parts so that two spare tubes should be carried instead of one if three or more tubes of a single type are employed in the equipment and a spelling out in general terms of the requirement that components of lifeboat radio equipment be of "acceptable quality for marine service."

6. As heretofore stated the rules here involved were proposed in order to implement certain portions of the International Convention for the Safety of Life at Sea, London, 1948. The Convention came into force, insofar as ships of the United States are concerned, on November 19, 1952. It is, therefore, urgent that these rules be finalized at the earliest possible date.

7. The changes made in the proposed rules other than those made in response to comments filed by the party are minor in nature and for the most part relieve proposed restrictions. Compliance with the notice provisions of section 4–B of the Administrative Procedure Act is therefore unnecessary, and in view of the effective date of the Convention, would be contrary to the public interest. For the same reasons the public interest would be served by making the rules effective immediately.

8. In view of the foregoing considerations, and pursuant to the authority contained in sections (c), (e), (f), (g), (r), and 355, 356, and 359 of the Communications Act of 1934, as amended, *It is ordered*, That:

1. Effective immediately, Part 8 of the Commission's rules is amended as set forth below.

2. The proceedings in Dockets Nos. 10176 and 10325 are terminated.

(Sec. 4, 48 Stat. 1066, as amended; 47 U. S. C. 154. Interpret or apply sec. 303, 48 Stat. 1082, as amended; 47 U. S. C. 303)

Adopted: December 3, 1952.

Released: December 8, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

1. Section 8.519 is deleted.

2. Section 8.520 is amended to read as follows:

§ 8.520 *Lifeboat radio equipment.* (a) Lifeboat radio equipment, portable or non-portable, required by law to be provided, shall comply with applicable requirements of paragraph (b) through (g) of this section.

(b) All lifeboat radio equipment shall include the following components as a minimum:

(1) An antenna for transmitting and receiving which can be quickly utilized by a person in the lifeboat while afloat together with such antenna accessories as are necessary;

(2) An artificial antenna for test purposes.

(3) A transmitter with keying arrangement(s) for the use of radiotelegraphy;

(4) A radio receiver with head receiver;

(5) A power supply of required capacity;

(6) The necessary material or device for a ground connection to the water when the lifeboat is afloat.

(c) Each of the components specified in paragraph (b) of this section shall be of a type of apparatus or shall comprise such items as are approved by the Commission as capable of meeting the provisions of §§ 8.556, 8.557, 8.558 or 8.559, as may be applicable.

(d) Provisions relative to capacity, use and maintenance of storage batteries used as the power supply for lifeboat non-portable radio equipment:

(1) A storage battery power supply of lifeboat radio equipment shall be capable at all times of operating the entire lifeboat radio installation for a period of at least six continuous hours as is stipulated for an emergency power supply in § 8.504 (b).

(2) Storage batteries may be used to operate equipment other than radio except the electric starter and ignition system of a lifeboat motor, provided such additional use will not adversely affect the required capabilities of the battery. All individual circuits connected to the battery shall be independently and properly fused.

(3) Storage batteries shall be kept adequately charged at all times while at sea. The charging of such batteries shall not require their removal from the lifeboats in which they are installed. The necessary charging equipment shall be arranged so as not to interfere with the launching of the lifeboats, and for this purpose shall be easily and quickly removable. The charging circuit for the lifeboat radio storage battery or batteries shall be routed through the main radiotelegraph operating room of the vessel. A device which, during charge of the lifeboat radio battery or batteries, will give a continuous indication of the polarity and the rate of charge, shall be connected in this charging circuit and shall be located in the main radiotelegraph operating room for purposes of frequent observation.

(4) In any installation made on or after November 19, 1952, provisions shall be made to enable charging of the storage battery by means of a generator on the motor lifeboat engine.

(5) Subject to approval of the United States Coast Guard storage batteries shall be mounted in suitable containers that will provide protection from salt water spray and also allow proper ventilation.

(e) Lifeboat non-portable radio equipment shall be capable of developing by day, over the sea and under normal conditions and circumstances, a r. m. s. radio field intensity of 50 microvolts per meter on the frequency 500 kilocycles at a distance of 25 nautical miles. Ability to meet this requirement may be evidenced in the absence of such other means as will provide a reliable indication that this requirement is met, by a product of the maximum height of antenna above the mean surface of the water expressed in meters and a r. m. s. antenna current on the frequency 500 kilocycles expressed in amperes of not less than 10.

(f) Conditions of fitting of lifeboat and radio equipment:

(1) Non-portable radio equipment shall be installed in a cabin large enough to accommodate both the equipment and the person using it and arrangements shall be such that the efficient operation of the lifeboat radio installation shall not be interfered with by the motor boat engine while it is running, whether or not a battery is on charge.

(2) The use of metal masts and stays, unless broken by insulators, or of any structure at electrical ground potential at the masthead(s) is not permitted in lifeboat portable or non-portable radio equipment: *Provided, however*, That this limitation shall not prohibit the use of a metal mast or masts used as the antenna.

(g) Inspections and tests of lifeboat radio equipment:

(1) Inspections and tests [19] of lifeboat radio equipment shall be conducted by a qualified representative of the licensee at weekly intervals while the ship is at sea and within 24 hours prior to the ship's departure from each port but not necessarily more than once each week.

(i) Inspections and tests shall include operation of the transmitter connected to an artificial antenna and determination of the specific gravity in the case of a lead-acid battery, or voltage under normal load in the case of other type of batteries, of any battery provided as a part of the lifeboat radio equipment.

(2) When the vessel is in a harbor or port of the United States an authorized representative of the Commission may require:

(i) Inspection and test of lifeboat radio equipment in a lifeboat afloat to include an actual test of the transmitter and receiver connected to the required antenna to determine that the equipment is in effective operating condition.

(ii) The shipowner, operating company, or station licensee to prove by demonstration, as may be deemed necessary, that a storage battery used as a part of the lifeboat radio equipment is capable of energizing the installation for the required period of time as is prescribed for an emergency transmitter in § 8.504 (b).

(3) The results of inspections and tests shall be made known to the master of the vessel and shall be entered in the ship's log if the ship is not provided with a radio station. These entries shall be made available to duly authorized representatives of the Commission upon request.

3. Section 8.524 (a) (4) is amended to read as follows:

(4) *Lifeboat radio equipment.* One electron tube of each type used for normal operation of the radio installation, including neon or any other type of tube or lamp employed as resonance indicator(s), expect that if three or more electron tubes of a single type are employed, two electron tubes of that type shall be provided: Renewable fuse-cartridges of each type used in connection with the units of the lifeboat radio installation or which are used in circuits connected to the lifeboat radio installation power supply in the amount of at least one-half the number of each size and type in actual use. For each renewable fuse-cartridge in use, there shall be available six spare fuse links of appropriate capacity. For each non-renewable fuse in use, there shall be available six spare fuses of the same type and appropriate capacity. If wire is used, sufficient wire shall be provided to permit six complete fuse replacements. Additionally, non-portable lifeboat radio equipment shall be provided with at least 35 feet of insulated wire suitable for use as antenna wire; 2 antenna insulators; one panel electric light bulb, if used, one screwdriver and one pair of sidecutting pliers.

4. Section 8.525 (b) is amended to read as follows:

(b) Spare parts and auxiliary equipment for the non-portable radio equipment shall be kept in the lifeboat cabin housing the radio equipment. Spare parts and auxiliary equipment for the lifeboat portable radio apparatus shall be so kept as to be convenient for the routine maintenance of the equipment.

5. Section 8.556 is amended to read as follows:

§ 8.556 *General requirements for lifeboat radio equipment.* (a) To be approved by the Commission pursuant to § 8.520, lifeboat radio equipment shall comply with the following general requirements in addition to the applicable specific requirements set forth in §§ 8.557, 8.558 and 8.559, except that equipment to which the provisions of § 8.559 are applicable need not meet the requirements of subparagraphs (1) and (5) of this paragraph.

(1) The design and construction of the radio equipment shall be such that no tools are required to place it in operation for routine tests or for emergency communication.

(2) The components and assembly of the entire lifeboat radio equipment shall insure the utmost dependable operation and the design shall be such that heavy vibration and physical shocks to which a lifeboat is subject will cause no damage. Components shall be housed and treated to withstand saline dampness and to minimize the adverse effect of prolonged exposure to salt water or salt spray.

(3) A durable nameplate shall be mounted on the equipment or made an

[19] Subject to such limitations as may be imposed by the Administration having jurisdiction at foreign ports. It is necessary that each transmitter for use in lifeboats be licensed by the Commission to insure compliance with the rules and regulations of the Commission, during the required tests with an actual antenna. Operation of a transmitter installed in or for use in a lifeboat is ordinarily authorized by the regular ship station license when it has been described in the application for such license and the authorization has been approved by the Commission. See § 8.68.

integral part thereof showing at least the following:

(i) The type or model number;

(ii) The name of the manufacturer;

(iii) The month and year of manufacture.

(4) Each lifeboat equipment shall be provided with a copy of an instruction manual covering the design, installation, operation and maintenance of the equipment.

(5) Simple instructions which are durable and waterproof and suitable for the use of an unskilled person shall be permanently and conspicuously attached to the control panel or surface of the transmitter, receiver or power supply. These instructions shall contain information together with sketches covering the erection of the antenna(s) and the operation of the equipment for automatic transmission; also information as to manual transmission of the radiotelegraph distress signal "S O S" and the international auto-alarm signal, and a statement that the latter signal is effective only if transmitted on the frequency 500 kc.

6. Section 8.557 is amended to read as follows:

§ 8.557 *Requirements for lifeboat portable radio equipment.* (a) There shall be provided as a single unit a portable buoyant apparatus consisting of a transmitter, receiver, power supply, grounding conductor, a collapsible rod antenna or in lieu thereof a collapsible mast, a single wire antenna, and a line for lowering the apparatus.

(1) The apparatus, as a single unit, shall be of sufficient buoyancy to float in sea water and shall be sufficiently rugged in construction to withstand physical shocks and rough handling. The apparatus shall be deemed to comply with this requiremept if, after being dropped into sea water in various positions from a height of at least 20 feet, it can be operated immediately without any repair or adjustment (other than normal antenna circuit tuning) and without departure from required performance. Suitable protection shall be provided for the operating controls, indicating devices and instruments, including the head receiver, against physical harm from accidental or inadvertent blows and from the adverse effects of prolonged exposure to the weather. Operational parts of the apparatus adversely affected by immersion in sea water shall be enclosed so as to provide the necessary protection. Any such enclosure shall be deemed to be water-tight if it can be submerged in sea water so that no part is less than two inches below the surface of the water for a continuous period of two hours without leaking.

(2) The apparatus, as a unit, shall be fitted with durable handles or grips. These shall be so arranged and the distribution of the weight of the apparatus shall be such as to provide for convenient carrying by either one or two persons.

(3) Provision shall be made for securely fastening components of the apparatus, by lashing or other acceptable means, to a lifeboat thwart as may be necessary to enable easy and convenient operation of the lifeboat portable radio equipment.

(4) The apparatus exclusive of the line for lowering shall not weigh more than sixty pounds.

(5) The line for lowering shall consist of not less than 40 feet of 9 thread manila or sisal rope, or the equivalent thereof, which shall be in good condition and securely attached to the apparatus at all times.

Operating frequencies (kilocycles)	Frequency tolerance	Type of emission	Modulation percentage (average of modulation percentage of positive and negative peaks)	Modulation frequency	Power output (into specified artificial antenna)	Artificial antenna
	Percent					
500	0.5	A2	Not less than 70.	Not less than 450 nor greater than 1350 cycles per second.	Not less than 0.25 watt.	1 ohm resistance, 75 micromicrofarads capacitance.
500	.5	A2	do	do	Not less than 1.7 watts.	10 ohms resistance, 75 micromicrofarads capacitance, 40 ohms resistance.
8364	.2	A2	do	do	Not less than 4 watts.	

(6) Components of the apparatus subject to loss by detachment from the unit for operation or test of the equipment shall be so arranged as to insure their availability at all times.

(7) Each apparatus shall be equipped with a durable removable plate showing clearly the lifeboat radio call sign in letters and digits and in characters of the International Morse Code.

(b) (1) The radio transmitter shall comply with the following requirements:

(2) The transmitter radio frequency and modulation frequency control circuits shall be pretuned to the required frequencies and shall be of such design and construction that the operating frequencies are maintained within the prescribed tolerances under varying voltages, antenna circuit characteristics, and other normal conditions of adjustment. The frequency control circuit adjustment(s) shall be securely locked to prevent detuning as a result of shock or vibration and shall not be readily available to the person using the transmitter.

(3) Controls shall be provided on the operating panel for efficient transfer of radio frequency energy at each required operating radio frequency to the required antenna. An initial adjustment of these controls shall effectively resonate the antenna circuit at each required operating radio frequency and this condition shall be maintained without further adjustment of these controls during a normal operating period of the transmitter.

(4) Simple and reliable controls shall be provided so that the operator of the transmitter can quickly and conveniently place it in use for: Manual operation on 500 kc, manual operation on 8364 kc, and automatic operation alternately on these two frequencies: *Provided*, That not more than one manual switch adjustment shall be necessary to place the transmitter in operation for automatic transmission. For manual radiotelegraphy the transmitter and receiver, including their controls, shall be arranged mechanically and electrically so that they can be operated efficiently and conveniently from the same operating position for communication on the required operating frequencies and so that the time necessary to change from transmission to reception, and vice versa, on these frequencies is as short as possible and in no event more than two seconds. For automatic operation provision shall be made as follows:

(i) On 500 kc for transmission of the international alarm signal followed by the international distress signal "S O S", the latter to be transmitted by means of the International Morse Code in one or more groups, each group consisting of three "S O S" signals.

(ii) On 8364 kc for transmission of the international distress signal "S O S" by means of the International Morse Code in one or more groups, each group consisting of three "S O S" signals followed by a dash of not less than 30 seconds in duration.

(iii) For transmission of the specified signals by automatically changing the operating frequency of the transmitter from 500 kc to 8364 kc and vice versa with a transfer time interval not to exceed one second.

(iv) For completely de-energizing the receiver during such operation of the transmitter.

(v) For testing the required automatic keying arrangement without the generation of radio frequency energy.

(vi) The speed of the automatic transmission of the international distress signal shall be at a rate not in excess of 16 words per minute nor less than 8 words per minute. The alarm signal dashes shall have a duration within the limits of 3.8 to 4.2 seconds and spaces between each of the twelve dashes constituting a series shall have a duration within the limits of 0.8 to 1.2 seconds.

(5) The transmitter shall be equipped with a reliable visual indicator or indicators as may be necessary (such as neon tubes) to indicate antenna circuit resonance at each operating frequency with any antenna provided. Failure of the indicator(s) shall have no adverse effect on the actual operation of the transmitter.

(c) The receiver shall comply with the following requirements:

(1) The receiver shall, when used with a head receiver, be capable without manual tuning of receiving A2 emission over the frequency band 492 kc to 508 kc and shall be capable when manually tuned of receiving A1 and A2 emission on any frequency in the band 8266 to 8745 kc.

(2) The sensitivity of the receiver shall be such that at least 1 milliwatt of audio power is developed in a noninductive load resistor having an ohmic value substantially equal to the value of the impedance of the head receiver at 1,000 cycles per second at a signal to noise power ratio of at least 10 to 1, when the receiver is supplied through the following artificial antennas with the respective radio frequency signals:

Frequency (kilocycles)	Signal strength (microvolts)	Modulation factor	Modulation frequency (cycles per second)	Artificial antenna
500	200	0.3	400	10 ohms resistance and 75 micromicrofarads capacitance.
8364	1000	.3	400	40 ohms resistance.

The noise power present in the output of the receiver when the receiver is adjusted for the reception of type A2 emission on the frequencies 500 kc and 8364 kc shall be determined with an unmodulated input signal of the indicated strength.

(3) The selectivity of the receiver preceding the final detector shall be such that response uniform to within 6 db is obtained over the frequency range 492 to 508 kc.

(4) The audio frequency response of the receiver shall be electrically uniform to within 6 decibels over the range of frequencies between 400 and 1400 cycles per second.

(5) The receiver shall be equipped with only one manually operated volume control.

(d) The power supply shall comply with the following requirements:

(1) The source of power shall be a manually operated electric generator capable of efficiently energizing the lifeboat radio installation. The mechanical power applied to the crank handle(s) or the propelling lever(s) of the generator driving mechanism shall not exceed a maximum of 0.15 horsepower for any required condition of operation of the lifeboat radio installation at any temperature of the generator and its associated driving mechanism between minus 30 degrees and plus 125 degrees Fahrenheit. Under these conditions the speed of rotation of the crank handle(s) shall not be greater than 70 revolutions per minute nor shall the cycles of operation of the propelling lever(s) be greater than 70 cycles per minute. The voltages applied to the radio installation shall not vary from their normal values more than 20 per cent at any generator speed in excess of the normal operating speed which can be manually developed.

(e) The single wire antenna and the collapsible rod antenna or the collapsible mast provided in lieu thereof shall comply with the following requirements:

(1) The collapsible rod antenna shall be of the maximum practicable height as approved by the Commission for each particular type of lifeboat radio apparatus. The collapsible mast provided in lieu of the collapsible rod antenna shall be of the maximum practicable height as approved by the Commission for each particular type of lifeboat radio apparatus and capable of supporting the required single wire antenna.

(2) The single wire antenna shall consist of a length of at least 40 feet of extra-flexible stranded copper wire having a cross-sectional area of not less than 10,000 circular mills together with means for effective insulation of the antenna, means for fastening the wire to the antenna supports, and means for making electrical connection to the transmitter.

(f) The grounding conductor shall comply with the following requirements:

(1) The grounding conductor shall consist of a length of not less than 20 feet of No. 10 bare stranded copper wire or equivalent copper braid effectively weighted at one end for immersion in the sea. This conductor shall be securely fastened to an effective ground terminal on the apparatus.

(g) The artificial antenna shall comply with the following requirements:

(1) The artificial antenna shall provide a reliable load for the transmitter for test purposes, at the frequencies 500 kc and 8364 kc, of approximately the same electrical characteristics as the single wire antenna required by this section.

(2) The artificial antenna shall be housed in a single container and provided with appropriate terminals. If more than two terminals are provided on the artificial antenna, all the terminals shall be properly labeled.

7. Section 8.558 is amended to read as follows:

§ 8.558 *Requirements for lifeboat non-portable radio equipment.* (a) (1) The radio transmitter shall comply with the following requirements:

Operating frequencies (kilocycles)	Frequency tolerance	Type of emission	Modulation percentage (average of modulation percentages of positive and negative peaks)	Modulation frequency	Power output (into specified artificial antenna)	Artificial antenna
	Percent					
500	0.5	A2	Not less than 70.	Not less than 450 nor greater than 1350 cycles per second.	Not less than 30 watts.	10 ohms resistance and 100 micromicrofarads capacitance.
8364	.02	A2	do	do	Not less than 40 watts.	40 ohms resistance.

(2) The transmitter radio frequency and modulation frequency control circuits shall be pretuned to the required frequencies and shall be of such design and construction that the operating frequencies are maintained within the prescribed tolerances under varying voltages, antenna circuit characteristics, and other normal conditions of adjustment. The frequency control circuit adjustment(s) shall be securely locked to prevent detuning as a result of shock or vibration and shall not be readily available to the person using the transmitter.

(3) Controls shall be provided on the operating panel for efficient transfer of radio frequency energy at each required operating radio frequency to the required antenna. An initial adjustment of these controls shall effectively resonate the antenna circuit at each required operating radio frequency and this condition shall be maintained without further adjustment of these controls during a normal operating period of the transmitter.

(4) Simple and reliable controls shall be provided so that the operator of the transmitter can quickly and conveniently place it in use for: Manual operation on 500 kc, manual operation on 8364 kc, and automatic operation alternately on these two frequencies; provided that not more than one manual switch adjustment shall be necessary to place the transmitter in operation for automatic transmission. For manual radiotelegraphy the transmitter and receiver, including their controls, shall be arranged mechanically and electrically so that they can be operated efficiently and conveniently from the same operating position for communication on the required operating frequencies and so that the time necessary to change from transmission to reception, and vice versa, on these frequencies is as short as possible and in no event more than two seconds. For automatic operation provision shall be made as follows:

(i) On 500 kc for transmission of the international alarm signal followed by the international distress signal "S O S", the latter to be transmitted by means of the International Morse Code in one or more groups, each group consisting of three "S O S" signals.

(ii) On 8364 kc for transmission of the international distress signal "S O S" by means of the International Morse Code in one or more groups, each group consisting of three "S O S" signals followed by a dash of not less than 30 seconds in duration.

(iii) For transmission of the specified signals by automatically changing the operating frequency of the transmitter from 500 kc to 8364 kc and vice versa with a transfer time interval not to exceed one second.

(iv) The speed of the automatic transmission of the international distress signal shall be at a rate not in excess of 16 words per minute nor less than 8 words per minute. The alarm signal dashes shall have a duration within the limits of 3.8 to 4.2 seconds and spaces between each of the twelve dashes constituting a series shall have a duration within the limits of 0.8 to 1.2 seconds.

(v) For testing the required automatic keying arrangement without the generation of radio frequency energy.

(5) The transmitter shall be equipped with a radio frequency ammeter of suitable range and scale, connected so as to indicate the current in the antenna circuit for each operating frequency.

(b) The receiver shall comply with the following requirements:

(1) The receiver shall, when used with a head receiver, be capable without manual tuning of receiving A2 emission over the frequency band 492 kc to 508 kc and shall be capable when manually tuned of receiving A1 and A2 emission on any frequency in the band 8266 to 8745 kc.

(2) The sensitivity of the receiver shall be such that at least 1 milliwatt of audio power is developed in a non-inductive load resistor having an ohmic value substantially equal to the value of the impedance of the head receiver at 1.000 cycles per second at a signal to noise power ratio of at least 10 to 1, when the receiver is supplied through the following artificial antennas with the respective radio frequency signals:

Frequency (kilocycles)	Signal strength (microvolts)	Modulation factor	Modulation frequency (cycles per second)	Artificial antenna
500	25	0.3	400	10 ohms resistance and 100 micromicrofarads capacitance.
8364	100	.3	400	40 ohms resistance.

The noise power present in the output of the receiver when the receiver is adjusted for reception of type A2 emission on the frequencies 500 kc and 8364 kc shall be determined with an unmodulated input signal of the indicated strength.

(3) The selectivity of the receiver preceding the final detector shall be such that response uniform to within 6 db is obtained over the frequency range 492 to 508 kc.

(4) The audio frequency response of the receiver shall be electrically uniform to within 6 decibels over the range of frequencies between 400 and 1400 cycles per second.

(5) The receiver shall be equipped with only one manually operated volume control.

(6) The receiver shall be capable of developing a useful audio power for the purpose of the reception of type A2 emission of at least 6 milliwatts into the non-inductive load resistor prescribed in subparagraph (2) of this paragraph.

(c) The power supply shall comply with the following requirements:

(1) The power supply for the transmitter and the receiver shall consist of a storage battery. The necessary power for the transmitter and receiver, at voltages other than the battery voltages may be obtained by the use of a dynamotor or other suitable device approved by the Commission.

(d) The antenna shall comply with the following requirements:

(1) A single wire inverted L-type for use not less than 20 feet above the water line with a horizontal section of the maximum practicable length.

(e) The artificial antenna shall comply with the following requirements:

(1) The artificial antenna shall provide a reliable load for the transmitter for test purposes at the frequencies 500 kilocycles and 8364 kilocycles, of approximately the same electrical characteristics as the antenna required by paragraph (d) (1) of this section.

(2) The artificial antenna shall be housed in a single container and provided with appropriate terminals. If more than two terminals are provided on the artificial antenna, all the terminals shall be properly labeled.

(f) The ground system shall comply with the following requirements:

(1) The radio installation when installed in a metal hull lifeboat shall be effectively grounded to the hull of the lifeboat. This ground connection shall be physically located in a position where it is inaccessible to the normal movement of occupants or accessories in the lifeboat.

(2) The radio installation when installed in a lifeboat having a non-metallic hull shall be effectively grounded to a bare plate and/or strips of a corrosion resistant metal having a total area of at least six square feet and located on the hull of the lifeboat below the waterline.

8. Sections 8.559 and 8.560 are deleted.

9. Add a new § 8.559 to read as follows:

§ 8.559 *Transitional provisions for lifeboat non-portable radio equipment.* Any type of non-portable lifeboat radio equipment which complies with the former requirements of § 8.557 prior to revision [20] of that section effective December 3, 1952, shall be deemed to comply with the requirements of § 8.520 (c) provided the equipment was installed in a motor lifeboat prior to December 3, 1953, and if the equipment meets the following specific requirements from the respective dates set forth:

Requirement	*Date*
Section 8.558 (a) (1): Transmitter requirement that modulation frequency be not less than 450 cycles per second nor greater than 1350 cycles per second, if equipment installed on or after Nov. 19, 1952	Nov. 19, 1952
Section 8.558 (a) (1): Transmitter requirements applicable to transmission on 8364 kc, if equipment installed on or after Nov. 19, 1952	Nov. 19, 1953
Section 8.558 (a) (1): Transmitter requirement that modulation percentage be not less than 70	Nov. 19, 1952
Section 8.558 (a) (4): Transmitter requirements regarding an automatic keying device for operation on 500 kc and, if radio equipment installed on or after Nov. 19, 1952, also for operation on 8364 kc	Nov. 19, 1953
Section 8.558 (b): Receiver requirements regarding reception on frequencies between 8266 and 8745 kc, if equipment installed on or after Nov. 19, 1952	Do.

[20] Copies of former § 8.557 may be secured without charge upon request addressed to Secretary, Federal Communications Commission, Washington 25, D. C.

Requirement	*Date*
Section 8.520 (d) (4): Provision of means for charging the radio battery after the lifeboat is launched, if equipment is installed on or after Nov. 19, 1952	Nov. 19, 1952
Section 8.520 (e): Radio field intensity requirement	Nov. 19, 1954

[F. R. Doc. 52-13111; Filed, Dec. 11, 1952; 8:53 a. m.]

[Docket No. 10237]

PART 12—AMATEUR RADIO SERVICES

OPERATION IN EMERGENCIES

In the matter of amendment of Part 12 of the Commission's rules and regulations to designate specific amateur calling, answering, and emergency frequency bands, and to provide procedure for declaring a communications emergency; Docket No. 10237.

On August 2, 1952, the Commission published a notice of proposed rule making (17 F. R. 8097) which contemplated the addition of a new section to Part 12—Amateur Radio Service (designated as § 12.112) wherein certain small segments of the regularly allocated amateur frequency bands would be set aside, exclusively, as calling and answering frequencies for use in establishing communications contacts, and amendment of § 12.156 of the same part to modernize procedure for declaring a communications emergency, to designate critical areas, and to set forth certain segments of the amateur frequency bands for use, exclusively, in transmitting emergency communications during such communications emergencies. This proposal to amend the amateur rules was made in the light of requests, formal and informal, from different amateur groups that the Commission set aside certain segments of the amateur frequency bands exclusively for the particular type of operation of special interest to each particular group; e. g., one such request was that the segment 29.6 to 29.7 Mc., be set aside exclusively for use of mobile amateur radio stations; another was that the Commission establish special calling and answering frequencies.

The amateurs responded to this notice to the extent that some 640 written comments were received. In addition to submitting written comment, the American Radio Relay League requested oral argument. Another Amateur Radio Association requested a 30-day extension of time for filing comments on the ground that not all amateurs would have adequate opportunity to study the proposed rules and file comments within the period allowed. However, in view of the large number of comments received the requested extension of time was not considered necessary nor would any useful purpose be served by oral argument in view of the disposition the Commission is making of the proposed rules.

The comments received were largely in opposition to adoption of the new rules, particularly § 12.112 which provides for the setting aside of certain segments of the amateur frequency bands, exclusively, for calling and answering purposes. Some objections were also directed to § 12.156 to the extent that it proposed to set forth segments of the amateur frequency bands for transmitting emergency communications and to the extent that it would require the observation of brief listening watches on the frequencies to be set aside for calling and answering. Among the grounds of objection were that to adopt such amendments would complicate, unnecessarily, amateur operating procedures while not accomplishing the intended purpose; would deprive amateurs of considerable frequency space for general amateur communication; and would reduce, substantially, the number of amateurs and amateur stations which otherwise would be available in certain areas for emergency communication or for civil defense operation. It was also contended that many amateurs do not have equipment suitable and necessary for making the frequency shifts required to comply with the proposed rules so that the net result, in all likelihood, would be a loss of frequency space to the amateurs rather than any advantage in establishing contacts.

Study of the content of the opposing comment received leads the Commission to the conclusion that the requests for amendment, heretofore described, clearly represented the views only of the small groups making such requests and that amateurs, generally, and on substantial grounds, are not in favor of such subdivision of the amateur frequency bands. For this reason, the proposed new § 12.112 is being deleted. Comment received, however, indicated that some few amateur groups find it advantageous to use certain calling and answering frequencies. The rules now in effect permit this, and the Commission commends to the attention of the amateur organizations the fact that this may be done on a voluntary basis.

Amateurs who commented unfavorably respecting the proposal to amend § 12.156 to the extent that certain segments of the amateur frequency bands would be set aside, exclusively, for use in transmitting emergency communications during an emergency perhaps were unaware that for the most part the frequencies specified in that proposal have already been set aside in § 12.231 of Subpart B—Rules Governing Radio Amateur Civil Emergency Service, for use by amateurs participating in civil defense communication, and in proposing this amendment, it was the Commission's intention to encourage the development and use of emergency equipment and emergency networks within specified segments of the amateur frequency bands coincident with the Radio Amateur Civil Emergency Service frequency bands. Nevertheless, it may be preferable, as suggested in some of the comments, to delete that part of the proposed amendment of § 12.156, leaving to the Commission's field offices in any stricken area the determination of the frequency band or bands most suitable for use in the particular area concerned. Such procedure would not prevent amateurs interested in civil defense operation from obtaining suitable equipment and developing emergency networks to operate for emergency or civil defense purposes on the frequency band segments set forth in the Rules Governing the Radio Amateur Civil Emergency Service.

Insofar as it relates to establishment of new procedure for declaring a communications emergency, designating the area or areas concerned in such emergency, and prescribing operating procedures respecting the transmission of communications within and to the critical area or areas so designated, no specific opposition was expressed to the proposed amendment of § 12.156.

The Commission considers adoption of that section to the extent specified, essential to the orderly administration of the Amateur Radio Service.

In view of the foregoing considerations and determinations the proposed new § 12.112 is not adopted, but § 12.156 is modified to the extent shown as set forth below. Therefore, pursuant to the authority contained in sections 4 (i), 301, and 303 (c) and (r) of the Communications Act of 1934, as amended:

It is ordered, This 3d day of December 1952, that § 12.156 of Part 12 be and it hereby is amended as set forth below, to become effective on February 2, 1953.

(Sec. 4, 48 Stat. 1066, as amended, 47 U. S. C. 154. Interprets or applies secs. 301, 303; 48 Stat. 1081, 1082, as amended; 47 U. S. C. 301, 303)

Released: December 4, 1952.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] T. J. SLOWIE,
Secretary.

1. Amend § 12.156 to read as follows:

§ 12.156 *Operation in emergencies.* In the event of an emergency disrupting normally available communication facilities in any widespread area or areas, the Commission, in its discretion, may declare that a general state of communications emergency exists, designate the area or areas concerned, and specify the amateur frequency bands, or segments of such bands, for use only by amateurs participating in emergency communication within or with such affected area or areas. Amateurs desiring to request the declaration of such a state of emergency should communicate with the Commission's Regional Manager of the area concerned. Whenever such declaration has been made, operation of and with amateur stations in the area concerned shall be only in accordance with the requirements hereinafter set forth, but such requirements shall in nowise affect other normal amateur communication in the affected area when conducted on frequencies not designated for emergency operation.

(a) All transmissions within all designated amateur emergency communication bands other than communications relating directly to relief work, emergency service, or the establishment and maintenance of efficient amateur radio networks for the handling of such communications, shall be suspended. Incidental calling, answering, testing or working (including casual conversation, remarks or messages) not pertinent to constructive handling of the emergency situation shall be prohibited within these bands.

(b) The Commission may designate certain amateur stations to assist in the promulgation of information relating to the declaration of a general state of communications emergency, to monitor the designated amateur emergency communications bands, and to warn non-complying stations observed to be operating in those bands. Such station, when so designated, may transmit for that purpose on any frequency or frequencies authorized to be used by that station, provided such transmissions do not interfere with essential emergency communications in progress; however, such transmissions shall preferably be made on authorized frequencies immediately adjacent to those segments of the amateur bands being cleared for the emergency. Individual transmissions for the purpose of advising other stations of the existence of the communications emergency shall refer to this section by number (§ 12.156) and shall specify, briefly and concisely, the date of the Commission's declaration, the area and nature of the emergency, and the amateur frequency bands or segments of such bands which constitute the amateur emergency communications bands at the time. The designated stations shall not enter into discussions with other stations beyond furnishing essential facts relative to the emergency, or acting as advisors to stations desiring to assist in the emergency, and the operators of such designated stations shall report fully to the Commission the identity of any stations failing to comply, after notice, with any of the pertinent provisions of this section.

(c) The special conditions imposed under the provisions of this section shall cease to apply only after the Commission, or its authorized representative, shall have declared such general state of communications emergency to be terminated; however, nothing in this paragraph shall be deemed to prevent the Commission from modifying the terms of its declaration from time to time as may be necessary during the period of a communications emergency, or from removing those conditions with respect to any amateur frequency band or segment of such band which no longer appears essential to the conduct of the emergency communications.

PROPOSED RULE MAKING

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

[7 CFR Part 965]

[Docket No. AO–166–A16]

HANDLING OF MILK IN CINCINNATI, OHIO, MARKETING AREA

NOTICE OF HEARING ON PROPOSED AMENDMENTS TO TENTATIVE MARKETING AGREEMENT AND TO ORDER, AS AMENDED

Pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et. seq.) and the applicable rules of practice and procedure, as amended, governing the formulation of marketing agreements and marketing orders (7 CFR Part 900), notice is hereby given of a public hearing to be held in the Rookwood Room, Hotel Sinton, Fourth and Vine Streets, Cincinnati, Ohio, beginning at 10:00 a. m., e. s. t., December 16, 1952, for the purpose of receiving evidence with respect to proposed amendments hereinafter set forth, or appropriate modifications thereof, to the tentative marketing agreement and to the order, as amended, regulating the handling of milk in the Cincinnati, Ohio, marketing area. These proposed amendments were proposed by the Cincinnati Sales Association and have not received the approval of the Secretary of Agriculture.

1. Amend § 965.51 (a) (3) by deleting the words "December, January, and February" and substituting therefor the words "December, January, February, and March".

2. Review the Marketing Service Deductions set out in § 965.75 as "not exceeding 4 cents per hundredweight."

Above proposed amendment numbered 1 raises the question of the appropriate level of the Class I price in March. Proper consideration of this question may involve consideration of the changed relationships between prices in March and in other months. In order to permit a complete consideration of this proposal and all of its ramifications, anyone desiring to give testimony with respect to such proposal or any of the provisions of § 965.51 (a) will be permitted to do so.

Copies of this notice and of the order, as amended, regulating the handling of milk in the Cincinnati, Ohio, marketing area may be obtained from the Market Administrator, Post Office Box 1195, Cincinnati 1, Ohio, or from the Hearing Clerk, Room 1353, South Building, United States Department of Agriculture, Washington 25, D. C., or may be there inspected.

Dated: December 9, 1952.

[SEAL] ROY W. LENNARTSON, *Assistant Administrator.*

NOTICES

DEPARTMENT OF AGRICULTURE

Production and Marketing Administration

PEANUTS

NOTICE OF REDELEGATION OF FINAL AUTHORITY BY LOUISIANA STATE PRODUCTION AND MARKETING ADMINISTRATION COMMITTEE REGARDING MARKETING QUOTA REGULATIONS FOR 1953 CROP

Section 729.432 of the Marketing Quota Regulations for the 1953 Crop of Peanuts (17 F. R. 10611), issued pursuant to the marketing quota provisions of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1301–1376), provides that any authority delegated to the State Production and Marketing Administration Committee by the regulations may be redelegated by the State committee. In accordance with section 3 (a) (1) of the Administrative Procedure Act (5 U. S. C. 1002 (a)), which requires delegations of final authority to be published in the FEDERAL REGISTER, there are set out herein the redelegations of final authority which have been made by the Louisiana State Production and Marketing Administration Committee of authority vested in such committee by the Secretary of Agriculture in the regulations referred to above. Shown below are the sections of the regulations in which such authority appears and the officer or the committee to whom the authority has been redelegated:

LOUISIANA

Sections 729.419, 729.421, 729.422 (a), 729.424 (a), 729.429, and 729.430—Chairman of the State PMA Committee.

Section 729.426 (c)—County PMA Committee.

(Sec. 375, 52 Stat. 66, as amended; 7 U. S. C. 1375. Interpret or apply secs. 301, 358, 359, 361–368, 373, 374; 52 Stat. 38, 62, 65, as amended, 55 Stat. 88, as amended; 66 Stat. 27; 7 U. S. C. 1301, 1358, 1359, 1361–1368, 1373, 1374)

Issued at Washington, D. C., this 9th day of December 1952.

[SEAL] HAROLD K. HILL, *Acting Administrator, Production and Marketing Administration.*

DEPARTMENT OF COMMERCE

Office of International Trade

[Case No. 142]

SKLUT HIDE & FUR CO. AND MORTON SKLUT

ORDER REVOKING AND DENYING LICENSE PRIVILEGES

In the matter of Sklut Hide & Fur Co., Morton Sklut, 236 Liberty Street, Wilmington, Delaware, respondents; Case No. 142.

This proceeding was instituted on December 13, 1951, by the transmission of a charging letter issued by the Investigation Staff, Office of International Trade, to Sklut Hide & Fur Co., Morton Sklut, the treasurer of said company ("Sklut"), and others. Respondents Sklut, after receiving the charging letter, conferred through their counsel with officials of the Office of International Trade, and thereafter submitted to the Office of International Trade, with the advice of and through counsel, a statement dated November 20, 1952, in which they admitted for the purpose of this compliance proceeding only certain charges applicable to them in the said charging letter, waived all rights to a hearing thereon and consented to the entry of an order, the terms of which are set forth below.

The other respondents named in the charging letter, having admitted the charges applicable to them in said charging letter and in other charging letters not related to this proceeding, have consented to an order denying their export privileges, such order having been issued on September 19, 1952 (17 F. R. 8551–8553).

The charges to which respondents have entered their consent allege, in substance, that respondents, acting by and through Morton Sklut, violated the Export Control Act of 1949 (63 Stat. 7) as amended, and the regulations issued thereunder, by executing and filing with the Office of International Trade on January 8, 1951, an application prepared by their customer (the other respondents named in the charging letter) in the name of Sklut Hide & Fur Co. to export 1385 kipskins to a named purchaser in Japan, on which respondents represented and certified they were the sellers-exporters and that they held an order for the kipskins from the Japanese consignee, although knowing they held no order from the Japanese purchaser whatsoever; and that the purpose in permitting the use of the Sklut name on said application was to assist their customer (such other respondents) to obtain a license for the export of such kipskins to such customer's purchaser in Japan whose order such customer held but could not fill because of inability to obtain an export license due to quota allocations established by the Office of International Trade.

The charging letter and above-stated proposal for a consent order have been submitted to the Compliance Commissioner for review and the Compliance Commissioner has also informally reviewed the evidence presented by the Investigation Staff in support of the charges. Upon the basis of such review, the Compliance Commissioner has concluded that the charges applicable to and admitted by respondents are substantiated by the evidence and that the proposed consent order is just and fair and should be approved.

It appears from the Compliance Commissioner's report that respondents' participation in the violation was attributable to a misconception of their relationship with their customer and to the belief that they would in fact be the exporters of the kipskins mentioned in the application.

While the Compliance Commissioner has properly found and his report shows that respondents must be held responsible for their violation, the Compliance Commissioner has pointed out certain extenuating factors applicable to respondents in addition to his conclusion that the violation was not wilful and intentional by respondents. When the respondents were informed of this case, they immediately gave full cooperation to the Office of International Trade in connection with the investigation and also voluntarily surrendered unused the license issued pursuant to the application.

In addition, it appears that respondents have an established reputation for integrity and reliability and that this is the only known instance where they have been charged with a breach of export regulations such as those here involved. It further appears that, although respondents have been engaged in the domestic purchase and sale of hides and skins, their primary business was in connection with the export of raw furs which required no validated licenses and that their inexperience with the regulations relating to validated export licenses and applications therefor was a factor in their violation.

The findings and recommendations of the Compliance Commissioner have been carefully considered together with the above evidentiary material, the charging letter, and the proposal for a consent order, and it appears that such findings are in accordance with the evidence and that such recommendations are reasonable and should be adopted.

Now, therefore, it is ordered as follows:

(1) All outstanding validated licenses held by or issued in the name of respondents Sklut Hide & Fur Co. and Morton Sklut, or either of them, are hereby revoked and shall be forthwith returned to the Office of International Trade for cancellation.

(2) Respondents are hereby denied and declared ineligible to exercise the privileges of obtaining or using export licenses, including validated and general export licenses, for the exportation of any commodity from the United States to any foreign destination, for a period of thirty (30) days from the date of this order. Such denial of export privileges is deemed to include and prohibit participation, directly or indirectly, in any manner or capacity, (a) as a party, or as a representative of a party, to any exportation under validated or general export licenses; and (b) in the financing, forwarding, transporting, or other servicing of exports from the United States pursuant to any validated or general export licenses.

(3) Such denial of export privileges shall extend not only to respondents Sklut Hide & Fur Co. and Morton Sklut but also to any person, firm, corporation, or business organization with which said respondents may be now or hereafter related by ownership or control in the conduct of trade involving exports from the United States under validated and general export licenses, or services connected therewith.

(4) No person, firm, corporation, or other business organization shall knowingly apply for or obtain any license, shipper's export declaration, bill of lading, or other export control document relating to any exportation from the United States under validated and general export licenses, to or for the respondents, or any person, firm, corporation, or other business organization covered by paragraph (3) hereinabove, without prior disclosure of such facts to, and specific authorization from, the Office of International Trade.

Dated: December 8, 1952.

WALLACE S. THOMAS, *Acting Assistant Director for Export Supply.*

FEDERAL POWER COMMISSION

[Docket No E–6384]

MONTANA POWER CO. ET AL.

NOTICE OF ORDER MODIFYING ORDER INSTITUTING AN INVESTIGATION

DECEMBER 8, 1952.

In the matter of the Montana Power Company, Pend Oreille Mines and Metals Company, Puget Sound Power & Light Company, the Washington Water Power Company, Public Utility District No. 1 of Chelan County, Washington, and Public Utility District No. 1 of Pend Oreille County, Washington; Docket No. E–6384.

Notice is hereby given that on December 5, 1952, the Federal Power Commission issued its order entered December 4, 1952, modifying order (17 F. R. 1230–31) instituting an investigation under section 10 (f) of the Federal Power Act in the above-entitled matter.

[SEAL] LEON M. FUQUAY, *Secretary.*

[Docket No. E-6467]

MONTANA POWER CO.

ORDER INSTITUTING AN INVESTIGATION

DECEMBER 2, 1952.

The Montana Power Co. owns and operates six hydroelectric projects on the Missouri River which have not been licensed under the Federal Power Act. These projects and their approximate distances upstream from the mouth of the river are: Hauser (mile 2379), Holter (mile 2351), Black Eagle (mile 2258), Rainbow (mile 2254), Ryan (mile 2249), and Morony (mile 2245).

The Company has recently filed applications for licenses under the act for the Morony, Ryan, and Rainbow projects and expects to file applications for licenses for the other three plants this year.

The United States, through the Bureau of Reclamation, is now constructing the Canyon Ferry project on the Missouri River about 2396 miles above the mouth of the river. This project will have a total water storage capacity of 2,050,000 acre-feet and an installed hydroelectric generating capacity of 50,000 kilowatts.

Pursuant to the provisions of section 10 (f) of the Federal Power Act, the Commission is required to determine and assess headwater improvement benefit charges against the owner of any project directly benefited by a storage reservoir or other headwater improvements constructed by the United States. An investigation will be required before it can be determined whether any of the six company projects designated above will be directly benefited by the Canyon Ferry project now being constructed by the United States, and if so, the amount to be paid to the United States for the benefits so provided.

The Commission finds: It is appropriate and in the public interest that an investigation be instituted by the Commission as hereinafter provided.

The Commission orders: An investigation is hereby instituted pursuant to the provisions of the Federal Power Act, particularly section 10 (f) thereof, for the purpose of enabling the Commission to determine whether any of the above designated projects of the Montana Power Co. will be directly benefited in the future by the construction and operation of the Canyon Ferry project, and if it so finds, to determine the equitable proportion of the estimated annual charges for interest, maintenance and depreciation on the Canyon Ferry project which it is probable the company as owner of the six designated projects may be required to pay annually: *Provided, however,* That any determination made by the Commission prior to the date of initial operation of the Canyon Ferry project may be subject to change after that project is placed in operation.

Date of issuance: December 8, 1952.

By the Commission.

[SEAL] LEON M. FUQUAY, *Secretary.*

[F. R. Doc. 52-13078; Filed, Dec. 11, 1952; 8:45 a. m.]

[Docket No. E-6468]

SOUTH CAROLINA ELECTRIC & GAS CO. AND CITY OF AUGUSTA, GA.

ORDER INSTITUTING AN INVESTIGATION

DECEMBER 2, 1952.

The South Carolina Electric & Gas Company, of Columbia, South Carolina, owns and operates a hydroelectric project, known as Stevens Creek, located on Savannah River about 8.7 river miles above Augusta, Georgia. The City of Augusta, Georgia owns and operates a dam on the Savannah River about 7.5 river miles above the City of Augusta, which dam diverts water through a power canal also owned by the City. Part of this dam is licensed under the Federal Power Act as minor part Project No. 746.

The United States, through the Chief of Engineers and the Secretary of the Army, is now constructing the Clark Hill project on the Savannah River about 21.7 river miles above the City of Augusta in the interest of flood control, navigation and the generation of hydroelectric power. The Clark Hill reservoir will have a usable storage capacity of 1,340,000 acre-feet and will have an installed generating capacity of 280,000 kilowatts. The first generating unit is expected to commence operation in December 1952, and the project is scheduled for completion in 1954.

Pursuant to the provisions of section 10 (f) of the Federal Power Act, the Commission is required to determine and assess headwater improvement benefit charges against the owner of any project directly benefited by a storage reservoir or other headwater improvements constructed by the United States. An investigation will be required before it can be determined whether either of the two projects designated herein as being located downstream from the Clark Hill project will be directly benefited by that project, and if so, the amount to be paid to the United States for the benefits so provided.

The Commission finds: It is appropriate and in the public interest that an investigation be instituted by the Commission as hereinafter provided.

The Commission orders: An investigation is hereby instituted pursuant to the provisions of the Federal Power Act, particularly section 10 (f) thereof, for the purpose of enabling the Commission to determine whether either of the specified projects downstream from the Clark Hill project will be directly benefited in the future by the construction and operation of that project and if it so finds, to determine the equitable proportion of the estimated annual charges for interest, maintenance and depreciation on the Clark Hill project which it is probable the owners of the two projects or either of them may be required to pay annually: *Provided, however,* That any determination made by the Commission prior to the initial date of operation of the Clark Hill project may be subject to change after that project is placed in operation.

Date of issuance: December 8, 1952.

By the Commission.

SMALL DEFENSE PLANTS ADMINISTRATION

[Administrative Order 1, Revised]

ESTABLISHMENT AND OPERATION OF STATE, TERRITORIAL AND REGIONAL ADVISORY BOARDS AND THE NATIONAL ADVISORY BOARD

Pursuant to section 714 (e) (11) of the Defense Production Act of 1950, as amended, the following Administrative Order No. 1, Revised, is hereby issued by the Administrator of the Small Defense Plants Administration.

Sec.
1. Purpose.
2. State, Territorial and Regional Advisory Boards.
3. National Advisory Board.

SECTION 1. *Purpose.* This order restates and amends Administrative Order No. 1 establishing Regional and National Advisory Boards, and describes their organization and functions. This order also establishes and describes the organization and functions of the State and Territorial Advisory Boards.

SEC. 2. *State, Territorial and Regional Advisory Boards*—(a) *Establishment.* There are hereby, or have heretofore been, established 49 State and Territorial Advisory Boards (including Alaska) and 13 Regional Advisory Boards. (A listing of the Regions follows.)

I. Boston.
II. New York.
III. Philadelphia.
IV. Richmond.
V. Atlanta.
VI. Cleveland.
VII. Chicago.
VIII. Minneapolis.
IX. Kansas City.
X. Dallas.
XI. Denver.
XII. San Francisco.
XIII. Seattle.

(b) *Composition of State and Territorial Boards.* (1) Each such State and Territorial Advisory Board shall be composed of persons representative of, and familiar with, small business interests in the state or region. The members of each board shall be appointed by and be responsible to the Administrator and shall serve for a period of one year subject to reappointment. The term of appointment of all Advisory Board Members appointed during or before the calendar year 1952, shall expire on December 31, 1952. Advisory Board Members (with previous service) may be reappointed by the Administrator.

(2) The Chairman of each board shall be the Administrator. Each State and Territorial Advisory Board shall have two or more Vice-Chairmen, one of whom shall be the Regional Director, and the others shall be members of the Board designated by the Administrator. In any state or territory where geographical or other considerations do not make it necessary, there should be but one Vice-Chairman selected from among members of its Board. However, where industrial concentrations are geographically substantially apart, Ketchikan and Anchorage, Seattle and Spokane or Chicago and Springfield, the Administrator may, upon the recommendation of the Regional Director, designate more than one such Vice-Chairmen. The State and Territorial Vice-Chairmen will report to and consult with the Regional Director and other Vice-Chairmen of the Regional Advisory Board.

(c) *Composition of Regional Advisory Boards.* Each such Regional Advisory Board shall be composed of State and Territorial Advisory Board Vice-Chairmen from states or territories within the regional jurisdiction and such other members as may be designated by the Administrator upon the recommendation of such Vice-Chairmen and Regional Directors. Each such Regional Advisory Board shall be composed of persons representative of and familiar with small business interests in the region, and shall serve for a period of one year, subject to reappointment. The term of appointment of all Advisory Board Members appointed during or before the calendar year 1952, shall expire on December 31, 1952. Advisory Board Members with previous service may, in the discretion of the Administrator, be reappointed. The members of each such board shall be appointed by and be responsible to the Administrator. The Chairman of each such Board shall be the Administrator. Each Regional Board shall have two or more Vice-Chairmen, one of whom shall be the Regional Director and the others shall be members of the Board designated by the Administrator as Vice-Chairmen.

(d) *Functions.* The State, Territorial and Regional Advisory Boards shall have the following functions:

(1) Evaluate the programs and policies of government agencies insofar as such programs and policies affect small business concerns within their respective states, territories or regions;

(2) Advise the Administrator, when requested, on the desirability of proposed plans and policies of the Administration as they may affect a particular area;

(3) Propose and submit, when requested, specific plans or suggestions to the Administrator for the solution of specific problems;

(4) Report to the Administrator on business conditions and economic developments in the area; and

(5) Consult and advise with the Administrator on such other matters affecting small business as the Administrator may request.

(e) *Meetings.* (1) Meetings shall be called at such times and places as may be designated by the Administrator: *Provided, however,* That any Vice-Chairman may request the Administrator to call a meeting of that Board. Attendance at meetings shall be restricted to the Chairman and Vice-Chairman, Board members, and such other persons as may be invited by the Administrator. Regional Advisory Boards shall so far as convenient, alternate meetings among states within the region. All Board members shall be invited to attend all meetings of their respective Boards, except that territorial representatives, because of distance and expense, should not ordinarily be asked to travel beyond the confines of their respective territories.

(2) All meetings of the State, Territorial and Regional Advisory Boards will be presided over by the Regional Director or another SDPA employee designated by him.

(3) The Regional Director shall be responsible, subject to the direction of the Administrator, for preparing and distributing the agenda, and keeping full and complete minutes of each meeting, with the members of the Board. Copies of the agenda and minutes of all meetings, together with any plans or recommendations prepared by such Board, shall be forwarded by the Regional Director to the Administrator.

(4) If a member of the State, Territorial, or Regional Advisory Board misses three consecutive meetings he will be removed from the board at the discretion of the Administrator and a new member appointed.

SEC. 3. *National Advisory Board.* (a) There is hereby established a National Advisory Board composed of the Administrator, who shall be Chairman, and the Vice-Chairmen (other than the Regional Director) from each Regional Advisory Board. The National Advisory Board shall consult with and advise the Administrator on such matters as he shall request and shall be responsible to him.

(b) The Administrator or his designee shall preside at all meetings. The Administrator shall designate a member of his staff who shall be present at all meetings, prepare and distribute the agenda for meetings and be responsible for keeping full and complete minutes of each meeting.

(c) Meetings shall be called at such times and places as may be designated by the Administrator. Attendance at meetings shall be restricted to the members of the National Advisory Board and such other persons as may be invited by the Administrator.

[SEAL] JOHN E. HORNE, *Administrator.*

SECURITIES AND EXCHANGE COMMISSION

[File No. 69-105]

J. NEILS LUMBER CO.

NOTICE OF FILING OF APPLICATION FOR EXEMPTION

DECEMBER 8, 1952.

Notice is hereby given that J. Neils Lumber Company ("Neils") has filed an application with this Commission requesting exemption on behalf of itself and its wholly owned subsidiaries, Montana Light & Power Company ("Montana"), a public-utility company, and Klickitat Log & Lumber Company ("Klickitat"), a common carrier railroad, from the provisions of the Public Utility Holding Company Act of 1935 ("act") pursuant to section 3 (a) (3) (A) thereof.

Notice is further given that any interested person may, not later than December 22, 1952, at 5:30 p. m., e. s. t., request the Commission in writing that a hearing be held on such matter, stating the nature of his interest, the reason for such request and the issues, if any, of fact or law raised by said application proposed to be controverted, or may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, 425 Second Street NW., Washington 25, D. C. Said application may be granted at any time after December 22, 1952.

All interested persons are referred to said application which is on file in the offices of the Commission for a statement of the facts contained therein, which are summarized as follows:

The application states that Neils is a Minnesota corporation, engaged primarily in the manufacture of wood products in the States of Montana and Washington and has an executive office in Portland, Oregon. In connection with its wood manufacturing operations in its Libby, Montana and Klickitat, Washington plants, Neils also owns and operates steam electric generating facilities. At Klickitat, electricity generated in excess of the needs for the sawmill and other manufacturing facilities and which normally accounts for 10 percent of the total generated, is supplied and sold to the inhabitants numbering approximately 800 and consisting entirely of company employees and persons servicing such employees. At Libby, Montana, the company supplies a nominal amount of electricity to tenants of company houses and sells the small amount of electricity not needed for this purpose and for its own manufacturing operations or to satisfy the interchange agreement with Montana to a non-affiliate, Mountain States Power Company, which serves the remainder of the inhabitants of Libby.

Montana, which was acquired by Neils in order to provide a source of energy for its Libby plant, owns and operates a hydroelectric generating plant at Troy, Montana, and owns distribution lines in the village of Troy and immediate vicinity. It also owns a high voltage transmission line running from Troy to Libby over which it transmits power to Neils at Libby. Montana sells approximately three quarters of its electric energy supply to Neils, and sells the balance to Zonalite Company, a non-affiliate mining company, and to the inhabitants of Troy and vicinity.

For 1951, Montana reported gross revenues of $202,286, of which $113,415 was derived from sales to Neils, and net income of $64,326. Neils' net sales for 1951 totalled $15,125,555 and its net income for the period amounted to $1,799,542.

By the Commission.

Asbestos Workers

Case C-3047: Halfway from Albuquerque, N. Mex., to Denver, Colo.; building construction only.

Asbestos worker mechanic ---------- $2.6125

Case C-8591: Halfway from Salt Lake City, Utah, to Denver, Colo.; building construction only.

Asbestos worker mechanic ---------- $2.51
Improver:
- First year ---------- 1.65
- Second year ---------- 1.85
- Third year ---------- 2.10
- Fourth year ---------- 2.35

Case C-8768: Halfway from Denver, Colo., and Laramie, Wyo., to Salt Lake City, Utah, Albuquerque, N. Mex., Billings, Mont., Omaha, Nebr., Wichita, Kans., Borger, Tex.; building construction only.

Mechanic ---------- $2.75
Improver:
- First year ---------- 1.83
- Second year ---------- 2.07
- Third year ---------- 2.14
- Fourth year ---------- 2.315

Case C-9058: Halfway from Borger and Amarillo, Tex., to Denver, Colo.; building construction only.

Mechanic ---------- $2.75
Improver:
- Fourth year ---------- 2.15
- Third year ---------- 1.90
- Second year ---------- 1.75
- First year ---------- 1.60

Boilermakers

Case C-8130: Entire State of Colorado; building and heavy construction only.

Master boilermaker ---------- $3.125
Lead mechanic ---------- 3.00
Assistant lead mechanic ---------- 2.875
Boilermaker ---------- 2.75
Boilermaker helper ---------- 2.50

Bricklayers

Case C-6562: Counties of Boulder, Grand, and Jackson; building construction only.

Journeyman bricklayer, block layer, cleaner, caulker and pointer ---------- $3.175

Case C-7601: Counties of Elbert, El Paso, Lincoln, Kit Carson, Cheyenne, Teller, and Park; building construction only.

Journeyman bricklayer, blocklayer, cleaner, caulker and pointer ---------- $3.45

Case C-6087: Counties of Denver, Adams, Arapahoe, Douglas, Jefferson, Clear Creek, and Gilpin; building construction only.

Journeyman bricklayer ---------- $3.45

Case C-5285: Counties of Garfield, Mesa, Delta, Montrose, San Miguel, Ouray, and Gunnison; building construction only.

Journeyman bricklayer ---------- $3.45

Case C-5115: Counties of Pueblo, Crowley, Otoro, Kiowa, Bent, Prowers, Baca, Las Animas, Huerfano, Alamosa, Conejos, and Costilla: building construction only

Journeyman bricklayer ---------- $3.25

Carpenters

Case C-9436: Counties of Rio Grande, Conejos, Costilla, Alamosa, and Saguache; building, heavy and highway construction.

Carpenter ---------- $2.075
Millwright ---------- 2.28

Apprentice:
- First 6 months—50 percent of journeyman wage.
- Second 6 months—55 percent of journeyman wage.
- Third 6 months—60 percent of journeyman wage.
- Fourth 6 months—65 percent of journeyman wage.
- Fifth 6 months—70 percent of journeyman wage.
- Sixth 6 months—75 percent of journeyman wage.
- Seventh 6 months—80 percent of journeyman wage.
- Eighth 6 months—90 percent of journeyman wage.

Foreman 25 cents per hour more than journeyman's rate.

Case C-7244: Denver and area within the territorial jurisdiction of the United Brotherhood of Carpenters and Joiners, Local 2363; building construction only.

Insulation mechanic ---------- $2.20

Case C-7577: All of Boulder County lying west of the North and South Hygiene Road, about 6½ miles west of the eastern county boundary; building construction only.

Journeyman carpenter ---------- $2.50

Case C-8438: Denver and area within the territorial jurisdiction of United Brotherhood of Carpenters and Joiners, Local 55; building construction only.

Journeyman carpenter and millwright ---------- $2.625
Apprentice:

Until the union terms him a journeyman	90

Case C-9303: Counties of Dolores, Montezuma, La Plate, San Juan, Archuleta, Mineral, and that portion of Hinsdale County that lies south of Range line 43 west approximately 10 miles south of parallel 38; building, heavy and highway construction.

Journeyman carpenter and millwright ---------- $2.00
Apprentice:
Percentages of journeyman's rates:
- First 6 months ---------- 50
- Second 6 months ---------- 55
- Third 6 months ---------- 60
- Fourth 6 months ---------- 65
- Fifth 6 months ---------- 70
- Sixth 6 months ---------- 75
- Seventh 6 months ---------- 80
- Eighth 6 months ---------- 85

Case C-8549: Counties of central and western portions of Fremont and northern part of Custer; building construction only.

Journeyman carpenter and joiner ---------- $2.00

Case C-7230: Counties of El Paso, Teller, and parts of Park, Douglas, Elbert, Lincoln, Kit Carson, and Cheyenne; building, heavy and highway construction.

Carpenter foreman ---------- $2.60
Carpenter pusher ---------- 2.475
Journeyman carpenter ---------- 2.35
Apprentice:
- First year ---------- 1.47
- Second year ---------- 1.65
- Third year ---------- 1.80
- Fourth year ---------- 2.075

Case C-8316: County of Larimer; heavy and highway construction only.

Journeyman carpenter ---------- $2.25

Case C-8384: County of Larimer and area within the territorial jurisdiction of United Brotherhood of Carpenters and Joiners, Local 1340; building construction only.

Journeyman carpenter ---------- $2.25

Case C-9445: All of Garfield County except that portion extending west from Grand Valley; all of Rio Blanco County east of Highway 13. All of Pitkin County to and including Aspen and due north to Eagle; Eagle County as far east as Eagle, and north to State Line which includes that portion of Routt County east of Highway 13; building construction only.

Journeyman carpenter ---------- $2.185

Case C-8427: All of Moffat and Rio Blanco Counties lying west of Colorado Highway No. 13; all of Garfield county lying west of Colorado Highway No. 13 and U. S. Highway 6-24; all of Mesa County; that portion of Montrose and Delta Counties lying north and west of a a straight line drawn from Overland Reservoir to Bedrock; building, heavy and highway construction.

Journeyman carpenter and millwright ---------- $2.185
Lead man ---------- 2.32
Foreman ---------- 2.46

Case C-8404: Counties of Lake, Chaffee, and Summit, eastern part of Eagle County between Glenwood Springs and Leadville; western part of Park County (by highway) between Colorado Springs and Leadville; building, heavy and highway construction.

Journeyman carpenter ---------- $2.35
Millwright ---------- 2.60

Case C-9673: Counties of Montrose, Ouray, and San Miguel in their entirety and Delta and Mesa Counties south of a line between Gateway and Overland Reservoir; Delta and Gunnison Counties south and west of a line between Overland Reservoir and Doyleville; Saguache and Hinsdale Counties west of a line between Doyleville and North Creede; Hinsdale and San Juan Counties north of a line between North Creede and Lizard Head Pass; building and heavy construction only.

Carpenter ---------- $2.10

Case C-6617: Counties of Pueblo, Huerfano, and parts of El Paso, Custer, and Fremont; building, heavy and highway construction.

Journeyman carpenter ---------- $2.35
Journeyman millwright ---------- 2.45

Cement Finishers

Case C-8856: Denver and area bounded on the west by the west boundary of Jefferson County; on the north by the north boundary of Jefferson and Adams Counties; on the east by the east line of Township Range 65 West; and on the south by the south line of Township 7 South; building construction only.

Journeyman cement mason ---------- $2.625

Case C-9479:
District "A"—Denver metropolitan area—shall be defined as follows: "That portion of Adams, Arapahoe, Denver, and Jefferson Counties lying within a rectangle whose sides are parallel to Colfax Avenue and to Broadway, and Broadway extended northerly, with the western boundary being 13½ miles west of Broadway and the eastern boundary 13½ miles east of Broadway; the northern side of the rectangular area being 9 miles north of Colfax Avenue, and Colfax Avenue extended westerly, and the southern boundary 12 miles south of Colfax Avenue; and another rectangle adjacent thereto, 3 miles wide north and south, and 6 miles long east and west, extending north to the Boulder County Line and east from the west line of the aforementioned rectangle a distance of 6 miles."

District "B"—Northeastern Colorado area—shall be defined as follows: "All of Sedgwick, Logan, Phillips, Morgan, Washington, Yuma, Clear Creek, and Gilpin Counties; the north half of Kit Carson County (Burlington and north); north third of Lincoln County (Limon and north); north two-thirds of Elbert County; north two-thirds of Douglas County (north of a point halfway between Denver and Colorado Springs); north three-fourths of Jefferson County (except that portion within the Denver metropolitan area as described above); north one-fourth of Park County; south half of Boulder County; south portion of Weld County (south of Greeley); Adams and Arapahoe Counties east and north of the Denver metropolitan area as described above."

District "C"—North Central area—shall be defined as follows: "The north half of Boulder County; the north portion of Weld County (Greeley and north); and all of Summit, Routt, Jackson, Grand, and Larimer Counties"; heavy and highway construction only.

Journeyman cement finisher:
- District "A" ---------- $2.625
- District "B" ---------- 2.55
- District "C" ---------- 2.40

Case C-8516: Pueblo and area within the territorial jurisdiction of Operative Plasterers and Cement Masons International Association; Cement Masons Local 58; building, heavy and highway construction.

Journeyman cement finisher ---------- $2.35
Foreman ---------- 2.60

Electrical Workers

Case C-5613: Colorado Springs and area within the territorial jurisdiction of International Brotherhood of Electrical Workers, Local 113; building and heavy construction only.

Journeyman, construction electrician ---------- $2.52
Foreman, construction electrician ---------- 2.76

Case C-6553: Denver and area within the territorial jurisdiction of International Brotherhood of Electrical Workers, Local 68; building and heavy construction only.

Journeyman electrician	$2.90
Sign hanger, maintenance service man and assembly man	2.79

Case C-6566: Denver and area within the territorial jurisdiction of International Brotherhood of Electrical Workers, Local 68; building and heavy construction only.

Journeyman electrician	$2.90
Foreman	3.15
General foreman	3.40

Case C-9252: Denver and area within the territorial jurisdiction of International Brotherhood of Electrical Workers, Local 111,925, 12 and 113; building and heavy construction only.

All outside industrial and utility construction and maintenance work for the entire State of Colorado:	
Working foreman	$2.79
Cable splicer	2.73
Journeyman lineman	2.62
Apprentice:	
First 6 months	1.75
Second 6 months	1.80
Third 6 months	1.91
Fourth 6 months	2.04
Fifth 6 months	2.15
Sixth 6 months	2.26
Heavy equipment operator	2.34
Truck driver	1.75
Groundman A	1.80
Groundman B	1.64
Powderman and jackhammerman	2.02
Outside industrial work in the Denver metropolitan area within a 15-mile radius of Colfax and Broadway:	
Working foreman	3.01
Cable splicer	2.90
Journeyman lineman	2.80
Apprentice:	
First 6 months	1.86
Second 6 months	1.93
Third 6 months	2.05
Fourth 6 months	2.18
Fifth 6 months	2.30
Sixth 6 months	2.42
Heavy equipment operator	2.48
Truck driver	1.86
Groundman	2.85
Powderman and jackhammerman	2.16

Case C-6393: Fort Collins and area within the territorial jurisdiction of International Brotherhood of Electrical Workers, Local 891; building and heavy construction only.

Journeyman wireman	$2.40

Case C-5511: Counties of Alamosa, Archuleta, Baca, Bent, Chaffee, Conejos, Costilla, Crowley, Custer, Fremont, Huerfano, Kiowa, Las Animas, Mineral, Otero, Prowers, Pueblo, Rio Grande, and Saguache; building and heavy construction only.

Journeyman electrician	$2.61

Case C-7852: Counties of Alamosa, Archuleta, Baca, Bent, Chaffee, Conejos, Costilla, Crowley, Custer, Fremont, Huerfano, Kiowa, Las Animas, Mineral, Otero, Prowers, Pueblo, Rio Grande, and Saguache; building and heavy construction only.

Glass blower and sign hanger	$2.61

Elevator Constructors

Case C-7055: City of Pueblo; building construction only.

Elevator constructor foreman	$2.965
Elevator constructor mechanic	2.635
Elevator constructor helper	1.845

Glaziers

Case C-8446: Cities of Colorado Springs, Manitou Springs, and suburbs of Nob Hill, Broadmoor, and Roswell; building construction only.

Journeyman glazier	$2.10

Case C-9066: Counties of Denver and Pueblo; building construction only.

Journeyman glazier	$2.35

Case C-4997: Counties of Rio Blanco, Garfield, Mesa, Delta, Montrose, Ouray, Eagle, Pitkin, and Gunnison; building, heavy and highway construction.

Journeyman glazier	$1.90

Iron Workers

Case C-4118: 30 miles into the north part of Moffat, Routt, Jackson, Larimer, Weld, Logan, and Sedgwick Counties; building, heavy and highway construction.

Journeyman ornamental ironworker (including fence erector)	$2.45
Journeyman structural ironworker	2.45
Machinery mover, rigger, derrickman	2.45
Journeyman reinforcing ironworker	2.45

Case C-7209: Half way from Salt Lake City, Utah to Denver, Colo.; building, heavy and highway construction.

Ornamental ironworker (including fence erector)	$2.425
Structural iron worker	2.425
Machinery mover, rigger and derrickman	2.425
Reinforcing ironworker	2.35

Case C-5726: Denver and area within the territorial jurisdiction of International Association of Bridge, Structural and Ornamental Iron Workers, Local 24; building construction only.

Journeyman structural iron worker, ornamental iron worker (including fence erector) machinery mover, and rigger and reinforcing iron worker	$2.50

Laborers

Case C-5160: Entire State of Colorado; mainline pipeline construction only.

Laborer (State-wide except Denver County)	$1.40
Laborer (Denver County)	1.45

Case C-8775: Counties of Boulder, Larimer, Weld, and Adams, East of Range 65 West; building construction only.

Power-operated tools such as jackhammer, barco hammer, tamper, vibrator, pavement breaker, spader, hammer and drill, sander and self-propelled buggie	$2.075
Construction labor	1.70
Watchman	1.65

Case C-3532: County of El Paso; building construction only.

Drain layer under 8 inches	$1.75
Air tool operator	1.75
All other building labor	1.50

Case C-5226: Denver, Colo., and area within the territorial jurisdiction of International Hod Carriers, Building and Common Laborers Union, Drainlayers, Local 331; building construction only.

Drainlayer	$1.98
Foreman	2.23
Drainlayer on pipe 8 inches or over	2.23

Case C-8068: Denver area bounded on the west by the west boundary of Jefferson County; on the north by the north boundaries of Jefferson and Adams Counties; on the east by the east line of Township Range 65 West and on the south by the south line of Township 7 South; all in the vicinity of Denver, Colo.; building construction only.

Cement finisher tender, power-operated tool such as jackhammer, barco hammer, tamper vibrator, pavement breaker, spader, hammer and drill, sander and self-propelled concrete buggy	$2.075
Construction labor	1.725
Watchman	1.65

Case C-8847: Area A—Entire State of Colorado; tunnel construction only.

Minimum tunnel labor	$1.70
Concrete labor, chuck tender and nipper, and dumpman (if used)	1.80
Miner, timberman, machineman, vibratorman, powderman, blaster, collapsible form mover and setter	1.95
Gunniting nozzleman and pump concrete placement man and sand blaster	2.15
Shifter	2.25

Area B—All of the State of Colorado, except that portion which includes the city and county of Denver and the area immediately adjacent thereto, described as follows: Metropolitan area of Denver shall be defined as that portion of Adams, Arapahoe, Denver, and Jefferson Counties lying within a rectangle whose sides are parallel to Colfax Avenue and to Broadway, and Broadway extended northerly, with the western boundary being 13½ miles west of Broadway and the eastern boundary 13½ miles east of Broadway; the northern side of the rectangular area being 9 miles north of Colfax Avenue, and Colfax Avenue extended westerly, and the southern boundary 12 miles south of Colfax Avenue, and another rectangle adjacent thereto, 3 miles wide north and south and 6 miles long east and west extending north to the Boulder County line and east from the west line of aforementioned rectangle a distance of 6 miles; heavy, highway and engineering construction only.

Minimum labor, including caisson to 6 feet	$1.55
Chuck tender, nipper, and diamond drill helper	1.60
Air tool operator (jackhammer, vibrator, etc.), spotter, signalman, dump man, and wagon drill operator: laborer, caisson, from 6 to 12 feet and power operated concrete buggies	1.70
Laborer on mainline sewer, water main, gas and oil pipeline, and hot asphalt labor (raker, boxtender)	1.75
Laborer on caissons, over 12 feet and on cofferdam, scaler, blaster, powderman, form setter and timberman	1.85
Pipelayer, over 6" pipe	2.05
Sand blaster	2.05

Case C-5135: City of Grand Junction; counties of Moffat, Routt, Rio Blanco, Garfield, Mesa, Delta, Montrose, San Miguel, Ouray, Dolores, Montezuma, La Plata, San Juan, and Gunnison; building construction only.

Brick tender and mortar mixer	$2.00

Case C-8182: City of Grand Junction; counties of Moffat, Routt, Rio Blanco, Garfield, Mesa, Delta, Montrose, San Miguel, Ouray, Dolores, Montezuma, La Plata, San Juan, and Gunnison; building construction only.

Building construction and general laborer	$1.60
Operator and tender of pneumatic tools, vibrating machines and similar mechanical tools	1.765
Powder man	2.04
Power operated concrete buggy	1.875
Sand blaster (nozzleman)	1.875
Dumpman and spotter	1.60
Reinforcing iron rod handler	1.60
Labor foremen (25 cents per hour more than highest paid man under his supervision).	

Case C-7174: Counties of Alamosa, Archuleta, Baca, Bent, Chaffee, Conejos, Costilla, Crowley, Custer, Fremont, Hinsdale, Huerfano, Kiowa, Las Animas, Mineral, Otero, Prowers, Pueblo, Rio Grande, and Saguache; building construction only.

Powderman	$2.25
Pipe layer (concrete and clay over 6 inches)	2.05
Pipe layer (6 inches or under)	1.90
Dumpman, spotter, signalman	1.90
Asphalt raker, ironer, tamper	1.90
Air, gas and electrical tools (jackhammer vibrator)	1.90
Mortar mixer (wet or dry) 3 hours	1.90
Asbestor or insulator helper	1.90
Cement handler (batch plant)	1.75
Watchman (straight time)	1.65
Operator—concrete power buggie	1.90
Tool room man and checker	1.90
Carrying reenforcing rod	1.65
All other labor	1.65
Plumbing shop labor	1.775
Ditch digger	1.65
Labor foreman (minimum) or 25 cents per hour more than the highest paid under his supervision)	1.90

Lathers

Case C-8124: Half distance by Wichita, Kansas to east; half distance by Cheyenne, Wyoming to north; half distance by Colorado Springs, Colorado to south and half the distance by Salt Lake City, Utah to west; building construction only.

Journeyman lather	$3.30

Marble, Mosaic, and Terrazzo Helpers

Case C-8437: Denver and area within the territorial jurisdiction of International Association of Marble, Slate and Stone Polishers, Rubbers and Sawyers, Tile and Marble Setters Helpers and Terrazzo Workers Helpers, Local 85; building construction only.

Marble, slate and stone polishers, rubbers and sawyers, tile setters, helpers and terrazzo workers helpers	$1.90
Base machine men	2.05

Marble Setters

Case C-8806: Entire State of Colorado; building, heavy and highway construction.

Journeyman marble mechanic	$2.90

Mason and Plasterer Tenders

Case C-8775: Counties of Boulder, Larimer, Weld, and Adams, East of Range 65 West; building construction only.

Mason tender, brick tender, plasterer tender, and cement finisher tender	$2.075

Case C-3532: County of El Paso; building construction only.

Mason tender	$1.75

Case C-8068: City of Denver and area bounded on the west by Jefferson County; on the north by Jefferson and Adams Counties; on the east by Range 65 West; and on the south by the south line of Township 7 South; building construction only.

Mason tender, brick tender, and plasterer tender	$2.075

Case C-9717: Counties of Moffat, Routt, Rio Blanco, Garfield, Mesa, Delta, Montrose, San Miguel, Ouray, Dolores, Montezuma, La Plata, San Juan, and Gunnison; building construction only.

Plaster tender, mortar mixer, men building self-supporting scaffolds to 14 feet and all clean-up men	$2.00

Case C-7174: Counties of Alamosa, Archuleta, Baca, Bent, Chaffee, Conejos, Costilla, Crowley, Custer, Fremont, Hinsdale, Huerfano, Kiowa, Las Animas, Mineral, Otero, Prowers, Pueblo, Rio Grande, and Saguache; building construction only.

Mason tender	$1.90
Mortar mixer (wet or dry) 3 hours	1.90

Mosaic and Terrazzo Workers

C-8806: Entire State of Colorado; building, heavy and highway construction.

Journeyman terrazzo mechanic	$2.90

Operating Engineers

Case C-8181: Entire State of Colorado; building construction only.

Air compressor	$2.46
Asphalt plant	2.46
Bulldozer, scraper	2.46
Shovel, crane, derrick, dragline	2.63
Crushing plant, batch plant	2.46
Distributor (bituminous surface)	2.46
Finishing machine (cement, concrete, pavement)	2.46
Fireman, oiler, and batch plant scale operator	1.85
Industrial motorman	2.46
Hoist (1 drum)	2.46
Hoist (2 or more drums)	2.63
Mechanic, heavy duty	2.46
Mechanic's helper	1.85
Mixer (1 cubic yard or over)	2.63
Mixer (less than 1 cubic yard)	2.46
Motor grader	2.46
Pump	2.46
Roller	2.46
Tournapull	2.46
Tractor, over 35 horsepower	2.46
Tractor, 35 horsepower or less	1.85
Trenching machine	2.46
Drill operator	2.46
Brakeman	1.85

Case C-8679: Entire State of Colorado; heavy and highway construction only.

Denver Metropolitan Area

Air compressor	$2.46
Asphalt plant	2.46
Batch plant	2.46
Blade grader	2.46
Bulldozer	2.46
Crane, derrick, dragline	2.63
Crushing plant	2.46
Distributor (bituminous surface)	2.46
Finishing machine (cement, concrete pavement)	2.46
Fireman, oiler, and batch plant scale operator	1.85
Hoist (1 drum)	2.46
Hoist (2 or more drums)	2 63
Mechanic, heavy duty	2.46
Mechanic, helper	1.85
Mixer (1 cubic yard and over)	2.63
Mixer (less than 1 cubic yard)	2.46
Motor grader	2.46
Pump operator	2.46
Roller	2.46
Scraper	2.46
Shovel, power	2 63
Tournapull	2.46
Tractor, over 35 horsepower	2.46
Tractor, 35 horsepower or less	1.85
Trenching machine	2.46

(Operators of machines not classified above shall be paid comparative rates.)

Remainder of State

Air compressor	$2.35
Asphalt plant	2.35
Batch plant	2.35
Blade grader	2.35
Bulldozer	2.35
Crane, derrick, dragline	2.51
Crushing plant	2.35
Distributor (bituminous surface)	2.35
Finishing machine (cement concrete pavement)	2.35
Fireman, oiler, and batch plant scale operator	1.75
Hoist (1 drum)	2.35
Hoist (2 or more drums)	2.51
Mechanic, heavy duty	2.35
Mechanic, helper	1.75
Mixer (1 cubic yard and over)	2.51
Mixer (less than 1 cubic yard)	2.35
Motor grader	2.35
Pump operator	2.35
Roller	2.35
Scraper	2.35
Shovel, power	2 51
Tournapull	2.35
Tractor, over 35 horsepower	2.35
Tractor, 35 horsepower or less	1 75
Trenching machine	2.35
Haulage motorman	2.08

(Operators of machines not classified above shall be paid comparative rates.)

Tunnel Construction—State of Colorado

Mucking machine operator	$2.51
Mechanic and welder	2.35
Mechanic (machine doctor)	2.35
Pumpcrete operator	2.35
Mixer (1 cubic yard and over)	2.51
Mixer (less than 1 cubic yard)	2.35
Hoist (single-drum)	2.35
Hoist (2-drum)	2.51
Pump operator	2.35
Compressor	2.35
Drill operator	2.35
Haulage motorman	2.08
Brakeman and helper	1.75
Jumbo form operator	2.35

(Engineers for machines not listed shall receive a scale comparable to these classifications.)

Painters

Case C-3243: City of Boulder; building construction only.

Journeyman painter	$2.35

Cases C-4859 and C-4860: Counties of El Paso, Lincoln, and south one-half of Elbert, Douglas, Teller, and Park; building construction only.

Journeyman brush painter and taper	$2.22

Also maintenance of the previously established differentials for other classifications of painter, including carpet and linoleum layers.

Case C-7908: Entire State of Colorado; building construction only.

Journeyman sign painter	$2.64
Card writer and theater display artist	2.29
Helper and junior sketch artist	1.835
Apprentice:	
First year	.865
Second year	1.17
Third year	1.47
Fourth year	1.795
Fifth year	2.105

Case C-1178: Denver and area within the territorial jurisdiction of the Brotherhood of Painters, Decorators and Paperhangers, Local 79; building construction only.

Journeyman painter	$2.39

Case C-7465: Counties of Larimer and Jackson; building construction only.

Journeyman house painter (exterior and interior)	$2.00
Pressure roller painting	2.00

Also maintenance of existing differential for spray gun painting.

Case C-4997: Counties of Rio Blanco, Garfield, Mesa, Delta, Montrose, Ouray, Eagle, Pitkin and Gunnison; building, heavy and highway construction.

Journeyman painter, brush	$1.90
Journeyman painter, spray	2.15
Journeyman painter, swing stage over 30 feet	2.40

Case C-7461: Counties of Pueblo, Crowley, Kiowa, Bent, Prowers, Baca, Las Animas, Fre-

mont, and Huerfano; building construction only.

Journeyman painter, brush	$2.15
Journeyman painter, spray	2.40

Plasterers

Case C-2854: Denver and area within the territorial jurisdiction of Operative Plasterers and Cement Masons International Association, Local 32; building construction only.

Journeyman plasterer	$3.30

Plumbers

Case C-4098: Entire State of Colorado; mainline pipeline construction only.

Journeyman pipe fitter	$2.65
Pipe fitter welder	2.65
Pipe fitter apprentice	[1] 1.35

[1] Or 15 cents per hour over and above the common laborer rate in any given area.

Case C-8546: Entire State of Colorado; building construction only.

Journeyman sprinkler fitter	$2.79

Case C-6277: City of Boulder; building construction only.

Journeyman plumber and pipe fitter	$2.65

Case C-6704: Colorado Springs and surrounding area to include counties of El Paso, Park, Teller; southern half of Douglas and Elbert Counties and all of Lincoln County except all north of Highway 24; building construction only.

Journeyman plumber	$2.625

Case C-4853: Denver and area within the territorial jurisdiction of United Association of Journeymen and Apprentices of the Plumbing and Pipe Fitting Industry, Local 3 and Pipe Fitters Local 208; building construction only.

Journeyman plumber and pipe fitter	$2.82
Foreman (general)	3.243
Foreman (assistant general)	3.1725
Foreman	3.102

Case C-7679: Denver and area within the territorial jurisdiction of United Association of Journeymen and Apprentices of the Plumbing and Pipe Fitting Industry, Local 208; building construction only.

Journeyman refrigeration fitter (service)	$1.95

Apprentice:	Percent
First 6 months	50
Second 6 months	55
Third 6 months	60
Fourth 6 months	65
Fifth 6 months	70
Sixth 6 months	75
Seventh 6 months	80
Eighth 6 months	85
Ninth 6 months	90
Tenth 6 months	95

Case C-8745: City of Greeley and surrounding area within a 10-mile radius; building construction only.

Journeyman plumber and gas fitter	$2.625

Case C-9703: Counties of Alamosa, Archuleta, Baca, Bent, Chaffee, Cheyenne, Conejos, Costilla, Crowley, Fremont, Hinsdale, Huerfano, Kiowa, Mineral, Otero, Prowers, Rio Grande, Saguache, Pueblo, and Custer; building construction only.

Journeyman plumber	$2.75

Case C-9098: Counties of San Miguel, Dolores, La Plata, and Ouray; building construction only.

Plumber and pipe fitter	$2.50

Case C-9099: Counties of Montrose, Gunnison, Mesa, Moffat, Rio Blanco, and Delta; building construction only.

Journeyman plumber and pipe fitter	$2.40

Case C-5036: County of Las Animas; building construction only.

Journeyman plumber and gas fitter	$2.95

Roofers

Case C-8666: Entire State of Colorado; building construction only.

Journeyman roofer	$2.625

Sheet Metal Workers

Case C-4162: City of Colorado Springs; County of El Paso; building construction only.

Journeyman sheet metal worker	$2.35

Case C-7092: Denver and area within the territorial jurisdiction of Sheet Metal Workers' International Association, Local 9, excluding the city of Boulder and vicinity; building construction only.

Journeyman sheet metal worker	$2.625
Foreman	2.953

Case C-8825: Counties of Mesa, Delta, Montrose and Garfield; building construction only.

Journeyman sheet metal worker	$2.21

Stone Masons

Case C-6562: Counties of Boulder, Grand, and Jackson; building construction only.

Journeyman stone mason	$3.175

Case C-7601: Counties of Elbert, El Paso, Lincoln, Kit Carson, Cheyenne, Teller, and Park; building construction only.

Journeyman stone mason	$3.45

Case C-6087: Counties of Denver, Adams, Arapahoe, Douglas, Jefferson, Clear Creek, and Gilpin; building construction only.

Journeyman stone mason	$3.45

Case C-5285: Counties of Garfield, Mesa, Delta, Montrose, San Miguel, Ouray, and Gunnison; building construction only.

Journeyman stone mason	$3.45

Case C-5115: Counties of Pueblo, Crowley, Otero, Kiowa, Bent, Prowers, Baca, Las Animas, Huerfano, Alamosa, Conejos, and Costilla; building construction only.

Journeyman stone mason	$3.25

Soft Floor Layers

Cases C-4259 and C-4860: Counties of El Paso, Lincoln, and South one-half of Elbert, Douglas, Teller, and Park; building construction only.

Journeyman brush painter and taper	$2.22

Also maintenance of the previously established differentials for other classifications of painters, including carpet and linoleum layers.

Case C-5493: Denver and area within the territorial jurisdiction of Brotherhood of Painters, Decorators and Paperhangers, Local 419 (which extends one-half the distance between any city containing regularly constituted Linoleum, Carpet and Soft Tile Layers, Local Union); building construction only).

Journeyman layer	$2.57
Carpet sewer	1.73

Steamfitters

Case C-9703: Counties of Alamosa, Archuleta, Baca, Bent, Chaffee, Cheyenne, Conejos, Costilla, Crowley, Fremont, Hinsdale, Huerfano, Kiowa, Mineral, Otero, Prowers, Rio Grande, Saguache, Pueblo, and Custer; building construction only.

Steamfitter	$2.75

Case C-5036: County of Las Animas; building construction only.

Steamfitter	$2.35

Teamsters

Case C-8104 A: Denver, metropolitan area and that portion of Adams, Arapahoe, Denver, and Jefferson Counties lying within a rectangle whose sides are parallel to Colfax Avenue and to Broadway, and Broadway extended northerly, with the western boundary being 13½ miles west of Broadway and the eastern boundary 13½ miles east of Broadway; the northern side of the rectangular area being 9 miles north of Colfax Avenue, and Colfax Avenue extended westerly, and the southern boundary 12 miles south of Colfax Avenue; and another rectangle adjacent thereto, 3 miles wide north and south, and 6 miles long east and west, extending north to the Boulder County line and east from the west line of aforementioned rectangle a distance of 6 miles; heavy and highway construction only.

Journeyman tile mechanic	$2.90

[F. R. Doc. 52-13118; Filed, Dec. 10, 1952; 10:03 a. m.]

Office of Price Stabilization

[Ceiling Price Regulation 17, Section 11 (d), Special Order No. 6]

ADJUSTMENT OF TANK WAGON CEILING PRICES IN THE WAHKIAKUM COUNTY MARKETING AREA

Statement of considerations. This special order adjusts the ceiling prices for sales of heating oils (Kerosene, No. 1 and 2 Oils, Furnace Oil, Range Oil and Stove Oil) by tank wagon distributors in the Wahkiakum County, Washington, marketing area.

The Office of Price Stabilization was requested to conduct a survey to determine whether increased costs have reduced the net margins of heating oil distributors in the Wahkiakum County, Washington, marketing area below a point sufficient to maintain the level of earnings in the year ending May 31, 1950. The results of that survey show that an upward adjustment is necessary to bring earnings to that level.

There is a large number of heating oil sellers at the tank wagon level in this region and the need for relief is not uniform, but varies from marketing area to marketing area. Thus it is concluded that the adjustment must be on a marketing area basis, rather than on a region-wide basis. For the purpose of this special order the boundaries of the market area have been determined to be the same as the boundaries of Wahkiakum County, Washington.

The adjustment granted by this order does no more than bring earnings to the level of the year ending May 31, 1950. It is therefore consistent with the provisions of section 11 (d) of Ceiling Price Regulation 17.

Special provisions. For the reasons set forth in the Statement of Considerations and pursuant to the provisions of Section 11 (d) of Ceiling Price Regulation 17 and Delegation of Authority No. 72, *It is ordered:*

1. That the ceiling price of heating oil distributors in the Wahkiakum County marketing area for tank wagon sales of heating oils (Kerosene, No. 1 and 2 Oils, Furnace Oil, Range Oil and Stove Oil) to consumers shall be increased by $0.003 per gallon. The Wahkiakum County marketing area is defined as the area within the boundaries of Wahkiakum County, Washington.

2. All provisions of Ceiling Price Regulation 17, except as inconsistent with the provisions of this Order shall remain in full force and effect as to the commodities covered by this Order.

3. This Order may be amended, modified, or revoked at any time.

Effective date. This special order shall become effective on December 10, 1952.

HAROLD WALSH,
Regional Director, Office of Price Stabilization, Region XIII.

DECEMBER 9, 1952.

[F. R. Doc. 52-13090; Filed, Dec. 9, 1952; 12:14 p. m.]

[Ceiling Price Regulation 17, Section 11 (d), Special Order No. 7]

ADJUSTMENT OF TANK WAGON CEILING PRICES IN THE WASCO AND SHERMAN COUNTIES, OREGON, AND KLICKITAT COUNTY, WASHINGTON MARKETING AREA

Statement of considerations. This special order adjusts the ceiling prices for sales of heating oils (Kerosene, No. 1 and 2 Oils, Furnace Oil, Range Oil and Stove Oil) by tank wagon distributors in the marketing area of Wasco and Sherman Counties, Oregon, and Klickitat County, Washington.

The Office of Price Stabilization was requested to conduct a survey to determine whether increased costs have reduced the net margins of heating oil distributors in the above named marketing area below a point sufficient to maintain the level of earnings in the year ending May 31, 1950. The results of that survey show that an upward adjustment is necessary to bring earnings to that level.

There is a large number of heating oil sellers at the tank wagon level in this region and the need for relief is not uniform, but varies from marketing area to marketing area. Thus it is concluded that the adjustment must be on a marketing area basis, rather than on a region-wide basis. For the purpose of this special order the boundaries of the market area have been determined as Wasco and Sherman Counties, Oregon, and Klickitat County, Washington.

The adjustment granted by this order does no more than bring earnings to the level of the year ending May 31, 1950. It is therefore, consistent with the provisions of section 11 (d) of Ceiling Price Regulation 17.

Special provisions. For the reasons set forth in the Statement of Considerations and pursuant to the provisions of section 11 (d) of Ceiling Price Regulation 17 and Delegation of Authority 72, *It is ordered:*

1. That the ceiling price of heating oil distributors in the Wasco and Sherman Counties, Oregon, and Klickitat County, Washington, marketing area for tank wagon sales of heating oils (Kerosene, No. 1 and 2 Oils, Furnace Oil, Range Oil and Stove Oil) to consumers shall be increased by $0.001 per gallon. The Wasco and Sherman Counties, Oregon, and Klickitat County, Washington, marketing area is defined as the area within the boundaries of the respective counties.

2. All provisions of Ceiling Price Regulation 17, except as inconsistent with the provisions of this Order shall remain in full force and effect as to the commodities covered by this Order.

3. This Order may be amended, modified, or revoked at any time.

Effective date. This special order shall become effective on December 10, 1952.

HAROLD WALSH,
Regional Director, Office of Price Stabilization, Region XIII.

[Delegation of Authority No. 43, Revision 1]

DIRECTORS OF THE REGIONAL OFFICES

DELEGATION OF AUTHORITY TO PROCESS APPLICATIONS FOR ADJUSTMENT FILED BY MANUFACTURERS HAVING YEARLY SALES VOLUME OF $1,000,000 OR LESS, UNDER GOR 10

By virtue of the authority vested in me as Director of the Office of Price Stabilization, pursuant to the Defense Production Act of 1950, as amended (64 Stat. 798, 803; 65 Stat. 131; 66 Stat. 296), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2, as amended (16 F. R. 738, 11626), this revised delegation of authority is hereby issued.

1. *Authority to act under GOR 10.* Authority is hereby delegated to the Regional Directors of the Office of Price Stabilization to process and act on applications for adjustments, filed by a manufacturer under GOR 10:

(a) Whose total net sales amounted to $1,000,000 or less for his last complete fiscal year; and

(b) Whose sales of commodities covered by his application are confined largely to the OPS Region in which his principal place of business is located; or

(c) Whose application has been specifically referred for action by the National Office.

2. *Redelegation of authority.* The authority hereby delegated may be redelegated to the Directors of the District Offices of Price Stabilization.

This Revision 1 of Delegation of Authority No. 43 shall take effect on December 12, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

DECEMBER 11, 1952.

[Delegation of Authority No. 76, Revision 1]

DIRECTORS OF THE REGIONAL OFFICES

DELEGATION OF AUTHORITY TO ACT UNDER SECTIONS 6 AND 7 OF THE GCPR

By virtue of the authority vested in me as Director of Price Stabilization, pursuant to the Defense Production Act of 1950, as amended (64 Stat. 798, 803; 65 Stat. 131; 66 Stat. 296), Executive Order 10161 (15 F. R. 6105), and Economic Stabilization Agency General Order No. 2, as amended (16 F. R. 738, 11626), this revised delegation of authority is hereby issued.

1. *Authority to act under sections 6 and 7 of the GCPR.* Authority is hereby delegated to the Directors of the Regional Offices of the Office of Price Stabilization:

(a) To act under sections 6 and 7 of the GCPR, in respect to all matters referred to therein pertaining to applications and reports submitted by manufacturers, wholesalers, retailers, and suppliers of services except as follows:

1. Firms which expect to sell a substantial amount of the commodities covered by their report or application to persons located outside the OPS region in which their principal place of business is located, or

2. Manufacturers whose total gross sales of manufactured commodities amounted to $1,000,000 or more for their last complete fiscal year, or a new manufacturer whose total gross sales of manufactured commodities are expected to reach $1,000,000 or more for their first complete fiscal year;

3. Firms who make a report or application for a group of retail sellers which have uniform ceiling prices in accordance with the provisions of section 12 of the GCPR.

(b) To act on any application or report under sections 6 and 7 of the GCPR, as amended, specifically referred for action by the National Office.

2. *Redelegation of authority.* The authority hereby delegated may be redelegated to the Directors of the District Offices of the Office of Price Stabilization.

This Revision 1 of Delegation of Authority No. 76 shall take effect on December 12, 1952.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

INTERSTATE COMMERCE COMMISSION

[4th Sec. Application 27606]

CRUDE RUBBER FROM BATON ROUGE AND NORTH BATON ROUGE, LA., TO BRISTOL, PA., AND DUNKIRK, N. Y.

APPLICATION FOR RELIEF

DECEMBER 9, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: R. E. Boyle, Jr., Agent, for carriers parties to schedule listed below.

Commodities involved: Crude rubber, carloads.

From: Baton Rouge and North Baton Rouge, La.

To: Bristol, Pa., and Dunkirk, N. Y.

Grounds for relief: Rail competition, circuity, grouping, and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: W. P. Emerson, Jr., Agent, I. C. C. No. 413, Supp. 33.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

[F. R. Doc. 52-13081; Filed, Dec. 11, 1952; 8:46 a. m.]

[4th Sec. Application 27607]

FLY ASH FROM LOUISVILLE, KY., TO OKLAHOMA AND TEXAS

APPLICATION FOR RELIEF

DECEMBER 9, 1952.

The Commission is in receipt of the above-entitled and numbered application for relief from the long-and-short-haul provision of section 4 (1) of the Interstate Commerce Act.

Filed by: F. C. Kratzmeir, Agent, for carriers parties to schedules listed below.

Commodities involved: Fly ash, carloads.

From: Louisville, Ky.

To: Specified points in Oklahoma and Texas.

Grounds for relief: Rail competition, circuity and to apply rates constructed on the basis of the short line distance formula.

Schedules filed containing proposed rates: F. C. Kratzmeir, Agent, I. C. C. No. 3912, Supp. 155; F. C. Kratzmeir, Agent, I. C. C. No. 3899, Supp. 115; F. C. Kratzmeir, Agent, I. C. C. No. 9319, Supp. 134.

Any interested person desiring the Commission to hold a hearing upon such application shall request the Commission in writing so to do within 15 days from the date of this notice. As provided by the general rules of practice of the Commission, Rule 73, persons other than applicants should fairly disclose their interest, and the position they intend to take at the hearing with respect to the application. Otherwise the Commission, in its discretion, may proceed to investigate and determine the matters involved in such application without further or formal hearing. If because of an emergency a grant of temporary relief is found to be necessary before the expiration of the 15-day period, a hearing, upon a request filed within that period, may be held subsequently.

By the Commission.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

PART 607—COTTON

SUBPART—1952 COTTON PRICE SUPPORT PROGRAM

MISCELLANEOUS AMENDMENTS

The regulations issued by Commodity Credit Corporation and the Production and Marketing Administration published in 17 F. R. 4836 and containing the instructions and requirements with respect to the 1952 Cotton Price Support Program is hereby amended as follows:

1. Section 607.340 (a) is amended to provide that loan documents may be forwarded by the custodian to a trust or banking institution for collection, at the request of the holder of a Producer's Equity Transfer, so that amended paragraph (a) reads as follows:

§ 607.340 *Transfer of producer's interest*—(a) *Loans.* If a producer desires to sell his equity in one or more bales of cotton covered by a particular note, he may obtain a Producer's Equity Transfer (CCC Cotton Form AA) covering such bales only from the county committee in the county in which the cotton was produced. The purchaser of the equity will have seven days from the date of the equity transfer in which (1) to pay the amount due on the cotton or (2) to request in writing the custodian (the lending agency or the county committee holding the loan documents) to forward the warehouse receipts to a trust or banking institution for collection. If the warehouse receipts are forwarded to a trust or banking institution for collection, the amount due on the cotton must be repaid within seven days from the date of forwarding of the warehouse receipts. If the amount due is not paid within the ap-

plicable prescribed period, the Producer's Equity Transfer shall be void and of no effect and if the warehouse receipts have been forwarded to a trust or banking institution for collection, such documents shall be returned to the custodian. No partial redemption of cotton listed on a Producer's Equity Transfer will be allowed. A producer may transfer his remaining interest in and right to redeem loan cotton only by the use of the prescribed Producer's Equity Transfer.

* * * * * *

2. Section 607.342 is amended to provide that a State committee may determine a maximum larger than 200 bales to be stored in any farm storage structure so that the amended section reads as follows:

§ 607.342 *Safeguarding farm-storage cotton.* The producer obtaining a farm-storage loan is obligated to maintain the farm-storage structure in good repair and to keep the cotton in good condition. The producer will be responsible for any loss or damage occurring through the fault or negligence of the producer or any other person having control of the storage structure or as a result of any cause other than fire, flood, lightning, explosion, windstorm, cyclone, or tornado, except that he will not be responsible for loss in weight of not to exceed 10 pounds per bale which is due to natural shrinkage. The maximum amount of cotton stored in any structure shall be limited to 200 bales, unless the State committee determines that a larger maximum in the State is required to make the program more effective. The conversion or unlawful disposition by the producer of any bale of the cotton will render him personally liable for the payment of the mortgage indebtedness.

3. Section 607.349 (a) is amended to provide that loan documents may be forwarded by the custodian to a trust or banking institution for collection, at the request of the producer, so that the amended paragraph (a) reads as follows:

§ 607.349 *Repayment of loans and delivery under purchase agreements*—(a) *Loans.* Producers may repay loans at any time prior to maturity and secure the return of their collateral. Partial releases will be allowed. The loan documents will be located at the lending agency which made the loan or at the offices of the county committee in the county in which the cotton was produced. A producer may request in writing the custodian (the lending agency or the county committee holding the loan documents) to forward the warehouse receipts to a trust or banking institution for collection.

* * * * * *

4. Section 607.350 is amended to provide that lending agencies which are not recognized banking institutions or Production Credit Associations may sell notes to lending agencies which are recognized banking institutions for tender to CCC, so that the amended section reads as follows:

§ 607.350 *Purchase of notes.* CCC will purchase from approved lending agencies notes evidencing loans which are secured by negotiable warehouse receipts, bills of lading and chattel mortgages. The purchase price to be paid by CCC will be the principal sums remaining due on such notes, plus an amount computed in accordance with the lending agency agreement to cover interest. Lending agencies are required to submit CCC Form 500 (Revised) or such other form as CCC may prescribe for all payments received on producers' notes and are required to remit to CCC its part of the interest collected, computed in accordance with the lending agency agreement. Lending agencies shall submit notes and reports to the county committee in the county in which the cotton was produced. County committees will purchase notes from lending agencies by drawing sight drafts on CCC. A lending agency which is a recognized banking institution or a Production Credit Association may, if the loan was made by such lending agency, (a) tender loan documents to CCC through the county committee at any time prior

to maturity, (b) maintain its investment in the loan and retain custody of the loan documents, or (c) sell its investment in the loans but retain custody of the loan documents and service the loans in accordance with the provisions of the Lending Agency Agreement. A lending agency which is not a recognized banking institution or Production Credit Association must tender all notes to CCC through the county committee in the county in which the cotton was produced within 15 days from the date of disbursement of the loans or, upon receipt of appropriate instructions from CCC, sell such notes to a lending agency which is a recognized banking institution. The banking institution must tender such notes to CCC through the county committee in the county in which the cotton was produced within 15 days from the date of disbursement of the loans to the producers. Loan documents in which lending agencies have retained their investment until maturity must be tendered to CCC through the county committee in the county in which the cotton was produced within 15 days after the maturity date. Loan documents held pursuant to the servicing feature of the Lending Agency Agreement must also be delivered to the county committee in the county in which the cotton was produced within 15 days after maturity of the loans.

TITLE 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Bureau of Animal Industry, Department of Agriculture

Subchapter D—Exportation and Importation of Animals and Animal Products

[B. A. I. Order 371, Amdt. 3]

PART 95—SANITARY CONTROL OF ANIMAL BYPRODUCTS (EXCEPT CASINGS), AND HAY AND STRAW, OFFERED FOR ENTRY INTO THE UNITED STATES

IMPORTATION FROM CANADA

Pursuant to the authority vested in the Secretary of Agriculture by section 2 of the act of February 2, 1903, as amended (sec. 2, 32 Stat. 792, as amended, 21 U. S. C. 111), § 95.21 of the regulations governing the sanitary control of animal byproducts (except casings), and hay and straw, offered for entry into the United States (9 CFR 95.21), is hereby amended in the following respects:

1. The introductory paragraph of § 95.21 is amended to read:

§ 95.21 *Hay and straw; requirements for unrestricted entry.* Hay or straw which does not meet the conditions or requirements of paragraph (a), (b), (c), or (d) of this section shall not be imported except subject to handling and treatment in accordance with § 95.22 of this Part after arrival at the port of entry.

2. A new paragraph (d) is added to § 95.21 to read as follows:

(d) Hay for use as feeding material may be imported without other restriction from that area in Canada located east of the 85th meridian, west longitude, provided such hay was produced in said area and is transported directly from said area to a port of entry located east of the 85th meridian, west longitude, without passing through any area in Canada located west of the 85th meridian, west longitude.

Because of the critical shortage of hay for feeding purposes in the United States, the welfare of the livestock interests of the United States demands that this amendment be made effective immediately. Accordingly, pursuant to section 4 of the Administrative Procedure Act (5 U. S. C. 1003), it is found upon good cause that notice and public procedure concerning this amendment are impracticable and contrary to the public interest, and good cause is found, under the said section 4, for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER. Such notice and hearing are not required by any other statute.

The foregoing amendment shall become effective upon publication in the FEDERAL REGISTER.

(Sec. 2, 32 Stat. 792, as amended; 21 U. S. C. 111)

Done at Washington, D. C., this 11th of December 1952.

[SEAL] C. J. MCCORMICK,
Acting Secretary of Agriculture.

[F. R. Doc. 52-13194; Filed, Dec. 11, 1952; 12:48 p. m.]

TITLE 14—CIVIL AVIATION

Chapter II—Civil Aeronautics Administration, Department of Commerce

[Amdt. 44]

PART 608—DANGER AREAS

ALTERATIONS

The danger area alterations appearing hereinafter have been coordinated with the civil operators involved, the Army, the Navy, and the Air Force, through the Air Coordinating Committee, Airspace Subcommittee, and are adopted to become effective when indicated in order to promote safety of the flying public. Since a military function of the United States is involved, compliance with the notice, procedures, and effective date provisions of section 4 of the Administrative Procedure Act is not required.

Part 608 is amended as follows:

1. In § 608.14, the Antioch, California, area (D-264), published on July 16, 1949, in 14 F. R. 4288, and amended on October 14, 1950, in 15 F. R. 6908, is further amended by changing the "Designated Altitudes" column to read: "Surface to unlimited".

2. In § 608.14, the Chocolate Mountains, California, area (D-304), published on March 17, 1950, in 15 F. R. 1510, amended on May 2, 1950, in 15 F. R. 2463, and on November 18, 1950, in 15 F. R. 7872, is further amended by changing the "Designated Altitudes" column to read: "Surface to unlimited", and by changing the "Time of Designation" column to read: "Continuous".

3. In § 608.75, the Parker, Colorado, area (D-195), published on July 16, 1949, in 14 F. R. 4289, is amended by changing the "Description by Geographical Coordinates" column to read: "Beginning at lat. 39°41'00" N., long. 104°30'00" W.; SE. to lat. 39°39'00" N., long. 104°26'00" W.; due S. to lat. 39°34'00" N.; due W. to long. 104°40'42" W.; due N. to lat 39°36'30" N.; due W. to long. 104°41'48" W.; due N. to lat. 39°37'30" N.; due E. to long. 104°40'48" W.; due N. to lat. 39°41'00" N.; due E. to lat. 39°41'00" N., long. 104°30'00" W., point of beginning." The "Using Agency" column is amended to read: "Denver NAS, Denver, Colorado."

4. In § 608.36, the Black Rock Desert, Nevada, area (D-266), published on July 16, 1949, in 14 F. R. 4293, is amended by changing the "Designated Altitudes" column to read: "Surface to unlimited", by changing the "Time of Designation" column to read: "Continuous", and by changing the "Using Agency" column to read: "12th Naval District, San Francisco, California."

5. In § 608.36, the Tonopah, Nevada, area (D-271), published on July 16, 1949, in 14 F. R. 4293, amended on March 29, 1951, in 16 F. R. 2720, and on October 31, 1951, in 16 F. R. 11068, is amended by changing the "Description by Geographical Coordinates" column to read: "Beginning at lat. 37°53'00" N., long. 116°11'00" W.; due S. to lat. 37°42'00" N.; due E. to long. 115°53'00" W.; due S. to lat. 37°33'00" N.; due E. to long. 115°48'00" W.; due S. to lat. 37°17'00" N.; due E. to long 115°18'00" W.; due S. to lat. 36°41'00" N.; due W. to long. 115°35'30" W.; due S. to lat. 36°35'00" N.; due W. to long. 115°42'00" W.; due N. to lat. 36°41'00" N.; due W. to long. 115°56'00" W.; due N. to lat. 37°16'00" N.; due W. to long. 116°13'00" W.; due S. to lat. 36°41'00" N.; due W. to long. 116°26'30" W.; due N. to lat. 36°51'00" N.; due W. to long. 116°33'30" W.; N. W. to lat. 37°33'00" N., long. 117°02'00" W.; northerly to lat. 37°53'00" N., long. 117°01'00" W.; due E. to lat. 37°53'00" N., long. 116°11'00" W., point of beginning."

(Sec. 205, 52 Stat. 984, as amended; 49 U. S. C. 425. Interprets or applies sec. 601, 52 Stat. 1007, as amended; 49 U. S. C. 551)

This amendment shall become effective on December 18, 1952.

[SEAL] F. B. LEE,
Acting Administrator of Civil Aeronautics.

[F. R. Doc. 52-13113; Filed, Dec. 12, 1952; 8:45 a. m.]

TITLE 7—AGRICULTURE

Chapter IV—Federal Crop Insurance Corporation, Department of Agriculture

PART 420—MULTIPLE CROP INSURANCE

SUBPART—REGULATIONS FOR THE 1950 AND SUCCEEDING CROP YEARS

The following riders for the 1953 and succeeding crop years are hereby published pursuant to § 420.34, as amended, of the above-identified regulations (14 F. R. 5303, 6787; 15 F. R. 2485, 4161, 9033; 16 F. R. 579, 4300; 17 F. R. 2110, 2385, 5082, 5933, 8206, 10537). Any riders for those counties which have been published previously (14 F. R. 7827; 15 F. R. 2622, 3077, 9271; 16 F. R. 4829, 12111, 12765; 17 F. R. 3265, 3671) are hereby superseded for the 1953 and succeeding crop years.

A Rider No. 1 to the Multiple Crop Insurance Policy for each of the following counties:

[SEAL] JOHN W. BRAINARD,
Manager,
Federal Crop Insurance Corporation.

§ 420.53 *Arkansas.*

§ 420.53-1 *Arkansas County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Arkansas County, Ark., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn normally regarded as field corn, including corn with which soybeans are interplanted. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Cotton, restricted to American upland cotton and not including cotton planted primarily for experimental purposes.

(c) Lespedeza (annual only) for hay or seed, including volunteer lespedeza.

(d) Oats (fall only) planted for harvest as grain. (Insurance on oats to attach the first crop year of the contract only if the application is filed on or before November 30 preceding the calendar year in which the crop for that crop year is normally harvested.)

(e) Rice planted for harvest.

(f) Soybeans planted for harvest as beans, excluding soybeans interplanted in the same row with corn.

2. *Coverage per acre.* (a) The coverage per acre for each insured crop, except cotton, shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for cotton shall be reduced as follows: (1) 60 percent for any acreage which is released by the Corporation because of damage occurring prior to laying by the crop, and (2) 25 percent for any acreage on which the crop is laid by and not harvested.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop, except volunteer lespedeza in which case insurance shall attach on April 1 provided there is a stand at that time sufficient that farmers in the area generally would leave it for harvest the following harvest season. Insurance shall cease with respect to any portion of the hay crop upon baling or stacking, the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), the cotton crop upon picking, all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10 unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Predetermined price for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. The predetermined prices for the 1953 crop year are on file in the county office and for any subsequent crop year shall be on file in the county office at least 15 days prior to the applicable cancellation date. However, any production of corn, oats, rice, or soybeans which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any corn may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. Where vetch is grown with an insured small grain crop all production of vetch shall be counted as pro-

95.21 is amended to read:

duction of such grain crop on a weight basis. Any production of soybeans interplanted in the same row with corn shall not be counted as production.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop except cotton.	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production (on the basis of hay for lespedeza) for such acreage which is in excess of the number of bushels, pounds, or tons determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop except lespedeza and cotton.	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest and an appraisal of corn used for ensilage or fodder.
3. Lespedeza	Acreage not planted to a substitute crop.	The actual production of hay and seed for acreage harvested (except that the Corporation may count the appraised production for seed in place of the hay production for any cutting) and the appraised production (the appraisal for hay or the appraisal for seed, or both, whichever the Corporation elects) for (1) acreage pastured or (2) production not harvested.
4. Cotton	Acreage released by the Corporation because of damage occurring prior to laying by the crop.	That portion of the appraised production which is in excess of the number of pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were harvested and (2) dividing the result thus obtained by the predetermined price.
5. Cotton	Acreage on which the crop is laid by and not harvested.	That portion of the appraised production which is in excess of the number of pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were harvested and (2) dividing the result thus obtained by the predetermined price.
6. Cotton	Acreage harvested	Production, including an appraisal of production left in the field after harvest.
7. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel, pound, or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.
8. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels, pounds, or tons by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel, pound, or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels, pounds, or tons harvested.
9. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels, pounds, or tons by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production and allowances shall be in bushels for corn, oats, and soybeans; pounds for cotton, lespedeza seed, and rice; and tons (rounded to tenths) for hay.

Notwithstanding the other provisiona of this paragraph (a) regarding the determination of the total production of cotton, in any case where the quality of any cotton production is reduced solely by insured causes to the extent that the value per pound, as determined by the Corporation, is less than 75 percent of the predetermined price, the number of pounds of such poor quality cotton shall be adjusted downward to the number of pounds obtained by dividing the total value of such cotton, as determined by the Corporation, by 75 percent of the predetermined price.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*
Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: October 31.

8. *Definitions.* For all purposes under the contract volunteer lespedeza for harvest within the crop year shall be considered to have been planted as of April 1.

In addition to the provisions of section 13 of the policy, any share of an insured crop paid or to be paid for irrigation water shall be considered for the purpose of determining insurance units only, as a part of the share of the insured.

"Harvest" with respect to any acreage of cotton means the removal (by manual or mechanical means) of an amount of cotton from the stalk which is equal in value (based on the predetermined price) to 10 percent or more of the coverage for such acreage.

9. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.55 *Colorado.*

§ 420.55–1 *Conejos County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Conejos County, Colo., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Alfalfa hay (insurance on hay to attach the first crop year of the contract only if the application is filed on or before August 31 preceding the calendar year in which the crop for that crop year is normally harvested).

(b) Barley planted for harvest as grain (insurance on winter barley to attach the first crop year of the contract only if the application is filed on or before August 31 preceding the calendar year in which the crop for that crop year is normally harvested).

(c) Oats planted for harvest as grain (insurance on winter oats to attach the first crop year of the contract only if the application is filed on or before August 31 preceding the calendar year in which the crop for that crop year is normally harvested).

(d) Wheat planted for harvest as grain (insurance on winter wheat to attach the first crop year of the contract only if the application is filed on or before August 31 preceding the calendar year in which the crop for that crop year is normally harvested).

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop except alfalfa in which case insurance shall attach on November 1 (preceding harvest) provided there is a stand at that time sufficient that farmers in the area generally would leave it for harvest the following harvest season. Insurance shall cease with respect to any portion of the hay crop upon baling or stacking, all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Predetermined price for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. The predetermined prices for the 1953 crop year are on file in the county office and for any subsequent crop year shall be on file in the county office at least 15 days prior to the applicable cancellation date. However, any production of barley, oats or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels or tons determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels or tons by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop minus the number of bushels or tons harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels or tons by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production and allowances shall be in bushels for barley, oats, and wheat, and tons (rounded to tenths) for hay.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Irrigated acreage.* (a) In addition to the provisions of section 4 of the policy, the following provisions shall apply: (1) The acreage of insured crops in any year shall not exceed that acreage which can be irrigated adequately with the facilities available and with a supply of irrigation water which reasonably could be expected, taking into consideration the amount of water required to irrigate the acreage of all irrigated crops on the farm. (2) Insurance shall not attach with respect to (i) acreage planted to insurable crops the first year after being leveled, (ii) acreage the first year such acreage is irrigated.

(b) In addition to the causes of loss insured against as shown on the first page of the policy, the contract shall cover loss due to failure of the water supply from natural causes that could not be foreseen and prevented by the insured.

(c) In addition to the causes of loss not insured against as shown in section 8 of the policy, the contract shall not cover loss caused by (1) failure properly to apply irrigation water to any insurable crop in accordance with good farming practices, as determined by the Corporation, and (2) shortage of irrigation water on any farm where the Corporation determines that the total acreage of all irrigated crops on the farm is in excess of that which could be irrigated properly with the facilities available and with the supply of irrigation water which reasonably could be expected.

8. *Date table.*
Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: July 31.

9. *Definitions.* Notwithstanding the provisions of section 24 (d) "crop year" with respect to alfalfa means each 12-month period beginning with the first day of the insurance period and shall be designated by reference to the calendar year in which the crop is normally harvested.

For all purposes under the contract alfalfa for harvest within the crop year shall be considered to have been planted as of the beginning of the insurance period for that crop year.

10. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.55–2 *Morgan County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Morgan County, Colo., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley (spring only) planted for harvest as grain.

(b) Corn planted for grain, silage or fodder but not including sweet corn, popcorn, broom corn, or corn planted for the development of hybrid seed corn. However, corn for fodder will not be insured unless it is planted in time reasonably to expect the corn to mature as grain as determined by the Corporation.

(c) Dry edible beans (Pinto).

(d) Grain sorghums planted for harvest as grain.

(e) Oats (spring only) planted for harvest as grain.

(f) Potatoes (excluding acreage of less than one acre on an insurance unit) commonly known as Irish potatoes.

(g) Wheat planted for harvest as grain. (Insurance on winter wheat to attach the first crop year of the contract only if the application is filed on or before August 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), the potato crop upon digging, all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Predetermined price for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. The predetermined prices for the 1953 crop year are on file in the county office and for any subsequent crop year shall be on file in the county office at least 15 days prior to the cancellation date. However, any production of barley, corn (as set forth below), grain sorghums, oats, potatoes or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or

support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation. In order for corn to be so evaluated for poor quality it must be a variety of corn adapted to the production of corn for grain and must be harvested as grain or fodder. In order to provide quality protection on dry edible beans, production of beans shall be determined on the basis of sound whole beans.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subect to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any grain sorghum may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Production of corn shall be counted as grain, except that production for any corn harvested for silage and the appraised production for any true type silage corn and corn planted thick for silage but not harvested as silage shall be counted as corn silage. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels, pounds or tons determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest and an appraisal of grain sorghums used for ensilage or fodder.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel, pound or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels, pounds or tons by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel, pound or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels, pounds or tons harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels, pounds, or tons by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production and allowances shall be in bushels for barley, corn grain, oats, and wheat, pounds for beans, grain sorghums, and potatoes, and in tons (rounded to tenths) for corn silage.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forefited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forefited by the insured.

7. *Irrigated acreage.* (a) In addition to the provisions of section 4 of the policy, where insurance is written on the basis of irrigated coverage the following provisions shall apply: (1) The acreage of insured crops which shall be insured on an irrigated basis in any year shall not exceed that acreage which can be irrigated adequately with the facilities available and with a supply of irrigation water which could reasonably be expected, taking into consideration the amount of water required to irrigate the acreage of all irrigated crops on the farm; (2) insurance shall not attach with respect to acreage planted to insurable crops (i) the first year after being leveled, or (ii) the first year such acreage is irrigated.

(b) In addition to the causes of loss insured against as shown on the first page of the policy, the contract shall cover loss due to failure of the water supply from natural causes that could not be foreseen and prevented by the insured.

(c) In addition to the causes of loss not insured against as shown in section 8 of the policy, the contract shall not cover loss caused by (1) failure properly to apply irrigation water to any insurable crop in accordance with good farming practices, as determined by the Corporation (2) shortage of irrigation water on any farm where the Corporation determines that the total acreage of all irrigated crops on the farm is in excess of that which could be irrigated properly with the facilities available and with the supply of irrigation water which reasonably could be expected.

8. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: July 31.

9. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.55–3 *Otero County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Otero County, Colo., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley planted for harvest as grain. (Insurance on winter barley to attach the first crop year of the contract only if the application is filed on or before August 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

(b) Corn planted for grain, silage or fodder but not including sweet corn, popcorn, broom corn, or corn planted for the development of hybrid seed corn. However, corn for fodder will not be insured unless it is planted in time reasonably to expect the corn to mature as grain as determined by the Corporation.

(c) Dry edible beans (Pinto).

(d) Dry onions (excluding acreage of less than one acre on an insurance unit) grown from seed.

(e) Grain sorghums planted for harvest as grain.

(f) Oats planted for harvest as grain. (Insurance on winter oats to attach the first crop year of the contract only if the application is filed on or before August 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

(g) Wheat planted for harvest as grain. (Insurance on winter wheat to attach the first crop year of the contract only if the application is filed on or before August 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insured acreage of onions.* In addition to the provisions of section 4 of the policy, for any crop year the Corporation reserves the right to limit the insured acreage of onions on any insurance unit to an acreage not less than the average acreage of onions

which the Corporation determines was planted thereon during the 3-year period immediately preceding such crop year.

4. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), the onion crop upon pulling, all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (1) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

5. *Predetermined price for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. The predetermined prices for the 1953 crop year are on file in the county office and for any subsequent crop year shall be on file in the county office at least 15 days prior to the cancellation date. However, any production of barley, corn, (as set forth below), grain sorghums, oats, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation. In order for corn to be so evaluated for poor quality it must be a variety of corn adapted to the production of corn for grain and must be harvested as grain or fodder. In order to provide quality protection on dry edible beans, production of beans shall be determined on the basis of sound whole beans.

6. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any grain sorghum may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

7. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Production of corn shall be counted as grain, except that production for any corn harvested for silage and the appraised production for any true type silage corn and corn planted thick for silage but not harvested as silage shall be counted as corn silage. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels, pounds, or tons determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest and an appraisal of grain sorghums used for ensilage or fodder.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel, pound, or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels, pounds, or tons by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel, pound, or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels, pounds, or tons harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels, pounds, or tons by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production and allowances shall be in bushels for barley, corn grain, oats and wheat, pounds for beans, grain sorghums and onions, and in tons (rounded to tenths) for corn silage.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

8. *Irrigated acreage.* (a) In addition to the provisions of section 4 of the policy the following provisions shall apply: (1) The acreage of insured crops which shall be insured in any year shall not exceed that acreage which can be irrigated adequately with the facilities available and with a supply of irrigation water which reasonably could be expected, taking into consideration the amount of water required to irrigate the acreage of all irrigated crops on the farm, and (2) insurance shall not attach with respect to acreage planted to insurable crops (i) the first year after being leveled or (ii) the first year such acreage is irrigated.

(b) In addition to the causes of loss insured against as shown on the first page of the policy, the contract shall cover loss due to failure of the water supply from natural causes that could not be foreseen and prevented by the insured.

(c) In addition to the causes of loss not insured against as shown in section 8 of the policy, the contract shall not cover loss caused by (1) failure properly to apply irrigation water to any insurable crop in accordance with good farming practices, as determined by the Corporation, and (2) shortage of irrigation water on any farm where the Corporation determines that the total acreage of all irrigated crops on the farm is in excess of that which could be irrigated properly with the facilities available and with the supply of irrigation water which reasonably could be expected.

9. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: July 31.

10. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.55–4 *Weld County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Weld County, Colo., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley (spring only) planted for harvest as grain.

(b) Corn planted for grain, silage or fodder but not including sweet corn, popcorn, broom corn, or corn planted for the development of hybrid seed corn. However, corn for fodder will not be insured unless it is planted in

time reasonably to expect the corn to mature as grain, as determined by the Corporation.

(c) Dry edible beans (Pinto).

(d) Oats (spring only) planted for harvest as grain.

(e) Potatoes (excluding acreage of less than one acre on an insurance unit) commonly known as Irish potatoes.

(f) Wheat planted for harvest as grain. (Insurance on winter wheat to attach the first crop year of the contract only if the application is filed on or before August 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), the potato crop upon digging, all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Predetermined price for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. The predetermined prices for the 1953 crop year are on file in the county office and for any subsequent crop year shall be on file in the county office at least 15 days prior to the cancellation date. However, any production of barley, corn, (as set forth below), oats, potatoes, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be be evaluated at a value per unit determined by the Corporation. In order for corn to be so evaluated for poor quality it must be a variety of corn adapted to the production of corn for grain and must be harvested as grain or fodder. In order to provide quality protection on dry edible beans, production of beans will be determined on the basis of sound whole beans.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production of such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Production of corn shall be counted as grain, except that any production for any corn harvested for silage and the appraised production for any true type silage corn and corn planted thick for silage but not harvested as silage shall be counted as corn silage. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels pounds, or tons determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production including an appraisal of corn left in the field after harvest.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel, pound, or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels, pounds, or tons by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel, pound, or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels, pounds or tons harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels, pounds, or tons by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production and allowances shall be in bushels for barley, oats and wheat, pounds for beans and potatoes, and in bushels for corn grain or tons (rounded to tenths) for corn silage, whichever is applicable.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Irrigated acreage.* (a) In addition to the provisions of section 4 of the policy, where insurance is written on the basis of irrigated coverage the following provisions shall apply: (1) The acreage of insured crops which shall be insured on an irrigated basis in any year shall not exceed that acreage which can be irrigated adequately with the facilities available and with a supply of irrigation water which reasonably could be expected, taking into consideration the amount of water required to irrigate the acreage of all irrigated crops on the farm, and (2) insurance shall not attach with respect to acreage planted to insurable crops (i) the first year after being leveled or (ii) the first year such acreage is irrigated.

(b) In addition to the causes of loss insured against as shown on the first page of the policy, the contract shall cover loss due to failure of the water supply from natural causes that could not be foreseen and prevented by the insured.

(c) In addition to the causes of loss not insured against as shown in section 8 of the policy, the contract shall not cover loss caused by (1) failure properly to apply irrigation water to any insurable crop in accordance with good farming practices, as determined by the Corporation and (2) shortage of irrigation water on any farm where the Corporation determines that the total acreage of all irrigated crops on the farm is in excess of that which could be irrigated properly with the facilities available and with the supply of irrigation water which reasonably could be expected.

8. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: July 31.

9. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.55–5 *Las Animas County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Las Animas County, Colo., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley planted for harvest as grain. (Insurance on winter barley to attach the first crop year of the contract only if the application is filed on or before August 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

(b) Corn planted for grain, silage or fodder but not including sweet corn, popcorn, broom corn, or corn planted for the development of hybrid seed corn. However, corn for fodder will not be insured unless it is planted in time reasonably to expect the corn to mature as grain as determined by the Corporation.

(c) Dry edible beans. (Pinto.)

(d) Grain sorghums planted for harvest as grain or silage.

(e) Wheat planted for harvest as grain. (Insurance on winter wheat to attach the first crop year of the contract only if the application is filed on or before August 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Protection against loss of quality.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. However, any production of barley, corn, or grain sorghums (as set forth below), or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation. In order for corn or grain sorghums to be so evaluated for poor quality it must be of a variety adapted to the production of grain and must be harvested as grain or fodder. In order to provide quality protection on dry edible beans, production of beans shall be determined on the basis of sound whole beans.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Production of corn shall be counted as grain, except that production for any corn harvested for silage and the appraised production for any true type silage corn and corn planted thick for silage but not harvested as silage shall be counted as corn silage. Production of grain sorghums shall be counted as grain, except that production for any grain sorghums harvested for silage and the appraised production for any grain sorghums not adapted to the production of grain and not harvested as silage shall be counted as silage. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage release by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels, pounds, or tons determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel, pound, or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels, pounds, or tons by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel, pound, or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels, pounds, or tons harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels, pounds, or tons by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production and allowances shall be in bushels for barley and wheat; pounds for beans; bushels for corn grain or in tons (rounded to tenths) for corn silage; and for grain sorghums pounds for grain or in tons (rounded to tenths) for silage.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Irrigated acreage.* (a) In addition to the provisions of section 4 of the policy, where insurance is written on the basis of irrigated coverage the following provisions shall apply: (1) The acreage of insured crops which shall be insured on an irrigated basis in any year shall not exceed that acreage which can be irrigated adequately with the facilities available and with a supply of irrigation water which reasonably could be expected, taking into consideration the amount of water required to irrigate the acreage of all irrigated crops on the farm, and (2) insurance shall not attach with respect to acreage planted to insurable crops, (i) the first year after being leveled or (ii) the first year such acreage is irrigated.

(b) In addition to the causes of loss insured against as shown on the first page of the policy, the contract shall cover loss due to failure of the water supply from natural causes that could not be foreseen and prevented by the insured.

(c) In addition to the causes of loss not insured against as shown in section 8 of the policy, the contract shall not cover loss caused by (1) failure properly to apply irrigation water to any insurable crop in accordance with good farming practices, as determined by the Corporation, and (2) shortage of irrigation water on any farm where the Corporation determines that the total acreage of all irrigated crops on the farm is in excess of that which could be irrigated properly with the facilities available and with the supply of irrigation water which reasonably could be expected.

8. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: July 31.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.57 *Delaware.*

§ 420.57–1 *Kent County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Kent County, Del., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley planted for harvest as grain. (Insurance on barley to attach the first crop year of the contract only if the application is filed on or before October 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

(b) Corn normally regarded as field corn. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(c) Soybeans planted for harvest as beans.

(d) Wheat planted for harvest as grain. (Insurance on wheat to attach the first crop year of the contract only if the application is filed on or before October 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Protection against loss of quality.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. However, any production of barley, corn, soybeans, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

5. *Released crop.* Notwithstanding any other provisions of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any corn may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest and an appraisal of corn used for ensilage or fodder.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for all crops.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: September 30.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.59 *Georgia.*

§ 420.59–4 *Jefferson County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Jefferson County, Ga., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn normally regarded as field corn, including corn with which soybeans or velvetbeans are interplanted. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Cotton, restricted to American upland cotton and not including cotton planted primarily for experimental purposes.

(c) Oats (fall planted only) planted for harvest as grain. (Insurance on oats to attach the first crop year of the contract only if the application is filed on or before November 30 preceding the calendar year in which the crop for that crop year is normally harvested.)

(d) Peanuts, Spanish and Runner planted for harvest as nuts (excluding acreages of less than one acre on an insurance unit).

(e) Winter wheat seeded for harvest as grain. (Insurance on wheat to attach the first crop year of the contract only if the application is filed on or before November 30 preceding the calendar year in which the crop for that crop year is normally harvested.)

2. *Coverage per acre.* (a) The coverage per acre for each insured crop, except cotton, shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for cotton shall be reduced as follows: (1) 60 percent for any acreage which is released by the Corporation because of damage occurring prior to laying by the crop, and (2) 25 percent for any acreage on which the crop is laid by and not harvested.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), the cotton crop upon picking, all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10 unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Predetermined price for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. The predetermined prices for the 1953 crop year are on file in the county office and for any subsequent crop year shall be on file in the county office at least 15 days prior to the cancellation date. However, any production of corn, oats, peanuts or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any corn may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. Where vetch is grown with an insured small grain crop all production of vetch shall be counted as production of such grain crop on a weight basis.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop except cotton.	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels or pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop except cotton.	Acreage not planted to a substitute crop.	The appraised production or the actual production for such acreage, including an appraisal of corn left in the field after harvest and an appraisal of corn used for ensilage or fodder.
3. Cotton	Acreage released by the Corporation because of damage occurring prior to laying by the crop.	That portion of the appraised production for such acreage which is in excess of the number of pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were harvested and (2) dividing the result thus obtained by the predetermined price.
4. Cotton	Acreage on which the crop is laid by and not harvested.	That portion of the appraised production for such acreage which is in excess of the number of pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were harvested and (2) dividing the result thus obtained by the predetermined price.
5. Cotton	Acreage harvested	Production, including an appraisal of production left in the field after harvest.
6. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel or pound equivalent of the coverage per acre on the basis of the predetermined price for the crop.
7. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels or pounds by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel or pound equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels or pounds harvested.
8. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels or pounds by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production and allowances shall be in bushels for corn, oats and wheat; and pounds for cotton and peanuts.

Notwithstanding the other provisions of this paragraph (a) regarding the determination of the total production of cotton, in any case where the quality of any cotton production is reduced solely by insured causes to the extent that the value per pound, as determined by the Corporation, is less than 75 percent of the predetermined price, the number of pounds of such poor quality cotton shall be adjusted downward to the number of pounds obtained by dividing the total value of such cotton, as determined by the Corporation, by 75 percent of the predetermined price.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

8. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: October 31.

9. *Definitions.* "Harvest" with respect to any acreage of cotton means the removal (by manual or mechanical means) of an amount of cotton from the stalk which is equal in value (based on the predetermined price) to 10 percent or more of the coverage for such acreage.

10. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive crop years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.61 *Illinois.*

§ 420.61–1 *Jasper County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Jasper County, Ill., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn normally regarded as field corn. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Soybeans planted for harvest as beans.

(c) Winter wheat planted for harvest as grain. (Insurance on wheat to attach the first crop year of the contract only if the application is filed on or before October 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced

50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Predetermined price for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. The predetermined prices for the 1953 crop year are on file in the county office and for any subsequent crop year shall be on file in the county office at least 15 days prior to the applicable cancellation date. However, any production of corn, soybeans, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any corn may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appeal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest and an appraisal of corn used for ensilage or fodder.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels harvested
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels by which production or such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for all crops.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: September 30.

8. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.61–2 *Hamilton County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Hamilton County, Ill., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn normally regarded as field corn. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Soybeans planted for harvest as beans.

(c) Winter wheat planted for harvest as grain. (Insurance on wheat to attach the first crop year of the contract only if the application is filed on or before October 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Predetermined price for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. The predetermined prices for the 1953 crop year are on file in the county office and for any subsequent crop year shall be on file in the county office at least 15 days prior to the applicable cancellation date. However, any production of corn, soybeans, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any corn may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest and an appraisal of corn used for ensilage or fodder.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for all crops.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: September 30.

8. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance Contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.61–4 *Saline County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Saline County, Ill., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn normally regarded as field corn. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Soybeans planted for harvest as beans.

(c) Winter wheat planted for harvest as grain. (Insurance on wheat to attach the first crop year of the contract only if the application is filed on or before October 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Predetermined price for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. The predetermined prices for the 1953 crop year are on file in the county office and for any subsequent crop year shall be on file in the county office at least 15 days prior to the applicable cancellation date. However, any production of corn, soybeans, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any corn may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest and an appraisal of corn used for ensilage or fodder.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for all crops.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: September 30.

8. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance Contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.61–5 *Wayne County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Wayne County, Ill., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn normally regarded as field corn. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Soybeans planted for harvest as beans.

(c) Winter wheat planted for harvest as grain. (Insurance on wheat to attach the first crop year of the contract only if the application is filed on or before October 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Protection against loss of quality.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. However, any production of corn, oats, soybeans, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation.

5. *Released crop.* Notwithstanding any other provisions of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any corn may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest and an appraisal of corn used for ensilage or fodder.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels harvested.

[1] Production shall be in bushels for all crops.

PRODUCTION SCHEDULE—Continued

Crop	Acreage classification	Total production [1]
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for all crops.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: September 30.

8. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance Contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.62 *Indiana.*

§ 420.62–1 *Hamilton County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Hamilton County, Ind., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn normally regarded as field corn. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Oats planted for harvest as grain.

(c) Soybeans planted for harvest as beans.

(d) Winter wheat planted for harvest as grain. (Insurance to attach the first crop year of the contract only if the application is filed on or before October 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Protection against loss of quality.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. However, any production of corn, oats, soybeans, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation.

5. *Released crop.* Notwithstanding any other provisions of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any corn may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production of such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest and an appraisal of corn used for ensilage or fodder.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for all crops.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: September 30.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.62–2 *Spencer County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Spencer County, Ind., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley planted for harvest as grain.

(b) Corn normally regarded as field corn. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(c) Oats planted for harvest as grain.

(d) Soybeans planted for harvest as beans.

(e) Tobacco—types 31 and 35.

(f) Winter wheat planted for harvest as grain. (Insurance to attach the first crop year of the contract only if the application is filed on or before October 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to (a) any portion of the tobacco crop upon weighing-in at the tobacco warehouse, transfer of interest in the tobacco after harvest, removal of the tobacco from the insurance unit (except for curing, packing or immediate delivery to the tobacco warehouse), or weighing of the tobacco for casing, and (b) any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), all other insured crops upon threshing, or with respect to any portion of any crop (except tobacco) upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to tobacco later than February 28 following harvest, unless such time is extended in writing by the Corporation, (b) with respect to any other crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (c) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Protection against loss of quality.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. However, any production of barley, corn, oats, soybeans or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any corn may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels or pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest and an appraisal of corn used for ensilage or fodder.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel or pound equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels or pounds by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel or pound equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels or pounds harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels or pounds by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for barley, corn, oats, soybeans, and wheat, and pounds for tobacco.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: September 30.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.66, *Louisiana.*

§ 420.66–1, *Lafayette Parish.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Lafayette Parish, La., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn normally regarded as field corn, including corn with which soybeans are interplanted. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Cotton, restricted to American upland cotton and not including cotton planted primarily for experimental purposes.

(c) Rice planted for harvest.

(d) Sugarcane, including acreage harvested for seed, and excluding (i) acreage of less than one acre on an insurance unit and (ii) acreage on which three successive crops have been harvested from one planting. (Insurance on sugarcane to attach the first crop year of the contract only if the application is filed on or before November 30 immediately preceding the closing date for that crop year.)

(e) Sweet potatoes (excluding acreage of less than one acre on an insurance unit).

2. *Coverage per acre.* (a) The coverage per acre for each insured crop, except cotton, shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for cotton shall be reduced as follows: (1) 60 percent for any acreage which is released by the Corporation because of damage occurring prior to laying by the crop, and (2) 25 percent for any acreage on which the crop is laid by and not harvested.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), the cotton crop upon picking, the rice crop upon threshing, the sugarcane crop upon cutting, the sweet potato crop upon digging, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10 (January 31 following the normal time of harvest for sugarcane) unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Predetermined price for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. The predetermined prices for the 1953 crop year are on file in the county office and for any subsequent crop year shall be on file in the county office at least 15 days prior to the cancellation date. However, any production of corn or rice which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any corn may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop except cotton.	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels, pounds, or tons determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitue crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop except cotton.	Acreage not planted to a substitute crop.	The appraised production or the actual production including an appraisal of corn and sweet potatoes left in the field after harvest and an appraisal of corn used for ensilage or fodder.
3. Cotton	Acreage released by the Corporation because of damage ocurring prior to laying by the crop.	That portion of the appraised production which is in excess of the number of pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were harvested and (2) dividing the result thus obtained by the predetermined price.
4. Cotton	Acreage on which the crop is laid by and not harvested.	That portion of the appraised production which is in excess of the number of pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were harvested and (2) dividing the result thus obtained by the predetermined price.
5. Cotton	Acreage harvested	Production, including an appraisal of production left in the field after harvest.
6. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel, pound, or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.
7. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels, pounds, or tons by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel, pound, or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels, pounds, or tons harvested.
8. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels, pounds, or tons by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production and allowances shall be in bushels for corn and sweet potatoes, pounds for cotton and rice, and tons (rounded to tenths), for sugarcane. If any part of the sugarcane production from the insurance unit is processed for sugar, the total number of tons of sugarcane shall be adjusted to standard sugarcane (as determined in accordance with regulations issued by the U. S. Department of Agriculture for the crop year involved).

Notwithstanding the other provisions of this paragraph (a) regarding the determination of the total production of cotton, in any case where the quality of any cotton production is reduced solely by insured causes to the extent that the value per pound, as determined by the Corporation, is less than 75 percent of the predetermined price, the number of pounds of such poor quality cotton shall be adjusted downward to the number of pounds obtained by dividing the total value of such cotton, as determined by the Corporation, by 75 percent of the predetermined price.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: October 31.

8. *Definitions.* (a) "County" means parish in Louisiana.

(b) For all purposes under the contract sugarcane for harvest within the crop year shall be considered to have been planted as follows: (1) the first crop from seed, on the date the planting operation is actually accomplished, and (2) second and third year crops on November 1 preceding the calendar year in which the crop is normally harvested.

(c) "Harvest" with respect to any acreage of cotton means the removal (by manual or mechanical means) of an amount of cotton from the stalk which is equal in value (based on the predetermined price) to 10 percent or more of the coverage for such acreage.

9. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over

indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.66–4 *St. Martin Parish.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in St. Martin Parish, La., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn normally regarded as field corn, including corn with which soybeans are interplanted. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Cotton, restricted to American upland cotton and not including cotton planted primarily for experimental purposes.

(c) Rice planted for harvest.

(d) Sugarcane, including acreage harvested for seed, and excluding (i) acreage of less than one acre on an insurance unit and (ii) acreage on which three successive crops have been harvested from one planting. (Insurance on sugarcane to attach the first crop year of the contract only if the application is filed on or before November 30 immediately preceding the closing date for that crop year.)

(e) Sweet potatoes (excluding acreage of less than one acre on an insurance unit).

2. *Coverage per acre.* (a) The coverage per acre for each insured crop, except cotton, shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for cotton shall be reduced as follows: (1) 60 percent for any acreage which is released by the Corporation because of damage occurring prior to laying by the crop and (2) 25 percent for any acreage on which the crop is laid by and not harvested.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), the cotton crop upon picking, the rice crop upon threshing, the sugarcane crop upon cutting the sweetpotato crop upon digging, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (1) the end of the normal harvest period for such crop or (ii) December 10 (January 31 following the normal time of harvest for sugarcane) unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Protection against loss of quality.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. However, any production of corn or rice which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any corn may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop except cotton	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels, pounds, or tons determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop except cotton	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn and sweetpotatoes left in the field after harvest and an appraisal of corn used for ensilage or fodder.
3. Cotton	Acreage released by the Corporation because of damage occurring prior to laying by the crop.	That portion of the appraised production which is in excess of the number of pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were harvested and (2) dividing the result thus obtained by the predetermined price.
4. Cotton	Acreage on which the crop is laid by and not harvested.	That portion of the appraised production which is in excess of the number of pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were harvested and (2) dividing the result thus obtained by the predetermined price.
5. Cotton	Acreage harvested	Production, including an appraisal of production left in the field after harvest.
6. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel, pound, or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.
7. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels, pounds, or tons by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel, pound, or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels, pounds, or tons harvested.
8. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels, pounds, or tons by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production and allowances shall be in bushels for corn and sweet potatoes, pounds for cotton and rice, and tons (rounded to tenths), for sugarcane. If any part of the sugarcane production from the insurance unit is processed for sugar, the total number of tons of sugarcane shall be adjusted to standard sugarcane (as determined in accordance with regulations issued by the U. S. Department of Agriculture for the crop year involved).

Notwithstanding the other provisions of this paragraph (a) regarding the determination of the total production of cotton, in any case where the quality of any cotton production is reduced solely by insured causes to the extent that the value per pound, as determined by the Corporation, is less than 75 percent of the predetermined price, the number of pounds of such poor quality cotton shall be adjusted downward to the number of pounds obtained by dividing the total value of such cotton, as determined by the Corporation, by 75 percent of the predetermined price.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: October 31.

8. *Definitions.* (a) "County" means parish in Louisiana.

(b) For all purposes under the contract sugarcane for harvest within the crop year shall be considered to have been planted as follows: (1) the first crop from seed, on the date the planting operation is actually accomplished, and (2) second and third year crops on November 1 preceding the calendar year in which the crop is normally harvested.

(c) "Harvest" with respect to any acreage of cotton means the removal (by manual or mechanical means) of an amount of cotton from the stalk which is equal in value (based on the predetermined price) to 10 percent or more of the coverage for such acreage.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.66–5 *Vermilion Parish.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Vermilion Parish, La., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn normally regarded as field corn, including corn with which soybeans are interplanted. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Cotton, restricted to American upland cotton and not including cotton planted primarily for experimental purposes.

(c) Rice planted for harvest.

(d) Sugarcane, including acreage harvested for seed, and excluding (i) acreage of less than one acre on an insurance unit and (ii) acreage on which three successive crops have been harvested from one planting. (Insurance on sugarcane to attach the first crop year of the contract only if the application is filed on or before November 30 immediately preceding the closing date for that crop year.)

(e) Sweetpotatoes (excluding acreage of less than one acre on an insurance unit).

2. *Coverage per acre.* (a) The coverage per acre for each insured crop, except cotton, shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for cotton shall be reduced as follows: (1) 60 percent for any acreage which is released by the Corporation because of damage occurring prior to laying by the crop and (2) 25 percent for any acreage on which the crop is laid by and not harvested.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), the cotton crop upon picking, the rice crop upon threshing, the sugarcane crop upon cutting, the sweet potato crop upon digging, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (1) the end of the normal harvest period for such crop or (ii) December 10 (January 31 following the normal time of harvest for sugarcane) unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Protection against loss of quality.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. However, any production of corn or rice which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any corn may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield..

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop except cotton.	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels, pounds, or tons, determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop except cotton.	Acreage not planted to a substitute crop.	The appraised production of the actual production, including an appraisal of corn and sweet potatoes left in the field after harvest and an appraisal of corn used for ensilage or fodder.
3. Cotton	Acreage released by the Corporation because of damage occurring prior to laying by the crop.	That portion of the appraised production which is in excess of the number of pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were harvested and (2) dividing the result thus obtained by the predetermined price.
4. Cotton	Acreage on which the crop is laid by and not harvested.	That portion of the appraised production which is in excess of the number of pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were harvested and (2) dividing the result thus obtained by the predetermined price.
5. Cotton	Acreage harvested	Production, including an appraisal of production left in the field after harvest.
6. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel, pound, or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.
7. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels, pounds, or tons by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel, pound or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels, pounds or tons harvested.
8. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels, pounds, or tons by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production and allowances shall be in bushels for corn and sweet potatoes, pounds for cotton and rice, and tons (rounded to tenths), for sugarcane. If any part of the sugarcane production from the insurance unit is processed for sugar, the total number of tons of sugarcane shall be adjusted to standard sugarcane (as determined in accordance with regulations issued by the U. S. Department of Agriculture for the crop year involved).

Notwithstanding the other provisions of this paragraph (a) regarding the determination of the total production of cotton, in any case where the quality of any cotton production is reduced solely by insured causes to the extent that the value per pound, as determined by the Corporation, is less than 75 percent of the predetermined price, the number of pounds of such poor quality cotton shall be adjusted downward to the number of pounds obtained by dividing the total value of such cotton, as determined by the Corporation, by 75 percent of the predetermined price.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: October 31.

8. *Definitions.* (a) "County" means parish in Louisiana.

(b) For all purposes under the contract sugarcane for harvest within the crop year shall be considered to have been planted as follows: (1) the first crop from seed, on the date the planting operation is actually accomplished, and (2) second and third year crops on November 1 preceding the calendar year in which the crop is normally harvested.

(c) "Harvest" with respect to any acreage of cotton means the removal (by manual or mechanical means) of an amount of cotton from the stalk which is equal in value (based on the predetermined price) to 10 percent or more of the coverage for such acreage.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.70 *Michigan.*

§ 420.70–1 *Gratiot County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Gratiot County, Mich., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley planted for harvest as grain.

(b) Corn planted for grain, silage or fodder but not including sweet corn, popcorn, broom corn, or corn planted for the development of hybrid seed corn. However, corn for fodder will not be insured unless it is planted in time reasonably to expect the corn to mature as grain as determined by the Corporation.

(c) Dry edible beans (Pea and medium white).

(d) Oats planted for harvest as grain.

(e) Soybeans planted for harvest as beans.

(f) Winter wheat planted for harvest as grain. (Insurance to attach the first crop year of the contract only if the application is filed on or before October 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (1) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Protection against loss of quality.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. However, any production of barley, corn (as set forth below), oats, soybeans, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation. In order for corn to be so evaluated for poor quality it must be a variety of corn adapted to the production of corn for grain and must be harvested as grain or fodder. In order to provide quality protection on dry edible beans, production of beans shall be determined on the basis of sound whole beans.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Production of corn shall be counted as grain, except that production for any corn harvested for silage and the appraised production for any true type silage corn and corn planted thick for silage but not harvested as silage shall be counted as corn silage. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels, pounds, or tons determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production including an appraisal of corn left in the field after harvest.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel, pound, or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels, pounds or tons by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel, pound or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels, pounds or tons harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels, pounds or tons by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for barley, oats, soybeans and wheat, pounds for beans, and in bushels for corn grain or in tons (rounded to tenths) for corn silage, whichever is applicable.

(b) If the production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.70–2 *Kent County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Kent County, Mich., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Alfalfa hay, including any mixture of alfalfa and brome. (Insurance on hay to attach the first crop year of the contract only if the application is filed on or before October 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

(b) Clover hay, including any mixture of clover and timothy. (Insurance on hay to attach the first crop year of the contract only if the application is filed on or before October 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

(c) Corn planted for grain, silage or fodder but not including sweet corn, popcorn, broom corn, or corn planted for the development of hybrid seed corn. However, corn for fodder will not be insured unless it is planted in time reasonably to expect the corn to mature as grain as determined by the Corporation.

(d) Dry edible beans (pea, medium white, red kidney, cranberry, and yellow eye).

(e) Oats planted for harvest as grain.

(f) Winter wheat planted for harvest as grain. (Insurance to attach the first crop year of the contract only if the application is filed on or before October 31 preceding the calendar year in which the crop for that crop year is normally harvested.

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop except hay, in which case insurance shall attach on November 1 (preceding harvest) provided there is a stand on that date sufficient that farmers in the area generally would leave it for harvest the following harvest season. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), the hay crop upon baling or stacking, all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Predetermined price for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. The predetermined prices for the 1953 crop year are on file in the county office and for any subsequent crop year shall be on file in the county office at least 15 days prior to the cancellation date. However, any production of corn (as set forth below), oats or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. In order for corn to be so evaluated for poor quality it must be a variety of corn adapted to the production of corn for grain and must be harvested as grain or fodder. In order to provide quality protection on dry edible beans, production of beans shall be determined on the basis of sound whole beans. The Corporation will value any hay it determines to be unfit for feed due to insurable causes at such price as it deems to be the market value.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Production of corn shall be counted as grain, except that production for any corn harvested for silage and the appraised production for any true type silage corn and corn planted thick for silage but not harvested as silage shall be counted as corn silage. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels, pounds or tons determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production including an appraisal of corn left in the field after harvest.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel, pound or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels, pounds or tons by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel, pound or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels, pounds or tons harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels, pounds or tons by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production and allowances shall be in bushels for oats and wheat, pounds for beans, tons (rounded to tenths) for hay, and in bushels for corn grain or in tons (rounded to tenths) for corn silage, whichever is applicable.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: September 30.

8. *Definitions.* Notwithstanding the provisions of Section 24 (d) of the policy "crop year" with respect to hay means each 12-month period beginning with the first day of the insurance period and shall be designated by reference to the calendar year in which the crop is normally harvested.

For all purposes under the contract hay for harvest within the crop year shall be considered to have been planted as of the beginning of the insurance period for that crop year.

9. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.70–3 *Montcalm County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Montcalm County, Mich., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn planted for grain, silage or fodder but not including sweet corn, popcorn, broom corn, or corn products for the development of hybrid seed corn. However, corn for fodder will not be insured unless it is planted in time reasonably to expect the corn to mature as grain as determined by the Corporation.

(b) Dry edible beans (pea, medium white, red kidney, cranberry, and yellow eye).

(c) Oats planted for harvest as grain.

(d) Potatoes (excluding acreages of less than one acre on an insurance unit) commonly known as Irish Potatoes.

(e) Winter wheat planted for harvest as grain. (Insurance to attach the first crop

year of the contract only if the application is filed on or before October 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), the potato crop upon digging, all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (1) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Protection against loss of quality.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. However, any production of corn (as set forth below), oats, potatoes, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation. In order for corn to be so evaluated for poor quality it must be a variety of corn adapted to the production of corn for grain and must be harvested as grain or fodder. In order to provide quality protection on dry edible beans, production of beans shall be determined on the basis of sound whole beans.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Production of corn shall be counted as grain, except that production for any corn harvested for silage and the appraised production for any true type silage corn and corn planted thick for silage but not harvested as silage shall be counted as corn silage. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels, pounds or tons determined by (i) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel, pound or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels, pounds or tons by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel, pound or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels, pounds or tons harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels, pounds or tons by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for oats and wheat, pounds for beans and potatoes, and in bushels for corn grain or in tons (rounded to tenths) for corn silage, whichever is applicable.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Irrigated acreage.* (a) In addition to the provisions of section 4 of the policy, the following provisions shall apply. The acreage of potatoes which shall be insured on an irrigated basis in any year shall not exceed that acreage which can be irrigated adequately with the facilities available and with the supply of irrigation water which could reasonably be expected, taking into consideration the amount of water required to irrigate the acreage of all irrigated crops on the farm. Any insurable acreage of potatoes on which the irrigation requirements of this paragraph are not met will be insured on the basis of non-irrigated coverage.

(b) In addition to the causes of loss not insured against as shown in section 8 of the policy, the contract shall not cover loss caused by (1) failure properly to apply irrigation water to potatoes in accordance with good farming practices, as determined by the Corporation, and (2) shortage of irrigation water.

8. *Date table.*

Discount date: June 30.

In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels, pounds or tons determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel, pound or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels, pounds or tons by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel, pound or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels, pounds or tons harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels, pounds or tons by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for barley, oats and wheat, pounds for potatoes, and in bushels for corn grain or tons (rounded to tenths) for corn silage.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*
Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: September 30.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.70–6 *Lapeer County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Lapeer County, Mich., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley planted for harvest as grain.

(b) Corn planted for grain, silage or fodder but not including sweet corn, popcorn, broom corn, or corn planted for the development of hybrid seed corn. However, corn for fodder will not be insured unless it is planted in time reasonably to expect the corn to mature as grain as determined by the Corporation.

(c) Dry edible beans (pea and medium white).

(d) Oats planted for harvest as grain.

(e) Potatoes (excluding acreage of less than one acre on an insurance unit) commonly known as Irish Potatoes.

(f) Winter wheat planted for harvest as grain. (Insurance to attach the first crop year of the contract only if the application is filed on or before October 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), the potato crop upon digging, all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Protection against loss of quality.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. However, any production of barley, corn, (as set forth below), oats, potatoes, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation. In order for corn to be so evaluated for poor quality it must be a variety of corn adapted to the production of corn for grain and must be harvested as grain or fodder. In order to provide quality protection on dry edible beans, production of beans shall be determined on the basis of sound whole beans.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Production of corn shall be counted as grain, except that production for any corn harvested for silage and the appraised production for any true type silage corn and corn planted thick for silage but not harvested as silage shall be counted as corn silage. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels, pounds or tons determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel, pound or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels, pounds or tons by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel, pound or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels, pounds or tons harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels, pounds or tons by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for barley, oats, and wheat, pounds for beans and potatoes, and in bushels for corn grain or tons (rounded to tenths) for corn silage.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*
Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: September 30.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.71 *Minnesota.*

§ 420.71–9 *Sherburne County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Sherburne County, Minn., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

No. 243——4

duction of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. However, any production of corn, oats, soybeans, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any corn may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest and an appraisal of corn used for ensilage or fodder.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for all crops.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the Insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*
Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: September 30.

8. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 153 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.73 *Missouri.*

§ 420.73–2 *Knox County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Knox County, Mo., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn normally regarded as field corn. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Oats planted for harvest as grain.

(c) Soybeans planted for harvest as beans.

(d) Winter wheat planted for harvest as grain.

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Protection against loss of quality.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. However, any production of corn, oats, soybeans, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any corn may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE—Continued

Crop	Acreage classification	Total production [1]
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest and an appraisal of corn used for ensilage or fodder.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for all crops.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the Insurance on the insurance units involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*
Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: September 30.

8. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 153 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.73–3 *Lewis County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Lewis County, Mo., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn normally regarded as field corn. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Oats planted for harvest as grain.

(c) Soybeans planted for harvest as beans.

(d) Winter wheat planted for harvest as grain.

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Protection against loss of quality.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. However, any production of corn, oats, soybeans, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any corn may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest and an appraisal of corn used for ensilage or fodder.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for all crops.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such unit(s) forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*
Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: September 30.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.75 *Nebraska.*

§ 420.75–1 *Pawnee County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Pawnee County, Nebr., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance progam the insurable crops are:

(a) Alfalfa hay and mixtures of brome and alfalfa hay. (Insurance on hay to attach the first crop year of the contract only if the application is filed on or before September 30 preceding the calendar year in which the crop for that crop year is normally harvested.)

(b) Corn normally regarded as field corn. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(c) Grain sorghums planted for harvest as grain.

(d) Oats planted for harvest as grain.

(e) Winter wheat planted for harvest as grain. (Insurance on wheat to attach the first crop year of the contract only if the application is filed on or before September 30 preceding the calendar year in which the crop for that crop year is normally harvested.)

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop except hay, in which case insurance shall attach on November 1 (preceding harvest) provided there is a stand at that time sufficient that farmers in the area generally would leave it for harvest the following harvest season. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), the hay crop upon baling or stacking, all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insur-

ance remain in effect (a) with respect to any crop later than the earlier of (1) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Predetermined price for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. The predetermined prices for the 1953 crop year are on file in the county office and for any subsequent crop year shall be on file in the county office at least 15 days prior to the cancellation date. However, any production of corn, grain sorghums, oats, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at the value per unit determined by the Corporation. The Corporation will value any hay it determines to be unfit for feed due to insurable causes at such price as it deems to be the market value.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any corn or grain sorghum may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels, pounds or tons determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest and an appraisal of corn and grain sorghums used for ensilage or fodder.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel, pound or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels, pounds or tons by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel, pound, or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels, pounds or tons harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels, pounds or tons by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for corn, oats, and wheat; pounds for grain sorghums, and tons (rounded to tenths) for hay.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: August 31.

8. *Definitions.* Notwithstanding the provisions of Section 24 (d) "crop year" with respect to alfalfa and mixtures of brome and alfalfa means each 12-month period beginning with the first day of the insurance period and shall be designated by reference to the calendar year in which the crop is normally harvested.

For all purposes under the contract alfalfa and mixtures of brome and alfalfa for harvest within the crop year shall be considered to have been planted as of the beginning of the insurance period for that crop year.

Notwithstanding the provisions of Section 13 of the policy, in any case where a share tenant rents land for a share of the crop and rents other land owned by the same person for cash, for a fixed commodity payment, or for other consideration, all such land which is planted to insurable crops shall constitute an insurance unit except in cases where a combination unit is in effect for the crop year.

9. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.75–2 *Antelope.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Antelope County, Nebr., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley planted for harvest as grain.

(b) Corn normally regarded as field corn. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(c) Oats planted for harvest as grain.

(d) Rye planted for harvest as grain. (Insurance on rye to attach the first crop year of the contract only if the application is filed on or before September 30 preceding the calendar year in which the crop for that crop year is normally harvested.)

(e) Winter wheat planted for harvest as grain. (Insurance on wheat to attach the first crop year of the contract only if the application is filed on or before September 30 preceding the calendar year in which the crop for that crop year is normally harvested.)

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (1) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Predetermined price for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. The predetermined prices for the 1953 crop year are on file in the county office and for any subsequent crop year shall be on file in the county office at least 15 days prior to the applicable cancellation date. However, any production of barley, corn, oats, rye, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any corn may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest and an appraisal of corn used for ensilage or fodder.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for barley, corn, oats, rye, and wheat.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: August 31.

8. *Definitions.* Notwithstanding the provisions of Section 13 of the policy, in any case where a share tenant rents land for a share of the crop and rents other land owned by the same person for cash, for a fixed commodity payment, or for other consideration, all such land which is planted to insurable crops shall constitute an insurance unit except in cases where a combination unit is in effect for the crop year.

9. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.75–3 *Washington County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Washington County, Nebr., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn normally regarded as field corn. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broomcorn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Oats planted for harvest as grain.

(c) Soybeans planted for harvest as beans.

(d) Winter wheat planted for harvest as grain. (Insurance on wheat to attach the first crop year of the contract only if the application is filed on or before September 30 preceding the calendar year in which the crop for that crop year is normally harvested.)

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (1) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Predetermined price for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. The predetermined prices for the 1953 crop year are on file in the county office and for any subsequent crop year shall be on file in the county office at least 15 days prior to the applicable cancellation date. However, any production of corn, oats, soybeans, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any corn may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre and the result by the insured interest, and (2) subtracting from the total

thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest and an appraisal of corn used for ensilage or fodder.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for corn, oats, soybeans, and wheat.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: August 31.

8. *Definitions.* Notwithstanding the provisions of Section 13 of the policy, in any case where a share tenant rents land for a share of the crop and rents other land owned by the same person for cash, for a fixed commodity payment, or for other consideration, all such land which is planted to insurable crops shall constitute an insurance unit except in cases where a combination unit is in effect for the crop year.

9. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.78 *New Jersey.*

§ 420.78–1 *Monmouth County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Monmouth County, N. J., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley planted for harvest as grain.
(b) Cabbage (excluding acreage of less than one acre on an insurance unit).
(c) Corn normally regarded as field corn. The contract will not provide insurance for corn planted thick for silage or fodder purposes, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.
(d) Eggplant planted for commercial purposes (excluding acreage of less than one acre on an insurance unit).
(e) Peppers planted for commercial purposes (excluding acreage of less than one acre on an insurance unit).
(f) Potatoes, commonly known as Irish potatoes (excluding acreage of less than one acre on an insurance unit).
(g) Snap beans (excluding acreage of less than one acre on an insurance unit).
(h) Soybeans planted for harvest as beans.
(i) Sweet corn (excluding acreage of less than one acre on an insurance unit).
(j) Tomatoes planted for commercial purposes (excluding acreage of less than one acre on an insurance unit).
(k) Wheat planted for harvest as grain.

2. *Coverage per acre.* (a) The coverage per acre for each insured crop, except snap beans, shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for snap beans shall be reduced 60 percent for any acreage on which the insured fails to get a stand sufficient that farmers in the area generally would leave the crop for harvest, as determined by the Corporation.

3. *Insured acreage.* In addition to the provisions of Section 4 of the policy, insurance also shall not attach with respect to any acreage planted to an insured crop too early or too late to expect a normal crop to be produced as determined by the Corporation.

4. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the field corn or sweet corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), the cabbage crop upon cutting, the eggplant, pepper, and tomato crops upon picking, the snap bean crop upon picking, cutting or pulling, the potato crop upon digging, all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 31, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

5. *Protection against loss of quality.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. However, any production of barley, field corn, potatoes, soybeans, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

6. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any field corn may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

7. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage on which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop except snap beans.	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of boxes, bushels, pounds or tons determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop except snap beans.	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest and an appraisal of corn used for ensilage or fodder.
3. Snap beans	Acreage on which a sufficient stand is not obtained that farmers in the area generally would leave the crop for harvest, as determined by the Corporation.	Zero appraisal.
4. Snap beans	Acreage on which a sufficient stand is obtained that farmers in the area generally would leave the crop for harvest, as determined by the Corporation.	The appraised production or the actual production.
5. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the box, bushel, pound, or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.
6. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of boxes, bushels, pounds or tons by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable box, bushel, pound, or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of boxes, bushels, pounds, or tons harvested.
7. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of boxes, bushels, pounds or tons by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production and allowances shall be in bushels for barley, field corn, cabbage, eggplant, peppers, snap beans, soybeans, and wheat; pounds for potatoes, boxes (100 ear) for sweet corn, and tons (rounded to tenths) for tomatoes.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

8. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: September 30.

9. *Definitions.* (a) Notwithstanding any other provisions of the contract, each planting or replanting of snap beans shall be considered as a separate crop for all purposes under the contract, except that all acreage of snap beans shall be considered as one crop for computing the premium.

(b) For all purposes under the contract, any crop which is transplanted shall be considered to have been planted at the time of transplanting to the field.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.80 *New York.*

§ 420.80–1 *Monroe County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Monroe County, N. Y., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley planted for harvest as grain.
(b) Cabbage (excluding acreage of less than one acre on an insurance unit).
(c) Canning peas planted for commercial processing.
(d) Corn planted for grain, silage or fodder but not including sweet corn, popcorn, broom corn, or corn planted for the development of hybrid seed corn. However, corn for fodder will not be insured unless it is planted in time to reasonably expect the corn to mature as grain as determined by the Corporation.
(e) Dry edible beans (pea, medium white, red kidney, and white marrow).
(f) Oats planted for harvest as grain.
(g) Tomatoes planted for commercial purposes (excluding acreage of less than one acre on an insurance unit).
(h) Winter wheat planted for harvest as grain. (Insurance on wheat to attach the first crop year of the contract only if the application is filed on or before October 31 preceding the calendar year in which the crop for that crop year is normally harvested.)
(i) Mixtures of oats and spring barley planted for harvest as grain.

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Determining coverage(s) and premium rate(s) for mixtures.* (a) If a mixture of oats and spring barley is seeded the oats coverage shall apply.

(b) For the purpose of determining the amount of premium a mixture of oats and spring barley shall be considered as oats.

4. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), the canning pea crop upon harvesting, the cabbage crop upon cutting, the tomato crop upon picking, all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

5. *Protection against loss of quality.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. However, any production of barley, corn (as set forth below), oats, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation. In order for corn to be so evaluated for poor quality it must be a variety of corn adapted to the production of corn for grain and must be harvested as grain or fodder. In order to provide quality protection on dry edible beans, production of beans shall be determined on the basis of sound whole beans.

6. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested.

7. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage on which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit

shall include all production determined in accordance with the production schedule below. Production of corn shall be counted as grain, except that production for any corn harvested for silage and the appraised production for any true type silage corn and corn planted thick for silage but not harvested as silage shall be counted as corn silage. In determining production on acreage where a mixture of oats and spring barley is insured, all production shall be counted as oats on a weight basis. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels, pounds, or tons determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel, pound, or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels, pounds, or tons by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel, pound, or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels, pounds, or tons harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels, pounds, or tons by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production and allowances shall be in bushels for barley, oats, and wheat, pounds for beans, tons (rounded to tenths) for canning peas, cabbage, and tomatoes, and in bushels for corn grain or in tons (rounded to tenths) for corn silage.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

8. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: September 30.

9. *Definitions.* For all purposes under the contract time of planting for any crop which is transplanted refers to transplanting the plants in the field.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.83 *Ohio.*

§ 420.83–1 *Ashtabula County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Ashtabula County, Ohio, Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn planted for grain, silage or fodder but not including sweet corn, popcorn, broom corn, or corn planted for the development of hybrid seed corn. However, corn for fodder will not be insured unless it is planted in time reasonably to expect the corn to mature as grain as determined by the Corporation.

(b) Spring oats planted for harvest as grain.

(c) Winter wheat planted for harvest as grain. Insurance to attach the first crop year of the contract only if the application is filed on or before October 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), all other crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Predetermined price for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. The predetermined prices for the 1953 crop year are on file in the county office and for any subsequent crop year shall be on file in the county office at least 15 days prior to the cancellation date. However, any production of corn (as set forth below), oats, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per bushel determined by the Corporation. In order for corn to be so evaluated for poor quality it must be a variety of corn adapted to the production of corn for grain and must be harvested as grain or fodder.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Production of corn shall be counted as grain, except that production for any corn harvested for silage and the appraised production for any true type silage corn and corn planted thick for silage but not harvested as silage shall be counted as corn silage. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels or tons determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.

[1] Production and allowances shall be in bushels for oats and wheat and in bushels for corn grain or tons (rounded to tenths) for corn silage, whichever is applicable.

PRODUCTION SCHEDULE—Continued

Crop	Acreage classification	Total production [1]
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels or tons by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop minus the number of bushels or tons harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels or tons by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production and allowances shall be in bushels for oats and wheat and in bushels for corn grain or tons (rounded to tenths) for corn silage, whichever is applicable.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: September 30.

8. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.83–2 *Clermont County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Clermont County, Ohio, Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn planted for grain, silage or fodder but not including sweet corn, popcorn, broomcorn, or corn planted for the development of hybrid seed corn. However, corn for fodder will not be insured unless it is planted in time to reasonably expect the corn to mature as grain as determined by the Corporation.

(b) Soybeans planted for harvest as beans.

(c) Tobacco—type 31.

(d) Winter wheat planted for harvest as grain. (Insurance to attach the first crop year of the contract only if the application is filed on or before October 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to (a) any portion of the tobacco crop upon weighing-in at the tobacco warehouse, transfer of interest in the tobacco after harvest, removal of the tobacco from the insurance unit (except for curing, packing or immediate delivery to the tobacco warehouse), or weighing of the tobacco for casing, and (b) any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), all other crops upon threshing, or with respect to any portion of any crop (except tobacco) upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to tobacco later than February 28 following harvest, unless such time is extended in writing by the Corporation, (b) with respect to any other crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (c) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Protection against loss of quality.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. However, any production of corn (as set forth below), soybeans, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation. In order for corn to be so evaluated for poor quality it must be a variety of corn adapted to the production of corn for grain and must be harvested as grain or fodder.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Production of corn shall be counted as grain, except that production for any corn harvested for silage and the appraised production for any true type silage corn and corn planted thick for silage but not harvested as silage shall be counted as corn silage. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured's small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels, pounds or tons determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel, pound or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.84 *Oklahoma.*

§ 420.84–1 *Cleveland County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Cleveland County, Okla., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn normally regarded as field corn. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Cotton, restricted to American upland cotton and not including cotton planted primarily for experimental purposes.

(c) Grain sorghums planted for harvest as grain.

(d) Oats planted for harvest as grain.

(e) Winter wheat planted for harvest as grain.

2. *Coverage per acre.* (a) The coverage per acre for each insured crop, except cotton, shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for cotton shall be reduced as follows: (1) 60 percent for any acreage which is released by the Corporation because of damage occurring prior to laying by the crop, and (2) 25 percent for any acreage on which the crop is laid by and not harvested.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), the cotton crop upon picking, all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10 unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Predetermined price for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. The predetermined prices for the 1953 crop year are on file in the county office and for any subsequent crop year shall be on file in the county office at least 15 days prior to the cancellation date. However, any production of corn, grain sorghums, oats, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any corn or grain sorghums may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation or where vetch is seeded with an insured small grain crop, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop except cotton.	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels or pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop except cotton.	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest and an appraisal of corn and grain sorghums used for ensilage or fodder.
3. Cotton	Acreage released by the Corporation because of damage occurring prior to laying by the crop.	That portion of the appraised production which is in excess of the number of pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were harvested and (2) dividing the result thus obtained by the predetermined price.
4. Cotton	Acreage on which the crop is laid by and not harvested.	That portion of the appraised production which is in excess of the number of pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were harvested and (2) dividing the result thus obtained by the predetermined price.
5. Cotton	Acreage harvested	Production, including an appraisal of production left in the field after harvest.
6. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel or pound equivalent of the coverage per acre on the basis of the predetermined price for the crop.
7. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels or pounds by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel or pound equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels or pounds harvested.

[1] Production shall be in bushels for corn, oats, and wheat, and pounds for cotton and grain sorghums.

PRODUCTION SCHEDULE—Continued

Crop	Acreage classification	Total production [1]
8. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels or pounds by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for corn, oats, and wheat, and pounds for cotton and grain sorghums.

Notwithstanding the other provisions of this paragraph (a) regarding the determination of the total production of cotton, in any case where the quality of any cotton production is reduced solely by insured causes to the extent that the value per pound, as determined by the Corporation, is less than 75 percent of the predetermined price, the number of pounds of such poor quality cotton shall be adjusted downward to the number of pounds obtained by dividing the total value of such cotton, as determined by the Corporation, by 75 percent of the predetermined price.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: August 31.

8. *Definitions.* "Harvest" with respect to any acreage of cotton means the removal (by manual or mechanical means) of an amount of cotton from the stalk which is equal in value (based on the predetermined price) to 10 percent or more of the coverage for such acreage.

9. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.85 *Oregon.*

§ 420.85–1 *Linn County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Linn County, Oreg., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Austrian winter peas planted in the fall for harvest as seed.

(b) Barley planted for harvest as grain.

(c) Mixtures of any two or more of the following crops: Oats, wheat, barley, vetch, common rye grass, and Austrian winter peas, as defined in this section.

(d) Oats planted for harvest as grain.

(e) Common rye grass planted for harvest as seed.

(f) All types of vetch planted in the fall for harvest as seed which are supported under the Commodity Credit Corporation loan program.

(g) Wheat planted for harvest as grain.

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Determining coverage(s) and premium rate(s) for mixtures.* (a) If a mixture is planted which consists of oats, wheat or barley (hereinafter called cereal grains), and vetch, common rye grass or Austrian winter peas (hereinafter called seed crops) the applicable seed crop coverage shall apply if the Corporation determines that the amount of the cereal grain in the mixture does not exceed the customary amount seeded to facilitate the production of the seed crop, but if the Corporation determines that more than the customary amount of the cereal grain is in the mixture, the coverage for the cereal grain shall apply. If a mixture of wheat or barley and oats is planted, the oats coverage shall apply. If a mixture of common rye grass and vetch, or a mixture of common rye grass, vetch and a cereal grain, is planted the common rye grass coverage shall apply.

(b) For the purpose of determining the amount of premium, (1) a mixture of any seed crop and a cereal grain shall be considered as the applicable seed crop or cereal grain as determined in (a) above for coverage purposes, (2) a mixture of wheat or barley and oats shall be considered as oats, and (3) a mixture of common rye grass and vetch or a mixture of common rye grass, vetch and a cereal grain shall be considered as common rye grass.

4. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop, except that for common rye grass initially planted in the spring, insurance shall attach on November 1 following the planting, provided there is a stand on that date sufficient that farmers in the area generally would leave it for harvest as seed the following harvest season. Insurance shall cease with respect to any portion of the insured crops upon threshing or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

5. *Predetermined price for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. The predetermined prices for the 1953 crop year are on file in the county office and for any subsequent crop year shall be on file in the county office at least 15 days prior to the cancellation date. However, any production of Austrian winter peas, barley, oats, common rye grass, vetch or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

6. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested.

7. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. In determining production on acreage where a mixture of wheat or barley and oats is insured, all production shall be counted as oats on a weight basis. In determining production on acreage where any other mixture is insured, the production of each commodity shall be determined and handled separately. Where any small grain is planted with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels or pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.

[1] Production shall be in bushels for barley, oats, and wheat, and in pounds for Austrian winter peas, common rye grass, and vetch.

(b) The coverage per acre for sugar beets not lifted and topped shall be reduced as follows:

(1) 80 percent for any acreage released by the Corporation because of damage occurring prior to thinning.

(ii) 60 percent for any acreage which is released by the Corporation because of damage occurring after thinning and planted to a substitute crop.

(iii) 25 percent for any acreage which is released by the Corporation because of damage occurring after thinning and which is not planted to a substitute crop and not lifted and topped.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop except alfalfa and red clover in which case Insurance shall attach on December 16 (preceding harvest) provided there is a stand on that date sufficient that farmers in the area generally would leave the crop for harvest the following harvest season. Insurance shall cease with respect to any portion of the alfalfa crop upon baling or stacking, the red clover crop upon baling, stacking or threshing, the potato crop upon digging, the sugar beet crop upon lifting and topping, all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Predetermined price for adding production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. The predetermined prices for the 1953 crop year are on file in the county office and for any subsequent crop year shall be on file in the county office at least 15 days prior to the cancellation date. However, any production of barley, oats, potatoes or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation. In order to provide quality protection on dry edible beans, production of beans shall be determined on the basis of sound whole beans.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested.

6. *Amount of loss.* (a) **The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage** (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production of the insured small grain shall be counted as the insured crop on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop except sugar beets.	Acreage released by the Corporation and not planted to a substitute crop.	That portion of the appraised production (on the basis of hay for red clover) for such acreage which is in excess of the number of bushels, pounds, or tons determined by (1) subtracting the total coverage for such acreage from what the total coverage would be if the crop were grown and (2) dividing the result thus obtained by the predetermined price for the crop.

[1] Production and allowances shall be in bushels for barley, oats and wheat, in pounds for beans, potatoes, and red clover seed, and in tons (rounded to tenths) for alfalfa, red clover hay and sugar beets.

PRODUCTION SCHEDULE—Continued

Crop	Acreage classification	Total production [1]
2. Each insured crop except red clover and sugar beets.	Acreage not planted to a substitute crop.	The appraised production or the actual production.
3. Red clover	Acreage not planted to a substitute crop.	The actual production of hay and seed for acreage harvested (except that the Corporation may count the appraised production for seed in place of the hay production for any cutting) and the appraised production (the appraisal for hay or the appraisal for seed, or both whichever the Corporation elects) for (1) acreage pastured or (2) production not harvested.
4. Sugar beets	Acreage released by the Corporation because of damage occurring prior to thinning.	The production obtained by dividing the amount of any abandonment payment paid or to be paid to the insured with respect to such acreage under any act of Congress including the Sugar Act of 1948, by the predetermined price, but not in excess of the ton-equivalent represented by the reduced coverage applicable to such acreage.
5. Sugar beets	Acreage released by the Corporation because of damage occurring after thinning and planted to a substitute crop.	That portion of the appraised production which is in excess of the number of tons determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if the sugar beets were lifted and topped, and (2) dividing the result thus obtained by the predetermined price, plus the production obtained by dividing the amount of any abandonment payment paid or to be paid to the insured with respect to such acreage under any act of Congress including the Sugar Act of 1948, by the predetermined price, but not in excess of the ton-equivalent represented by the reduced coverage applicable to such acreage.
6. Sugar beets	Acreage released by the Corporation because of damage occurring after thinning and which is not planted to a substitute crop and not lifted and topped.	That portion of the appraised production for such acreage which is in excess of the number of tons determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if the sugar beets were lifted and topped, and (2) dividing the result thus obtained by the predetermined price for the crop, plus the production obtained by dividing the amount of any abandonment payment paid or to be paid to the insured with respect to such acreage under any act of Congress including the Sugar Act of 1948, by the predetermined price, but not in excess of the ton equivalent represented by the reduced coverage applicable to such acreage.
7. Sugar beets	Acreage on which the sugar beets are lifted and topped.	Actual production.
8. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the applicable bushel, pound, or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.
9. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels, pounds, or tons by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel, pound, or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels, pounds, or tons harvested.
10. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels, pounds, or tons by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for barley, oats, and wheat, and in pounds for Austrian winter peas, common rye grass, and vetch.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

8. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: September 30.

9. *Definitions.* Notwithstanding the provisions of Section 24 (d) "crop year" with respect to common rye grass initially planted in the spring means the period beginning with the first day of the insurance period and ending upon harvest and shall be designated by reference to the calendar year in which the crop is normally harvested. For all purposes under the contract common rye grass for harvest within the crop year shall be considered to have been planted as of the beginning of the insurance period for that crop year.

10. *Reduction of premium based on good experience.* The insured's premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.85–2 *Malheur County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Malheur County, Oreg., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Alfalfa hay.
(b) Barley planted for harvest as grain.
(c) Dry edible beans (small reds).
(d) Oats planted for harvest as grain.
(e) Potatoes (excluding acreages of less than one acre on an insurance unit) commonly known as Irish potatoes.
(f) Red clover planted for harvest as hay or seed.
(g) Sugar beets planted for production of sugar.
(h) Wheat planted for harvest as grain.

2. *Coverage per acre.* (a) The coverage per acre for each insured crop, except sugar beets, shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Irrigated acreage.* (a) In addition to the provisions of section 4 of the policy the following provisions shall apply: (1) The acreage of insured crops which shall be insured in any year shall not exceed that acreage which can be irrigated adequately with the facilities available and with a supply of irrigation water which reasonably could be expected, taking into consideration the amount of water required to irrigate the acreage of all irrigated crops on the farm, (2) Insurance shall not attach with respect to acreage planted to insurable crops (i) the first year after being leveled or (ii) the first year such acreage is irrigated.

(b) In addition to the causes of loss insured against as shown on the first page of the policy, the contract shall cover loss due to failure of the water supply from natural causes that could not be foreseen and prevented by the insured.

(c) In addition to the causes of loss not insured against as shown in section 8 of the policy, the contract shall not cover loss caused by (1) failure properly to apply irrigation water to any insurable crop in accordance with good farming practices, as determined by the Corporation and (2) shortage of irrigation water on any farm where the Corporation determines that the total acreage of all irrigated crops on the farm is in excess of that which could be irrigated properly with the facilities available and with the supply of irrigation water which reasonably could be expected.

8. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: September 30.

9. *Definitions.* Notwithstanding the provisions of section 24 (d) "crop year" with respect to alfalfa and red clover means each 12-month period beginning with the first day of the insurance period and shall be designated by reference to the calendar year in which the crop is normally harvested.

For all purposes under the contract alfalfa and red clover for harvest within the crop year shall be considered to have been planted as of the beginning of the insurance period for that crop year.

10. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.85–3 *Marion County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Marion County, Oreg., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Alta fescue (planted in rows only) for seed.
(b) Alfalfa hay.
(c) Barley planted for harvest as grain.
(d) Clover hay including any mixture containing a predominance of clover.
(e) Common or Willamette vetch planted in the fall for harvest as seed.
(f) Vetch hay and mixtures of oats or wheat with vetch and/or Austrian winter peas, planted for hay.
(g) Oats planted for harvest as grain.
(h) Wheat planted for harvest as grain.

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop except alta fescue, alfalfa, and clover hay in which cases insurance shall attach on November 1 (preceding harvest) provided there is a stand at that time sufficient that farmers generally in the area would leave the applicable crop for harvest the following harvest season. Insurance shall cease with respect to any portion of the hay crops upon baling or stacking, and all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Protection against loss of quality.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and

shown on the county actuarial table. However, any production of alta fescue, barley, oats, vetch, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where vetch for seed is planted with an insured small grain crop, the production of each commodity shall be determined and counted separately. Where any small grain is planted with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels, pounds or tons determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel, pound or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels, pounds or tons by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel, pound or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels, pounds or tons harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels, pounds or tons by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for barley, oats and wheat, in pounds for alta fescue and vetch, and tons (rounded to tenths) for hay.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: September 30.

8. *Definitions.* Notwithstanding the provisions of Section 24 (d) "crop year" with respect to alta fescue, alfalfa hay and clover hay means the period beginning with the first day of the insurance period and ending upon harvest and shall be designated by reference to the calendar year in which the crop is normally harvested. For all purposes under the contract alta fescue, alfalfa hay and clover hay for harvest within the crop year shall be considered to have been planted as of the beginning of the insurance period for that crop year.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.86 *Pennsylvania.*

§ 420.86–1 *Lebanon County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Lebanon County, Pa., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley planted in the fall for harvest as grain. (Insurance on fall barley to attach the first crop year of the contract only if the application is filed on or before October 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

(b) Corn normally regarded as field corn. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(c) Tobacco, type 41.

(d) Wheat planted for harvest as grain. (Insurance on wheat to attach the first crop year of the contract only if the application is filed on or before October 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to (a) any portion of the tobacco crop upon weighing-in at the tobacco warehouse, transfer of interest in the tobacco after harvest, removal of the tobacco from the insurance unit (except for curing, packing or immediate delivery to the tobacco warehouse), or weighing of the tobacco for casing, and (b) any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), all other insured crops upon threshing, or with respect to any portion of any crop (except tobacco) upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to tobacco later than March 31 following harvest, unless such time is extended in writing by the Corporation, (b) with respect to any other crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (c) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Predetermined price for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. The predetermined prices for the 1953 crop year are on file in the county office and for any subsequent crop year shall be on file in the county office at least 15 days prior to the applicable cancellation date. However, any production of barley, corn, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at the value per unit determined by the Corporation.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any corn may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage planted to each insured crop by the applicable coverage per acre and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage specified on the acreage report is less than the premium computed for the planted acreage on the insurance unit. Such reduction shall be made on the basis of the ratio of the premium computed for the acreage specified on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of an uninsured volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels, or pounds, determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest and an appraisal of corn used for ensilage or fodder.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel or pound equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels or pounds by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel or pound equivalent of the coverage per acre on the basis of the predetermined price for the crop minus the number of bushels, or pounds harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels or pounds by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for barley, corn and wheat; and in pounds for tobacco.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: September 30.

8. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.90 *Tennessee.*

§ 420.90–3 *Franklin County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Franklin County, Tenn., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Alfalfa hay.

(b) Corn normally regarded as field corn, including corn with which soybeans are interplanted. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(c) Cotton, restricted to American upland cotton and not including cotton planted primarily for experimental purposes.

(d) Crimson clover planted for harvest as seed.

(e) Potatoes (excluding acreage of less than one acre on an insurance unit) commonly known as Irish potatoes.

(f) Tobacco, type 31.

(g) Wheat planted for harvest as grain.

2. *Coverage per acre.* (a) The coverage per acre for each insured crop, except cotton, shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for cotton shall be reduced as follows: (1) 60 percent for any acreage which is released by the Corporation because of damage occurring prior to laying by the crop, and (2) 25 percent for any acreage on which the crop is laid by and not harvested.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop except alfalfa in which case insurance shall attach on November 1 (preceding harvest) provided there is a stand on that date sufficient that farmers in the area generally would leave the crop for harvest the following harvest season. Insurance shall cease with respect to (a) any portion of the tobacco crop upon weighing-in at the tobacco warehouse, transfer of interest in the tobacco after harvest, removal of the tobacco from the insurance unit (except for curing, packing or immediate delivery to the tobacco warehouse), or weighing of the tobacco for casing, (b) any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), the cotton crop upon picking, the hay crop upon baling or stacking, the potato crop upon digging, all other crops upon threshing, or with respect to any portion of any crop (except tobacco) upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to tobacco later than February 28 following harvest unless such time is extended in writing by the Corporation, (b) with respect to any other crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (c) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Protection against loss of quality.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. However, any production of corn, potatoes or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

5. Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any corn may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a

volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop except cotton.	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels, pounds, or tons determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop except cotton.	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest and an appraisal of corn used for ensilage or fodder.
3. Cotton	Acreage released by the Corporation because of damage occurring prior to laying by the crop.	That portion of the appraised production which is in excess of the number of pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were harvested and (2) dividing the result thus obtained by the predetermined price.
4. Cotton	Acreage on which the crop is laid by and not harvested.	That portion of the appraised production which is in excess of the number of pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were harvested and (2) dividing the result thus obtained by the predetermined price.
5. Cotton	Acreage harvested	Production, including an appraisal of production left in the field after harvest.
6. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel, pound, or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.
7. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels, pounds, or tons by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel, pound, or ton equivalent of the coverage per acre, on the basis of the predetermined price for the crop, minus the number of bushels, pounds, or tons harvested.
8. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels, pounds, or tons by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for corn and wheat, in pounds for cotton, crimson clover seed, potatoes, and tobacco and in tons (rounded to tenths) for hay.

Notwithstanding the other provisions of this paragraph (a) regarding the determination of the total production of cotton, in any case where the quality of any cotton production is reduced solely by insured causes to the extent that the value per pound, as determined by the Corporation, is less than 75 percent of the predetermined price, the number of pounds of such poor quality cotton shall be adjusted downward to the number of pounds obtained by dividing the total value of such cotton, as determined by the Corporation, by 75 percent of the determined price.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insure acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: August 31.

8. *Definitions.* (a) Notwithstanding the provisions of Section 24 (d) of the policy, "crop year" with respect to alfalfa hay means the 12-month period beginning each year with the first day of the insurance period and shall be designated by reference to the calendar year in which the crop is normally harvested.

(b) For all purposes under the contract alfalfa hay for harvest within the crop year shall be considered to have been planted as of the beginning of the insurance period for that crop year.

(c) "Harvest" with respect to any acreage of cotton means the removel (by manual or mechanical means) of an amount of cotton from the stalk which is equal in value (based on the predetermined price) to 10 percent or more of the coverage for such acreage.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.91 *Texas.*

§ 420.91-1 *Johnson County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Johnson County, Tex., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley (fall only) planted for harvest as grain. (Insurance on barley to attach the first crop year of the contract only if the application is filed on or before September 30 preceding the calendar year in which the crop for that crop year is normally harvested.)

(b) Corn normally regarded as field corn, including corn with which soybeans are interplanted. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(c) Cotton, restricted to American upland cotton and not including cotton planted primarily for experimental purposes.

(d) Grain sorghums planted for harvest as grain.

(e) Oats (fall only) planted for harvest as grain. (Insurance on oats to attach the first crop year of the contract only if the application is filed on or before September 30 preceding the calendar year in which the crop for that crop year is normally harvested.)

(f) Peanuts (Spanish) planted for harvest as nuts.

(g) Winter wheat planted for harvest as grain. (Insurance on wheat to attach the first crop year of the contract only if the application is filed on or before September 30 preceding the calendar year in which the crop for that crop year is normally harvested.)

2. *Coverage per acre.* (a) The coverage per acre for each insured crop, except cotton, shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for cotton shall be reduced as follows: (1) 60 percent for any acreage which is released by the Corporation because of damage occurring prior to laying by the crop, and (2) 25 percent for any acreage on which the crop is laid by and not harvested.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), the cotton crop upon picking, all other insured crops upon threshing, or with respect to any portion of any insured crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Predetermined price for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. The predetermined prices for the 1953 crop year are on file in the county office and for any subsequent crop year shall be on file in the county office at least 15 days prior to the cancellation date. However, any production of barley, corn, grain sorghums, oats, peanuts, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any corn or grain sorghum may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

6. *Amount of loss.*—(a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insuranee unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordanee with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. Where vetch is grown with an insured small grain crop all production of vetch shall be counted as production of such small grain on a weight basis. The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop except cotton.	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels or pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop except cotton.	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest and an appraisal of corn and grain sorghums used for ensilage or fodder.
3. Cotton	Acreage released by the Corporation because of damage occurring prior to laying by the crop.	That portion of the appraised production which is in excess of the number of pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were harvested and (2) dividing the result thus obtained by the predetermined price.
4. Cotton	Acreage on which the crop is laid by and not harvested.	That portion of the appraised production which is in excess of the number of pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were harvested and (2) dividing the result thus obtained by the predetermined price.
5. Cotton	Acreage harvested	Production, including an appraisal of production left in the field after harvest.
6. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel or pound equivalent of the coverage per acre on the basis of the predetermined price for the crop.
7. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels or pounds by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel or pound equivalent of the coverage per acre, on the basis of the predetermined price for the crop, minus the number of bushels or pounds harvested.
8. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels or pounds by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for barley, corn, oats, and wheat and pounds for cotton, peanuts, and grain sorghums.

Notwithstanding the other provisions of this paragraph (a) regarding the determination of the total production of cotton, in any case where the quality of any cotton production is reduced solely by insured causes to the extent that the value per pound, as determined by the Corporation, is less than 75 percent of the predetermined price, the number of pounds of such poor quality cotton shall be adjusted downward to the number of pounds obtained by dividing the total value of such cotton, as determined by the Corporation, by 75 percent of the predetermined price.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: August 31.

8. *Definitions.* "Harvest" with respect to any acreage of cotton means the removal (by manual or mechanical means) of an amount of cotton from the stalk which is equal in value (based on the predetermined price) to 10 percent or more of the coverage for such acreage.

9. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.91-2 *Runnels County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Runnels County, Tex., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Cotton, restricted to American upland cotton and not including cotton planted primarily for experimental purposes.

(b) Grain sorghums planted for harvest as grain.

(c) Oats (fall and winter only) planted for harvest as grain.

(d) Winter wheat planted for harvest as grain.

2. *Coverage per acre.* (a) The coverage per acre for each insured crop, except cotton, shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for cotton shall be reduced as follows: (1) 60 percent for any acreage which is released by the Corporation because of damage occurring prior to laying by the crop, and (2) 25 percent for any acreage on which the crop is laid by and not harvested.

3. *Insured acreage.* In addition to the provisions of section 4 of the policy, for any crop year, insurance also shall not attach with respect to oats or wheat planted on acreage which was planted to grain or sweet sorghum (a) during the same calendar year, or (b) during the preceding calendar year in the case of winter wheat or oats planted after January 1.

4. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the cotton crop upon picking and all other insured crops upon threshing, or with respect to any portion of any insured crop upon removal from the field, whichever is earlier. However in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10 unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

5. *Predetermined price for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. The predetermined prices for the 1953 crop year are on file in the county office and for any subsequent crop year shall be on file in the county office at least 15 days prior to the cancellation date. However, any production of grain sorghums, oats, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

6. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any grain sorghum may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

7. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ration of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. Where vetch is grown with an insured small grain crop all production of vetch shall be counted as production of such grain crop on a weight basis.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop except cotton.	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels or pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop except cotton.	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of grain sorghums used for ensilage or fodder.
3. Cotton	Acreage released by the Corporation because of damage occurring prior to laying by the crop.	That portion of the appraised production which is in excess of the number of pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were harvested and (2) dividing the result thus obtained by the predetermined price.
4. Cotton	Acreage on which the crop is laid by and not harvested.	That portion of the appraised production which is in excess of the number of pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were harvested and (2) dividing the result thus obtained by the predetermined price.
5. Cotton	Acreage harvested	Production, including an appraisal of production left in the field after harvest.
6. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel or pound equivalent of the coverage per acre on the basis of the predetermined price for the crop.
7. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels or pounds by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel or pound equivalent of the coverage per acre, on the basis of the predetermined price for the crop, minus the number of bushels or pounds harvested.
8. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels or pounds by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for oats and wheat, and pounds for cotton and grain sorghums.

Notwithstanding the other provisions of this paragraph (a) regarding the determination of the total production of cotton, in any case where the quality of any cotton production is reduced solely by insured causes to the extent that the value per pound, as determined by the Corporation, is less than 75 percent of the predetermined price, the number of pounds of such poor quality cotton shall be adjusted downward to the number of pounds obtained by dividing the total value of such cotton, as determined by the Corporation, by 75 percent of the predetermined price.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

8. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: July 31.

9. *Definitions.* "Harvest" with respect to any acreage of cotton means the removal (by manual or mechanical means) of an amount of cotton from the stalk which is equal in value (based on the predetermined price) to 10 percent or more of the coverage for such acreage.

10. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.91–3 *Tarrant County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Tarrant County, Tex., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn normally regarded as field corn, including corn with which soybeans are interplanted. The contract will not provide insurance for true type silage corn, corn planted thick for silage or fodder purposes, sweet corn, popcorn, broom corn, corn planted for the development of hybrid seed corn, or any type of corn other than that normally regarded as field corn.

(b) Cotton, restricted to American upland cotton and not including cotton planted primarily for experimental purposes.

(c) Grain sorghums planted for harvest as grain.

(d) Oats (fall only) planted for harvest as grain.

(e) Peanuts (Spanish) planted for harvest as nuts.

(f) Winter wheat planted for harvest as grain.

2. *Coverage per acre.* (a) The coverage per acre for each insured crop, except cotton, shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for cotton shall be reduced as follows: (1) 60 percent for any acreage which is released by the Corporation because of damage occurring prior to laying by the crop, and (2) 25 percent for any acreage on which the crop is laid by and not harvested.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), the cotton crop upon picking, all other insured crops upon threshing, or with respect to any portion of any insured crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Protection against loss of quality.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price establishd by the Corporation for that crop and shown on the county actuarial table. However, any production of corn, grain, sorghums, oats, peanuts, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested, except that any corn or grain sorghum may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. Where vetch is grown with an insured small grain crop all production of vetch shall be counted as production of such small grain crop on a weight basis. The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop except cotton.	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels or pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2 Each insured crop except cotton.	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest and an appraisal of corn and grain sorghums used for ensilage or fodder.
3. Cotton	Acreage released by the Corporation because of damage occurring prior to laying by the crop.	That portion of the appraised production which is in excess of the number of pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were harvested and (2) dividing the result thus obtained by the predetermined price.
4. Cotton	Acreage on which the crop is laid by and not harvested.	That portion of the appraised production which is in excess of the number of pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were harvested and (2) dividing the result thus obtained by the predetermined price.
5. Cotton	Acreage harvested	Production, including an appraisal of production left in the field after harvest.
6. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel or pound equivalent of the coverage per acre on the basis of the predetermined price for the crop.
7. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels or pounds by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel or pound equivalent of the coverage per acre, on the basis of the predetermined price for the crop, minus the number of bushels or pounds harvested.
8. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels or pounds by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for corn, oats, and wheat, and pounds for cotton, peanuts, and grain sorghums.

Notwithstanding the other provisions of this paragraph (a) regarding the determination of the total production of cotton, in any case where the quality of any cotton production is reduced solely by insured causes to the extent that the value per pound, as determined by the Corporation, is less than 75 percent of the predetermined price, the number of pounds of such poor quality cotton shall be adjusted downward to the number of pounds obtained by dividing the total value of such cotton, as determined by the Corporation, by 75 percent of the predetermined price.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*

Discount date: June 30
Maturity date: July 31.
Interest date: October 31.
Cancellation date: August 31.

8. *Definitions.* "Harvest" with respect to any acreage of cotton means the removal (by manual or mechanical means) of an amount of cotton from the stalk which is equal in value (based on the predetermined price) to 10 percent or more of the coverage for such acreage.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.91–4 *Taylor County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Taylor County, Tex., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Barley (fall only) planted for harvest as grain.

(b) Cotton, restricted to American upland cotton and not including cotton planted primarily for experimental purposes.

(c) Grain sorghums planted for harvest as grain.

(d) Oats (fall and winter only) planted for harvest as grain.

(e) Winter wheat planted for harvest as grain.

2. *Coverage per acre.* (a) The coverage per acre for each insured crop, except cotton, shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

(b) The coverage per acre for cotton shall be reduced as follows: (1) 60 percent for any acreage which is released by the Corporation because of damage occurring prior to laying by the crop, and (2) 25 percent for any acreage on which the crop is laid by and not harvested.

3. *Insured acreage.* In addition to the provisions of section 4 of the policy, for any crop year, insurance also shall not attach with respect to barley, oats or wheat planted on acreage which was planted to grain or sweet sorghum (a) during the same calendar year, or (b) during the preceding calendar year in the case of winter wheat or oats planted after January 1.

4. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop. Insurance shall cease with respect to any portion of the cotton crop upon picking and all other insured crops upon threshing, or with respect to any portion of any insured crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

5. *Protection against loss of quality.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. However, any production of barley, grain sorghums, oats, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

6. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be real-

ized if the crop were harvested, except that any grain sorghum may be used for ensilage or fodder without a release by the Corporation if the insured leaves a number of rows considered by the Corporation to be an adequate representative sample for appraising the yield.

7. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. Where vetch is grown with an insured small grain crop all production of vetch shall be counted as production of such small grain crop on a weight basis. The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop except cotton.	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels or pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop except cotton.	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of grain sorghums used for ensilage or fodder.
3. Cotton	Acreage released by the Corporation because of damage occurring prior to laying by the crop.	That portion of the appraised production which is in excess of the number of pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were harvested and (2) dividing the result thus obtained by the predetermined price.
4. Cotton	Acreage on which the crop is laid by and not harvested.	That portion of the appraised production which is in excess of the number of pounds determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were harvested and (2) dividing the result thus obtained by the predetermined price.
5. Cotton	Acreage harvested	Production, including an appraisal of production left in the field after harvest.
6. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel or pound equivalent of the coverage per acre on the basis of the predetermined price for the crop.
7. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels or pounds by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel or pound equivalent of the coverage per acre, on the basis of the predetermined price for the crop, minus the number of bushels or pounds harvested.
8. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels or pounds by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production shall be in bushels for barley, oats, and wheat, and pounds for cotton, and grain sorghums.

Notwithstanding the other provisions of this paragraph (a) regarding the determination of the total production of cotton, in any case where the quality of any cotton production is reduced solely by insured causes to the extent that the value per pound, as determined by the Corporation, is less than 75 percent of the predetermined price, the number of pounds of such poor quality cotton shall be adjusted downward to the number of pounds obtained by dividing the total value of such cotton, as determined by the Corporation, by 75 percent of the predetermined price.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

8. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: July 31.

9. *Definitions.* "Harvest" with respect to any acreage of cotton means the removal (by manual or mechanical means) of an amount of cotton from the stalk which is equal in value (based on the predetermined price) to 10 percent or more of the coverage for such acreage.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.92 *Utah.*

§ 420.92–2 *Emery County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Emery County, Utah, Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Alfalfa for hay.
(b) Barley planted for harvest as grain.
(c) Corn planted for silage.
(d) Oats planted for harvest as grain.
(e) Wheat planted for harvest as grain.
(f) Mixtures of any two or more of the following crops: Barley, oats, and wheat, as defined in this section.

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Determining coverage(s) and premium rate(s) for mixtures.* (a) If a mixture of barley and wheat is seeded, the barley coverage shall apply. If any insurable mixture containing oats is seeded the oats coverage shall apply.

(b) For the purpose of determining the amount of premium, a mixture of barley and wheat shall be considered as barley and any insurable mixture containing oats shall be considered as oats.

4. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop except alfalfa in which case insurance shall attach on November 1 (preceding harvest) provided there is a stand on that date sufficient that farmers in the area generally would leave it for harvest the following harvest season. Insurance shall cease with respect to any portion of the hay crop upon baling or stacking, the corn crop upon harvesting (cutting the corn for silage), all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

5. *Protection against loss of quality.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. However, any production of barley, oats or wheat (excluding insurable mixtures of any of these crops) which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation.

6. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested.

7. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. In determining production on acreage where a mixture of barley and wheat is insured, all the production shall be counted as barley on a weight basis, and where any insurable mixture containing oats is insured, all the production shall be counted as oats on a weight basis. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels or tons determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels or tons by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels or tons harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels or tons by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production and allowances shall be in bushels for barley, oats, and wheat, and in tons (rounded to tenths) for alfalfa and corn silage.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

8. *Irrigated acreage.* (a) In addition to the provisions of section 4 of the policy, the following provisions shall apply: (1) The acreage of insured crops in any year shall not exceed that acreage which can be irrigated adequately with the facilities available and with a supply of irrigation water which could reasonably be expected, taking into consideration the amount of water required to irrigate the acreage of all irrigated crops on the farm. (2) Insurance shall not attach with respect to (i) acreage planted to insurable crops the first year after being leveled, or (ii) acreage the first year such acreage is irrigated.

(b) In addition to the causes of loss insured against as shown on the first page of the policy, the contract shall cover loss due to failure of the water supply from natural causes that could not be foreseen and prevented by the insured.

(c) In addition to the causes of loss not insured against as shown in Section 8 of the policy, the contract shall not cover loss caused by (1) failure properly to apply irrigation water to any insurable crop in accordance with good farming practices, as determined by the Corporation, and (2) shortage of irrigation water on any farm where the Corporation determines that the total acreage of all irrigated crops on the farm is in excess of that which could be irrigated properly with the facilities available and with the supply of irrigation water which could be reasonably expected.

9. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: September 30.

10. *Definitions.* Notwithstanding the provisions of Section 24 (d) of the policy "crop year" with respect to alfalfa means each 12-month period beginning with the first day of the insurance period and shall be designated by reference to the calendar year in which the crop is normally harvested. For all purposes under the contract alfalfa for harvest within the crop year shall be considered to have been planted as of the beginning of the insurance period for that crop year.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.97 *Wisconsin.*

§ 420.97–2 *Waupaca County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Waupaca County, Wis., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Alfalfa hay, including any mixtures containing alfalfa.
(b) Clover hay, including any mixtures containing clover.
(c) Barley planted for harvest as grain.
(d) Corn planted for grain, silage or fodder but not including sweet corn, popcorn, broom corn, or corn planted for the development of hybrid seed corn. However, corn for fodder will not be insured unless it is planted in time to reasonably expect the corn to mature as grain as determined by the Corporation.
(e) Oats planted for harvest as grain.

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop except hay in which case insurance shall attach on October 1 (preceding harvest) provided there is a stand on that date sufficient that farmers in the area generally would leave it for harvest the following harvest season. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), the hay crop upon baling or stacking, all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Predetermined price for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. The predetermined prices for the 1953 crop year are on file in the county office and for any subsequent crop year shall be on file in the county office at least 15 days prior to the cancellation date. However, any production of barley, corn (as set forth below), or oats which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation. In order for corn to be eligible for a quality adjustment it must be a variety of corn adapted to the production of corn for grain and must be harvested as grain or fodder. The Corporation will value any hay it determines to be unfit for feed due to insurable causes at such price as it deems to be the market value.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acre-

age and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop. Where oats are seeded in an insured growing hay crop on acreage not released by the Corporation, all production of oat hay shall be counted as production of the insured hay crop. Where corn for fodder is insured the grain content shall be counted as production.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels or tons determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels or tons by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels or tons harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels or tons by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production and allowances shall be in bushels for barley, corn harvested or to be harvested for grain or fodder, and oats, tons (rounded to tenths) for hay, and corn harvested for ensilage.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: September 30.

8. *Definitions.* Notwithstanding the provisions of Section 24 (d) of the policy "crop year" with respect to hay means each 12-month period beginning with the first day of the insurance period and shall be designated by reference to the calendar year in which the crop is normally harvested.

For all purposes under the contract hay for harvest within the crop year shall be considered to have been planted as of the beginning of the insurance period for that crop year.

9. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.98 *Wyoming.*

§ 420.98–1. *Platte County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Platte County, Wyo., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Alfalfa hay. (Insurance on hay to attach the first crop year of the contract only if the application is filed on or before August 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

(b) Barley (spring only) planted for harvest as grain.

(c) Corn planted for grain, silage or fodder but not including sweet corn, popcorn, broom corn, or corn planted for the development of hybrid seed corn. However, corn for fodder will not be insured unless it is planted in time reasonably to expect the corn to mature as grain as determined by the Corporation.

(d) Dry edible beans (Pinto and Great Northern).

(e) Oats (spring only) planted for harvest as grain.

(f) Wheat planted for harvest as grain. (Insurance on winter wheat to attach the first crop year of the contract only if the application is filed on or before August 31 preceding the calendar year in which the crop for that crop year is normally harvested.)

2. *Existing crop insurance contract.* The acceptance by the Corporation of a multiple crop insurance application shall not cancel any existing wheat crop insurance contract between the insured and the Corporation.

3. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitute crop.

4. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop except hay on which insurance shall attach on November 1 (preceding harvest) provided there is a stand on that date sufficient that farmers in the area generally would leave it for harvest the following harvest season. Insurance shall cease with respect to any portion of the corn crop upon harvesting (picking the corn from the stalk either by hand or machine or cutting the corn for fodder or ensilage), the hay crop upon bailing or stacking, all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

5. *Predetermined price for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. The predetermined prices for the 1953 crop year are on file in the county office and for any subsequent crop year shall be on file in the county office at least 15 days prior to the cancellation date. However, any production of barley, corn (as set forth below), oats, or wheat which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation. In order for corn to be so evaluated for poor quality it must be a variety of corn adapted to the production of corn for grain and must be harvested as grain or fodder. In order to provide quality protection on dry edible beans, production of beans shall be determined on the basis of sound whole beans.

6. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested.

7. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Production of corn shall be counted as grain, except that production for any corn harvested for silage and the appraised production for any true type silage corn and corn planted thick for silage but not harvested as silage shall be counted as corn silage. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels, pounds, or tons determined by (1) subtracting the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production, including an appraisal of corn left in the field after harvest.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel, pound, or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels, pounds, or tons by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel, pound, or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels, pounds, or tons harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels, pounds, or tons by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production and allowances shall be in bushels for barley, oats and wheat, pounds for beans, tons (rounded to tenths) for alfalfa, and in bushels for corn grain or tons (rounded to tenths) for corn silage, whichever is applicable.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

8. *Irrigated acreage.* (a) In addition to the provisions of section 4 of the policy, the following provisions shall apply: (1) The acreage of insured crops in any year shall not exceed that acreage which can be irrigated adequately with the facilities available and with a supply of irrigation water which could reasonably be expected, taking into consideration the amount of water required to irrigate the acreage of all irrigated crops on the farm. (2) Insurance shall not attach with respect to acreage planted to insurable crops (i) the first year after being leveled or (ii) the first year such acreage is irrigated.

(b) In addition to the causes of loss insured against as shown on the first page of the policy, the contract shall cover loss due to failure of the water supply from natural causes that could not be foreseen and prevented by the insured.

(c) In addition to the causes of loss not insured against as shown in section 8 of the policy, the contract shall not cover loss caused by (1) failure properly to apply irrigation water to any insurable crop in accordance with good farming practices, as determined by the Corporation, and (2) shortage of irrigation water on any farm where the Corporation determines that the total acreage of all irrigated crops on the farm is in excess of that which could be irrigated properly with the facilities available and with the supply of irrigation water which could be reasonably expected.

9. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: July 31.

10. *Definitions.* Notwithstanding the provisions of section 24 (d) "crop year" with respect to alfalfa means each 12-month period beginning with the first day of the insurance period and shall be designated by reference to the calendar year in which the crop is normally harvested.

For all purposes under the contract alfalfa for harvest within the crop year shall be considered to have been planted as of the beginning of the insurance period for that crop year.

11. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 1953 crop year.

[SEAL] FEDERAL CROP INSURANCE CORPORATION.

§ 420.98 *Wyoming.*

§ 420.98–2 *Washakie County.*

RIDER NO. 1 TO THE MULTIPLE CROP INSURANCE POLICY

(Applicable in Washakie County, Wyo., Beginning With the 1953 Crop Year)

1. *Insurable crops.* For the purpose of the multiple crop insurance program the insurable crops are:

(a) Corn planted for silage.

(b) Barley (spring only) planted for harvest as grain.

(c) Dry edible beans (Pinto and Great Northern).

(d) Oats (spring only) planted for harvest as grain.

(e) Tame hay. (Insurance on hay to attach the first crop year of the contract only if the application is filed on or before September 30 preceding the calendar year in which the crop for that crop year is normally harvested.)

2. *Coverage per acre.* The coverage per acre for each insured crop shall be reduced 50 percent for any acreage released by the Corporation and planted to a substitue crop.

3. *Insurance period.* Insurance shall attach at the time of planting to any insured acreage of any insured crop except hay on which insurance shall attach on November 1 (preceding harvest) provided there is a stand on that date sufficient that farmers in the area generally would leave it for harvest the following harvest season. Insurance shall cease with respect to any portion of the corn crop upon harvesting (cutting the corn for silage), the hay crop upon baling or stacking, all other insured crops upon threshing, or with respect to any portion of any crop upon removal from the field, whichever is earlier. However, in no event shall insurance remain in effect (a) with respect to any crop later than the earlier of (i) the end of the normal harvest period for such crop or (ii) December 10, unless such time is extended in writing by the Corporation, and (b) with respect to any insurance unit later than the date of submission of a claim for indemnity.

4. *Predetermined price for valuing production.* In determining any loss under the contract, production of each insurable crop shall be evaluated at the predetermined price established by the Corporation for that crop and shown on the county actuarial table. The predetermined prices for the 1953 crop year are on file in the county office and for any subsequent crop year shall be on file in the county office at least 15 days prior to the cancellation date. However, any production of barley or oats which will not meet the latest available requirements for a Commodity Credit Corporation loan or support because of poor quality due to insurable causes, and would not meet these requirements if properly handled, shall be evaluated at a value per unit determined by the Corporation. In order to provide quality protection on dry edible beans, production of beans shall be determined on the basis of sound whole beans.

5. *Released crop.* Notwithstanding any other provision of the policy any crop on any insured acreage may be released by the Corporation subject to an appraisal by the Corporation of the yield that would be realized if the crop were harvested.

6. *Amount of loss.* (a) The amount of loss with respect to any insurance unit shall be determined by (1) multiplying the insurable acreage (exclusive of any acreage to which insurance did not attach) planted to each insured crop by the applicable coverage per acre, and the result by the insured interest, and (2) subtracting from the total thereof the insured interest in the value (based on the predetermined price) of the total production on such acreage of all insured crops. However, the amount of loss

so determined shall be reduced if the premium computed for the insurance unit on the basis of the acreage and interest approved by the Corporation on the acreage report is less than the premium computed for the planted acreage on the insurance unit. This reduction shall be made on the basis of the ratio of the premium computed for the acreage and interest as approved by the Corporation on the acreage report to the premium computed for the planted acreage. The total production for each insured crop on the insurance unit shall include all production determined in accordance with the production schedule below. Where any small grains are seeded with an insured growing small grain crop on acreage not released by the Corporation, all production shall be counted as the insured small grain on a weight basis. In the case of a volunteer crop produced with an insured crop, the production of such volunteer crop shall be included in determining the production of the insured crop.

The Corporation reserves the right to determine the amount of production on the basis of an appraisal of any unharvested crop standing in the field.

PRODUCTION SCHEDULE

Crop	Acreage classification	Total production [1]
1. Each insured crop	Acreage released by the Corporation and planted to a substitute crop.	That portion of the appraised production for such acreage which is in excess of the number of bushels, pounds or tons determined by (1) subtracting the total coverage for such acreage from what the total coverage for such acreage would be if it were not planted to a substitute crop, and (2) dividing the result thus obtained by the predetermined price for the crop.
2. Each insured crop	Acreage not planted to a substitute crop.	The appraised production or the actual production.
3. Each insured crop	Acreage put to another use without the consent of the Corporation.	Appraised production for such acreage but not less than the product of (1) such acreage and (2) the bushel, pound or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop.
4. Each insured crop	Acreage with reduced yield due solely to cause(s) not insured against.	Appraised number of bushels, pounds, or tons by which production for such acreage has been reduced but not less than the product of (1) such acreage and (2) the applicable bushel, pound, or ton equivalent of the coverage per acre on the basis of the predetermined price for the crop, minus the number of bushels, pounds, or tons harvested.
5. Each insured crop	Acreage with reduced yield due partially to cause(s) not insured against and partially to cause(s) insured against.	Appraised number of bushels, pounds, or tons by which production for such acreage has been reduced because of cause(s) not insured against.

[1] Production and allowances shall be in bushels for barley and oats, pounds for beans, tons (rounded to tenths) for hay and corn silage.

(b) If production from two or more insurance units is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, the Corporation may allocate the commingled production between the units involved in any manner it deems appropriate or void the insurance on the insurance units involved and declare the premium(s) for such units forfeited by the insured. If production from uninsured acreage and insured acreage is commingled and the insured fails to establish and maintain separate acreage and production records satisfactory to the Corporation, all such production which is commingled shall be considered to have been produced on the insured acreage or the Corporation may void the insurance on the insurance unit(s) involved and declare the premium(s) for such unit(s) forfeited by the insured.

7. *Irrigated acreage.* (a) In addition to the provisions of section 4 of the policy, the following provisions shall apply: (1) the acreage of insured crops in any year shall not exceed that acreage which can be irrigated adequately with the facilities available and with a supply of irrigation water which reasonably could be expected, taking into consideration the amount of water required to irrigate the acreage of all irrigated crops on the farm. (2) Insurance shall not attach with respect to acreage planted to insurable crops (i) the first year after being leveled or (ii) the first year such acreage is irrigated.

(b) In addition to the causes of loss insured against as shown on the first page of the policy, the contract shall cover loss due to failure of the water supply from natural causes that could not be foreseen and prevented by the insured.

(c) In addition to the causes of loss not insured against as shown in section 8 of the policy, the contract shall not cover loss caused by (1) failure properly to apply irrigation water to any insurable crop in accordance with good farming practices, as determined by the Corporation, and (2) shortage of irrigation water on any farm where the Corporation determines that the total acreage of all irrigated crops on the farm is in excess of that which could be irrigated properly with the facilities available and with the supply of irrigation water which reasonably could be expected.

8. *Date table.*

Discount date: June 30.
Maturity date: July 31.
Interest date: October 31.
Cancellation date: August 31.

9. *Definitions.* For all purposes under the contract hay for harvest within the crop year shall be considered to have been planted as of the beginning of the insurance period for that crop year.

Notwithstanding the provisions of section 24 (d) of the policy "crop year" with respect to hay means each 12-month period beginning with the first day of the insurance period and shall be designated by reference to the calendar year in which the crop is normally harvested.

10. *Reduction of premium based on good experience.* The insured's annual premium for any year may be reduced 25 percent if he has had seven consecutive years of insured crop(s) under a Federal Crop Insurance contract without a loss for which an indemnity was paid. Credit for consecutive years of good experience under any other existing Federal Crop Insurance contract will not be transferred to the multiple crop contract if the insured is eligible to receive a premium discount based on consecutive years of good experience or based on an accumulated balance of premiums over indemnities under such existing contract. Nothing in this paragraph shall create in the insured any right to a reduced premium.

Approved: Beginning with the 1953 crop year.

FEDERAL CROP INSURANCE CORPORATION.

Chapter VII—Production and Marketing Administration (Agricultural Adjustment), Department of Agriculture

PART 729—PEANUTS

COUNTY ACREAGE ALLOTMENTS FOR THE 1953 CROP; GEORGIA

Basis and purpose. Section 358 (e) of the Agricultural Adjustment Act of 1938, as amended (7 U. S. C. 1358 (e)), provides that the Secretary of Agriculture may, if the State Production and Marketing Administration Committee recommends such action and the Secretary determines that such action will facilitate the effective administration of the provisions of the act, provide for the apportionment of the State acreage allotment among the counties in the State on the basis of the past acreage of peanuts harvested for nuts (excluding acreage in excess of farm allotments) in the county during the five years immediately preceding the year in which such apportionment is made, with such adjustments as are deemed necessary for abnormal conditions affecting acreage, for trends in acreage, and for additional allotments for types of peanuts in short supply under the provisions of section 358 (c) of the act. The State Production and Marketing Administration Committee for the State of Georgia has recommended that the 1953 State peanut acreage allotment heretofore established (17 F. R. 10537) be apportioned among the peanut-producing counties in the State pursuant to the provisions of section 358 (e) of the act. It is hereby determined that apportionment of the 1953 Georgia peanut acreage allotment among the counties in the State will facilitate the effective administration of the provisions of the act, and the purpose of this document is to announce such apportionment.

The recommendation of the Georgia State Production and Marketing Administration Committee to apportion the 1953 State peanut acreage allotment among the counties was made after due consideration of such data, views, and recommendations as were received pursuant to public notice (17 F. R. 9563) given in accordance with the Administrative Procedure Act (5 U. S. C. 1003), and the determinations made in § 729.404 were made on the basis of the latest available statistics of the Federal Government. Peanut farmers in Georgia are now making plans for the production of peanuts in 1953. In order that the State and county Production and Marketing Administration committees may establish farm acreage allotments and issue notices thereof to farm operators at the earliest possible date, it is essential that the county acreage allotments contained in § 729.404 be made effective as soon as possible. Accordingly, it is hereby determined and found that compliance with the 30-day effective date provision of the Administrative Procedure Act is impracticable and contrary to the public interest, and the county acreage allotments contained in § 729.404 shall be effective upon filing of the document with the Director, Division of the Federal Register.

§ 729.404 *1953 county peanut acreage allotments.*

Issued at Washington, D. C., this 10th day of December 1952. Witness my hand and the seal of the Department of Agriculture.

[SEAL] CHARLES F. BRANNAN, *Secretary of Agriculture.*

[F. R. Doc. 52-13168; Filed, Dec. 12, 1952; 8:58 a. m.]

PART 730—RICE

NATIONAL MARKETING QUOTAS AND ACREAGE ALLOTMENTS ON 1953 CROP

Sec.
730.401 Basis and purpose.
730.402 Marketing quotas on 1953 crop of rice.
730.403 1953 acreage allotments for rice.

AUTHORITY: §§ 730.401 to 730.403 issued under sec. 375, 52 Stat. 66; 7 U. S. C. 1375. Interpret or apply secs. 301, 352, 354, 52 Stat. 38, as amended; 7 U. S. C. 1301, 1352, 1354.

§ 730.401 *Basis and purpose.* (a) Section 730.402 is issued under sections 301 and 354 of the Agricultural Adjustment Act of 1938, as amended, to proclaim the total supply and normal supply of rice for the marketing year beginning August 1, 1952, and to proclaim that marketing quotas will not be applicable to the 1953 crop of rice. Section 730.403 is issued under sections 304 and 371 (b) of the Agricultural Adjustment Act of 1938, as amended, to announce that no national, State, county, or farm acreage allotments will be determined for 1953. Section 352 of the act requires the Secretary of Agriculture each year to ascertain and proclaim the national acreage allotment of rice.

(b) Section 371 (b) of the act authorizes the Secretary to dispense with the national marketing quota or national acreage allotment for any basic agricultural commodity if he finds, after appropriate investigation, that such action is necessary to effectuate the declared policy of the act, or to meet a national emergency or increase in export demand for the commodity. Section 304 of the act provides that in carrying out the purposes of the act it shall be the duty of the Secretary to give due regard to the maintenance of a continuous and stable supply of agricultural commodities from domestic production adequate to meet consumer demand at prices fair to both producers and consumers.

(c) The findings and determinations made in § 730.402, which are based on the latest available statistics of the Federal Government, show that marketing quotas for the 1953 crop of rice are not required. Accordingly, § 730.402 states that marketing quotas will not be in effect for that crop.

(d) Pursuant to section 371 (b) of the act, an investigation has been made to determine whether acreage allotments should be in effect for the 1953 crop of rice. On the basis of that investigation, it is hereby found and determined that it is necessary, in order to effectuate the declared policy of the act and to meet the present national emergency in food production, to dispense with national, State, county, and farm acreage allotments for the 1953 crop of rice. That action is made effective by the issuance of § 730.403.

(e) Prior to taking the action herein, public notice was given (17 F. R. 9670), in accordance with the Administrative Procedure Act (5 U. S. C. 1003), that the Secretary was preparing to determine whether marketing quotas and acreage allotments are required for the 1953 crop of rice. The notice also stated that the Secretary had under consideration the matter of dispensing with marketing quotas and acreage allotments under the applicable provisions of the act, including sections 304 and 371 (b). All written submissions which were received within the period stated in the notice have been considered within the limits permitted by the Agricultural Adjustment Act of 1938, as amended.

§ 730.402 *Marketing quotas on 1953 crop of rice.* The total supply of rice for the marketing year beginning August 1, 1952, is determined to be 51.165 thousand 100-lb. bags. The normal supply of rice for such marketing year is determined to be 53.381 thousand 100-lb. bags. Since the total supply of rice for the 1952–53 marketing year is smaller than the normal supply therefor, marketing quotas shall not be in effect on the 1953 crop of rice.

§ 730.403 *1953 acreage allotments for rice.* No national, State, county, or farm acreage allotments of rice will be determined for 1953.

Issued at Washington, D. C., this 10th day of December 1952.

[SEAL] CHARLES F. BRANNAN, *Secretary of Agriculture.*

[F. R. Doc. 52-13169; Filed, Dec. 12, 1952; 8:59 a. m.]

Chapter IX—Production and Marketing Administration (Marketing Agreements and Orders), Department of Agriculture

[Lemon Reg. 465]

PART 953—LEMONS GROWN IN CALIFORNIA AND ARIZONA

LIMITATION OF SHIPMENTS

§ 953.572 *Lemon Regulation 465*—(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 53, as amended (7 CFR Part 953; 14 F. R. 3612), regulating the handling of lemons grown in the State of California or in the State of Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U. S. C. 601 et seq.), and upon the basis of the recommendation and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of the quantity of such lemons which may be handled, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication thereof in the FEDERAL REGISTER (60 Stat. 237; 5 U. S. C. 1001 et seq.) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions of this section effective as hereinafter set forth. Shipments of lemons, grown in the State of California or in the State of Arizona, are currently subject to regulation pursuant to said amended marketing agreement and order; the recommendation and supporting information for regulation during the period specified herein was promptly submitted to the Department after an open meeting of the Lemon Administrative Committee on December 10, 1952; such meeting was held, after giving due notice thereof to consider recommendations for regulation, and interested persons were afforded an opportunity to submit their views at this meeting; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period hereinafter specified; and compliance with this section will not require any special preparation on the part of persons subject thereto which cannot be completed by the effective time of this section.

(b) *Order.* (1) The quantity of lemons grown in the State of California or in the State of Arizona which may be handled during the period beginning at 12:01 a. m., P. s. t., December 14, 1952, and ending at 12:01 a. m., P. s. t., December 21, 1952, is hereby fixed as follows:

(i) District 1: 30 carloads;

(ii) District 2: 185 carloads;

(iii) District 3: 10 carloads.

(2) The prorate base of each handler who has made application therefor, as provided in the said amended marketing agreement and order, is hereby fixed in accordance with the prorate base schedule which is attached hereto and made a part hereof by this reference.

(3) As used in this section, "handled," "handler," "carloads," "prorate base," "District 1," "District 2" and "District 3," shall have the same meaning as when used in the said amended marketing agreement and order.

(Sec. 5, 49 Stat. 753, as amended; 7 U. S. C. and Sup., 608c)

Done at Washington, D. C., this 11th day of December 1952.

[SEAL] M. W. BAKER,
Acting Director, Fruit and Vegetable Branch, Production and Marketing Administration.

TITLE 15—COMMERCE AND FOREIGN TRADE

Chapter III—Bureau of Foreign and Domestic Commerce, Department of Commerce

Subchapter C—Office of International Trade

[6th Gen. Rev. of Export Regs., Amdt. 23]

PART 373—LICENSING POLICIES AND RELATED SPECIAL PROVISIONS

Section 373.41 *Special provisions for rice* is amended in the following particulars:

1. Subdivision (iii) of paragraph (a) *Licensing of exports to Cuba*, subparagraph (1) *Initial licenses*, is hereby deleted.

2. Paragraph (b) *Licensing of exports to Japan, Indonesia, and Ceylon—allocation period August 1, 1952, to December 31, 1952* is amended to read as follows:

(b) *Licensing of exports to Far Eastern countries—(1) Supporting information.* Each application must be supported by: (i) A true copy of the sales contract with the foreign purchaser; (ii) a true copy of the letter of credit; (iii) evidence that the applicant has rice available to cover the sales contract; and (iv) the import license number, where an import license is required by the importing country.

(2) *Sales prior to September 10, 1952.* Applications to be considered under the provisions of this paragraph must be received fully documented in OIT not later than December 22, 1952. Applications in this category received subsequent to December 22, 1952 will be considered in accordance with the provisions of subparagraph (3) of this paragraph. Preference in licensing action will be given to license applications based on sales contracts entered into prior to September 10, 1952 and which meet the provisions of subparagraph (1) of this paragraph. Licenses will be granted in the full amount of application if the total of all such applications for a specific country does not exceed the allocation to that country. If the total of all such applications for a country exceeds the allocation, licenses will be prorated and certain quantity adjustments may be made to facilitate shipments in cargo or half-cargo lots.

(3) *Sales on and subsequent to September 10, 1952.* Applications based on sales entered into on and subsequent to September 10, 1952 and applications under the provisions of subparagraph (2) of this paragraph, received subsequent to December 22, 1952 which meet the conditions of subparagraph (1) of this paragraph, will be considered for licensing if the total of those licenses issued in accordance with subparagraph (2) of this paragraph, does not exhaust the country allocation. These applications, if fully supported as specified in subparagraph (1) of this paragraph, will be considered in the order of receipt in the OIT.

3. The title of paragraph (c) *To defense and occupied areas* is amended to read as follows:

(c) *Defense and occupied areas.*

4 Paragraph (d) *Licensing of exports to other countries and areas—allocation period August 1, 1952, to December 31, 1952* is amended to read as follows:

(d) *Licensing of exports to other countries and areas.* Each application must be supported by: (1) A true copy of the sales contract with the foreign purchaser; (2) a true copy of the letter of credit, or evidence of any other means of financing to be used; and (3) the import license number where an import license is required by the importing country.

5. The first unnumbered paragraph of the Note following paragraph (d) remains unchanged.

6. The second unnumbered paragraph of the Note following paragraph (d) is amended to read as follows:

All licenses issued against the January-March 1953 allocation will expire April 30, 1953, except for applications receiving special handling which will be valid for only 30 days from date of issuance.

(Sec. 3, 63 Stat. 7; 65 Stat. 43; 50 U. S. C. App. Sup. 2023. E. O. 9630, Sept. 27, 1945, 10 F. R. 12245, 3 CFR, 1945 Supp.; E. O. 9919, Jan. 3, 1948, 13 F. R. 59, 3 CFR, 1948 Supp.)

This amendment shall become effective as of December 12, 1952.

LORING K. MACY,
Director,
Office of International Trade.

TITLE 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket 5691]

PART 3—DIGEST OF CEASE AND DESIST ORDERS

RHODES PHARMACAL CO., INC., ET AL.

Subpart—*Advertising falsely or misleadingly:* § 3.90 *History of product or offering;* § 3.135 *Nature—Product or service;* § 3.170 *Qualities or properties of product or service.* In connection with the offering for sale, sale and distribution of the drug product "Imdrin", or any product of substantially similar composition or possessing substantially similar properties, whether sold under the same name or under any other name, disseminating, etc., by means of the United States Mails, or in commerce, or by any means, to induce, etc., directly or indirectly, the purchase in commerce, etc., of said drug preparation "Imdrin", which advertisements represent, directly or by implication, (a) that the taking of said preparation will constitute an adequate, effective or reliable treatment for neuritis, sciatica, gout, neuralgia, fibrositis, bursitis, or any other kind of arthritic or rheumatic condition; (b) that said preparation will arrest the progress or correct the underlying causes of, or will cure, neuritis, sciatica, gout, neuralgia, fibrositis, or bursitis, or any other kind of arthritic or rheumatic condition; (c) that said preparation will afford any relief of severe aches, pains, and discomforts of neuritis, sciatica, gout, neuralgia, fibrositis, bursitis, or any other arthritic or rheumatic condition, or have any therapeutic effect upon any of the symptoms or manifestations of any such condition in excess of affording temporary and partial relief of minor aches, pains, or fever; (d) that said preparation is remarkable, amazing, or sensational, or that it is a sensational new discovery or scientific research, or a new discovery; (e) that persons afflicted with neuritis, sciatica, gout, neuralgia, fibrositis, bursitis, or any other kind of arthritic or rheumatic condition, so severely that such afflictions interfere with their normal habits of life or their ability to carry on their regular occupations will be enabled, by taking the drug preparation "Imdrin," to resume such normal habits or regular occupations; or, (f) that the taking of said preparation will have any therapeutic effect upon the functioning of the enzyme systems of the blood or bones; prohibited.

(Sec. 6, 38 Stat. 722; 15 U. S. C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended; 15 U. S. C. 45) [Cease and desist order, Rhodes Pharmacal Company, Inc., et al., Cleveland, Ohio, Docket 5691, October 3, 1952]

In the Matter of Rhodes Pharmacal Company, Inc., and J. Sanford Rose and Jerome H. Rose, Individually and as Officers of Rhodes Pharmacal Company, Inc.

This proceeding was heard by Abner E. Lipscomb, hearing examiner, upon the complaint of the Commission, respondents' answer, and hearings at which testimony and other evidence, duly recorded and filed in the office of the Commission in support and in opposition to the allegations of said complaint, were introduced before said examiner theretofore duly designated by the Commission.

Thereafter the proceeding regularly came on for final consideration by said examiner, upon the complaint, answer thereto, testimony and other evidence, proposed findings as to the facts and conclusions presented by counsel, oral argument not having been requested; and said examiner, having duly considered the record in the matter and having found that the proceeding was in the interest of the public, made his initial decision comprising certain findings as to the facts,[1] conclusion drawn therefrom,[1] and order to cease and desist.

Thereafter, following respondents' appeal from said initial decision, the matter was disposed of by the Commission's "Order Denying Appeal from Initial Decision of the Hearing Examiner, Decision of the Commission and Order to File Report of Compliance," dated October 3, 1952, as follows:

This matter having come on to be heard by the Commission upon respondents' appeal from the initial decision of the hearing examiner, briefs in support of and in opposition to said appeal and oral argument of counsel; and

The Commission, upon consideration of the entire record herein, having decided, for the reasons stated in the written opinion of the Commission which is being issued simultaneously herewith, that all of the findings as to the facts contained in the initial decision are supported by reliable, substantial, and probative evidence of record; that the conclusion contained therein is correct; and that the order to cease and desist therein is proper upon this record and is required to provide proper relief from respondents' illegal practices; and

The Commission, therefore, being of the opinion that respondents' appeal

[1] Filed as part of the original document.

cannot be completed by the effective time of this section.

Chula Vista Citrus Association, The		.506

rice is amended in the following particulars:

from and exceptions to the hearing examiner's initial decision are of no merit and that said initial decision is appropriate in all respects to dispose of this proceeding:

It it ordered, That the appeal of respondents from the initial decision of the hearing examiner be, and it hereby is, denied.

It is further ordered, That the initial decision of the hearing examiner shall on the 3d day of October 1952, become the decision of the Commission.

It is further ordered, That respondents, Rhodes Pharmacal Company, Inc., J. Sanford Rose and Jerome H. Rose, shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with the order to cease and desist contained in said initial decision, a copy of which is attached hereto.

The order to cease and desist in said initial decision, thus made the decision of the Commission, is as follows:

It is ordered, That the respondents Rhodes Pharmacal Company, Inc., a corporation, and J. Sanford Rose and Jerome H. Rose, individually and as officers of said corporation, directly or through any corporate or other device, in connection with the offering for sale, sale and distribution of the drug preparation "Imdrin", or any product of substantially similar composition or possessing substantially similar properties, whether sold under the same name or under any other name, do forthwith cease and desist from directly or indirectly:

1. Disseminating or causing to be disseminated, by means of the United States mails or by any means in commerce, as "commerce" is defined in the Federal Trade Commission Act, any advertisement which represents, directly or by implication:

(a) That the taking of said preparation will constitute an adequate, effective or reliable treatment for neuritis, sciatica, gout, neuralgia, fibrositis, bursitis, or any other kind of arthritic or rheumatic condition;

(b) That said preparation will arrest the progress or correct the underlying causes of, or will cure, neuritis, sciatica, gout, neuralgia, fibrositis, or bursitis, or any other kind of arthritic or rheumatic condition;

(c) That said preparation will afford any relief of severe aches, pains, and discomforts of neuritis, sciatica, gout, neuralgia, fibrositis, bursitis, or any other arthritic or rheumatic condition, or have any therapeutic effect upon any of the symptoms or manifestations of any such condition in excess of affording temporary and partial relief of minor aches, pains, or fever;

(d) That said preparation is remarkable, amazing, or sensational, or that it is a sensational new discovery of scientific research, or a new discovery;

(e) That persons afflicted with neuritis, sciatica, gout, neuralgia, fibrositis, bursitis, or any other kind of arthritic or rheumatic condition, so severely that such afflictions interfere with their normal habits of life or their ability to carry on their regular occupations will be enabled, by taking the drug preparation, "Imdrin" to resume such normal habits or regular occupations;

(f) That the taking of said preparation will have any therapeutic effect upon the functioning of the enzyme systems of the blood or bones.

2. Disseminating or causing to be disseminated any advertisement by any means for the purpose of inducing, or which is likely to induce, directly or indirectly, the purchase in commerce, as "commerce" is defined in the Federal Trade Commission Act, of the drug preparation "Imdrin", which advertisement contains any of the representations prohibited in Paragraph 1 hereof.

By the Commission.[1]

Issued: October 3, 1952.

[SEAL] D. C. DANIEL, *Secretary.*

[F. R. Doc. 52-13167; Filed, Dec. 12, 1952; 8:58 a. m.]

TITLE 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Federal Security Agency

PART 146—CERTIFICATION OF BATCHES OF ANTIBIOTIC AND ANTIBIOTIC-CONTAINING DRUGS

MISCELLANEOUS AMENDMENTS

By virtue of the authority vested in the Federal Security Administrator by the provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 52 Stat. 1040, 1055, as amended by 59 Stat. 463, 61 Stat. 11, 63 Stat. 409; 21 U. S. C. 357), the regulations for certification of antibiotic and antibiotic-containing drugs (21 CFR 1951 Supp., Part 146; 17 F. R. 8533) are amended as indicated below:

1. Section 146.62 (b) is amended to read:

§ 146.62 *Animal feed containing penicillin.* • • •

(b) If it is intended for veterinary use in the cure, mitigation, treatment, or prevention of disease, and—

(1) It contains a drug certified under section 507 of the act for use in mixing such feed, with or without para-aminobenzoic acid (containing not less than 98.0 percent para-aminobenzoic acid);

(2) It has been mixed in accordance with the directions in the labeling of such certified drug; and

(3) The labeling of the feed bears only the indications and directions for use that were approved when the drug was certified; provided that this exemption shall apply also to feeds in which the feed manufacturer has mixed para-aminobenzoic acid (containing not less than 98.0 percent para-aminobenzoic acid) and a drug certified for use without it, if the feed contains 0.1 percent para-aminobenzoic acid and the feed manufacturer has submitted to the Commissioner copies of the feed labeling and has obtained approval of it.

[1] Commissioner Caretta not participating for the reason that oral argument on the merits was heard prior to his appointment to the Commission.

2. a. Section 146.216 is amended by changing the headnote and paragraph (a) to read:

§ 146.216 *Aureomycin therapeutic formula for animal feed; aureomycin-vitamin B_{12} therapeutic formula for animal feed (if it is represented as containing the vitamin B_{12}); aureomycin-para-aminobenzoic acid therapeutic formula for animal feed (if it is represented as containing para-aminobenzoic acid); aureomycin-vitamin B_{12}-para-aminobenzoic acid therapeutic formula for animal feed (if it is represented as containing vitamin B_{12} and para-aminobenzoic acid)*—(a) *Standards of identity, strength, quality, and purity.* Aureomycin therapeutic formula for animal feed is aureomycin with or without vitamin B_{12} and/or para-aminobenzoic acid (containing not less than 98.0 percent para-aminobenzoic acid) in a suitable and harmless diluent. It contains not less than 5.0 grams of aureomycin per pound. Its moisture content is not more than 6 percent.

b. Section 146.216 (c) (1) (ii) is amended to read:

(c) *Labeling.* • • •

(1) • • •

(ii) The number of grams of aureomycin in each pound of the batch, and if it contains vitamin B_{12} and/or para-aminobenzoic acid, the quanity of each such ingredient in each pound of the batch.

c. In § 146.216, subparagraph (2) of paragraph (d) *Request for certification; samples* is amended by changing the words "immediate containers" to read "pounds", and the figures "20" and "100" to read "5" and "12", respectively.

d. In § 146.216, subparagraph (1) of paragraph (e) *Fees* is amended by changing the figure "$1.00" to read "$4.00".

This order, which provides for the addition of para-aminobenzoic acid to aureomycin therapeutic formula for animal feed, and for the conditional exemption from certification of animal feed containing certified drugs with or without para-aminobenzoic acid, shall become effective upon publication in the FEDERAL REGISTER, since both the public and the affected industry will benefit by the earliest effective date, and I so find.

Notice and public procedure are not necessary prerequisites to the promulgation of this order, and I so find, since it conditionally relaxes existing requirements for certification of batches of animal feeds, it has been drawn in collaboration with interested members of the affected industry, and since it would be against public interest to delay providing for the use of para-aminobenzoic acid in animal feeds and to delay relaxing the requirement that feeds containing para-aminobenzoic acid be certified.

(Sec. 701, 52 Stat. 1055; 21 U. S. C. 371. Interpret or apply sec. 507, 59 Stat. 463, as amended; 21 U. S. C. and Sup. 357)

Dated: December 9, 1952.

[SEAL] JOHN L. THUESTON, *Acting Administrator.*

TITLE 26—INTERNAL REVENUE

Chapter I—Bureau of Internal Revenue, Department of the Treasury

Subchapter A—Income and Excess-Profits Taxes

[T. D. 5956]

PART 7—TAXATION PURSUANT TO TREATIES

SUBPART—NORWAY

Sec.
7.100 Introductory.
7.101 Interest.
7.102 Dividends.
7.103 Patent and copyright royalties and film rentals.
7.104 Natural resource royalties and real property rentals.
7.105 Pensions and life annuities.
7.106 Release of excess tax withheld at source.
7.107 Information to be furnished in ordinary course.
7.108 Beneficiaries of a domestic estate or trust.
7.109 Refund of excess tax withheld during 1951.

AUTHORITY: §§ 7.100 to 7.109 issued under 53 Stat. 32, 467; 26 U. S. C. 62, 3791.

§ 7.100 *Introductory.* (a) The income tax convention between the United States and the Kingdom of Norway, signed June 13, 1949, proclaimed by the President of the United States on December 13, 1951, and effective for taxable years beginning on or after January 1, 1951, hereinafter referred to as the convention, provides in part as follows:

ARTICLE I

(1) The taxes referred to in this Convention are:

(a) In the case of the United States of America: The Federal income tax, including surtaxes.

(b) In the case of Norway: The national and the communal income taxes, including the old age pension tax, the war pension tax, the tax on bank deposits and the seamen's tax.

(2) The present Convention shall also apply to any other income taxes of a substantially similar character imposed by either contracting State subsequently to the date of signature of the present Convention.

ARTICLE II

(1) As used in this Convention:

(a) The term "United States" means the United States of America, and when used in a geographical sense includes only the States, the Territories of Alaska and Hawaii, and the District of Columbia.

(b) The term "Norway" means the Kingdom of Norway; the provisions of the Convention shall not, however, extend to Svalbard and Jan Mayen, nor do they apply to the Norwegian dependencies outside Europe.

(c) The term "permanent establishment" means a branch office, factory, workshop, warehouse or other fixed place of business, but does not include the casual and temporary use of merely storage facilities, nor does it include an agency unless the agent has and exercises a general authority to negotiate and conclude contracts on behalf of an enterprise or has a stock of merchandise from which he regularly fills orders on its behalf. An enterprise of one of the contracting States shall not be deemed to have a permanent establishment in the other State merely because it carries on business dealings in such other State through a bona fide commission agent, broker or custodian acting in the ordinary course of his business as such. The fact that an enterprise of one of the contracting States maintains in the other State a fixed place of business exclusively for the purchase of goods or merchandise shall not of itself constitute such fixed place of business a permanent establishment of such enterprise. The fact that a corporation of one contracting State has a subsidiary corporation which is a corporation of the other State or which is engaged in trade or business in the other State shall not of itself constitute that subsidiary corporation a permanent establishment of its parent corporation.

(d) The term "enterprise of one of the contracting States" means, as the case may be, "United States enterprise" or "Norwegian enterprise".

(e) The term "enterprise" includes every form of undertaking whether carried on by an individual, partnership, corporation, or any other entity.

(f) The term "United States enterprise" means an enterprise carried on in the United States by a resident of the United States or by a United States corporation or other entity; the term "United States corporation or other entity" means a partnership, corporation or other entity created or organized in the United States or under the law of the United States or of any State or Territory of the United States.

(g) The term "Norwegian enterprise" means an enterprise carried on in Norway by a resident of Norway or by a Norwegian corporation or other entity; the term "Norwegian corporation or other entity" means a partnership, corporation or other entity created or organized in Norway or under Norwegian laws.

(h) The term "competent authorities" means, in the case of the United States, the Commissioner of Internal Revenue or his authorized representative; and in the case of Norway, the Ministry of Finance and Customs.

(2) In the application of the provisions of the present Convention by one of the contracting States any term not otherwise defined shall, unless the context otherwise requires, have the meaning which such term has under its own tax laws.

• • • • • •

ARTICLE VI

Interest on bonds, securities, notes, debentures, or on any other form of indebtedness derived from sources within one of the contracting States by a resident or corporation or other entity of the other contracting State not having a permanent establishment in the former State shall be exempt from taxation in such former State.

ARTICLE VII

Royalties and other amounts derived, as consideration for the right to use copyrights, artistic and scientific works, patents, designs, secret processes and formulas, trade-marks and other like property (including rentals and like payments in respect of motion picture films), from sources within one of the contracting States by a resident or corporation or other entity of the other contracting State not having a permanent establishment in the former State shall be exempt from taxation in such former State: *Provided*, That each of the contracting States reserves the right according to the principles of Article IV to deny a deduction to the payor thereof for such royalty or any portion thereof as is not considered by the Revenue authorities of such State to be reasonable consideration for the right to use the property referred to in this Article.

ARTICLE VIII

(1) Income from real property (not including interest derived from mortgages and bonds secured by real property) and royalties in respect of the operation of mines, quarries, or other natural resources, shall be taxable only in the contracting State in which such property, mines, quarries, or other natural resources are situated.

(2) A resident or corporation of one of the contracting States deriving any such income from sources within the other contracting State may, for any taxable year, elect to be subject to the tax of such other contracting State, on a net basis, as if such resident or corporation were engaged in trade or business within such other contracting State through a permanent establishment therein during such taxable year.

• • • • • •

ARTICLE XI

• • • • • •

(2) Private pensions and life annuities derived from within one of the contracting States and paid to individuals residing in the other contracting State shall be exempt from taxation in the former State.

(3) The term "pensions", as used in this Article, means periodic payments made in consideration for services rendered or by way of compensation for injuries received.

(4) The term "life annuities" as used in this Article means a stated sum payable periodically at stated times during life, or during a specified number of years, under an obligation to make the payments in return for adequate and full consideration in money or money's worth.

• • • • • •

ARTICLE XV

With a view to the more effective imposition of the taxes to which the present Convention relates, each of the contracting States undertakes, subject to reciprocity, to furnish such information in the matter of taxation, which the authorities of the State concerned have at their disposal or are in a position to obtain under their own law, as may be of use to the authorities of the other State in the assessment of the taxes in question and to lend assistance in the service of documents in connection therewith. Any information so exchanged shall be treated as secret and shall only be disclosed to persons (including a court) concerned with the assessment, determination and collection of the taxes which are the subject of the present Convention, or the determination of appeals in relation thereto. No information shall be exchanged which would disclose a trade, business, industrial or professional secret. Information and correspondence relating to the subject matter of this Article shall be exchanged between the competent authorities of the contracting States in the ordinary course or on request.

ARTICLE XVI

In accordance with the preceding Article and insofar as may be found to be practicable, the competent authorities of each contracting State shall forward to the competent authorities of the other contracting State as soon as practicable after the close of each calendar year the following information relating to such calendar year:

The names and addresses of all addressees within such other State deriving from sources within the former State dividends, interest, royalties, pensions, annuities, wages, salaries, rents, or other fixed or determinable annual or periodical income, showing the amount of such income with respect to each addressee.

• • • • • •

ARTICLE XVIII

The State to which application is made for information or assistance shall comply as soon as possible with the request addressed to it except that such State may refuse to comply with the request for reasons of public policy or if compliance would involve violation of a trade, business, industrial, or professional secret.

• • • • • •

ARTICLE XX

(1) The provisions of this Convention shall not be construed to deny or affect in any manner the right of diplomatic and consular officers to other or additional exemptions now enjoyed or which may hereafter be granted to such officers.

(2) The provisions of the present Convention shall not be construed to restrict in any manner any exemption, deduction, credit or other allowance now or hereafter accorded by the laws of one of the contracting States in the determination of the tax imposed by such State.

(3) Should any difficulty or doubt arise as to the interpretation or application of the present Convention, or its relationship to Conventions between one of the contracting States and any other State, the competent authorities of the contracting States may settle the question by mutual agreement.

ARTICLE XXI

(1) The competent authorities of the two contracting States may prescribe regulations necessary to carry into effect the present Convention within the respective States. With respect to the provisions of this Convention relating to exchange of information, service of documents, and mutual assistance in the collection of taxes, such authorities may, by common agreement, prescribe rules concerning matters of procedure, forms of application and replies thereto, conversion of currency, disposition of amounts collected, costs of collection, minimum amounts subject to collection and related matters.

(2) The competent authorities of the two contracting States may communicate with each other directly for the purpose of giving effect to the provisions of this Convention.

ARTICLE XXII

(1) The present Convention shall be ratified and the instruments of ratification shall be exchanged at Washington as soon as possible. It shall have effect for the taxable years beginning on or after the first day of January of the year in which such exchange takes place.

(2) The present Convention shall continue effective for a period of five years and indefinitely after that period, but may be terminated by either of the contracting States at the end of the five-year period or at any time thereafter, provided that at least six months' prior notice of termination has been given and, in such event, the present Convention shall cease to be effective for the taxable years beginning on or after the first day of January next following the expiration of the six-month period.

• • • • •

(b) As used in this Treasury decision, any term defined in the above articles of the convention shall have the meaning so assigned to it; any term not so defined shall, unless the context otherwise requires, have the meaning which such term has under the Internal Revenue Code.

§ 7.101 *Interest*—(a) *General.* Interest on bonds, securities, notes, debentures, or on any other form of indebtedness, including interest on obligations of the United States, obligations of instrumentalities of the United States, and mortgages and bonds secured by real property, derived from sources within the United States and received in taxable years beginning on or after January 1, 1951, by a nonresident alien (including a nonresident alien individual, fiduciary, and partnership) who is a resident of Norway, or by a Norwegian corporation or other entity, is exempt from United States tax under the provisions of Article VI of the convention if such alien, corporation, or other entity at no time during the taxable year had a permanent establishment in the United States. Such interest is, therefore, not subject to the withholding provisions of the Internal Revenue Code. As to what constitutes a permanent establishment, see Article II (1) (e) of the convention.

(b) *Application of exemption from withholding.* (1) To stop withholding at the source in the case of coupon bond interest the nonresident alien resident in Norway, or the Norwegian corporation or other entity, shall for each issue of bonds submit Form 1001–NO in duplicate to the paying agent with each presentation of interest coupons. Such form shall be signed by the owner of the interest, trustee, or agent and shall show the name and address of the obligor, the name and address of the owner of such interest, and the amount of such interest. Such form shall contain a statement that the owner (i) is a resident of Norway, or is a Norwegian corporation or other entity, and (ii) has no permanent establishment in the United States.

(2) The exemption from United States tax contemplated by Article VI of the convention, insofar as it concerns coupon bond interest, is applicable only to the owner of such interest. The person presenting such coupon, or on whose behalf it is presented, shall for the purpose of the exemption from tax be deemed to be the owner of the interest only if he is, at the time the coupon is presented for payment, the owner of the bond from which the coupon has been detached. If the person presenting the coupon is not the owner of the bond, Form 1001, and not Form 1001–NO, shall be executed.

(3) The original and duplicate ownership certificates, Form 1001–NO, shall be forwarded to the Commissioner of Internal Revenue by the withholding agent with the quarterly return on Form 1012, as provided in existing regulations with respect to Form 1001. See § 29.143–7 of this chapter (Regulations 111). Form 1001–NO need not be listed on Form 1012.

(4) For general provisions pertaining to the use, without reference to the provisions of the convention, of ownership certificate, Form 1001, by nonresident aliens and nonresident foreign corporations, see §§ 29.143–4 and 29.143–6 of this chapter.

(5) To stop withholding at the source in the case of interest, other than interest payable by means of coupons, the nonresident alien resident in Norway, or the Norwegian corporation or other entity, shall notify the withholding agent by letter in duplicate that such income is exempt from United States tax under the provisions of Article VI of the convention. The letter of notification shall be signed by the owner of the interest, trustee, or agent and shall show the name and address of the obligor and the name and address of the owner of such interest. It shall also contain a statement that the owner is (i) neither a citizen nor a resident of the United States but is a resident of Norway or (ii) a Norwegian corporation or other entity and that such owner has at no time during the current taxable year had a permanent establishment in the United States. In addition, it shall contain a declaration that it is made under the penalties of perjury, such declaration to consist of a statement similar to the following: "I declare under the penalties of perjury that this letter has been examined by me and to the best of my knowledge and belief is true and correct."

(6) This letter of notification, which shall constitute authorization for the payment of such interest without withholding of United States tax at source, shall be filed with the withholding agent for each successive three-calendar-year period during which such income is paid. For this purpose, the first such period shall commence with the beginning of the calendar year in which such income is first paid on or after January 1, 1952. Each such letter filed with any withholding agent shall be filed not later than 20 days preceding the date of the first payment within each successive period; or, if such first payment first occurs in the calendar year 1952, not later than 45 days following the date of approval of this Treasury decision.

(7) If such letter is also to be used as authorization for the release, pursuant to § 7.106 (a), of excess tax withheld from interest, other than interest payable by means of coupons, it shall also contain a statement that the owner was, at the time when the interest was derived from which the excess tax was withheld, (i) neither a citizen nor a resident of the United States but was a resident of Norway, or (ii) a Norwegian corporation or other entity, and that such owner at no time during the taxable year in which the interest was derived had a permanent establishment in the United States.

(8) Once a letter has been filed in respect of any three-calendar-year period, no additional letter need be filed in respect thereto unless the Commissioner of Internal Revenue notifies the withholding agent that an additional letter shall be filed by the taxpayer. If, after filing a letter of notification, the taxpayer ceases to be eligible for the exemption from United States tax provided by the convention in respect to such income, he shall promptly notify the withholding agent by letter in duplicate. When any change occurs in the ownership of the interest as recorded on the books of the payer, the exemption from United States tax will no longer apply unless a letter of notification is duly executed and filed with the withholding agent by the new owner of record of such interest.

(9) Each letter of notification, or the duplicate thereof, shall be immediately forwarded by the withholding agent to the Commissioner of Internal Revenue, Uniform Audit Branch, Alien Returns Section, Washington 25, D. C.

§ 7.102 *Dividends.* The convention does not change the rate of tax imposed by sections 211 (a) and 231 (a) of the Internal Revenue Code upon dividends. The withholding of the tax with respect to such income derived from sources within the United States by nonresident aliens who are residents of Norway, or by Norwegian corporations or other entities, is not affected by the convention. See sections 143 (b) and 144 of the Internal Revenue Code.

§ 7.103 *Patent and copyright royalties and film rentals*—(a) *General.* Royalties and other amounts (including rentals and like payments for the use of, or for the right to use, motion picture films) derived from sources within the United States and received in taxable years beginning on or after January 1, 1951, by a nonresident alien (including a nonresident alien individual, fiduciary, and partnership) who is a resident of Norway, or by a Norwegian corporation, or other entity, as consideration for the right to use copyrights, artistic and scientific works, patents, designs, secret processes and formulas, trade-marks, and other like property, are exempt from United States tax under the provisions of Article VII of the convention if such alien, corporation, or other entity at no time during the taxable year had a permanent establishment in the United States. Such items of income are, therefore, not subject to the withholding provisions of the Internal Revenue Code. As to what constitutes a permanent establishment, see Article II (1) (e) of the convention.

(b) *Application of exemption from withholding.* (1) To stop withholding at the source in the case of the items of income described in paragraph (a) of this section, the nonresident alien resident in Norway, or the Norwegian corporation or other entity, shall notify the withholding agent by letter in duplicate that such income is exempt from United States tax under the provisions of Article VII of the convention. The provisions of § 7.101 (b) of these regulations relating to the execution, filing, and effective period of the letter of notification prescribed therein with respect to interest (other than coupon bond interest), including its use for the release of excess tax withheld, are equally applicable with respect to the income falling within the scope of this section.

(2) Each letter of notification, or the duplicate thereof, shall be immediately forwarded by the withholding agent to the Commissioner of Internal Revenue, Uniform Audit Branch, Alien Returns Section, Washington 25, D. C.

§ 7.104 *Natural resource royalties and real property rentals.* The convention does not change the rate of tax imposed by sections 211 (a) and 231 (a) of the Internal Revenue Code upon natural resource royalties and real property rentals. The withholding of the tax with respect to such items derived from sources within the United States by nonresident aliens who are residents of Norway, or by Norwegian corporations or other entities, is not affected by the convention. See sections 143 (b) and 144 of the Internal Revenue Code and Article VIII of the convention.

§ 7.105 *Pensions and life annuities*—(a) *General.* Private pensions and life annuities, as defined in Article XI (3) and (4) of the convention, derived from sources within the United States and paid in taxable years beginning on or after January 1, 1951, to a nonresident alien individual who is a resident of Norway are exempt from United States tax under the provisions of Article XI (2) of the convention. Such items of income are, therefore, not subject to the withholding provisions of the Internal Revenue Code.

(b) *Application of exemption from withholding.* (1) To stop withholding at the source in the case of the items of income described in paragraph (a) of this section, the nonresident alien individual who is a resident of Norway shall notify the withholding agent by letter in duplicate that such income is exempt from United States tax under the provisions of Article XI of the convention. The letter of notification shall show the name and address of both the payer and the owner of the income and shall contain a statement that the owner, an individual, is neither a citizen nor a resident of the United States but is a resident of Norway. In addition, it shall be signed by the owner and shall contain a written declaration that it is made under the penalties of perjury, such declaration to consist of a statement similar to the following: "I declare under the penalties of perjury that this letter has been examined by me and to the best of my knowledge and belief is true and correct".

(2) If such letter is also to be used as authorization for the release, pursuant to § 7.106 (a), of excess tax withheld from such items of income, it shall also contain a statement that the owner was, at the time when the income was paid from which the excess tax was withheld, neither a citizen nor a resident of the United States but was an individual resident of Norway.

(3) This letter shall constitute authorization for the payment of such items of income without withholding of United States tax at source unless the Commissioner of Internal Revenue subsequently notifies the withholding agent that the tax shall be withheld with respect to payments of such items of income made after receipt of such notice. If, after filing a letter of notification, the owner of the income ceases to be eligible for the exemption from United States tax provided by the convention in respect to such income, he shall promptly notify the withholding agent by letter in duplicate. When any change occurs in the ownership of such income as recorded on the books of the payer, the exemption from United States tax will no longer apply unless a letter of notification is duly executed and filed with the withholding agent by the new owner of record of such income.

(4) Each letter of notification, or the duplicate thereof, shall be immediately forwarded by the withholding agent to the Commissioner of Internal Revenue, Uniform Audit Branch, Alien Returns Section, Washington 25, D. C.

§ 7.106 *Release of excess tax withheld at source*—(a) *General.* (1) In order to bring the convention into force and effect at the earliest practicable date, the exemption from tax otherwise withheld at the source from interest, patent royalties, copyright royalties, film rentals, and the like, and from private pensions and life annuities is hereby made effective beginning January 1, 1952, contingent upon compliance with the provisions of § § 7.101, 7.103, and 7.105.

(2) In the case of every taxpayer whose address at the time of payment was in Norway and who furnishes to the withholding agent the letter of notification prescribed in §§ 7.101 (b), 7.103 (b), or 7.105 (b) as authorization for the release of excess tax withheld, where United States tax at the statutory rate (30 percent as of the date of approval of this Treasury decision) has been withheld on or after January 1, 1952, from interest (other than coupon bond interest), patent royalties, copyright royalties, film rentals, and the like, and from private pensions and life annuities, there shall be released by the withholding agent and paid over to the person from whom it was withheld an amount equal to the tax so withheld.

(3) In the case of every owner, trustee, or agent whose address at the time of payment was in Norway and who furnishes to the withholding agent Form 1001–NO clearly marked "Substitute", where United States tax at the statutory rate (28 percent or 30 percent, as the case may be, as of the date of approval of this Treasury decision) has been withheld on or after January 1, 1952, from coupon bond interest, there shall be released by the withholding agent and paid over to the person from whom it was withheld an amount equal to the tax so withheld, if such taxpayer also attaches to the original copy only of such form a letter signed by the owner, trustee, or agent and containing the following:

(i) The name and address of the obligor;

(ii) The name and address of the owner of the coupon bond interest from which the excess tax was withheld (See § 7.101 (b) as to who shall be deemed to be the owner.);

(iii) The amount of the interest from which the excess tax was withheld, and, if possible, the date of payment;

(iv) A statement that the owner was, at the time when the interest was derived from which the excess tax was withheld, (a) neither a citizen nor a resident of the United States but was a resident of Norway, or (b) a Norwegian corporation or other entity;

(v) A statement that the owner at no time during the taxable year in which such interest was derived had a permanent establishment in the United States; and

(vi) A written declaration that the letter is made under the penalties of perjury, such declaration to consist of a statement similar to the following: "I declare under the penalties of perjury that this letter has been examined by me and to the best of my knowledge and belief is true and correct".

(4) One such substitute form shall be filed in duplicate (but with one copy only of the letter) with respect to each issue of bonds and will serve with respect to that issue to replace all Forms 1001 previously filed by the taxpayer in the calendar year in which the excess tax was

withheld and with respect to which such excess is released.

(5) The original (with attachment) and duplicate of substitute Form 1001–NO shall be forwarded to the Commissioner of Internal Revenue by the withholding agent with the quarterly return on Form 1012, as provided in existing regulations with respect to Form 1001. See § 29.143–7 of this chapter (Regulations 111). Substitute Form 1001–NO need not be listed on Form 1012.

(b) *Amounts withheld during 1951.* For provisions respecting the refund of excess tax withheld during the calendar year 1951, see § 7.109.

§ 7.107 *Information to be furnished in ordinary course.* (a) In compliance with the provisions of Articles XV, XVI, and XVIII of the convention the Commisisoner of Internal Revenue will transmit to the Norwegian Ministry of Finance and Customs, as soon as practicable after the close of the calendar year 1952 and of each subsequent calendar year during which the convention is in effect, the following information relating to such preceding calendar year:

(1) The name and address of each person whose address as disclosed on each available Form 1012 and Form 1042 is in Norway deriving from sources within the United States dividends, interest, rent, royalties, salaries, wages, pensions, annuities, and other fixed or determinable annual or periodical income; and the amount of such income as disclosed on such form with respect to each such person.

(2) The duplicate copy of each available ownership certificate, Form 1001–NO, filed pursuant to § 7.101 (b), and substitute Form 1001–NO, filed pursuant to § 7.106 (a), in connection with coupon bond interest.

(b) To facilitate compliance with the above Articles of the convention, every withholding agent shall report on Form 1042 for the calendar year 1952 and each subsequent calendar year, in addition to the items of income upon which United States tax is required to be withheld at source, those items of income paid to a nonresident alien (including a nonresident alien individual, fiduciary, and partnership) who is a resident of Norway, and to a nonresident Norwegian corporation or other entity, upon which United States tax is not required to be withheld at the source. Such return shall show the same information with respect to such items of income upon which tax is not required to be withheld at the source as is shown with respect to items of income upon which the tax is required to be withheld at the source. For provisions pertaining to the return on Form 1042, see § 29.143–7 of this chapter.

§ 7.108 *Beneficiaries of a domestic estate or trust.* A nonresident alien who is a resident of Norway and who is a beneficiary of a domestic estate or trust shall be entitled to the exemption from United States tax provided in Articles VI and VII of the convention with respect to interest, royalties, and other like amounts to the extent such item or items are included in his share of the distributed or distributable income of such estate or trust. In order to be entitled in such instance to the exemption from withholding of United States tax, such beneficiary must otherwise satisfy the requirements of these respective Articles of the convention and must execute and submit to the fiduciary of such estate or trust in the United States the appropriate letter of notification prescribed in §§ 7.101 (b) and 7.103 (b).

§ 7.109 *Refund of excess tax withheld during 1951.* (a) If United States tax withheld at the source during the calendar year 1951 from interest, royalties, pensions, or life annuities is in excess of the tax imposed by Chapter 1 (relating to the income tax) of the Internal Revenue Code, as modified by the convention, a claim by the taxpayer for the refund of any overpayment shall be made under section 322 of the Internal Revenue Code by filing Form 843 together with Form 1040NB, Form 1040NB–a, Form 1040B, or Form 1120NB, whichever is applicable, or with an amended return.

(b) The taxpayer's total gross income from sources within the United States, including every item of capital gain subject to tax under the provisions of section 211 (a) (1) (B) or 211 (c) of the Internal Revenue Code, shall be disclosed on the return. In the event that securities are held in the name of a person other than the actual or beneficial owner, the name and address of such person shall be furnished with the claim. There shall also be included in such claim for refund a statement:

(1) That the taxpayer was, at the time when the item or items of income were derived (or "paid", in the case of private pensions and life annuities) from which the excess tax was withheld, (i) a nonresident alien (including a nonresident alien individual, fiduciary, or partnership) who at such time was a resident of Norway, or (ii) a Norwegian corporation or other entity; and

(2) That the taxpayer at no time during the taxable year in which such item or items of income were derived had a permanent establishment in the United States.

(c) If, however, the taxpayer is an individual who during the taxable year was paid from sources within the United States income which consists exclusively of pensions or life annuities entitled to the benefit of Article XI of the convention, the statement specified in subparagraph (1) of this paragraph shall not be required.

Because it is necessary to bring into effect at the earliest practicable date the rules of this Treasury decision respecting exemptions from tax and the rules respecting release or refund of amounts withheld with respect to exempt income, it is hereby found that it is impracticable to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of that act.

[SEAL] JOHN S. GRAHAM,
Acting Commissioner of Internal Revenue.

Approved: December 9, 1952.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

PART 7—TAXATION PURSUANT TO TREATIES

SUBPART—NEW ZEALAND

Sec.
7.600 Introductory.
7.601 Dividends.
7.602 Interest.
7.603 Patent and copyright royalties, natural resource royalties, and real property rentals.
7.604 Film rentals.
7.605 Pensions and life annuities.
7.606 Release of excess tax withheld at source.
7.607 Addressee not actual owner.
7.608 Information to be furnished in ordinary course.
7.609 Beneficiaries of a domestic estate or trust.
7.610 Refund of excess tax withheld during 1951.

AUTHORITY: §§ 7.600 to 7.610 issued under 53 Stat. 32, 467; 26 U. S. C. 62, 3791.

§ 7.600 *Introductory.* (a) The income tax convention between the United States and New Zealand, signed March 16, 1948, proclaimed by the President of the United States on December 20, 1951, and effective as respects the United States tax for taxable years beginning on or after January 1, 1951, hereinafter referred to as the convention, provides in part as follows:

ARTICLE I

(1) The taxes which are the subject of the present Convention are—

(a) In New Zealand: The income-tax and social security charge (hereinafter referred to as New Zealand tax).

(b) In the United States of America: The Federal income taxes, including surtaxes (hereinafter referred to as United States tax).

(2) The present Convention shall also apply to any other taxes of a substantially similar character imposed by either Contracting Government subsequently to the date of signature of the present Convention or by the Government of any territory to which the present Convention is extended under Article XX.

ARTICLE II

(1) In the present Convention, unless the context otherwise requires—

(a) The term "United States" means the United States of America, and when used in a geographical sense means the States, the Territories of Alaska and of Hawaii, and the District of Columbia.

(b) For the purposes of this Convention New Zealand includes all islands and territories within the limits thereof for the time being including the Cook Islands.

(c) The terms "territory of one of the Contracting Governments" and "territory of the other Contracting Government" mean the United States or New Zealand, as the context requires.

(d) The term "tax" means United States tax or New Zealand tax, as the context requires.

(e) The term "person" includes any body of persons, corporate, or not corporate.

(f) The term "company" means any body corporate.

(g) The term "United States corporation" means a corporation, association, or other like entity created or organized in, or under the laws of, the United States.

(h) The term "New Zealand corporation" means any kind of juridical person created under the laws of New Zealand.

(i) The terms "corporation of one Contracting Government" and "corporation of the other Contracting Government" mean a United States corporation or a New Zealand corporation, as the context requires.

(j) The term "resident of New Zealand" means any person (other than a citizen of the United States or a United States corporation) who is resident in New Zealand for the purposes of New Zealand tax and not resident in the United States for the purposes of United States tax. A corporation is to be regarded as resident in New Zealand if it is incorporated under the laws of, or if its business is managed and controlled in, New Zealand.

(k) The term "resident of the United States" means any individual who is resident in the United States for the purposes of United States tax and not resident in New Zealand for the purposes of New Zealand tax, and any United States corporation and any partnership created or organized in, or under the laws of, the United States, being a corporation or partnership which is not resident in New Zealand for the purposes of New Zealand tax.

(l) The terms "resident of the territory of one of the Contracting Governments" and "resident of the territory of the other Contracting Government" mean a resident of the United States or a resident of New Zealand, as the context requires.

(m) The terms "United States enterprise" and "New Zealand enterprise" mean, respectively, an industrial or commercial enterprise or undertaking carried on by a resident of the United States and an industrial or commercial enterprise or undertaking carried on by a resident of New Zealand; and the terms "enterprise of one of the Contracting Governments" and "enterprise of the other Contracting Government" mean a United States enterprise or a New Zealand enterprise, as the context requires.

(n) The term "industrial or commercial profits" includes manufacturing, mercantile, mining, financial and farming profits, but does not include income in the form of dividends, interest, rents or royalties, insurance premiums, management charges, or remuneration for personal services.

(o) The term "permanent establishment", when used with respect to an enterprise of one of the Contracting Governments, means a branch, management, factory, mine, farm, or other fixed place of business, but does not include an agency unless the agent has, and habitually exercises, a general authority to negotiate and conclude contracts on behalf of such enterprise or regularly fills orders on its behalf from a stock of goods or merchandise.

An enterprise of one of the Contracting Governments shall not be deemed to have a permanent establishment in the territory of the other Contracting Government merely because it carries on business dealings in that territory through a bona fide broker or general commission agent acting in the ordinary course of his business as such.

The fact that an enterprise of one of the Contracting Governments maintains a fixed place of business exclusively for the purchase of goods or merchandise shall not of itself constitute that fixed place of business a permanent establishment of the enterprise.

The fact that a corporation of one Contracting Government has a subsidiary corporation which is a corporation of the other Contracting Government or which is engaged in trade or business in the territory of such other Contracting Government (whether through a permanent establishment or otherwise) shall not of itself constitute that subsidiary corporation a permanent establishment of its parent corporation. The maintenance within the territory of one of the Contracting Governments by an enterprise of the other Contracting Government of a warehouse for convenience of delivery and not for purposes of display shall not of itself constitute a permanent establishment within that territory even though offers of purchase have been obtained by an agent of the enterprise in that territory and transmitted by him to the enterprise for acceptance.

(2) In the application of the provisions of the present Convention by one of the Contracting Governments any term not otherwise defined shall, unless the context otherwise requires, have the meaning which it has under the laws of that Contracting Government relating to the taxes which are the subject of the present Convention.

* * * * *

ARTICLE VI

(1) The rate of United States tax on dividends derived from sources within the United States by a resident of New Zealand not engaged in trade or business within the United States through a permanent establishment therein shall not exceed 15 percent: Provided that such rate of tax shall not exceed 5 percent if such resident is a corporation controlling, directly or indirectly, at least 95 percent of the entire voting power in the corporation paying the dividend, and not more than 25 percent of the gross income of such paying corporation is derived from interest and dividends, other than interest and dividends received from its own subsidiary corporations. Such reduction of the rate to 5 percent shall not apply if the relationship of the two corporations has been arranged or is maintained primarily with the intention of securing such reduced rate.

(2) In the event that New Zealand should impose at any time tax on dividends derived from sources within New Zealand by a nonresident thereof, including a resident of the United States, not engaged in trade or business within New Zealand through a permanent establishment therein at a rate in excess of 15 percent (or 5 percent in cases corresponding to those within the scope of the proviso in paragraph (1) of this Article), either of the Contracting Governments may terminate this Article provided that notice of termination is given in writing, and, in such event, this Article shall cease to be effective as respects United States tax for the taxable years beginning on or after the first day of January next following the date on which such notice is given.

ARTICLE VII

(1) A resident of the territory of one of the Contracting Governments deriving from sources within the territory of the other Contracting Government—

(a) Royalties in respect of the operation of mines, quarries or natural resources, or

(b) Rentals from real property, or

(c) Royalties or other amounts paid as consideration for the use of, or for the privilege of using, any copyright, patent, design, secret process or formula, trademark or other like property,

may elect for any taxable year to be subject to the tax of such other Contracting Government, on a net basis, as if such resident were engaged in trade or business within the territory of such other Contracting Government through a permanent establishment therein during such taxable year.

(2) The provisions of this Article shall not apply to income falling within the scope of Article VIII of the present Convention.

ARTICLE VIII

(1) Rentals in respect of motion picture films derived from sources within the territory of one of the Contracting Governments by a resident of the territory of the other Contracting Government who is not engaged in trade or business through a permanent establishment in the former territory shall be exempt from tax by the former Government.

(2) The provisions of this Article shall not be construed to affect the New Zealand film hire tax or the income-tax imposed by New Zealand on income which is taxable under New Zealand law and which is derived by any person from the business of renting motion picture films.

* * * * *

ARTICLE XII

(1) Dividends paid by a New Zealand corporation shall be exempt from United States tax except where the recipient is a citizen of, or resident in, the United States or a United States corporation.

(2) Dividends paid by a United States corporation shall be exempt from New Zealand tax except where the recipient is resident in New Zealand.

* * * * *

ARTICLE XVI

(1) The taxation authorities of the Contracting Governments shall exchange such information (being information available under the respective taxation laws of the Contracting Governments) as is necessary for carrying out the provisions of the present Convention or for the prevention of fraud or for the administration of statutory provisions against legal avoidance in relation to the taxes which are the subject of the present Convention. Any information so exchanged shall be treated as secret and shall not be disclosed to any person other than persons (including a court) concerned with the assessment or collection of the taxes which are the subject of the present Convention or the determination of appeals in relation thereto. No information shall be exchanged which would disclose any trade secret or trade process.

(2) The term "taxation authorities" means, in the case of New Zealand, the Commissioner of Taxes or his authorized representative; in the case of the United States, the Commissioner of Internal Revenue or his authorized representative.

ARTICLE XVII

Each of the Contracting Governments may collect such tax imposed by the other Contracting Government as will ensure that the exemption or reduced rate of tax granted under the present Convention by such other Government shall not be enjoyed by persons not entitled to such benefits.

ARTICLE XVIII

* * * * *

(2) The taxation authorities of the two Contracting Governments may prescribe regulations to carry into effect the present Convention within the respective States and rules with respect to the exchange of information.

(3) The taxation authorities of the two Contracting Governments may communicate with each other directly for the purpose of giving effect to the provisions of the present Convention.

ARTICLE XIX

The provisions of the present Convention shall not be construed to restrict in any manner any exemption, deduction, credit or other allowance accorded by the laws of one of the Contracting Governments in the determination of the tax imposed by such Government.

• • • • •

ARTICLE XXI

(1) The present Convention shall be ratified and the instruments of ratification shall be exchanged at Washington as soon as possible.

(2) Upon exchange of instruments of ratification, the present Convention shall have effect—

(a) As respects United States tax, for the taxable years beginning on or after the first day of January in the calendar year in which occurs the exchange of the instruments of ratification,

(b) As respects New Zealand tax, for the year of assessment beginning on the first day of April next following the calendar year in which occurs the exchange of the instruments of ratification.

ARTICLE XXII

The present Convention shall continue effective for a period of two years and indefinitely after that period, but may be terminated by either Contracting Government at the end of such period or at any time thereafter, provided that at least six months' prior notice of termination has been given in writing and, in such event, the present Convention shall cease to be effective—

(a) As respects United States tax, for the taxable years beginning on or after the first day of January next following the expiration of the six-month period,

(b) As respects New Zealand tax, for the years of assessment beginning on or after the first day of April in the second year following the expiration of the six-month period.

• • • • •

(b) As used in this Treasury decision, any term defined in the provisions of the convention shall have the meaning so assigned to it; any term not so defined shall, unless the context otherwise requires, have the meaning which such term has under the Internal Revenue Code.

§ 7.601 *Dividends*—(a) *General.* (1) Under Article VI of the convention the rate of tax imposed with respect to dividends by section 211 (a) of the Internal Revenue Code (relating to nonresident alien individuals not engaged in trade or business within the United States) and by section 231 (a) of the Internal Revenue Code (relating to foreign corporations not engaged in trade or business within the United States) is reduced to 15 percent in the case of dividends derived from sources within the United States and received in taxable years beginning on or after January 1, 1951, by a nonresident alien (including a nonresident alien individual, fiduciary, and partnership) who is resident in New Zealand for the purposes of New Zealand tax, or by a foreign corporation (whether or not created or organized in or under the laws of New Zealand) whose business is managed and controlled in New Zealand or by a corporation incorporated under the laws of New Zealand, if such alien or corporation at no time during the taxable year was engaged in trade or business within the United States through a permanent establishment situated therein. As to what constitutes a permanent establishment, see Article II (1) (o) of the convention.

(2) Thus, if a nonresident alien individual who is resident in New Zealand for the purposes of New Zealand tax performs personal services within the United States during the taxable year, but has at no time during such year a permanent establishment within the United States, he is entitled to the reduced rate of tax with respect to dividends derived in that year from United States sources, as provided in Article VI of the convention, even though under the provisions of section 211 (b) of the Internal Revenue Code he has engaged in trade or business within the United States during such year by reason of his having rendered personal services therein.

(3) In the case of dividends paid on or after January 1, 1951, by a New Zealand corporation, as defined in Article II (1) (h) of the convention, no withholding of United States tax is required. See Article XII (1) of the convention.

(b) *Dividends paid by related corporation.* (1) Under the proviso of Article VI (1) of the convention, dividends derived from sources within the United States by a foreign corporation whose business is managed and controlled in New Zealand, or by a corporation incorporated under the laws of New Zealand, which controls directly or indirectly at the time the dividend is paid 95 percent or more of the entire voting power in the corporation paying the dividend are, when received in taxable years beginning on or after January 1, 1951, subject to United States tax at the rate of only 5 percent, if (i) not more than 25 percent of the gross income of the paying corporation for the three-year period immediately preceding the taxable year in which the dividend is paid consists of dividends and interest (other than dividends and interest received by such paying corporations from its own subsidiary corporations, if any), (ii) the relationship between the paying corporation and the foreign corporation, or between the paying corporation and the corporation incorporated under the laws of New Zealand, has not been arranged or maintained primarily with the intention of securing the reduced rate of 5 percent, and (iii) the foreign corporation, or the corporation incorporated under the laws of New Zealand, at no time during the taxable year was engaged in trade or business within the United States through a permanent establishment situated therein.

(2) Any corporation (hereinafter referred to as the claimant) which claims or contemplates claiming that dividends paid or to be paid by it are subject only to the 5 percent rate shall file the following information with the Commissioner of Internal Revenue as soon as practicable: (i) The date and place of its organization; (ii) the number of outstanding shares of stock of the claimant having voting power and the voting power thereof; (iii) the person or persons beneficially owning such stock of the claimant and their relationship to the foreign corporation, or to the corporation incorporated under the laws of New Zealand; (iv) the location, where applicable, of the management and control of the foreign corporation; (v) the amount of the gross income by years of the claimant for the three-year period immediately preceding the taxable year in which the dividend is paid; (vi) the amount of interest and dividends by years included in the gross income of the claimant, and the amount of interest and dividends by years received by the claimant from its own subsidiary corporations, if any; and (vii) the relationship between the claimant and the foreign corporation, or between the claimant and the corporation incorporated under the laws of New Zealand, deriving the dividend from sources within the United States.

(3) As soon as practicable after such information is filed, the Commissioner will determine whether the dividends concerned fall within the scope of the proviso of Article VI (1) of the convention and may authorize the release or refund of excess tax withheld with respect to dividends which come within such proviso. For additional requirements respecting the refund of excess tax withheld during 1951, see § 7.610.

(4) In any case in which the Commissioner has notified the claimant that the dividends fall within the scope of the proviso of Article VI (1) of the convention the reduced withholding rate of 5 percent, to the extent withholding of United States tax is required, will apply to any dividends subsequently paid by the claimant and derived by the foreign corporation, or by the corporation incorporated under the laws of New Zealand, unless the stock ownership of the claimant, or the character of its income, or, where applicable, the place of management and control of the foreign corporation deriving the dividend materially changes; or unless the Commissioner determines that the relationship between the two corporations concerned is being maintained primarily with the intention of securing the reduced rate of tax. In such instance, if such change in stock ownership, character of income, or place of management and control occurs, the claimant shall promptly notify the Commissioner of the then existing facts with respect thereto. The continued application of the reduced rate of 5 percent is also dependent upon the continued fulfillment of subdivision (iii) of subparagraph (1) of this paragraph.

(c) *Effect of address in New Zealand on withholding in case of dividends.* For the purpose of withholding of United States tax in the case of dividends every nonresident alien (including a nonresident alien individual, fiduciary, and partnership) whose address is in New Zealand shall be deemed by United States withholding agents to be a nonresident alien who is (1) resident in New Zealand for the purposes of New Zealand tax and (2) not engaged in trade or business within the United States through a permanent establishment situated therein; and every foreign corporation whose address is in New Zealand shall be deemed by such withholding agents to be either a foreign corporation whose business is managed and controlled in New Zealand or a corporation incorporated under the laws of New Zealand, neither engaged in trade or business within the United States through a permanent establishment situated therein.

(d) *Rate of withholding.* (1) Withholding at source in the case of dividends derived from sources within the United States and paid on or after January 1, 1952, to nonresident aliens (including a nonresident alien individual, fiduciary, and partnership) and to foreign corporations, whose addresses are in New Zealand, shall be at the rate of 15 percent in every case except that in which, prior to the date of payment of such dividends, the Commissioner of Internal Revenue has (i) pursuant to paragraph (b) of this section notified the claimant that such dividends fall within the scope of the proviso of Article VI (1) of the convention or (ii) notified the withholding agent that the reduced rate of withholding shall not apply.

(2) The preceding provisions respecting the application of the reduced withholding rate in the case of dividends paid to nonresident aliens and foreign corporations with addresses in New Zealand are based upon the assumption that the payee of the dividend is the actual owner of the capital stock from which the dividend is derived and consequently is the person liable to United States tax upon such dividend. As to action by the recipient who is not the owner of the dividend, see § 7.607.

(3) The rate at which United States tax has been withheld from any dividend paid at any time after the expiration of the thirtieth day after the date on which this Treasury decision is published in the FEDERAL REGISTER to any person whose address is in New Zealand at the time the dividend is paid shall be shown either in writing or by appropriate stamp on the check, draft, or other evidence of payment, or on an accompanying statement.

§ 7.602 *Interest.* The convention does not change the rate of tax imposed by sections 211 (a) and 231 (a) of the Internal Revenue Code upon interest. The withholding of the tax with respect to such income derived from sources within the United States by a nonresident alien who is resident in New Zealand for the purposes of New Zealand tax, by a foreign corporation whose business is managed and controlled in New Zealand, or by a corporation incorporated under the laws of New Zealand, is not affected by the convention. See sections 143 and 144 of the Internal Revenue Code.

§ 7.603 *Patent and copyright royalties, natural resource royalties, and real property rentals.* The convention does not change the rate of tax imposed by sections 211 (a) and 231 (a) of the Internal Revenue Code upon royalties and like amounts (other than film rentals). The withholding of the tax with respect to such income derived from sources within the United States by a nonresident alien who is resident in New Zealand for the purposes of New Zealand tax, by a foreign corporation whose business is managed and controlled in New Zealand, or by a corporation incorporated under the laws of New Zealand, is not affected by the convention. See sections 143 (b) and 144 of the Internal Revenue Code and Article VII of the convention. For special provisions relating to motion picture film rentals, see § 7.604.

§ 7.604 *Film rentals*—(a) *General.* Rentals derived from sources within the United States as consideration for the use of, or for the right to use, motion picture films and received in taxable years beginning on or after January 1, 1951, by a nonresident alien (including a nonresident alien individual, fiduciary, and partnership) who is resident in New Zealand for the purposes of New Zealand tax, or by a foreign corporation (whether or not created or organized in or under the laws of New Zealand) whose business is managed and controlled in New Zealand, or by a corporation incorporated under the laws of New Zealand, are exempt from United States tax under the provisions of Article VIII of the convention if such alien or corporation at no time during the taxable year was engaged in trade or business within the United States through a permanent establishment situated therein. Such rentals are, therefore, not subject to the withholding provisions of the Internal Revenue Code. As to what constitutes a permanent establishment, see Article II (1) (o) of the convention.

(b) *Application of exemption from withholding.* (1) To stop withholding at the source in the case of the rentals described in paragraph (a) of this section, the nonresident alien resident in New Zealand for the purposes of New Zealand tax, the foreign corporation whose business is managed and controlled in New Zealand, or the corporation incorporated under the laws of New Zealand shall notify the witholding agent by letter in duplicate that such income is exempt from United States tax under the provisions of Article VIII of the convention. The letter of notification shall be signed by the owner of the rentals, trustee, or agent and shall show the name and address of the obligor and the name and address of the owner of such rentals. It shall also contain a statement that the owner is (i) neither a citizen nor a resident of the United States but is resident in New Zealand for the purposes of New Zealand tax, or (ii) a foreign corporation whose business is managed and controlled in New Zealand, or (iii) a corporation incorporated under the laws of New Zealand, and that such owner has at no time during the current taxable year been engaged in trade or business within the United States through a permanent establishment situated therein. In addition, it shall contain a declaration that it is made under the penalties of perjury, such declaration to consist of a statement similar to the following: "I declare under the penalties of perjury that this letter has been examined by me and to the best of my knowledge and belief is true and correct".

(2) This letter of notification, which shall constitute authorization for the payment of such rentals without withholding of United States tax at source, shall be filed with the withholding agent for each successive three-calendar-year period during which such income is paid. For this purpose, the first such period shall commence with the beginning of the calendar year in which such income is first paid on or after January 1, 1952. Each such letter filed with any withholding agent shall be filed not later than 20 days preceding the date of the first payment within each successive period, or, if that is not possible because of special circumstances, as soon as possible after such first payment.

(3) If such letter is also to be used as authorization for the release, pursuant to § 7.606 (a), of excess tax withheld from such rentals, it shall also contain the following:

(i) The amount of the film rentals from which the excess tax was withheld, and, if possible, the date of payment;

(ii) A statement that the owner was, at the time when the rentals were derived from which the excess tax was withheld, (*a*) neither a citizen nor a resident of the United States but was resident in New Zealand for the purposes of New Zealand tax, or (*b*) a foreign corporation whose business at such time was managed and controlled in New Zealand, or (*c*) a corporation incorporated under the laws of New Zealand; and

(iii) A statement that the owner at no time during the taxable year in which such film rentals were derived was engaged in trade or business within the United States through a permanent establishment situated therein.

(4) Once a letter has been filed in respect of any three-calendar-year period, no additional letter may be filed in respect thereto unless the Commissioner of Internal Revenue notifies the withholding agent that an additional letter shall be filed by the taxpayer. If, after filing a letter of notification, the taxpayer ceases to be eligible for the exemption from United States tax provided by the convention in respect to such rentals, he shall promptly notify the withholding agent by letter in duplicate. When any change occurs in the ownership of the rentals as recorded on the books of the payer, the exemption from withholding of United States tax shall no longer apply unless a letter of notification is duly executed and filed with the withholding agent by the new owner of record of such rentals.

(5) Each letter of notification, or the duplicate thereof, shall be immediately forwarded by the withholding agent to the Commissioner of Internal Revenue, Uniform Audit Branch, Alien Returns Section, Washington 25, D. C.

§ 7.605 *Pensions and life annuities.* The convention does not change the rate of tax imposed by section 211 (a) of the Internal Revenue Code upon private pensions and life annuities. The withholding of the tax with respect to such items of income derived from sources within the United States by a nonresident alien individual who is resident in New Zealand for the purposes of New Zealand tax is not affected by the convention. See section 143 (b) of the Internal Revenue Code.

§ 7.606 *Release of excess tax withheld at source*—(a) *General.* (1) In order to bring the convention into force and effect at the earliest practicable date, the reduced rate of tax of 15 percent to be withheld at the source from dividends and the exemption from tax otherwise withheld at the source from film rentals are hereby made effective beginning January 1, 1952, contingent upon compliance with the provisions of §§ 7.601 and 7.604.

(2) In the case of dividends derived from sources within the United States and paid to a nonresident alien (including a nonresident alien individual, fiduciary, and partnership) or to a foreign corporation, whose address at the time of payment was in New Zealand, where United States tax at the statutory rate (30 percent as of the date of approval of this Treasury decision) has been withheld from such dividends on or after January 1, 1952, there shall be released (except as provided in paragraph (b) of this section) by the withholding agent and paid over to the person from whom it was withheld an amount which is equal to the amount obtained by subtracting 15 percent of such dividends from the tax so withheld.

(3) In the case of every taxpayer whose address at the time of payment was in New Zealand and who furnishes to the withholding agent the letter of notification prescribed in § 7.604 (b) as authorization for the release of excess tax withheld, where United States tax at the statutory rate (30 percent as of the date of approval of this Treasury decision) has been withheld from motion picture film rentals on or after January 1, 1952, there shall be released by the withholding agent and paid over to the person from whom it was withheld an amount equal to the tax so withheld.

(b) *Dividends paid by related corporation.* In the case of every corporation receiving notification from the Commissioner of Internal Revenue under the provisions of § 7.601 (b) that dividends paid or to be paid by it fall within the scope of the proviso of Article VI (1) of the convention, where United States tax in excess of the applicable rate of 5 percent has been withheld on or after January 1, 1952, from dividends which come within the scope of such proviso, the withholding agent shall, if so authorized in such notification, release and pay over to the corporation from which it was withheld the excess tax withheld with respect to such dividends.

(c) *Amounts withheld during 1951.* For provisions respecting the refund of excess tax withheld during the calendar year 1951, see § 7.610.

§ 7.607 *Addressee not actual owner.* (a) If the recipient in New Zealand of any dividend from sources within the United States, with respect to which United States tax at the reduced rate of 15 percent has been withheld at source pursuant to § 7.601 (d), is a nominee or representative through whom such dividend flows to a person other than one described in § 7.601 (a) as being entitled to such reduced rate, such recipient in New Zealand shall withhold an additional amount of United States tax equivalent to the United States tax which would have been withheld if the convention had not been in effect (30 percent of such dividend as of the date of approval of this Treasury decision) minus the 15 percent which has been withheld at the source.

(b) In any case in which a fiduciary or partnership with an address in New Zealand receives, otherwise than as a nominee or representative, a dividend from sources within the United States with respect to which United States tax at the reduced rate of 15 percent has been withheld at source pursuant to § 7.601 (d), if a beneficiary of such fiduciary or a partner in such partnership is not entitled to the reduced rate of tax provided in Article VI (1) of the convention, the fiduciary or partnership shall withhold an additional amount of United States tax with respect to the portion of such dividend included in such beneficiary's share of the distributed or distributable income, or in such partner's distributive share of the income, of such fiduciary or partnership, as the case may be. The amount of the additional tax is to be calculated in the same manner as under the immediately preceding paragraph.

(c) If any amount of United States tax is released pursuant to § 7.606 (a) by the withholding agent in the United States with respect to a dividend received by such a person with an address in New Zealand, the latter shall also withhold from such released amount any additional amount of United States tax, otherwise required to be withheld by the preceding provisions of this section in respect of such dividend, in the same manner as if at the time of payment of such dividend United States tax at the rate of only 15 percent had been withheld at source therefrom.

(d) The amounts so withheld by such withholding agents in New Zealand shall be deposited, without converting such amounts into United States dollars, with the New Zealand Commissioner of Taxes on or before the 15th day after the close of the quarter of the calendar year in which such withholding in New Zealand occurs. Each withholding agent making such deposit shall render therewith the appropriate New Zealand form as prescribed in regulations issued by the Commissioner of Taxes. The Commissioner of Taxes has arranged that the amounts so deposited will be remitted by draft in United States dollars to the Director of Internal Revenue, Baltimore, Maryland, U. S. A., on or before the end of the calendar month in which the deposits are made, such draft to be accompanied by the New Zealand form rendered by the withholding agents in New Zealand in connection with such deposits.

§ 7.608 *Information to be furnished in ordinary course.* (a) In compliance with the provisions of Article XVI of the convention the Commissioner of Internal Revenue will transmit to the New Zealand Commissioner of Taxes, as soon as practicable after the close of the calendar year 1952 and of each subsequent calendar year during which the convention is in effect, the following information relating to such preceding calendar year:

The name and address of each person, whose address as disclosed on each available Form 1012 and Form 1042 is in New Zealand, deriving from sources within the United States dividends, interest, rent, royalties, salaries, wages, pensions, annuities, and other fixed or determinable annual or periodical income; and the amount of such income as disclosed on such form with respect to each such person.

(b) To facilitate compliance with the above Article of the convention, every withholding agent shall report on Form 1042 for the calendar year 1952 and each subsequent calendar year, in addition to the items of income upon which United States tax is required to be withheld at source, those items of income paid to a nonresident alien (including a nonresident alien individual, fiduciary, and partnership) who is resident in New Zealand for the purposes of New Zealand tax, or to a nonresident foreign corporation whose business is managed and controlled in New Zealand, or to a nonresident corporation incorporated under the laws of New Zealand, upon which United States tax is not required to be withheld at the source. Such return shall show the same information with respect to such items of income upon which tax is not required to be withheld at the source as is shown with respect to items of income upon which the tax is required to be withheld at the source. For provisions pertaining to the return on Form 1042, see § 29.143–7 of this chapter.

§ 7.609 *Beneficiaries of a domestic estate or trust.* A nonresident alien who is resident in New Zealand for the purposes of New Zealand tax and who is a beneficiary of a domestic estate or trust shall be entitled to the exemption from, or reduction in the rate of, United States tax provided in Articles VI, VIII, and XII of the convention with respect to dividends and film rentals to the extent such item or items are included in his share of the distributed or distributable income of such estate or trust. In order to be entitled in such instance to the exemption from, or reduction in the rate of, withholding of United States tax such beneficiary must otherwise satisfy the requirements of these respective Articles of the convention and must, where applicable, execute and submit to the fiduciary of such estate or trust in the United States the letter of notification prescribed in § 7.604 (b).

§ 7.610 *Refund of excess tax withheld during 1951.* (a) If United States tax withheld at the source during the calendar year 1951 from dividends or film rentals is in excess of the tax imposed by Chapter 1 (relating to the income tax) of the Internal Revenue Code, as modified by the convention, a claim by the taxpayer for the refund of any overpayment shall be made under section 322 of the Internal Revenue Code by filing Form 843 together with Form 1040NB, Form 1040NB–a, Form 1040B, or Form 1120NB, whichever is applicable, or with an amended return.

(b) The taxpayer's total gross income from sources within the United States, including every item of capital gain subject to tax under the provisions of section 211 (a) (1) (B) or 211 (c) of the Internal Revenue Code, shall be disclosed on the return. In the event that securities are held in the name of a person other than the actual or beneficial owner, the name and address of such person shall be furnished with the claim. There shall also be included in such claim for refund a statement:

(1) That the taxpayer was, at the time when the item or items of income were derived, (i) a nonresident alien as to the United States (including a nonresident alien individual, fiduciary, or partnership) who at such time was resident in New Zealand for the purposes of New Zealand tax, (ii) a foreign corporation whose business at such time was managed and controlled in New Zealand, or (iii) a corporation incorporated under the laws of New Zealand; and

(2) That the taxpayer at no time during the taxable year in which the income was derived was engaged in trade or business within the United States through a permanent establishment situated therein.

(c) As to additional information required in the case of a foreign corporation, or of a corporation incorporated under the laws of New Zealand, claiming the benefit of the 5 percent rate on dividends paid by a related corporation, see § 7.601 (b).

Because it is necessary to bring into effect at the earliest practicable date the rules of this Treasury decision respecting reduced rates of, or exemptions from, tax and the rules respecting release or refund of amounts withheld in excess of such reduced rates, or with respect to exempt income, it is hereby found that it is impracticable to issue this Treasury decision with notice and public procedure thereon under section 4 (a) of the Administrative Procedure Act, approved June 11, 1946, or subject to the effective date limitation of section 4 (c) of that act.

[SEAL] JOHN S. GRAHAM,
Acting Commissioner of Internal Revenue.

Approved December 9, 1952.

THOMAS J. LYNCH,
Acting Secretary of the Treasury.

[F. R. Doc. 52–13159; Filed, Dec. 12, 1952; 8:55 a. m.]

TITLE 32—NATIONAL DEFENSE

Chapter IV—Joint Regulations of the Armed Forces

Subchapter A—Armed Services Procurement Regulation

PART 412—GOVERNMENT PROPERTY

MISCELLANEOUS AMENDMENTS

The following amendments and additions are made to Part 412—Government Property (32 CFR 412). All of the amendments and additions relate to the handling of government property in the possession of research and development contractors, when they are non-profit scientific or educational institutions performing under non-profit contracts. A separate manual for the control of such government property has been issued as Appendix C to this regulation. These changes incorporate the manual into the regulation, and provide for special contract clauses for the above-mentioned contractors, and are applicable to procurements initiated on and after 1 July 1952.

SUBPART A—GENERAL

1. The following § 412.101–9 is added.

§ 412.101–9 *Educational or other non-profit organization.* The term "educational or other nonprofit organization" means any corporation, foundation, trust, or institution operated for scientific or educational purposes, not organized for profit, no part of the net earnings of which inures to the profit of any private shareholder or individual.

2. Section 412.103 is amended to read as follows:

§ 412.103 *Control of Government property.* The "Manual for Control of Government Property in Possession of Contractors" is Appendix B to this subchapter, and the "Manual for Control of Government Property in Possession of non-Profit Research and Development Contractors" is Appendix C to this subchapter. Both Manuals are incorporated into this subchapter and made a part thereof.

SUBPART D—INDUSTRIAL FACILITIES

1. Section 412.409 is amended to read as follows:

§ 412.409 *Identification and records.* Each facilities contract under which industrial facilities are provided by the Government shall require the contractor, without cost to the Government thereunder, to maintain adequate property control records and a system of identification of such industrial facilities in accordance with the provisions of the "Manual for Control of Government Property in Possession of Contractors," (Appendix B) as in effect on the date of the contract, and in the case of facilities furnished to non-profit research and development contractors, in accordance with the provisions of the "Manual for Control of Government Property in Possession of Non-Profit Research and Development Contractors", (Appendix C) as in effect on the date of the contract. Nothing in this paragraph shall limit a contractor's rights with respect to costs properly allocable under other contracts.

SUBPART E—CONTRACT CLAUSES

1. Section 412.501 is amended to read as follows:

§ 412.501 *Applicability.* (a) As used in this subpart, the term "fixed-price contract for supplies or services" shall mean any contract (1) entered into either by formal advertising or by negotiation, but excluding purchase orders for $1,000 or less, letter contracts, letters of intent, preliminary notices of award and amendments or modifications to contracts or purchase orders; (2) at a fixed-price (with or without provisions for price redetermination, escalation, or other form of price adjustment) as covered in §§ 402.402 to 402.404 inclusive of this subchapter; and (3) for supplies or services other than the construction, alteration or repair of buildings, bridges, roads, or other kinds of real property.

(b) As used in this subpart, the term "cost-reimbursement type contract for supplies or services" shall mean any contract (other than a letter contract, letter of intent, preliminary notice of award, or amendment or modification of a contract) entered into by negotiation on a cost or cost-plus-a-fixed-fee basis as covered in §§ 402.404 to 402.406, inclusive, of this subchapter, for supplies or services other than the construction, alteration, or repair of buildings, bridges, roads, or other kinds of real property.

2. Section 412.502 is amended to read as follows:

§ 412.502 *Government - furnished property clause for fixed-price contracts.* The following clause shall be used in fixed-price contracts for supplies or services (except contracts for experimental, developmental, or research work with educational or non-profit institutions, where no profit to the Contractor is contemplated) under which a Department is to furnish to the Contractor, material, special tooling, or such industrial facilities as may be furnished under § 412.402 (a).

GOVERNMENT-FURNISHED PROPERTY

(a) The Government shall deliver to the Contractor, for use in connection with and under the terms of this contract, the property which the schedule or the specifications state the Government will furnish (hereinafter referred to as "Government-furnished property"). The delivery or performance dates for the supplies or services to be furnished by the Contractor under this contract are based upon the expectation that Government-furnished property of a type suitable for use will be delivered to the Contractor at the times stated in the schedule or if not so stated in sufficient time to enable the Contractor to meet such delivery or performance dates. In the event that Government-furnished property is not delivered to the Contractor by such time or times, the Contracting Officer shall, if requested by the Contractor, make a determination of the delay occasioned the Contractor thereby, and shall grant to the Contractor a reasonable extension of time in respect of such delivery or performance dates. The Government shall not be liable to the Contractor for damages or loss of profit by reason of any delay in delivery of or failure to deliver any or all of the Government-furnished property, except that in case of such delay or failure, upon the written request of the Contractor, an equitable adjustment shall be made in the delivery or performance dates, or price, or both, and in any other contractual provision affected thereby, in accordance with the procedures provided for in the clause of this contract entitled "Changes."

(b) By notice in writing, the Contracting Officer may decrease the property furnished or to be furnished by the Government under this contract. In any such case, upon the written request of the Contractor, an equitable adjustment shall be made in the delivery or performance dates, or price, or both, and in any other contractual provisions affected by such decrease, in accordance with the procedures provided for in the clause of this contract entitled "Changes."

(c) Title to the Government-furnished property shall remain in the Government. Title to Government-furnished property shall not be affected by the incorporation or attachment thereof to any property not owned

by the Government, nor shall such Government-furnished property, or any part thereof, be or become a fixture or lose its identity as personalty by reason of affixation to any realty. The Contrator shall maintain adequate property control records of Government-furnished property in accordance with the provisions of the "Manual for Control of Government Property in Possession of Contractors", dated March 1951.

(d) The Government-furnished property shall, unless otherwise provided herein, be used only for the performance of this contract.

(e) The Contractor shall maintain and administer, in accordance with sound industrial practice, a program for the maintenance, repair, protection and preservation of Government-furnished property, until disposed of by the Contractor in accordance with this clause. In the event that damaged or defective Government-furnished property is delivered to the Contractor, or any other damage occurs to Government-furnished property the risk of which has been assumed by the Government under this contract, the Government shall replace such items or the Contractor shall make such repair of the property as the Government directs: *Provided, however,* That if the Contractor cannot effect such repair within the time required, the Contractor may reject such property. The contract price includes no compensation to the Contractor for the performance of any repair or replacement for which the Government is responsible, and an equitable adjustment will be made in the contract price for any such repair or replacement of Government-furnished property made at the direction of the Government. Any repair or replacement for which the Contractor is responsible under the provisions of this contract shall be accomplished by the Contractor at its own expense.

The following provision (f) is for the use in advertised fixed-price contracts:

(f) Unless otherwise provided in this contract, the Contractor, upon delivery to it of any Government-furnished property, assumes the risk of, and shall be responsible for, any loss thereof or damage thereto except for reasonable wear and tear and except to the extent that such property is consumed in the performance of this contract.

The following provision (f) is for use in negotiated fixed-price contracts:

(f) (i) Except for loss, destruction or damage resulting from a failure of the Contractor due to willful misconduct or lack of good faith of any of the Contractor's managerial personnel as defined herein, to maintain and administer the program for the maintenance, repair, protection and preservation of the Government-furnished property, as required by paragraph (e) hereof, and except as specifically provided in clause(s) ____ of this contract, or in the clause or clauses of this contract designated in the Schedule, the Contractor shall not be liable for loss or destruction of or damage to the Government-furnished property (A) caused by any peril while the property is in transit off the Contractor's premises, or (B) caused by any of the following perils while the property is on the Contractor's or subcontractor's premises, or on any other premises where such property may properly be located, or by removal therefrom because of any of the following perils:

(I) Fire; lightning; windstorm, cyclone, tornado, hail; explosion; riot, riot attending a strike, civil commotion; vandalism and malicious mischief; sabotage; aircraft or objects falling therefrom; vehicles running on land or tracks, excluding vehicles owned or operated by the Contractor or any agent or employee of the Contractor; smoke; sprinkler leakage; earthquake or volcanic eruption; flood, meaning thereby rising of a body of water; hostile or warlike action, including action in hindering, combating, or defending against an actual, impending or expected attack by any government or sovereign power (de jure or de facto), or by any authority using military, naval, or air forces, or by an agent of any such government, power, authority, or forces; or

(II) Other peril, of a type not listed above, if such other peril is customarily covered by insurance (or by a reserve for self-insurance) in accordance with the normal practice of the Contractor, or the prevailing practice in the industry in which the Contractor is engaged with respect to similar property in the same general locale.

The perils as set forth in (A) and (B) above are hereinafter called "excepted perils."

The term "Contractor's managerial personnel" as used herein means the Contractor's directors, officers and any of its managers, superintendents, or other equivalent representatives who have supervision or direction of (I) all or substantially all of the Contractor's business; (II) all or substantially all of the Contractor's operation at any one plant or separate location at which the contract is being performed; (III) a separate and complete major industrial operation in connection with the performance of this contract.

(ii) The Contractor represents that it is not including in the price hereunder, and agrees that it will not hereafter include in any price to the Government, any charge or reserve for insurance (including self-insurance funds or reserves) covering loss or destruction of or damage to the Government-furnished property caused by any excepted peril.

(iii) Upon the happening of loss or destruction of or damage to any Government-furnished propery caused by an excepted peril, the Contractor shall notify the Contracting Officer thereof, and shall communicate with the Loss and Salvage Organization, if any, now or hereafter designated by the Contracting Officer, and with the assistance of the Loss and Salvage Organization so designated (unless the Contracting Officer has directed that no such organization be employed), shall take all reasonable steps to protect the Government-furnished property from further damage, separate the damaged and undamaged Government-furnished property, put all the Government-furnished property in the best possible order, and furnish to the Contracting Officer a statement of: (A) the lost, destroyed and damaged Government-furnished property (B) the time and origin of the loss, destruction or damage, (C) all known interests in commingled property of which the Government-furnished property is a part, and (D) the insurance, if any covering any part of or interest in such commingled property. The Contractor shall be reimbursed for the expenditures made by it in performing its obligations under this subparagraph (iii) (including charges made to the Contractor by the Loss and Salvage Organization, except any of such charges the payment of which the Government has, at its option, assumed directly), to the extent approved by the Contracting Officer and set forth in a Supplemental Agreement.

(iv) With the approval of the Contracting Officer after loss or destruction of or damage to Government-furnished property, and subject to such conditions and limitations as may be imposed by the Contracting Officer, the Contractor may, in order to minimize the loss to the Government or in order to permit resumption of business or the like, sell for the account of the Government any item of Government-furnished property which has been damaged beyond practicable repair, or which is so commingled or combined with property of others, including the Contractor, that separation is impracticable.

(v) Except to the extent of any loss or destruction of or damage to Government-furnished property for which the Contractor is relieved of liability under the foregoing provisions of this clause, and except for reasonable wear and tear or depreciation, or the utilization of the Government-furnished property in accordance with the provisions of this contract, the Government-furnished property (other than property permitted to be sold) shall be returned to the Government is as good condition as when received by the Contractor in connection with this contract, or as repaired under paragraph (e) above.

(vi) In the event the Contractor is reimbursed or compensated for any loss or destruction of or damage to the Government-furnished property, caused by an excepted peril, it shall equitably reimburse the Government. The Contractor shall do nothing to prejudice the Government's rights to recover against third parties for any such loss, destruction or damage and, upon the request of the Contracting Officer shall at the Government's expense, furnish to the Government all reasonable assistance and cooperation (including the prosecution of suit and the execution of instruments of assignment in favor of the Government) in obtaining recovery.

(vii) (Where applicable.) In the event any aircraft are to be furnished under this contract, any loss or destruction of, or damage to, such aircraft or other Government-furnished property occurring in connection with operations of said aircraft will be governed by the clause of this contract captioned "Flight Risks," to the extent such clause is, by its terms, applicable.

(g) The Government shall at all reasonable times have access to the premises wherein any Government-furnished property is located.

(h) Upon the completion of this contract, or at such earlier dates as may be fixed by the Contracting Officer, the Contractor shall submit, in a form acceptable to the Contracting Officer, inventory schedules covering all items of Government-furnished property not consumed in the performance of this contract (including any resulting scrap), or not theretofore delivered to the Government, and shall deliver or make such other disposal of such Government-furnished property, as may be directed or authorized by the Contracting Officer. Recoverable scrap from Government-furnished property shall be reported in accordance with a procedure and in such form as the Contracting Officer may direct. The net proceeds of any such disposal shall be credited to the contract price or shall be paid in such other manner as the Contracting Officer may direct.

(i) Directions of the Contracting Officer and communications of the Contractor issued pursuant to this Clause shall be in writing.

3. Section 412.503 is amended to read as follows.

§ 412.503 *Government property clause for cost-reimbursement type contracts.* The following clause shall be used in cost-reimbursement type contracts for supplies and services (except contracts for experimental, developmental, or research work with educational or nonprofit institutions, where no profit to the Contractor is contemplated) under which a Department is to furnish to the Contractor, or the Contractor is to acquire for the account of the Government, material, special tooling, or industrial facilities within the policy set forth in § 412.402 (a).

GOVERNMENT PROPERTY

(a) The Government shall deliver to the Contractor the property described in the Schedule or the Specifications at the times stated therein, or if not so stated in sufficient time to enable the Contractor to perform this contract. If any of such property

is not delivered to the Contractor by such time or times, the Contracting Officer, upon written request of the Contractor, shall equitably adjust the time of performance of this contract. In no event shall the Government be liable to the Contractor for damages or loss of profit by reason of any delay in or failure to deliver any or all of the items set forth in the Schedule or Specifications.

(b) Title to all property furnished by the Government shall remain in the Government. Title to all property purchased by the Contractor, for the cost of which the Contractor is entitled to be reimbursed as a direct item of cost under this contract, shall pass to and vest in the Government upon delivery of such property by the vendor. Title to other property, the cost of which is reimbursable to the Contractor under this contract, shall pass to and vest in the Government upon (i) issuance for use of such property in the performance of this contract, or (ii) commencement of processing or use of such property in the performance of this contract, or (iii) reimbursement of the cost thereof by the Government, whichever first occurs. All the items to be furnished by the Government, as set forth in the Schedule or Specifications, together with all property acquired by the Contractor title to which vests in the Government under this paragraph, are subject to the provisions of this clause and are hereinafter collectively referred to as "Government property."

(c) Title to the Government property shall not be affected by the incorporation or attachment thereof to any property not owned by the Government, nor shall such Government property, or any part thereof, be or become a fixture or lose its identity as personalty by reason of affixation to any realty. The Contractor shall maintain adequate property control records of the Government property and shall identify the Government property as such in accordance with the provisions of the "Manual for Control of Government property in Possession of Contractors," dated March 1951, which is incorporated herein by reference.

(d) The Government property provided or furnished pursuant to the terms of this contract shall, unless otherwise provided herein, be used only for the performance of this contract.

(e) The Contractor shall maintain and administer in accordance with sound industrial practice, a program for the maintenence, repair, protection and preservation of Government property so as to assure its full availability and usefulness for the performance of this contract. The Contractor shall take all reasonable steps to comply with all appropriate directions or instructions which the Contracting Officer may prescribe as reasonably necessary for the protection of Government property.

(f) (i) The Contractor shall not be liable for any loss of or damage to the Government property, or for expenses incidental to such loss or damage, except that the Contractor shall be responsible for any such loss or damage (including expenses incidental thereto) (A) which results from willful misconduct or lack of good faith on the part of any of the Contractor's directors or officers, or on the part of any of its managers, superintendents, or other equivalent representatives, who has supervision or direction of (I) all or substantially all of the Contractor's business, or (II) all or substantially all of the Contractor's operations at any one plant or separate location in which this contract is being performed, or (III) a separate and complete major industrial operation in connection with the performance of this contract; or (B) which results from a failure on the part of the Contractor, due to the willful misconduct or lack of good faith on the part of any of its directors, officers, or other representatives mentioned in subparagraph (A) above, to maintain and administer, in accordance with sound industrial practice, the program for maintenance, repair, protection and preservation of Government property as required by paragraph (e) hereof, or which results from a failure on the part of the Contractor to take all reasonable steps to comply with any appropriate written directions of the Contracting Officer under paragraph (e) hereof; or (C) for which the Contractor is otherwise responsible under the express terms of clause(s) ____ of this contract, or of the clause or clauses designated in the Schedule; or (D) which results from a risk expressly required to be insured under this contract, but only to the extent of the insurance so required to be procured and maintained, or to the extent of insurance actually procured and maintained, whichever is greater; or (E) which results from a risk which is in fact covered by insurance or for which the Contractor is otherwise reimbursed, but only to the extent of such insurance or reimbursement: *Provided,* That, if more than one of the above exceptions shall be applicable in any case, the Contractor's liability under any one exception shall not be limited by any other exception.

(ii) The Contractor shall not be reimbursed for, and shall not include as an item of overhead, the cost of insurance, or any provision for a reserve, covering the risk of loss of or damage to the Government property, except to the extent that the Government may have required the Contractor to carry such insurance under any other provision of this contract.

(iii) Upon the happening of loss or destruction of or damage to the Government property, the Contractor shall notify the Contracting Officer thereof, and shall communicate with the Loss and Salvage Organization, if any, now or hereafter designated by the Contracting Officer, and with the assistance of the Loss and Salvage Organization so designated (unless the Contracting Officer has designated that no such organization be employed), shall take all reasonable steps to protect the Government property from further damage, separate the damaged and undamaged Government property, put all the Government property in the best possible order, and furnish to the Contracting Officer a statement of (A) the lost, destroyed and damaged Government Property, (B) the time and origin of the loss, destruction or damage, (C) all known interests in commingled property of which the Government property is a part, and (D) the insurance, if any, covering any part of or interest in such commingled property. The Contractor shall make repairs and renovations of the damaged Government property or take such other action, as the Contracting Officer directs.

(iv) In the event the Contractor is indemnified, reimbursed, or otherwise compensated for any loss or destruction of or damage to the Government property, it shall use the proceeds to repair, renovate or replace the Government property involved, or shall credit such proceeds against the cost of the work covered by the contract, or shall otherwise reimburse the Government, as directed by the Contracting Officer. The Contractor shall do nothing to prejudice the Government's right to recover against third parties for any such loss, destruction or damage and, upon the request of the Contracting Officer, shall, at the Government's expense, furnish to the Government all reasonable assistance and cooperation (including the prosecution of suit and the execution of instruments of assignment in favor of the Government) in obtaining recovery.

For use where applicable. (v) In the event any aircraft are to be furnished under this contract, any loss or destruction of, or damage to, such aircraft or other Government property occurring in connection with operations of said aircraft will be governed by the clause of this contract captioned "Flight Risks," to the extent such clause is, by its terms, applicable.

(g) The Government shall at all reasonable times have access to the premises where any of the Government property is located.

(h) The Government property shall remain in the possession of the Contractor for such period of time as is required for the performance of this contract unless the Contracting Officer determines that the interests of the Government require removal of such property. In such case the Contractor shall promptly take such action as the Contracting Officer may direct with respect to the removal and shipping of Government property. In any such instance, the contract may be amended to accomplish an equitable adjustment in the terms and provisions thereof.

(i) Upon the completion of this contract, or at such earlier date as may be fixed by the Contracting Officer, the Contractor shall submit to the Contracting Officer in a form acceptable to him, inventory schedules covering all items of the Government property not consumed in the performance of this contract (including any resulting scrap), or not theretofore delivered to the Government, and shall deliver or make such other disposal of the Government property as may be directed by the Contracting Officer. Recoverable scrap shall be reported in accordance with a procedure and in such form as the Contracting Officer may direct. The net proceeds of any such disposal approved by the Contracting Officer shall be credited to the cost of the work covered by the contract or shall be paid in such manner as the Contracting Officer may direct.

(j) Unless otherwise provided herein, the Government shall not be under any duty or obligation to restore or rehabilitate, or to pay the costs of the restoration or rehabilitation of the Contractor's plant or any portion thereof which is affected by the removal of any Government property.

(k) Directions of the Contracting Officer and communications of the Contractor issued pursuant to this clause shall be in writing.

4. The following § 412.505 is added.

§ 412.505 *Government-furnished property clause for fixed-price contracts (nonprofit research and development contracts).* The following clause shall be used in fixed-price research and development contracts with nonprofit organizations (provided such contracts are executed on a nonprofit basis) under which a Department is to furnish property to the Contractor.

GOVERNMENT-FURNISHED PROPERTY

(a) The Government shall deliver to the Contractor, for use in connection with and under the terms of this contract, the property which the schedule or the specifications state the Government will furnish (hereinafter referred to as "Government-furnished property"). The delivery or performance dates for the supplies or services to be furnished by the Contractor under this contract are based upon the expectation that Government-furnished property of a type suitable for use will be delivered to the Contractor at the times stated in the schedule, or if not so stated, in sufficient time to enable the Contractor to meet such delivery or performance dates. In the event that Government-furnished property is not delivered to the Contractor by such time or times, the Contracting Officer shall, if requested by the Contractor, make a determination of the delay occasioned the Contractor thereby, and shall grant to the Contractor a reasonable extension of time in respect of such delivery or performance dates. The Government shall not be liable to the Contractor for damages or loss by

water; hostile or warlike action, including

directors, officers, or other representatives

reason of any delay in delivery of or failure to deliver any or all of the Government-furnished property, except that in case of such delay or failure, upon the written request of the Contractor, an equitable adjustment shall be made in the delivery or performance dates, or price, or both, and in any other contractual provision affected thereby, in accordance with the procedures provided for in the clause of this contract entitled "Changes."

(b) By notice in writing the Contracting Officer may decrease the property furnished or to be furnished by the Government under this contract. In any such case, upon the written request of the Contractor, an equitable adjustment shall be made in the delivery or performance dates, or price, or both, and in any other contractual provisions affected by such decrease, in accordance with the procedures provided for in the clause of this contract entitled "Changes."

(c) Title to the Government-furnished property shall remain in the Government. Title to Government-furnished property shall not be affected by the incorporation or attachment thereof to any property not owned by the Government, nor shall such Government-furnished property, or any part thereof, be or become a fixture or lose its identity as personalty by reason of affixation to any realty.

(d) The Government-furnished property shall, unless otherwise provided herein, and except as may be otherwise approved by the Contracting Officer, be used only for the performance of this contract.

(e) The Contractor shall maintain and administer, in accordance with sound business practice, a program for the maintenance, repair, protection and preservation of Government-furnished property, until disposed of by the Contractor in accordance with this clause. In the event that damaged or defective Government-furnished property is delivered to the Contractor, or any other damage occurs to Government-furnished property the risk of which has been assumed by the Government under this contract, the Government shall replace such items or the Contractor shall make such repair of the property as the Government directs: *Provided, however*, That if the Contractor cannot effect such repair within the time required, the Contractor may reject such property. The contract price includes no compensation to the Contractor for the performance of any repair or replacement for which the Government is responsible, and an equitable adjustment will be made in the contract price for any such repair or replacement of Government-furnished property made at the direction of the Government. Any repair or replacement for which the Contractor is responsible under the provisions of this contract shall be accomplished by the Contractor at its own expense.

(f) The provisions of Part III, Appendix C, Armed Services Procurement Regulation, Manual for Control of Government Property in Possession of Non-Profit Research and Development Contractors, as issued under date of June 1952, insofar as they relate to Government-furnished property, are herein incorporated by reference. The Contractor agrees to comply with the provisions thereof relating to the keeping of property control records, identification and marking, segregation and commingling, taking of inventories, and control of salvage and scrap, and the Contractor also accepts the responsibilities set forth in said Part III with respect to Government-furnished property.

(g) The Contractor agrees to make available to authorized representatives of the Contracting Officer at all reasonable times at the office of the Contractor all of its property records under this contract, and access to any premises where any of the Government-furnished property is located.

(h) (i) The Contractor shall not be liable for any loss of or damage to the Government-furnished property, or for expenses incidental to such loss or damage except that the Contractor shall be liable for any such loss or damage (including expenses incidental thereto):

(A) Which results from willful misconduct or lack of good faith on the part of any of the Contractor's directors or officers, or on the part of any of its managers, superintendents, or other equivalent representatives who have supervision or direction of all or substantially all of the Contractor's business, or all or substantially all of the Contractor's operations at any one plant, laboratory, or separate location in which this contract is being performed; or

(B) Which results from a failure on the part of the Contractor, due to the willful misconduct or lack of good faith on the part of any of its directors, officers, or other representatives mentioned in subparagraph (A) above, to maintain and administer, in accordance with sound business practice, the program for maintenance, repair, protection and preservation of Government-furnished property as required by subparagraph (e) above; or

(C) For which the Contractor is otherwise responsible under the express terms of clause(s) ---- of this contract, or of the clause or clauses designated in the (insert "task orders," "schedules," or "specifications" as appropriate); or

(D) Which results from a risk expressly required to be insured under some other provision of this contract, or of the schedules or task orders thereunder, but only to the extent of the insurance so required to be procured and maintained or to the extent of insurance actually procured and maintained, whichever is greater; or

(E) Which results from a risk which is in fact covered by insurance or for which the Contractor is otherwise reimbursed, but only to the extent of such insurance or reimbursement;

Provided, That, if more than one of the above exceptions shall be applicable in any case, the Contractor's liability under any one exception shall not be limited by any other exception.

(ii) The Contractor represents that it is not including in the price hereunder, and agrees that it will not hereafter include in any price to the Government, any charge or reserve for insurance (including self-insurance funds or reserves) covering loss or destruction of or damage to the Government-furnished property, except to the extent that the risk of loss is imposed on the Contractor under (i) (C) above, or insurance has been required under (i) (D) above.

(iii) Upon the happening of loss or destruction of or damage to any Government-furnished property, the Contractor shall notify the Contracting Officer thereof and shall communicate with the Loss and Salvage Organization, if any, now or hereafter designated by the Contracting Officer, and with the assistance of the Loss and Salvage Organization so designated (unless the Contracting Officer has directed that no such organization be employed) shall take all reasonable steps to protect the Government-furnished property from further damage, separate the damaged and undamaged Government-furnished property, put all the Government-furnished property in the best possible order, and furnish to the Contracting Officer a statement of:

(A) The lost, destroyed and damaged Government-furnished property;

(B) The time and origin of the loss, destruction or damage;

(C) All known interests in commingled property of which the Government-furnished property is a part; and

(D) The insurance, if any, covering any part of or interest in such commingled property.

The Contractor shall be reimbursed for the expenditures made by it in performing its obligations under this subparagraph (iii) (including charges made to the Contractor by the Loss and Salvage Organization, except any of such charges the payment of which the Government has, as its option, assumed directly), to the extent approved by the Contracting Officer and set forth in a Supplemental Agreement or amendment to this contract.

(iv) With the approval of the Contracting Officer after loss or destruction of or damage to Government-furnished property, and subject to such conditions and limitations as may be imposed by the Contracting Officer, the Contractor may, in order to minimize the loss to the Government or in order to permit resumption of business or the like, sell for the account of the Government any item of Government-furnished property which has been damaged beyond practicable repair, or which is so commingled or combined with property of others, including the Contractor, that separation is impracticable.

(v) Except to the extent of any loss or destruction of or damage to Government-furnished property for which the Contractor is relieved of liability under the foregoing provisions of this clause, and except for reasonable wear and tear or depreciation, or the utilization of the Government-furnished property in accordance with the provisions of this contract, the Government furnished property (other than property permitted to be sold) shall be returned to the Government in as good condition as when received by the Contractor in connection with this contract, or as repaired under paragraph (e) above.

(vi) In the event the Contractor is reimbursed or compensated for any loss or destruction of or damage to the Government-furnished property, it shall equitably reimburse the Government. The Contractor shall do nothing to prejudice the Government's rights to recover against third parties for any such loss, destruction or damage and, upon the request of the Contracting Officer, shall at the Government's expense, furnish to the Government all reasonable assistance and cooperation (including assistance in the prosecution of suit and the execution of instruments of assignment in favor of the Government) in obtaining recovery.

(vii) (Where applicable.) In the event any aircraft are to be furnished under this contract any loss or destruction of, or damage to, such aircraft or other Government-furnished property occurring in connection with operations of said aircraft will be governed by the clause of this contract captioned "Flight Risks," to the extent such clause is, by its terms, applicable.

(i) Upon completion or expiration of this contract, any Government property which has not been consumed in the performance of this contract, or which has not been disposed of as hereinafter provided in subparagraph (i) of this article, or for which the Contractor has not otherwise been relieved of responsibility, shall be disposed of in the same manner, and subject to the same procedures, as is provided in subparagraph (g) of the clause of this contract entitled "Termination for the Convenience of the Government" with respect to termination inventory. The proceeds of any such disposition shall be applied in reduction of any payments to be made by the Government to the Contractor under this contract, or shall otherwise be credited to the price or costs of the work covered by this contract, or shall be paid in such other manner as the Contracting Officer may direct. Pending final disposition of such property, the Contractor agrees to take such action as may be necessary, or as the Contracting Officer may direct, for the protection and preservation thereof.

(j) If the Contractor Officer determines that the interests of the Government require removal of any Government-furnished property, or if the Contractor determines any Government-furnished property to be in excess of its needs under this contract, such Government-furnished property shall be disposed of in the same manner as covered by paragraph (i) above. In the event that the Contracting Officer requires the removal of any Government-furnished property under this subparagagh (j) or subparagraph (i) above, upon written request of the Contractor, an equitable adjustment shall be made in the contract price in accordance with the procedures provided for in the clause of this contract entitled "Changes," to cover the direct cost to the Contractor of such removal and of any property damage occasioned thereby.

5. The following § 412.506 is added.

§ 412.506 *Government property clauses for cost-reimbursement type contracts (nonprofit research and development contracts).* The following shall be used in cost-reimbursement type research and development contracts with nonprofit organizations (provided such contracts are executed on a nonprofit basis) under which a Department is to furnish Government property to the Contractor, or the Contractor is to acquire property for the account of the Government.

GOVERNMENT PROPERTY

(a) The Government shall deliver to the Contractor the property described in the ---------- (insert "task orders," "schedule," or "specifications," as appropriate) at the time or times stated therein, or if not so stated in sufficient time to enable the Contractor to perform this contract. If any of such propery is not delivered to the Contractor by such time or times, the Contracting Officer, upon written request of the Contractor, shall equitably adjust the time of performance of this contract. In no event shall the Government be liable to the Contractor for damages or loss by reason of any delay in or failure to deliver any or all of the items set forth in the ---------- (insert "task orders," "schedule," or "specifications," as appropriate).

(b) The Government may deliver to the Contractor property in addition to that set forth in the ---------- (insert "task orders," "schedule," or "specifications," as appropriate). At the time of such delivery the contract may be amended if appropriate, to accomplish an equitable adjustment in the terms and provisions thereof.

(c) Title to all property furnished by the Government shall remain in the Government. Title to all property purchased by the Contractor, for the cost of which the Contractor is to be reimbursed as a direct item of cost under this contract, shall pass to and vest in the Government upon delivery of such property by the vendor. Title to other property, the cost of which is to be reimbursed to the Contractor under this contract, shall pass to and vest in the Government upon (i) issuance for use of such property in the performance of this contract, or (ii) commencement of processing or use of such property in the performance of this contract, or (iii) reimbursement of the cost thereof by the Government, whichever first occurs. All the items to be furnished by the Government, as set forth in subparagraphs (a) and (b) above, together with all property acquired by the Contractor, title to which vests in the Government under this paragraph, are subject to the provisions of this clause and are hereinafter collectively referred to as "Government Property."

(d) Title to the Government property shall not be affected by the incorporation or attachment thereof to any property not owned by the Government, nor shall such Government property, or any part thereof, be or become a fixture or lose its identity as personalty by reason of affixation to any realty.

(e) The Government property provided or furnished pursuant to the terms of this contract shall, unless otherwise provided herein and except as may be otherwise approved by the Contracting Officer, be used only for the performance of this contract.

(f) The Contractor shall maintain and administer in accordance with sound business practice a program for the maintenance, repair, protection and preservation of Government property so as to assure its full availability and usefulness for the performance of this contract. The Contractor shall take all reasonable steps to comply with all appropriate directions or instructions which the Contracting Officer may prescribe as reasonably necessary for the protection of the Government property.

(g) The provisions of Part III, Appendix C, Armed Services Procurement Regulation, Manual for Control of Government Property in Possession of Non-Profit Research and Development Contracts, as issued under date of June 1952, are herein incorporated by reference. The Contractor agrees to comply with the provisions thereof relating to the keeping of property control records, identification and marking, segregation and commingling, taking of inventories, and control of salvage and scrap, and the Contractor also accepts the responsibilities set forth in said Part III with respect to Government property.

(h) The Contractor agrees to make available to authorized representatives of the Contracting Officer at all reasonable times at the office of the Contractor all of its property records under this contract, and access to any premises where any of the Government property is located.

(i) (i) The Contractor shall not be liable for any loss of or damage to the Government property, or for expenses incidental to such loss or damage, except that the Contractor shall be responsible for any such loss or damage (including expenses incidental thereto):

(A) Which results from willful misconduct or lack of good faith on the part of any of the Contractor's directors or officers, or on the part of any of its managers, superintendents, or other equivalent representatives, who has supervision or direction of all or substantially all of the Contractor's business, or all or substantially all of the Contractor's operations at any one plant, laboratory, or separate location in which this contract is being performed; or

(B) Which results from a failure on the part of the Contractor, due to the willful misconduct or lack of good faith on the part of any of its directors, officers, or other representatives mentioned in subparagraph (A) above, to maintain and administer, in accordance with sound business practice, the program for maintenance, repair, protection and preservation of Government property as required by subparagraph (f) above, or which results from a failure on the part of the Contractor to take all reasonable steps to comply with any appropriate written directions of the Contracting Officer under subparagraph (f) above; or

(C) For which the Contractor is otherwise responsible under the express terms of clause(s) ---- of this contract, or of the clause or clauses designated in the ---------- (insert "task order," "schedules," or "specifications," as appropriate); or

(D) Which results from a risk expressly required to be insured under some other provision of this contract, or of the schedules or task orders thereunder, but only to the extent of the insurance so required to be procured and maintained, or to the extent of insurance actually procured and maintained, whichever is greater; or

(E) Which results from a risk which is in fact covered by insurance or for which the Contractor is otherwise reimbursed, but only to the extent of such insurance or reimbursement; provided that, if more than one of the above exceptions shall be applicable in any case, the Contractor's liability under any one exception shall not be limited by any other exception.

(ii) The Contractor shall not be reimbursed for, and shall not include as an item of overhead, the cost of insurance, or any provision for a reserve, covering the risk of loss of or damage to the Government property, except to the extent that the Government may have required the Contractor to carry such insurance under any other provision of this contract.

(iii) Upon the happening of loss or destruction of or damage to the Government property, the Contractor shall notify the Contracting Officer thereof, and shall communicate with the Loss and Salvage Organization, if any, now or hereafter designated by the Contracting Officer, and with the assistance of the Loss and Salvage Organization so designated (unless the Contracting Officer has designated that no such organization be employed), shall take all reasonable steps to protect the Government property from further damage, separate the damaged and undamaged Government property, put all the Government property in the best possible order, and furnish to the Contracting Officer a statement of:

(A) The lost, destroyed and damaged Government property;

(B) The time and origin of the loss, destruction or damage;

(C) All known interests in commingled property of which the Government property is a part, and

(D) The insurance, if any, covering any part of or interest in such commingled property.

The Contractor shall make repairs and renovations of the damaged Government property or take such other action as the Contracting Officer directs.

(iv) In the event the Contractor is indemnified, reimbursed, or otherwise compensated for any loss or destruction of or damage to the Government property, it shall use the proceeds to repair, renovate or replace the Government property involved, or shall credit such proceeds against the cost of the work covered by the contract, or shall otherwise reimburse the Government, as directed by the Contracting Officer. The Contractor shall do nothing to prejudice the Government's right to recover against third parties for any such loss, destruction or damage and, upon the request of the Contracting Officer, shall, at the Government's expense, furnish to the Government all reasonable assistance and cooperation (including assistance in the prosecution of suit and the execution of instruments of assignment in favor of the Government) in obtaining recovery.

(j) (Where applicable.) In the event any aircraft are to be furnished under this contract, any loss or destruction of, or damage to, such aircraft or other Government property occurring in connection with operations of said aircraft will be governed by the clause of this contract captioned "Flight Risks," to the extent such clause is, by its terms, applicable.

(j) The Government property shall remain in the possession of the Contractor for such period of time as is required for the performance of this contract unless the Contracting Officer determines that the interests of the Government require removal of such property. In such case the Contractor shall promptly take such action as the Contracting Officer may direct with respect to the removal and shipping of Government property. In any such instance, the contract may be

amended to accomplish an equitable adjustment in the terms and provisions thereof.

(k) Upon completion or expiration of this contract, any Government property which has not been consumed in the performance of this contract, or which has not been disposed of as hereinafter provided in subparagraph (1) of this clause, or for which the Contractor has not otherwise been relieved of responsibility, shall be disposed of in the same manner, and subject to the same procedures, as is provided in subparagraph (g) of the clause of this contract entitled 'Termination for the Convenience of the Government" with respect to termination inventory. The proceeds of any such disposition shall be applied in reduction of any payments to be made by the Government to the Contractor under this contract, or shall otherwise be credited to the cost of the work covered by this contract, or shall be paid in such other manner as the Contracting Officer may direct. Pending final disposition of such property, the Contractor agrees to take such action as may be necessary, or as the Contracting Officer may direct, for the protection and preservation thereof.

(l) If the Contracting Officer determines that the interests of the Government require removal of any Government property, or if the Contractor determines any Government property to be in excess of its needs under this contract, such Government property shall be disposed of in the same manner as provided by subparagraph (k) above. In the event that the Contracting Officer requires the removal of any Government property under this subparagraph (l) or subparagraph (k) above, the direct cost to the Contractor of such removal and of any property damage occasioned thereby shall constitute an allowable cost hereunder.

(m) Unless otherwise provided herein, the Government shall not be under any duty or obligation to restore or rehabilitate, or to pay the costs of the restoration or rehabilitation of the Contractor's plant or any portion thereof which is affected by the removal of any Government property.

(n) Directions of the Contracting Officer and communications of the Contractor issued pursuant to this clause shall be in writing.

(Sec. 3, 62 Stat. 259; 50 U. S. C. App. Sup. 1198)

J. D. SMALL,
Chairman, Munitions Board.

Chapter V—Department of the Army

Subchapter F—Personnel

PART 571—RECRUITING AND ENLISTMENTS

RECRUITING FOR REGULAR ARMY

In § 571.2 (h), subparagraph (19) is revised and subparagraph (22) is added, as follows:

§ 571.2 *Qualifications for enlistment.* * * *

(h) *Classes ineligible for enlistment.* * * *

(19) Selective Service registrants: No waivers will be granted.

(i) Selective Service registrants who have received orders from their Selective Service local boards to report for induction.

(ii) Registrants reclassified into class 1-A-P, unless their classification is changed by their local boards.

(22) Conscientious objectors: Original enlistment of applicants who indicate in any form whatsoever conscientious opposition to the bearing of arms. Included are personnel otherwise eligible for enlistment under § 571.3 (a) (3) of this part. No waivers will be granted.

[Cl, SR 615-105-1, Oct. 16, 1952] (R. S. 161; 5 U. S. C. 22)

[SEAL] WM. E. BERGIN,
Major General, U. S. Army,
The Adjutant General.

TITLE 39—POSTAL SERVICE

Chapter I—Post Office Department

PART 52—RURAL DELIVERY

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE, AND INSTRUCTIONS FOR MAILING

MISCELLANEOUS AMENDMENTS

1. Section 52.53 *Record of special-delivery matter* is rescinded.

(Sec. 3 (a) (3), 60 Stat. 238; 5 U. S. C. 1002 (a) (3))

2. In § 127.324 *Panama* make the following changes in paragraph (b) (1):

a. Delete the tabulated information immediately following the table of surface parcel rates in subdivision (i).

b. Add a new subdivision (ii) to read as follows:

(ii) Air parcels. Rates: $0.91 for the first 4 ounces; and $0.21 for each additional 4 ounces or fraction.

Weight limit: 44,[1] 70 pounds.
Customs declarations: 1 Form 2966.
Dispatch note: No.
Parcel-post sticker: 1 Form 2922.
Sealing: Compulsory.
Group shipments: No.
Registration: Yes. Fee, 25 cents.
Insurance: No.
C. o. d.: No.
Each air parcel must have affixed the blue Par Avion Label (Form 2978).
(See § 127.55 (b)).

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25; 48 Stat. 943; 5 U. S. C. 22, 369, 372)

[SEAL] J. M. DONALDSON,
Postmaster General.

PART 53—SPECIAL DELIVERY

PART 127—INTERNATIONAL POSTAL SERVICE: POSTAGE RATES, SERVICE AVAILABLE, AND INSTRUCTIONS FOR MAILING

MISCELLANEOUS AMENDMENTS

1. In § 53.3 *Rates on special-delivery matter* add new paragraph (d) to read as follows:

(d) *Official penalty or franked matter.* Official matter in penalty or franked envelopes is not entitled to free special delivery, but shall be chargeable for special delivery service, except in the case of urgent official communications of the Post Office Department only.

(R. S. 161, 396; sec. 2, 24 Stat. 221, secs. 304, 309, 42 Stat. 24, 25; 5 U. S. C. 22, 369, 39 U. S. C. 171)

2. In § 127.264 *Germany* (17 F. R. 660; 8294) amend subdivision (iii) of paragraph (b) (4) to read as follows:

(iii) *Soviet Zone (including the Soviet sector of Berlin).* Only gift parcels may be sent. The East German authorities require that each parcel may contain not more than 8¾ ounces of coffee, cocoa or chocolate, and not more than 1¾ ounces of tobacco products. Parcels containing larger amounts of these items may be confiscated by the East German customs authorities.

3. In § 127.268 *Great Britain and Northern Ireland.* (England, Scotland and Wales; also Northern Ireland) (17 F. R. 10411) amend subdivision (i) of paragraph (a) (8) to read as follows:

(i) The permission of the British Treasury is required for the importation of (*a*) paper money which is or has been legal tender in Great Britain and Northern Ireland; (*b*) British treasury notes; (*c*) all securities regardless of issue, whether canceled or not, and documents certifying to their destruction or cancellation, except sterling "Registered Certificates" relating to securities on which the interest or dividends are not payable by coupons.

4. In § 127.304 *Mexico* amend paragraph (a) (12) by deleting the second sentence of subdivision (ii).

(R. S. 161, 396, 398; secs. 304, 309, 42 Stat. 24, 25, 48 Stat. 943; 5 U. S. C. 22, 369, 372)

[SEAL] J. M. DONALDSON,
Postmaster General.

PART 155—FORMS OF THE POST OFFICE DEPARTMENT

FORMS USED BY FIRST ASSISTANT POSTMASTER GENERAL

Amend Subpart B of Part 155 by inserting the following sections:

§ 155.704b *Form 22—Aux.; orders to change address.* This form is letter size with space for 32 change of address orders. It is for use where a number of patrons using the same mailing address request a change of address to become effective on approximately the same date. The form was designed for use at fraternity and sorority houses at the end of the school term or school year and will eliminate the handling of individual Forms 22 for each of such changes of address. The carrier will furnish Form 22—Aux. to the house manager or agent for completion of the necessary information relating to the individual changes of address to be reported thereon. This information includes the patrons names listed alphabetically, whether the change is permanent or temporary, effective date, mail for which forwarding postage will be guaranteed, and the new address.

[1] Air parcels are limited to 44 pounds in weight.

§ 155.707 *Form 1525; slip—notice to new patron of zone number and delivery unit.* This form is for use by postmasters at offices of the first and second classes to acquaint new patrons of a city delivery route with their postal delivery zone number, if any, and with the name and location of the delivery unit from which such route is served. This form also serves as a reminder to new patrons that certain action should be taken on their part to notify correspondents, and others, of their new address, and invites inquiries regarding the use of the postal service.

TITLE 32A—NATIONAL DEFENSE, APPENDIX

Chapter III—Office of Price Stabilization, Economic Stabilization Agency

[Ceiling Price Regulation 182]

CPR 182—SOUTH CENTRAL HARDWOOD AND YELLOW CYPRESS LUMBER

Pursuant to the Defense Production Act of 1950, as amended, Executive Order 10161, and Economic Stabilization Agency General Order No. 2, this Ceiling Price Regulation 182 is hereby issued.

STATEMENT OF CONSIDERATIONS

This regulation establishes specific dollars-and-cents ceiling prices at the manufacturing level for Hardwood and Yellow Cypress lumber produced in the South Central Hardwood Region, consisting of the States of Kansas and Missouri and parts of Illinois, Kentucky, and Tennessee. Although Yellow Cypress is a softwood, it is covered by this regulation because it is found in the same timber stands and sawed in the same mills as the hardwoods. The hardwood lumber covered by this regulation is produced from deciduous trees, the most important of which are the Red and White Oaks, Soft Maple, Poplar, Beech, and Ash.

The South Central hardwood lumber industry consists of some 4,400 mills, most of which are small operations producing less than one million board feet per year. A substantial part of the total production is from a relatively few integrated companies which turn out rough and surfaced lumber, and various lumber products. The total output of the hardwood industry in this area, according to the Census of Manufacturers in 1947, was 560 million board feet, which was about 7.5 percent of the total hardwood lumber production in the United States. Approximately one-half of the lumber produced in this South Central Region is consumed by its own wood-using industries, and by construction users within the region.

Ceiling prices are set at the mill level on an f. o. b. mill basis. The regulation also provides for sales on a delivered basis, in which case established air-dried and green weights set forth in this regulation must be applied in computing transportation additions. A table of percentages is given for use in computing the weights of kiln-dried, surfaced, and resawn lumber.

The regulation requires that the lumber covered be graded in accordance with the 1952 "Rules for the Measurement and Inspection of Hardwood Lumber, Cypress, Veneers and Thin Lumber," published by the National Hardwood Lumber Association.

Pending the issuance of an applicable service regulation, lumber sold surfaced, resawn, or kiln-dried may include a charge not to exceed the highest amount added for such services in a sale to a purchaser of the same class made during the period of January 25, 1951, through February 24, 1951.

Lumber sold on specifications for special widths or lengths may include a charge not to exceed the highest amount added for such special sizes in a sale to a purchaser of the same class made during the period of January 25, 1951, through February 24, 1951.

The ceiling price of items covered by the regulation for which dollars-and-cents ceiling prices are not shown is the highest price charged to a purchaser of the same class during the period of January 25, 1951, through February 24, 1951.

In recognition of their historic function in this industry, provision is made for allowing commission men, through whom a sale may be made, an addition to the mill ceiling price.

Provision is made for additions to ceiling prices for retail-type sales, mixed carloads or mixed truckload shipments, bundling, stenciling, and anti-stain treatment. These additions are included in this tailored regulation in order to insure continuation under price stabilization of standard industry practices.

In determining the ceiling prices in this regulation, the Director considered: (1) Price data filed with OPS by lumber manufacturers of this region and adjacent regions; (2) price data compiled by private organizations; (3) the normal price relationships of items within and among species in this region; (4) the normal relationship between prices of hardwood lumber in this region and adjacent regions; and (5) the freight rate advantage enjoyed by mills in this region as compared with other hardwood lumber manufacturing regions. Except where it was found necessary to correct distorted price relationships among items of each species, between species, or distorted price relationships between this region and other hardwood regions, the ceiling prices established by this regulation are approximately at the average of the GCPR ceiling prices filed with OPS by mills located in the South Central Region.

FINDINGS OF THE DIRECTOR OF PRICE STABILIZATION

In the judgment of the Director of Price Stabilization, the ceiling prices established by this regulation are generally fair and equitable and are necessary to effectuate the purposes of Title IV of the Defense Production Act of 1950, as amended.

So far as practicable, the Director of Price Stabilization gave due consideration to the national effort to achieve maximum production in furtherance of the objective of the Defense Production Act of 1950, as amended; to prices prevailing during the period from May 24 to June 24, 1950, inclusive; to prices prevailing from January 25 to February 24, 1951, inclusive; to prices prevailing just before the issuance of this regulation; and to relevant factors of general applicability.

In the formulation of this regulation, there has been consultation with industry representatives, including trade association representatives, and consideration has been given to their recommendations. This consultation included one meeting with the South Central Hardwood Lumber Industry Advisory Committee, and one meeting with a subcommittee thereof.

Every effort has been made to conform this regulation to business practices existing in the South Central Hardwood Region with respect to the production, sale, and distribution of hardwood and Yellow Cypress lumber produced in that area. Insofar as any provisions of this regulation may operate to compel changes in these business practices, such provisions are found by the Director of Price Stabilization to be necessary to prevent circumvention or evasion of this regulation.

REGULATORY PROVISIONS

ARTICLE I—COVERAGE

Sec.
1.1 What this regulation does.
1.2 Which regulation is superseded.
1.3 Items, species, and area of production covered.
1.4 Sellers and transactions covered.
1.5 Geographical applicability.
1.6 How to determine your ceiling prices.

ARTICLE II—CEILING PRICES

2.1 Graded rough hardwood and Yellow Cypress lumber.
2.2 Special widths and lengths.
2.3 Bending Oak and other listed grades
2.4 Rough tie siding.
2.5 Construction boards.
2.6 Residue sales.
2.7 Ungraded hardwood and Yellow Cypress lumber.
2.8 Kiln-dried, resawn, and surfaced lumber.
2.9 How to calculate weights for shipping kiln-dried, surfaced, and resawn lumber.
2.10 Ceiling prices for special specifications.

ARTICLE III—COMMISSION-TYPE SALES AND RETAIL-TYPE DIRECT-MILL SALES

3.1 Commission-type sales.
3.2 Retail-type sales.

ARTICLE IV—CEILING PRICE ADDITIONS

4.1 Ceiling price additions.

ARTICLE V—OTHER CEILING PRICE PROVISIONS

5.1 Grade terms and grading.
5.2 Delivered ceiling prices.
5.3 Mixed carload or mixed truckload shipments.

Sec.
5.4 Green lumber.
5.5 Discount for cash.

ARTICLE VI—MISCELLANEOUS PROVISIONS

6.1 Modification of proposed ceiling prices by Director of Price Stabilization.
6.2 Petitions for amendment.
6.3 Adjustable pricing.
6.4 Records.
6.5 Invoices.
6.6 Interpretations.
6.7 Prohibitions and violations.
6.8 Evasions.
6.9 Definitions.

AUTHORITY: Sections 1.1 to 6.9 issued under sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154. Interpret or apply Title IV, 64 Stat. 803, as amended; 50 U. S. C. App. Sup. 2101–2110, E. O. 10161, Sept. 9, 1950, 15 F. R. 6105; 3 CFR, 1950 Supp.

ARTICLE I—COVERAGE

SECTION 1.1 *What this regulation does.* This regulation establishes manufacturers' dollars-and-cents ceiling prices for most standard grades and items of air-dried and green rough hardwood and Yellow Cypress lumber produced in the South Central Hardwood Lumber Region (as defined in section 1.3 (d)). The regulation also provides ceiling prices for special items.

SEC. 1.2 *Which regulation is superseded.* Except as otherwise provided in section 6.4 (a), the General Ceiling Price Regulation is superseded in respect to all transactions covered by this regulation.

SEC. 1.3 *Items, species, and area of production covered.* (a) This regulation covers all hardwood and Yellow Cypress lumber produced in the South Central Hardwood Lumber Region. It does not cover items fabricated from lumber such as flooring, hand rails, mouldings, step treads and thresholds, and sawn timbers such as cross ties, mine ties, switch ties, mine material, navy oak ship stock, and small dimension stock.

(b) The term "hardwood lumber" refers to all lumber produced from broad-leaved deciduous trees, with the exception of Black Walnut (Juglans nigra), and specifically includes the following species: Ash (Fraxinus sp.), Basswood (Tilia sp.), Beech (Fagus grandifolia), Birch (Betula sp.), Cherry (Prunus serotina), Cottonwood (Populus sp.), Soft Elm (Ulmus americana), Black Gum (Nyssa sylvatica), Sap Gum and Red Gum (Liquidambar styraciflua), Hackberry (Celtis occidentalis), Hickory (Carya sp.), Locust (Gleditsia triacanthos), Hard Maple (Acer saccharum), Soft Maple (Acer rubrum), Red Oak (Quercus sp.), White Oak (Quercus sp.), Pecan (Carya illinoensis), Poplar (Liriodendron tulipifera), Sycamore (Platenus occidentalis), Tupelo (Nyssa aquatica), and Willow (Salix nigra).

(c) "Yellow Cypress lumber" or "Yellow Cypress" includes all species of Baldy Cypress (Taxodium distichum) other than Red Cypress.

(d) The term "South Central Hardwood Lumber Region" refers to an area which includes Kansas and Missouri; the following counties in Kentucky: Allen, Ballard, Butler, Caldwell, Calloway, Carlisle, Christian, Crittenden, Fulton, Graves, Henderson, Hickman, Hopkins, Livingston, Logan, Lyon, McCracken, McLean, Marshall, Muhlenberg, Simpson, Todd, Trigg, Union, Warren, and Webster; the following counties in Tennessee: Bedford, Benton, Carroll, Cheatham, Chester, Crockett, Davidson, Decatur, Dickson, Dyer, Gibson, Giles, Hardin, Henderson, Henry, Hickman, Houston, Humphreys, Lake, Lawrence, Lewis, Lincoln, McNairy, Macon, Madison, Marshall, Maury, Montgomery, Moore, Obion, Perry, Robertson, Rutherford, Steward, Sumner, Trousdale, Wayne, Weakley, Williamson, and Wilson; and the following counties in Illinois: Alexander, Franklin, Hardin, Jackson, Johnson, Massac, Monroe, Perry, Pope, Pulaski, Randolph, Union, and Williamson, and those parts of Clinton, Hamilton, Jefferson, St. Clair, Saline, and Washington counties which lie south or southwest of the tracks of the Louisville and Nashville Railroad.

SEC. 1.4 *Sellers and transactions covered.* (a) This regulation applies to every sale by manufacturers of the lumber covered by this regulation, whether effected directly, or through lumber commission salesmen, and whether the sale is made to a wholesaler, retailer, industrial user, or to any other consumer or reseller. Section 3.1 of this regulation provides an addition to cover the services of a lumber commission salesman. Supplementary Regulation 87 to the General Ceiling Price Regulation establishes a formula for determining wholesalers' and other resellers' markups which may be added to manufacturers' selling prices. The ceiling prices for export sales are covered by Ceiling Price Regulation 61, except as otherwise set forth in section 4.1 (a) (3) of this regulation.

(b) The term "manufacturer" includes sawmills, planing mills, and concentration yards. Sawmills are establishments producing rough lumber from logs by sawing. Planing mills are establishments surfacing lumber by planing. Concentration yards are establishments which receive rough lumber, chiefly in green condition, from several manufacturers; prepare it for commercial shipment by grading, resorting, drying, planing, resawing, or other processing; and sell their lumber chiefly to large industrial users, resellers, or building contractors.

(c) The term "lumber commission salesmen" is defined in section 3.1.

SEC. 1.5. *Geographical applicability.* Every manufacturer's sale for delivery (f. o. b. mill or on a delivered basis) in the forty-eight states of the United States or in the District of Columbia, is subject to this regulation, whether or not the sale of the lumber is made in the United States.

SEC. 1.6. *How to determine your ceiling prices.* (a) This section furnishes a general guide as to how to determine your ceiling prices under this regulation. It also shows how ceiling price provisions of this regulation are related to each other.

(b) The basic ceiling prices established in article II of this regulation are f. o. b. mill ceiling prices. Additions to these ceiling prices may be made under the circumstances shown in the table below:

Additions	*Where shown in regulation*
Shipments in straight or mixed cars of the better grades	Section 2.1
Special widths and lengths	Section 2.2
Sales through lumber commission salesmen	Section 3.1
Retail-type sales	Section 3.2
Special services required	Article IV
Sales on a delivered basis	Section 5.2
Mixed car shipments	Section 5.3

(c) The ceiling prices for various standard grades and items of lumber subject to this regulation are shown in section 2.1; for Banding Oak and other listed grades, in section 2.3; for tie siding, in section 2.4; for construction boards, in section 2.5; for residue lumber, in section 2.6; for ungraded lumber, in section 2.7; and for lumber that is kiln-dried, resawn, and surfaced, in section 2.8. Note that under certain circumstances described in section 5.5 you must allow a discount for cash.

ARTICLE II—CEILING PRICES

SEC. 2.1 *Graded rough hardwood and Yellow Cypress lumber.* The ceiling prices f. o. b. mill and the established weights for standard grades of rough hardwood and Yellow Cypress lumber in random widths and lengths, produced in the South Central Hardwood Lumber Region, are as follows: (All prices shown are per thousand feet).

(a) *Hardwood lumber—*

(1) *Firm to Tough Ash (Air-dried or green).*

Thickness (inch)	Established air-dried or green weight (pounds per 1,000 feet)	FAS	FAS 1 Face	No. 1 Common	No. 2 Common	No. 3 Common
4/4	4,000	$160	$150	$115	$65	$45
5/4	4,000	170	160	120	66	45
6/4	4,100	175	165	125	70	45
8/4	4,200	190	180	145	75	45
10/4	4,200	200	190	150	80	----
12/4	4,300	220	210	160	85	----
16/4	4,300	230	220	170	90	----

When an order includes no grades lower than FAS 1 Face in a specified thickness of Firm to Tough Ash, you may add not more than $25.00 per thousand feet to the applicable ceiling prices listed above for the specified thickness of Firm to Tough Ash. This addition applies even though other thicknesses or other species, in any grade, are also specified in the same order.

When sold as, and shipped in, straight or mixed cars of No. 1 Common or No. 1 Common and Better, you may add not more than $10.00 per thousand feet to the applicable ceiling prices listed above for Firm to Tough Ash of grades No. 1 Common, FAS 1 Face, and FAS.

(5) *Cherry.*

Thickness (inch)	Established weight (pounds per 1,000 feet)		FAS		FAS 1 Face		No. 1 Common		No. 2 Common		No. 3 Common	
	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green
4/4	4,100	5,200	$220	$143	$210	$137	$150	$98	$90	$59	$45	$29
5/4	4,100	5,200	230	149	220	143	165	107	95	62	45	29
6/4	4,200	5,400	240	156	230	150	170	111	95	62	45	29
8/4	4,300	5,500	250	163	240	156	180	117	100	65	----	----
10/4	4,300	5,500	270	175	260	169	190	124	----	----	----	----
12/4	4,400	5,600	280	182	270	176	200	130	----	----	----	----
16/4	4,400	5,600	290	189	280	182	210	137	----	----	----	----

When an order includes no grades lower than FAS 1 Face in a specified thickness of Cherry, you may add not more than $30.00 per thousand feet to the applicable ceiling prices listed above for the specified thickness of Cherry. This addition applies even though other thicknesses or other species, in any grade, are also specified in the same order.

(6) *Cottonwood.*

Thickness (inch)	Established weight (pounds per 1,000 feet)		FAS		FAS 1 Face		No. 1 Common		No. 2 Common		No. 3 Common	
	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green
4/4	3,000	4,900	$113	$73	$103	$67	$85	$57	$72	$47	$43	$28
5/4	3,000	4,900	118	77	108	70	90	60	73	49	43	28
6/4	3,100	5,100	128	83	118	77	98	64	76	51	43	28
8/4	3,100	5,200	133	86	123	80	103	70	78	----	----	----

When an order includes no grades lower than FAS 1 Face in a specified thickness of Cottonwood, you may add not more than $25.00 per thousand feet to the applicable ceiling prices listed above for the specified thickness of Cottonwood. This addition applies even though other thicknesses or other species, in any grade, are also specified in the same order.

For 4/4 Cottonwood, Paneled and Wide No. 1, compute your ceiling prices by adding $25.00 per thousand feet to the applicable ceiling prices listed above for 4/4 Cottonwood of No. 1 Common grade.

For 4/4 Cottonwood Box Boards 9" to 12" wide, compute your ceiling prices by adding $25.00 per thousand feet to the applicable ceiling prices listed above for 4/4 Cottonwood of No. 1 Common grade.

For 4/4 Cottonwood Box Boards 13" to 17" wide, compute your ceiling prices by adding $40.00 per thousand feet to the applicable ceiling prices listed above for 4/4 Cottonwood of FAS grade.

(7) *Soft Elm.*

Thickness (inch)	Established weight (pounds per 1,000 feet)		FAS		FAS 1 Face		No. 1 Common		No. 2 Common		No. 3 Common	
	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green
4/4	4,100	5,800	$183	$84	$173	$47	$107	$41	$80	$32	$45	$29
5/4	4,100	5,800	193	93	183	53	115	45	85	36	45	29
6/4	4,200	5,900	198	97	188	57	120	49	90	40	45	29
8/4	4,200	6,000	208	103	198	63	130	57	95	43	45	29
10/4	4,300	6,000	218	108	208	67	135	60	100	46	45	29
12/4	4,300	6,000	228	113	218	70	145	63	105	48	45	29
16/4	4,400	6,000	238	118	228	73	150	67	110	51	----	----

When an order includes no grades lower than FAS 1 Face in a specified thickness of Soft Elm, you may add not more than $15.00 per thousand feet to the applicable ceiling prices listed above for the specified thickness of Soft Elm. This addition applies even though other thicknesses or other species, in any grade, are also specified in the same order.

(2) *Basswood.*

Thickness (inch)	Established weight (pounds per 1,000 feet)		FAS		FAS 1 Face		No. 1 Common		No. 2A Common		No. 2B Common		No. 3A Common		No. 3B Common	
	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green
4/4	3,000	4,800	$170	$111	$160	$104	$125	$81	$80	$52	$65	$42	$50	$32	$45	$29
5/4	3,100	5,000	180	117	170	111	130	85	85	55	70	45	55	36	45	29
6/4	3,100	5,000	185	120	175	114	135	89	90	58	75	49	60	39	45	29
8/4	3,200	5,000	190	123	180	117	140	91	----	----	----	----	----	----	----	----

When an order includes no grades lower than FAS 1 Face in a specified thickness of Basswood, you may add not more than $30.00 per thousand feet to the applicable ceiling prices listed above for the specified thickness of Basswood. This addition applies even though other thicknesses or other species, in any grade, are also specified in the same order.

(3) *Beech.*

Thickness (inch)	Established weight (pounds per 1,000 feet)		FAS		FAS 1 Face		No. 1 Common		No. 2 Common		No. 2A Common		No. 2B Common		No. 3A Common		No. 3B Common	
	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green
5/8	2,700	3,800	$183	$78	$170	$72	$95	$62	$90	$59	----	----	----	----	----	----	----	----
3/4	2,700	3,800	195	87	181	75	95	62	95	59	----	----	----	----	----	----	----	----
4/4	3,200	4,500	195	91	180	75	105	68	95	62	$80	$52	$65	$42	$50	$32	$45	$29
5/4	3,200	4,500	205	94	190	78	110	72	100	65	85	55	70	45	55	36	45	29
6/4	3,300	4,600	215	98	200	83	115	75	105	68	90	58	75	49	60	39	45	29
8/4	3,300	4,600	225	103	210	87	125	85	110	72	95	62	----	----	----	----	----	----

When an order includes no grades lower than FAS 1 Face in a specified thickness of Beech, you may add not more than $10.00 per thousand feet to the applicable ceiling prices listed above for the specified thickness of Beech. This addition applies even though other thicknesses or other species, in any grade, are also specified in the same order.

(4) *Birch.*

Thickness (inch)	Established weight (pounds per 1,000 feet)		FAS		FAS 1 Face		No. 1 Common		No. 2 Common		No. 3 Common	
	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green
4/4	4,100	5,800	$215	$140	$205	$133	$145	$94	$91	$59	$45	$29
5/4	4,100	5,800	225	145	215	140	150	98	95	62	45	29
6/4	4,200	6,000	235	150	225	145	155	101	95	62	45	29
8/4	4,200	6,000	250	160	240	155	160	104	95	62	45	29

When an order includes no grades lower than FAS 1 Face in a specified thickness of Birch, you may add not more than $20.00 per thousand feet to the applicable ceiling prices listed above for the specified thickness of Birch. This addition applies even though other thicknesses or other species, in any grade, are also specified in the same order.

(8) *Plain Black Gum.*

Thickness (inch)	Established weight (pounds per 1,000 feet)		FAS		FAS 1 Face		No. 1 Common		No. 2 Common		No. 3 Common	
	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green
4/4	3,400	5,100	$133	$86	$123	$80	$113	$73	$61	$40	$30	$25
5/4	3,500	5,300	143	93	133	86	123	80	63	41	39	25
6/4	3,600	5,400	148	96	138	90	128	83	64	42	39	25
8/4	3,800	5,700	158	103	148	96	138	90	66	43	39	25

When an order includes no grades lower than FAS 1 Face in a specified thickness of Plain Black Gum, you may add not more than $15.00 per thousand feet to the applicable ceiling prices listed above for the specified thickness of Plain Black Gum. This addition applies even though other thicknesses or other species, in any grade, are also specified in the same order.

(9) *Quartered Black Gum.*

Thickness (inch)	Established weight (pounds per 1,000 feet)		FAS		FAS 1 Face		No. 1 Common		No. 2 Common	
	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green
4/4	3,400	5,100	$143	$93	$133	$86	$128	$83	$68	$44
5/4	3,500	5,300	153	99	143	93	133	86	73	47
6/4	3,600	5,400	158	103	148	96	138	90	73	47
8/4	3,800	5,700	183	119	173	112	158	103	78	51
10/4	3,900	5,900	198	129	188	122	173	112	78	51
12/4	4,000	6,000	213	138	203	132	193	125	78	51

When an order includes no grades lower than FAS 1 Face in a specified thickness of Quartered Black Gum, you may add not more than $15.00 per thousand feet to the applicable ceiling prices listed above for the specified thickness of Quartered Black Gum. This addition applies even though other thicknesses or other species, in any grade, are also specified in the same order.

(10) *Plain Red Gum.*

Thickness (inch)	Established weight (pounds per 1,000 feet)		FAS		FAS 1 Face		No. 1 Common		No. 2 Common	
	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green
4/4	3,600	5,700	$208	$135	$198	$129	$153	$99	$78	$51

When an order includes no grades lower than FAS 1 Face in a specified thickness of Quartered White Oak, you may add not more than $40.00 per thousand feet to the applicable ceiling prices listed above for the specified thickness of Quartered White Oak. This addition applies even though other thicknesses or other species, in any grade, are also specified in the same order.

For 4/4" 2"-5½" wide clear Quartered White Oak Strips, your ceiling price is $200.00 per thousand feet.

For 4/4" 2"-5½" wide No. 1 Common Quartered White Oak Strips, your ceiling price is $140.00 per thousand feet.

When an order includes no grades lower than FAS 1 Face in a specified thickness of Rift Sawn White Oak, you may add not more than $40.00 per thousand feet to the applicable ceiling prices listed above for the specified thickness of Rift Sawn White Oak. This addition applies even though other thicknesses or other species, in any grade, are also specified in the same order.

For 4/4" 2"-5½" wide FAS Rift Sawn White Oak Strips, your ceiling price is $240.00 per thousand feet.

For 4/4" 2"-5½" wide No. 1 Common Rift Sawn White Oak Strips, your ceiling price is $150.00 per thousand feet.

SEC. 2.2 *Special widths and lengths.* Your ceiling price f. o. b. mill, when not specifically stated elsewhere in this regulation, for lumber covered by this regulation of special width and/or length, is determined as follows:

(a) Take the f. o. b. mill ceiling price of the standard item of the same species, grade and thickness for which a dollars-and-cents ceiling price is set forth in this regulation, and add thereto the highest amount or amounts which you added for such special width and/or length to the price of the same standard item in your f. o. b. sales or contracts to sell to a purchaser of the same class during the period January 25, 1951, through February 24, 1951.

(b) If you did not sell or contract to sell lumber of the same species, grade, and thickness with the special width and/or length during the period January 25, 1951, through February 24, 1951, take the f. o. b. mill ceiling price of the standard item of the same species, grade, and thickness for which a dollars-and-cents ceiling price is set forth in this regulation, and add thereto the highest amount or amounts which you added for such special width and/or length to the price of the most nearly comparable standard item in your f. o. b. sales or contracts to sell to a purchaser of the same class during the period January 25, 1951, through February 24, 1951.

SEC. 2.3 *Bending Oak and other listed grades.* Your ceiling price f. o. b. mill for any item of lumber covered by this regulation within any of the grades or combinations of grades listed below, when not specifically stated elsewhere in this regulation, is the highest f. o. b. mill price at which you sold or contracted to sell such item to a purchaser of the same class during the period January 25, 1951, through February 24, 1951:

Bending Oak.
Bridge Plank and Crossing Plank.
Common Dimension.
Freight Car Stock.
Milpak.
Mine Car Lumber.
Select Car Stock.
Select Dimension.
Sound Square Edge.
Timbers.

SEC. 2.4 *Rough tie siding.* Ceiling prices f. o. b. mill for rough tie siding sold on grade are $5.00 per thousand feet lower than the ceiling prices for the same grade and species of standard lumber in regular widths and lengths as shown in the tables in section 2.1.

SEC. 2.5 *Construction boards.* The ceiling prices f. o. b. mill for construction boards, random lengths, rough, in the grades and sizes shown, are as follows:

Grade	1" x 4"		1" x 6"		1" x 8"		1" x 10"		1" x 12"	
	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green	Air-dried	Green
No. 1	$65	$39	$75	$45	$80	$48	$80	$48	$85	$51
No. 2	55	33	65	39	70	42	70	42	75	45
No. 3	50	30	55	33	60	36	60	36	65	39

SEC. 2.6 *Residue sales.* The ceiling price for residue ungraded lumber is $30.00 per thousand feet f. o. b. mill. The term "residue ungraded lumber" is the below-grade lumber commonly called "culls" or "scoots."

SEC. 2.7 *Ungraded hardwood and Yellow Cypress lumber.* When lumber covered by this regulation is not separately graded or is sold ungraded as Log Run, Mill Run, No. 1 Common and Better, or any other combination of grades, the ceiling price for the entire shipment shall be the ceiling price for the lowest priced species and grade included in the shipment. If any of the lumber so sold is shipped green, the ceiling price of all lumber in the shipment shall be the ceiling price for green lumber of the lowest priced species and grade included in the shipment.

SEC. 2.8 *Kiln-dried, resawn, and surfaced lumber.* If you sell lumber subject to this regulation which is kiln-dried, resawn, and/or surfaced in accordance with the purchaser's specification, compute your f. o. b. mill ceiling prices for such lumber by taking the applicable f. o. b. mill ceiling prices for air-dried rough lumber set forth in this regulation, and adding thereto the highest amount or amounts which you added for such kiln-drying, resawing, and or surfacing in your f. o. b. mill sales or contracts to sell to a purchaser of the same class during the period January 25, 1951, through February 24, 1951. The provisions of this paragraph are to apply until such time as specific additions for kiln-drying, resawing, and/or surfacing are made uniformly applicable to manufacturers covered by this regulation.

SEC. 2.9 *How to calculate weights for shipping kiln-dried, surfaced, and resawn lumber.* This section provides a procedure for determining the weights of kiln-dried, surfaced, and resawn lumber. These weights are authorized for use in determining transportation charges in the calculation of ceiling delivered prices as provided in section 5.2.

(a) *Kiln-dried lumber.* The established shipping weight for kiln-dried lumber is 10 percent less than the applicable air-dried weight shown in the tables of section 2.1, rounded to the nearest 50 pounds. For example, the kiln-dried shipping weight for rough 4/4 Plain Red Oak is 3,800 pounds. (4,200 less 10 percent (420) = 3,780, which is rounded to 3,800.)

(b) To determine shipping weight for surfaced lumber, consult the table in this paragraph. Find the percentage shown for the nominal thickness under the appropriate heading describing the surfacing done, and apply this percentage to the rough weight of the item as shown in section 2.1, or as determined under this section.

Example 1. To calculate the weight for random width 4/4 Plain Red Oak lumber surfaced two sides to 13/16": In price Table (20), the air-dried weight of the rough lumber is shown as 4,200 pounds. In the table given below, Column (1) shows the 4/4 nominal thickness; Column (2), the 13/16" finished thickness, and from Column (3), applicable to "surfaced two sides", the percentage figure of 78 is obtained. The surfaced weight is therefore 78 percent of 4,200, or 3,276 pounds, which is then rounded to 3,300 pounds.

Example 2. To calculate the weight of 4/4" Plain Red Oak lumber 8" stock width surfaced four sides to 13/16" x 7½": The procedure is the same as in Example 1, except that instead of using the 78 percent shown in Column (3), you use the 73 percent figure shown in Column (7) for 8" lumber surfaced four sides to 7½" wide. (Columns 4 through 9 are applicable to both finished thicknesses and finished widths.) The surfaced weight is 73 percent of 4,200, or 3,066 pounds, which is rounded to 3,050 pounds.

PERCENTAGES FOR DETERMINING SHIPPING WEIGHTS OF SURFACED LUMBER

Surfaced 1 or 2 sides (thickness)			Surfaced 4 sides (widths)					
Nominal rough (inches)	Finished thickness (inches)	Percent of rough lumber weight	Percentage of rough weight for lumber surfaced 4 sides to specified widths shown and to thicknesses shown in column 2					
			2" to 1⅝"	4" to 3⅝"	6" to 5⅝"	8" to 7½"	10" to 9½"	12" to 11½"

	15/16	72	58	65	67	67	68	69
5/4	1 3/16	92	74	83	86	86	87	88
	1 1/16	87	70	79	81	81	82	83
	1 1/16	82	67	74	77	77	78	79
6/4	1 7/16	93	76	84	87	87	88	89
	1 3/8	89	72	80	83	83	84	85
	1 5/16	85	69	77	80	80	81	82
8/4	1 7/8	92	74	83	86	86	87	88
	1 3/4	86	69	77	80	80	81	82
	1 5/8	79	65	72	74	74	75	76
10/4	2 3/4	88	72	80	83	83	84	85
	2 5/8	83	68	76	78	78	79	80
12/4	2 3/4	90	73	82	85	85	86	87
	2 5/8	86	70	78	81	81	82	83
16/4	3 3/4	93	75	84	87	87	88	89
	3 5/8	90	73	81	84	84	85	86

(c) *Resawn lumber.* The weight for rough lumber resawn is the weight of the rough lumber as shown in the tables of section 2.1, less 5 percent for each saw kerf. The weight for lumber surfaced and then resawn is the weight of the surfaced lumber (as calculated in accordance with paragraph (b) of this section), less 5 percent of the rough lumber weight for each saw kerf.

SEC. 2.10 *Ceiling prices for special specifications.*—(a) *Application.* If you cannot ascertain your ceiling price for lumber covered by this regulation under any other provision of this regulation, as, for example, should you wish to sell lumber of a hardwood species for which ceiling prices are not set forth, or lumber with special workings, grades, sizes, services, or other extras not specifically mentioned in this regulation, you must apply by registered mail, return receipt requested, to the Office of Price Stabilization, Forest Products Division, Washington 25, D. C., for the establishment of a ceiling price. You may file on OPS Public Form No. 132, which is obtainable from any Regional or District Office of the Office of Price Stabilization. Your application must set forth the following:

(1) As complete a description as possible of the item which is the subject of your application.

(2) A statement explaining why you are unable to determine your ceiling price under other provisions of this regulation.

(3) Your proposed ceiling price, which you must determine upon the first of the following bases that you are able to use:

(i) The ceiling price for the most closely comparable item for which a dollars-and-cents ceiling price is established by this regulation, adjusted by the addition or subtraction of the differential between the highest price at which the item that is the subject of your application was sold to a purchaser of the same class on the date nearest to the effective date of this regulation and the highest price at which the most closely comparable item was sold to a purchaser of the same class on the date nearest thereto.

(ii) The price at which you sold to a purchaser of the same class the item that is the subject of your application in your last sale before the effective date of this regulation.

(iii) The ceiling price of your most closely competitive seller to a purchaser of the same class for the item that is the subject of your application. ("Your most closely competitive seller" is the seller of lumber subject to this regulation, selling the item which is the subject of your application, with whom you are in most direct competition on sales of most items.)

(iv) A price which you believe is in line with the level of ceiling prices established by this regulation. You must state why you believe your proposed ceiling price is in line with the level of ceiling prices established by this regulation.

In determining your proposed ceiling prices, you must first use the basis indicated in subdivision (i); if you cannot use subdivision (i), then use subdivision (ii); if you cannot use subdivision (ii), then use subdivision (iii); or if you cannot use subdivision (iii), then use subdivision (iv).

If you use subdivision (ii), (iii), or (iv), you must state in your application why you could not use the basis provided in each of the preceding subdivisions. You must also state how your proposed ceiling price conforms to the basis employed and furnish supporting details.

(b) *Quotation of proposed ceiling prices.* You may quote a proposed ceiling price determined under the provisions of paragraph (a) of this section, and you may sell at that proposed ceiling price, provided that you file an application for approval of that ceiling price within five days after selling at that proposed ceiling price, and provided further that you agree to refund, and later refund, to the buyer, the amount, if any, by which your proposed ceiling price exceeds the ceiling price established by the Director of Price Stabilization.

(c) *Action by the Director of Price Stabilization.* (1) After receipt of an application made under this section, the Director of Price Stabilization will approve or disapprove your proposed ceiling price, will request additional information about it, or will establish a different ceiling price for the item that is the subject of your application.

(2) If the Director does not notify you to the contrary or request additional information from you within 30 days after the receipt of your application, or within 15 days after the receipt of requested additional information, your proposed ceiling price shall be deemed to have been approved, subject to nonretroactive disapproval or modification at a later date.

(3) No application will be approved under this section unless it is found that the proposed ceiling price is in line with the level of ceiling prices otherwise established by this regulation.

(d) *Effect on other transactions.* A special ceiling price approved pursuant to application made under this section shall be your ceiling price for all future sales of the same item unless a specific ceiling price for the item shall subsequently be established by changes in this regulation, or unless the approval is subsequently revoked or modified by the Director of Price Stabilization.

ARTICLE III—COMMISSION-TYPE SALES AND RETAIL-TYPE DIRECT-MILL SALES

SEC. 3.1 *Commission-type sales.*—(a) *Addition allowed.* When a sale of your lumber is brought about by the efforts of a lumber commission salesman, your ceiling price is the otherwise applicable ceiling price on the lumber sold plus 4 percent of the f. o. b. mill ceiling price. However, the amount which you may charge to the buyer, pursuant to this section, over and above the otherwise applicable ceiling price, may not exceed the actual commission which you pay to the lumber commission salesman.

(b) *Lumber commission salesman.* The term "lumber commission salesman" means a person who customarily sells lumber in carload quantities for two or more manufacturers, who does not take title to the lumber, assumes no credit risk, receives his compensation

centage figure of 78 is obtained. The

from the manufacturer in the form of commissions based on the amount of lumber sold, and operates independently of both buyers and sellers.

SEC. 3.2 *Retail-type sales*—(a) *Increased f. o. b. mill ceiling prices.* Except as indicated in paragraphs (b) and (c) of this section, your f. o. b. mill ceiling prices in retail-type sales for all lumber covered by this regulation are 15 percent higher than the f. o. b. mill ceiling prices established by this regulation. The increase applies whether the lumber is green, air-dried, or kiln-dried; whether rough or surfaced; and whether or not it is resawn or otherwise worked.

(b) *Exceptions to the application of the increase.* You may not apply the increase authorized by paragraph (a) of this section:

(1) To your ceiling prices determined under the provisions of sections 2.3 and 2.10; or

(2) To your ceiling additions for special widths and/or lengths or to your ceiling additions for kiln-drying, surfacing, and/or resawing allowable under the provisions of sections 2.2 and 2.8, respectively, when the additions involved are derived from a retail-type sale.

(c) *Charges which you must exclude.* A ceiling price determined under paragraph (a) may not be increased by any charges for commissions paid to a lumber commission salesman as authorized in section 3.1, or by any charges for special services as authorized in section 4.1.

(d) *Delivery charges.* You may add an appropriate delivery charge, computed in the manner authorized in section 5.2, provided that you deliver the lumber by truck.

(e) *Definition.* As used in this section, a retail-type sale is a direct mill sale of not more than 10,000 feet to a purchaser who takes delivery at the mill, or who accepts delivery made by truck at a point not more than 50 miles from the mill. It must be a sale of lumber to a contractor or to a consumer for use in construction, remodelling, repair, or maintenance; it is not a sale for use in manufacturing or for resale in substantially the same form.

ARTICLE IV—CEILING PRICE ADDITIONS

SEC. 4.1 *Ceiling price additions* (a) You may add not more than the amounts indicated below to the ceiling prices as set forth in this regulation for the following special services:

(1) Anti-stain treatment: $1.00 per thousand feet.

(2) Stenciling or grade-marking on the face of each piece in a manner which will permit identification and segregation: $1.00 per thousnd feet. (This addition cannot be made for stenciling a trademark.)

(3) Bundling for export: $3.00 per thousand feet.

(4) Packaging in sling loads or otherwise whereby the load is divided into individual parcels to facilitate mechanical unloading and reloading: $3.00 per thousand feet (covering all materials and labor).

NOTE: If lumber is both bundled for export and packaged in sling loads or otherwise, only one charge of $3.00 per thousand feet may be made.

(5) Marking on each piece the surface measure and/or the width and length sizes: $1.00 per thousand feet.

(6) Inspection and issuance of an inspection certificate by the National Hardwood Lumber Association: an amount which does not exceed the inspection fees and expenses charged to the seller by the Association.

(7) Staking, wiring, and separating lumber in open top cars: $25.00 per car (covering all materials and labor).

(8) Erecting on open top cars bulkheads made in conformity with the specifications of the Mechanical Division of the Association of American Railroads: $10.00 per bulkhead (covering all materials and labor).

(b) Except for anti-stain treatment, the additions provided in paragraph (a) of this section may be made only when the special services are specifically requested by the buyer.

ARTICLE V—OTHER CEILING PRICE PROVISIONS

SEC. 5.1 *Grade terms and grading*—(a) *Terms.* All grade terms used in this regulation have the meanings set forth in the "Rules for the Measurement and Inspection of Hardwood Lumber, Cypress, Veneers and Thin Lumber," effective January 1, 1952, published by the National Hardwood Lumber Association.

(b) *Grading.* Lumber bought and sold under this regulation must be graded in accordance with the "Rules for the Measurement and Inspection of Hardwood Lumber, Cypress, Veneers and Thin Lumber," effective January 1, 1952, published by the National Hardwood Lumber Association.

SEC. 5.2 *Delivered ceiling prices.* You are permitted to sell lumber covered by this regulation on a delivered price basis. The delivered ceiling prices are the ceiling prices f. o. b. mill plus an addition for delivery to the purchaser computed as follows (the transportation addition must be rounded to the nearest half dollar):

(a) *Common or contract carrier.* (1) When shipment is made by common or contract carrier, the transportation addition is computed by multiplying the appropriate established weight by the applicable freight rate in effect at time of shipment.

(2) The term "appropriate established weight" means: the applicable weight as shown in the schedules in section 2.1; or, where no applicable weight is shown in the schedules, the applicable weight as set forth in the Rules for the Measurement and Inspection of Hardwood Lumber, Cypress, Veneers, and Thin Lumber," effective January 1, 1952, published by the National Hardwood Lumber Association; or, where an applicable weight is not shown in the tables in section 2.1 or is not set forth in such "Rules", the applicable weight as authorized by the Office of Price Stabilization, Forest Products Division, Washington 25, D. C., pursuant to application by letter. Your letter must set forth a description including thickness and species of the item which is the subject of your application.

(b) *Private trucking.* When shipment is by truck owned or controlled by the seller, you may add $2.00 per thousand feet; or an addition computed in the manner set forth in paragraph (a) of this section, using applicable carload rates, or an amount equal to the applicable common carrier motor freight charges.

(c) *Trucking to railhead.* You may not charge any additional amount for a truck haul preceding rail shipment.

(d) *Truck delivery after rail haul.* For truck delivery following a rail haul, you may add as much as the actual costs per thousand feet incurred.

SEC. 5.3 *Mixed carload or mixed truckload shipments.* (a) In a sale of a mixed carload or mixed truckload shipment to one or more purchasers in which each item is loaded separately in the quantity specified in the order or orders, the following addition per thousand feet applicable to the specified quantity may be made to the f. o. b. mill ceiling prices of each item in the shipment:

Quantity of each item ordered:	*Additions per 1,000 feet for that quantity*
4,000 to 5,000 feet	$2.00
3,000 to 3,999 feet	3.00
2,000 to 2,999 feet	4.00
1,000 to 1,999 feet	5.00
999 feet and less	6.00

(b) As used in this section, the term "mixed carload or mixed truckload shipment" refers to a carload or truckload shipment containing two or more items.

SEC. 5.4 *Green lumber.* (a) Ceiling prices for green lumber are established separately in the tables. In every case, except for Ash, in which lumber is sold which weighs more than 15 percent above the applicable air-dried weights shown in this regulation, it must be sold at not more than the ceiling prices applicable to green lumber.

(b) (1) You may obtain authorization from the Director of Price Stabilization, at his discretion, to apply not more than the ceiling prices for dry lumber to a particular sale of green lumber when the purchaser certifies that the nature of his operations requires the lumber involved in the particular sale to be in green condition. The certification must set forth the reason why the purchaser requires the lumber to be green. Application for such authorization must be by letter sent to the Office of Price Stabilization, Forest Products Division, Washington 25, D. C., and should contain a statement as to the kind of lumber required, and also a copy of the purchaser's certification covering the lumber involved in the sale.

(2) Approval must be obtained from the Director of Price Stabilization before you may sell, under the provisions of this paragraph, green lumber at prices higher than the ceiling prices otherwise provided in this regulation.

(c) (1) When a buyer requires special items of No. 1 Common or No. 1 Common and Better of a species and thickness not ordinarily cut and stocked by mills, and the buyer is unable to buy dry lumber, he may apply by letter to the Office of Price Stabilization, Forest Products Division, Washington 25, D. C., for authorization of special ceiling prices for such special items lumber.

(2) An application should be submitted for every order placed under the provisions of this section, and should state the proposed seller's name and address, a description (including species, grade and thickness) of the item or items required, and the reason for the necessity of accepting green lumber. Approval, if granted, will be rendered both to the buyer and the named seller. The approval will allow sale of such special items, cut on special order, and shipped in green or partially dry condition, at not more than 90 percent of the ceiling price for air-dried lumber of the same grade and thickness in the species of Basswood, Poplar, Hackberry, and Soft Maple, and at not more than 87½ percent of the ceiling price for air-dried lumber of the same grade and thickness in all other species.

(3) Approval must be obtained from the Director of Price Stabilization before orders are placed or sales are made under this paragraph.

SEC. 5.5 *Discount for cash.* If the buyer pays cash, your ceiling prices determined under other provisions of this regulation are reduced by the amount of the discount which, during the period from January 25, 1951, through February 24, 1951, you allowed a purchaser of the same class for the payment of cash within the same period of time. If you were not in business between January 25, 1951, and February 24, 1951, your ceiling prices determined under other provisions of this regulation are reduced by 2 percent for cash payment within 10 days from date of invoice or date of bill of lading, whichever is later.

ARTICLE VI—MISCELLANEOUS PROVISIONS

SEC. 6.1 *Modification of proposed ceiling prices by Director of Price Stabilization.* The Director of Price Stabilization may at any time disapprove or reduce ceiling prices determined under this regulation so as to bring them into line with the level of ceiling prices otherwise established by this regulation.

SEC. 6.2 *Petitions for amendment.* If you wish to have this regulation amended, you may file a petition for amendment in accordance with the provisions of Price Procedural Regulation 1, Revision 2.

SEC. 6.3 *Adjustable pricing.* Nothing in this regulation prohibits you from making a contract or offer to sell at (a) the ceiling price in effect at the time of delivery, or (b) the lower of a fixed price or the ceiling price in effect at the time of delivery. You may not, however, deliver or agree to deliver at a price to be adjusted upward in accordance with any increase in ceiling prices after delivery.

SEC. 6.4 *Records*—(a) *Existing records.* On and after the effective date of this regulation, for so long as the Defense Production Act of 1950, as amended, shall remain in effect and for two years thereafter, you shall preserve all your existing records relating to the prices which you received or charged for the items, and for the basic, comparison, or standard items and differentials, referred to in sections 2.2, 2.3, 2.8, and 2.10, which you sold or contracted to sell during the period January 25, 1951, through February 24, 1951; and you shall continue to preserve, for the applicable periods specified in section 16 of the General Ceiling Price Regulation, all other existing records that you were required to keep under the provisions of section 16 of the General Ceiling Price Regulation.

(b) *Current records.* Every person who sells and every person who in the regular course of trade or business buys lumber covered by this regulation, totaling $500 or more in any one month, shall make and keep for inspection by the Director of Price Stabilization for a period of two years, accurate records of each sale or purchase made in such month. The records must show the following:

(1) Date of purchase or sale;

(2) Name and address of buyer and seller;

(3) The price or prices of the covered items, including discounts paid or received, and all other direct or indirect considerations given or received, and rebates made or taken;

(4) A description of the item of lumber sold, showing the species, grade, sizes, condition (green, air-dried, or kiln-dried), workings, specifications or other extras, which affect the ceiling price, together with the quantity thereof;

(5) Origin of shipment; and when sold on a delivered basis, destination of shipment;

(6) Means of transportation used.

The retention by a purchaser of an invoice furnished by a seller, or the retention by a seller of a settlement sheet furnished by a buyer, which includes the factual information required to be made a matter of record by this section, shall be considered as compliance with the provisions of this section by the purchaser or seller retaining such invoice or settlement sheet.

(c) *Other records.* If you apply for approval of a proposed ceiling price for special specifications under section 2.10 of this regulation, you shall preserve or make and you shall keep for inspection by the Director of Price Stabilization for so long as the Defense Production Act of 1950, as amended, shall remain in effect and for two years thereafter, accurate records from which you obtained the data you submit in connection with your application for such ceiling price.

SEC. 6.5 *Invoices.* (a) On all sales of lumber covered by this regulation, except those for which you receive a settlement sheet from the buyer, you must submit an invoice to the buyer which includes a description (species, grades, and sizes) and the quantity of each item of lumber involved. Any working, condition (green, air-dried or kiln-dried), specification, extra, or service for which a charge is made, or which otherwise has a bearing upon the ceiling price, must be separately set forth in the invoice, but the invoice need not show separately the charges for such items.

(b) For sales made on an f. o. b. basis, in addition to the information required by paragraph (a) of this section, your invoice must show the f. o. b. price.

(c) For sales made on a delivered basis, in addition to the information required by paragraph (a), your invoice must show:

(1) The delivered price;

(2) The destination of the shipment; and

(3) The applicable rail, truck, or water freight rate; or the transportation charged.

SEC. 6.6 *Interpretations.* If you want an official interpretation of this regulation, you should write to the District Counsel of your local OPS District Office. Any action taken by you in reliance upon, and in conformity with a written official interpretation will constitute action in good faith pursuant to this regulation. Further information on obtaining official interpretations is contained in Price Procedural Regulation 1, Revision 2.

SEC. 6.7 *Prohibitions and violations.* (a) You shall not do any act prohibited or omit to do any act required by this regulation, nor shall you offer, solicit, attempt, or agree to do or omit to do any such acts. Specifically, but not in limitation of the above, you shall not, regardless of any contract or other obligation, sell and no person in the regular course of trade or business shall buy from you at a price higher than the ceiling prices established by this regulation, and you and buyers from you shall keep, make, and preserve true and accurate records and reports required by this regulation. Prices lower than the ceiling prices may be charged, paid, or offered.

(b) If you violate any provisions of this regulation, you are subject to criminal penalties, enforcement actions, and actions for damages.

(c) If any person subject to this regulation fails to prepare or keep any record or file any report required by this regulation in connection with the establishment of his ceiling price, or if any person subject to this regulation fails to establish a ceiling price or apply to the Office of Price Stabilization for the establishment of a ceiling price, if he is required to do so, the Director of Price Stabilization may issue an order fixing his ceiling prices. Any ceiling price fixed in this manner will be in line with ceiling prices generally established by this regulation. The order fixing the ceiling price may apply to all deliveries or transfers completed prior to the date of issuance of the order. The issuance of such an order will not relieve the seller of his obligation to comply with the requirements of this regulation or of the various penalties for failure to do so.

SEC. 6.8 *Evasions.* Any means or devices which result in obtaining directly or indirectly a higher price than is permitted by this regulation, or in concealing or falsely representing information in records which this regulation requires to be kept, is a violation of this regulation. This prohibition includes, but is not limited to, means or devices making use of commissions, services, cross sales, transportation arrangements, premiums, discounts, special privileges, up-grading,

tie-in agreements, and trade understandings, as well as the omission from records of true data and the inclusion in records of false data.

SEC. 6.9 *Definitions.* As used in this regulation, the terms in this section have the following meanings:

Appropriate established weight. This term is defined in section 5.2 (a).

Director of Price Stabilization. This term extends to any official (including officials of regional or district offices) to whom the Director of Price Stablization, by order, delegates a function, power, or authority referred to in this regulation.

Feet. This term means board feet for all lumber 4/4" and thicker, and means surface feet for all lumber thinner than 4/4".

F. o. b. mill. This term means loaded on cars at mill railhead or siding; loaded on scow or barge alongside a mill dock; or, where the only means of conveyance used is a truck, other motor vehicle, or wagon, loaded on such vehicles at the mill site.

Kiln-dried lumber. This term refers to green or air-dried lumber that is dried in a kiln to a specified moisture content.

Lumber commission salesman. This term is defined in section 3.1.

Manufacturer, sawmill, planing mill, and concentration yard. These terms are defined in section 1.4 (b). Note particularly that the term "mill" as used throughout the regulation includes sawmills, planing mills, and concentration yards.

Most closely competitive seller. This term is defined in section 2.10 (a) (3) (iii).

Person. This term includes any individual, partnership, corporation, association, or any organized group of persons; their legal successors or representatives; and the United States or any other government or their political subdivisions or agencies.

Purchaser of the same class. The meaning of this term is determined by reference to your own practice of setting different prices for sales to different purchasers or groups of purchasers. The practice may, but need not, be based on the characteristics or distributive level of the buyer; for instance, manufacturer, wholesaler, individual retail store, retail chain, mail order house, government agency, or public institution. It may, but need not, be based on the location of the purchaser or the quantity or kinds of lumber purchased by him. It may, but need not, be based on differing terms or conditions of sale or delivery. If you have followed the practice of giving an individual customer a price differing from that charged others, that customer is a separate class of purchaser.

Records. This term includes books of account, sales lists, sales slips, orders, vouchers, contracts, receipts, invoices, bills of lading, settlement sheets, and other papers and documents.

Residue and ungraded lumber. These terms are defined in sections 2.6 and 2.7 respectively.

Retail-type sale. This term is defined in section 3.2.

Sell. This term includes sell, supply, dispose, barter, trade, exchange, lease, transfer, deliver, and contracts and offers to do any of the foregoing. The terms "buy" and "purchase" shall be construed accordingly.

South Central hardwood and Yellow Cypress lumber. These terms are defined in section 1.3 (b) and (c).

South Central Hardwood Lumber Region. This term is defined in section 1.3 (d).

Special grading terms. The special grading terms used in this regulation are enumerated and defined in section 5.1.

Surfaced lumber. "Surfaced lumber," also known as "worked" or "dressed" lumber, is lumber planed to a smooth finish, generally surfaced to a specified thickness. The process of producing surfaced lumber is known as "surfacing," "dressing," or "planing."

You. The pronoun "you" indicates any manufacturer who sells lumber subject to this regulation. The term "your" should be construed accordingly.

Effective date. This regulation is effective December 16, 1952.

NOTE: The reporting and record-keeping rquirements of this regulation have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

DECEMBER 11, 1952.

[F. R. Doc. 52-13206; Filed, Dec. 11, 1952; 4:08 p. m.]

[General Overriding Regulation 32, Special Order 11]

GOR 32—ADJUSTMENT OF CEILING PRICES FOR MATERIALS TO THE MINIMUM PRICES FIXED BY STATE LAWS

SO 11—CIGARETTES SOLD "OUT OF STOCK" BY WHOLESALE TOBACCO DISTRIBUTORS IN MONTANA

CEILING PRICES RAISED TO CONFORM WITH THE MONTANA UNFAIR PRACTICES ACT

Statement of considerations. This special order raises the ceiling prices of Montana wholesale tobacco distributors for "out of stock" cigarette sales where necessary to conform with the level of minimum prices required to be charged by the Montana Unfair Practices Act and Report and Order No. 1, Docket No. 2-49, of the Montana Trade Commission issued pursuant to that act. The term "out of stock" sales as here used means that type of sale which is described in Report and Order No. 1, Docket No. 2-49, of the Montana Trade Commission as any transaction in which the merchandise or any part of it passes through the hands of the distributors regardless of what such transactions are called in the trade. This special order does not affect the ceiling prices for other types of sales of cigarettes subject to the Montana Act nor does it presently affect the ceiling prices for this type of sale where such ceiling prices are at or above the minimum prices required by that act and the Commission's Order, immediately prior to the effective date of this order. Provision is also made for the adjustment of ceiling prices of Montana wholesale tobacco distributors for out of stock cigarette sales in the event of a change in the minimum prices computed pursuant to the Montana Act and the Commission's Order, and in some instances for the establishment of ceiling prices of new brands of cigarettes sold out of stock by wholesale tobacco distributors in Montana.

This special order is issued pursuant to section 5 of General Overriding Regulation (GOR) 32. That regulation was issued by the OPS to conform to the requirements of section 402 (l) of the Defense Production Act of 1950, as amended. GOR 32 sets forth certain facts which must be shown to exist in a particular State before the OPS is required by the above-noted statutory provision to raise ceiling prices to the minimum prices required by the law of that State.

It appears from the information contained in the application of the Montana Trade Commission that the Montana Unfair Practices Act was in effect and enforced on June 30, 1952, and on October 16, 1952 (the date of application); that Report and Order No. 1, Docket No. 2-49, of the Montana Trade Commission was authorized by law and lawfully adopted and issued; that the Act and Report and Order No. 1, Docket No. 2-49, of the Montana Trade Commission have not been held invalid by any court of competent jurisdiction and that the ceiling prices of some cigarettes sold out of stock by wholesale tobacco distributors in the State of Montana are lower than the minimum prices required to be charged by the Montana Act.

Special provisions. For the reasons set forth in the Statement of Considerations and pursuant to section 5 of GOR 32 this special order is hereby issued.

1. Ceiling prices for out of stock sales of cigarettes by wholesale tobacco distributors subject to the Montana Unfair Practices Act and Report and Order No. 1, Docket No. 2-49, of the Montana Trade Commission, which are below the minimum sales prices computed pursuant to that act and the Commission's Order, as specified in paragraph 5 hereof, are hereby raised to those minimum sales prices. The terms "out of stock sales" and "wholesale tobacco distributors" are to have the same meaning as that given to them in Report and Order No. 1, Docket No. 2-49, of the Montana Trade Commission.

2. If the minimum prices for brands of cigarettes sold out of stock by Montana wholesale tobacco distributors on October 16, 1952, are increased after that date pursuant to the Montana Unfair Practices Act and Report and Order No. 1, Docket No. 2-49, of the Montana Trade Commission (hereinafter referred to as the Montana Act and the Commission's Order, respectively) such higher minimum prices shall become ceiling prices for those brands as hereinafter specified in this paragraph, upon the sending of a report by the Montana Trade Commission by registered mail to the Grocery Products Branch, Office of Price Stabilization, Washington 25, D. C. That report will indicate the reason for the change as well as the computations by which the new required minimum prices have been determined and will list the new prices for various brands of cigarettes. The higher minimum prices so reported shall be established as ceiling prices for the sellers affected by paragraph 1 hereof and any other wholesale tobacco distributor subject to the Montana Act and the Commission's Order whose ceiling prices for out of stock sales would, as a result of such change, be below the new required minimum prices. If the minimum prices for brands of cigarettes sold out of stock by wholesale tobacco distributors subject to the Montana Act and the Commission's Order on October 16, 1952, are decreased after that date pursuant to the Montana Act and the Commission's Order, ceiling prices for the sellers affected by paragraph 1 hereof shall be established at the new minimum prices. However, where such lower prices are below the ceiling prices in effect immediately prior to the date of this special order, these ceiling prices shall be in effect after such change in the minimum prices.

3. If new brands of cigarettes are sold in Montana after October 16, 1952, the wholesale tobacco distributors subject to the Montana Act and the Commission's Order who are unable to compute ceiling prices for out of stock sales of the new brands pursuant to section 5 of the General Ceiling Price Regulation (because their comparison brands are not priced under section 3 of the General Ceiling Price Regulation but are priced under paragraph 1 or 2 of this special order) shall take as their ceiling prices for out of stock sales of such new brands the minimum sales prices computed for them in accordance with the Montana Act and the Commission's Order. These prices will be established as ceiling prices for such wholesale tobacco distributors making out of stock cigarette sales upon the sending of a report by the Montana Trade Commission by registered mail to the Grocery Products Branch, Office of Price Stabilization, Washington 25, D. C. This report will set forth the brand names of cigarettes and the minimum sales prices required to be charged for them in accordance with the Montana Act and the Commission's Order and will indicate how these minimum prices were computed.

4. Nothing in this special order shall prevent a wholesale tobacco distributor subject to the Montana Act and the Commission's Order whose ceiling prices for out of stock sales of cigarettes would be affected by the filing of the report by the Montana Trade Commission, as set forth in paragraph 2 or 3 hereof, from filing such report in his own behalf. The individual wholesale tobacco distributor may use as his ceiling prices for out of stock sales of cigarettes the minimum prices required by the Montana Act and the Commission's Order upon his mailing of such report unless and until such seller is notified by OPS that the reported prices are disapproved or that further information is required. In the event of a request for further information the reported minimum prices shall not be used as ceiling prices until such further information is sent by registered mail to the Grocery Products Branch, Office of Price Stabilization, Washington 25, D. C.

5. As used in this special order, the term "Montana Unfair Practices Act" means that Act as amended up to June 30, 1952 (Montana Unfair Practices Act, Title 51, Chapter 1, Revised Codes of Montana, 1947, as amended by Chapter 129, Laws of 1949) and the term "Report and Order No. 1, Docket No. 2-49 of the Montana Trade Commission" means that Order as corrected by the Montana Trade Commission on October 16, 1952.

6. This special order or any provision hereof may be revoked, suspended, or amended by the Director of Price Stabilization.

(Sec. 704, 64 Stat. 816, as amended; 50 U. S. C. App. Sup. 2154)

Effective date. This special order is effective December 13, 1952.

NOTE: The record-keeping and reporting requirements of this special order have been approved by the Bureau of the Budget in accordance with the Federal Reports Act of 1942.

JOSEPH H. FREEHILL,
Acting Director of Price Stabilization.

Chapter VI—National Production Authority, Department of Commerce

[NPA Reg. 2, Direction 5—Revocation]

REG. 2—BASIC RULES OF THE PRIORITIES SYSTEM

DIR. 5—RESCHEDULING OF DELIVERIES UNDER NPA DIRECTIVES AFFECTED BY WORK STOPPAGE IN STEEL INDUSTRY

REVOCATION

Direction 5 (17 F. R. 7395) to NPA Reg. 2, as amended, is hereby revoked.

This revocation does not relieve any person of any obligation or liability incurred under Direction 5 to NPA Reg. 2, as amended, nor deprive any person of any rights received or accrued under that direction prior to the effective date of this revocation.

(64 Stat. 816, Pub. Law 429, 82d Cong.; 50 U. S. C. App. Sup. 2154)

This revocation shall take effect December 12, 1952.

NATIONAL PRODUCTION AUTHORITY,
By GEORGE W. AUXIER,
Executive Secretary.

TITLE 49—TRANSPORTATION

Chapter I—Interstate Commerce Commission

PART 121—SEPARATION OF OPERATING EXPENSES BETWEEN FREIGHT AND PASSENGER SERVICES [1]

STEAM RAILROADS; SEPARATION OF OPERATING EXPENSES, TAXES, EQUIPMENT RENTS, AND JOINT FACILITY RENTS BETWEEN FREIGHT SERVICE AND PASSENGER SERVICE

At a session of the Interstate Commerce Commission, Division 1, held at its office in Washington, D. C., on the 18th day of November A. D. 1952.

The matter of rules governing the separation of operating expenses, taxes, equipment rents, and joint facility rents between freight service and passenger service on class I line-haul steam railroad companies being under consideration pursuant to the provisions of part I of the Interstate Commerce Act as amended (sec. 12, 24 Stat. 383, as amended, sec. 20, 24 Stat. 386, as amended; 49 U. S. C. 12, 20).

It is ordered, That the order dated November 11, 1935, in the matter of rules governing the separation of operating expenses, taxes, equipment rents, and joint facility rents between freight service and passenger service on large steam railroads, (49 CFR 121.0 to 121.70) be, and it is hereby, vacated and set aside, effective January 1, 1953, except so far as it relates to periods of time prior to that date, and the following order be and it is hereby substituted therefor.

§ 121.0 *Separation of operating expenses.* Effective as of January 1, 1953, and thereafter until otherwise ordered, all class I steam railroad companies, except switching and terminal companies of class I (§ 126.1 of this chapter) subject to the provisions of section 20 of the Interstate Commerce Act as amended:

(a) Shall classify each of its various items of disbursement relating to operating expenses, railway taxes, equipment rents, and joint facility rents according to the relation which such item bears to the freight service and to the passenger and allied services of the carrier. Each such item shall have its character appropriately indicated on the carrier's records according to its relation (1) solely to freight service, or (2) solely to passenger and allied services, or (3) in common to both freight service and passenger and allied services, or (4) to neither freight service or passenger and

[1] The accounts mentioned in this part refer to and agree with Part 10 of this chapter.

allied services. The results of such classification shall be shown in the annual or other reports made by each such carrier to the Interstate Commerce Commission, as may be indicated in forms adopted therefor. Similar analysis shall be made of every journal entry representing a charge or credit to the above-named accounts and the results of such analysis shall be appropriately indicated on the carrier's records;

(b) The operating expenses, railway taxes, equipment rents, and joint facility rents common to both freight service and passenger and allied services shall be apportioned between the two classes of service in accordance with the annexed "Rules Governing the Separation of Operating Expenses, Railway Taxes, Equipment Rents, and Joint Facility Rents Between Freight Service and Passenger Service on Class I Line-Haul Steam Railroads," which are hereby approved and made a part hereof; and the result of such apportionment shall be shown in detail for the various primary accounts in the annual or other reports of each such carrier to the Interstate Commerce Commission as may be indicated in forms adopted therefor (§ 120.11 of this chapter).

It is further ordered, That a copy of this order and the attached rules shall be served upon every class I steam railroad (except switching and terminal companies) subject to part I of the Interstate Commerce Act, and upon every receiver, trustee, executor, administrator, or assignee of any such steam railroad; and notice of this order shall be given to the general public by depositing a copy thereof in the office of the Secretary of the Commission at Washington, D. C., and by filing it with the Director of the Division of the Federal Register.

Objections may be filed. Any interested party may on or before 45 days after the date of this order file with the Commission a written statement of reasons why the said order should not become effective as provided above. Unless otherwise ordered after consideration of such objections, the said order shall become effective as herein ordered.

By the Commission, Division 1.

[SEAL] GEORGE W. LAIRD,
Acting Secretary.

121.3 Station and office buildings (account 227).
121.4 Roadway buildings (account 229).
121.5 Water stations (account 231).
121.6 Fuel stations (account 233).
121.7 Shops and enginehouses (account 235).
121.8 Grain elevators; storage warehouses; wharves and docks; and coal and ore wharves (accounts 237–243).
121.9 Communication systems (account 247).
121.10 Signals and interlockers (account 249).
121.11 Power plants (account 253).
121.12 Power-transmission systems; and miscellaneous structures (accounts 257–265).
121.13 Road property; depreciation; retirements; road; and deferred maintenance; way and structures, etc. (accounts 266–268).
121.14 Roadway machines (account 269).
121.15 Dismantling retired road property (account 270).
121.16 Small tools and supplies; removing snow, ice, and sand; and public improvements; maintenance (accounts 271–273).
121.17 Injuries to persons; insurance; stationery and printing; and other expenses (accounts 274–277).
121.18 Maintaining joint tracks, etc. (accounts 278–279).
121.19 Right-of-way expenses (account 281).

MAINTENANCE OF EQUIPMENT

121.20 Superintendence (account 301).
121.21 Shop machinery (account 302).
121.22 Power-plant machinery (account 304).
121.23 Shop and power-plant machinery; depreciation; and dismantling retired shop and power-plant machinery (accounts 305–306).
121.24 Steam locomotives; repairs (account 308).
121.25 Other locomotives; repairs (account 311).
121.26 Freight-train cars, and passenger-train cars; repairs (accounts 314–317).
121.27 Floating equipment; repairs (account 323).
121.28 Work equipment; repairs (account 326).
121.29 Miscellaneous equipment; repairs (account 328).
121.30 Dismantling retired equipment (account 329).
121.31 Retirements; equipment (account 330).
121.32 Equipment; depreciation (account 331).
121.33 Injuries to persons; insurance; stationary and printing; and other expenses (accounts 332–335).
121.34 Joint maintenance of equipment expenses, etc. (accounts 336–337).
121.35 Deferred maintenance; equipment, etc.; and major repairs; equipment, etc. (accounts 339–340).

TRAFFIC

121.36 Superintendence; outside agencies; advertising; traffic associations; fast freight lines; industrial and immigration bureaus; insurance; stationery and printing; and other expenses (accounts 351–359).

TRANSPORTATION; RAIL LINE

121.37 Superintendence (account 371).
121.38 Dispatching trains (account 372).
121.39 Station employees (account 373).
121.40 Weighing, inspection, and demurrage bureaus; and coal and ore wharves (accounts 374–375).
121.41 Station supplies and expenses (account 376).
121.42 Yardmasters and yard clerks; yard conductors and brakemen; yard switch and signal tenders; and yard enginemen (accounts 377–380).
121.43 Yard switching fuel (account 382).
121.44 Yard switching power produced; and purchased (accounts 383–384).
121.45 Water for yard locomotives (account 385).
121.46 Lubricants (and other supplies) for yard locomotives; enginehouse expenses, yard; and yard supplies and expenses (accounts 386–389).
121.47 Operating joint yards and terminals, etc. (accounts 390–391).
121.48 Train enginemen; train fuel; train power produced; and train power purchased (accounts 392–396).
121.49 Water for train locomotives (account 397).
121.50 Lubricants for train locomotives; and other supplies for train locomotives (accounts 398–399).
121.51 Enginehouse expenses; train (account 400).
121.52 Trainmen; and train supplies and expenses (accounts 401–402).
121.53 Operating sleeping cars (account 403).
121.54 Signal and interlocker operation; and crossing protection (accounts 404–405).
121.55 Drawbridge operation (account 406).
121.56 Communication system operation (account 407).
121.57 Operating floating equipment (account 408).
121.58 Stationery and printing (account 410).
121.59 Other expenses (account 411).
121.60 Operating joint tracks and facilities, etc. (accounts 412–413).
121.61 Insurance; clearing wrecks; damage to property; and damage to live stock on right-of-way (accounts 414–417).
121.62 Loss and damage, freight (account 418).
121.63 Loss and damage, baggage (account 419).
121.64 Injuries to persons (account 420).

MISCELLANEOUS OPERATIONS

121.65 Miscellaneous operations: dining and buffet service; hotels and restaurants; grain elevators; producing power sold; other miscellaneous operations; and operating joint miscellaneous facilities, etc. (accounts 441–448).

GENERAL EXPENSES

121.66 General expenses: salaries and expenses of general officers, and of clerks and attendants; general office supplies and expenses; law expenses; insurance; relief department expenses; pensions and gratuities; stationery and printing; valuation expenses; other expenses; and general joint facilities, etc. (accounts 451–462).

INCOME ACCOUNT

TAXES, EQUIPMENT RENTS, AND JOINT FACILITY RENTS

121.67 Hire of freight cars, credit balance (account 503).
121.68 Rent from locomotives (account 504).
121.69 Rent from passenger-train cars (account 505).
121.70 Rent from floating equipment (account 506).
121.71 Rent from work equipment (account 507).
121.72 Joint facility rent income (account 508).
121.73 Railway tax accruals (account 532).

Sec.
121.74 Hire of freight cars, debit balance (account 536).
121.75 Rent for locomotives; for passenger-train cars; and for floating equipment (accounts 537–539).
121.76 Rent for work equipment (account 540).
121.77 Joint facility rents (account 541).

CHARGES AND CREDITS BETWEEN SERVICES

121.78 Charges and credits between services.

AUTHORITY: §§ 121.01 to 121.78 issued under sec. 12, 24 Stat. 383, as amended, sec. 20f, 54 Stat. 933; 49 U. S. C. 12, 904. Interpret or apply sec. 20, 24 Stat. 386, as amended, 54 Stat. 944; 49 U. S. C. 20, 913.

RULES GOVERNING THE SEPARATION OF RAILWAY OPERATING EXPENSES, TAXES, EQUIPMENT RENTS, AND JOINT FACILITY RENTS BETWEEN FREIGHT SERVICE AND PASSENGER SERVICE

GENERAL

§ 121.01 *Expenses directly assigned.* Carriers shall first assign to freight service or to passenger service, including allied services, the expenses that are directly or naturally assignable to such services, respectively, except as stated below.

§ 121.02 *Methods.* The methods indicated under the various accounts are for dividing the common expenses. The test of whether an item of expense is direct or common should be based upon whether the service performed or the use of the facility is related solely to the freight service or to the passenger service, on the one hand, or, on the other hand, is common to both freight and passenger services.

§ 121.03 *Made by accounting divisions.* The separation shall be made by accounting divisions, where such divisions are maintained, and the aggregate of the accounting divisions reported for the year.

§ 121.04 *Special test.* When the separation of expenses between freight and passenger services is based upon a special test, such test should be made at sufficiently frequent intervals to represent actual operating conditions.

§ 121.05 *Instructions for apportioning.* Where groups of accounts are hereinafter stated, the instructions immediately thereunder apply to each account in the group.

OPERATING EXPENSES

MAINTENANCE OF WAY AND STRUCTURES

§ 121.1 *Superintendence (account 201).* Assign directly as per § 121.01. Apportion common expenses according to propositions of accounts 202 to 265, inclusive, 269 to 277, inclusive, and 281, excluding common expenses in accounts 247, and 274 to 277, inclusive.

§ 121.2 *Roadway maintenance; tunnels and subways; bridges, trestles, and culverts; elevated structures; ties; rails; other track material; ballast; track laying and surfacing; and fences, snowsheds, and signs (accounts 202–221).* (a) Separate all tracks which are maintained by respondent into the following three classes: Yard switching tracks, Way switching tracks, and Running tracks, as defined in subparagraphs (1) through (3) of this paragraph:
